#### INDEPENDENT AUDITORS' REPORT

June 7, 2007

Honorable Mayor and the Board of Aldermen CITY OF WENTZVILLE, MISSOURI

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the CITY OF WENTZVILLE, MISSOURI (the City) as of and for the year ended December 31, 2006, which collectively comprise the City's financial statements as listed in the accompanying table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information as of December 31, 2006, and the respective changes in financial position and cash flows, where applicable, for the year then ended, in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued a report dated June 7, 2007, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and

16100	Chesterfield Parkway West, Suite 125, Chesterfield, Missouri 63017-4829, 636-532-9525, Fax 6	36-532-9055
□ 1000 ¹	Washington Square, P.O. Box 1457, Washington, Missouri 63090-8457, 636-239-4785, Fax 636-2	39-5448
	V.	

compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and required supplemental information, as listed in the table of contents, are not a required part of the financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements taken as a whole. The other supplemental information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Hochechild, Bloom & Company LLP CERTIFIED PUBLIC ACCOUNTANTS

Our discussion and analysis of the City of Wentzville, Missouri's (the City) financial performance provides an overview of the City's financial activities for the fiscal year ended December 31, 2006. Please read it in conjunction with the City's financial statements, which follows this section.

#### FINANCIAL HIGHLIGHTS

- For the fiscal year ended December 31, 2006, the City's total net assets increased by \$31,880,223 from \$65,655,213 to \$97,535,436, or 49% from the prior year.
- During the year, the City's expenses for governmental activities were \$17,408,184 and were funded by program revenues of \$20,284,370 and further funded with taxes and other general revenues that totaled \$16,330,070.
- In the City's business-type activities, such as utilities, program revenues exceeded expenses by \$11,962,153.
- General Fund fund balance increased \$1,243,937. At December 31, 2006, the General Fund fund balance of \$7,014,877 is an increase of 22% from the prior year.
- Park Fund has a fund balance of \$311,800 after receiving transfers totaling \$745,895 from the General Fund and the Capital Improvement Fund.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

The financial statements presented herein include all of the activities of the City and its component units using the integrated approach as prescribed by GASB Statement No. 34. Included in this report are governmental-wide statements for each of three categories of activities - governmental and business-type - along with blended component units. The government-wide financial statements present the complete financial picture of the City from the economic resources measurement focus using the accrual basis of accounting. They present governmental activities and business-type activities separately and combined. These statements include all assets of the City (including infrastructure capital assets) as well as all liabilities (including all long-term debt).

## Reporting the City as a Whole

#### The Statement of Net Assets and the Statement of Activities

One of the most frequently asked questions about the City's finances is, "Has the City's overall financial condition improved, declined, or remained steady over the past year?" The Statement of Net Assets and the Statement of Activities report information about the City as a whole and about its activities in a way that he ps answer this question. These statements include all assets and liabilities using the accrual basis of accounting. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two government-wide statements report the City's net assets and changes in them from the prior year. You can think of the City's net assets - the difference between assets and liabilities - as one way to measure the City's financial condition, or position. Over time, increases or decreases in the City's net assets are one indicator of whether its financial health is improving, deteriorating, or remaining steady. However, you must consider other nonfinancial factors, such as changes in the City's tax base, the condition of the City's roads, and the quality of services to assess the overall health and performance of the City.

As mentioned above, in the Statement of Net Assets and the Statement of Activities, we divide the City into three kinds of activities:

- Governmental activities -- Most of the City's basic services are reported here, including the police, general administration, streets, and parks. Sales taxes, franchise fees, fines, and state and federal grants finance most of these activities.
- Business-type activities -- The City charges a fee to customers to help cover all or most of the cost of certain services it provides. The City's water, wastewater, and sanitation activities are reported here.
- Blended component units -- These account for activities of the City's reporting entity that meet the criteria for blending, specifically Economic Development Council.

## Reporting the City's Most Significant Funds

#### **Fund Financial Statements**

The fund financial statements provide detailed information about the most significant funds - not the City as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money.

Governmental funds -- Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic service it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The differences of results in the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

Proprietary funds -- When the City charges customers for the services it provides - whether to outside customers or to other units of the City - these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Assets and the Statement of Activities. In fact, the City's Enterprise Funds are essentially the same as the business-type activities we report in the government-wide statements but provide more detail and additional information, such as cash flows. This includes an Internal Service Fund where cost is centralized then fully allocated out the departments of the City.

Fiduciary funds -- The City is responsible for assets that - because of a trust arrangement or other fiduciary requirement - can be used only for trust beneficiaries or others parties. The City is responsible for ensuring that the assets reported in these funds are used for their intended purpose. All of the City's fiduciary activities are reported in a separate Statement of Fiduciary Net Assets and a Statement of Changes in Fiduciary Net Assets. We exclude these activities from the City's government-wide financial statements because the City cannot use these assets to finance operations.

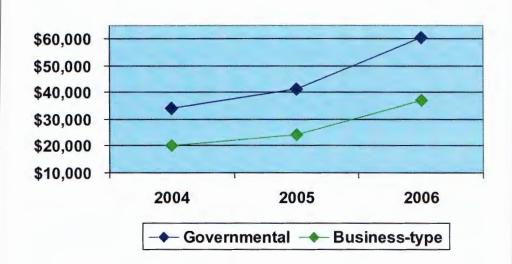

#### A FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

#### **Net Assets**

The City's combined net assets increased from approximately \$65,655,213 to \$97,535,436 between fiscal years 2005 and 2006. Looking at the net assets of governmental and business-type activities separately, governmental activities had a larger increase than business-type activities.

2006

Change in Net Assets

The City's governmental activities' increase in net assets of \$19,188,761 represents a 162% positive change from the prior year. The business-type activities' increase in net assets of \$12,691,462 represents a 216% positive change in net assets. The results indicate the City, as a whole, improved its financial condition from the prior year. The major reason the governmental fund increased was \$13,676,558 in dedicated stormwater lines and streets in 2006, compared to \$2,286,334 in 2005. In business-type activities dedicated water and sewer lines increased by \$7,463,665 in 2006. Along with holding expenditures for the general government activities to a \$1,867,342 increase or 12% while revenues increased by \$13,627,284 or 59%. In the business-type activities, there was an increase due to the growth in the customer base. Revenues increased by 78% while the expenditures went up 9% and net assets increased by 52% which was an 32% increase in growth from 2005.

2005

### **Governmental Activities**

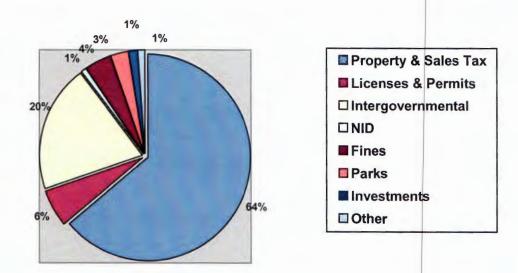

#### Government-wide

To aid in the understanding of the Statement of Activities some additional explanation is given. Of particular interest is the format that is significantly different than a typical Statement of Revenues, Expenditures, and Changes in Fund Balances. You will notice that expenses are listed in the first column with revenues from that particular program reported to the right. The result is net revenues (expenses). The reason for this kind of format is to highlight the relative financial burden of each of the functions on the City's taxpayers. It also identifies how much each function draws from the general revenues or if it is self-financing through fees and grants or contributions. All other governmental revenues are reported as general. It is important to note all taxes are classified as general revenue even if restricted for a specific purpose

For the year ended December 31, 2006, total expenses for governmental activities amounted to \$17,408,184. Of these total expenses, taxpayers and other general revenues before transfers funded \$16,330,070, while those directly benefiting from the program funded \$18,638,826 from grants and other contributions and \$1,645,544 from charges for services.

For the year ended December 31, 2006, the City's governmental funds activities were as follows:

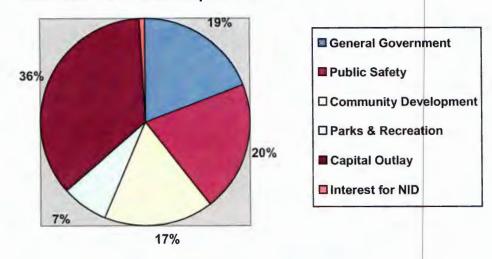

## **Governmental Funds Revenues**

# CITY OF WENTZVILLE, MISSOURI MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE YEAR ENDED DECEMBER 31, 2006

## **Governmental Funds Expenditures**

#### **Governmental Activities**

	Total Expense of Services	Net Revenues (Expense) of Services
	2006	2006
General government	\$ 4,734,747	(3,627,489)
Public safety	5,069,540	(4,900,917)
Community development	5,371,645	12,929,688
Parks and recreation	2,007,723	(1,300,567)
Interest on long-term debt	224,529	(224,529)
Total	\$17,408,184	2,876,186

## **Business-type Activities**

In reviewing the business-type activities net revenues (expenses), the following highlights should be noted:

• Total business-type activities reported net program related revenues of \$11,963,693 for the year ended December 31, 2006.

	Total Expense of Services	Net Revenues (Expense) of Services
	2006	2006
Water/wastewater	\$6,084,130	11,405,404
Trash/natural gas	1,313,118	(18,692)
WEDC	1,704,047	576,981
Total	\$9,101,295	11,963,693

#### A FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As the City completed its 2006 fiscal year, the governmental funds reported a combined fund balance of \$6,452 253 or a 3% decrease from the prior year. The Enterprise Funds reported combined net assets of \$36,985,580 or a 52% increase from 2005.

Other fund highlights include:

- For the year ended December 31, 2006, the General Fund's total fund balance increased by \$1,243,937 or 22%.
- The Park Special Revenue Fund's total fund balance increased by \$64,055 including a transfer in of \$745,895.
- The Water/Wastewater Fund reported an increase in net assets, after transfers, for the year ended December 31, 2006, with the Water/Wastewater Fund increasing \$11,828,786.
- The wastewater treatment plant expansion is being financed by \$19,430,000 in revenue bonds through the State of Missouri Department of Natural Resources revolving fund program. The voters actually passed authority for thirty million dollars worth of bonds. The remaining balance will be used for phase two of the expansion when phase one is completed in 2008.

## General Fund Budgetary Highlights

Actual revenues were \$13,540,559 or 7% more than the revised budget. Expenditures were \$11,642,982 or 8% under budget. One reason for this is that the City budgets a Budget Stabilization (Reserve) account for unforeseen expenditures each year. The balance in Budget Stabilization on December 31, 2006 is \$204,096. Public Works capital outlay was \$378,100 under budget primarily due to a City Hall study with \$214,503 budgeted but not completed in 2006 and \$102,076 for a Stormwater study not completed in 2006. In total Public Works was \$624,943 under budget or 63% of the total General Fund expenditures variance. This was due to multi-year projects that will not be completed until 2007.

Fiscal year 2006 revenues were budgeted originally at \$22,028 less than the 2005 actual, a 0.1% decrease. The actual increase of 2006 over 2005 is \$969,989 or 8%. Increases were in all revenue categories. An example is interest income at 405% above budget due to higher interest rates and slower spending. Expenditures were originally budgeted to increase \$1,170,696 or 10%. The actual increase is \$233,545 or 2%, as projects were delayed in being completed for various reasons.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

#### **Capital Assets**

At the end of December 31, 2005, the City had \$72,923,502 invested in capital assets, net of depreciation, including police equipment, buildings, park facilities, water lines, and sewer lines. At the end of December 31, 2006 the amount had increased to \$116,075,818, an increase of \$43,152,316 or 59%.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The 2007 budget includes expenditures of \$41,221,650 and revenues of \$38,437,848. 2007 revenues are a \$28,718,000 decrease from the 2006 amended budget. This is due to bonds for the treatment plant expansion of \$19 million and grant funds for infrastructure projects budgeted in 2006 not being included in 2007. The City is including a twelve (12%) percent increase in sales tax revenue in 2007.

Expenditures for 2007 will also be reduced due the large scale projects listed above being in the 2006 budget. Included in the 2007 budget is \$2,000,000 for right of way acquisition for construction projects to be budgeted in 2008.

The City continues to be one of the fastest growing communities in the State of Missouri. While tax revenues continue to grow, the expenses for both operational and especially capital expenses grow faster. Approximately 1,000 residential building permits are expected, the population has grown 6,800 in 2000 to 21,000 in 2006.

Continued residential growth and expansion of the commercial base is eminent. New commercial is coming, with the expansion of a very large retailer completed in 2007 and two additional large retailers opening in the fall of 2007, along with many smaller developments. The increase in commercial growth and sales taxes will help support the needs of the City.

#### CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Director's office at 310 W. Pearce, Wentzville, MO 63385 or by phone (636) 327-5101.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET ASSETS DECEMBER 31, 2006

Total Fund Balances - Governmental Funds  Amounts reported for governmental activities in the statement of net assets are different because:  Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. The cost of the assets is \$71,632,259 and the accumulated depreciation is \$13,395,386.  Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds.  The Internal Service Fund is used by the City to charge for services provided for insurance to individual funds. The assets and liabilities of the Internal Service Fund are included in governmental activities in the statement of net assets.  Certain long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. Long-term liabilities at year-end consist of: Accrued interest payable Accrued compensated absences Bonds and notes payable outstanding Bond issuance cost, net  Net Assets Of Governmental Activities  See notes to financial statements  See notes to financial statements

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2006

N. C. L. F. I.B.I. C. L. I.B.I.	ф (194.020)
Net Change In Fund Balances - Governmental Funds	\$ (184,938)
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets are allocated over estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays over the capitalization threshold (\$8,233,276) exceeded depreciation (\$1,963,414)	
in the current period.	6,269,862
The net effect of various transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net assets.	13,713,516
Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds adjusted for deferred revenue.	(651,167)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds.  Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discount, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.  Debt issued:	
Bonds payable Issuance costs Discount on bonds	(1,510,000) 42,181
Deferred charges on bonds	9,588 126,759
Repayments: Bonds payable Amortization	1,655,000 (11,095)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	
Accrued interest on bonds Accrued compensated absence liability - net increase	(221,171) (63,663)
Internal Service Fund is used by management to charge the costs of certain activities to individual funds. The net revenue (expense) of the Internal Service Fund is reported with governmental activities in the statement of activities.	13,889
Change In Net Assets Of Governmental Activities	\$ 19,188,761

## CITY OF WENTZVILLE, MISSOURI NOTES TO FINANCIAL STATEMENTS

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The CITY OF WENTZVILLE, MISSOURI (the City) was incorporated in March 1872 and established a Mayor - Board of Aldermen form of government. The City's major operations include public safety (police), highways and streets, culture-recreation, public improvements, planning and zoning, and general administrative services.

The accounting and financial reporting policies of the City conform to U.S. generally accepted accounting principles as applicable to governmental entities. The following is a summary of the more significant policies:

## 1. The Financial Reporting Entity

The City defines its financial reporting entity in accordance with provisions established by the Governmental Accounting Standards Board (GASB). Such standards require inclusion of component units based upon whether the City's governing body has any significant amount of financial accountability for potential component units (PCU). The City is financially accountable if it appoints a voting majority of a PCU's governing body and is able to impose its will on that PCU, or there is a potential for the PCU to provide specific financial benefits to, or impose specific financial burdens on, the City. The City's financial reporting entity consists of the City (the primary government) and its component units. The component unit discussed below is included in the City's reporting entity because of the significance of its operational or financial relationships with the City. There are no separate financial statements prepared for the City's component unit.

## **Blended Component Unit**

The following component unit is legally separate from the City; however, its governing body is substantively the same as the City's and, consequently, it is, in substance, the same as the primary government. As such, the balances and transactions of this component unit are blended into the accompanying financial statements and reported in a manner similar to the balances and transactions of the City itself.

Wentzville Economic Development Council (WEDC) - The WEDC was formed in 1994 as a Missouri not-for-profit corporation for the purpose of facilitating the acquisition and construction of certain capital improvements and facilities solely for the benefit of the City.

### 2. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the City and its component unit. For the most part, the effect of interfund activity has been removed from the statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the City is reported

## 2. Government-wide and Fund Financial Statements (Continued)

separately from certain legally separate component units for which the City is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary fund, even though the latter is excluded from the government—wide financial statements. Major individual governmental funds and major individual Enterprise Funds are reported as separate columns in the fund financial statements.

## 3. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due (i.e., matured).

Property taxes, franchise taxes, licenses, court fines, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as

## 3. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

General Fund -- This fund is the primary operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

**Park Fund** -- This fund is a Special Revenue Fund used to account for taxes and park programs revenue and for the activities related to the parks department.

**Transportation Fund** -- This fund is a Special Revenue Fund used to account for special revenues received from transportation taxes.

Capital Improvement Fund -- This fund is used to account for financial resources designated for the acquisition or construction of major capital facilities and improvements (other than those financed by proprietary funds).

**Neighborhood Improvement District Fund --** This fund is used to account for the activities related to the District.

The City reports the following major proprietary funds:

Water/Wastewater Fund -- This fund is used to account for operations of the City's water and sewer departments.

**Trash/Natural Gas Fund** -- This fund is used to account for revenues and expenses related to trash collections made by the City on behalf of its residents.

Additionally, the City reports the following fund types:

**Internal Service Fund** -- This fund is used to account for services provided to other departments of the City by the Self-Insurance Fund. Charges for services are allocated to various City departments on a cost recovery basis.

**Agency Fund** -- This fund is a Fiduciary Fund used to account for the receipt and disbursement of resources for the Transportation Development District.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial

## 3. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

statements to the extent that those standards do not conflict with or contradict guidance of GASB. Governments also have the option of following subsequent private-sector guidance for their business-type activities and Enterprise Funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are payment-in-lieu of taxes and other charges and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided; 2) operating grants and contributions; and 3) capital grants and contribution, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's Enterprise Funds and Internal Service Fund are charges for sales and services. Operating expenses for Enterprise Funds and Internal Service Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

## 4. Cash, Cash Equivalents, and Investments

The City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, requires that all investments be reported in the financial statements at fair value. Fair value is established as readily determinable current market value for equity and debt securities. State statutes authorize the City to invest in obligations of the U.S. Treasury, federal agencies, commercial paper, corporate bonds, and repurchase agreements.

## CITY OF WENTZVILLE, MISSOURI NOTES TO FINANCIAL STATEMENTS

## NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## 5. Special Assessments Receivable

Special assessments receivable represents the residents' portion of improvements related to the Neighborhood Improvement District which have been completed and billed. The City's portion of such improvements are expended as incurred. At the time of the levy, special assessments receivable in the amount of the levy and deferred revenue equal to the amount that is not currently available are recognized in the Neighborhood Improvement District Fund.

#### 6. Inventories

Inventories in the governmental and proprietary funds are valued at cost (first-in, first-out) and the expense is recognized when inventory items are consumed in operations.

## 7. Prepaid Items

Payments made to vendors for services that will benefit periods beyond the fiscal yearend are recorded as prepaid items. Prepaid items are equally offset by a fund balance reserve which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

## 8. Capital Assets

Capital assets, which include property, equipment, and infrastructure (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Infrastructure acquired prior to the implementation of GASB 34 has been reported.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Depreciation is being computed on the straight-line method, using asset lives as follows:

Assets	Years
Buildings Infrastructure	10 - 30
Equipment	30 - 40 3 - 10

#### 9. Restricted Assets

Certain General Fund monies are classified as restricted assets on the balance sheet because their use is limited to refunding court bonds paid.

Certain cash and investments of the Neighborhood Improvement District Fund and the Enterprise Funds are restricted for the repayment of the outstanding bonds, interest, and capital improvements in accordance with bond ordinances and the related Trust indentures.

#### 10. Allowance for Doubtful Accounts

The allowance for uncollectible receivables is as follows:

	<b>December 31, 2006</b>					
	Government Activities	Business-type Activities				
General Fund Park Fund	\$29,567 2,661	-				
Water/Wastewater Fund	2,001	7,957				
Trash/Natural Gas Fund		<u>1,500</u>				
	\$ <u>32,228</u>	<u>9,457</u>				

## 11. Long-term Debt

The bonds are to be liquidated by the related fund. Also, compensated absences payable are generally liquidated by the General Fund.

## 12. Deferred Revenues

The City reports deferred revenues on its combined balance sheet. Deferred revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when resources are received by the City before it has a legal claim to them. In subsequent periods, when both the revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

## 13. Long-term Liabilities

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund

## 13. Long-term Liabilities (Continued)

type statement of net assets. Bond premiums and discount, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

## 14. Compensated Absences

00000

City employees generally earn vacation monthly based upon their length of service to the City. Regular full-time employees who are separated from service are compensated for vacation accrued up to the date of separation. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. Sick leave is accumulated based on length of service and is available only to provide compensation during periods of illness. No portion of sick leave is payable to the employee upon termination, but is payable upon retirement or death. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

#### 15. Reserved Fund Balance

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for subsequent year appropriations or are legally restricted by outside parties for use for a specific purpose, if any.

## 16. Equity in Pooled Cash and Investments

The City maintains the majority of its cash and investments in a pooled cash and investments account. As a control, the City also maintains separate accounting records for each fund, so that in the accompanying financial statements, equity in pooled cash and investments reflects each fund's share of such accounts.

#### 17. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in the governmental fund types. Encumbrances out-

## 17. Encumbrances (Continued)

standing at year-end are reported as a reservation of fund balance. Encumbrances do not constitute current year expenditures or liabilities.

#### 18. Grant Revenue

Resources received by the City from other governments are accounted for within applicable funds based on the purpose and requirements of each grant. Revenues are recognized on an accounting basis consistent with the fund's measurement objective.

Revenues related to expenditure-driven grants are recognized to the extent expenditures are incurred. Any excess or deficiency of grant revenues received compared to expenditures incurred is recorded as deferred revenue or amounts receivable from the grantor.

## 19. Property Taxes

The City's property taxes are levied each October based on the assessed valuation for all real property located in the City as of the previous January 1. Taxes are due upon receipt of billing and become delinquent after December 31. Liens are placed on property for delinquent taxes on January 1 following the due date.

The St. Charles County Assessor establishes assessed values and the County tax collector makes collections. The assessed value at January 1, 2006 upon which the 2006 levy was based for real estate, personal property, and railroads and utilities taxes was \$483,850,352.

The City's tax rate was levied at \$0.9734 per \$100 of assessed valuation which is used completely for general governmental services.

#### 20. Interfund Eliminations

All significant interfund transactions between the Water/Wastewater Fund and the WEDC have been eliminated.

## 21. Use of Estimates

The preparation of basic financial statements in conformity with U.S. generally accepted accounting principles requires the City to make estimates and assumptions that affect the reported amounts of assets and liabilities at fiscal year-end and revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

## NOTE B - CASH AND INVESTMENTS

## 1. Deposits

Custodial Credit Risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. The City's bank deposits are required by state law to be secured by the deposit of certain securities specified at RSMo 30.270 with the City or trustee institution. The value of the securities must amount to the total of the City's cash not insured by the Federal Deposit Insurance Corporation.

As of December 31, 2006, the City's bank balances were entirely secured or collateralized with securities held by the City or by its agent in the City's name.

## 2. Investments

As of December 31, 2006, the City had the following investments:

	Fair Market	No	Less Than	1 - 5	6 - 10	More Than	Credit
Investments	<u>Value</u>	<b>Maturity</b>	One Year	<b>Years</b>	<b>Years</b>	10 Years	Risk

## NOTE B - CASH AND INVESTMENTS (Continued)

## 2. Investments (Continued)

#### **Investments Policies**

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City does not have a written investment policy covering credit risk.

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The City does not have a written investment policy covering interest rate risk.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The City does not have a written investment policy covering concentration of credit risk.

#### NOTE C - CAPITAL ASSETS

Capital asset activity was as follows:

#### NOTE D - RESTRICTED ASSETS

Certain amounts are restricted for various bond and escrow purposes. The bond reserve restricted account balances are as follows:

	<b>December 31, 2006</b>	
·	Actual	Required
Leasehold Revenue Bonds:		
Series 1999 Reserve	\$ 244,360	104,000
Series 2001 Reserve	1,335,600	1,294,500
Series 2002 Reserve	687,302	665,000
Series 2004 Reserve	652,866	638,500
Series 2005 Reserve Account	551,593	549,522
Series 2006 Reserve	272,181	272,500
Sewerage System Revenue Bonds, Series 2005 Reserve	6,121,099	6,121,099
	\$ <u>9,865,001</u>	9,645,121

The 2006 Reserve Funds are below the required balance amount at December 31, 2006, due to market fluctuations in the investment balances. The Bank Trustee and the City have agreed to restore the deficiency by paying additional payments through interest earnings and future increase until the Reserve Fund equals the requirement.

#### NOTE E - INTERFUND TRANSACTIONS

Individual interfund transactions are as follows:

Transfe	<u>rs In</u>	Transfers Out	Dec	ember 31 2006 <u>Total</u>
General Fund		Capital Improvement Fund -		
		Capital Projects Fund	\$	10,545
Park Fund - Special Re	venue Fund	General Fund		646,690
Park Fund - Special Re	venue Fund	Capital Improvement Fund -		
1		Capital Projects Fund		99,205
Transportation Fund - S	Special Reve-	Capital Improvement Fund -		
nue Fund	•	Capital Projects Fund	1	,353,936
Trash/Natural Gas Fun	d - Enterprise	General Fund		
Fund			_	17,495
			\$2	2,127,871

Interfund transfers were used to 1) move revenues from the fund that ordinance or budget requires to collect them to the fund that ordinance or budget requires to expend them, 2) use unrestricted revenues collected in the General Fund to finance other funds in accordance with budgetary authorization, or 3) move revenues in excess of current year expenditures to other funds.

#### NOTE F - RESTRICTED NET ASSETS

The government-wide statement of net assets reports \$2,845,971 of restricted net assets, which is restricted by enabling legislation.

#### NOTE G - INTERFUND ASSETS/LIABILITIES

Individual interfund assets and liabilities are as follows:

Receivable Fund	Payable Fund	December 31
General Fund General Fund	Trash/Natural Gas Fund Fiduciary Fund	\$10,364 
		\$ <u>10,528</u>

The outstanding balances between funds result mainly from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made. All interfund balances are expected to be repaid during the fiscal year ending December 31, 2007.

#### NOTE H - LONG-TERM DEBT

## 1. Neighborhood Improvement District Bonds

On April 1, 2006 the City issued \$1,510,000 of Neighborhood Improvement District Limited General Obligation Refunding Bonds (Bear Creek stormwater detention, sanitary sewer and water improvement project) Series 2006. The bonds were issued for the purpose of refunding in advance the \$1,585,000 of outstanding Neighborhood Improvement District Bonds Series 2000. The bonds are indebtedness of the City and are to be paid from special assessments that are assessed on the real property of the District. The bonds bear interest from 3.5% to 3.92% and are due March 1, 2018.

The net proceeds of the 2006 bonds were used to purchase securities for deposit in an irrevocable trust with an escrow agent to provide for all future debt service payments on the old debt. As a result the old debt is considered to be defeased and the liability for this debt has been removed from the City's financial statements. The City decreased its aggregate debt service payments for this transaction by \$361,147 which resulted in an economic gain (difference between the present values of the old and new debt service payments) of \$175,833.

Annual principal and interest on the Neighborhood Improvement District Bonds, Series 2006 are as follows:

## 1. Neighborhood Improvement District Bonds (Continued)

For The Years Ended December 31	<u>Principal</u>	Interest	<u>Total</u>
2007	\$ 110,000	53,545	163,545
2008	115,000	49,608	164,608
2009	120,000	45,495	165,495
2010	120,000	41,265	161,265
2011	125,000	36,885	161,885

2017 - 2018	225,000	7,115	232,115
	\$ <u>1,510,000</u>	344,902	1,854,902

# 2. Series 2005A and 2005B Notes Payable

In 2005 the City issued \$4,714,771 of Series 2005A and 2005B notes payable for land which are special, limited obligation of the City payable from a portion of the sales tax generated within certain development property. The notes have an interest rate of 4.5%.

# 3. Wentzville Economic Development Council (WEDC) - Leasehold Revenue Bonds

The WEDC was formed as a Missouri not-for-profit corporation. The purpose of the WEDC is to facilitate the acquisition and construction of certain capital improvements and facilities solely for the benefit of the City.

Funding of such capital improvements and facilities has been provided through the issuance of Leasehold Revenue Bonds. The Leasehold Revenue Bonds do not constitute a legal debt or liability for the City, the State of Missouri, or for any other political subdivision thereof and do not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction. The issuance of the Leasehold Revenue Bonds does not obligate the City to levy any form of taxation or to make any appropriation for payment in any fiscal year. The WEDC has no taxing power.

On April 1, 1999, the WEDC issued \$3,195,000 of Leasehold Revenue and Improvement Bonds. A portion of the bonds amounting to \$1,815,000 were issued to fund the construction of water and sewer lines, roads, and sidewalks within the newly formed Tax Increment Financing District. The balance of the bonds amounting to \$1,380,000 were issued to advance refund \$1,290,000 of outstanding 1995 Leasehold Revenue Bonds. The bonds mature in varying amounts each year through 2015 and accrue interest at varying rates between 3.8% and 5.5%. Concurrent with the issuance of these bonds, the City entered into a lease agreement whereby certain assets acquired or constructed by the WEDC have been

# 3. Wentzville Economic Development Council (WEDC) - Leasehold Revenue Bonds (Continued)

leased to the City. The lease terminates each December 31 and can be renewed for additional one-year periods through 2015. At the end of the lease, the assets are intended to become the property of the Water/Wastewater Fund. Lease payments by the City are to be sufficient at all times to pay the total amount of interest, principal (whether at maturity, by acceleration, or by redemption as provided in the bond indenture), and premium, if any, on the bonds as they become due.

On July 1, 2002, the WEDC issued \$6,650,000 of Leasehold Revenue Bonds, Series 2002. The proceeds are being used to construct a lift station, sewer main, and a basin for stormwater control. Payment of the principal is for varying amounts every year through 2022. Interest is due semi-annually with varying interest rates from 2.25% to 5.15%. Concurrent with the issuance of these bonds, the City entered into a lease agreement whereby certain assets constructed and acquired by the WEDC have been leased to the City. There are successive one-year lease renewal options through 2022. Lease payments by the City are to be sufficient at all times to pay the total amount of interest, principal (whether at maturity, by acceleration, or by redemption as provided in the bond indenture), and premium, if any, on the bonds as they become due.

On December 16, 2004, the WEDC issued \$6,700,000 of Leasehold Revenue Refunding Bonds, Series 2004. The balance of the bonds amounting to \$6,447,300 were issued to advance refund \$6,035,000 of outstanding 2000 Leasehold Revenue Bonds. The bonds mature in varying amounts each year through 2021 and accrue interest at varying rates between 2.05% and 4.25%. The Leasehold Revenue Bonds, Series 2000 proceeds were used to finance the construction of a new police station and acquisition of equipment for the police department. Concurrent with the issuance of these 2000 Leasehold Revenue Bonds, the City entered into a lease agreement whereby certain assets constructed and acquired by the WEDC have been leased to the City. There are successive one-year renewal options with a final renewal term ending not later than February 1, 2021.

On July 13, 2005, the WEDC issued \$7,540,000 of Leasehold Revenue Bonds, Series 2005. The proceeds are being used to acquire land and to construct a water tower, booster pump, and water main. Payment of the principal is for varying amounts every year through 2025. Interest is due semi-annually with varying interest rates from 2.55% to 4.25%. Concurrent with the issuance of these bonds, the City entered into a lease agreement whereby certain assets constructed and acquired by the WEDC have been leased to the City. There are successive one-year lease renewal options through 2025. Lease payments by the City are to be sufficient at all times to pay the total amount of interest, principal (whether by maturing, by acceleration, or by redemption as provided in the bond indenture), and premium, if any, on the bonds as they become due.

# 3. Wentzville Economic Development Council (WEDC) - Leasehold Revenue Bonds (Continued)

On December 1, 2006, the WEDC issued \$2,725,000 of Leasehold Revenue Refunding Bonds, Series 2006. The proceeds are being used to refund \$2,615,000 of outstanding 1997 Leasehold Revenue Bonds. The 1997 bonds were used to finance certain sewer treatment facilities and improvements. Concurrent with the issuance of these bonds, the City sold certain assets related to the sewer treatment facilities to the WEDC. The WEDC then entered into a lease agreement with the City dated September 1, 1997, whereby these assets and future improvements thereto have been leased to the City. The lease terminates each December 31 and can be renewed for additional one-year periods through 2017. At the end of the lease, the assets are intended to become the property of the Water/Wastewater Fund. Lease payments by the City are to be sufficient at all times to pay the total amount of interest, principal (whether at maturity, by acceleration, or by redemption as provided in the bond indenture), and premium, if any, in the bonds as they become due. The bonds mature in varying amounts each year through 2017 and accrue interest at varying rates between 3.45% and 3.9%.

The net proceeds of the 2006 bonds were used to purchase securities for deposit in an irrevocable trust with an escrow agent to provide for all future debt service payments on the old debt. As a result the old debt is considered to be defeased and the liability for this debt has been removed from the City's financial statements. The City decreased its aggregate debt service payments for this transaction by \$134,785 which resulted in an economic gain (difference between the present values of the old and new debt service payments) of \$100,129.

Annual principal and interest requirements to maturity on the Leasehold Revenue Bonds are as follows:

For The Years Ended December 31	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2007	\$ 1,075,000	902,075	1,977,075
2008	1,015,000	897,773	1,912,773

	\$23,175,000	9,669,130	32,844,130

## 4. Water Pollution Control Revenue Bonds Payable

In November 2005, the Missouri State Environmental Improvement and Energy Resources Authority (the Authority) authorized and issued Water Pollution Control Revenue Bonds (State Revolving Funds Programs) Series 2005C (Series 2005C). The Series 2005C bonds provided funds to make loans to various Missouri political subdivisions that will be used to finance water treatment projects. A portion of the proceeds of the Series 2005C bonds issued by the Authority were used to purchase Participant Revenue Bonds (Participant Bonds) authorized and issued by the City in the aggregate principal amount of \$19,430,000, the proceeds of which will be used for constructing, repairing, and equipping new and existing wastewater facilities. The District's Participant Bonds have interest rates ranging from 3.25% to 5% and are payable in semi-annual installments at varying amounts through 2027.

In connection with the City's issuance of the 2005C bonds, the City participates in the State Revolving Funds Program established by the Missouri Department of Natural Resources (DNR). Monies from federal capitalization grants and state matching funds are used to fund a reserve account for each participant. As the City incurs approved capital expenses, the DNR reimburses the City for the expenses from the bond proceeds account and deposits in a bond reserve fund in the City's name an additional 70% for the Series 2005C bonds. Interest earned from this reserve fund can be used by the City to fund interest payments on the bonds. On the date of each payment of the principal amount of the City's Participant Bonds, the trustee transfers from this reserve account to the master trustee an amount equal to 70% for the Series 2005C bonds. The costs of operation and maintenance of the wastewater treatment and sewerage facilities and the debt service is payable from wastewater revenues.

Annual principal and interest on the Series 2005C bonds are as follows:

For The Years Ended			
December 31	<b>Principal</b>	<u>Interest</u>	Total
2007	\$ -	857,514	857,514
2008	835,000	857,514	1,692,514
2009	840,000	830,376	1,670,376
2010	845,000	802,656	1,647,656
2011	855,000	773,082	1,628,082
2012 - 2016	4,470,000	3,336,096	7,806,096
2017 - 2021	4,900,000	2,318,594	7,218,594
2022 - 2026	5,510,000	1,057,964	6,567,964
2027	1,175,000	54,050	1,229,050
	\$ <u>19,430,000</u>	10,887,846	30,317,846

## 5. Interest Capitalization

In accordance with FASB Statement No. 62, the City capitalizes the net effect of interest expense, related interest revenue and arbitrage expense on major construction while in progress amounting to \$123,118 for the year. The components of this amount include capitalized interest expense totaled \$859,555, related offsetting interest income totaled \$1,222,434 and related offsetting arbitrage rebate payable totaled \$239,761 for the year.

#### 6. Defeased Debt

The City has defeased various debt issues by placing the proceeds in irrevocable trusts to provide for all future debt service payments on the old debt. Accordingly, the trust assets and liability for the defeased debt are not included in the City's financial statements. As of December 31, 2006, \$5,275,000 of debt is considered defeased.

#### NOTE I - EMPLOYEE RETIREMENT BENEFIT PLAN

#### 1. Plan Description and Provisions

The City participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri.

LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by state statute, Section RSMo 70.600-70.755. As such, it is LAGERS' responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and it is tax exempt.

LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, MO 65102 or by calling 1-800-447-4334.

# 2. Funding Policy

The City's full-time employees do not contribute to the pension plan. The political subdivision is required to contribute at an actuarially determined rate; the current rates are 8.2% (general) and 8.5% (police) of annual covered payroll. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the subdivision are established by state statute.

# NOTE I - EMPLOYEE RETIREMENT BENEFIT PLAN (Continued)

#### 3. Annual Pension Cost

For 2006, the City's annual pension cost of \$506,283 was equal to the required and actual contributions. The required contribution was determined as part of the February 29/28, 2004 and/or 2005 annual actuarial valuation using the entry age actuarial cost method. The actuarial assumptions as of February 28, 2006 included a) a rate of return on the investment of present and future assets of 7.5% per year, compounded annually; b) projected salary increases of 4% per year, compounded annually, attributable to inflation; c) additional projected salary increases ranging from 0% to 6% per year, depending on age, attributable to seniority/merit; d) pre-retirement mortality based on the RP-2000 Combined Healthy Table set back zero years for men and zero years for women; and e) post retirement mortality based on the 1971 Group Annuity Mortality table projected to 2000 set back one year for men and seven years for women. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The amortization period at February 28, 2006 was 15 years.

Three-year trend information follows:

For The Years Ended June 30	Pension Cost (APC)	Annual Percentage Of APC Contributed
2006	\$506,283	100%
2005	440,577	100
2004	364,450	100

Schedule of funding progress follows:

For The Valuation Years Ended February 28/29	Actuarial Value Of Assets	Entry Age Actuarial Accrued Liability (AAL)	Unfunded AAL (Excess Assets)
2006	\$8,379,444	\$8,034,501	(\$344,943)
2005	7,351,566	7,145,850	(205,716)
2004	6,604,480	6,235,954	(368,526)

# NOTE I - EMPLOYEE RETIREMENT BENEFIT PLAN (Continued)

## 3. Annual Pension Cost (Continued)

For The Valuation		Annual	Unfunded AAL As A Percentage
Years Ended February 28/29	Funded <u>Ratio</u>	Covered Payroll	Of Covered Payroll
2006	104%	\$6,232,549	- %
2005	103	5,667,981	-
2004	106	5,199,347	-

Note: The above assets and actuarial accrued liability do not include the assets and present value of benefits associated with the Benefit Reserve Fund and the Casualty Reserve Fund. The actuarial assumptions were changed in conjunction with the February 28, 2006 annual actuarial valuations. For a complete description of the actuarial assumptions used in the annual valuations, please contact the LAGERS' office in Jefferson City.

#### NOTE J - MAJOR CUSTOMERS AGREEMENT

A 30-year agreement was entered into between the City and General Motors Corporation (GM) on August 22, 1980 for water and sewer services. Under the terms of this agreement, the City agreed to design, provide, and install water and sewer facilities. The City bills GM monthly for operating expenses and usage costs, as well as the monthly rate of the annual debt service requirements for which the City is obligated to pay as a result of this agreement (Note L). The amount received for the year ended December 31, 2006 was approximately \$1,126,000.

#### NOTE K - RISK MANAGEMENT

The City is a member of the Missouri Intergovernmental Risk Management Association (MIRMA), a state-wide governmental self-insurance pool which provides property, liability, and workers' compensation coverages to its participating members in a single comprehensive multiline package. The various lines of coverage are not available individually and the membership is limited to municipalities and municipally owned utilities. The City's policy covers all real and personal property owned by the City except sewer lines. The policy is for replacement cost and expires June 30, 2007.

MIRMA is funded by annual member assessments calculated at a rate per \$100 of annual payroll which applies to all lines of coverage on a composite basis. These funds are used to pay losses within specific risk retention limits shared equally by all members; purchase excess insurance which provides a transfer of catastrophic risk to private insurance carriers; purchase services such as claims administration, loss prevention, and data processing; and pay administrative expenses. Should actual insurance losses exceed MIRMA's estimates, the City could be required to contribute additional funds. Management believes the risk of additional loss is minimal and any additional contributions that may be required would

## NOTE K - RISK MANAGEMENT (Continued)

not materially impact the overall operations of the City. The City paid an assessment totaling \$592,038 for MRMA's fiscal years ended June 30, 2007. Settled claims resulting in these risks have not exceeded coverage in any of the past three years.

#### **NOTE L - CONTINGENCIES**

## 1. Litigation

1111111

The City is a defendant in a number of lawsuits pertaining to matters which are incidental to performing routine governmental and other functions. Based on the current status of these legal proceedings, it is the opinion of management that they will not have a material effect on the City's financial position.

#### 2. Confiscation Funds

All Missouri entities that have collected confiscation funds may be required to remit all or part of these funds to other governmental entities. The City has not recorded any of these funds as revenue in this year or in previous years.

The City entered into an agreement with St. Charles County Public Water Supply District Number 2 (Water District) as of September 10, 1980 for the construction of a water transmission line and the purchase of a maximum of 3.3 million gallons of water daily. The Water District paid for the construction costs through the issuance of Special Obligation Water Revenue Bonds, of which a portion of the debt service and maintenance costs are passed on to the City. During 2006, the City paid \$393,599 under this agreement, with the cost recorded as part of the purchase of water in the Enterprise Funds.

The City has an agreement with the Wentzville Parkway Transportation Corporation (Corporation) that issued debt of \$12,935,000 of bonds payable in 2001. Upon final payment of the debt, the title and interest of the Corporation will be dedicated to the Missouri Highway and Transportation Commission (Commission). The City has agreed to provide funding from its transportation sales tax or other legally available amount less the amount of Commission payments and other amounts available to the Corporation sufficient to pay the principal and interest on the bonds and other specified items when due. The amount of bonds outstanding as of December 31, 2006 was \$3,390,000.

Certain conduit debt obligations indebtedness issued by the City has been loaned to a qualified borrower who is required to make payments to the trustees sufficient to meet principal and interest requirements of the related obligation. The aggregate principal amount of outstanding bonds at December 31, 2006 was \$45,275,682.

The City had a commitment to purchase sewer equipment in the amount of \$47,399 at December 31, 2006.

Page 45

# NOTE M - DEFICIT BALANCE The Transportation Special Revenue Fund has a deficit in fund balance of \$1,282,655. This deficit will be offset by future revenues.

REQUIRED SUPPLEMENTAL INFORMATION NOTES TO SCHEDULES OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES - BUDGET AND ACTUAL
FOR THE YEAR ENDED DECEMBER 31, 2006

# **Budgetary Data**

The City follows the procedures outlined below in establishing the budgetary data reflected in the financial statements:

- a. Prior to December, the City Administrator, after receiving input from each department head, submits to the Board of Aldermen the operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- b. Prior to January 1, the budget is legally enacted through passage of an ordinance.
- c. A motion from the Board of Aldermen is required to transfer budgeted amounts between funds, or to transfer substantial budgeted amounts between departments within any fund or for any revisions that would alter the total expenditures of any fund.
- d. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, and Capital Projects Funds.
- e. Current year budget includes amendments. Management may authorize transfers of appropriations up to \$2,500 within a department. The Board of Aldermen must approve all transfers between departments and/or in excess of \$2,500.

# **Excess of Expenditures over Appropriations**

For the year ended December 31, 2006, expenditures exceeded appropriations in the finance department of the General Fund, Capital Improvement Capital Projects Fund, and Neighborhood Improvement District Capital Projects Fund by \$1,828, \$15,961, and \$18,603, respectively. These over expenditures were funded by available fund balance.
