# Guide to Course Lists

Courses offered and a general outline of course content are included in each departmental section of this booklet. The course descriptions are meant to provide students with pertinent information and in no way should be considered as offers to contract. The University reserves the right to cancel without notice any course listed in this Description of Courses Bulletin or in the Schedule of Courses for any semester or to withdraw any courses which do not have adequate enrollment at the close of registration.

## Course Numbering

Each course bears a distinguishing number which identifies it within the department or academic unit and indicates, broadly, its rank. The numbering system is as follows:

- **0 to 099**, nondegree credit
- **1 to 99**, primarily for freshmen and sophomores.
- **100 to 199**, primarily for upperclassmen, no graduate credit.
- **200 to 299**, for undergraduates and appropriate professional and graduate students, except those whose graduate majors are in the department in which the course is given.
- **300 to 399**, for undergraduate, appropriate professional, and graduate students without restriction as to students' graduate majors.
- **400 to 499**, primarily for graduate and appropriate professional students in special programs; upperclass students are admitted to courses in this series only with the approval of the graduate dean.
- **500 to 599**, for professional optometry students. Other students are admitted to courses in this series only with the approval of the Optometry Dean.

**UMSL**  
University of Missouri-Saint Louis  
USPS 996-420  
Volume 10 Number 3  
March, 1982  
General 1982 Series  
Published by the UMSL Publications Office, 8001 Natural Bridge Road, St. Louis, Missouri, 63121. UMSL is published nine times a year as follows: three times in March; once in January, April, May, August, October, and November. Second class postage paid at St. Louis, Missouri.  
POSTMASTER: Send address changes to the University of Missouri-St. Louis, 8001 Natural Bridge Road, St. Louis, Missouri 63121.

---

**General Education Requirement Courses**

Courses which fulfill the University's general education requirements, as outlined in the Academic Policy section of the Undergraduate Bulletin, are listed at the beginning of each departmental course section in this booklet.

Each list of course numbers also is identified by one of the following breadth of study areas:

- [H] Humanities requirement
- [SM] Natural sciences and mathematics requirement
- [SS] Social sciences requirement

**Eye Protection Law**

It is now a law in the state of Missouri that every student, teacher, and visitor must wear approved eye protection devices when participating in or observing certain university courses. Definitely included in this act, which is posted along with University policy in selected buildings on this campus, are courses requiring chemical, physical, combined chemical-physical laboratories and shops, as well as certain vocational, technical, and industrial arts courses. Consult your instructors for exact requirements. Approved safety glasses and goggles must meet ANSI Standard Z87.1-1968 and are available from the UMSL Bookstore.

---

The University of Missouri-St. Louis is an equal opportunity and affirmative action employer and educational institution.
Administration of Justice

Prerequisites may be waived by consent of the department or instructor.

70 Criminal Law and Procedure (3) An analysis of substantive criminal law and its procedural aspects.

71 Evidence (3) Fundamental questions of evidence and theory of proof, including hearsay, documentary proof, self-incrimination, relevance, and presumptions.

75 Crime and Punishment (3) (Same as Psychology and Sociology 75.) An interdisciplinary course. An introduction to sociological and psychological explanations of crime and punishment. An examination of private and governmental responses to the threats of crime and delinquent behavior.

90 Freshman Seminar (3) Prerequisite: Freshman standing and consent of instructor. Topics to be announced. Weekly seminars supplemented by individual conferences. Limited to twelve students.

99 The City (3) (Same as Political Science, Psychology, and Sociology 99.) An interdisciplinary course. Consideration of economic factors, urban institutions, historical developments in urbanization, problems of the inner city, suburbia and the metropolitan area, ethnic groups, stratification and psychological implications of urban living. This course is primarily for freshmen and sophomores. It is open to juniors and seniors with the instructor’s permission.

101 Criminal Justice Processes and Institutions (5) A survey of the historical development and the current status of American criminal justice. Processes, institutions, and significant problems of the various components will be analyzed.

201 The Criminal Justice System: Conflicting Perspectives I (3) Prerequisite: Administration of Justice 101. An examination of the conflicting and converging needs and skills of three social roles necessary for a sound criminal justice system in a democratic society. The objectives, activities, and skills of the citizen, criminal justice professional, and social scientist will be identified and analyzed.

202 The Criminal Justice System: Conflicting Perspectives II (3) Prerequisite: Administration of Justice 201 or consent of instructor. An examination of competing social interests served by the criminal justice system, past and present. Attention will focus on the need for and the nature of a criminal law that serves the public interest and not private interests.

203 Regional Organization of Criminal Justice Resources (3) Prerequisite: Administration of Justice 70 and 101. Crime and criminal justice resources in relation to the development of metropolitan regions. Congruent and incongruent patterns of criminal and delinquent activity and criminal justice organization. Policy and planning considerations.

205 The Juvenile Justice System (3) Prerequisite: Administration of Justice 101 or consent of instructor. Intensive analysis of the social administration of juvenile justice within the United States. Particular emphasis will be placed on the decision-making process of police, court and probation officials regarding apprehension and processing of juveniles. Recent Supreme Court decisions and citizen efforts to revise the juvenile code will also be examined.

215 Criminal Justice Data (3) An analysis of data needed in criminal justice agencies. Emphasis will be placed upon data as it relates to administrative, policy planning, and program evaluation requirements, as well as the ethical criteria for its release.

225 The Juvenile and the Law (3) Prerequisite: Junior standing. A study of the relationship of the civil and administrative law as an instrument for the control and protection of juveniles. Subject matter will be discussed in relationship to the legally protected rights of juveniles.

227 Urban Law: Poverty and the Justice System (3) Prerequisite: Administration of Justice 70 or equivalent, or consent of instructor. Examination of administrative regulations and the civil law process as it affects the life of the urban, rural and the poor.

250 Police Administration (3) Prerequisite: Administration of Justice 101 or consent of instructor. Organization and administration of police systems; peculiar characteristics of police organizations and police personnel, relation of police departments to other public agencies; control and responsibility of police departments. In general, the application of generalizations from public administration to police systems.

260 Police-Community Relations (3) Prerequisite: Administration of Justice 101 or consent of instructor. An analysis of current police-community relations in large central cities, and a study of the development of police-community relations units. An analysis of the internal and external problems involved in a successful program development.

290 Special Readings (1-6) Prerequisite: Consent of instructor. Individualized study, under regular faculty supervision, designed to meet particular educational needs of selected students.

310 Community Approaches to Prevention and Control of Crime and Delinquency (3) Prerequisite: Administration of Justice 101 and senior standing or consent of instructor. An analysis of the rationale and the principles of community organizations as they seek to address the problems of crime and delinquency. Programs in the St. Louis Metropolitan Area will be used as case studies.

325 Criminal Law in Action (3) Prerequisite: Administration of Justice 70 or equivalent, and senior standing or consent of instructor. An examination of the legal and social objectives of the criminal law and the diverse limitations on the exercise of police power.

330 Correctional Institutions (3) Prerequisite: Administration of Justice 101 and senior standing, or consent of instructor. The correctional setting as an aspect of the criminal justice system. An analysis of the administrative involvement and a study of the modes of organization and management which seem applicable to these types of settings.

340 Probation and Parole (3) Prerequisite: Administration of Justice 101 and senior standing or consent of instructor. The historical development of the rehabilitative ideal of probation and parole. An analysis of the principles of probation and parole, both juvenile and adult.
Administration of Justice

351 Special Seminar on Problems in the Criminal Justice Process (1-6)
Prerequisite: Consent of instructor.
Advanced seminar dealing with selected subjects approved by the faculty to fill special agency educational needs. Offered only in specially designed educational formats in cooperation with the Continuing Education-Extension Division.

360 Comparative Justice System (3)
Prerequisite: Administration of Justice 70 and 101 and senior standing. Analysis of the criminal justice systems of selected nations in an attempt to identify similarities and dissimilarities with American practice. Particular attention will be focused upon the police and corrections systems.

380 Seminar in Administration of Justice (3)
Prerequisite: Sociology 130, Administration of Justice 70 and 101 and senior standing, or consent of instructor. Study of selected special problems in the administration of justice. (May be repeated once for credit).

395 Field Placement (3)
Prerequisite: Sociology 30, Administration of Justice 70 and 101, or consent of instructor. Field placement under faculty supervision in administration of justice agencies. (Requires a two consecutive semester commitment).

399 Independent Study and Research (3)
Prerequisite: Sociology 120, Administration of Justice 70 and 101 and senior standing, or consent of instructor. Directed research and reading. May involve the performance of a research task in cooperation with an operating criminal justice agency.

Anthropology

The following courses fulfill the Social Sciences (SS) breadth of study requirements:

5 Human Origins (4)
(With laboratory). A survey of the field of physical anthropology with emphasis upon the development of man as an animal. Will consider the genetic forces of evolution, fossil men, race formation, and the origin of culture from a scientific point of view.

11 Man, Culture and Society (3)
A survey of types of societies—bands, tribes, chiefdoms, states and peasantry, and of selected aspects of culture and social structure. Introduction to linguistics, social and cultural anthropology as scientific disciplines.

33H Sophomore Honors: Anthropology and Current Controversy (3)
Prerequisite: Acceptance in Sophomore Honors. Primary anthropological source material relevant to such current controversies as the status of women, stability of family and society, will be read and discussed. Course satisfies the prerequisites for more advanced anthropology courses.

51 Introduction to Anthropological Linguistics (3)
Relation between man and language in synchronic and historical perspective. The design features of language, equality, diversity, and relativity in structures and functions of language, including non-western languages.

101 Ideas and Explanations in Anthropology (3)
An introduction to major developments in the anthropological explanation of social and cultural behavior. This course does not meet the specific requirements for the B.A. in anthropology. Students majoring in anthropology must register in Anthropology 301, Ideas and Explanations in Anthropology, Intensive.

102 Strategies in Social Organization (3)
An examination of the ways in which societies adapt to different natural and cultural environments. Explores examples from industrial and tribal societies to arrive at general principles concerning the ways societies organize to accomplish their goals. This course does not meet the specific requirements for the B.A. in anthropology. Students majoring in anthropology must register for Anthropology 302, Strategies in Social Organization, Intensive.

108 Practicum in Research Methods (3)
Training in fieldwork techniques including participant observation, formal interviewing, survey interviewing, and other techniques used by social scientists. This course does not meet the specific requirements for the B.A. in anthropology. Students majoring in anthropology must register in Anthropology 306, Practicum in Research Methods, Intensive.

109 Field Study in Archaeology (6)
Prerequisite: Consent of instructor. This course is designed to introduce students to field methods in archaeology and to the methods of recording, storing, analyzing, and reporting archaeological findings. Experience is gained through participation in a field research project including excavation and survey projects. Emphasis is placed upon research design and implementation and upon the use of archaeological data in describing and explaining human behavior.

111 Contrastive Analysis (3)
Prerequisite: One course in linguistics. Examination of two models—structural linguistics and transformational grammar—for the purpose of formulating a contrastive grammar of a Western and non-Western language.

112 Language and Culture (3)
Prerequisite: One course in linguistics. The relationship between language and culture. Works of Sapir, Whorf, Lee and others will be considered.

121 Modern Aztec and Maya (3)
A survey of Indian cultures in Mexico and Guatemala. The course focuses on modern communities after a brief survey of the conquest and colonial experiences as they affected Indian communities. Satisfies the non-Euro-American requirement.

122 Indians of North America (3)
A survey of the aboriginal cultures of North American Indians, including prehistory of the area, the ethnographic and linguistic groupings, and the social organization and cultural systems of North American groups. This course satisfies the non-Euro-American requirement.

123 Cultures of Asia (3)
A survey of the cultures of Asia including the prehistory of the area, the ethnographic and linguistic groupings, and the social organization and cultural systems of these groups. This course satisfies the non-Euro-American requirement.
124 Cultures of Africa (3)
A basic ethnographic survey of African cultures, with attention to social groupings, tribalism, religion, language and social change, and the ecological relationship between man and nature. This course satisfies the non-Euro-American requirement.

131 Archaeology of Missouri (3)
An introduction to the prehistoric Indian cultures of Missouri and adjacent areas from 20,000 B.C. to the coming of Europeans. Examines the development of prehistoric cultures in Missouri from small bands of hunters to agricultural city builders. Discusses the decline of indigenous cultures as they came into contact with European civilization. Satisfies the non-Euro-American requirement.

132 Archaeology of North America (3)
In this course, the archaeological record of cultural development throughout prehistoric North America is examined. Topics of discussion include the origins of human culture in North America, the process of prehistoric cultural development in the different regions of the continent, and archaeological approaches to explaining the behavior of North America's prehistoric inhabitants. This course satisfies the non-Euro-American requirement.

133 World Prehistory (3)
An introduction to the prehistoric cultures of Asia, Africa, Europe, and the Americas from the Paleolithic to the establishment of civilization. Examines the rise of complex societies leading to civilization in the different areas of the world, concentrating on social and ecological conditions contributing to their development and on comparisons between civilizations. This course satisfies the non-Euro-American requirement.

134 The Incas, Aztec, and Maya (3)
A survey of the cultural evolution of Meso-America and Andean South America, from the early hunters to the high civilizations. The course will conclude with the sixteenth-century Spanish conquest of these civilizations. Satisfies the non-Euro-American requirement.

135 Indians of South America (3)
Examination of the social and cultural development of South American Indians from the earliest ancestors of the Inca to twentieth-century tribes of the Amazon. The focus is on culture change and the rich cultural diversity encountered as one ranges from the high Andes to the grassy Pampas, from the world's driest desert to its largest tropical forest. Satisfies the non-Euro-American requirement.

141 Sexual Behavior (3)
Description and analysis of sex roles in different cultures including band, tribal, peasant and state-level societies. Cultural bases of behavior such as "Machismo" and female assertiveness.

142 The Culture of Cities (3)
A comparative analysis of the cultural roles of urban centers and the processes of urbanization in non-Western and Western societies, past and present. A consideration of urban influences on rural America and the traditional peasant and primitive peoples of Africa, Asia, and Latin America.

143 Nonverbal Behavior (3)
Cross-cultural analysis of (A) body management in conscious and unconscious communication (kinesics) and (B) nonverbal behavior, which channels internal and interpersonal tension (personal growth). The course will examine uniformity and variation across cultures.

144 Religion, Magic and Science (3)
A consideration of the roles of religion, magic and science in culture and social organization.

160 Professional Anthropology: Medical (3)
An examination of the growing interaction between anthropology and medicine, and the increasing use of anthropologists in medical and health-care settings. In addition to teaching current theory in medical anthropology, the course focuses on anthropologically based skills essential to those working in health-related fields.

201 Comparative Economic Behavior (3)
Prerequisite: One course in anthropology or Sociology 10 or Economics 40 or 51. An introduction to the range of economic organizations found in the world. Anthropological models of production and exchange. The notion of "rationality" as applied to non-Western economic systems. The contribution of anthropology to the understanding of economic development.

202 Politics, Symbolism and Culture (3)
Prerequisite: one course in anthropology or political science. A survey of political organizations and processes with emphasis on native and non-western cultures. Included are topics such as strategies for obtaining and maintaining power, ethnicity, tribalism, and the relationship of ideology to politics.

203 The Mind of Man: Culture and Cognition (3)
Prerequisite: One course in anthropology or Sociology 10 or Psychology 3. An introduction to psychological anthropology focusing on cultural influences on cognition and perception. Theories of human mind will be reviewed in historical perspective, and cross-cultural research in perception, learning, and cognition considered. Recent studies of sociocultural systems and cognitive styles will be examined and their implications for education explored.

204 Culture and Personality (3)
Prerequisite: One course in anthropology or Sociology 10, or Psychology 3. Analysis of behavior from the standpoint of interaction between psychological, sociological and cultural systems.

205 Introduction to Models in the Social Sciences (3)
(Same as Sociology, Political Science and Interdisciplinary 205). Prerequisite: Anthropology 11 or Sociology 10 or Political Science 11, or consent of instructor. The course will focus on explaining social and cultural behavior. Elementary models of decision making, exchange and adaptation will be covered. Computer processing of data to test empirical hypotheses will be introduced.

206 Applied Anthropology (3)
Prerequisite: One course in anthropology or Sociology 10 or Psychology 3. A description and analysis of the methods, principles and use of anthropology in solution of problems associated with the changing conditions of our times. The course will examine a wide variety of cross-cultural case studies.

207 Culture Change (3)
Prerequisite: One course in anthropology or sociology or history. An intensive investigation into the elements and processes of culture change with regard to specific theories of culture change. The course examines the relationship between microchange in primitive and modern complex societies.

286 The Arts in Society (3)
(Same as Sociology 286). Prerequisite: Sociology 10 or Anthropology 11. The relationship of artists, writers, and musicians, their traditions and modes of artistic expression to variant social structures and institutions, and social pressures and rewards.

301 Ideas and Explanations in Anthropology, Intensive (3)
Prerequisite: One course in anthropology. Major developments in anthropological explanations of social and cultural behavior through intensive reading and discussion of...
Anthropology

source materials. Non-majors may register in Anthropology 101.

302 Strategies in Social Organization, Intensive (3)
Prerequisite: One course in anthropology. An intensive examination of the ways in which societies adapt to different natural and social environments. Explores examples from industrial and tribal societies to arrive at general principles concerning the ways societies organize to accomplish their goals. Non-majors may register for 102.

308 Practicum in Research Methods, Intensive (3)
Prerequisite: One course in cultural anthropology or Sociology 10 or Economics 40 or 51 or Political Science 11. Intensive training in fieldwork techniques including participant observation, formal interviewing, survey interviewing, and other techniques used by social scientists. Non-majors may register in 108.

309 Field Study in Archaeology (6)
Prerequisite: Consent of instructor. This course is for advanced students. It is designed to introduce students to advanced methods in field archaeology and laboratory analysis. Emphasis is placed on sampling, the use of theory in guiding field and laboratory work, advanced field techniques, and specialty analysis. Opportunities are provided for the development of field and laboratory leadership skills. Independent research is encouraged.

310 Laboratory Methods in Archaeology (3)
Prerequisite: Anthropology 109 or 309 or consent of instructor. This is a course in basic laboratory analysis and curation methods. The emphasis are: 1) mastery of general lab methods and procedures, and 2) development of independent analysis skills in one or more specialty areas such as lithics, ceramics, graphics, paleobotany, experimental analysis, and soils. Purchase of individual supplies not to exceed $10.

350 Special Study (1-10)
Prerequisite: Consent of instructor. Independent study through readings, reports, or field research.

391 Current Issues in Anthropology (1-4)
Prerequisite: Anthropology 11 or consent of instructor. Selected topics in social, cultural, and physical anthropology, with emphasis on current issues and trends in the field of anthropology. May be repeated.

Courses in this section are grouped as follows: Art History and Art Studio.

Prerequisites may be waived by consent of instructor. For the non-major, any number of studio courses will be accepted as electives.

The following courses fulfill the Humanities breadth of study requirements: ART HISTORY: 5, 15, 16, 17, 18, 19, 33H, 65, 79, 90, 105, 178, 215, 225, 245, 255, 258, 265, 275, 290, 315, 325, 326, 335, 345, 356, 357, 390, 395.

Art History

5 Introduction to Art (3)
An introduction to major historical movements in Western art.

16 Primitive/Tribal Arts (3)
A survey of the art of tribal peoples of Africa, Oceania and the Americas from prehistoric times through the present. The relationship of art to religion, myth, festival and social life will be considered, as well as the effects of acculturation on the arts. This course fulfills the study requirement for non-Euro-American.

16 North American Indian Art (3)
A detailed survey of the arts of North America from prehistoric times to the present. Cultures to be covered include: Moundbuilders, Northeast, Navajo, Pueblo peoples, Northwest Coast and Eskimo. The relationship of art to religion, dance, philosophy and social life will be explored. This course fulfills the non-Euro-American study requirement.

17 African Art (3)
A survey of the tribal and traditional arts of Black Africa. The function and context of art among specific peoples such as the Yoruba, Dan, Dogon, Kuba and Kongo will be discussed. Emphasis will be placed on dance, festival, and religion as the primary contexts of African art. Fulfills the non-Euro-American study requirement.

18 Survey of Oriental Art (3)
The study of architecture, sculpture and painting of India, China, Japan and Southeast Asia, emphasizing art as a universal language that furthers our understanding of radically different cultures. This course fulfills the non-Euro-American study requirement.

19 Pre-Columbian Art of Mexico and Central America (3)
A survey of the arts of native peoples of Middle America before the coming of the Spaniards in 1519. The cultural context and meaning of sculpture, painting, architecture, and ritual among the Olmec. This course fulfills the non-Euro-American study requirement.

33H Sophomore Honors Art (3)
Prerequisite: Standing in Sophomore Honors Program. Designed specifically for students in the Sophomore Honors Program. This discussion course introduces students to the study of art. Emphasis is placed on the critical understanding of works of art and on the literature of art history and theory. May be substituted for Art 5 as a prerequisite for advanced courses in art history.

65 Photography and Society (3)
(Same as Interdisciplinary 65.) A study of photography as a means of information and expression, as an influence on culture, and as a reflection of concepts in politics, science, morality, and art. This course counts toward the major.

79 Special Topics in Art History (1-3)
Selected topics in art history. This course may be repeated for credit.

90 Freshman Seminar (3)
Prerequisite: Freshman standing and consent of instructor. Topics to be announced. Weekly seminars supplemented by individual conferences.

105 Art Masterpieces (3)
Prerequisite: Art 5. Intensive studies of selected major monuments and works of major artists from throughout the history of art with special attention to the particular social and cultural factors surrounding their creation.

176 Women and the Visual Arts (3)
No prerequisite. Art 5 or Women's Studies recommended. Selected topics concerning women as creators, users and subject matter of art. Great women artists in the Western world will be studied, as well as women weavers, potters, and sculptors in tribal society.

215 Classical Art and Archaeology of Greece and Rome (3)
Prerequisite: Art 5. A general survey of the development of material culture in Greece and Rome from the earliest times through the Hellenistic period and the Roman Empire.

225 Medieval Art (3)
Prerequisite: Art 5. The art and architecture of the Middle Ages from the early Christian era through the late Gothic period.
235 Renaissance Art (3)
Prerequisite: Art 5. Artists and architects in fourteenth, fifteenth and sixteenth-century Europe. Special attention will be given to innovations in Italy and their influence throughout Europe.

246 Baroque Art (3)
Prerequisite: Art 5. Art and architecture in both northern and southern Europe from 1600 to 1750 with emphasis on the contributions of individual artists.

255 Modern Art (3)
Prerequisite: Art 5. European art of the nineteenth and twentieth centuries.

258 American Art (3)
Prerequisite: Art 5. A survey of the art of the United States, both as an extension of the European tradition and for its original contributions.

259 Modern Architecture (3)
Prerequisite: Art 5. A brief history and analysis of modern architecture, investigations of technological process, urban planning, and the dominating social attitudes which govern architectural development.

265 History of Photography (3)
Prerequisite: Art 5 or consent of department. A study of photography: its historical development, an examination of it as an art medium, and its influence on the development of modern art.

275 The Art of Print (3)
Prerequisite: Art 5. Dealing with the history of print forms: woodcuts, etchings, engravings, lithographs, silkscreens, monotypes, and mixed media. Special emphasis will be given to the importance of prints to the art and artists of our time.

290 Special Study (1-10)
Prerequisite: Junior or senior standing and consent of department and instructor. Independent study through readings, reports or field research.

295 Sophomore/Junior Seminar (3)
Prerequisite: Art 5 and consent of instructor. Reading, discussion and writing on topics to be announced. Course may be repeated with consent of instructor.

303 Art History Media Lab (1)
Prerequisite: Consent of instructor. Technical demonstration of and research into various materials and media used by the artist.

315 Studies: Tribal Arts (3)
Prerequisite: One of the following: Art 15, 16, 17 or 19; or permission of instructor.

Intensive study of the arts of several tribal groups. Inquiry into relationship between art and culture by means of an examination of myth literature, festival and social life. Seminar format. May be repeated for credit with permission of adviser. Fulfills non-Western requirement.

325 Early Christian Art and Archaeology (3)
Prerequisite: Art 215 or consent of adviser. The origins and development of Christian imagery prior to the fourth century, the Constantinian epoch, and Byzantine developments to the death of Justinian. Attention will be paid to works of art and to the entire material culture of early Christianity.

326 Monasteries, Cathedrals and Preaching Churches (3)
Prerequisite: Art 215 or consent of adviser. A study of chief monuments and characteristics of later medieval art, emphasizing their Christian institutional contexts.

336 Artists and Theories of the Renaissance (3)
Prerequisite: Art 225 or consent of adviser. Studies of selected fourteenth, fifteenth and sixteenth-century artists (e.g. Giotto, Donatello, Jan Van Eyck, Leonardo, Dürer, Michelangelo, Brueghel, etc.) and the ideas which are especially important in the work.

345 Age of Grandeur: Perspectives in Seventeenth and Eighteenth-Century Art (3)
Prerequisite: Art 245 or consent of instructor. A study of selected topics in Baroque and Rococo art. The content of the course will vary, focusing on single areas, such as the Baroque in Rome, or on major artists such as Bernini, Rubens and Rembrandt. May be repeated for credit with permission of instructor and adviser.

358 Nineteenth-Century Art (3)
Prerequisite: Art 255 or consent of adviser. Studies of selected formal and theoretical aspects of nineteenth-century European art. Typical topics: Neoclassicism, Realism, Impressionism. May be repeated for credit with consent of instructor.

367 Twentieth-Century Art (3)
Prerequisite: Art 255 or consent of adviser. A study of major stylistic and conceptual trends in European and American art of the twentieth century. May be repeated for credit with consent of instructor.

365 Seminar in Photographic Studies (3)
(Same as Interdisciplinary 365) Advanced special topics in photographic studies.

390 Special Study (1-10)
Prerequisites: Junior/senior standing and consent of department chairperson and instructor. Independent study through readings, reports, or field research.

396 Senior Art History Seminar (3)
Prerequisite: Senior standing in art history or consent of instructor. Intensive reading, discussion and writing on topics to be announced.

Art Studio

2 Introduction to Studio Art (3)
An introduction to drawing, painting and design in a beginning studio environment. This course is designed to provide basic skills and understanding of studio experience for the non-Art major.

30 Ceramics I (3)
An introduction to basic methods and theory of ceramics including work with hand-built construction, wheel techniques and glazing. Lab fee required.

40 Basic Drawing I (3)
An introduction to drawing through the study of figure, object and environment.

42 Figure Drawing I (3)
Basic studies of the human form and anatomy from the model in a variety of drawing media. Lab fee required.

50 Basic Design I (3)
Studio problems in the creative use and integration of the elements of two-dimensional design: line, form, space, texture and color.

60 Photography I (3)
An introduction to the techniques and aesthetics of black and white photography: the camera and the darkroom. One hour lecture and two and one-half hours laboratory meetings weekly. Students must provide a camera with adjustable speeds and aperture and pay for their darkroom materials. Lab fee required.

74 Special Topics in Studio (1-3)
Selected topics in studio studies. This course may be repeated for credit.

134 Art Activities for Elementary School (3)
(Same as ELE ED 179) A study of art principles and laboratory experiences with various media and materials. Stresses curriculum planning and development of the elementary school program in art.

140 Basic Drawing II (3)
Prerequisite: Art 40. The development of
drawing skills through continued observation and problems of invention. A further exploration of varied drawing materials and techniques including graphite, charcoal, conte crayon, and inks.

142 Figure Drawing II (3)
Prerequisite: Art 42. Continuation of Figure Drawing I. Lab fee required.

150 Basic Design II (3)
An introduction to three-dimensional design. The study of structure-space relationships through basic composition problems. Studio experiments with paper, plexiglas, lightweight wood, metal, linear media, and other materials.

160 Photography II (3)
Prerequisite: Art 60. Continuation of Photography I at the intermediate level. Lab fee required.

210 Graphic Design I (3)
Prerequisites: Art 50, 140 or consent of instructor. Introductory studio problems in layout, lettering and design with typographic elements.

211 Graphic Design II (3)
Prerequisite: Art 210 or consent of instructor. Continuation of Graphic Design I.

260 Composition (3)
Prerequisite: Art 50 and 150. An investigation of the use of formal design elements as used in historic and contemporary art. Weekly studio problems and discussions will concentrate on skills, application and unifying effects of compositional elements on a variety of visual art forms.

270 Printmaking: Relief I (3)
Prerequisites: Art 50, 140 or consent of instructor. An introduction to relief printmaking technique, materials and theory. The course will include work in linoleum, wood and other relief materials. Lab fee required.

271 Printmaking: Relief II (3)
Prerequisite: Art 270 or consent of instructor. A continuation of Art 270. Lab fee required.

272 Printmaking: Lithography I (3)
Prerequisites: Art 50, 140 or consent of instructor. An introduction to printmaking skills and theory in stone and plate lithography. Studio problems in the use of materials and equipment. Attention will be given to individual development. Lab fee required.

273 Printmaking: Lithography II (3)
Prerequisite: Art 272. Continuation of Art 272. Lab fee required.

274 Printmaking: Photo Lithography I (3)
Prerequisite: Art 60 or departmental consent. An introduction to printmaking skills and theory in stone and plate lithography with particular emphasis on the photographic applications of the process. Some attention will also be given to commercial application of the medium. Studio problems in the use of materials and equipment. Lab fee required.

280 Painting I (3)
Prerequisites: Art 50, 140 or consent of instructor. An introduction to the use of oil and/or acrylic painting media. Studio problems to develop technical and expressive skills on various surfaces.

281 Painting II (3)
Prerequisite: Art 280 or consent of instructor. Continuation of basic studio problems in painting media.

283 Watercolor Painting (3)
Prerequisites: Art 50 and 140. Beginning problems in watercolor painting. Includes the study of traditional and contemporary approaches to color, color techniques and treatment of papers.

290 Advanced Design (3)
Prerequisites: Art 50 and 150. Advanced studio problems in design materials. Use of two-dimensional and three-dimensional mixed media. Experimental use of materials and media will be introduced. May be repeated for credit. Lab fee required.

292 Advanced Design (3)
Prerequisites: Art 50 and 150. Advanced studio problems in design materials. Use of two-dimensional and three-dimensional mixed media. Experimental use of materials and media will be introduced. May be repeated for credit. Lab fee required.

330 Advanced Lithography (3)
Prerequisites: Art 272 and 273. Continuing problems in lithography with problems in black and white, photolithography and/or color. May be repeated for credit. Lab fee required.

370 Advanced Painting (3)
Prerequisite: Art 281 or consent of instructor. Advanced studio problems in painting media. Attention paid to individual development of theory, expression and technique. May be repeated for credit.

390 Special Study (1-10)
Prerequisites: Junior/senior standing and consent of department chairperson and instructor. Independent study through readings reports, or field research.

393 Senior Studio Seminar (3)
Prerequisite: Senior standing. Weekly critiques and discussions of technical and professional issues. Includes preparation for senior exhibition.

395 Senior Studio Seminar (3)
Prerequisite: Senior standing. Weekly critiques and discussions of technical and professional issues. Includes preparation for senior exhibition.
Prerequisites may be waived by consent of the department or instructor. Some courses as indicated in the course description may be taken concurrently with the listed offering. Consult your adviser for further information.

1 General Biology (3)
Emphasis on fundamental principles of biology. Biology 1 can be applied toward fulfillment of the general education requirement in science. Biology 1 does not satisfy the prerequisite requirements of other courses in biology at the 200 level or above. Students who plan to pursue a career in medicine or one of the medical-oriented professions should enroll in Biology 10 rather than Biology 1. Three hours of lecture per week.

3 General Biology Laboratory (2)
Prerequisite: Biology 1 may be taken concurrently. Laboratory course to accompany Biology 1. Biology 3 can be used to fulfill the general education requirements in a laboratory science. Biology 3 does not meet the prerequisite requirements for other courses in biology. Three and one-half hours of laboratory per week.

10 Introductory Biology (5)
Prerequisite: Mathematics 02 and English 09 or equivalent. A one-semester prerequisite for students intending to major in biology or take biology courses at the 200 level or above. This course offers an introduction to some of the biological properties and relationships of organisms, both plant and animal. The laboratory work emphasizes an experimental approach to biological processes. Three hours of lecture, two and one-half hours of laboratory and one hour of discussion per week.

90 Freshman Seminar (3)
Prerequisite: Freshman standing and high-school biology. Topic to be announced for each session. Weekly seminars and individual conferences. Section limited to twelve to fifteen students.

110 The Biology of Man (3)
Prerequisite: Biology 1 or 10. Lectures and assigned readings concerning man's characteristics as a primate and his changing relationship to the environment. Discussions of aggression, sexuality, modern medicine, human evolution, environmental exploitation, and other topics of current interest. Three hours of lecture per week.

111 Issues in Geriatric Health Care (2)
A course designed to acquaint the student with aspects of chronic disease frequent in later life, as well as a synopsis of biological aging processes. Disease symptomology, aspects of health maintenance and medical intervention with an older adult population will be discussed. In addition, issues in health-care delivery will also be explored.

113 Human Physiology and Anatomy I (4)
Prerequisite: Biology 1 or its equivalent. The basic aspects of the structure of the healthy human body and how it functions. Special emphasis is on how the human body adapts itself to its environment and how changes affect physiological activities. Three hours of lecture and two hours of laboratory per week.

114 Human Physiology and Anatomy II (4)
Prerequisite: Biology 113. A continuation of Biology 113. A study of the basic aspects of human physiology and anatomy. Three hours of lecture and two hours of laboratory per week.

115 Human Heredity and Evolution (3)
Prerequisite: Biology 1 or 10. The study of heredity and evolution with special reference to human populations. Three hours of lecture per week.

116 Microbiology and Man (3)
Prerequisite: Biology 1 or its equivalent. A survey of microbial structure, genetics, and physiology, with special emphasis on their interaction with man. Transmission and control of such organisms will be discussed in relation to maintenance of health. Three hours of lecture per week.

118 Microbiology and Man Laboratory (2)
Prerequisite: Biology 116. Standard techniques for identification, growth and control of microorganisms. Three and one-half hours of laboratory per week.

120 Environmental Biology (3)
Prerequisite: Biology 1 or 10. An examination of the biological basis of current environmental problems, with emphasis upon resources, energy, pollution and conservation. Three hours of lecture per week.

150 Plants and Civilization (3)
Prerequisite: Biology 1 or 10. A study of man's use and dependency on plants. Primary topics of discussion will center on the origin of agriculture and its influence on the development of nations, the origin and evolution of food crops, drug and medicinal plants, and problems in feeding the world's population. Three hours of lecture per week.

210 Cell Structure and Function (3)
Prerequisite: Biology 10 and Chemistry 11 (or Chemistry 1 plus 9). General cell biology, stressing cell structure and ultrastructure, as related to cell function. Three hours of lecture per week.

213 Vertebrate Physiology (3)
Prerequisites: Biology 10 and Chemistry 11 (or Chemistry 1 plus 9). Basic functional aspects of organ systems in relation to the physicochemical properties of protoplasm. Three hours of lecture per week.

215 Vertebrate Physiology Lab (2)
Prerequisite: Biology 213 (may be taken concurrently). Instrumental and experimental studies in physiology. Three and one-half hours of laboratory per week.

216 Microbiology (3)
Prerequisites: Biology 10 and Chemistry 11 (or Chemistry 1 plus 9). Study of microorganisms, their metabolism, genetics and their interaction with other forms of life. Three hours of lecture per week.

218 Microbiology Laboratory (2)
Prerequisite: Biology 216 (may be taken concurrently). Experimental studies and procedures of microbiological techniques. Three and one-half hours of laboratory per week.

220 General Ecology (3)
Prerequisite: Biology 10. An examination of the relationships between living organisms and their environment. Three hours of lecture per week.

222 General Ecology Laboratory (2)
Prerequisites: Biology 220 required (may be taken concurrently); a general statistics course strongly recommended. An analysis of factors influencing the abundance and distribution of living organisms. Three and one-half hours of laboratory per week.

224 Genetics (3)
Prerequisites: Biology 10 and Chemistry 11 (or Chemistry 1 plus 9). Fundamental principles of inheritance, including classical genetic theory as well as recent advances in the molecular basis of heredity. Three hours of lecture per week.
Biology

226 Genetics Laboratory (2)
Prerequisite: Biology 224 (may be taken concurrently). Laboratory to accompany Biology 224. Three and one-half hours of laboratory per week.

227 Development Laboratory (2)
Prerequisite: Biology 10. Basic principles of development from the point of view of growth, morphogenesis, and differentiation. Three hours of lecture per week.

237 Development Laboratory (2)
Prerequisite: Biology 226 (may be taken concurrently). Laboratory to accompany Biology 226. Three and one-half hours of laboratory per week.

246 Introduction to Evolution (3)
Prerequisite: Biology 10. Introduction to the theory, events, and processes of organic evolution. Three hours of lecture per week.

250 Biology of Plants (3)
Prerequisite: Biology 10. General survey of the plant groups from algae through angiosperms. Morphology, reproduction, and central physiological concepts unique to the plant kingdom will be discussed. Three hours lecture per week.

252 Biology of Plants Laboratory (2)
Prerequisite: Biology 250 (may be taken concurrently). Examination of representatives of the plant kingdom and experimentation in plant physiology. Three and one-half hours of laboratory per week.

260 Vertebrate Biology (3)
Prerequisite: Biology 10. Development, structure, function, interrelationships, and zoogeography of vertebrate animals with particular attention to phylogenetic aspects. Three hours of lecture per week.

262 Vertebrate Biology Laboratory (2)
Prerequisite: Biology 260 (may be taken concurrently). Laboratory to accompany Biology 260. Morphological analysis and systematic survey of major vertebrate groups. Overview of the vertebrate life forms and their adaptations to habitats and resources. Three and one-half hours of laboratory per week.

264 Invertebrate Biology (3)
Prerequisite: Biology 10. Development, structure, function and interrelationship of invertebrate animals with particular attention to phylogenetic aspects. Three hours of lecture per week.

266 Invertebrate Biology Laboratory (2)
Prerequisite: Biology 264 (may be taken concurrently). Laboratory to accompany Biology 264. Dissection and analysis of invertebrates with an emphasis on structure and function. Three and one-half hours of laboratory per week.

276 Biological Chemistry (3)
Prerequisites: Chemistry 261 and Biology 10. The chemistry and function of the living cell and its constituents, and the interactions and conversions of intracellular substances. Three hours of lecture per week.

278 Biological Chemistry Laboratory (2)
Prerequisite: Biology 276 (may be taken concurrently). Experiments designed to illustrate biochemical principles and modern biochemical procedures. Three and one-half hours of laboratory per week.

280 Animal Behavior (3)
Prerequisite: Biology 10. The study of invertebrate and vertebrate behavior, including developmental, genetic and ecological aspects of behavior; behavior interactions within and between populations. Three hours of lecture per week.

282 Animal Behavior Laboratory (2)
Prerequisite: Biology 280 (may be taken concurrently). Observational and experimental studies of animal behavior in the field and laboratory. Three and one-half hours of laboratory per week.

285 Methods of Teaching Biology in Secondary Schools (3)
(Same as SEC ED 245.) Prerequisites: Secondary Education 213 and a near-major in biology. A study of the scope and sequence of the life-science courses in the school curriculum, with emphasis on the selection and organization of materials and methods of instruction and evaluation. To be taken concurrently with student teaching.

286 Laboratory in Teaching the Life Sciences (2)
(Same as SEC ED 244.) Prerequisite: SEC ED 213. Discussion, development, utilization and evaluation of equipment materials and techniques applicable to instruction in the life sciences. To be taken concurrently with Biology 285 or Secondary Education 245.

289 Seminar (2)
Required of all biology majors during a semester of their senior year. Presentation of selected papers by students.

290 Research (1-10)
Prerequisites: Generally restricted to junior or senior standing with consent of instructor. Research (laboratory and/or library) in an area selected by student in consultation with faculty member. Credit arranged.

300 Radiation Safety in Biological Research (2)
Prerequisite: Consent of instructor. A description of the basic principles of radiation safety and the more important numerical data upon which the practice of radiation safety is based. Topics include interaction of radiation with matter, biological effects of radiation, operation of field and laboratory instruments, and control of exposure. Both ionizing and non-ionizing radiation will be discussed. Two hours of lecture/demonstration per week.

305 Morphology of Nonvascular Plants (3)
Prerequisite: Biology 250 or consent of instructor. An intensive study of algae through the mosses and liverworts, stressing relationships between the groups. Field studies and phytocology stressed. Three hours of lecture per week.

306 Morphology of Vascular Plants (3)
Prerequisite: Biology 250 or consent of instructor. An intensive study of ferns through angiosperms, stressing relationships between the groups. Field studies and phytocology stressed. Three hours of lecture per week.

307 Nonvascular Plant Laboratory (2)
Prerequisite: Biology 305 (may be taken concurrently). Laboratory to accompany Biology 305. Three and one-half hours of laboratory per week.

308 Vascular Plant Laboratory (2)
Prerequisite: Biology 306 (may be taken concurrently). Laboratory to accompany Biology 306. Three and one-half hours of laboratory per week.

310 Cell Physiology (3)
Prerequisite: Biology 276 (Biology 210 recommended). A study of cellular functions and their relationship to the structural and chemical properties of cellular components. Areas discussed: the cell and its environment, energy flow, exchange of materials across membranes, information transfer within and between cells and cellular aspects of movement. Three hours of lecture per week.

311 Physiology of Aging (3)
Prerequisite: Biology 10, Biology 213 or equivalent or consent of instructor. An overview of the aging process in animal populations with special emphasis on physiological changes that occur with human aging. Current theories as to the mechanism of aging are considered and critically evaluated in view of recent
research findings. Premature aging diseases and age-related diseases are discussed. Three hours of lecture per week.

313 Comparative Animal Physiology (3)  
Prerequisite: Biology 213. The unity and diversity of physiological mechanisms found throughout the animal kingdom. Three hours of lecture per week.

314 Environmental Physiology (3)  
Prerequisite: Biology 213. Physiological responses of animals to environmental changes. Adaptation of organisms to various environments. Three hours of lecture per week.

315 Comparative and Environmental Physiology Laboratory (2)  
Prerequisite: Biology 313 or 314. An open-ended laboratory course to accompany either Biology 313 or 314.

317 Immunobiology (3)  
Prerequisites: Biology 276 and Chemistry 261. The fundamental principles and concepts of immunology and immunohistochemistry. Emphasis on the relation of immunological phenomena to biological phenomena and biological problems. Three hours of lecture per week.

319 Immunobiology Laboratory (2)  
Prerequisite: Biology 317 (may be taken concurrently). Basic experimental procedures in immunology. Introduction to experimental evidence underlying concepts of immunology. Three and one-half hours of laboratory per week.

320 Neurophysiology (3)  
Prerequisite: Biology 310 or consent of instructor. A study of cellular neurophysiology including initiation, propagation, and transmission of nervous signals. Three hours of lecture per week.

322 Neurophysiology Laboratory (2)  
Prerequisite: Biology 320 (may be taken concurrently) and consent of instructor. Experiments designed to accompany Biology 320. Techniques and special research problems emphasized.

326 Molecular Biology (3)  
Prerequisites: Biology 224 and Biology 276. A discussion of the current concepts of molecular biology as they apply to understanding genetic regulation of DNA, RNA, and protein synthesis and function in the cell. Three hours of lecture per week.

330 Advanced Development (3)  
Prerequisite: Biology 235. A discussion of experimental approaches as applied to the analysis of development. Three hours of lecture per week.

332 Advanced Development Laboratory (2)  
Prerequisite: Biology 330 (may be taken concurrently). Instruction and practice in the application of experimental techniques to the study of development. Three and one-half hours of laboratory per week to be arranged.

334 Virology and Microbial Genetics (3)  
Prerequisites: Biology 216 and Biology 224. A comparative study of the structure, reproduction and genetics of viruses and an analysis of the mechanisms of variation in viruses and bacteria. Three hours of lecture per week.

336 Virology and Microbial Genetics Laboratory (2)  
Prerequisites: Biology 218 or equivalent and Biology 334 (may be taken concurrently). Laboratory to accompany Biology 334. Three and one-half hours of laboratory per week to be arranged.

342 Population Biology (3)  
Prerequisite: Biology 224 (Biology 220 recommended). The structure, operation, and evolution of populations. Three hours of lecture per week.

344 Evolution (3)  
Prerequisites: Biology 224 and Chemistry 261. The course and mechanisms of organic evolution, covering topics ranging from biochemical evolution to comparative anatomy and population genetics. Three hours of lecture per week.

346 Evolution Laboratory (2)  
Prerequisite: Biology 342 (may be taken concurrently). Laboratory to accompany Biology 342. Three and one-half hours of laboratory per week and/or field studies to be arranged.

348 Animal Societies and Aggregations (3)  
Prerequisite: Biology 220, 280, or 242 and junior standing. Studies of natural selection and evolution with specific reference to animal groups. Critical examination of group selection, altruism, and kin selection. Survey of social insects and vertebrate societies. Two hours of lecture, one hour of discussion per week.

350 Plant Physiology (3)  
Prerequisites: Biology 250 and 276. An examination of the physiological processes associated with plant growth and development. Three hours of lecture per week.

352 Plant Physiology Laboratory (2)  
Prerequisite: Biology 350 (may be taken concurrently). Laboratory to accompany Biology 350. Three and one-half hours of laboratory per week.

360 Techniques in Electron Microscopy (5)  
Prerequisites: Biology 210 and consent of instructor. Discussion of electron microscopy and associated techniques. Students will learn techniques associated with the preparation of materials for electron microscopy and learn to operate and perform minor servicing of the electron microscope. Two hours of lecture per week and seven hours of laboratory per week to be arranged.

364 Adaptive Radiation of the Vertebrates (3)  
Prerequisites: Ten hours of biology and upper division standing. An examination of the adaptive radiation and consequent physiological, behavioral, and ecological of the vertebrates. Three hours of lecture per week.

366 Adaptive Radiation of the Vertebrates Laboratory (2)  
Prerequisite: Biology 364 (may be taken concurrently). Study of the biological characteristics of vertebrate animals conducted in the laboratory and the field. Three and one-half hours of laboratory or field studies per week, or three weeks daily during the intersession.

370 General and Comparative Endocrinology (3)  
Prerequisite: Biology 213 (Biology 275 recommended). A survey of chemical coordinating mechanisms with special emphasis on the evolution of hormonal control systems. Three hours of lecture per week.

372 General and Comparative Endocrinology Laboratory (2)  
Prerequisite: Biology 370 (may be taken concurrently). An introduction to techniques and procedures used in endocrine research. Three and one-half hours of laboratory per week.

376 Advanced Biological Chemistry (3)  
Prerequisite: Biology 276. Topics include control of cellular metabolism, membrane transport mechanisms of action of enzymes and hormones, and enzyme kinetics. Three hours of lecture per week.

378 Advanced Biological Chemistry Laboratory (2)  
Prerequisite: Biology 278 or consent of instructor. Independent projects related to analytical and metabolic control, using advanced analytical and synthetic procedures. Three and one-half hours of laboratory per week.
Biology

380 Advanced Animal Behavior (3)
Prerequisite: Biology 280 (Biology 220 recommended). Advanced topics in animal behavior with an emphasis on ecological and evolutionary aspects of behavior. Topics will include the role of behavior in population regulation, habitat selection and spacing, feeding and predator-prey interactions, the ecology of social systems, competition, and the evolution of behavioral isolating mechanisms. Three hours of lecture per week.

381 Biosystematics (3)
Prerequisite: Biology 220. Mechanisms of speciation, hybridization, polyploidy, and other evolutionary phenomena utilizing current and classical literature in systematics. Three hours of lecture per week.

382 Advanced Animal Behavior Laboratory (2)
Prerequisite: Biology 380 (may be taken concurrently). Advanced observational and experimental studies of animal behavior in the field and laboratory. Three and one-half hours of laboratory per week.

383 Biosystematics Laboratory (2)
Prerequisite: Biology 381 (may be taken concurrently) or equivalent. Techniques in the analysis of systematic and evolutionary questions. Three and one-half hours of laboratory per week.

384 Behavioral Genetics (3)
Prerequisites: Biology 224 and 280 or equivalent. The genetic analysis of behavioral characteristics. Three hours of lecture per week.

385 Field Biology (2-5)
Prerequisites: Three biology courses and consent of instructor. Intensive study of the flora and fauna of selected areas of the North American continent including a ten-day field trip during spring recess and associated laboratory work. The area studied will be announced in the schedule of courses. Note: There is a specific fee charged for this course.

386 Marine Biology (3)
Prerequisite: Biology 264 (Biology 266 recommended). A survey of the major groups of marine plants and animals and their interactions in the various North American marine communities. Three hours of lecture per week.

390 Marine Biology Laboratory (2)
Prerequisite: Biology 390 (may be taken concurrently) and consent of instructor. Intensive laboratory and field study of selected North American marine communities. Consult the instructor for area to be visited. Students must pay their own travel and living expenses.

401 Current Topics in Biology (1)
Prerequisite: Graduate standing. An introduction to advanced topics in biology as seen through the eyes of the faculty. Faculty members will discuss current research in their area of interest and will review research being conducted in the department. One and one-half hours of lecture and discussion per week. Required of all graduate students.

417 Advanced Immunology (3)
Prerequisite: Biology 317, Immunobiology. Advanced consideration of techniques of measuring antigen-antibody interaction; immunogenetics as applied to cellular immunity and transplantation; evolution of the immune response. Three hours of lecture per week.

442 Population and Community Ecology (3)
Prerequisite: Biology 220 or 342 or their equivalents. Studies of structure and organization of natural communities stressing the abundance and distribution of species, the regulation of species diversity and the evolution of demographic parameters in populations. Three hours of lecture per week.

474 Hormones, Pheromones, and Behavior (3)
Prerequisites: Biology 213 and 290 required, 370 recommended. This course will survey the hormonal and pheromonal control of behavior in both invertebrates (annelids, arthropods and molluscs) and vertebrates (from fish to primates). Particular attention will be given to organizational and activational effects of hormones on sexual, parental, and agonistic behaviors. Interactions between hormonal, pheromonal, and neural control of behavior will be discussed. Three hours lecture per week.

485 Problems in Teaching College Biology (3)
(Same as ADU ED 435). Prerequisites: Teaching experience, thirty semester hours in biology and consent of instructor. Basic philosophies underlying undergraduate biology education at the college level will be presented and examined with concern for establishment of an individual philosophy in the prospective college teacher. Teaching techniques suitable for college-level instruction will be considered with respect to current research findings.

489 Graduate Seminar (2)
Presentation and discussion of various research problems in biology. Graduate student exposure to the seminar process.

490 Graduate Research in Biology (1-10)
Research in area selected by student in consultation with faculty members. May be taken to a maximum of ten hours.

492 Topics in Biology (2-5)
In-depth studies of selected topics in contemporary biology. May be repeated. Three lecture hours per week.
Chemistry

Prerequisites may be waived by consent of the department or instructor. Some courses as indicated in the course description may be taken concurrently with the listed offering. Consult your adviser for further information.

The following courses fulfill the Natural Sciences and Mathematics (SM) breadth of study requirements: 1, 2, 3, 4, 9, 10, 11, 12, 13, 122, 190, 202, 231, 232, 233, 234, 261, 262, 263, 264, 289, 290, 310, 324, 325, 331, 333, 336, 341, 414, 415, 416, 417, 431, 433, 434, 436, 439, 441, 442, 443, 449, 463, 464, 465, 468, 469, 490.

1 General Chemistry 1 (3)
Prerequisite: Mathematics 02 or equivalent (may be taken concurrently). A broad introductory survey of chemical principles. This course is not mathematically prepared for Chemistry 11. This alternative may be attractive to students who are not mathematically prepared for Chemistry 11. Chemistry 1 and 2 will ordinarily satisfy chemistry requirements in nursing, forestry, physical therapy, and related professions. Any student may take both Chemistry 1 and Chemistry 10 for credit. Chemistry majors may not include both Chemistry 1 and Chemistry 11 in the 120 hours required for graduation. Three hours of lecture per week.

2 General Organic Chemistry (3)
Prerequisite: Chemistry 1. A short course in organic chemistry with biochemical applications. Recommended for students in nursing, forestry, physical therapy and related professions. This course should not be taken by majors in the physical or biological sciences. Chemistry majors may not include Chemistry 2 in the 120 hours required for graduation. Three hours of lecture per week.

3 General Chemistry Laboratory (2)
Prerequisite: General Chemistry 1 or 10 (may be taken concurrently). Experiments to acquaint students with chemistry in the laboratory. No student may take both Chemistry 3 and Chemistry 9 for credit.

4 Laboratory in General Organic Chemistry (2)
Prerequisite: Chemistry 2 (may be taken concurrently). Experiments to introduce the student to organic and biochemical chemistry. These will include studies of the properties of organic compounds and introduce students to methods of synthesis and analysis.

9 General Chemistry II (3)
Prerequisites: Chemistry 1 and Mathematics 40 (may be taken concurrently). Additional work on the topics of Chemistry 1, with emphasis on quantitative material.

Introduction to the chemical laboratory. Chemistry 1 plus Chemistry 9 is equivalent to Chemistry 11 for science majors. Chemistry majors who receive credit for Chemistry 1 and Chemistry 9 may not also include Chemistry 10 or 11 in the 120 hours required for graduation. No student may take both Chemistry 3 and 9 for credit. Two hours of lecture per week, three and one half hours of lab or one hour of discussion on alternate weeks.

10 Chemistry in Society (3)
A survey of chemistry and its relevance to contemporary problems, including an introduction to important chemical principles as applied to air and water pollution, the chemistry of living systems, population, energy production, and other topics. Chemistry 10 does not satisfy the prerequisites of any course except Chemistry 3. No student may take both Chemistry 1 and 10 for credit. Chemistry majors may not include Chemistry 1, 9, 10, and 11 in the 120 hours required for graduation.

11 Introductory Chemistry I (5)
Prerequisite: Mathematics through college algebra and trigonometry (may be taken concurrently). Presents an introduction to the fundamental laws and theories of chemistry. Laboratory experiments are designed to demonstrate some aspects of qualitative and quantitative analysis and to develop skills in laboratory procedures. Chemistry majors may not include both Chemistry 1 and 11 nor both Chemistry 10 and 11 in the 120 hours required for graduation. Three hours of lecture and one hour of discussion per week; one hour of laboratory-lecture and three hours of laboratory per week.

12 Introductory Chemistry II (5)
Prerequisite: Chemistry 11 or advanced placement. Lecture and laboratory are a continuation of Chemistry 11. Three hours of lecture and one hour of discussion per week; one hour laboratory-lecture and three hours of laboratory weekly.

13 Special Topics in Introductory Chemistry (1-5)
Prerequisite: Consent of instructor. A lecture or laboratory course to assist transfer students in meeting the requirements of Chemistry 11 and 12.

122 Quantitative Analysis (3)
Prerequisite: Chemistry 12. Principles and practice of elementary quantitative analytical chemistry. Laboratory work will emphasize instrumental techniques, electrochemistry and some spectrophotometry. One and one-half hours of lecture and four and one-half hours of laboratory weekly.

190 Energy (3)
(Same as Physics 190.) Prerequisite: Junior standing. Perspectives and approaches to the energy problem from a physical and social science viewpoint. The course will involve lectures given by physical and social scientists and also assisted research by students of various aspects of energy production, conversion, use, environmental impact, and policy determination.

202 Introduction to Chemical Literature (1)
Prerequisite: Chemistry 262 (may be taken concurrently). The course will familiarize the student with the literature of Chemistry and its use. One hour of lecture per week.

231 Physical Chemistry I (3)
Prerequisites: Chemistry 122 and Mathematics 201 (may be taken concurrently), and Physics 111 (or equivalent). Principles of physical chemistry including thermodynamics, theory of gases, phase equilibria, kinetics, crystal structure, spectroscopy and quantum mechanics. Three hours of lecture per week.

232 Physical Chemistry II (3)
Prerequisite: Chemistry 231. Continuation of Chemistry 231. Three hours of lecture per week.

233 Laboratory in Physical Chemistry I (2)
Prerequisite: Chemistry 231 (may be taken concurrently). Experiments designed to illustrate principles introduced in Chemistry 231. One hour of lecture and four and one-half hours of laboratory per week.

234 Laboratory in Physical Chemistry II (2)
Prerequisite: Chemistry 232 (may be taken concurrently) and Chemistry 233. Experiments designed to illustrate principles introduced in Chemistry 232. One hour of lecture and four and one-half hours of laboratory per week.

261 Structural Organic Chemistry (3)
Prerequisite: Chemistry 12. An introduction to the structure, properties, synthesis and reactions of aliphatic and aromatic carbon compounds. Three hours of lecture per week.

262 Organic Reactions (3)
Prerequisite: Chemistry 261. A systematic study of organic reactions and their mechanisms, organic synthetic methods. Three hours of lecture per week.

263 Techniques of Organic Chemistry (2)
Prerequisite: Chemistry 261 or consent of instructor. An introduction to laboratory
Chemistry

techniques and procedures of synthetic organic chemistry. One hour of lecture and four one-half hours of laboratory per week.

264 Synthetic and Analytical Methods of Organic Chemistry (2)
Prerequisites: Chemistry 262 (may be taken concurrently) and Chemistry 263. Advanced techniques: synthesis, separation and identification of organic compounds by classical and instrumental techniques. One hour of lecture and four and one-half hours of laboratory per week.

280 Methods of Teaching Chemistry in Secondary Schools (3)
(Same as SEC ED 240). Prerequisites: SEC ED 213 and a near-major in the subject. A study of the scope and sequence of the science courses in the school curriculum, with emphasis on the selection and organization of materials and methods of instruction and evaluation. To be taken concurrently with student teaching.

289 Seminar (1-2)
Prerequisite: Chemistry 202 (may be taken concurrently). Presentation of papers by students, faculty and invited speakers. All majors must enroll for credit during their senior year. If taken during the day, the student must enroll for two semesters, one credit per semester. If taken in the evening, the student must enroll for one semester, and will receive two credits.

290 Chemical Research (1-10)
Prerequisite: Consent of instructor. Independent laboratory and library study, in conjunction with faculty member, of fundamental problems in chemistry.

310 History of Chemistry (3)
Prerequisite: Chemistry 12 or consent of instructor. The development of chemistry, including early theories of matter, alchemy, iatrochemistry, the period of Lavoisier and selected topics from the nineteenth and twentieth centuries. Three hours of lecture per week.

324 Instrumental Analysis (3)
Prerequisite: Chemistry 233. Modern instrumental methods, including nuclear magnetic resonance, electron spin resonance, mass spectrometry, spectrophotochemistry, x-ray diffraction and others. Two hours of lecture and three and one-half hours of laboratory per week.

325 Qualitative Organic Analysis (3)
Prerequisite: Chemistry 264. Laboratory and instrumental methods for the systematic identification of organic compounds. One hour of lecture and seven hours of laboratory per week.

331 Advanced Physical Chemistry (3)
Prerequisite: Chemistry 232. Study of advanced theoretical and experimental problems in modern physical chemistry. Selected topics such as statistical mechanics, properties of solids, reaction dynamics, molecular orbital theory, and spectroscopic methods may be included. Three hours of lecture per week.

333 Thermodynamics (3)
Prerequisite: Chemistry 232. Selected advanced topics including solid-state, non-equilibrium and statistical thermodynamics. Three hours of lecture per week.

336 Introduction to Quantum Chemistry (3)
Prerequisite: Chemistry 232 or consent of instructor. A brief but quantitative introduction to the application of quantum mechanics to problems in chemistry, covering the uncertainty principle, operators, solution of Schrödinger's equation for simple systems, perturbation theory, variation methods, interaction of radiation with matter, atomic and molecular structure, and theory of collisions. Three hours of lecture per week.

341 Inorganic Chemistry I (3)
Prerequisite: Chemistry 232 and 262 (may be taken concurrently). A systematic study of the structure and properties of the elements and their compounds, with emphasis on the correlation of chemical properties with theoretical concepts. Three hours of lecture per week.

342 Inorganic Chemistry II (3)
Prerequisite: Chemistry 341. Continuation of Chemistry 341 with emphasis on such topics as metals, non-aqueous solvents, chemical dynamics, organometallic chemistry, chemistry of the less common elements and certain frontier areas. Three hours of lecture per week.

343 Inorganic Reactions (2)
Prerequisite: Chemistry 341 (may be taken concurrently). The more sophisticated techniques of physical and analytical chemistry will be used to study inorganic compounds and their reactions. One hour of lecture and four and one-half hours of laboratory per week.

352 Nuclear Chemistry (3)
Prerequisite: Chemistry 232. Properties of radioactive nuclei, nature of radioactivity, nuclear reactions and applications of nucleons to chemistry. Three hours of lecture per week.

361 Advanced Organic Chemistry (3)
Prerequisite: Chemistry 262. Contemporary developments in the study of the structure of carbon compounds and the mechanism of their reactions. Selected topics such as natural products, heterocyclic compounds, stereochemistry, aromaticity, reaction intermediates and photochemistry will be included. Three hours of lecture per week.

363 Advanced Organic Synthesis (2)
Prerequisite: Chemistry 264. Advanced synthetic methods of organic chemistry. One hour of lecture and seven hours of laboratory per week.

366 Physical Organic Chemistry (3)
Prerequisites: Chemistry 262 and Chemistry 232 (may be taken concurrently). Advanced topics in the theory of organic chemistry, including conformational analysis, reaction kinetics and mechanisms, and transition state theory. Three hours of lecture per week.

371 Biochemistry (3)
Prerequisite: Chemistry 263. The isolation, chemical characterization, and function of the structural and catalytic components of living cells and subcellular particles. Three hours of lecture per week.

372 Advanced Biochemistry (3)
Prerequisite: Chemistry 371. Selected advanced topics in the chemistry of life processes. Three hours of lecture per week.

373 Biochemical Techniques (2)
Prerequisite: Chemistry 371 (may be taken concurrently). Laboratory study of biochemical processes in cellular and subcellular systems with emphasis on the isolation and purification of proteins (enzymes) and the characterization of catalytic properties. One hour of lecture and three and one-half hours of laboratory per week.

374 Advanced Biochemistry Laboratory (2)
Prerequisites: Chemistry 372 and 373 (later may be taken concurrently). Continuation of Chemistry 373. Laboratory to accompany Chemistry 372. One hour of lecture and three and one-half hours of laboratory per week.

380 The Teaching of Chemistry in Colleges and Universities (1)
Prerequisite: consent of instructor. A study of the history of the teaching of chemistry and the methods of instruction and evaluation used in the discipline.

381 Special Topics (1-10)
Prerequisite: consent of instructor. A reading and seminar course in selected advanced topics.
Chemistry

414 Molecular Spectroscopy (3)
Prerequisite: Chemistry 232. A broad treatment of the interaction of electromagnetic radiation with matter, emphasizing the utility of such interactions. Interpretation of molecular structure in terms of molecular, electronic and geometric structure and dynamics. Description and interpretation of physical techniques applied to chemistry. Three hours of lecture per week.

415 Organometallic Chemistry (3)
Prerequisite: Consent of instructor. A systematic study of the compounds containing a carbon-metal or a carbon-metalloid bond. Emphasis will be placed upon the structural types and chemical reactivity of this class of compounds. Topics will also include the role of organometallic compounds in synthesis and their catalytic behavior. Three hours of lecture per week.

416 Chemical Applications of Group Theory (3)
Prerequisite: Chemistry 232. A brief introduction to the fundamental relationships of group theory. Application of group theory to molecular orbital theory, molecular vibrations and molecular spectra. Three hours of lecture per week.

417 Environmental Chemistry (3)
Prerequisite: Consent of instructor. Selected topics in the chemistry of the environment including air and water pollution. Subjects to be discussed include photochemical smog, gaseous and particulate contamination, biodegradability of chemicals and chemical effects of contaminants on living species. Three hours of lecture per week.

419 Advanced Reading in Chemistry (1)
Prerequisite: Admission to the Ph.D. Program. Reading and examinations in the sub-disciplines of chemistry. Enrollment must begin after completion of any course deficiencies.

431 Advanced Chemical Calculations (3)
Prerequisite: Mathematics 201 and Chemistry 232. Advanced application of analytical techniques to chemical problems; complex variables, linear algebra, and series techniques. Three hours of lecture per week.

433 Statistical Mechanics (3)
Prerequisite: Chemistry 333 and Chemistry 431. Consideration of topics of chemical-physical interest including thermophysical properties of fluids and solids, Fermi-Dirac and Bose-Einstein fluids, theory of fluctuations, and irreversible processes. Three hours of lecture per week.

434 Interaction of Electromagnetic Radiation and Matter (3)
Prerequisite: Chemistry 436. Treatment of the theoretical description of interaction between atoms and molecules and electromagnetic fields. Includes such topics as electromagnetic field theory, spin systems in electromagnetic fields, time-dependent perturbation theory, emission and absorption of radiation, and selected applications to chemical and physical systems. Three hours of lecture per week.

436 Quantum Chemistry II (3)
Prerequisite: Chemistry 336 and 431. Advanced theoretical concepts; angular momentum, atomic and molecular structure. Three hours of lecture per week.

439 Special Topics in Physical Chemistry (3)
Prerequisite: Consent of instructor. Selected topics in physical chemistry; may be taken more than once for credit.

441 Typical Element Chemistry (3)
Prerequisite: Chemistry 342. Chemistry of the main group elements and their compounds including such topics as electron deficient compounds, acids, bases and non-aqueous solvents, catenation and inorganic polymers, the solid state, organo-typical element chemistry and energetics. Three hours of lecture per week.

442 Coordination Chemistry (3)
Prerequisite: Chemistry 342. The chemistry of the coordination compounds of the transition metals including such topics as kinetics and mechanisms of reaction, stereochemistry, ligand field theory, stability and organotransition element chemistry. Three hours of lecture per week.

444 Physical Inorganic Chemistry (3)
Prerequisites: Chemistry 342, 414 and 416. Study of physical concepts with emphasis on physical methods applied to inorganic systems, spectral and magnetic properties of coordination compounds, and application of bonding theories to inorganic chemistry. Three hours of lecture per week.

448 Problem Seminar in Inorganic Chemistry (1)
Prerequisite: Consent of instructor. Advanced topics of special current interest. May be taken more than once for credit.

463 Stereochemistry (3)
Prerequisite: Chemistry 361 or 366. A study of molecular geometry and relationships in space between atoms and groups in a molecule. Topics to be covered include optical isomerism, conformational analysis, asymmetric synthesis and topology. Three hours of lecture per week.

464 Organic Photochemistry (3)
Prerequisites: Chemistry 361 and Chemistry 366. A study of the synthetic and theoretical aspects and applications of light-induced reactions. Topics to be covered include primary photo-physical processes, reaction types, photosensitization. Three hours of lecture per week.

465 Chemistry of Natural Products (3)
Prerequisite: Chemistry 361. The chemistry and physiological action of natural products; methods of isolation, determination of structures, synthesis and biosynthesis. Three hours of lecture per week.

468 Problem Seminar in Organic Chemistry (1-3)
Prerequisite: Consent of the organic chemistry staff. Problems from the current literature, presentations and discussions by faculty and students. Up to three credits may be applicable in the M.S. or Ph.D. degree program.

469 Special Topics in Organic Chemistry (3)
Prerequisite: Consent of instructor. Advanced topics of special current interest. May be taken more than once for credit.

489 Chemistry Colloquium (1)
Presentation of papers by students, faculty and invited speakers. One hour per week.

490 Graduate Research in Chemistry (1-10)
Economics

Courses in this section are grouped as follows: Economics; Geography; and Home Economics.

Prerequisites may be waived by consent of the department.

Economics

40 Introduction to the American Economy (3)
Introduction to economic analysis and problems through an examination of the development and operations of the American economy; study of its evolution, institutions and principal problems. Economics 40 does not substitute for Economics 51 or 52.

51 Principles of Microeconomics (3)
Prerequisite: Mathematics 02 or equivalent recommended. Introduction to the determinants of household demand, production and cost, and market prices. Applies the principles of individual decision-making behavior to understanding goods, services and resource markets.

52 Principles of Macroeconomics (3)
Prerequisite: Economics 51. Introduction to the determination of levels of and changes in aggregate income, output, employment and prices. Applies economic principles of choice to the formulation and achievement of public policies that affect national employment, income distribution, and economic growth.

90 Freshman Seminar (3)
Prerequisite: Freshman standing and consent of instructor. Topics to be announced. Weekly seminars supplemented by individual conferences. Limited to twelve students.

214 Economics of the Environment (3)
Prerequisite: Economics 51. Study of the physical and biological environment as the ultimate economic resource; economic and scientific basis and implications of environmental use; analysis of water, air, and solid waste discharges as well as environmental and organismic disruption, deterioration, and depletion; costs of environmental contamination and maintenance; conservation and restoration; environmental planning and policy.

215 Economics of Energy (3)
Prerequisite: Economics 51. Analytical, institutional, and empirical study of world production and use of energy from primary sources to retail markets. Focus on supply and demand, technology, market organization and operations environmental impact, and public policy.

216 Public Finance (3)
Prerequisite: Economics 51. The nature and scope of public finance. Analysis of expenditure, revenue and financial administration of the government, with emphasis on current problems.

218 Social Choice in Political-Economic Systems (3)
(Same as Political Science and Sociology 281.) Prerequisite: Economics 51. A study of the mechanisms of social choice from the standpoint of individual and political party maximization of personal objectives. This area draws on work done by sociologists, political scientists, and economists.

220 Money and Banking (3)
Prerequisite: Economics 51; Economics 52 recommended. Factors influencing bank reserves and the money supply. Ability of the Federal Reserve System and the Treasury to control these factors. Introduction to monetary theory: integration of monetary phenomena with national income theory. Analysis of current policy issues.

221 Financial Markets and Institutions (3)
(Same as Business 221.) Prerequisite: Economics 51 and 52. Demand, supply, and flow of funds in the macro-financial system, determinants of the structure of interest rates, the impact of monetary and other governmental policies on interest rates, securities, prices, and flows of funds. Examines types and historical development of financial intermediaries, including their regulatory environment, decision-making within individual intermediaries, and how their portfolio decisions affect flows of funds in the economy.

230 International Economic Analysis (3)
Prerequisite: Economics 40 or 51 or 52. Elementary trade and payments analysis; balance of payments, international economic problems; concentration on fundamentals of analysis and problems.

231 International Finance (3)
Prerequisite: Economics 40 or 51 or 52. Introduction to international monetary systems; foreign exchange markets; financing of international transactions; the international position of the dollar.

233 Multinationals, Oil, Opec (1)
Prerequisite: Economics 51. Analysis of the development of the world oil industry, multinational oil companies, the organization of petroleum exporting countries, and oil markets. How prices and export levels are determined, the economic influence of the companies and OPEC, and policies of oil-importing countries.

238 Comparative Economic Systems (3)
Prerequisite: Economics 40 or 51 or 52. Comparative study of economic organization, growth and welfare in different national economies, such as the United States, the Soviet Union and France.

239 The Soviet Economy (3)
Prerequisite: Economics 40 or 51 or 52. Intensive analysis of the Soviet economy as a case study in central planning. Growth and development of the Soviet economy in historical perspective, and prospects for future evolution and structural change.

240 Economic Development (3)
Prerequisite: Economics 40 or 51 or 52. Survey of economic growth as applied to underdeveloped countries. Analysis of development policies with emphasis on specific case studies.

241 American Economic Development (3)
Prerequisite: Economics 40 or 51 or 52. Economic analysis and interpretation of the evolution of the principal developments, institutions, and structural characteristics of the economic system of the United States.

242 European Economic Development (3)
Prerequisite: Economics 40 or 51 or 52. Economic analysis and interpretation of the evolution of the principal developments, institutions and structural characteristics of the economic systems of Europe.

243 Latin American Economic Development (3)
Prerequisite: Economics 40 or 51 or 52. Study of national income, expenditure, and the forces determining the level of economic activity. Special emphasis on the theory of income determination and its application to public policy.
Economics

251 Intermediate Economic Theory: Microeconomics (3)
Prerequisites: Economics 51 and 52. Analysis of prices in terms of equilibrium of the business firm and consumer demand in markets of varying degrees of competition.

253 Managerial Economics (3)
(5ame as Business Administration 253). Prerequisites: Economics 51 and either Mathematics 80 or 101. Application of microeconomic theory to the decision-making process in the business firm. Discussion of cost behavior, price, and output determination under various competitive conditions, as well as factors affecting wages, interest and profits.

256 The Consumer and the Economy (3)
Prerequisite: Economics 51. This course will present a brief sketch of the historical development of consumption patterns in the United States and their interaction with methods of market competition. Theories of consumer behavior, including economic behavior and cultural approaches to consumption decisions will be evaluated. The course will examine problems of consumer choice and the management of personal finances in today's economy. Topics to be considered include budgeting, the use of credit, improving buying practices, savings, insurance, and personal investment planning. The course will analyze ways in which the consumer function can be performed more efficiently, including the development of consumer education and the role of government in consumer protection.

260 Labor Economics (3)
Prerequisite: Economics 40 or 51 or 52. Forms of labor organization, state and federal labor legislation, and policies of labor unions. Emphasis on an application of economic theory to the relations of labor and business.

270 Urban and Regional Economics (3)
Prerequisite: Economics 40 or 51 or 52. A survey of factors affecting the location of economic activity, industrial diversity, determinants of urban growth, the role of urban public economy, and the management of the urban environment.

287 The World Food Problem (3)
(5ame as Interdisciplinary 287.) Prerequisite: Economics 40 or 51, or consent of instructor. An introduction to the world's food problem and an examination of the economic and political problems in distributing basic foodstuffs among the earth's people.

301 The Urban Environment and Planning (3)
Prerequisite: Junior standing or twelve hours in social science. A survey of the development of urban America and the associated crises, of the origins and early practice of planning, and the role of the profession in modern society. Federal and state programs that affect urban development through the planning profession, and current changes in the practice of planning.

302 Systems Analysis for Urban Planning Problems (3)
Prerequisites: Junior standing and Economics 51 and 52 or consent of instructor. Applications of systems analysis to the planning program. Emphasis upon planning, programming and budgeting (PPB), costing, cost-benefit, cost effectiveness studies and information systems for urban planning and decision-making; covers review and evaluation techniques.

304 Survey Research Practicum (3)
(5ame as Political Science 304 and Sociology 304). Prerequisite: Junior standing and consent of instructor. The execution of a sample survey, including establishing study objectives, sampling, questionnaire construction, interviewing, coding, data analysis, and presentation of results.

305 Macroeconomics for the School Curriculum (1-3)
Prerequisite: Junior standing. Analysis of forces affecting the national economy, with emphasis on income determination, employment, money and banking, and international trade and finance. Special reference to topics included in elementary and secondary school social science curricula. Economics 305 may not be used by Economics majors to meet degree requirements.

306 Microeconomics for the School Curriculum (1-3)
Prerequisite: Junior standing. Analysis of market forces, with emphasis on business firms, households, and productive-factor markets, price determination, and resource allocation. Special reference to topics included in elementary and secondary school social science curricula. Economics 306 may not be used by Economics majors to meet degree requirements.

317 Public Finance: State and Local (3)
Prerequisites: Economics 51 and 52. A study of expenditure, taxation, and financial administration of state and local governments, with emphasis on problems of current interest. Special attention given to research methods, as well as financial relations between various levels of government.

321 Money (3)
Prerequisites: Economics 52 and 220. Demand for money; determination of interest rates, prices and income; decision-making under conditions of uncertainty; term structure and interest rates. Other topics of mutual interest.

331 International Economic Analysis (3)
Prerequisites: Economics 51 or 52. Theory of international trade and payments; foreign exchange and balance of payments; analysis of international policies. Emphasis upon economic considerations.

345 Population Economics (3)
Prerequisites: Economics 51 and 52. A systematic study of the forces influencing the attributes, character, distribution and growth of population; emphasis on economic considerations.

350 Special Readings (1-6)
Prerequisites: Consent of instructor; grade point of 3.0 or higher in Economics. Unscheduled, independent directed readings on topics mutually acceptable to student and instructor. Maximum credit limited to six hours.

351 Mathematical Economics (3)
Prerequisites: Economics 251 and Mathematics 101. Introduction to the development and use of mathematical models in economics. Decision and game theory. Selected topics in mathematical economics.

355 Business and Government (3)
Prerequisite: Economics 51. Relations between business firms and government at all levels. Questions of regulation, public ownership, guidelines and competition considered.

366 Industrial Organization (3)
Prerequisite: Economics 51 or equivalent. The principles of conflict resolution, including government techniques such as mediation, fact finding, arbitration, injunction, and seizure. Application of these techniques under the Taft-Hartley Act and Railway Labor Act. Case studies of industries including coal, oil, railroads, steel, and aerospace. A detailed examination of the operations of the labor market under non-competitive conditions.
Economics

364 Manpower Policies (3)
Prerequisite: Economics 51 or 52. Analysis of the allocation of human resources with emphasis on the economic theory of labor markets in both the short and the long run. Discussion of the operation of the labor market in specific occupations.

365 Economic Statistics and Econometrics (3)
Prerequisites: Economics 51 and 52; Mathematics 31 or Business 131; Mathematics 80 or 101 recommended. Application of statistical techniques to economic research problems.

366 Econometrics (3)
Prerequisite: Economics 365. Continuation of Economics 365.

368 Analysis of Business Conditions (3)

371 Urban Transportation (3)
Prerequisite: Economics 51. Role of transportation in the past, present, and future development of urban areas will be treated with particular emphasis on urban passenger transportation and its present and future role and importance in urban areas. However, non-urban and non-passenger transportation questions and problems will also be considered. Urban transportation planning and procedures and techniques will be discussed and criticized. The policy aspects of the course will concentrate on possible and appropriate investment and pricing policies for federal, state and local governments in dealing with the various urban transportation problems.

390 History of Economic Thought (3)
Prerequisites: Economics 51 and 52. The evolution of economic thought from the ancients through post-Keynesian theory.

401 Macroeconomic Analysis (3)
Prerequisite: Economics 250 or equivalent. Aggregate economic theory, including analysis of the determinants of income, output, employment and prices. Employment and price-level effects of consumer and investment demand, the money supply and interest rates, and government policies.

402 Microeconomic Analysis (3)
Prerequisite: Economics 251 or equivalent. A rigorous, basic survey of microeconomic comparative statics. Detailed examination of demand and supply, product and factor markets. Partial equilibrium in competitive, imperfectly competitive, and monopolistic markets.

420 Advanced Topics in Quantitative Economics and Policy (3)
Prerequisites: Regular graduate student status and consent of graduate student coordinator. Concepts and problems in quantitative economics and policy. Offered in alternate years.

421 Public Sector Microeconomics (3)
Prerequisite: Economics 251. Survey of economics of bureaucracy, fiscal federalism, entrepreneurship in non-profit organizations, benefit cost analysis, tax welfare, property rights and externalities.

430 Advanced Topics in International Economics (3)
Prerequisites: Regular graduate student status and consent of graduate student coordinator. Recent literature and problems in international economics. Offered in alternate years.

460 Advanced Topics in Industrial Economics (3)
Prerequisites: Regular graduate student status and consent of graduate student coordinator. Concepts and problems in industrial economics. Offered in alternate years.

470 Advanced Topics in Urban Economics (3)
Prerequisites: Regular graduate student status and consent of graduate student coordinator. Concepts and problems in urban economics. Offered in alternate years.

492 Seminar in Economic Research I (3)
Prerequisites: Regular graduate student status and consent of graduate student coordinator. Research methods applied to economics. Develop efficiency and skill in conducting research and report writing.

493 Seminar in Economic Research II (3)
Prerequisite: Economics 492. Continuation of Economics 492.

Geography

101 Introduction to Geography (3)
Prerequisite: Mathematics 02 or equivalent. An introduction to geography as a social science. The identification and explanation of order in the human landscape. A survey of the social, political, economic and psychological factors which influence geographic patterns.

102 World Regions (3)
Prerequisite: Geography 101 recommended. Survey of the major regions of the world. Designed to give the student an awareness of the character of each of these major regions through the interrelationships of the various attributes of place.

210 Urban Geography (3)
Prerequisite: Sophomore standing. An in-depth examination of urban growth, the location and basis of cities, and the internal spatial structure of cities provides the main topics of consideration. In addition contemporary urban problems including zoning, urban renewal, blight, the journey to work and shop, pollution, etc. are discussed with a spatial emphasis.

211 Location Theory (3)
Prerequisites: Mathematics 80 or 101 and Economics 51. A survey of industrial location theory, agriculture location theory, and central place theory; programming formulations of location models; spatial competition; location-allocation problems; and non-economic approaches to locational analysis.

220 Social Geography (3)
Prerequisite: Sophomore standing. Topics presented in a spatial (geographic) framework include the diffusion of innovations, population distribution, problems, and solutions, settlement patterns, migration, poverty, and urban-social problems (e.g., race and residential choice).

Home Economics

83 Clothing Selection (3)
Study of line, form, space, color, and texture in selection of clothing as related to the individual. There will be wardrobe planning of men's, women's, and children's wear, as well as appropriate projects, field trips, and guest speakers.

130 Nutrition in Health (3)
A study of dietary nutrients essential for health, proper selection of foods to provide them and current issues affecting them.

177 Community Nutrition (3)
Current issues and resources in nutrition. National nutrition policy, economic aspects of the food supply, nutrition-related roles of public agencies, selected nutrition programs, and community resources are emphasized.

181 History of Fashion and Costume (3)
An illustrated lecture presentation to gain
insight into fashion as a kaleidoscopic portrayal of society and idiomatic style changes from ancient Egypt to the present. The course will cover the history of fashion as a definitive subject and will describe how costume reflects social, cultural, and political events of each period.

186 Fashion Merchandising (3)
A survey course of fashion merchandising with emphasis on retail principles, operations, and practices in the many sectors of fashion marketing. Specific application through case studies, problems and field projects may be included.

330 Child Nutrition (3)
Prerequisite: Home Economics 130 or instructor's permission. A study of nutrition related to the major periods of development: fetal, infant, childhood, and adolescent.

Courses in this section are grouped as follows: Composition; Language; Literature; Special Offerings; and Library Science.

English 10, Composition, or its equivalent, is a general prerequisite for all English courses numbered 131 and above. This, and other specific prerequisites, may be waived by consent of the department.

The following courses fulfill the Humanities breadth of study requirements:
- LANGUAGE: 220, 322.
- SPECIAL OFFERINGS: 90, 250, 390.

**Composition**

09 Basic Writing (3)
A review of elementary principles of writing expository prose. Special attention is given to sentence clarity, organization, the clear and orderly development of ideas, and good diction. The course does not fulfill the university requirement in communicative skills. **No credit toward any degree.** The course meets three hours a week.

10 Freshman Composition (3)
Prerequisite: Satisfactory performance on the Essay Proficiency Test or a grade of C or better in English 09. Theory and practice of writing exposition. Course does not count toward the major in English.

50 Short Story Writing (3)
Prerequisite: English 10 or equivalent. Theory and practice of writing the short story.

51 Poetry Writing (3)
Prerequisite: English 10 or equivalent. Theory and practice of poetry writing.

52 Play Writing (3)
Prerequisite: English 10 or equivalent. Theory and practice of writing plays.

65 Honors Exposition (3)
Prerequisite: Honors qualification on Essay Proficiency Test. May not be taken in addition to English 10. Practice in expository writing, with readings in literature and related fields on topics to be announced each semester. Does not count toward the major in English.

115 Feature Writing (3)
Prerequisite: English 10 or equivalent. Readings from quality feature writing in the best American papers and magazines. Emphasis upon newspaper feature writing, magazine article writing, and book reviewing. Practical application in writing feature articles for newspapers and magazines.

116 News Writing (3)
Prerequisite: English 10 or equivalent. Readings from quality reporting in the best American papers. Basic newswriting, reporting, style, techniques of interviewing. Practical application in writing news and feature articles for newspapers.

160 Advanced Expository Writing (3)
Prerequisite: completion of English 10 or equivalent. Emphasis upon newswriting. Writing assignments include reports and proposals. Emphasis is placed on clarity, conciseness, organization, format, style and tone. Course fulfills the general education requirement in Communicative Skills. May not be taken Pass/Fail.

161 Technical Writing (3)
Prerequisite: English 10 or equivalent. The major elements of technical writing. Writing assignments include technical definitions, abstracts and summaries, mechanism descriptions, instructions, process analyses, technical reports and proposals. Emphasis is placed on clarity, conciseness, organization, format, style and tone. The course includes an introduction to research methods and documentation. All readings are selected from industrial material. Fulfills the University requirement for a junior-level course in Communicative Skills, subject to the approval of the student's major department.

162 Business Writing (3)
Prerequisite: English 10 or equivalent. The major elements of business writing. Writing assignments include business correspondence (inquiry, complaint, employment letters, etc.), reports (informal, travel, periodic, etc.), proposals (sales, etc.), analysis (marketing research, etc.), and writing for house organizations (company newsletters, etc.). Emphasis is placed on clarity, conciseness, organization, format, style and tone. The course includes an introduction to research methods and documentation. All readings are selected from business material. Fulfills the University requirement for a junior-level course in Communicative Skills, subject to the approval of the student's major department.

230 Writing Literary Criticism (3)
Prerequisites: Two college courses in
English

Literature
12 Literary Types (3)
The student is introduced to the various literary types, including poetry, drama, fiction, and the essay.

13 Topics in Literature (3)
This course will introduce the student to selected literary topics and/or genres. Each semester the department will announce topics and course content. Topics such as alienation, justice, and the absurd, and genres such as science fiction and contemporary drama are typical possibilities.

14 Short Subjects (1)
A one-hour course in special limited subjects in literature, language or writing. Content will vary from semester to semester. Subject matter may include, for example, Shakespeare's sonnets, the novels of Tolkien, Wertmuller's films or any other topics suitable for treatment in a one-hour course. Since the topics of English 14 may change each semester, the course may be repeated once for credit if the topics are substantially different.

17 American Literary Masterpieces (3)
An introduction to major themes and works in American literature from the nineteenth century to the present. Selected works of Hawthorne, Poe, Melville, Whitman, Twain, James, Frost, Hemingway, Faulkner, O'Connor, Plath and Bellow.

33 Sophomore Honors (3)
Discussions based on the careful reading of significant creative works that form part of the literary heritage of Western civilization, from antiquity to the present day. Limited to students in the Sophomore Honors Program.

120 Classical Literature in Translation (3)
The civilization of ancient Greece and Rome as reflected by their major creative writers in some of their principal works: the epics of Homer and Vergil; the plays of Aeschylus, Sophocles, Euripides, Aristophanes, Plautus, Terence and Seneca; the lyrics of Sappho and Catullus; the satire of Petronius, and Ovid's rendering of the classical myths.

123 Jewish Literature (3)
This course will examine the traditional Jewish literature of the Bible and later legends found in the Talmud and Midrash and will also consider later phases of Jewish literature, both sacred and secular. These will include medieval folklore and Hasidic tales.

124 Literature of the New Testament (3)
A comprehensive understanding of the New Testament, its literary background and significance for Western civilization.

125 Literature of the Old Testament (3)
Prerequisite: Sophomore standing or consent of instructor. A comprehensive understanding of the Old Testament, its literary background and significance for Western civilization.

126 Continental Medieval Masterpieces in Translation (3)
A survey of the masterworks of the early and later Middle Ages, to include the Divine Comedy, Nibelungenlied, Song of Roland, El Mio Cid, selections from Chretien de Troyes, Boccaccio's Decameron, and Machiavelli's The Prince.

127 Survey of European Literature From 1650 to the Second World War (3)
Works of continental writers such as Moliere, Goethe, Dostoevsky, Ibsen, and Kafka, read in translation.

128 The Contemporary World in Literature (3)
Selected American, British and Continental literature since the Second World War.

Language
22 Traditional Grammar (3)
An introduction to the basic terms and concepts of traditional grammar, beginning with the parts of speech and moving to more complex structures such as participles, gerunds, and clauses. Includes introduction to conventions of formal usage. May not count toward the six hours in linguistics and grammar required for secondary certification.

220 Development of the English Language (3)
An historical survey of the English language with primary emphasis on the development of modern English from earlier periods of the language.

221 American Dialects (3)
A study of dialects in the United States, including regional and social variation, formal and informal styles, the concept of a standard dialect, and the use of dialect in literature.

322 Modern English Grammar (3)
A detailed study of modern English sentence structure in terms of current theories of linguistic description, with special emphasis on transformational grammar.
American, and from at least three different centuries.

171 American Literature I (3)  
Representative selections from American authors from the middle of the seventeenth century to the middle of the nineteenth century.

172 American Literature II (3)  
Representative selections from American authors from the middle of the nineteenth century to the present.

210 Themes and Forms in Literature (3)  
The study of particular literary ideas, modes, and genres, and their significance. Topics announced in advance by the department. Since the topics of English 210 may change each semester, the course may be repeated for credit if the topics are substantially different.

270 Afro-American Literature (3)  
A survey of prose, poetry, and drama by black Americans from the period of enslavement through the Negro Renaissance to the present.

280 Topics in Women and Literature (3)  
An examination of the role of women in literature, either as figures in literary works or as writers. Specific topics to vary from semester to semester. Since the topics of English 280 may change each semester, the course may be repeated for credit if the topics are substantially different.

310 Continental Fiction (3)  
Prerequisites: Two college courses in literature. The development of the European novel in the nineteenth and twentieth centuries. Representative works of writers such as Balzac, Flaubert, Dostoevsky, Tolstoy, Kafka and Proust, read in translation.

315 Literary Criticism (3)  
Historical survey of the principles of literary criticism from Plato to the present.

324 Chaucer (3)  
The course concentrates on the poetry of Geoffrey Chaucer, including the Canterbury Tales, early poetic works, and the Troilus and Cressida. All readings are in the original Middle English.

325 Medieval English Literature (3)  
A survey of old and middle English literature from Beowulf to Malory's Morte d'Arthur, exclusive of Chaucer. All works are read in modern English translations.

332 Elizabethan Poetry and Prose (3)  
Spenser, Sidney, Wyatt and other poets of the latter sixteenth century. The origin and development of prose fiction.

337 Shakespeare: Tragedies and Romances (3)  
The development of Shakespeare's concept of tragedy and tragicomedy from Titus Andronicus to The Tempest. The plays will be related to the social and literary milieu of the period.

338 Shakespeare: Comedies and Histories (3)  
Shakespeare's early work for the theatre with some attention to the sonnets and longer poems. An historical background for a study of all the plays, including discussions of Elizabethan society, the world of the stage and Shakespeare's biography.

339 Tudor and Stuart Drama (3)  
A survey of the dramatic writings of the period from the interludes of John Heywood to the closing of the theatres in 1642, with particular attention to the plays of Marlowe, Jonson, Webster, and Ford. Though Shakespeare will not be studied in this course, connections between his works and those of his contemporaries will be discussed.

342 Early Seventeenth-Century Poetry and Prose (3)  
Donne, Jonson, Marvell, Bacon, and other poets and essayists of the Metaphysical, Cavalier and Baroque schools, exclusive of Milton.

345 Milton (3)  
All the minor poems and the three longer poems with some attention to the major prose, Milton and his relation to the politics, theology and literature of the seventeenth century.

346 Restoration and Eighteenth-Century Drama (3)  
The principal tragedies and comedies from Dryden to Sheridan, including the plays of Congreve, Farquhar, Rowe, Gay, Fielding, Goldsmith, among others.

352 Age of Dryden and Pope (3)  
The beginnings of English neo-classic literature in the Restoration and its development through the first half of the eighteenth century, focusing on Dryden, Swift and Pope.

353 Age of Johnson (3)  
The breakdown of the neoclassic spirit and the introduction of the "new" poetry and novel. Consideration of Fielding, Johnson, Thompson, Young, Goldsmith, Sheridan and others.

364 The Eighteenth-Century English Novel (3)  
The origin and early development of the English novel, from Defoe to Jane Austen.

365 The Nineteenth-Century English Novel (3)  
The later development of the English novel, from Scott to Conrad.

368 Early Romantic Poetry and Prose (3)  
The English romantic movement with special emphasis on the early writers—Blake, Wordsworth and Coleridge. Additional readings in selected prose writers and minor poets.

369 Later Romantic Poetry and Prose (3)  
The English romantic movement with special emphasis on the later writers—Byron, Shelley and Keats. Additional readings in selected prose writers and minor poets.

371 Prose and Poetry of the Victorian Period (3)  
Critical readings of selections from Tennyson, Browning, Arnold and others, in addition to selections from the major prose writing.

372 The Later Nineteenth Century (3)  
Poetry, drama and fiction of the period between 1870 and the first World War: Hardy, Hopkins, Conrad, Shaw, Wilde, Yeats and others.

373 Selected Major American Writers I (3)  
American literature of the nineteenth century: Emerson, Thoreau, Hawthorne, Melville, Whitman and others.

374 Selected Major American Writers II (3)  
American literature of the late nineteenth and early twentieth centuries: James, Twain, Stephen Crane, Dreiser and others.

375 American Fiction to World War I (3)  
Development of the novel and short story in America.

376 Modern American Fiction (3)  
The novel and short story in America since World War I. There may be some attention to British and Continental influences.

383 Modern British Fiction (3)  
Critical reading and analysis of British fiction of the twentieth century. There may be some attention to American and Continental influences.
English

384 Modern Poetry (3)
Critical reading and analysis of poetry of the late nineteenth and early twentieth centuries: Yeats, Eliot, Frost, Williams and others.

385 Modern Drama (3)
British, American and European drama of the last one hundred years: the well-made play, the problem play, verse drama, new definitions of tragedy, the angry theater, theater of the absurd.

386 Poetry Since World War II (3)
Reading and analysis of contemporary poetry.

400 Introduction to Graduate Study in English (3)
A course especially designed to prepare students to perform effectively in graduate classes in English. The course is concerned with basic bibliographical tools; terminology, both technical and historical; various approaches to the study of literature, such as intrinsic analysis of a literary work, the relationships of biography to literary study, and the relevance of other disciplines (psychology or philosophy, for example) to literature; the writing of interpretive and research essays. Throughout the semester a balance between criticism and research is maintained.

410 Modern Linguistics (3)
Prerequisite: None. A study of selected topics in the structure of the English language, combining readings in current linguistics publications with original research.

415 Literary Criticism (3)
An examination of selected theories of literature.

420 Old English (3)
Elements of old English grammar and exercises from Anglo-Saxon literature.

421 Studies in Middle English Literature (3)
Special topics in English literature before 1500.

430 Renaissance Literature (3)
Special topics in English literature from 1500 to 1600.

450 Eighteenth-Century Literature (3)
Studies in Augustan poetry and prose, including drama and fiction, with emphasis on background and major figures.

460 Studies in Poetry (3)
Study of a few selected British and American poets.

465 Studies in Fiction (3)
Study of a few selected British and American novelists and short story writers.

467 Studies in Drama (3)
Study of a few selected British and American dramatists.

470 Nineteenth-Century Literature (3)
Special topics in English romanticism, in Victorian life and thought, and in the development of the novel and of poetry between 1797 and 1914.

475 American Literature Before 1900 (3)
Selected American writers or topics from the Colonial period to 1900.

476 Twentieth-Century American Literature (3)
Selected American writers or topics from 1900 to the present.

480 Twentieth-Century British Literature (3)
Selected British and Commonwealth writers of the twentieth century.

485 Seminar in Special Topics (3)
Special topics which are not covered in other graduate-level English courses.

487 Independent Reading (1-3)
Directed study in areas of English for which courses are not available.

499 Master's Essay (3)
Preparation of a concise essay equivalent in length to a substantial article in which the student demonstrates his ability to do research, to offer perceptive criticism and evaluation, and to write clearly and effectively.

Library Science

220 Introduction to Cataloging (3)
Cataloging books using Anglo-American cataloging rules and the Dewey classification. Does not count toward the major in English.

221 Selection and Acquisition of Library Materials (2)
Introduction to types of materials in library; their source of supply, evaluation, selection sources, as well as acquisitions routines and procedures. Does not count toward the major.

222 Introduction to Reference (3)
Introduction to reference materials and procedures, including automated reference sources. Does not count toward the English major.

223 Administration of School Libraries/Media Centers (3)
Operational objectives and functions of school learning resource centers, including physical facilities, and personnel standards. Does not count toward the major.
The following courses fulfill the Social Sciences (SS) breadth of study requirements: 3, 4, 6, 31, 32, 33, 61, 62, 71, 81, 82, 100, 101, 103, 107, 112, 113, 120, 130, 144, 155, 162, 200, 204, 252, 261, 262, 271, 272, 281, 282, 300, 301, 302, 303, 304, 305, 306, 311, 314, 320, 321, 327, 330a, 330b, 330c, 330d, 330e, 330f, 330g, 330h, 331a, 331b, 331c, 331d, 332a, 332b, 332c, 332d, 332e, 333a, 333b, 333c, 333d, 333e, 390.

3 American Civilization (3)
Evolution of the cultural tradition of the Americas from the earliest times to the mid-nineteenth century, with emphasis on the relationship of ideas and institutions to the historical background. Course fulfills the state requirement.

4 American Civilization (3)
Continuation of History 3 to the present. Course fulfills the state requirement. Either History 3 or 4 may be taken separately.

6 Honors American Civilization (3)
A single-semester survey of American history from the seventeenth century to the present. Tailored to students in the Sophomore Honors Program. The course satisfies the state requirement.

31 Topics in European Civilization: Emergence of Western Europe to 1715 (3)
Lectures and discussions on the development of Western European society and tradition from approximately 1000 to 1715.

32 Topics in European Civilization: 1715 to the Present (3)
Lectures and discussions on the development of Western European society and tradition from 1715 to the present.

33 Honors Western Civilization (3)
Prerequisite: Admission to Sophomore Honors Program. A survey of major topics in the history of Western civilization from the Ancient World to the twentieth century will be presented with emphasis upon discussion of readings in original documents and excerpts from major works of the past in all fields.

61 East Asian Civilization (3)
The development of Asian civilization from earliest times to the Manchu conquest.

62 East Asian Civilization (3)
Continuation of History 61 with emphasis on the Asian response to the Western incursion. Either History 61 or 62 may be taken separately.

71 Latin American Civilization (3)
A survey of selected topics important in the development of Latin America from pre-Columbian times to the twentieth century.

81 African Civilization to 1800 (3)
Introduction to African cultural history from the emergence of early man to the abolition of the Atlantic slave trade.

82 African Civilization Since 1800 (3)
Survey of African initiative and response in the period spanning the loss and reassertion of independence. History 81 or 82 may be taken separately.

100 Topics in History (1-3)
A seminar on special topics in history to be determined by the field and interests of the instructor.

101 History of Women in Comparative Cultures (3)
An introduction to the historical development of women's status in a variety of cultures and periods within the areas of Africa, Europe, the Far East, Latin America and the Middle East. The course analyzes women's political, economic, familial and sexual roles and the economic, demographic, ideological and political forces which promoted change and continuity in those roles. This course meets the non-Euro-American requirement.

103 Sport and Society (3)
The course looks at organized sport in western society as a form of social history. Some attention is paid to the period from early Olympic games through the end of the eighteenth century. The major part of the course will deal with the role of organized team sport in post-industrial society (since 1870). Great Britain and the United States. It will also attempt to compare the social structure and values of the two societies.

107 The History of Missouri (3)
Lecture and readings. Seventeenth-century Spanish and French explorations and interaction with the Indians; settlement and organization of the Louisiana territory; lead mining and the fur trade; the Louisiana Purchase; the Missouri territory; the struggle for statehood and slavery; anti-bellum politics; banking and internal improvements; westward expansion; Civil War and Reconstruction; postwar agrarian politics; industrialization; Irish, German and southern European immigration; the Progressive reforms - political and economic changes; and twentieth-century social changes and political developments.

109 War and Society in the Modern World: 1415 to the Present (3)
A survey of Western military history and its effect on the social, political and economic structures of society.

112 United States Diplomatic History (3)
An analysis of the development, formula-
History

168 Photohistory (3)
American life from 1839 to the present as recorded by the camera; the role of photography in the development of modern American culture; techniques for the interpretation of photographic documents. The course format includes lectures, discussions and independent research.

200 Topics in History (3)
A course dealing with special interest topics at the 200-level determined by the field and availability of instructors and student interest. The course may be repeated for credit with the consent of the instructor.

204 The History of the American Labor Movement (3)
A survey course on the history of the American labor movement from Colonial America until the present, this course will focus both on the institutional history of the American labor movement and on the social history of working people in America. Emphasis upon the development of labor-management relations, personnel work, and ethnic, racial and sexual differences in the work force.

252 The World of Islam (3)
Prerequisite: Junior standing or consent of instructor. The development of Islam as a religion and a civilization will be traced from Arabian origins to its present position as the major religion of Africa and Asia. Special emphasis on the Islamic state, Sufi mysticism, the Shariah and the Muslim confrontation with modernization. This course fulfills the non-Euro-American requirement.

255 Curriculum and Methods of Teaching History and Social Studies (3)
(Same as SEC ED 255.) Prerequisite: SEC ED 215 and a near-major in the subject matter. A study of the scope and sequence of the history and social studies courses in the school curriculum, with emphasis on the selection and organization of materials and methods of instruction and evaluation. Attention is also directed toward the teaching of the techniques and research tools of the scholar in the field of history and social studies. May not be counted toward a major in history. To be taken concurrently with student teaching.

261 Modern Japan: 1860 to Present (3)
Prerequisite: Junior standing or consent of instructor. The economic, social and political development of modern Japan.

262 Modern China: 1800 to Present (3)
The economic, social and political development of modern China.

271 History of Latin America: To 1808 (3)
Latin America from the American civilizations to 1808, stressing social, political, and economic institutions in the Spanish colonies.

272 History of Latin America: Since 1808 (3)
Emphasis on the attainment of political independence and social, political, and economic developments of the nineteenth and twentieth centuries in Latin America.

281 West Africa Since 1800 (3)
Analysis of change in the savanna/forest societies occasioned by Islamic reform and the end of the slave trade, the imposition of colonial rule and African response, growth of nationalist protest, and post-independence development.

282 Crisis in Southern Africa (3)
Historical roots of apartheid and black nationalism in South Africa and Rhodesia/Zimbabwe. Foundation of white African societies, Khoisan resistance, the Mfecane and African state formation, the mineral revolution, colonialism versus autonomy, and the current confrontation of rival ideologies.

293 Senior Seminar (3)
Prerequisite: Consent of department. Required for all senior history majors who are candidates for graduation with honors. Recommended for all history majors planning to attend graduate school. Directed readings, research, and writing.

300 Selected Topics in History (3)
Prerequisite: Junior standing or consent of instructor. A course on special topics in history to be determined by the field, availability of instructors and interest of students. The course may be repeated for credit with the consent of the instructor.

301 United States History: Colonial America to 1783 (3)
Prerequisite: Junior standing or consent of instructor. English background of colonization; rise of distinctive New England and Southern societies; English colonial policy and African response, growth of the nation; important Supreme Court decisions; great American jurists and their impact upon the law, historical background to current constitutional issues.

304 United States History: 1860-1900 (3)
Prerequisite: Junior standing or consent of instructor. The Civil War, Reconstruction, industrial and urban expansion, and their impact on American life.

306 United States History: 1900-1940 (3)
Prerequisite: Junior standing or consent of instructor. The economic, political and social developments and crises of the United States. The growing importance of foreign relations.

311 Topics in American Constitutional History (3)
Prerequisite: Junior standing or consent of instructor. Origins and development of the principal institutions and ideas of the American constitutional system; the role of the Constitution and the Supreme Court in the growth of the nation; important Supreme Court decisions; great American jurists and their impact upon the law, historical background to current constitutional issues.

314 American Foreign Policy Since 1941 (3)
Prerequisite: Junior standing or consent of instructor. A study of the change in American foreign policy since Pearl Harbor. Particular attention to the Truman Doctrine, the Cold War, the Vietnam War and normalization with China.

320 History of Feminism in Western Society (3)
Prerequisite: Junior standing or consent of instructor. History of feminist movement and feminist thought on status of women, family, work, and sexuality in the United States, Great Britain, Western Europe, and Russia, as well as the relationship between feminist theory and the feminist movement.

321 History of Women in the United States (3)
Prerequisite: Junior standing or consent of instructor. Development of women's
economic, political and social role in the United States with special emphasis on the nineteenth and twentieth centuries. Women and work; women and the family; women and reform movements; women and education; feminist theorists and activists; images of women.

327 History of the American South (3)
Prerequisite: Junior standing or consent of the instructor. A survey of Southern society and culture and the South’s relationship with the nation.

330a The Ancient World: Israel (3)
Prerequisite: Junior standing and consent of instructor. Survey of Israel’s history from the formation of the people to the final revolt under Simon Bar Kochba (132-135 C.E.).

330b The Ancient World: History of Greece to the End of the Hellenistic Period (3)
Prerequisite: Junior standing or consent of instructor. A survey lecture course, beginning with the Aegean in the Bronze Age; Hellenic Civilization from the eighth through the fifth centuries B.C.; the Hellenistic World down to the first century B.C.

330c The Ancient World: Rome (3)
Prerequisite: Junior standing or consent of instructor. Survey of Roman history from its beginnings to 565 A.D.

330D History of the Church: Early Christianity (3)
Prerequisite: Junior standing or consent of instructor. Brief introduction to Jewish, Greek, and Roman antecedents. Christian beginnings, and the emergence of Christian traditions, to the Council of Nicea (325 A.D.).

330e History of the Church: The Middle Ages (3)
Prerequisite: Junior standing or consent of instructor. A topical study of the Christian Church in Europe as an autonomous and central institution from the sixth century through the Reformation Crisis. Special attention will be given to the relations between the Church and the secular world, and the contributions of medieval Christianity to the development of European institutions and ideas.

330f Medieval England (3)
Prerequisite: Junior standing or consent of the instructor. A brief summary of the Anglo-Saxon heritage and the impact of the Norman Conquest, followed by an investigation of the institutional, social and legal evolution of the realm of England. English development will be viewed in its European context.

330g Europe in Early Middle Ages (3)
Prerequisite: Junior standing or consent of the instructor. The end of the Roman Empire as a universal entity; the successor states of the Mediterranean and Northern Europe; the emergence of a Western Christendom under the Franks; the development of feudal states; the Gregorian reforms; the Crusades; the revival of education and learning in the twelfth century.

330h Europe in the High and Later Middle Ages (3)
Prerequisite: Junior standing or consent of the instructor. Medieval society at its political, economic, and intellectual zenith; the crisis of the later Middle Ages; the papal schism and the development of national particular churches within Catholicism; and the rise of estate institutions.

331a The Age of the Renaissance (3)
Prerequisite: Junior standing or consent of the instructor. The Italian and Northern Renaissance as a distinct age; political, socio-economic, intellectual, religious and artistic movements attending the decline of medieval society and the transition to the early modern period.

331b The Age of Reformation (3)
Prerequisite: Junior standing or consent of the instructor. Religious, intellectual, political and socio-economic developments of the sixteenth century.

331c Tudor-Stuart England (3)
Prerequisite: Junior standing or consent of instructor. The course deals with the political, social, economic and cultural development in England from 1500 to 1714. Major topics include the consolidation of the monarchy, the causes and impact of the English Reformation, the Revolutions of the seventeenth century, and the rise of Parliamentary power and the increasing importance of England as a force in international politics.

331d Material Life in Pre-Industrial Europe, 1350-1850 (3)
Prerequisite: Junior standing or consent of instructor. The course centers on the daily life of Europeans in the years prior to the Industrial Revolution. Nutrition, health, housing, and patterns of energy consumption are examined. Special attention is devoted to agriculture, but the development of metallurgy, shipbuilding, and the cloth trade are stressed together with the financial and commercial mechanisms that supported them. The evolution of social and political structures in response to changes in the conditions of material life are analyzed in detail.

332a History of Spain (3)
Prerequisite: Junior standing or consent of the instructor. A survey of Spanish history from the fifteenth century to the present, emphasizing its period of imperial greatness and examining the effects of empire on national development.

332b Russian History From the Beginnings to 1861 (3)
Prerequisite: Junior standing or consent of instructor. A survey of the development of the Russian state in its Kievan, Muscovite, and Romanov forms, in connection with social-economic forces. Special attention is paid to the development, maturation, and elimination of Russian serfdom.

332c Modern France: to 1870 (3)
Prerequisite: Junior standing or consent of instructor. French history during the period in which she was the greatest power in Europe. Topics discussed include the monarchy during the “Old Regime,” the Enlightenment, the French Revolution, the Napoleonic wars, nineteenth-century instability and revolution, daily life and popular culture, and the economic development of France.

332d The Rise of the Modern British State (3)
Prerequisite: Junior standing or consent of instructor. A political, social and economic study of Great Britain from 1714 to the present day. Particular attention will be given to the topics of revolution, reform and the welfare state.

332e Europe From the French Revolution to World War I, 1789-1914 (3)
Prerequisite: Junior standing or consent of instructor. The major political, social, economic, and diplomatic developments in Europe from the origins of the French Revolution to World War I. Topics include the French Revolution, Napoleon, the Concert of Europe, the Industrial Revolution, the unification of Germany and Italy, the Bismarckian system, the growth of socialism, and the origins of World War I.

333a Contemporary France: Since 1870 (3)
Prerequisite: Junior standing or consent of instructor. The history of Republican France. Topics discussed include the creation of a liberal-democratic government; the scandals and crises of the Third Republic; the Dreyfus affair; the rise of imperialism, socialism, and feminism; the impact of World War I, the popular front, defeat, collaboration, and resistance during World War II; and the re-establishment of France as an important power.
History

333b Germany in the Modern Age (3)
Prerequisite: Junior standing or consent of instructor. The course deals with whether or not the Third Reich should be considered the culmination of German history. Problems of national unification, economic development, representative government and cultural modernism will be considered.

333c Russian History from 1861-Present (3)
Prerequisite: Junior standing or consent of instructor. A survey of the social, economic, political and cultural characteristics of Romanov Russia in the last decades of its existence, the Revolutions of 1917, and the development of the Soviet state and social order.

333d Europe in the Twentieth Century (3)
Prerequisite: Junior standing or consent of instructor. A survey of the main social, economic, political, military, and cultural trends since the onset of World War II.

333e Contemporary Europe, 1939-Present (3)
Prerequisite: Junior standing or consent of instructor. A survey of the social, economic, political, and cultural modernism will be considered.

390 Special Readings (1-10)
Prerequisite: Consent of instructor. Independent study through readings, reports, and conferences.

405 Introduction to Historical Agencies (3)
A survey of the varieties, purposes, and functions of historical agencies in American culture. To be taught by members of the department and adjunct faculty from area historical agencies.

410 Studies in Historical Agencies (3)
Specialized studies in various aspects of historical agency activity, such as museology, archives and manuscripts, site interpretation, and historic preservation. Specific topics will be announced each semester; the course may be repeated for credit if the topic is not a duplication of a course taken previously.

415 Practicum in Historical Agencies (1-6)
Participation as a staff worker in the practical operation of an historical agency in the St. Louis metropolitan area. Students will design their programs in consultation with the department and the staff of the participating historical agency.

419 Readings in East Asian History (3 or 5)
Directed readings and writing on selected topics and areas in East Asian history.

430 Readings in European History (3 or 5)
Directed readings and writing on selected topics and areas in European history.

450 Readings in American History (3 or 5)
Directed readings and writing on selected topics and areas in American history.

460 Readings in Latin American History (3 or 5)
Directed readings and writing on selected topics and areas in Latin American history.

470 Readings in African History (3 or 5)
Directed readings and writing on selected topics and areas in African history.

490 Thesis Seminar (2-6)
Thesis research and writing on a selected topic in history.

Mathematical Sciences

Courses in this section are grouped as follows: Mathematics; Computer Science; and Probability and Statistics.

All introductory courses in mathematics, other than Mathematics 02a, require a prerequisite a satisfactory score on the Mathematics Placement Test. The dates on which this test is administered are given in the Schedule of Courses. Placement into the introductory courses (other than Math 02a) assumes a mastery of approximately one and one-half years of high-school algebra.

A minimum grade of C shall be required to meet the prerequisite requirement for any course except with permission of the department.

Prerequisites may be waived by consent of department.

Mathematics

02a Fundamentals of Algebra I (2)
Concepts and algorithms of arithmetic and an introduction to elementary algebra. No credit toward any degree.

02b Fundamentals of Algebra II (2)
Prerequisite: Mathematics 02a or a satisfactory score on the mathematics placement examination. Development of the basic concepts and techniques of elementary algebra. Topics covered include linear equations, system of linear equations, inequalities, operations on polynomials, and factoring. No credit toward any degree.

02c Fundamentals of Algebra III (2)
Prerequisite: Mathematics 02b or a satisfactory score on the mathematics placement examination. A continuation of Mathematics 02b. Topics covered include operations on fractions, exponents, radicals, and quadratic equations. No credit toward any degree.
Mathematical Sciences

03 Trigonometry (2)
Prerequisite: One and one-half units of high-school algebra or Mathematics 02. This is a remedial course in trigonometry designed for the student who intends to study calculus and has not had high-school trigonometry. It is recommended that this course be taken concurrently with Mathematics 30. No credit toward any degree. (Note: Students wishing to take this course may find it advisable to contact the associate chairperson of the department.)

15 Mathematics: Ideas and Structures (3)
Prerequisite: A satisfactory score on the mathematics placement examination. An introduction to the spirit of mathematics and to modern mathematical thought. Course is designed for the student who does not intend to major in mathematics or science.

30 College Algebra (4)
Prerequisites: Three units of high-school mathematics or the equivalent and a satisfactory score on the mathematics placement examination. Topics in algebra and probability, polynomial functions, the binomial theorem, logarithms, exponentials, and solutions to systems of equations. Credit not granted for both Mathematics 30 and 80. Mathematics 40 is recommended for mathematics and science majors.

40 Pre-Calculus Mathematics (5)
Prerequisites: Three units of high-school mathematics including one and one-half units of algebra and a satisfactory score on the mathematics placement examination. Topics from algebra and trigonometry for the student who plans to take further work in mathematics. Polynomial functions, the binomial theorem, mathematical induction, and the logarithmic, exponential, trigonometric and inverse trigonometric functions.

50 Structure of Mathematical Systems I (3)
Prerequisite: 45 hours of college credit and a satisfactory score on the mathematics placement examination. A study of mathematical systems, elementary logic, natural numbers, and sets and construction of the integers. Recommended for elementary education students.

80 Analytic Geometry and Calculus I (5)
Prerequisites: Mathematics 40 or four units of high-school mathematics covering the equivalent material, and a satisfactory score on the algebra-trigonometry placement examination. Introduction to analytic geometry and integral calculus. Mathematics 80, 175, 201 form the calculus sequence.

101 Survey Calculus (4)
Prerequisite: Mathematics 30 or 40 or a satisfactory score on the mathematics placement examination. Introduction to plane analytic geometry and study of the basic techniques of differential and integral calculus with application to various areas. No credit for mathematics majors. Credit not granted for both Mathematics 80 and 101.

102 Finite Mathematics I (4)
Prerequisite: Same as for Mathematics 101. Introductory logic and set theory, partitions and counting problems, elementary probability theory, stochastic processes, Markov chains, vectors and matrices, linear programming, and game theory.

151 Structure of Mathematical Systems II (3)
Prerequisite: Mathematics 50. A continuation of Mathematics 50 to include a study of the rational and real number systems. An intuitive study of elementary geometry. Introduction to the deductive theory of geometry. Recommended for elementary education students.

175 Analytic Geometry and Calculus II (5)
Prerequisite: Mathematics 80. Selected topics from plane analytic geometry and calculus.

201 Analytic Geometry and Calculus III (5)
Prerequisite: Mathematics 175. Solid analytic geometry and selected topics in calculus.

202 Linear Algebra and Differential Equations I (3)
Prerequisite: Mathematics 201. Linear algebra of finite dimensional vector spaces, linear maps, matrices, determinants, linear differential equations of first order, linear differential equations with constant coefficients, variation of parameters, Wronskians.

203 Finite Mathematics II (3)
Prerequisite: Mathematics 102. A continuation of Mathematics 102. Linear programming and game theory, application of combinatorial mathematics. A student cannot receive credit for both Mathematics 203 and Business Administration 375.

245 Matrix Algebra With Applications (3)
Prerequisite: Mathematics 30 or 40. An introduction to matrices and linear algebra with applications. Topics will include operations with matrices, inversion of matrices, solutions of systems of equations, determinants, and eigenvalues.

250 Introduction to Modern Mathematics (3)
Prerequisite: Mathematics 201. Set algebra, equivalence relations, partitions, functions, and development of algebraic and topological properties of the real numbers.

301 Differential Equations (3)

303 Applied Mathematics II (3)
Prerequisite: Mathematics 202 or 301. Topics chosen from Fourier series, special functions, partial differential equations, and boundary value problems.

304 Applied Mathematics III (3)
Prerequisite: Mathematics 202 or 250. Matrices and characteristic values; vector analysis; analytic functions of a complex variable, Taylor and Laurent series, residues, conformal mapping.

306 Applied Differential Equations (3)

310 Advanced Calculus I (3)
Prerequisite: Mathematics 250 or consent of the department. Limits, continuity and differentiability of functions of one and several variables, sequences and series, the Riemann-Stieltjes integral.

311 Advanced Calculus II (3)
Prerequisite: Mathematics 310. Continuation of Mathematics 310.

316 Functions of a Complex Variable (3)
Prerequisite: Mathematics 202 or 250. Complex numbers and their geometrical representation, point sets, analytic functions of a complex variable, complex integration, Taylor and Laurent series, residue theorem, conformal mapping.

320 Mathematical Statistics I (3)
See Statistics 320 in Probability and Statistics section that follows.

321 Mathematical Statistics II (3)
See Statistics 321 in Probability and Statistics section that follows.

322 Numerical Analysis I (3)
Prerequisites: Mathematics 202 or concurrent enrollment and a knowledge of FORTRAN. Solutions of equations, inte-
Mathematical Sciences

401 Introduction to Abstract Algebra I (3)
Prerequisite: Mathematics 250 or consent of department. Introduction to groups, rings, and fields with emphasis on groups and rings.

402 Introduction to Abstract Algebra II (3)
Continuation of Mathematics 401 with emphasis on fields.

403 Applied Mathematics II (3)
Fourier series and integrals, Laplace transforms, boundary value problems, matrices, integral equations, Sturm-Liouville systems.

410 Theory of Functions of a Real Variable I (3)
Prerequisite: Mathematics 310; 311 is strongly recommended. The real number system, properties of functions of one or more real variables, mapping theorems. Introduction to measure and integration theory.

411 Theory of Functions of a Real Variable II (3)
A continuation of Mathematics 402.

412 Projective Geometry (3)
Prerequisite: Mathematics 250 or consent of the department. Analytic approach to the study of projective spaces. Theorems of Desargues, Pascal, and Brianchon. Projective properties of conics.

413 Introduction to Differential Geometry (3)

414 Foundations of Geometry (3)
Prerequisite: Mathematics 250 or consent of the department. A development of portions of Euclidean geometry from a selected set of axioms, including a discussion of consistency, independence, categoricity and completeness of the axioms.

415 Introduction to Non-Euclidean Geometry (3)
Prerequisite: Mathematics 250 or consent of the department. Analytic approach to the study of hyperbolic plane geometry.

416 Functions of a Complex Variable I (3)

417 Functions of a Complex Variable II (3)

418 Topics in Analysis (3)
Prerequisite: Consent of instructor. Topics selected from the areas of Fourier analysis, harmonic analysis, Hilbert spaces, Banach algebras, special functions, generalized functions, partial differential equations. May be taken more than once for credit with consent of department.

420 Probability Theory I (3)
Prerequisite: Mathematics 410 (may be taken concurrently). Combinatorial analysis, random walks, stochastic independence, random variables, laws of large numbers, generating functions, branching processes.

421 Probability Theory II (3)

430 Partial Differential Equations I (3)
Prerequisite: Mathematics 310. Introduction to partial differential equations: Cauchy, Dirichlet, and Neumann problems; the fundamental solution; existence theorems of potential theory; eigenvalue problems; and Tricomi's problem.

431 Partial Differential Equations II (3)

442 Algebra I (3)
Prerequisite: Mathematics 441. Basic fundamentals of the theory of groups, rings, and fields.

443 Algebra II (3)
A continuation of Mathematics 442.

448 Topics in Algebra (3)
Prerequisite: Mathematics 443 and consent of department. Topics selected from the theory of groups, rings, fields, algebras, and other algebraic systems. May be taken more than once for credit with consent of department.

450 Directed Readings (1-6)
Prerequisite: Consent of instructor. Independent readings at an advanced level.
Mathematical Sciences

460 Optimization and Variation (3)
Prerequisite: Mathematics 310 and 345.
Topics from classical optimization, linear programming, calculus of variations and other techniques of optimization.

470 Functional Analysis I (3)
Prerequisite: Mathematics 410 and 411.
Algebraic and topological tools applied to problems in analysis. The topics chosen will usually include topological vector spaces, metric spaces, Banach spaces, Hilbert spaces and Banach algebras.

471 Functional Analysis II (3)
Prerequisite: Mathematics 470. A continuation of Mathematics 470; spectral theory, distribution and test functions, unbounded operators.

480 Topology I (3)
Prerequisite: Mathematics 310. Topological spaces, compactness, connectedness, mapping theorems, product spaces, function spaces, metric spaces.

481 Topology II (3)
Prerequisite: Mathematics 480. A continuation of Mathematics 480; introduction to algebraic topology, fundamental group, homology.

490 Master's Thesis (1-6)
Prerequisite: Consent of instructor. Thesis work under the supervision of a faculty member. The course is designed for those students intending to present a thesis as part of their M.A. program. Students who do not write a thesis cannot apply Mathematics 490 to a degree.

Computer Science

22 Introduction to Computing (3)
Prerequisite: None. Fundamental concepts of computer systems. Introduction to the applications of computers. The programming language BASIC.

122 Computers and Programming (3)
Prerequisite: Mathematics 30 or 40 or equivalent. Introduction to machine hardware and software, FORTRAN programming. Credit not granted for both Business Administration 104 and Mathematics 122.

222 Programming Techniques (3)
Prerequisite: Computer Science 122 or consent of instructor. Programming techniques using sorting, searching, lists, trees, stacks and recursive functions. The techniques are illustrated by examples chosen from a simple compiler and these examples will be programmed in PL/1.

226 File Structures (3)
Prerequisite: Computer Science 222. Characteristics of files stored on tape and direct access storage devices. Sequential and random access methods for updating, inserting, and deleting records in files. Data structures used in file storage and retrieval. Utility routines for file handling, I/O specification statements for allocating space and cataloging files. Overview of database systems.

229 Introduction to Computer Hardware (3)
Prerequisite: Computer Science 122 or consent of instructor. The course presents an introduction to the design and operation of the several components of a digital computer.

260 Microprocessors and Microcomputers (3)
Prerequisite: Computer Science 122 or consent of instructor. Architecture and programming of several microcomputers. Applications of microcomputer systems.

270 The Minicomputer (3)
Prerequisite: Computer Science 122 or consent of instructor. The architecture of a minicomputer. Assembly language programming. The use of a minicomputer operating system and its utility programs: Hands-on experience with a specific computer.

272 Programming Languages Laboratory (1-3)
Prerequisite: Computer Science 122 or consent of instructor. Computer programming in a specified language. Credit will depend upon the language, but will normally be one or two hours. Languages taught include APL, PASCAL, SNOBOL, GPSS, and BASIC. New languages will be included as they become available on our computers. This course may be repeated for up to six hours of credit, if a different language is studied each time.

312 Analysis of Algorithms (3)
Prerequisites: Mathematics 201 and Computer Science 222. Efficiency of the basic algorithms of computer science. Sorting, searching, multiplication of matrices and integers. Emphasis will be placed upon comparison of alternate methods.

322 Data Structures (3)
Prerequisite: Computer Science 222 or consent of instructor. Topics chosen from the following: in-memory data structures—lists, trees, stacks and recursive functions, sequential, indexed, random and inverted files, bit maps; data bases—the network, hierarchical and relational models for data and the implementation of such models in database systems. Applications in algorithms.

325 Theory of Computation (3)
Prerequisite: Upper division standing or consent of the instructor. Finite automata, Turing machines, recursive function theory, Church's thesis, decision problems.

328 Programming Languages and Compilers (3)
Prerequisite: Computer Science 222. A survey of certain features and concepts common to many programming languages, a guide to how they can be implemented, and finally, an introduction to compiling techniques. Examples will be given in various programming languages including: PL/1, FORTRAN, BCPL and ALGOL. The course will include but not be confined to recursive functions, formal syntax, precedence grammars and the Tree-Meta compiler.

332 Artificial Intelligence (3)
Prerequisite: Computer Science 222. The programming language LISP and its application to problems such as heuristic search, game playing, problem solving, natural language understanding, visual perception, automatic programming, and theorem proving.

370 Software Design and Development (3)
Prerequisites: Computer Science 226 and Computer Science 322. Software design techniques including stepwise refinement, segmentation, top-down design and iterative enhancement. Organization and management of software development teams. Documentation of integrated software projects. Organization, management, and development of a large scale software project by students working in teams.

373 Teleprocessing and Telecommunication (3)
Prerequisite: Computer Science 222. Characteristics of communication lines: modern; techniques for controlling line errors; multiplexing; synchronous and asynchronous line protocols; packet switching and circuit switching; and Networks.

376 Operating Systems (3)
Prerequisite: Computer Science 222. The need for operating systems will be examined. The technical problems involved and some possible solutions will be presented.

379 Topics in Computer Science (3)
Prerequisite: Consent of instructor. A seminar on special topics in computer science to be determined by recent developments in the field and the interests of the instructor. May be repeated for credit provided different topics are studied.
Mathematical Sciences

Probability and Statistics

31 Elementary Statistical Methods (3)
Prerequisite: Mathematics 30 or 40. An introduction to the basic tools and elementary methods of statistics, such as testing of hypotheses, analysis of variance, method of least squares, and time series. Does not satisfy the School of Business Administration requirement ordinarily met by Business Administration 131. A student may not receive credit for both Statistics 31 and Business Administration 131.

132 Applied Statistics I (3)
Prerequisite: Mathematics 30 or equivalent. An introduction to the basic tools and elementary methods of statistics, such as least squares estimation, analysis of variance, regression, and testing of hypotheses. The use of the statistical package, SAS, for operation on statistical data. A student cannot receive credit for more than one of Business Administration 131, Statistics 31 and Statistics 132.

232 Applied Statistics II (3)
Prerequisite: Statistics 31 or 132 or equivalent. Topics to be chosen from: fitting distributions to data, goodness of fit, parametric and non-parametric correlations and partial correlation, and non-parametric statistics. Sampling, design of experiments, categorical data, and regression. Emphasis on practical applications.

320 Mathematical Statistics I (3)
Prerequisite: Mathematics 201. Introduction to theory of probability and statistics using concepts and methods of calculus. Same as Mathematics 320.

321 Mathematical Statistics II (3)

326 Introduction to Stochastic Processes (3)
Prerequisite: Statistics 320. Markov chains, martingales, stationary distributions of a Markov chain, recurrent states, branching, birth and death, queuing chains, jump processes, second order processes, continuity and differentiation of second order processes, white noise and stochastic differential equations.

330 Multivariate Analysis (3)
Prerequisites: Mathematics 245 and Statistics 320 or consent of instructor. Multivariate normal distribution and related distributions such as the Wishart distribution. Statistical inference for the multivariate normal distribution. Multiple regression, canonical correlations, multivariate analysis of variance, classification problems, and discriminant analysis.

331 Analysis of Variance and Design of Experiments (3)
Prerequisites: A year of calculus, some matrix theory, and an intermediate course in statistics. Theory of general linear hypotheses, important special cases of analysis of variance, theory of least square estimation, interval estimation. One-way, two-way, and higher-way layouts, completely randomized design, randomized complete blocks. Latin square design, factorial, incomplete block and fractional replications, lattice design, optimum design.

333 Nonparametric Methods in Statistics (3)
Prerequisite: Statistics 320 or consent of instructor. Emphasis on statistical tests which are distribution free; one sample and two sample location and detection of shifts, point estimators, and confidence intervals. Relative dispersion, K-sample tests, detection of of independence, and regression.

Modern Foreign Languages and Literature

Prerequisites may be waived by consent of the department.

The following courses fulfill the Humanities [H] breadth of study requirements:
- GERMAN: 110, 150, 180, 201, 202, 210, 310, 320, 345, 351, 360, 399.

Chinese

Courses in Chinese are available at Washington University for UMSL students. Consult the modern foreign languages department for details and obtain the necessary forms from the registrar’s office.

101 First Level Modern Chinese I (5) (V)
102 First Level Modern Chinese II (5) (V)
Plus one more course above 102.

Note: Course 101 at Washington University is equivalent to Course 001 at UMSL.

French

1 French I (5)
Emphasis will be placed upon the speaking and understanding of French and upon the acquisition of the fundamentals of grammar and syntax. One hour language laboratory per week required.

2 French II (5)
Prerequisite: French 1 or equivalent. Emphasis will be placed upon the speaking and understanding of French and upon the acquisition of the fundamentals of grammar and syntax. One hour language laboratory per week required.

101 Intermediate French (3)
Prerequisite: French 2 or equivalent. Grammar review and cultivation of language skills through the study of moderately difficult prose selections.

105 Commercial French (3)
Prerequisite: French 2 or equivalent. Grammar review and cultivation of language skills with emphasis on technical vocabulary and correct French usage in business affairs. Designed for business and economics majors, or anyone interested in the commercial application of French. This course is the equivalent of French 101. French 101 and French 105 both may not be taken for credit.
Modern Foreign Languages and Literature

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Prerequisite(s)</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>110</td>
<td>Modern French Literature in Translation (3)</td>
<td>Sophomore standing. Reading and discussion of selected works in French literature from the modern period, in English translation. No credit toward major in French.</td>
<td></td>
</tr>
<tr>
<td>111</td>
<td>Quebecois Language and Culture (3)</td>
<td>French 2 or equivalent and permission of instructor. A study and discussion of the French-Canadian cultural evolution, language, and contemporary identity, followed by a one-week stay in the province of Québec. Special fees: travel, food, and lodging to and from Québec.</td>
<td></td>
</tr>
<tr>
<td>115</td>
<td>Intensive French:</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>115a Grammar (5)</td>
<td>French 101 or equivalent, or permission of instructor. Practical training in translating from English into French and from French into English using a variety of technical, scientific, literary and commercial texts.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>115b Conversation (6)</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>115c Readings (5)</td>
<td>Aptitude test and permission of department. French 115a, 115b and 115c must be taken concurrently. An intensive study of French in one semester which assumes no previous knowledge of French. French 115a, 115b, 115c, are equivalent to French 1, 2, and 101.</td>
<td></td>
</tr>
<tr>
<td>125</td>
<td>Introduction to French/English Translation Techniques (3)</td>
<td>French 101 or equivalent, or permission of instructor. Practical training in translating from English into French and from French into English using a variety of technical, scientific, literary and commercial texts.</td>
<td></td>
</tr>
<tr>
<td>150</td>
<td>European Literature in Translation: Special Topics (3)</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>150a Literature (3)</td>
<td>Major figures, works, or movements in the literature of Europe and their relevance to our own age. Topic is announced in advance by the department. Does not count toward major in French.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>150b Literature (3)</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>150c Literature (3)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>160</td>
<td>French Phonetics (3)</td>
<td>French 101 or consent of instructor. An analytic and practical study of French pronunciation. Emphasis is placed upon the articulation and practice of contemporary French sounds.</td>
<td></td>
</tr>
<tr>
<td>171</td>
<td>French Conversation and Pronunciation (3)</td>
<td>French 101 or equivalent. Emphasis will be placed upon the development of oral skills in French and upon the problems of French pronunciation.</td>
<td></td>
</tr>
<tr>
<td>172</td>
<td>French Composition (3)</td>
<td>French 101 or equivalent. Designed to develop writing skills in French.</td>
<td></td>
</tr>
<tr>
<td>180</td>
<td>Readings in French (3)</td>
<td>French 101 or equivalent.</td>
<td>Development of language skills through reading and discussion of literary texts.</td>
</tr>
<tr>
<td>190</td>
<td>Special Readings in French (1-3)</td>
<td>French 101 and consent of the department. Independent study on mutually acceptable topics through readings, reports, and conferences.</td>
<td></td>
</tr>
<tr>
<td>200</td>
<td>Advanced Grammar (3)</td>
<td>French 171, 172 or equivalent. Problems in grammatical analysis.</td>
<td></td>
</tr>
<tr>
<td>211</td>
<td>Contemporary French Civilization (3)</td>
<td>French 171, 172 or equivalent. The culture and civilization of contemporary France from World War I to the present. All readings and classwork in French.</td>
<td></td>
</tr>
<tr>
<td>214</td>
<td>Curriculum and Methods of Teaching Foreign Languages (3)</td>
<td>SEC ED 213, junior standing. A study of the scope and sequence of the foreign language courses in the school curriculum with emphasis on the selection and organization of materials and methods of instruction and evaluation. Attention is also directed toward the techniques and research tools of the scholar in the field of foreign languages.</td>
<td></td>
</tr>
<tr>
<td>271</td>
<td>Intermediate French Conversation (3)</td>
<td>French 160 and 171 or consent of department. Emphasis will be placed upon the further development of oral skills in French.</td>
<td></td>
</tr>
<tr>
<td>280</td>
<td>French Literature I: Middle Ages to Eighteenth Century (3)</td>
<td>French 180 or equivalent. Designed to acquaint the student with the development of French literature from the Middle Ages to the eighteenth century. Critical reading of representative texts.</td>
<td></td>
</tr>
<tr>
<td>281</td>
<td>French Literature II: Nineteenth and Twentieth Centuries (3)</td>
<td>French 180 or equivalent. Designed to acquaint the student with the development of French literature from the nineteenth century to the present. Critical reading of representative texts.</td>
<td></td>
</tr>
<tr>
<td>290</td>
<td>Special Readings (1-3)</td>
<td>Consent of department. Independent study through readings, reports and conferences.</td>
<td></td>
</tr>
<tr>
<td>300</td>
<td>Syntax and Stylistics (3)</td>
<td>French 200 or equivalent. Advanced theoretical and practical study of modern French syntax. Analysis of French prose style.</td>
<td></td>
</tr>
<tr>
<td>320</td>
<td>Advanced Oral Composition (3)</td>
<td>French 171 or equivalent. Emphasis will be placed upon the development and refinement of skills in spoken French.</td>
<td></td>
</tr>
<tr>
<td>331</td>
<td>Medieval and Renaissance Literature (3)</td>
<td>French 280 or 281. Critical reading and analysis of representative works of the period in modernized French versions.</td>
<td></td>
</tr>
<tr>
<td>341</td>
<td>Seventeenth-Century French Theatre (3)</td>
<td>French 280 or 281. Critical readings of selected plays by Corneille, Molière, Racine and other dramatists of the seventeenth century.</td>
<td></td>
</tr>
<tr>
<td>342</td>
<td>Seventeenth-Century French Prose and Poetry (3)</td>
<td>French 280 or 281. A critical study of representative poets and prose writers of the seventeenth century including novelists and philosophers.</td>
<td></td>
</tr>
<tr>
<td>353</td>
<td>Eighteenth-Century French Literature (3)</td>
<td>French 280 or 281. The philosophic movement. Selected readings of the eighteenth century, including Montesquieu, Voltaire, Diderot and Rousseau.</td>
<td></td>
</tr>
<tr>
<td>362</td>
<td>Nineteenth-Century French Novel (3)</td>
<td>French 280 or 281. Critical reading of selected works by the major novelists of the period. Discussion of realism and naturalism.</td>
<td></td>
</tr>
<tr>
<td>365</td>
<td>Modern French Poetry (3)</td>
<td>French 280 or 281. A study of French poetry in the nineteenth and twentieth centuries through critical readings of selected works by major poets.</td>
<td></td>
</tr>
<tr>
<td>371</td>
<td>Twentieth-Century French Novel (3)</td>
<td>French 280 or 281. A study of selected works by the principal novelists of the modern period.</td>
<td></td>
</tr>
<tr>
<td>375</td>
<td>Modern French Theatre (3)</td>
<td>French 280 or 281. A study of French drama in the nineteenth and twentieth centuries through critical study of selected works by major dramatists.</td>
<td></td>
</tr>
</tbody>
</table>
Modern Foreign Languages and Literature

390 Special Readings (1-3)
Prerequisite: Consent of instructor. Independent study through readings, reports and conferences.

399 French Seminar (3)
Prerequisite: French 280 or 281. Specialized topic in French literature. Subject to be announced by instructor in charge of seminar.

400 Contemporary French Thought (3)
Prerequisite: A.B. or permission of instructor. Analyses and discussion of contemporary cultural French issues through a representative sample of journals and pamphlets. In French.

German

1 German I (5)
Emphasis will be placed upon the speaking and understanding of German and upon the acquisition of the fundamentals of grammar and syntax. One hour language laboratory per week required.

2 German II (5)
Prerequisite: German 1 or equivalent. Emphasis will be placed upon the speaking and understanding of German and upon the acquisition of the fundamentals of grammar and syntax. One hour language laboratory per week required.

50 German for Reading Knowledge (3)
This course presumes no prior knowledge of German and is designed to provide the student with a basic recognition knowledge of vocabulary, structure and syntax. German for reading knowledge does not fulfill the language requirement nor does it count toward a major or minor in German.

100 Scientific German (3)
Prerequisite: German 2 or equivalent. Reading of selected German texts in the natural and social sciences. Designed primarily for majors in these areas. This course is the equivalent of German 101 and both may not both be taken for credit.

101 Intermediate German (3)
Prerequisite: German 2 or equivalent. Grammar review and cultivation of language skills through the study of moderately difficult prose selections.

110 Masterpieces of German Literature in Translation (3)
Prerequisite: Sophomore standing. Representative readings in German literature from the beginning to the present. Emphasis to be placed upon German literature in the general context of European culture. No credit toward major in German.

150 European Literature in Translation: Special Topics (3)
Prerequisite: Consent of department. Emphasis will be upon the development of oral skills, German pronunciation and intonation.

171 German Conversation and Pronunciation (3)
Prerequisite: German 101 or equivalent. Designed to develop writing skills in German.

172 German Composition (3)
Prerequisite: German 101 or equivalent. Emphasis will be upon the development of oral skills, German pronunciation and intonation.

180 Readings in German (3)
Prerequisite: German 101 or equivalent. Further development of language skills through readings and discussions of literary texts. May be taken concurrently with German 171 or 172.

190 Special Readings (1-3)
Prerequisites: German 101 and consent of department. Independent study on mutually acceptable topics through readings, reports, and conferences.

201 Masterpieces of German Literature (3)
Prerequisite: Two years of college German or equivalent. Introduction to German literature. Readings and critical analysis of selected works of German literature.

202 The German Novelle and Drama (3)
Prerequisite: German 201 or equivalent. Reading and critical analysis of selected German Novellen and dramas.

205 Intermediate Composition and Conversation (3)
Prerequisite: German 171 or equivalent. Emphasis on speaking and writing in German.

210 German Culture and Civilization (3)
Prerequisite: German 180 or equivalent. A survey of the development of German culture and civilization. All reading and classwork in German.

264 Curriculum and Methods of Teaching Foreign Languages (3)
(Same as SEC ED 2741). Prerequisites: SEC ED 213, junior standing. A study of the scope and sequence of the foreign language courses in the school curriculum with emphasis on the selection and organization of materials and methods of instruction and evaluation. Attention is also directed toward the techniques and research tools of the scholar in the field of foreign languages.

290 Special Readings: German (1-3)
Prerequisite: Consent of department. Independent study through readings, reports and conferences.

308 Advanced Composition and Conversation (3)
Prerequisite: German 208 or equivalent. Continuation of German 207. Designed to develop accuracy and fluency of expression in German.

315 German Classicism and Romanticism (3)
Prerequisites: German 201 and one other 200-level course in German. Representative works of the classical and romantic periods of German literature, including works of Lessing, Goethe, Kleist and E.T.A. Hoffmann.

320 German Realism and Naturalism (3)
Prerequisites: German 201 and one other 200-level course in German. Representative works of realism and naturalism in German literature, including works of Grillparzer, Hebbel, Stifter, Keller and Hauptmann.

345 Modern German Literature (3)
Prerequisites: German 201 and one other 200-level course in German. Representative works from modern German literature.

390 Special Readings (1-3)
Prerequisite: Consent of instructor. Independent study through readings, reports and conferences.

397 Survey of German Literature Part I (3)
Prerequisite: One other German literature course on the 300-level. Special emphasis on the summary and synthesis of trends and characteristics of major periods in German literature, considered in the general context of European culture.

398 Survey of German Literature Part II (3)
Prerequisite: One other German literature course on the 300-level. Special emphasis on the summary and synthesis of trends and characteristics of major periods in German literature, considered in the general context of European culture.

399 German Seminar (3)
Prerequisite: Senior standing and two 300-level courses. Required of all German majors. Topic to be selected by instructor.
Modern Foreign Languages and Literature

Greek

Courses in Greek are available at Washington University for UMSL students. Consult the modern foreign languages department for details and obtain the necessary forms from the registrar's office.

101 Elementary Greek (4)
Fundamentals of grammar and syntax for students with no previous acquaintance with the language.

102 Elementary Greek (4)
Prerequisite: Greek 1 or equivalent. A continuation of Greek 1. Completion of the survey of grammar and syntax accompanied by the reading of a short major text, usually a dialogue by Plato or a book of the New Testament.

Plus one course above 102.

Note Course 101 at Washington University is equivalent to Course 001 at UMSL.

Hebrew

Courses in Hebrew are available at Washington University for UMSL students. Consult the modern foreign languages department for details and obtain the necessary forms from the registrar's office.

101 Elementary Hebrew (3)

102 Elementary Hebrew (3)

Plus two courses above 102.

Note Course 101 at Washington University is equivalent to Course 001 at UMSL.

Italian

1 Italian I (5)
Fundamentals of Italian grammar, pronunciation and diction for students with no previous acquaintance with the language. One hour laboratory per week required.

2 Italian II (5)
Prerequisite: Italian 1 or equivalent. Continuation of grammar and conversation with introductory readings centering on Italian contributions to art, literature and music. One hour laboratory per week required.

101 Intermediate Italian (3)
Prerequisite: Italian 2 or equivalent.

Grammar review and cultivation of language skills through the study of moderately difficult prose selections.

190 Special Readings (1-3)
Prerequisite: Italian 101 or equivalent. Readings on literary topics mutually acceptable to student and instructor.

Japanese

Courses in Japanese are available at Washington University for UMSL students. Consult the modern foreign languages department for details and obtain the necessary forms from the registrar's office.

101 Elementary Japanese I (5)
Fundamentals of grammar and syntax for students with no previous acquaintance with the language. One hour laboratory per week required.

102 Elementary Japanese II (5)
Prerequisite: Japanese 1 or equivalent. Introduction to reading of selected Japanese texts in the natural and social sciences. Designed primarily for majors in these areas. This course is the equivalent of Japanese 101. Russian 101 and Russian 100 may not both be taken for credit.

103 First Level Modern Japanese I (5)

104 First Level Modern Japanese II (5)

Plus one course above 104 level.

Note Course 103 at Washington University is equivalent to Course 001 at UMSL.

Latin

Courses in Latin are available at Washington University for UMSL students. Consult the modern foreign languages department for details and obtain the necessary forms from the registrar's office.

101 Beginning Latin (4)
Fundamentals of grammar and syntax, for students with no previous acquaintance with the language.

102 Beginning Latin (4)
Prerequisite: Latin 1 or equivalent. A continuation of Latin 1. Completion of the survey of grammar and syntax, accompanied by the reading of a short major text or texts.

Note Course 101 at Washington University is equivalent to Course 001 at UMSL.

Portuguese

Courses in Portuguese are available at Saint Louis University for UMSL students. Consult the modern foreign languages department for details and obtain the necessary forms from the registrar's office.

5 Elementary Portuguese (4)

6 Intermediate Portuguese (4)

7 Advanced Portuguese (4)

Plus one more course above 6.

Note Course 5 at Saint Louis University is equivalent to Course 001 at UMSL.

Russian

1 Russian I (5)
Emphasis will be placed upon the speaking and understanding of Russian and upon the acquisition of the fundamentals of grammar and syntax. Five hours of class and one hour language laboratory per week required.

2 Russian II (5)
Prerequisite: Russian 1 or equivalent. Emphasis will be placed upon the speaking and understanding of Russian and upon the acquisition of the fundamentals of grammar and syntax. Five hours of class and one hour language laboratory per week required.

100 Scientific Russian (3)
Prerequisite: Russian 2 or equivalent. Introduction to reading of selected Russian texts in the natural and social sciences. Designed primarily for majors in these areas. This course is the equivalent of Russian 101. Russian 101 and Russian 100 may not both be taken for credit.

101 Intermediate Russian (3)
Prerequisite: Russian 2 or equivalent. Further presentation of the structure of Russian; development of oral and aural skills; elementary composition; readings of simplified texts.

102 Intermediate Russian (3)
Prerequisite: Russian 101 or equivalent. Further development of language skills through the reading and discussion of literary texts. May be taken concurrently with 108 after consultation with instructor.

108 Oral and Written Composition (3)
Prerequisite: Russian 102 or equivalent. Emphasis will be placed upon the development of oral and written skills. May be taken concurrently with 102 after consultation with instructor.

110 Russian Literature in Translation (3)
Readings of representative works drawn from nineteenth-century Russian literature. This course will focus upon works of Pushkin, Lermontov, Gogol, Turgenev, Dostoevsky, Tolstoy and Chekhov. Lectures and discussion.

190 Special Readings (1-3)
Prerequisite: Russian 101 or equivalent. Readings on literary topics mutually acceptable to student and instructor.
Modern Foreign Languages and Literature

Spanish

1 Spanish I (5)  
Emphasis will be placed upon the speaking and understanding of Spanish and upon the acquisition of the fundamentals of grammar and syntax. One hour language laboratory per week required.

2 Spanish II (5)  
Prerequisite: Spanish 1 or equivalent. Emphasis will be placed upon the speaking and understanding of Spanish and upon the acquisition of the fundamentals of grammar and syntax. One hour language laboratory per week required.

101 Intermediate Spanish (3)  
Prerequisite: Spanish 2 or equivalent. Grammar review and cultivation of language skills through the study of selected modern works.

103 Intermediate Spanish (3)  
Prerequisite: Spanish 2 or equivalent. Accelerated grammar review and cultivation of language skills through the study of selected modern works. Designed primarily for those students intending to major in Spanish. Credit is not granted for both 101 and 103.

105 Commercial Spanish (3)  
Prerequisite: Spanish 2 or equivalent. Grammar review and cultivation of language skills with emphasis on technical vocabulary and correct Spanish usage in business affairs. Designed for business majors, economics majors, or anyone interested in the commercial application of Spanish. This course is the equivalent of Spanish 101; both may not be taken for credit.

110 Spanish Literature in Translation (3)  
Prerequisite: Sophomore standing. Lectures on the literature and culture of Spain from the Middle Ages to the contemporary period. Reading and discussion of works of representative Spanish writers: Cervantes, Calderon, Galdos, Unamuno, Garcia Lorca, Buero Vallejo and others. No credit toward a major in Spanish.

111 Spanish-American Literature in Translation (3)  
Prerequisite: Sophomore standing. Lectures on the literature and culture of Spanish America. Reading and discussion of works of representative poets, novelists, and essayists of the contemporary period. No credit toward major in Spanish.

115 Intensive Spanish  
115a Grammar (5)  
115b Conversation (5)  
115c Readings (5)  
Prerequisite: Aptitude test and permission of department. Spanish 115a, 115b, and 115c must be taken concurrently. An intensive study of Spanish in one semester which assumes no previous knowledge of Spanish. Spanish 115a, 115b, and 115c, are equivalent to Spanish 1, 2, and 101.

160 European Literature in Translation: Special Topics (3)  
Majors figures, works, or movements in the literature of Europe and their relevance to our own age. Topic is announced in advance by the department. Does not count toward major in Spanish.

170 Spanish in its Cultural Context (3)  
Prerequisite: Spanish 101 or equivalent. Survey of the cultural and environmental influences on the development of the Spanish language in Latin America, with stress upon the social elements that shape the major dialectal groups. Readings and lectures in Spanish.

171 Spanish Conversation and Pronunciation (3)  
Prerequisite: Spanish 101 or equivalent. Emphasis will be placed upon the development of oral skills in Spanish and upon the problems of Spanish pronunciation and intonation.

172 Spanish Composition (3)  
Prerequisite: Spanish 101 or equivalent. Emphasis in developing the capacity and the ability to write in Spanish.

190 Special Readings (1-3)  
Prerequisite: Spanish 101 and consent of department. Independent study through readings, reports and conferences.

200 Syntax of the Spanish Language (3)  
Prerequisite: Spanish 171, 172 or equivalent. Study of the syntactical and morphological characteristics of the Spanish language. Designed primarily for students majoring in Spanish. May be taken concurrently with any 200-level course.

210 Hispanic Culture and Civilization: Spain (3)  
Prerequisite: Spanish 171, 172 or equivalent. The development of Spanish peninsular civilization from its romantic beginnings to the present.

211 Hispanic Culture and Civilization: Spanish America (3)  
Prerequisite: Spanish 171, 172 or equivalent. The development of the cultures and civilization of the Spanish-speaking nations of the Western hemisphere.

264 Curriculum and Methods of Teaching Foreign Languages (3)  
(Same as SEC ED 274). Prerequisites: SEC ED 213 and junior standing. A study of the scope and sequence of the foreign language courses in the school curriculum, with emphasis on the selection and organization of materials and methods of instruction and evaluation. Attention is also directed toward the techniques and research tools of the scholar in the field of foreign languages.

271 Advanced Spanish Conversation (3)  
Prerequisite: Spanish 171 or consent of department. Emphasis will be placed upon the further development of oral skills in Spanish.

280 Introduction to Hispanic Literature: Spain (3)  
Prerequisite: Spanish 171, 172 or equivalent. Study of selected texts of Spanish writers from the Middle Ages to the present and the historical, cultural, and political factors which influence their writing. Required of Spanish majors.

281 Introduction to Hispanic Literature: Spanish America (3)  
Prerequisite: Spanish 171, 172 or equivalent. Study of selected texts of Spanish-American writers from the colonial period to the present and the historical, cultural, and political factors which influenced their writings. Required of all Spanish majors.

290 Special Readings: Spanish (1-3)  
Prerequisite: Consent of department. Independent study through readings, reports and conferences.

310 Spanish Literature From 1898 to 1939 (3)  
Prerequisite: Spanish 280. A study of cultural and literary characteristics of the period. Emphasis on leading novelists, poets, essayists and dramatists.

315 Spanish Literature From 1939 to the Present (3)  
Prerequisite: Spanish 280. A study of cultural and literary development since the Spanish Civil War. Emphasis on leading novelists and dramatists.
Modern Foreign Languages and Literature

320 Realism and Naturalism in the Nineteenth-Century Spanish Novel (3)
Prerequisite: Spanish 280. A study of the culture and literature of Spain in the nineteenth century with emphasis on the leading novelists of the Epoch (Galdds, Clarín, Pardo Bazán, Blasco-Ibáñez).

321 Poetry and Drama of the Nineteenth Century (3)
Prerequisite: Spanish 280. A study of the culture and literature of Spain in the twentieth century with emphasis on the leading poets (Zorrilla, Duque de Rivas) and playwrights (Zorrilla, Duque de Rivas).

325 Poetry and Drama of the Golden Age (3)
Prerequisite: Spanish 280. Selected readings from the drama of Lope de Vega, Tirso de Molina, Ruiz de Alarcón, and Calderón de la Barca, and from the poetry of Garcilaso, Fray Luis de León, San Juan de la Cruz, Góngora, Lope de Vega, and Quevedo.

330 Cervantes (3)
Prerequisite: Spanish 280. A study of Don Quixote in relation with author's life and with the cultural background of the Spanish Golden Age. Independent readings on other works of Cervantes.

331 Picaresque and Satirical Prose (1650-1850) (3)
Prerequisite: Spanish 280. A study of Renaissance and Baroque prose in its social context. All readings and discussions on Spanish.

335 Masterpieces of Spanish Medieval and Renaissance Literature (3)
Prerequisite: Spanish 280. Designed to acquaint students with the cultural background of medieval and Renaissance Spanish traditions. Critical reading and discussion of representative works of these periods: Poema del Cid, El Conde Lucanor, Libro de Buen Amor, El Romancero, La Celestina, the Picaresque novel and Don Quixote.

340 Spanish-American Literature of the Nineteenth Century (3)
Prerequisite: Spanish 281. A study of the culture and literature of Spanish America in the nineteenth century with emphasis on the leading novelists and essayists of the epoch.

341 Modernismo (3)
Prerequisite: Spanish 281. The genesis, development and influence of this literary movement in Spanish-American letters with emphasis on modernista poetry and prose.

345 Spanish-American Literature of the Twentieth Century (3)
Prerequisite: Spanish 281. A study of the leading Spanish American poets, essayists and novelists of this period as interpreters of contemporary man's dilemma and the "pathos" and "ethos" of their culture.

351 Spanish-American Fiction in the Twentieth Century (3)
Prerequisite: Spanish 281. The role of prose fiction in Spanish-American literary and cultural history from World War I to the present.

360 Spanish-American Poetry From Modernismo to the Present (3)
Prerequisite: Spanish 281. A study of poetry and its role in the literary and cultural history of Spanish-American society from Modernismo to the present.

380 Special Readings (1-3)
Prerequisite: Consent of instructor. Independent study through readings, reports and conferences.

399 Seminar on Hispanic Literature (3)
Required of major students in the senior year. Subject to be announced every year by the instructor in charge of the seminar.

400 Spanish as Spoken Today (3)
Prerequisite: A.B. or permission of instructor. Contemporary Spanish, including emphasis on standard and colloquial speech: slang, proverbs and the mass-media. Some attention will be given to the influence of English on twentieth-century spoken Spanish. Study of samples; oral practice.

Music

Prerequisites may be waived by consent of the department.

For the nonmajor, no more than 8 hours in applied music courses will be accepted toward graduation.

The following courses fulfill the Humanities breadth of study requirements: 1, 2, 3, 4, 6, 7, 9, 10, 90, 101, 102, 103, 111, 112, 136, 192, 290, 321, 322, 323, 324, 325, 326.

Applied Music

44, 45, 144, 145, 244, 245, 344, 345, 346, 347 Applied Music (2-4)
Registration by audition and consent of department. Courses are offered in the following areas: a, bassoon; b, clarinet; c, classical guitar; d, euphonium; e, flute; f, French horn; g, harp; h, oboe; i, organ; j, percussion; k, piano; l, saxophone; m, trombone; n, trumpet; o, tuba; p, violin; q, viola; r, violoncello; s, string bass; t, voice.

Music History, Literature, and Theory

1 Introduction to Music (3)
An historically oriented study of art music, its styles and forms from the Baroque period to the present day. This course will not apply toward requirements for a music major.

2 Introduction to Symphonic Music (3)
Orchestral music from the Baroque period to the present time; concerto grosso and suite; program music; the symphony. This course will not apply toward requirements for a music major. This course is also for independent study through the UMSL Office of the University of Mid-America.

3 Theory of Music I (3)
The basic materials and their use in analyzing and writing music. Systematic instruction in ear training and sight-singing. Primarily for music majors.

4 Theory of Music II (3)
Continuation of Music 3.

6 Introduction to the Afro-American Arts (3)
A survey of the cultural contributions of African music, dance and sculpture to contemporary America. This course will not apply toward requirements for a music major.
Music

7  Introduction to Jazz (3)
A survey course which examines the musical, historical and social aspects of the subject. This course will not count toward requirements for a music major.

9  Non-Western Music (3)
The music of Oceania; folk and classical music and dance of East Asia, Tibet and Southwest Asia; the influence of Buddhism, Islam and Western acculturation on the functions of music in these societies.

10  Non-Western Music (3)
Music of the African continent, West Asia and South Asia; a survey of the tribal folk and classical music and performing arts of these cultures.

14, 15 Piano Proficiency (2)
Prerequisite: Permission of department. Group instruction for music majors who do not meet beginning keyboard requirements.

17  Beginning Instrumental Techniques (1)
Prerequisite: Consent of department. Performance, teaching techniques, and materials for the various media: a, bassoon; b, clarinet; c, flute; d, french horn; e, oboe; f, percussion; h, saxophone; i, string bass; j, trumpet; k, trombone; l, tuba; m, viola; n, violin; o, violoncello.

20  Jazz Improvisation Laboratory (1)
Prerequisite: Consent of department. The study and application of the theoretical, technical, and performance aspects of jazz improvisation. May be repeated for credit.

33H Sophomore Honors: Music (3)
Prerequisite: Standing in Sophomore Honors Program. Specifically for students in the Sophomore Honors Program. The study of significant examples of music of Western and non-Western societies from the perspective of historical period and social function.

40  University Chorus (1)
Prerequisite: Consent of instructor. Preparation and performance of choral literature.

41  The University Singers (1)
Prerequisite: Consent of instructor. The study and performance of music for vocal chamber ensemble.

50  University Orchestra (1)
Prerequisite: Consent of instructor. Study, preparation and performance of orchestral repertory.

52  University Band (1)
Prerequisite: Consent of instructor. Study, preparation, and performance of music for the wind ensemble and band.

53  University Wind Ensemble (1)
Prerequisite: Consent of instructor. The study, preparation, and performance of music for wind ensemble and chamber band.

54  Chamber Ensemble (1)
Prerequisite: Consent of department. Study, preparation, and performance of music for small ensembles: a, brass; b, jazz; c, percussion; d, strings; e, voice; f, woodwinds; g, accompanying.

56  Opera Workshop (1)
Prerequisite: Consent of instructor. Instruction in movement, basic stage techniques, theoretical theater, repertory and performance techniques and preparation. May be repeated for credit.

60  Collegium Musicum (1)
Prerequisite: Consent of instructor. Performance of music for chamber ensemble with particular emphasis on the Renaissance and Baroque periods.

71  Sight Singing I (1)
Rhythmic and tonal sightsinging, based on Kodaly methodology. Recommended for music education majors. Will not substitute for music theory sequence.

72  Sight Singing II (1)
Prerequisite: Music 71. A continuation of Music 71.

90  Freshman Seminar (3)
Prerequisite: Freshman standing and consent of instructor. Topics to be announced. Weekly seminars supplemented by individual conferences. Limited to twelve students.

101  History of Western Music I (3)
Prerequisite: Music 3 or consent of department. A general survey of the history of Western music. Includes the evolution and development of styles, forms and their social setting.

102  History of Western Music II (3)
Prerequisite: Music 3 or consent of department. A continuation of Music 101.

103  Music in Religion (3)
Prerequisites: Sophomore standing or departmental consent. A survey of the role of music in the religious traditions of the East and West from earliest times to the present. The types of music in the various religious traditions and the effects of this music in society are examined.

111  Theory of Music (3)
Prerequisite: Music 4 or consent of department. Altered chords and modulation. Application of vocabulary and techniques to music of the eighteenth and nineteenth centuries. Composition in simple forms.

112  Theory of Music (3)
Prerequisite: Music 111 or consent of department. A continuation of Music 111.

116, 118, 119, 120 Intermediate Piano Proficiency (1)
Prerequisite: Music 15 or permission of department. Continuation of piano proficiency study.

123  Intermediate Vocal Techniques (1)
Prerequisite: Permission of department. Instruction for non-voice majors in the choral option of the music education curriculum.

124  Intermediate Vocal Techniques (1)
Prerequisite: Permission of department. Instruction for non-voice majors in the choral option of the music education curriculum.

125  Singer's Diction: French and Italian (1)
Prerequisite: Music 44 or 124. A study of French and Italian pronunciation.

126  Singer's Diction: English and German (1)
Prerequisite: Music 44 or 125. A study of English and German pronunciation.

136  Music Fundamentals for the Elementary School Teacher (2)
Prerequisite: None. An introductory course in the rudiments of music for the elementary classroom teacher. Prerequisite for Music 137. This course will not count toward requirements for a music major.

137  Elementary School Music (3)
(Same as ELE ED 177). Prerequisite: Music 136 or consent of department. The role of classroom teacher in the development of the elementary school general music program; selection of music, demonstration and practice of methods, and study of resources. This course will not count toward requirements for a music major.

141  Orchestration (2)
Prerequisite: Music 112 or concurrent enrollment. Study of the instruments of the orchestra; scoring for various instrumental ensembles and orchestra.
Music

151 Beginning Conducting (2)
Prerequisite: Music 111. Concurrent registration in Music 161 required. Techniques and problems in conducting.

152 Intermediate Conducting (2)
Prerequisites: Music 151 and concurrent registration in Music 162. A continuation of Music 151 with addition of score study and preparation.

153 Accompanying I (1)
Prerequisite: Consent of department. Accompanying and ensemble practices, including rehearsal techniques, for keyboard majors. Public performance of works studied is required.

154 Accompanying II (1)
Prerequisite: Consent of department. A continuation of Music 153.

155 Accompanying III (1)
Prerequisite: Consent of Department. A continuation of Music 154.

156 Piano Pedagogy (2)
Prerequisite: Equivalent of Music 45k or permission of instructor. A study of methods, repertoire, and technical problems pertaining to private studio teaching for all levels of performance ability.

161 Junior-Senior High School Materials Laboratory (1)
Prerequisite: Music 111. Analysis and evaluation of selected instructional and concert materials for the junior and senior high school performance groups.

162 Elementary School Materials—Conducting Laboratory (1)
Prerequisite: Music 112. Active conducting experience while analyzing and evaluating selected instructional and concert materials for elementary grades.

192 Senior Research (2)
Prerequisite: Consent of department. Required of all senior music majors. Directed readings and research in an area mutually acceptable to the student and instructor.

221 Pedagogy of Jazz Improvisation (1)
Prerequisite: Music 112 and permission of instructor. Study of the techniques, systems and instructional materials used in teaching jazz improvisation.

251 Advanced Conducting (2)
a Instrumental; b Choral
Prerequisite: Music 141. Concurrent registration in Music 162 required. Advanced study of conducting and rehearsal techniques, score reading and interpretation.

267 Curriculum and Methods of Teaching Elementary School Music (3)
(Same as ELE ED 277). Prerequisite: Music 112 and ED FND 111. For the music education major. A study of the elementary school music curriculum emphasizing the objectives, methods of teaching and staffing music classes, and analysis of instructional materials and resources.

267 Philosophic and Practical Foundations of the Secondary Music Education Curriculum (1)
Prerequisite: Music 112, Music 257/Elementary Education 277, and Educational Foundations 111. Concurrent registration in Music 261, Music 268/Secondary Education 276 and Music 270/Secondary Education 278 or Music 271/Secondary Education 279. For the music education major. A study of the secondary school music program: curricular objectives, philosophy, and general administrative procedures common to all secondary music classes.

269 Curriculum and Methods of Teaching Middle School/Junior High School General Music (2)

270 Curriculum and Methods of Teaching High School Instrumental Music (2)
Prerequisites: Music 112, Music 257/Elementary Education 277, and Education Foundations 111. Concurrent registration in Music 261, Music 267/Secondary Education 276, Music 268/Secondary Education 278. For the music education major. A study of the high school instrumental music program: curriculum, methods, teaching techniques, organization, and administrative procedures for instrumental performance classes.

271 Curriculum and Methods of Teaching Secondary Choral Music (2)

290 Independent Study (1-3)
Prerequisite: Junior or senior standing and consent of department and instructor. Independent study through reading, reports or field research.

292 Internship (1-3)
Prerequisites: Senior standing in bachelor of music business emphasis program, and permission of the instructor. Supervised experience in the area of the student’s career objective, such as music or instrument merchandising, arts management, mass communication, publishing, manufacturing or other, as available. May be repeated once for credit in different area.

300 Advanced Techniques in Music Education (1-2)
Prerequisite: A 200-level music education course or permission of the department. Intensive study for advanced music education students and music teachers, emphasizing specialized techniques and innovative concepts. Topics to be announced. May be repeated for credit.

311 Analysis of Twentieth-Century Techniques (2)
Prerequisite: Music 112 or consent of department. Study of compositional devices in tonal and atonal music of twentieth century.

312 Tonal Counterpoint (2)
Prerequisite: Music 112 or consent of department. Study of tonal counterpoint with emphasis on the eighteenth-century style. Composition in two and three parts.

321 Music of the Middle Ages (3)
Prerequisite: Music 101 or consent of department. A study of music and musical thought from the beginning of Christianity to 1450. Gregorian chant, polyphonic music, the Ars Antiqua and the Ars Nova.
Music

322 Music of the Renaissance (3)
Prerequisite: Music 101 or consent of department. A study of the theoretical and practical impact of humanism on music, musicians, and musical thought from 1450 to 1600. Sacred and secular music; the rise of an instrumental idiom.

323 Music of the Baroque (3)
Prerequisite: Music 101 or consent of department. A detailed study of music from 1600 to 1750. The rise of the new style, national styles in the seventeenth century, and the culmination of the Baroque period.

324 Music of the Classic Period (3)
Prerequisite: Music 102 or consent of department. A study of the growth of classical style; galant and expressive styles; Mozart, Haydn and Beethoven.

325 Music of the Romantic Period (3)
Prerequisite: Music 102 or consent of department. Composers, forms and styles in nineteenth-century music. The literary and social background of musical romanticism.

326 Music of the Twentieth Century (3)
Prerequisite: Music 102 or consent of department. A detailed study of trends in modern music and of influential composers: impressionism, serial composition, electronic music and other recent techniques.

330 Seminar in Composition (2)
Prerequisite: Music 311 or consent of instructor. The study of composition in theory and practice.

366 Advanced Opera Workshop (1)
Prerequisite: Consent of instructor. Instruction in movement, stage technique, technical theater, repertory and performance based on advanced vocal skills. May be repeated for credit.

Philosophy

30 Approaches to Ethics (3)
A study and discussion of representative topics in moral philosophy such as moral skepticism, moral objectivity, theories of obligation and value, evaluation of social institutions, and the relation between morality and science. Traditional and contemporary writers will be considered.

33H Explorations in Western Philosophy (Sophomore Honors) (3)
Prerequisite: Acceptance in Sophomore Honors Program. An examination of selected philosophical problems as treated by major figures in the Western intellectual tradition. Emphasis will be on textual study and critical analysis and discussion.

50 Major Questions in Philosophy (3)
A study and discussion of representative topics in philosophy such as free will and determinism, concepts of mind and body, the basis of value judgments, knowledge and belief, and the possibility of constructing a world view.

60 Logic and Language (3)
An introduction to the language and logical structure of arguments, the principles of sound reasoning, and application of these principles in a variety of contexts.

74 Philosophy and Literature (3)
Critical reading and discussion of selected literary works in terms of the philosophical problems they present.

85 Philosophy of Religion (3)
A philosophical investigation of such problems as the nature of religious faith and experience, the relation of faith and reason, alternative concepts of deity and the problem of evil.

90 Freshman Seminar (3)
Prerequisites: Freshman standing and consent of instructor. Topics to be announced. Weekly seminars supplemented by individual conferences. Limited to twelve students.

101 Ancient Philosophy (3)
Freshman admitted by consent of department. The principal philosophical doctrines of the ancient world, with special emphasis on the philosophies of Plato and Aristotle. Although there is no formal prerequisite, it is recommended that students have taken at least one other philosophy course.

102 Medieval Philosophy (3)
A critical study of the important philosophies of the period from Augustine to the Renaissance. Although there is no formal prerequisite, it is recommended that students have taken at least one other philosophy course.

103 Early Modern Philosophy (3)
Principal figures in the development of rationalism, empiricism and skepticism in early modern Europe, from Descartes through Hume. Although there is no formal prerequisite, it is recommended that students have taken at least one other philosophy course.

104 Kant and Nineteenth-Century Philosophy (3)
A study of Kant and such major nineteenth-century figures as Hegel and Nietzsche, Mill and Peirce. Although there is no formal prerequisite, it is recommended that students have taken at least one other philosophy course.

106 Twentieth-Century Philosophy (3)
Representative topics in contemporary philosophy, with readings selected from pragmatism, logical positivism, linguistic analysis, and existentialism. Although there is no formal prerequisite, it is recommended that students have taken at least one other philosophy course.

107 American Philosophy (3)
Prerequisite: Six hours of philosophy or consent of instructor. A study of selected American philosophers.
120 Asian Philosophy (3)
Critical study of selected philosophical classics of India and China. Fulfills the non-Euro-American study requirement.

124 Philosophy of Judaism (3)
No background in Judaism or Jewish studies is necessary. An examination of distinctive features of Judaism, such as conceptions of religious law (Hala'kah), teachings about human nature and interaction with God, responses to the Holocaust, and analysis of specific institutions such as the Sabbath, Medieval and contemporary Jewish philosophers will be read and discussed, as well as selected Talmudic and other primary sources.

150 Philosophy and Current Issues (3)
A careful examination of such current social controversies as women's liberation, the ethics of abortion, public accountability of holders of high offices, and the subtler forms of racism and other prejudices. Although there is no formal prerequisite, it is recommended that students have taken, or be concurrently enrolled in, at least one other philosophy course.

151 Sexual Ethics (3)
A critical review of what philosophers, both classical and contemporary, have said about sexual experience and its place in our lives. Included will be such topics as sexual desire, sexual perversion, love and commitment, marriage and adultery, larger questions might include the role of sexual experience in the good life, issues of sexual privacy, and the morality of laws which regulate sexual activity.

153 Philosophy and Feminism (3)
A critical survey of what various philosophers have said about issues of concern to the women's movement. Included will be accounts, both traditional and modern, of such topics as differences between the sexes, sexism in language, oppression, preferential treatment and affirmative action, abortion and rape, and the differences between sexism and racism.

156 Medical Ethics (3)
An examination of ethical issues in medical practice and research and in public policies affecting health care. Topics include: abortion, euthanasia, medical experimentation, informed consent, and the right to health care.

160 Formal Logic (3)
An introductory study of logical truth and deductive inference, with emphasis on the development and mastery of a formal system.

165 Inductive Logic (3)
An examination of the techniques for evaluating inferences which do not fit deductive frameworks. Examples will be drawn from at least the physical sciences, medicine, ethics, law, and everyday life.

201 Plato (3)
Prerequisite: Six hours of philosophy or consent of instructor. A study of selected Platonic dialogues.

202 Aristotle (3)
Prerequisite: Six hours of philosophy or consent of instructor. A selective study of Aristotle's major works.

205 The Rationalists (3)
Prerequisite: Six hours of philosophy or consent of instructor. An examination of the philosophies of such major figures as Descartes, Spinoza and Leibniz.

206 The British Empiricists (3)
Prerequisite: Six hours of philosophy or consent of instructor. An examination of the philosophies of such major figures as Locke, Berkeley and Hume.

207 Kant (3)
Prerequisite: Six hours of philosophy or consent of instructor. A systematic study of the Critique of Pure Reason.

208 Hegel (3)
Prerequisite: Six hours of philosophy or consent of instructor. A critical study of the writings and influence of Hegel.

210 Significant Figures in Philosophy (3)
Prerequisite: Six hours of philosophy or consent of instructor. A critical study of the work of an important philosopher. The philosopher to be considered will be announced prior to registration. This course may be repeated for credit on approval by the department.

215 Existentialism and Phenomenology (3)
A study of some major representatives of these schools from Kierkegaard to the present.

230 Social and Political Philosophy (3)
An analysis of some fundamental concepts and assumptions involved in the theory and practice of social and political organization.

235 Classical Ethical Theories (3)
Significant contributions to moral philosophy from Plato and Aristotle to Bentham and Mill.

238 Recent Ethical Theory (3)
Prerequisite: Six hours of philosophy or consent of instructor. A study of major contributions to twentieth-century ethics, including works by such writers as Moore, Dewey, Ross, Stevenson, Hare and Rawls.

240 Theories of Knowledge (3)
Prerequisite: Six hours of philosophy or consent of instructor. An examination of concepts and problems involved in the characterization of knowledge. Specific topics will vary, but will usually include knowledge, belief, skepticism, evidence, certainty, perception, truth and necessity.

245 Metaphysics (3)
Prerequisite: Six hours of philosophy or consent of instructor. An examination of selected metaphysical topics such as substance, universals, causality, necessity, space and time, free will, being and identity.

250 Special Topics in Philosophy (3)
Prerequisite: Six hours of philosophy or consent of instructor. A critical study of classical and/or contemporary contributions to a selected topic in philosophy. The topic to be considered will be announced prior to registration. This course may be repeated for credit on approval by the department.

256 Logical Explorations (3)
Prerequisite: Philosophy 160 or consent of instructor. Rigorous study of major developments in contemporary logic. Emphasis is given to theoretical problems and some attention is devoted to philosophical issues arising from logic.

269 The Marxist Heritage (3)
(Same as Political Science 269) Study of Marx and leading Marxists. Designed to evaluate their influence on recent political, economic, and social thought and institutions.
Philosophy

270 Philosophy of Language (3)
A study of the nature and structure of language and its relationship to selected philosophical problems. Included will be such topics as ordinary language philosophy, significant developments in twentieth-century linguistics, prospects for semantic theory, and a discussion of traditional problems of meaning, reference and synonymy.

272 Philosophical Issues in Education (3)
A critical study and discussion of selected topics in education, including the distinctive features of education as an activity and achievement, concepts of teaching and learning, relations between education and values and the functions of a university.

274 Philosophy of Art (3)
A study of issues concerning the definition of art, meaning and truth in the arts, aesthetic experience and criticism.

276 Philosophy of History (3)
Discussion and analysis of some philosophical problems raised by historical inquiry such as subjectivity, relativism, the role of value judgments, and the nature of historical explanation.

278 Philosophy and Psychology (3)
Prerequisite: Three hours of philosophy or consent of instructor. An examination of the philosophical foundations of psychology as well as traditional problems in the philosophy of mind. Topics might include behaviorism; Freudian theory; pleasure and pain; desire, emotion and action; and memory and consciousness.

280 Philosophy of Science (3)
An examination of logical and methodological problems related to the sciences, including the structure of scientific explanations, laws and theories, methods of concept formation; and confirmation and the problem of induction.

282 Philosophy of Social Science (3)
A detailed analysis of issues raised by the social sciences, including the logical characterization of explanations, predictions, laws and theories; types of reductionism; objectivity and values; and the empirical basis of the social sciences.

285 Problems in Philosophical Theology (3)
Prerequisite: Six hours of philosophy or consent of instructor. An intensive study of problems arising out of traditional and contemporary philosophical theology.

287 Philosophy of Law (3)
An examination of typical problems raised by law, including the basis of legal obligations and rights, relations between law and morality, the logic of legal reasoning and the justification for punishment.

290 Philosophical Issues in Other Disciplines (3)
Prerequisite: Consent of instructor. An examination of selected philosophical issues in a discipline other than philosophy. One or more such disciplines as history, political science, psychology, sociology, biology, physics, or mathematics will be chosen, and philosophical issues selected, and announced prior to registration, usually in consultation with the other department concerned. This course is normally taught as a seminar and attempts to serve advanced students in other departments with or without previous background in philosophy.

291 Senior Thesis (3-9)
Prerequisite: Consent of department. Directed individual research for qualified senior majors. At least six hours are required for departmental honors in philosophy. May be repeated, but no more than nine hours may be credited toward a degree.

295 Special Readings (1-3)
Prerequisite: Written consent of instructor. Independent study through readings, reports and conferences.

Physics

Prerequisites may be waived by consent of the department.

Courses in this section are grouped as follows: Astronomy; Atmospheric Science; Engineering; Geology; and Physics.

Astronomy

1 Cosmic Evolution/Introductory Astronomy (4)

11 Planets and Life in the Universe (3)
Man's concept of the solar system from Stonehenge to Einstein; geology and meteorology of the planets of our solar system, with particular attention to results from the space program; exobiology—study of the possibilities of life on other worlds and the best method of communicating with it. Three lecture hours and one observing session per week.

12 The Violent Universe and the New Astronomy (3)
Prerequisite: Astronomy 1 or consent of instructor. A non-technical course focusing on recent results which larger telescopes and the space program have made available. Pulsars, x-ray stars, and black holes; radio astronomy, our galaxy, and interstellar molecules; exploding galaxies and quasars; origin of the expanding universe. Three lecture hours and one observing session per week.

Physics

Prerequisites may be waived by consent of the department.

Courses in this section are grouped as follows: Astronomy; Atmospheric Science; Engineering; Geology; and Physics.

Physics

60 Introduction to Astronomy I (3)
Prerequisite: Mathematics 30 or 40 and trigonometry. A survey of the history of astronomy from the ancient times to the present. The motions of the planets and stars, real and apparent. Tools of the astronomer. A study of our solar system, concentrating on results of the space program.

51 Introduction to Astronomy II (3)
Prerequisite: Mathematics 30 or 40 and trigonometry. A survey of astronomy and cosmology focusing on discoveries and phenomena outside of the solar system: stars, galaxies, quasars, etc.

101 Practical Astronomy (4)
Prerequisite: Astronomy 1, Mathematics 80 or consent of instructor. Tools of the astronomer: telescopes, astrophotography, photometric photometry. Students will work on a number of projects which will enable them to develop expertise in observing, reducing, and analyzing astronomical observations. Student observing will be an important part of the course.

201 Astrophysics (3)
Prerequisite: Mathematics 201, Physics 113, or consent of instructor. A moderately technical introduction to astrophysics. Topics will include: physics of stellar interiors and atmospheres; interpretation of stellar spectra; stellar evolution; radio astronomy; and cosmology.

Atmospheric Science

1 Elementary Meteorology (4)
Prerequisite: High-school physics or chemistry. An elementary survey of atmospheric phenomena intended to fulfill the science requirement. Topics include: temperature, pressure and moisture distributions in the atmosphere and dynamical effects such as radiation, stability, storms, and general circulation. Applications to weather forecasting. Three hours of lecture and two hours of laboratory per week.

Engineering

30 Engineering Graphics (3)
Prerequisite: Mathematics 40 or equivalent. Lettering, drafting equipment, technique and standards. Technical sketching, engineering curves, charts and graphs. Multiview and pictorial drawing, space analysis of lines, planes and solids. Basic dimensioning, sections, shop processes, and shop drawings and sketches. Engineering organization charts and flow diagrams.

85 Statics and Elementary Strength of Materials (3)
Prerequisite: Mathematics 80; Physics 111 (may be taken concurrently). Fundamentals of statics; static equilibrium and introduction to elements of the mechanics of elastic materials.

185 Introduction to Dynamics (3)
Prerequisite: Engineering 85. Basic fundamentals of particle and rigid-body dynamics; energy and momentum methods.

Geology

1 General Geology (4)
Earth materials, geologic processes, earth history, and the application of geology to the problems in urban development and conservation.

2 Historical Geology (4)
Study of changes in geography, climate and life through geologic time; origin of continents, ocean basins and mountains in light of continental drift; urban development and energy resources. Three hours of lecture and one hour of laboratory.

53 Oceanography (3)
The atmospheric and oceanic circulations; the chemistry and geology of the deep sea; and their effects on the distribution of marine organisms.

101 Urban Geology (4)
Prerequisite: Geology 1. Techniques and action course dealing with geologic and environmental problems of urbanized areas.

130 Common Rocks and Minerals (3)
Prerequisite: Geology 1. Laboratory and field identification of common minerals and rocks by physical properties. One hour of lecture and two hours of laboratory.

98 Research (1-3)
Prerequisite: Consent of instructor. Independent geology research projects arranged between student and instructor. Hours arranged.

Physics

1 Foundations of Modern Physical Theory I (4)
Prerequisite: Mathematics 02 or equivalent. An introduction to some of the major ideas, principles, and basic laws directing the development of contemporary physics. The course work consists of two general lectures each week in which the material is introduced, one discussion session, and one two-hour multimedia laboratory.

10 Experimentation in Physics (2)
Prerequisite: Mathematics 40 (may be taken concurrently) or equivalent. A laboratory course designed to introduce the students to electrical circuits and elementary electronics. No prior knowledge of circuits or electronics will be assumed. Four hours of laboratory per week.

11 Basic Physics (4)
Prerequisite: Mathematics 30 or 40. A survey course specifically designed for students in Health and Life Science covering such topics as classical mechanics, heat, sound, electricity, magnetism, light and radiation. Will not fulfill the Physics 111 requirement for physics, chemistry and engineering majors. Three hours of lecture and two hours of laboratory.

12 Basic Physics (4)
Prerequisite: Physics 11. Continuation of Physics 11.

33 Science: Its Nature and Practice (3)
An interdisciplinary course. Prerequisite: Candidacy in Sophomore Honors Program. Since the seventeenth century, science has been characterized by dramatic interplay of empirical data and theoretical ideas. Consequences of this interplay are the evolution of scientific concepts and the development of theoretical structure. In addition, the human element has played a vital role in the evolutionary process: scientists bring to their work preconceptions that can have a determining influence on the form that theoretical ideas ultimately take and on the resulting perception of physical reality.

50 Introduction to Physics (4)
Prerequisite: Mathematics 30. A laboratory survey course which introduces students to the fields of mechanics, heat and thermodynamics, optics, electricity and magnetism, and modern physics at the pre-
Physics

calculus level. A problem-solving course, recommended for science and engineering students who have no physics background or who desire additional preparation for Physics 111. Three hours of lecture and two hours laboratory per week.

111 Physics: Mechanics and Heat (4)
Prerequisites: Mathematics 80 or 101. Physics 101 or Chemistry 12 or equivalent is recommended. An introduction to the phenomena, concepts and laws of mechanics and heat for physics majors and students in other departments. Three hours of lecture plus one hour of discussion per week.

112 Physics: Electricity, Magnetism, and Optics (4)
Prerequisite: Physics 111 and Mathematics 101 or 175. A phenomenological introduction to the concepts and laws of electricity and magnetism, electromagnetic waves, optics and electrical circuits for physics majors and students in other departments. Three hours of lecture plus one hour of discussion per week.

113 Physics: The Structure of Matter (3)
Prerequisite: Physics 112. A phenomenological introduction to selected concepts and laws of physics as they are applied to the structure of matter. Elements of atomic, nuclear, and molecular physics will be discussed. Three hours of lecture plus one hour of discussion per week.

124 Circuit Analysis I (3)
Prerequisite: Physics 112 and Mathematics 201 (may be taken concurrently). Circuit elements, Kirchhoff’s laws, network theorems, and mesh and nodal analysis. Transient and complete response of RL, RC, LRC circuits will also be studied.

126 Circuit Analysis II (3)
Prerequisite: Physics 124 and Mathematics 202 (may be taken concurrently). Analysis of steady state AC circuits, phasor notation, polyphase circuits, complex frequency and frequency response, magnetically coupled circuits, and two-part networks.

170 Physics of Music (3)
Prerequisite: Mathematics 02 or equivalent. Musical sound is the subject matter of this course: how it originates (musical instruments), how it is reproduced (stereo sound systems), how it is transmitted, and how it is perceived.

171 Applications of the Physics of Music (2)
Prerequisite: Mathematics 02 or equivalent. Demonstrations and experiments concern-

ing the origination, the reproduction, the synthesis, the transmission, and the detection of musical sounds.

172 Light and Color (3)
Prerequisite: Mathematics 02. A study of the physical concepts as they relate to light, color, and visual phenomena. Models of light applied to reflection, refraction, diffraction, and interference. Optical devices such as the eye and the camera will be studied. Visual and color perception.

173 Applications of Light and Color (2)
Prerequisite: Mathematics 02. Demonstrations and experiments leading to a physical understanding of the behavior of light from source to detector, whether that of the eye or a camera. Phenomena such as reflection, refraction, diffraction, and interference will be demonstrated. Color analysis and synthesis.

190 Energy (3)
(Same as Chemistry 190). Prerequisite: Junior standing. Perspectives and approaches to the energy problem from a social and physical science viewpoint. The course will involve lectures given by physical and social scientists and assisted research by students of various aspects of energy production, conversion, use, environmental impact and policy determination.

200 Survey of Theoretical Physics (3)
Prerequisites: Physics 111 and Mathematics 201. Mathematical techniques specifically used in the study of mechanics, electricity, magnetism, and atomic physics are developed in the context of various physical problems. The major areas covered are vector analysis, solutions of Laplace’s equation, coordinate systems and numerical techniques.

201 Elementary Electronics I (3)
(Same as Engineering 201). Prerequisite: Physics 112. Primarily a laboratory study of characteristics of standard circuit elements, amplifier circuits, power supplies, operational amplifiers, digital and switching circuits, servosystems, shielding and noise problems, transducers and oscilloscopes. Six hours of laboratory per week.

202 Elementary Electronics II (3)
(Same as Engineering 202). Prerequisite: Physics 201. Continuation of Physics 201. Six hours of laboratory per week.

221 Mechanics (3)
Corequisites: Physics 200 and Mathematics 202. Advanced course covering rigid-body dynamics, damped and undamped oscillatory motion, with an introduction of Lagrange’s equations and variational principles. Three hours of lecture and one hour of discussion per week.

223 Electricity and Magnetism (3)
Prerequisites: Physics 200 and Mathematics 202. (Mathematics 302 may be taken concurrently). Electromagnetic fields, including electrostatics, dielectric materials, solution to Laplace’s equation, currents and magnetic fields, motion to charged particles, and introduction to electromagnetic waves. Three hours lecture and one hour discussion per week.

225 Physical Optics (3)
Prerequisite: Physics 223. A basic study of light; interference, diffraction, crystal optics, reflection, scattering and light quanta. Three hours lecture and one hour discussion per week.

231 Introduction to Modern Physics I (3)
Prerequisite: Mathematics 202 (may be taken concurrently). Physics 111, 112 and 200 strongly recommended. Photons and the wave nature of particles; wave mechanics, Schrödinger equation, and applications to single systems; atomic physics and spectroscopy; molecular physics; nuclear models and reactions; the physics of solids; elementary particles; relativity. Three hours of lecture and one discussion section per week.

232 Introduction to Modern Physics II (3)
Prerequisite: Physics 231. Continuation of Physics 231.

241 Thermal and Statistical Physics (3)
Prerequisite: Mathematics 201 and Physics 231. Introduction to statistical mechanics, laws of thermodynamics, and kinetic theory. Three hours lecture and one hour discussion per week.

280 Methods of Teaching Physics in Secondary Schools (3)
(Same as SEC ED 240). Prerequisite: SEC ED 213 and a near-major in the subject area. Study of the scope and sequence of the science courses in the school curriculum, with emphasis on the selection and organization of materials and methods of instruction and evaluation. Attention is also directed toward learning the techniques and research tools of the scholar in the field of science.

281 Directed Readings in Physics (1–10)
Prerequisite: Consent of instructor. A study of the literature of physics. A paper is required on an approved topic. Hours arranged.
Physics

262 History of Physics (3)
Prerequisite: Physics 1 or Astronomy 1. A study of the historical evolution of physics. Three hours of lecture per week.

289 Seminar (1)
Presentation of selected papers by students and faculty members at weekly meetings. May be taken twice for credit.

290 Research (1-10)
Prerequisite: Consent of department. Independent physics research projects arranged between student and instructor. Hours arranged.

295 Selected Topics in Physics for the Secondary School Teacher I (2)
A basis for understanding the current developments in science is provided for the secondary school science teacher. The content of the course will be generally directed toward macroscopic phenomena.

296 Selected Topics in Physics for the Secondary School Teacher II (2)
Prerequisite: Physics 295. A basis for understanding the current developments in science is provided for the secondary school science teacher. The content of the course will be generally directed toward macroscopic phenomena.

297 Selected Topics in Physics for the Secondary School Teacher III (2)
A basis for understanding the current developments in science is provided for the secondary school science teacher. The content of the course will be generally directed toward macroscopic phenomena.

298 Selected Topics in Physics for the Secondary School Teacher IV (2)
Prerequisite: Physics 297. A basis for understanding the current developments in science is provided for the secondary school science teacher. The content of the course will be generally directed toward macroscopic phenomena.

301 Introduction to Mathematical Physics (3)
Prerequisites: Sixteen hours of physics. A course covering mathematical techniques as applied to the equations of theoretical physics; calculus of variations, Green’s functions; linear vector spaces, and integral equations. Three hours of lecture and one hour of discussion per week.

305 Physical Applications of Group Theory (3)
Prerequisite: Physics 231. Elements of group theory and group representations. Point symmetry groups and applications to the physics of crystals. The rotation group in two and three dimensions with application to atomic and nuclear spectroscopy. Three hours of lecture and one hour of discussion per week.

311 Advanced Physics Laboratory I (2)
Prerequisites: Physics 201, 221, 231, and Mathematics 122. Physics majors are introduced to the experimental techniques used in research. A student will choose and do several special problems during the semester. Six hours of laboratory per week.

312 Advanced Physics Laboratory II (2)
Prerequisites: Physics 201, 221, 231, and Mathematics 122. Continuation of Physics 311. Six hours of laboratory per week.

323 Modern Optics (3)
Prerequisite: Physics 223. A study of modern optics including diffraction theory, polarization, light propagation in solids, quantum optics and coherence. Three hours of lecture and one discussion per week.

325 Linear Analysis of Physical Systems (3)
Prerequisites: Physics 201, Mathematics 202. Signals and systems, Fourier and Laplace analysis, transform methods, amplitude phase and delay, transfer functions and filters. Three hours of lecture and one hour of discussion per week.

331 Introduction to Quantum Mechanics (3)
Prerequisites: Physics 221, 223, 231 and 241. Elementary treatment of quantized mechanical systems, methods of Schroedinger’s wave mechanics, operator techniques, and perturbation theory. Three hours of lecture and one hour of discussion per week.

335 Atomic and Nuclear Physics (3)
Prerequisite: Physics 331. Application of Schroedinger’s equation to hydrogen-like atoms; atomic structure and spectra; nuclear masses, energy levels; alpha, beta, and gamma radiation, nuclear reactions, and models of the nucleus. Three hours of lecture and one hour of discussion per week.

343 Selected Topics in Physics I (3)
Prerequisites: Physics 221, 223, 225, 231, 241 and Mathematics 316. (Mathematics 316 may be taken concurrently.) Topics include special phenomena such as scattering of waves, thermal motion in gases, atmospheric disturbances treated by methods of advanced mechanics, electromagnetism, and quantum mechanics. Three hours of lecture and one hour of discussion per week.

344 Selected Topics in Physics II (3)
Prerequisite: Physics 343. Continuation of Physics 343. Three hours of lecture and one hour of discussion per week.

351 Elementary Solid State Physics (3)
Prerequisite: Physics 331. Theoretical and experimental aspects of solid state physics, including one-dimensional band theory of solids; electron emission from metals and semiconductors; electrical and thermal conductivity of solids. Three hours of lecture and one hour of discussion per week.

353 Physics of Fluids (3)
Prerequisites: Physics 221, 223 and 241 or consent of instructor. Topics from the theory of gases, liquids, or plasmas. Dynamical properties of one of these forms of matter will be developed with contemporary applications stressed.

354 Atmospheric Physics (3)
Prerequisite: Physics 241. Topics from dynamic and physical meteorology including the ionosphere. Application of thermodynamics, optics, radiation, and mechanics to atmospheric phenomena.

356 Topics in Space Physics (3)
Prerequisite: Physics 221. Corequisite: Physics 223. The two-body central force problems, satellite orbits, comets, and asteroids, Lagrangian points and the Anti-Earth, the Trojans of Jupiter, artificial satellites, transfer orbits and missions, rocket dynamics. The solar environment, trapping of charged particles in magnetic fields, earth’s radiation belts, the solar wind, aurorae and whistlers, sailing on the solar wind, the cosmic ray problem. Introduction to magnetohydrodynamics, MHD waves, sun spot movement, applications of MHD: generation of electric power, and the ion rocket engine.

358 Quantum Optics (3)
Prerequisites: Physics 200 and 231, and Mathematics 202. Review of atomic theory and spectroscopy. Selected applications to modern optical phenomena such as optical pumping, lasers, masers, Mossbauer effect and holography.

367 Applied Solid State Physics (3)
Prerequisites: Physics 231 and 241. Quantum theory needed for solids. Survey of solid state topics such as conductors, semiconductors, insulators with applications to transistors, solid state lasers, and other contemporary devices.
Physics

301 Directed Readings in Physics (1-10)
Prerequisite: Consent of instructor. A study of special topics in physics for senior undergraduates or graduate students.

400 Computational Physics (3)
Prerequisite: Mathematics 122 or equivalent. Numerical analysis and computer analysis in physics; solutions of eigenvalue problems; coupled differential equations; and writing of FORTRAN programs.

401 Principles of Mathematical Physics (4)
Boundary value problems; Green's function techniques; and introduction to group theory with emphasis on representations of Lie Algebras.

408 Classical Dynamics and Electrodynamics (4)
Prerequisites: Physics 200, 221 and 223. Presents methods and applications of classical dynamics, electrodynamics and field theory.

409 Quantum Mechanics and Statistics (4)
Prerequisite: Physics 241 and 331. Physics 408 recommended. Continues 408 with methods and applications of quantum mechanics and statistical mechanics.

418 Atomic and Molecular Physics (4)
Prerequisites: Physics 232, 241, 331 and Mathematics 202. Physics of atoms and molecules. Topics include spectroscopy, kinetic theory, transport phenomena, molecular interactions and interaction of radiation with molecules.

419 Condensed Matter Physics (4)
Prerequisites: Physics 221, 223, 241 and Mathematics 202. Crystal structure, diffraction and the reciprocal lattice phonons; free electron Fermi gas and band structure. Also to include one or more topics selected from the following: semiconductor devices, optical properties of solids, superfluidity and superconductivity, or critical phenomena and phase transitions.

421 Theoretical Mechanics (4)
Lagrangian and Hamiltonian formulation of mechanics; canonical transformations; action angle variables; Poisson brackets; and small oscillation theory.

423 Classical Electrodynamics (4)
Prerequisites: Physics 401 and 421. Boundary value problems in electrostatics; Maxwell's equations; multipole expansion; radiation theory; special relativity.

424 Applications of Electrodynamics (3)
Prerequisite: Physics 423. Applications of electrodynamics to waveguides, antenna design, and accelerator design.

431 Quantum Mechanics I (4)
Prerequisites: Physics 331 and 401. Formal development of quantum mechanics in Heisenberg and Schroedinger pictures, solvable problems; Rayleigh-Schroedinger perturbation theory; and angular momentum.

432 Quantum Mechanics II (3)
Prerequisite: Physics 431. A continuation of Physics 431. Scattering theory; relativistic quantum mechanics; and introduction to field theory.

433 Quantum Electrodynamics (3)
Prerequisite: Physics 432. Interaction representation; Feynman perturbation theory, renormalization theory, axiomatic field theory, and dispersion relations.

434 Special Topics in Quantum Theory (3)
Prerequisite varies according to material covered. Special applications of quantum theory to such systems as quantum electronics, collision theory, S matrix theory, etc. May be repeated for credit.

441 Statistical Mechanics (4)
Prerequisite: Physics 431. Ensembles, classical and quantum statistics; relation to thermodynamics; H theorem; applications to simple systems.

442 Advanced Statistical Physics (3)
Prerequisites: Physics 432 and 441. Many-body theory and applications to problems such as turbulence, phase transitions, etc.

443 Plasma Physics (3)
Prerequisites: Physics 423 and 441. Various techniques of plasma physics; statistical treatments; magnetohydrodynamics; instabilities; applications to controlled fusion, etc.

451 Solid State Theory (3)
Prerequisites: Physics 351 and 431. Simple crystal lattices; Brillouin zones; bond structures; elementary excitations in solids and their properties; impurities.

452 Special Topics in Solid State (3)
Prerequisite: Physics 451. May be repeated for credit.

461 Experimental Nuclear Physics (3)
Prerequisites: Physics 335 and 431. Nuclear reactions; nuclear radiation detection; basic conservation laws; isospin; phenomenological models.

462 Nuclear Theory (3)
Prerequisite: Physics 461. Study of nuclear models and applications to reactions; shell model; optical model; R-matrix theory; systematics of nuclear decays.

471 Special Topics in Theoretical Physics (3)
Prerequisites determined. Covers special topics such as relativity, particle physics, non-linear systems, etc.

481 Directed Readings in Physics (1-10)
Prerequisite: Consent of instructor. A study of special topics in physics for graduate students.

490 Thesis Research
Includes writing a thesis. Credit will be awarded only upon successful defense of thesis.
Political Science

Courses in this section are grouped as follows: Ungrouped Courses; Public Law; Political Process and Behavior; Public Administration; Comparative Politics; Theory and Methodology; International Relations; and Graduate Courses.

The following courses fulfill the Social Sciences [SS] breadth of study requirements: Ungrouped Courses; Public Law; Political Process and Behavior; Public Administration; Comparative Politics; Theory and Methodology; International Relations; and Graduate Courses.

Courses in this section are grouped as follows: Ungrouped Courses; Public Law; Political Process and Behavior; Public Administration; Comparative Politics; Theory and Methodology; International Relations; and Graduate Courses.

The following courses fulfill the Social Sciences [SS] breadth of study requirements: Ungrouped Courses; Public Law; Political Process and Behavior; Public Administration; Comparative Politics; Theory and Methodology; International Relations; and Graduate Courses.

Political Science

The following courses fulfill the Social Sciences [SS] breadth of study requirements: Ungrouped Courses; Public Law; Political Process and Behavior; Public Administration; Comparative Politics; Theory and Methodology; International Relations; and Graduate Courses.

Ungrouped Courses

11 Government in Modern Society: American Politics (3)

Introduction to basic concepts of government and politics with special reference to the United States, but including comparative material from other systems. Course fulfills the state requirement.

12 Government in Modern Society: Comparative Politics (3)

An introduction to basic political structures and processes with an emphasis on foreign political systems and comparative political analysis. The course will deal with democratic and nondemocratic political systems in developed and underdeveloped nations.

33 Sophomore Honors (3)

Prerequisite: Satisfactory standing in the Sophomore Honors Program. A seminar in the College Sophomore Honors Program conducted around the general theme of approaches to the study of politics. A more specific theme will be chosen as the focus of the seminar each year.

60 Civilization and Politics (3)

An examination of the role of politics in human life, of the ways in which individuals have organized themselves and the goals they have pursued in a variety of historical circumstances.

90 Freshman Seminar (3)

Prerequisites: Freshman standing and consent of instructor. Topics to be announced. Weekly seminars supplemented by individual conferences. Limited to twelve students.

99 The City (3)

(Same as Administration of Justice 99, Psychology 99, and Sociology 99) An interdisciplinary course. Consideration of economic factors, urban institutions, historical developments in urbanization, problems of the inner city, suburbia and the metropolitan area, ethnic groups, stratification, and psychological implications of urban living. This course is primarily for freshmen and sophomores. It is open to juniors and seniors with the instructor's permission.

190 Studies in Political Science (3)

Prerequisite: None. Selected topics in political science.

296 Internship (1-6)

Prerequisite: Junior standing and consent of instructor. Independent study involving work with an appropriate public or private agency. A maximum of six credit hours may be earned.

390 Special Readings (1-10)

Prerequisite: Consent of instructor. Independent study through readings, reports, and conferences. May be repeated.

395 Political Science Seminar (3)

Prerequisite: Senior or graduate standing. An overview of approaches in various subfields. Students will be familiarized with political science journals and bibliographic techniques. Seminar is highly recommended for students going on to graduate school.

Group I: Public Law

20 Foundations of Law: An Introduction to Legal Studies (3)

As a broad liberal-arts approach to the study of law, this course is designed to familiarize students with legal ideas, legal reasoning, and legal processes. It also provides comparative and historical perspectives on law that will help explain legal diversity and legal change. Finally, it offers opportunities to explore some of the persistent issues in law and legal theory: for example, issues about the sources of law, the responsibilities of the legal profession, or the relative merits of the adversary system.

121 Civil Liberties (3)

Prerequisite: Political Science 11. Civil rights in the American constitutional context, emphasizing freedom of religion, freedom of expression, minority discrimination, loyalty, and rights of defendants. Course fulfills the state requirement.

129 Women and the Law (3)

Prerequisite: None. Legal position of women in the United States, emphasizing constitutional law, criminal law, domestic relations, and fair employment practice laws.

220 Jurisprudence (3)

Prerequisite: Political Science 11 or 12. Development of law and legal systems; comparison of methods and procedure in making and enforcing law in Roman and common law systems; consideration of fundamental legal concepts; contributions and influence of schools of legal thought in relation to law and government.

227 Urban Law: Poverty and the Justice System (3)

Prerequisite: Political Science 11, Administration of Justice 220 or equivalent, or consent of instructor. Examination of administrative regulations and the civil law process as it affects the life of urban residents.

320 Introduction to American Constitutional Law (3)

Prerequisite: Political Science 11. Study of leading American constitutional principles as they have evolved through important decisions of the United States Supreme Court. Course fulfills the state requirement.

327 Urban Justice Systems (3)

Prerequisite: Political Science 11. The study of the nature and function of local legal and criminal justice systems with emphasis on the political aspects of their operations. Consideration of key participants (police, prosecution, defense counsel, judges, defendants) and processes (arrest practices, bail procedures, sentencing behavior, and incarceration).

328 The Federal Judicial System: Politics, Process and Behavior (3)

Prerequisite: Political Science 11. The study of the federal courts as a political system. Analysis of organization, procedures, and norms of the Supreme Court and other federal courts. Consideration of judicial recruitment, attitudes, and decision-making as well as the impacts and limitations of judicial policy-making.
Political Science

329 Studies in Public Law (3)  
Prerequisite: Consent of instructor.  
Selected topics in public law. May be repeated.

Group II: Political Process and Behavior

130 State Politics (3)  
Prerequisite: Political Science 11. An examination of contemporary state politics in the United States; social, economic and political determinants of policies; federal-state-local relations; elections, interest groups and participation; executive, legislative, and judicial institutions and policies and their impact. Course fulfills the state requirement.

131 Congressional Politics (3)  
Prerequisite: Political Science 11. An examination of the Congress of the United States, its history and evolution, its contemporary politics, and its role in the national policy-making process. Topics include candidate recruitment, campaigns and elections, representation, committees, legislative leadership, roles and norms, voting alignments, lobbyists and interest groups, oversight of administration, and House-Senate comparisons. The role of Congress in foreign policy, economic policy, and social-welfare policy will be examined.

135 Introduction to Urban Politics (3)  
Examined of structure and process of politics in the urban community, with emphasis on their relationships to community power structures. Course fulfills the state requirement.

218 Social Choice in Political Economic Systems (3)  
(Same as Economics and Sociology 218). Prerequisites: Two courses in economics, political science or sociology. A study of the mechanisms of social choice from the standpoint of individual and political party maximization of personal objectives. This area draws on work done by sociologists, political scientists, and economists.

230 The American Presidency (3)  
Prerequisite: Political Science 11. Study of the constitutional, political, legislative, and administrative roles played by the American chief executive in the development of public policy. Course fulfills the state requirement.

232 Ethnic and Racial Politics (3)  
Prerequisite: Political Science 11. This course will focus on the political experiences of significant racial and ethnic minorities in the United States. Emphasis will be placed on the groups’ political strengths, weaknesses, successes, failures in the present, and changes over time. Course fulfills the state requirement.

233 Introduction to Political Behavior (3)  
Prerequisite: Political Science 11. A general introduction to political socialization, political opinion formation, and electoral behavior.

235 Political Parties (3)  
Prerequisite: Political Science 11. Development, organization, functions, activities of major and minor political parties, pressure groups, and election administration, especially in the United States. Course fulfills the state requirement.

236 Legislative Processes (3)  
Prerequisite: Political Science 11; 102 strongly recommended. Congressional elections, constituent relations, policy-making and leadership: relations between Congress and administrative and executive agencies, the committee system, seniority and procedure. Congress as an element in the party system. Course fulfills the state requirement.

332 Studies in Political Behavior (3)  
Prerequisite: Consent of instructor. Selected topics in political behavior. May be repeated.

Group III: Public Administration

140 Public Administration (3)  
Prerequisite: Political Science 11. Survey of public administration, with reference to organization, financial administration, personnel management, and judicial control of the administrative process. Course fulfills the state requirement.

240 Bureaucratic Politics (3)  
Prerequisite: Political Science 11. Examination of the policy-making process within public organizations and the forces influencing the making of bureaucratic policy. Study of the role of the bureaucracy as one of several “actors” in the larger policy process. Course fulfills the state requirement.

242 Introduction to Public Policy (3)  
Prerequisite: Political Science 11. Study of differing approaches to understanding the public policy process. Course surveys the application of social science to public issues and problems.

244 Public Budgeting (3)  
Prerequisite: Political Science 11. Examination of the techniques used in the public sector for preparing and administering financial controls.

245 Urban Administration (3)  
Prerequisite: Political Science 11. Study of administrative machinery and practices of metropolitan government, how metropolitan areas organize themselves to provide services, how urban policies are made and implemented, how budgeting and personnel recruitment processes operate, and how these relate to urban policies. Course fulfills state requirement.

340 Organizational Politics (3)  
Prerequisite: Political Science 11. Examination of public sector organizations and the range of factors affecting their operation. Specific areas of attention will include theories of organization structure and management, decision theory, organizational/ environment interactions, interorganizational relations, and theories of organizational change and development.

342 Public Personnel Management (3)  
Prerequisites: Political Science 11 and 140. A study of personnel practices in the public sector, including recruitment, job development, labor relations, and administration of equal employment/affirmative action programs.

343 Studies in Policy Formation (3)  
Prerequisite: Consent of instructor. Selected topics in policy formation. May be repeated.

348 Program Evaluation (3)  
Prerequisite: Political Science 11. Study of techniques and applications for evaluating the impact of public programs.

349 Studies in Public Administration (3)  
Prerequisite: Consent of instructor. Selected topics in public administration. May be repeated.
Political Science

**Group IV: Comparative Politics**

251 Comparative Politics of Western Europe (3)
Prerequisite: Political Science 11 or 12. Introduction to the major political systems of Western Europe. The course will emphasize political culture, political parties, interest groups and political behavior. It will also focus on political institutions and policy-making. While individual countries will be examined separately, the course will also emphasize comparison between systems.

252 The Politics of Modernization (3)
Prerequisite: Political Science 11 or 12. Analysis of the dimensions and problems of modernization and the role of political systems, with primary emphasis on African nations. Course fulfills the non-Euro-American requirement.

253 Political Systems of South America (3)
The political systems, international problems, and socio-economic-cultural environments of the governmental processes of South America. Course fulfills the non-Euro-American requirement.

254 Political Systems of Mexico, Central America and the Caribbean (3)
The political systems, international problems and socio-economic-cultural environments of the governmental processes in Mexico, Central America, and the Caribbean. Course fulfills the non-Euro-American requirement.

255 Asian Comparative Politics (3)
Study of the political systems of Asia including China, Japan, India and Southeast Asia. Course fulfills the non-Euro-American requirement.

256 Soviet Political Systems (3)
Prerequisite: Political Science 11 or 12. Examination of government and politics in the Soviet Union dealing with such themes as the role of the party; recruitment and socialization of elites; the role of ideology and interest groups; the formulation of policy; and bureaucratization of social, economic and cultural life.

257 Comparative Public Policy and Administration (3)
Prerequisites: Political Science 11 or 12. A comparative study of the characteristics of public administrators, their institutions and environments in Western democratic, developing nations and communist political systems.

259 Studies in Comparative Politics (3)
Prerequisite: Consent of instructor. Selected topics in instructor. May be repeated.

**Group V: Theory and Methodology**

101 Empirical Political Theory (3)
Prerequisite: Political Science 11 or 12. Consideration of the elements of scientific method and social phenomena; critiques of the scientific approach in political science; nature and logic and explanatory theories, such as systems theory, structural-functional analysis and deductive theories.

102 Research Methods in Political Science (3)
Prerequisite: Political Science 11 or 12. Methods of testing causal statements about politics, including research design and data measurement, collection, and analysis.

**Group VI: International Relations**

301 Global Issues (3)
A freshman and sophomore level course designed to introduce students to a range of global concerns, including population, hunger, trade, energy, and the environment. The worldwide implications of these and other problems will be considered, as well as their effects on local communities such as St. Louis.

180 World Politics (3)
Analysis of politics among nations, including such topics as: nationalism, power, imperialism and colonialism, revolution and war, arms control and disarmament, and peace and the regulation of conflict.

382 United States Foreign Policy (3)
Prerequisite: Political Science 11 or 12. Examination of the factors influencing the formation and the execution of United States foreign policy and of specific contemporary foreign policies and problems.

284 European International Relations (3)
Prerequisite: Political Science 11 or 12. European international relations since World War II. Emphasis upon developments from the Cold War to Detente, emphasizing such concepts as containment, Truman Doctrine, Marshall Plan, NATO, WTO, community building, force structures, and security.

<th>Course Title</th>
<th>Prerequisite</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>285</td>
<td>International Institutions and Global Problem-Solving (3)</td>
<td>Political Science 11 or 12</td>
<td>Introduction to the study of international organization. The course focuses on relationships between nation-states and &quot;non-state&quot; actors (global intergovernmental organizations such as the United Nations, regional organizations such as the European Economic Community, and nongovernmental organizations such as multinational corporations) in world politics and on the role of international institutions in such problem areas as economic development and stability, management of resources, and control of violence across national boundaries.</td>
</tr>
<tr>
<td>286</td>
<td>Studies in War and Peace (3)</td>
<td>Political Science 11 or 12</td>
<td>Exploration, development, and testing of theories about the causes and consequences of war, peace, and conflict among nations. A broad range of literature on war and peace will be reviewed and applied to crisis situations in the international system.</td>
</tr>
<tr>
<td>289</td>
<td>Middle Eastern Politics (3)</td>
<td>Political Science 11 or 12</td>
<td>Survey of political movements, governments, and international conflicts in the Middle East. Islam, nationalism, ideologies and economic systems will be studied. The effects of oil and the military will also be considered. Course fulfills the non-European American requirement.</td>
</tr>
<tr>
<td>381</td>
<td>Foreign Policy Decision-Making (3)</td>
<td>Political Science 11 or 12</td>
<td>Empirical and experimental studies of foreign policy decision-making processes. Foreign policies of a number of countries will be compared.</td>
</tr>
<tr>
<td>385</td>
<td>International Law (3)</td>
<td>Political Science 11 or 12</td>
<td>Study of the international legal system, including the content and operation of the laws of war and peace, how law is created and enforced with regard to the oceans and other parts of the globe, and the relationship between international law and international politics.</td>
</tr>
<tr>
<td>388</td>
<td>Studies in International Relations (3)</td>
<td>Consent of instructor</td>
<td>Selected topics in international relations. May be repeated.</td>

Political Science

470 Proseminar in Urban Politics (3)
Examination of the relationships between the social, economic, and political systems of urban areas. Urban political structure, patterns of influence, political participation, and communication and political change. Special attention to problems of access to and control of urban political systems.

471 Seminar in Urban Politics (3)
Research problems and design in urban and regional politics.

475 Directed Readings and Research in Urban Politics (1-10)
Independent study through readings, reports and conferences.

480 Proseminar in International Relations (3)
Examination of theoretical approaches to and applications of international politics, including: "traditional" approaches; "Realpolitik" and the idealist reaction; capability analysis; general and particular systems analysis; decision-making; simulation and gaming.

481 Seminar in International Relations (3)
Arranged.

496 Internship (1-6)
Independent study involving work with an appropriate public or private agency.

Psychology

The following courses fulfill the Social Sciences [SS] breadth of study requirements:

4 General Psychology (3)
A broad introductory survey of the general principles of human behavior.

33 Honors General Psychology (3)
Prerequisite: Satisfactory standing in Sophomore Honors Program. This course broadly surveys the field of psychology, including the subareas of clinical, developmental, learning, personality, physiological, and social psychology.

60 Helping Relationships (2)
Prerequisites: Psychology 3 and consent of instructor. Exploration of the basic elements contributing to effective helping skills. Readings, discussion, and guided experiences will be used to instill understanding of active listening and communication skills. Ethics of helping relationships will be emphasized.

61 Applied Skills (2)
Prerequisites: Psychology 60 and consent of instructor. Builds upon Psychology 60. Provides advanced readings and supervised experiences in helping relationships. Designed for students interested in learning more about the psychological functioning of selves and others and about the increased awareness of helping relationships.

76 Crime and Punishment (3)
(Same as Sociology 75 and AOJ 75). An interdisciplinary course. An introduction to sociological and psychological explanations of crime and punishment. An examination of private and governmental responses to the threats of crime and delinquent behavior.

99 The City (3)
(Same as AOJ 99, Political Science 99, and Sociology 99). Prerequisite: Twelve hours of college credit. An interdisciplinary course. Consideration of economic factors, urban institutions, historical developments in urbanization, problems of the inner city, suburbia and the metropolitan area, ethnic groups, stratification and psychological implications of urban living. (Does not count toward major.) This course is primarily for freshmen and sophomores. It is open to juniors and seniors with instructor's consent.

101 Psychological Statistics (4)
Prerequisites: Psychology 3 and Mathematics 30, or equivalents. (With laboratory). Statistical methods in psychological measurement and analysis of psychological data. Frequency distribution analysis, sampling, test of significance, and correlation methods.

105 Group Prejudice and Minority Identity (3)
(Same as Sociology 105). Prerequisite: Psychology 3 or Sociology 10. The psychological study of determinants of identity formation and transformation among minority groups.

111 Human Motivation (3)
Prerequisite: Three hours of psychology. A survey and comparison of current types of human motivation theory and research, with some consideration of future trends in motivation theory and implications of motivation theory and research to other areas in psychology.

150 The Psychology of Individual Differences (3)
Prerequisite: Psychology 3. Analysis of major dimensions of individual differences in behavior and the roles of genetic, constitutional, and experiential factors in the development of psychological differences. While emphasis is placed on human behavior, relevant information from infrahuman species will be considered.

160 Social Psychology (3)
(Same as Sociology 160). Prerequisite: Psychology 3 or Sociology 10. Study of interaction between individuals and their social environment. Examination of basic principles, concepts, methods.

200 Drugs and Behavior (3)
Prerequisite: Psychology 3 and three other hours in psychology or biology. The course is designed to provide an introduction to the relationship between drugs and behavior. The emphasis will be on psychoactive drugs, alcohol, nicotine, as well as drug-like substances produced naturally in the body.
Psychology

210 Psychology of Nonverbal Behavior (3)
Prerequisite: Psychology 100 or Sociology 160. Psychological perspective on the role of nonverbal behavior in social settings. Primary concerns of the course will include an analysis of (a) functions of nonverbal behavior (e.g., communication, intimacy exchange, control), (b) factors influencing nonverbal expression (e.g., culture, personality, relationships), and (c) various theoretical views on nonverbal behavior and communication. Applications to various problems and settings in everyday life will also be pursued.

211 Physiological Psychology (3)
Prerequisites: Psychology 3 or equivalent and Biology 1. A survey of the major areas of physiological psychology with an emphasis on their historical development.

212 Principles of Learning (3)
Prerequisite: Psychology 3. A consideration of critical findings in learning.

213 Principles of Perception (3)
Prerequisite: Psychology 3. Sensory and perceptual processes in human experience and behavior.

215 The Social Behavior of Animals (3)
Prerequisite: Two semesters of psychology and/or biology. An introduction to the social organization of a variety of different animal forms. The emphasis will be on nonhuman primates and other mammals through the social behavior of species of insects, fish, and birds. Aggression, sexual behavior, affiliation, maternal reactions, and the ontogeny of behavior are the primary areas to be studied. The orientation will be from both an ethologist’s and animal psychologist’s perspective.

216 Personality Theory (3)
Prerequisite: Nine hours of psychology. Structural and dynamic aspects of the human personality considered in the context of selected theoretical systems.

219 Research Methods (3)
(With laboratory) Prerequisite: Psychology 101. Research methods and analysis techniques used in psychological inquiry. Special emphasis placed on the logic of research design. Includes laboratory study of, and analysis of, selected methods.

220 Psychology of Male-Female Relationships (3)
Prerequisites: Junior standing and Psychology 3. The course is an introduction to the biological and social influences on the interactions of males and females. The findings of biopsychologists and social psychologists from both laboratory and field settings will be reviewed. Topics will include the emotions of love and jealousy, separation, physical attraction, sex roles and hormonal animal social groups.

225 Behavior Modification (3)
Prerequisite: Nine hours of psychology, or consent of instructor. Methods, applications, and ethics of the use of behavior theory (primarily Skinner’s operant conditioning) to the control of human behavior in a variety of settings including mental institutions, grade schools, universities, individual treatment, and communal living.

230 Psychology of Women (3)
Prerequisite: Psychology 3. Evaluation of psychological theories and research regarding physiological, cognitive, and personality sex differences, female problems in adjustment and clinical interventions for women.

235 Community Psychology (3)
Prerequisite: Psychology 3. The analysis of psychological problems in terms of the social and situational forces that produce them. Community psychology analyzes the situational problems in living. Epidemiology of mental illness; group, family, and crisis intervention; mental health-care delivery; program evaluation and demonstration project research; role of psychologist as consultant and change agent; and utilization of non-professional manpower.

245 Abnormal Psychology (3)
Prerequisite: Psychology 3. Introduction to major symptom complexes, theories of etiology and treatment of behavior disorders.

256 Environmental Psychology (3)
Prerequisite: Psychology 160 or Sociology 160. Analysis of environmental influences on behavior and man’s influence, in turn, on the environment. Topics will include a consideration of both individual processes relating to the environment (such as the perception, evaluation, and adaption to the environment) and social processes relating to the environment (such as privacy, territoriality, and crowding).

268 Human Growth and Behavior (3)
Prerequisite: Psychology 3. A survey of development over the life span, with an emphasis on the developmental tasks and hazards of each period.

269 Infancy (3)
Prerequisite: Psychology 3. Principles of infant development. Discussion of bonding; infant capacities and state; perceptual and motor development; environmental and child-rearing factors influencing the rate of development in infants.

270 Child Psychology (3)
Prerequisite: Psychology 3. Principles of biological, behavioral, and personality development from conception to puberty.

271 Adolescent Psychology (3)
Prerequisite: Psychology 3. Principles of biological, behavioral, and personality development from puberty to maturity.

272 Adult Development and Aging (3)
Prerequisite: Psychology 3. Personality, social, and physiological development from the onset of early adulthood through maturity and old age.

280 The Psychology of Death and Dying (3)
Prerequisite: Psychology 3. This course will address the psychological aspects of death and dying for both adults and children. The psychological reactions of terminally ill patients and their families will also be examined, and therapeutic interventions will be discussed.

290 Directed Studies I (1-5)
Prerequisites: Consent of instructor and department chairperson. Directed readings and research. May not be repeated.

296 Field Placement (3)
Prerequisites: Junior standing and fifteen hours of psychology, including Psychology 101, and consent of department. Field placement under faculty supervision in approved agencies. (May be repeated once for credit.)

301 Advanced Statistics and Experimental Design (3)
Prerequisites: Twelve hours of psychology, including Psychology 101. Statistical methods which are particularly useful in psychological research and the design of experiments appropriate to these methods.
305 Cognitive Development (3)
Prerequisites: Junior standing and Psychology 270, or consent of instructor. Data and theory concerned with development of perceptual, language, and symbolic abilities in infants and young children, including discussion of deprivation and enrichment of cognitive development.

306 Social Development (3)
Prerequisites: Junior standing and Psychology 270, or consent of instructor. Data and theory concerned with development of social behavior in infants and young children. Discussion will include the formation and interruption of attachment, the effects of social isolation, sex-role development, identification, and development of moral judgments in children.

310 Motivation Theory (3)
Prerequisites: Junior standing and twelve hours of psychology, or consent of instructor. Survey of current theoretical material in the area of motivation.

313 Advanced Physiological Psychology (3)
Prerequisites: Psychology 211 and junior standing, or consent of instructor. A detailed analysis of the major areas in physiological psychology.

314 Physiological Psychology (3)
(With laboratory). Prerequisites: Psychology 219 and Biology 1 and 3, or consent of instructor. The biological and physiological correlates of behavior. Special emphasis placed on the neural and endocrine system.

318 Industrial Psychology (3)
(Same as Business Administration 318). Prerequisite: Psychology 101 or equivalent, or Business Administration 210. Activities of the applied psychologist. Selection and placement, testing and interviewing, personnel research; morale, motivation, and job satisfaction; leadership skills and styles; creative management; and industrial mental health. Psychology in advertising and marketing.

346 Introduction to Clinical Psychology (3)
Prerequisites: Nine hours of psychology, including Psychology 216 or 245. A conceptual framework for research, description and understanding of clinical phenomena. Assessment, interviewing, the clinical use of tests and psychological approaches to treatment.

349 Human Learning and Memory (3)
Prerequisite: Nine hours of psychology or consent of instructor. A survey of contemporary research, theory, and facts pertaining to the acquisition, retention and forgetting of information.

354 Experimental Personality and Social Psychology (3)
(With laboratory). Prerequisite: Psychology 219. Social psychological processes, both inside and outside of the laboratory, including an emphasis on experimental methods in research.

356 Psychology of Perception (3)

356 Thinking and Cognition (3)
Prerequisites: Nine hours of psychology or consent of instructor. An introduction to modern analytical approaches to the psychology of thinking: problem solving, reasoning, categorizing, judgement, attention and consciousness. Particular attention is paid to the mental structures and operations involved in the encoding, abstraction, representation, transformation and retrieval of knowledge.

357 Psychology of Learning (3)
(With laboratory). Prerequisite: Psychology 219. Major theoretical positions and experimental conditions of learning. Includes laboratory study of selected problems.

361 History and Systems of Psychology (3)
Prerequisite: At least fifteen hours psychology. The course should be taken no sooner than the winter term of the junior year. Historical antecedents of contemporary psychology, including a survey of systems and schools of psychology.

365 Psychological Tests and Measurements (3)
(With laboratory). Prerequisites: Psychology 101 and Psychology 219 or consent of instructor. Survey of psychological testing and principles of test construction and evaluation. Laboratory experience in construction, administration and interpretation of selected tests.

370 Human Factors (3)
Prerequisites: Psychology 3 and 101T. Experimental psychology applied to the work place. Topics include display-control designs, human perceptual limitations, human information processing, environmental stress and design of the work place. The person-machine interface is the focus of this course.

371 Research Methods in Developmental Psychology (3)
Prerequisites: Fifteen hours of psychology, including 101, 219 270 or equivalent. Major theoretical positions and research methods in developmental psychology. Includes a laboratory on selected problems in child psychology.

373 Aging in Contemporary Society (3)
Prerequisite: Twelve hours of psychology, sociology or social work. Presentation of data and theory concerning the process of aging. Discussion will include analysis of the social framework within which aging takes place, as well as physical, intellectual, social and family changes that take place as a function of age.

390 Directed Studies II (1-5)
Prerequisites: Psychology 290 and consent of instructor and department. Directed reading and research. May be repeated for a maximum total of ten hours.

392 Selected Topics in Psychology (1-3)
Prerequisites: Twelve hours of psychology and consent of instructor. A seminar of selected issues and methods in psychology. May be repeated once for credit.

403 Seminar: Psychopathology (3)
A critical examination of the clinical experimental literature on personality disorders.
**Psychology**

**404 Seminar: Introduction to Clinical Assessment I (3)**
Fundamentals of clinical assessment with emphasis on interviewing and the measurement of cognitive functioning.

**405 Seminar: Personality (3)**
Current theories and research in personality with emphasis on normal behavior.

**406 Seminar: Introduction to Clinical Assessment II (3)**
Theory and techniques of personality assessment with emphasis on projective personality tests.

**408 Proseminar in General Psychology (3)**
A survey of the major areas of general psychology.

**409 Proseminar in Experimental Psychology (3)**
A survey of the major topics in experimental psychology.

**410 Current Issues in Clinical Psychology (3)**
A review of current professional issues facing clinical psychologists, including standards and models of practice, ethics, legislative affairs, emerging job markets, and national trends in research and practice.

**411 Seminar: Learning and Cognitive Processes (3)**
Evolution of contemporary approaches to learning, both animal and human, and the higher cognitive processes.

**412 Seminar: Social Psychology (3)**
A review of key areas in contemporary theory and research in social psychology.

**413 Seminar: Developmental Psychology (3)**
Analysis of theories and empirical findings of human and infrahuman studies as related to development.

**414 Seminar: Perception (3)**
Sensory processes, psychophysics, and theories of perception.

**415 Seminar: Physiological and Comparative Psychology (3)**
Analysis and review of specific physiological and behavioral processes common to a wide variety of animals.

**416 Seminar: Animal Behavior and Genetics (3)**
Analysis of the major theoretical positions and empirical findings concerning vertebrate and invertebrate forms.

**417 Proseminar in Human Factors (3)**
Prerequisite: A research methods course, e.g., Psychology 219 or permission of instructor. First portion of course reviews human capabilities and limitations relevant to human-machine systems. Balance of course examines in depth several applications of experimental psychology to the workplace; e.g., environmental stressors, control-display compatibility, information overload, and display codes.

**421 Quantitative Methods I (3)**
A comprehensive study of statistical principles.

**422 Quantitative Methods II (3)**
A continuation of Psychology 421.

**423 Psychological Scaling (3)**
Theory of measurement and the principal methods of psychological scaling.

**424 Factor Analysis (3)**
Principal factor analytic methods and multivariate procedures.

**425 Mathematical Models (3)**
Decision theory and mathematical models used in the behavioral sciences.

**426 Computer Programming (3)**
Fundamentals of digital computer programming and computer applications in the behavioral sciences.

**427 Quantitative Measurement and Evaluation of Psychology I (3)**
Use of quantitative methods in psychology.

**428 Quantitative Measurement and Evaluation of Psychology II (3)**
A continuation of Psychology 427.

**430 Practicum: Introduction to Clinical Assessment I (2)**
Supervised experience in interviewing and the assessment of cognitive functioning.

**431 Practicum: Introduction to Clinical Assessment II (2)**
Prerequisite: Psychology 430. Supervised experience in interviewing and the assessment of cognitive and personality functioning.

**432 Clinical Practice I (3)**
Prerequisite: Consent of instructor. Placement in an affiliated institution, agency or organization under supervision of staff.

**433 Clinical Practice II (3)**
Prerequisites: Psychology 432 and consent of adviser. Placement in an affiliated institution, agency or organization under supervision of staff.

**434 Seminar: Introduction to Psychotherapy I (3)**
Study of the theory, techniques and research data on various types of psychotherapy.

**436 Practicum: Introduction to Psychotherapy II (3)**
Continuation of Psychology 434.

**437 Practicum: Introduction to Psychotherapy I (3)**
Continuation of Psychology 436.

**438 Clinical Team I (1-3)**
Prerequisite: Psychology 437. Advanced training in clinical methods. May be repeated for credit.

**441 Seminar: Personality and Behavior Change (1)**
Examination of major approaches and principles involved in personality change and behavior modification.

**446 Seminar: Community Psychology (3)**
Critical examination of principles and application of preventive intervention in social systems and community mental-health programming.

**448 Principles of Group Psychotherapy (3)**
Prerequisite: Psychology 432 or 434. Investigation of models and principles of group intervention techniques.

**447 Topics in Social Psychology (3)**
Focused and indepth analysis of contemporary problems in social psychology. One or more specific topic areas will be covered in a given semester. May be taken twice for credit.

**450 Clinical Internship I (1)**
Prerequisites: Consent of adviser. Supervised training in an affiliated agency or organization following completion of two years of course work.

**451 Clinical Internship II (1)**
Prerequisites: Psychology 450 and consent of adviser. Supervised training in an affiliated agency or organization following completion of two years of course work.

**461 Seminar: Learning (3)**
A critical examination of contemporary problems in learning.
Psychology

462 Seminar: Motivation (3)
A critical examination of contemporary problems in motivation.

464 Seminar: Perception (3)
A critical examination of contemporary problems in perception.

465 Seminar: Physiological Psychology (3)
A critical examination of contemporary problems in physiological psychology.

466 Seminar: Developmental Psychology (3)
A critical examination of contemporary problems in developmental psychology.

467 Seminar: Conceptual Systems (3)
A critical examination of the evolution of contemporary theory in psychology.

468 Seminar: Cognitive Processes (3)
A critical examination of contemporary problems in cognitive processes.

469 Seminar: Animal Behavior (3)
A critical examination of contemporary problems in animal behavior.

470 Seminar: Behavior Genetics (2)
A critical examination of contemporary problems in behavior genetics.

471 Seminar: Comparative Psychology (3)
A critical examination of contemporary problems in comparative psychology.

472 Special Topics in Psychology (3)
A seminar of selected issues and methods in psychology.

475 Introduction to Evaluation Research Methods (3)
(Same as Sociology 476). Prerequisite: At least one course in research design and statistics (e.g. Sociology 130 or Psychology 219). A comparative study of research strategies with regard to data sources, data collection and modes of analysis that are appropriate for program evaluation research. Attention is given to observational, survey, and quasi-experimental methodological issues.

477 Seminar in Clinical Child Psychology (3)
Introduction to principles, theory, and methods of study in the field of clinical child psychology.

480 Research Methods in Clinical Psychology (3)
Prerequisite: Psychology 421 or equivalent. An overview of research methods that are appropriate for clinical and other non-laboratory settings.

481 Principles of Scientific Inquiry (3)
Problems in the logic of inquiry and understanding in science.

482 Ethics for Psychologists (1)
A study of ethical standards as they relate to teaching, research, and professional practice.

483 Directed Research (1-10)

484 Directed Readings (1-10)

485 Research Team (1)
Group supervision of advanced research, leading to the speciality exam and dissertation proposal.

491 M.A. Thesis Research (1-10)

492 Ph.D. Thesis Research (1-10)

Social Work

The following courses fulfill the Social Sciences [SS] breadth of study requirements: 100, 200, 210, 220, 280, 290, 330, 350, 390.

100 Introduction to Social Service (3)
Prerequisite: Sociology 10 or Psychology 3. Examination of the network of social programs and services presently operating in modern urban communities and the various roles and functions performed by the helping professions. Students will be introduced to basic values, skills, and training involved in a helping relationship, as well as the characteristics of both clients seeking help and of professionals and paraprofessionals engaged in the helping process.

200 Social Welfare as a Social Institution (4)
Prerequisite: Social Work 100 or consent of instructor. A study of the: 1) development of social welfare services and the philosophy underlying the present practices and systems, 2) present social welfare programs with particular emphasis given to public income-maintenance provisions, 3) special welfare needs of the black, elderly, women, Indian and Hispanic Americans, and 4) the development of social work as a profession. The laboratory period will be used for field trips to social agencies. This course may be taken by non-social work majors without the lab.

210 Interventive Strategies in Social Work Practice I (3)
Prerequisites: Social Work 200, Sociology 160, Psychology 160 or permission of instructor. A presentation of basic knowledge, skills and theory used for entry-level professional practice, such as problem assessment, interviewing skills, crisis intervention and referral procedures. The course objectives will also be to teach students how to help clients negotiate systems effectively, use resources, services and opportunities.

220 Social Issues and Social Policy Development (3)
Prerequisites: Social Work 200 and Political Science 11, Economics 40 or consent of the instructor. The identification of issues concerning governmental provisions to meet contemporary social needs, with analysis of the principles underlying alternative solutions. A study of the processes by which citizen opinions and public policies evolve and are implemented in areas such as public housing, employment, social insurance, family and child welfare, and public health.
Social Work

280 Human Behavior in the Social Environment (3)
Prerequisite: Social Work 200 or permission of instructor. This course will focus on the normative stages in the life span, and specifically, how human development is affected by the physical environment and social status characteristics. Empirical information and theoretical views on human development will be included. Human development will be viewed as a complex interaction of individual developmental stages with family, social, and community systems.

290 Selected Topics in Social Work Practice (1-3)
Prerequisite: Social Work 210 or 220 or consent of instructor. A variable credit course examining special topics in social work practice. Relative theories, strategies, and skills will be presented for topics selected. Course may be taken more than once for credit as different topics are offered.

300a Interventive Strategies in Social Work Practice II (3)
Prerequisites: Social Work 210 and 220. This course continues the presentation of basic knowledge and practice skills for entry-level professional practice begun in Social Work 210. It includes problem assessment skills directed toward assisting the client to develop more effective coping and problem-solving abilities, and administrative skills that would promote the effective use of the available resources for the client. Course 300a will be taken concurrently with first semester practicum (320a) so that examples from practice will help link theory and practice.

300b Interventive Strategies in Social Work Practice III (3)
Prerequisite: Social Work 300a. Continuation of basic practice skills with emphasis given to analysis and intervention at the organizational and community levels. Includes assessment of available services, organization of client groups, efforts to modify resources for a client group unable to intervene effectively on their own behalf, and will help the practitioner evaluate the impact of intervention. Social Work 300b will be taken concurrently with the second semester of practicum (320b) so that examples from practice can be used to help link theory and practice.

320a Social Work Practicum in Supervised Field Experience and Operational Research (4-6)
Prerequisites: Social Work 210 (300a must be taken concurrently). Participation as a staff member in a social service agency. Students work in agencies the equivalent of twenty hours per week. Emphasis is to familiarize the student with agency operations in social service settings. Content in course Social Work 300a will be related to the student’s experiences in practice (320a). Selection of agency is based on student’s learning needs.

320b Social Work Practicum in Supervised Field Experience and Operational Research (4-6)
Prerequisite: Social Work 210, 300a, 320a, and consent of instructor. Must be taken concurrently with 300b. This is determined by the student’s learning needs. Content in Social Work 300b is related to the field experience of students in Social Work 320b and includes emphasis on administrative and community practice.

330 Social Work Practice With the Aged (3)
Prerequisite: Social Work 210 or 220 or consent of instructor. An examination of the field of geriatric social work practice including skills training, theory, and issues relative to this field.

350 Special Study (1-10)
Prerequisite: Consent of instructor. Independent study through advanced readings in method and philosophy on a topic of particular interest, or field research in an agency.

390 Seminar in Social Work Issues (1-3)
Prerequisite: Consent of instructor. A variable credit course examining current and future considerations in designing and implementing social work service and delivery arrangements. Issues will be selected according to interests of the class. Course may be taken more than once for credit as different topics are offered.

Sociology

10 Introduction to Sociology (3)
An introduction to sociological approaches to human behavior including types of social organizations, patterns of social interaction, and social influences on individual conduct.

30 Interpretation of Social Data (3)
Prerequisite: Sociology 10. An introduction to the understanding of sociological research. Emphasis will be placed on how research is conducted and on how to read and interpret data analysis. This will be done in a non-technical fashion. Sociology majors cannot receive sociology credit for this course.

33H Honors Seminar in Sociology (3)
Prerequisite: Acceptance in the Sophomore Honors Program. Intellectual and philosophic premises upon which sociology rests are examined, along with their implications for some of the discipline’s problems and controversies. Relationships between sociology and social life are explored with a focus on contemporary social issues. Course satisfies prerequisites for more advanced sociology courses.

40 Urban Problems (1-3)
Examination of a specific topic of relevance for understanding urban problems. May be taken more than once for credit provided the topic of the course is different each time.

75 Crime and Punishment (3)
(Same as Administration of Justice and Psychology 75). An introduction to sociological and psychological explanations of crime and punishment. An examination of private and governmental responses to the threats of crime and delinquent behavior.

90 Freshman Seminar (3)
Prerequisites: Freshman standing and consent of instructor. Topics to be announced. Weekly seminars supplemented by individual conferences. Limited to twelve students.
Sociology

99 The City (3)
(Same as Administration of Justice, Political Science and Psychology 99). An interdisciplinary course. Consideration of economic factors, uses of the city, historical developments in urbanization, problems of the inner city, suburbia and the metropolitan area, ethnic groups, stratification, and psychological implications of urban living. This course is for freshmen and sophomores. It is open to juniors and seniors with the consent of instructor.

105 Group Prejudice and Minority Identity (3)
(Same as Psychology 105). Prerequisite: Psychology 3 or Sociology 10. The psychological and sociological analysis of determinants of identity, formation and transformation among minority groups.

106 Development of Social Thought (3)
Prerequisite: Sociology 10. The antecedents of sociological theory, as traced through social thought traditions until the time of Comte.

110 Sociological Theory (3)
Prerequisite: Sociology 10. The nature of sociological theory. An investigation of theory from Comte through contemporary developments. Contributions made by sociologists in related disciplines.

120 Quantitative Techniques in Sociology (4)
(With laboratory). Prerequisites: Sociology 10 and satisfaction of mathematics proficiency requirements. Issues and techniques of statistical analyses relevant to quantitative sociological research e.g. elementary probability, measurements of central tendency and dispersion, measures of relationships including linear regression and correlation, inferential statistics including the chi-square test.

130 Research Methods (4)
Prerequisites: Sociology 10 and 120 or 30. Research planning, the collection, analysis and presentation of data. Course includes practical experience in the conduct of a research project.

160 Social Psychology (3)
(Same as Psychology 160). Prerequisite: Sociology 10 or Psychology 3. Study of the interaction between the individual and his social environment. Examination of basic principles, concepts, and methods.

200 Sociology of Deviant Behavior (3)
Prerequisite: Three hours of sociology or anthropology. Theories of the nature, causes and control of deviance as a generic phenomenon. Application of theories to specific types, such as mental disorder, delinquency, drug abuse, suicide and unconventional sexual behavior.

202 Urban Sociology (3)
Prerequisite: Sociology 10 or consent of instructor. Urbanization as a world phenomenon; urban social and ecological structures and changing life styles; the decision-making processes in urban problem-solving.

205 Introduction to Models in the Social Sciences (3)
(Same as Anthropology, Political Science and Interdisciplinary 205). Prerequisite: Sociology 10, Anthropology 11, Political Science 11, or consent of instructor. The course will focus on explaining social and cultural behavior. Elementary models of decision-making, exchange, and adaptation will be covered. Computer processing of data to test empirical hypotheses will be introduced.

214 Juvenile Delinquency and Youth Crimes (3)
Prerequisite: Three hours of 100-level sociology. A theoretical and research-oriented approach to delinquency and youth crime, including types, trends, causation, correction and prevention.

218 Social Choice in Political-Economic Systems (3)
(Same as Economics and Political Science 218). Prerequisites: Two courses in economics, political science, or sociology. A study of the mechanisms of social choice from the standpoint of individual and political party maximization of personal objectives. This area draws on work done by sociologists, political scientists, and economists.

224 Sociology of the Family (3)
Prerequisite: Sociology 10. Universal and variable aspects of family organization, family role systems, changes in family social structure.

240 Selected Topics in Microsociology (1-3)
Prerequisite: Sociology 10 or consent of instructor. Examination of a specific sociological topic that focuses on small groups and interpersonal relations. May be taken more than once for credit provided the topic of the course is different each time.

241 Selected Topics in Macrosociology (1-3)
Prerequisite: Sociology 10 or consent of instructor. Examination of a specific topic that focuses on large-scale social systems and the structural relationships among social organizations and institutions. May be taken more than once for credit provided the topic of the course is different each time.

256 Sociology of Education (3)
Prerequisite: Sociology 10. Education as a social institution, its role as an agent of socialization and its effect upon the processes of social change and social mobility. The relationship between the school and its community.

260 Social Interaction in Small Groups (3)
Prerequisite: Sociology 160 or Psychology 160. Analysis of human interaction with emphases on group problem-solving, group structure and group process.

264 The Sociology of Religion (3)
Prerequisite: Sociology 10. Religion as a universal phenomenon. The effect of religion upon the individual and society. The organization of religious enterprises.

270 Socialization (3)
Prerequisite: Sociology 10. Analysis of the structural and social psychological aspects of roles and the self as a product of social interaction.

278 Sociology of Law (3)
Prerequisite: Sociology 10. A study of law and society with emphasis on the sociological analysis of specific problems of legal doctrines and legal institutions. The law is examined as an instrument of social control through study of the courts, the legal profession, the police, and various social institutions. Consideration is given to law as an instrument of social change.

286 The Arts in Society (3)
(Same as Anthropology 286). Prerequisite: Sociology 10 or Anthropology 11. The relationship of artists, writers, and musicians, their traditions and modes of artistic expression to variant social structures and institutions, and social pressures and rewards.
Sociology

290a, 290b, 290c Undergraduate Seminar in Sociological Issues (3)
Prerequisites: Sociology 10 and consent of instructor. Consideration of an issue or area of the instructor's choice, not already covered by other undergraduate courses. May be taken up to three times for nine hours credit, provided the subject matter is different each time the seminar is taken.

298 Practicum in Field and Laboratory Research (1-3)
Prerequisite: Sociology 130. Intensive field or laboratory research to be taken subsequent to or concurrent with a specific substantive course. May be taken twice for credit.

Note: Any 300-level course taken for major elective credit requires prior completion of two of the following: Sociology 110, 120, or 130.

304 Survey Research Practicum (3)
(Same as Economics and Political Science 304). Prerequisites: Junior standing and consent of instructor. The execution of a sample survey, including establishing study objectives, sampling, questionnaire construction, interviewing, coding, data analysis, and presentation of results.

310 Selected Topics in Sociological Theory (1-3)
Prerequisite: Sociology 110. Focused examination of selected issues, the contributions of individual theorists, and methodological implications in the study of sociological theory. May be taken twice for credit.

312 Social Stratification and Inequality (3)
Prerequisites: Sociology 10 and junior standing or consent of instructor. Theories of social stratification and inequality through an examination of current research changes in the occupational and hierarchical structure emphasizing mobility in contemporary society.

314 Social Change (3)
Prerequisites: Sociology 10 and junior standing, or consent of instructor. Theories of social change applied to the analysis of small and large social systems, including the planning of change and projecting of alternative futures.

316 Power, Ideology and Social Movements (3)
Prerequisite: Social Work 220 or Sociology 234 or 314. Effect of events and social processes on thought and action in the twentieth century. Social functions of ideologies as expressed in movements and formal and informal organizations seeking social change.

326 Criminology (3)
Prerequisites: Sociology 200 and 214 or six hours of sociology or anthropology. Crime as a social phenomenon. Theory and research concerning the causes of crime.

328 Institutions and the Control of Crime and Delinquency (3)
Prerequisite: Sociology 214 or 326. Institutional responses to crime and delinquency. Theories and programs of rehabilitation and punishment. Organizational conditions affecting behavior of correctional personnel.

330 Field Research in Criminology (2-4)
Prerequisites: Sociology 130 and 214 or 326 or their equivalent. Students will participate in individual or group research projects involving systematic data collection and sociological analysis concerning the causation or societal reaction to crime, delinquency, or related forms of deviance. One option available to students will be an opportunity to study organizations dealing with juvenile or adult offenders.

336 Bureaucracy and the Social Order (3)
Prerequisites: Sociology 10 and junior standing or consent of instructor. Sociological aspects of types of formal organizations; the norms and behavior of the formal and informal structures in organizations; interrelations between complex organizations and the larger society.

342 Population Dynamics (3)
Prerequisites: Sociology 10 and junior standing or consent of instructor. Sociological aspects of theories relating man and ecological environment. Selected topics including fertility and population change, community planning and urbanism, and demographic aspects of Western and non-Western cultures.

344 Problems of Urban Community (3)
Prerequisites: Sociology 10 and junior standing or consent of instructor. The urban community as an area of social action and problem-solving, with emphasis on the sociological aspects of urban problems.

346 Demographic Techniques (3)
Prerequisite: Sociology 120 or equivalent. This course is designed to familiarize students with the research techniques used in population analysis. Topics included are: appraisal of census and vital data; measurement of mortality, fertility, and migration; standardization; construction of life tables; and population projection.

350 Special Study (1-10)
Prerequisite: Consent of instructor. Independent study through readings, reports, and field work.

352 Advanced Principles of Sociology (3)
Prerequisites: Sociology 10 and junior standing or consent of instructor. Analysis of the main concepts and principles of sociology and survey of sociology as a social science.

354 Occupations and Their Work Settings (3)
Prerequisites: Sociology 10 and junior standing or consent of instructor. The social nature of work; the work plant as a social system; occupational role behaviors, including deviant occupations; the socialization of the worker; determinants of occupational behavior in America and other societies; social problems of work; and the impact of community on work behavior.

360 Sociology of Minority Groups (3)
Prerequisites: Sociology 10 and junior standing or consent of instructor. The study of dominant-subordinate group relations. Religion, ethnicity and race as factors affecting conflict, competition, accommodation and assimilation.

370 Selected Topics in Techniques of Sociological Research (1-3)
Prerequisite: Sociology 10 or consent of the instructor. The study of a specific research technique used in sociological analyses. May be taken more than once for credit provided the course topic is different each time.

377 Personality and Culture (3)
(Same as Anthropology 377). Prerequisites: Sociology 10 and junior standing or consent of instructor. Analysis of behavior from the standpoint of interaction between psychological, sociological, and cultural systems.

378 Selected Topics in Social Psychology (1-3)
Prerequisite: Psychology or Sociology 160 or consent of instructor. Focused examination of selected issues, concepts and methods in the study of social interaction. May be taken twice for credit.

380 Selected Topics in Social Policy (1-3)
Prerequisite: Sociology 10 or consent of instructor. Examination of a specific sociological topic of current relevance in the community. May be taken more than once for credit provided the course topic is different each time.
Sociology

394 Methods in Theory Construction (3)
Prerequisite: Sociology 110 or consent of instructor. An in-depth comparison of selected techniques of theory building and testing. Verbal and/or mathematical formalization of selected sociological examples of theory will be the central activity.

420 Proseminar in Sociology (3)
Required of all entering graduate students in the fall semester of the first year of residency. An overview of the field of contemporary sociology, with emphasis on the major theories, issues, research approaches, and ethical problems in the field today, and an introduction to theory construction, measurement and design strategies.

422 Advanced Quantitative Techniques (3)
Prerequisite: Sociology 120 or consent of instructor. A study of advanced quantitative analysis of sociological data, focusing on problems of multivariate analysis, sampling theory and techniques, and the use of electronic data processing in approaching these problems.

424 Research Practicum (3)
Prerequisites: Sociology 420 and consent of instructor. Involvement of students in an individual or group project culminating in a report, in order to provide firsthand experience in integration of theoretical concerns, methodological principles and appropriate research techniques in an empirical study, the subject of which shall be determined in collaboration with the instructor.

432 Advanced Methodology (3)
Prerequisites: Sociology 130 or consent of instructor. A study of methodological problems on an advanced level, focusing on contemporary issues in the processes of inquiry with particular emphasis on the applicability of different modes of research to various types of theoretical problems. Consideration of ethical problems in social research.

434 Sociological Reporting (3)
Prerequisites: Sociology 423, 424 and 432. As part of the M.A. degree exit requirement, the seminar offers directed practice in the interpretation and reporting of sociological data, in a wide range of styles including those appropriate for research reports, journal articles, policy papers, nontechnical magazines, books and monographs, as well as oral reports to diverse consumers. Ethical dimensions of interpretation and dissemination are explored.

440 Seminar in Urban Sociology (3)
Prerequisites: Nine hours of undergraduate course work in sociology and consent of instructor.

450 Seminar in Social Psychology (3)
Prerequisites: Nine hours of undergraduate course work in sociology and consent of instructor.

452 Sociology of Criminal Law (3)
Prerequisites: Twelve hours of undergraduate course work in sociology and consent of instructor. A survey of research on the formulation, enforcement, and administration of criminal law.

460 Seminar in Deviant Behavior (3)
Prerequisites: Nine hours of undergraduate course work in sociology and consent of instructor.

462 Social Policy and Community Planning (3)
Prerequisite: Consent of instructor. Analysis of the formulation of policy as a social process with concentration on political as well as technical-rational elements. Relation of social policy formation to planning at the community level, and analysis of the elements and dynamics of community planning. Analysis of and exposure to planning agencies in the St. Louis metropolitan area.

468 Theory and Practice of Community Conflict Intervention (3)
Prerequisite: Consent of instructor. Analysis and simulated practice in intervention in community disputes, with major emphasis on development of intervention concepts and skills, among them policy formation, power, racism, change, mediation, conciliation, arbitration and advocacy. Development and application of a typology of intervention roles.

470 Seminar in Sociological Issues (1-3)
Prerequisite: Nine hours of undergraduate course work in sociology and consent of instructor. Consideration of an issue or area of the instructor's choice, not already covered by one of the other 400-level courses. May be taken up to three times for up to nine hours credit, provided the subject matter is different each time the seminar is taken.

475 Introduction to Evaluation Research Methods (3)
(Same as Psychology 475). Prerequisite: At least one course in research design and statistics. A comparative study of research strategies with regard to data sources, data collection, and modes of analysis that are appropriate for program evaluation research. Attention is given to observational, survey, and quasi-experimental methodologies.

476 Research Practicum in Evaluation Research Methods (3)
Prerequisite: Sociology 475 and consent of instructor. Instruction in, and supervision of, research design and data collection for evaluation of social-deviance, action, program research report. Concurrent with on-site participant observation.

480 Individual Study (3)
Prerequisite: Consent of adviser and instructor. Designed to give the student the opportunity to pursue particular interests within the discipline and/or to study areas not currently covered by formal courses. Guided by faculty with appropriate interests. May be taken only twice.

490 Supervised Research (1-10)
Prerequisites: Sociology 322, 332, 492 and consent of instructor. Individual supervision of research leading to the preparation of a thesis, research paper, or publishable article, in which the student demonstrates skills in the discipline of sociology.

492 Advanced Sociological Theory (3)
Prerequisite: Sociology 110 or consent of instructor. Recent and current developments in sociological theory in light of its tradition and methodological issues. The state of modern theory with regard to specific conceptual, substantive, and methodological concerns.
Speech Communication

Prerequisites may be waived by consent of the department.

The following courses fulfill the Humanities (H) breadth of study requirements: 70, 80, 160, 260, 261, 271, 272, 281, 282, 322, 340, 341, 342, 343.

The following courses fulfill the Social Sciences (SS) breadth of study requirements: 135, 230, 231, 243, 331, 332, 350.

21 Fundamentals of Acting (3)
Oral and physical communication of a role through improvisations, exercises, and scene work. Emphasis on modern representational method with some attention given to other styles.

23 Play Production (3)
An introduction to the fundamental techniques of play production, including theatre organization, play selection, interpretation, casting, rehearsal procedure, directorial techniques, technical elements, etc. The course is terminal for those students who do not desire to pursue formal study in play production and is introductory for those students who desire to continue a more detailed study of the elements of play production. One hour of laboratory required.

30 Interpersonal Communication I (3)
Prerequisite: Consent of instructor prior to enrolling in course. Development of basic one-to-one communication skills. Includes self-awareness, listening, nonverbal communication, feedback, role-playing, receiver awareness.

40 Introduction to Public Speaking (3)
Theories and techniques of organization, evidence, argumentation, persuasion, and delivery in public speaking.

50 Introduction to Mass Media (3)
Introduction to oral, print, and electronic media of communication. Emphasis on history, theory, and criticism of the mass media as cultural institutions.

60 Voice and Diction (3)
A course designed to aid the student in developing clear and distinct enunciation and in using correct pronunciation as requisite in mass media communication, public address, theatre, and oral interpretation.

70 Introduction to Cinema (3)
An introduction to the history, rhetoric, and aesthetics of film. Film theory and criticism will be studied as well as major genres, authors, and artists.

80 Introduction to the Theatre (3)
A study of theatre as an art form, emphasizing the audience's appreciation of the art of the playwright, actor, director, and designer. Study of major periods, genres, and plays from classical to modern times.

110 Introduction to Radio and Television Broadcasting (3)
An introduction to broadcasting, including the areas of history, government regulations, station operation, and program development.

114 Radio Production I (3)
Prerequisite: Speech 110. Theory and practice in the creation of radio programs. Laboratory experience included.

118 Radio and Television Announcing (3)
Prerequisite: Speech 110; Speech 60, 114, and 210 recommended. Training in radio and television studio procedures. Production and criticism of lab programs, including news, continuity, interviews, and oral improvisation. Classroom meetings at the radio lab and the television lab, plus hours at the University radio station to be arranged.

125 Stagecraft (4)
A survey of the theory and practice of stage scenery methods. Practical experiences in construction, rigging, and stage lighting and painting techniques, as well as supervised work in all other phases of theatrical production will be emphasized. Two hours of lecture and four hours of laboratory.

126 Costuming for the Theatre (3)
This course covers the theory and practice of costume design and construction. It includes an overview of the history of clothing and fashion and its effect on the actor playing period drama. Lab required.

128 Stage Lighting (3)
Prerequisite: Speech 23 or consent of instructor. An introduction to the theory and practice of stage lighting. The course will include a variety of established theories of stage lighting as well as practical training in lighting instrumentation and control systems.

130 Interpersonal Communication II (3)
Prerequisite: Speech 30. Interpersonal communication in relationships within group contexts, such as family, classroom, and business. Various theories and diagnostic approaches to interpersonal communication. Extensive laboratory sessions utilizing individual and group exercises.

135 Communication Theory (3)
Survey of elements and processes critical to human communication behavior. Comparison of influential communication theories.

140 Advanced Public Speaking (3)
Prerequisite: Speech 40. Application of advanced public-speaking skills, with emphasis on special occasion speaking situations.

141 Business and Professional Speaking (3)
Prerequisite: Speech 40. Application of communication skills in the business and professional environment with emphasis on presentational speaking, organizational constructs germane to professional careers, and uses of various media.

143 Parliamentary Procedure (2)
Prerequisite: Speech 40. Study and practice in rules of procedure by which self-governing groups transact business.

160 Fundamentals of Oral Interpretation (3)
Prerequisite: Speech 40 or consent of instructor. An introduction to the analysis of literature and to the principles of its oral presentation by the interpreter.

199 Special Projects in Communication (1-4)
Prerequisite: Consent of instructor. (Variable credit; repeatable to a maximum of four hours). Independent study in one of the following areas in speech communication: communication theory and rhetoric, theatre, or radio-TV-film. Conferences adjusted to needs of the student.

210 Television Production I (3)
Prerequisites: Speech 110 and consent of instructor. A study of the basic theories and practices of television production. The areas of producing and directing will be studied. The class will provide the student with practical experience in camera operation, switching, lighting, and mixing. Lab arranged. May not be taken pass/fail.

212 Writing for Radio and Television (3)
Prerequisite: Speech 110 or permission of instructor. Fundamentals of writing for the broadcast media. Includes format development and writing of news, public affairs, drama, and commercials.

215 Radio Production II (3)
Prerequisite: Speech 114. Study of advanced theories and techniques of audio production, building on principles and skills learned in Radio Production I. Exploration of complex program formats such as radio drama and special problems such as those encountered in recording live music.
Speech Communication

216 Radio News (3)  
Prerequisite: Speech 114. Theory and laboratory practice in the gathering, writing, and delivery of news through radio. Hours at the University radio station to be arranged.

217 Script Writing for Business and Industry (3)  
Prerequisites: Speech 210 and 212. Script writing for training, motivation, education, and other applications. Students will identify and discuss communication problems and solutions in live, slide/tape, video, and film script formats.

219 Promotion, Publicity and Advertising in Broadcasting (3)  
Prerequisite: Speech 110. Introduction to theory and practice in the planning, execution, and evaluation of persuasive campaigns involving radio and television. Emphasis on concept development and production elements. Discussion of broadcast ethics.

225 Designing for the Theatre (3)  
An introduction to the theories and practices of scenic and costume design for the theatre. The course will survey the evolution of theatrical designs through different cultures, dramatic genres, and theatre architecture.

230 Small Group Communication (3)  
Prerequisite: Speech 40. Development of communication skills needed in small group decision-making. Application of these skills to contemporary problems.

231 Communication in the Organization (3)  
Prerequisite: Junior standing or consent of instructor. Course integrates communication theories applicable to the structure and function of organizations. The effect of communication variables on departmental interface, member satisfaction and motivation, leadership and subordinate styles, and perception of the organization by the external environment.

237 Male/Female Communication (3)  
This course explores the influence of gender upon contemporary American communication behavior. Topics include semantic and syntactic variation in male and female speech, sex-role development as process and product of speech communication, analysis of communication patterns and barriers within gender groups. Mass, public, interpersonal, and dyadic communication contexts are considered.

240 Persuasive Communication (3)  
Prerequisite: Speech 40. A study of persuasive communication, including theories, techniques, forms, functions, applications, potential, and limitations for the individual and organizations. Insights from both classical rhetoric and contemporary communication theory.

241 Argumentation and Debate (3)  
Prerequisite: Speech 40 or consent of instructor. Principles of argumentation and debate with practice in preparing briefs and in delivering spoken arguments in formal debate. Emphasis on analysis of issues, logical reasoning, and audience analysis.

242 Theory and Practice of Interviewing (3)  
Prerequisite: Speech 40. The application of modern communication theory to interview situations. This theory and practice course is designed to aid the student in mastering specific skills appropriate to specialized settings.

243 Communication in American Politics (3)  
Prerequisite: Speech 40. Analysis of audience response and media preferences in political campaigns, campaign speeches, candidates’ uses of television and other mass media, and measuring effectiveness of campaign communications.

260 Advanced Oral Interpretation (3)  
Prerequisite: Speech 160. Advanced practice in analyzing and performing oral interpretation of literary forms.

261 Readers Theatre (3)  
Prerequisite: Speech 160. Study of the oral interpretation of literature as a theatrical experience. Study of theory, techniques, and performance.

262 Storytelling Workshop (1)  
Prerequisite: Junior standing or consent of instructor. This course gives a brief overview of the history of storytelling, types of tales, and appropriate uses for storytelling. The primary emphasis of the course is in developing storytelling skills through preparation, performances, and evaluation.

271 Film History I (3)  
Prerequisite: Speech 70. History of world cinema to World War II.

272 Film History II (3)  
Prerequisite: Speech 70; (Speech 271 recommended). History of world cinema since World War II.

281 Theatre History I (3)  
Prerequisite: Speech 80. The development of the theatre from its ritual beginnings to 1700.

282 Theatre History II (3)  
Prerequisite: Speech 80. The development of the theatre from 1700 to the present.

310 Television Production II (3)  

311 Broadcast Management (3)  
Prerequisite: Speech 110. Introduction to theories of management, with application to radio and television station operations. Discussion of economic, legal, and ethical problems and issues.

316 Television News (3)  
Prerequisite: Speech 210. Theory and laboratory practice in the gathering, writing, and delivery of news through television. Lab arranged. May not be taken pass/fail.

321 Advanced Acting (3)  
Prerequisite: Speech 21. Laboratory-discussion course emphasizing role analysis, scene study, characterization, and ensemble acting.

322 Directing for the Theatre (3)  
Prerequisite: Speech 21 or consent of instructor. A survey of the theories and practices of theatrical directing. The course will explore the director’s role in the theatre from script analysis and production planning to the performance of laboratory scenes.

331 Research Methods in Speech Communication (3)  
Prerequisite: Speech 135. Introductory study of research designs and methodologies employed in speech communication, including historical, critical, and empirical methods. Review of research reports which exemplify these methods.

332 Intercultural Communication (3)  
Prerequisite: Junior standing or consent of the instructor. Study of culture as a variable in both interpersonal and collective communication situations. Emphasis upon opportunities and problems arising from similarities or differences in communication patterns, processes, and codes among various cultural groups.
Speech Communication

340 Rhetorical Criticism (3)
Prerequisite: Speech 40. The application of rhetorical theories to the analytical and critical explanation of persuasive messages.

341 History of Public Address I (3)
Prerequisite: Speech 40. Survey of history and theories of persuasion and public address from ancient times to 1700.

342 History of Public Address II (3)
Prerequisite: Speech 40. Survey of history and theories of persuasion and public address from 1700 to present.

343 The Rhetoric of Protest (3)
Prerequisite: Speech 40. An examination of the persuasive messages and tactics used in social movements and their campaigns.

345 Mass Media and Society (3)
Prerequisite: Speech 50 or 110. Examination of problems and controversies surrounding mass communication processes and institutions.

346 Media Law and Regulation (3)
Prerequisite: Speech 50 or 110. Discussion of laws affecting the mass media. Exploration of problems and issues in legal regulation of media content, ownership, access, and accountability. Discussion of industry self-regulation and the influence of citizens' organizations.

392 Administration of Cocurricular Speech Activities (3)
Prerequisites: Junior standing and consent of instructor. A survey of the skills required to administer the various cocurricular activities associated with teachers of speech in the secondary schools, such as: operation of debate tournaments, public speaking competitions, theatre production, mass media centers, etc.

398 Seminar in Special Topics in Speech Communication (1-3)
Prerequisite: Consent of instructor. In-depth treatment of topics not covered in other advanced speech courses.

399 Internship in Communication (3)
Prerequisite: Consent of instructor. (Repeatable to a maximum of six hours.) Supervised practicum in one of the following areas of speech communication: communication theory and rhetoric, theatre, or radio-TV-film. Speech 399 may not be counted toward the minimum number of hours in speech required of majors.
Interdisciplinary Courses

In addition to regular departmental offerings, the College of Arts and Sciences also offers several interdisciplinary courses, listed below. These courses bring together the resources of two or more disciplines to focus on topics which benefit from being studied from the point of view of more than one discipline. In many cases faculty from several departments teach an interdisciplinary course together, giving students the opportunity to experience faculty dialogue on issues in a cross-disciplinary fashion. Most interdisciplinary courses have no prerequisites. Freshman and sophomore students are especially encouraged to take these courses.

The following courses fulfill the Social Sciences [SS] breadth of study requirements: 20, 50, 75, 99, 150*, 205, 269*, 287.

*These courses may fulfill the Humanities [H] or Social Sciences [SS] breadth of study requirements.

The following course fulfills the Sciences and Mathematics [SM] breadth of study requirements: 33.

20 Foundations of Law: An Introduction to Legal Studies (3)
As a broad liberal-arts approach to the study of law, this course is designed to familiarize students with legal ideas, legal reasoning, and legal processes. It also provides comparative and historical perspectives on law that will help explain legal diversity and legal change. Finally, it offers opportunities to explore some of the persistent issues in law and legal theory: for example, issues about the sources of law, the responsibilities of the legal profession, or the relative merits of the adversary system.

33 Science: Nature and Its Practice (3)
Prerequisite: Candidacy in Sophomore Honors Program. Since the seventeenth century, science has been characterized by the dramatic interplay of empirical data and theoretical ideas. Consequences of this interplay are the evolution of scientific concepts and the development of theoretical structure. In addition, the human element has played a vital role in the evolutionary process: scientists bring to their work preconceptions that can have a determining influence on the form that theoretical ideas ultimately take and on the resulting perception of physical reality.

60 Women (3)
An interdisciplinary study of the role of women in the family and in society. Areas of coverage will include the biological, psychological, anthropological, economic, social, political-legal, and historical.

65 Photography and Society (3)
A study of photography as a means of information and expression, as an influence on culture, and as a reflection of concepts in politics, science, morality, and art.

70 Introduction to the Study of Religion (3)
The nature of religion and approaches to its study: Examples will be drawn from representative Western and non-Western traditions.

75 Crime and Punishment (3)
(Same as Administration of Justice 75, Psychology 75, and Sociology 75). An introduction to sociological and psychological explanations of crime and punishment. An examination of private and governmental responses to the threats of crime and delinquent behavior.

99 The City (3)
(Same as Administration of Justice 99, Political Science 99, Psychology 99, and Sociology 99). An interdisciplinary course. Consideration of economic factors, urban institutions, historical developments in urbanization, problems of the inner city, suburbia and the metropolitan area, ethnic groups, stratification, and psychological implications of urban living. This course is primarily for freshmen and sophomores. It is open to juniors and seniors with the instructor's permission.

150 Topics in Women's Studies (3)
Prerequisite: Interdisciplinary 50 or another Women's Studies course. Introduction to current questions and methodology in women's studies, drawing on work in the humanities, social sciences and natural sciences. Emphasis will be placed on acquainting students with different interdisciplinary approaches taken to women's studies.

205 Introduction to Models in the Social Sciences (3)
(Same as Sociology 205, Anthropology 205, and Political Science 205). Prerequisite: Sociology 10, Anthropology 11, Political Science 11, or consent of instructor. The course will focus on explaining social and cultural behavior. Elementary models of decision making, exchange, and adaptation will be covered. Computer processing of data to test empirical hypotheses will be introduced.

287 The World Food Problem (3)
(Same as Economics 287). Prerequisite: Economics 40 or 51, or consent of instructor. An introduction to the world's food problem and an examination of the economic and political problems in distributing basic food-stuffs among the earth's people.

365 Seminar in Photographic Studies (3)
Prerequisite: Interdisciplinary 65. Advanced special topics in photographic studies.

390 Independent Studies in Photographic Studies (1-10)
Prerequisite: Twelve hours completed in photographic studies. Integrated individual projects conducted under photographic studies committee and departmental faculty supervision.
Business Administration

Courses in this section are grouped as follows: all undergraduate courses are listed under Business Administration; 400-level courses are listed under Business Administration, Accounting, Finance, Management, Marketing, and Quantitative Management Science.

Prerequisites may be waived by consent of the department.

**Business Administration**

A minimum grade of C shall be required to meet the prerequisite requirement for any course except with permission of the School.

**36 Introduction to Accounting I (3)**

An introduction to the nature of accounting information and its use by managers and investors. The course is designed as a multimedia, home-study course intended to meet the needs of off-campus students. Topics include: the nature of financial reporting, analysis of financial statements, budgeting, cost-volume-profit analysis, capital project evaluation, income recognition concepts, and the accounting accumulation process. Not available to students with previous fundamentals of accounting.

**37 Introduction to Accounting II (3)**

Prerequisite: Business Administration 36. A continuation of Business Administration 36. The course is designed as a multimedia, home-study course intended to meet the needs of off-campus students. Topics include: mass processing of accounting information, accounting for selected balance sheet accounts, cost and managerial accounting concepts, relevant costs for decision making, capital budgeting, income tax planning, and accounting for not-for-profit organizations.

**103 Introduction to Business Data Processing (3)**

The basic concepts of data processing and the fundamental principles of computer-based information systems are studied. The role of data-processing professionals and the uses of computers in business are examined. A basic programming language is introduced. Credit will not be awarded for both Business Administration 103 and Computer Science 22.

**104 Introduction to FORTRAN Programming (3)**

Prerequisite: Business Administration 103. A study of the principles of programming digital computers using the FORTRAN language. Credit not granted for both Business Administration 104 and Computer Science 122.

**109 Introduction to COBOL Programming (3)**

Prerequisite: Business Administration 103. Fundamentals of computer programming using the COBOL language. The programming of business applications for the computer is stressed.

**131 Elementary Statistics (3)**

Prerequisite: Mathematics 102. An introduction to statistical methods and concepts used in the decision processes of business problems. Statistical measures and estimators are examined in relation to the estimation and testing problems of statistical inference. Formerly Elementary Statistics 31.

**140 Fundamentals of Financial Accounting (3)**

Prerequisite: Sophomore standing. A one-semester course in financial accounting theory and practices, with primary emphasis upon the accounting cycle and the preparation of financial statements for proprietary, partnership, and corporate entities.

**145 Managerial Accounting (3)**

Prerequisite: Business Administration 140 or equivalent. This is an advanced course that goes beyond the scope of a second semester course in fundamentals of accounting. The development, interpretation, and use of relevant cost behavior, control, and traceability concepts for management planning, controlling and decision-making are emphasized. Topics include: an introduction to product costing, the contribution concept, direct costing, performance standards and variance analysis, responsibility accounting, segment profitability, alternative choice decisions, and capital budgeting.

**156 Legal Environment of Business (3)**

Prerequisites: Economics 51 and Business Administration 140. An introduction to the nature and meaning of law, sources of law, legal process and institutions. The legal environment of business is defined as: the attitude of the government toward business, the historical development of this attitude; current trends of public control in taxation, regulation of commerce, and competition; freedom of contract, antitrust legislation and its relationship to marketing, mergers and acquisitions; and labor management relations.

**202 Fundamentals of Production (3)**

Prerequisites: Economics 51, Business Administration 131 and Business Administration 145. An examination of the concepts, processes, and institutions which are fundamental to an understanding of the production function in business enterprise. Emphasis is on the management and organization of production operations and upon the application of scientific and quantitative methods to the solution of production problems.

**204 Financial Management (3)**

Prerequisites: Economics 52, Business Administration 140 and Business Administration 131 (may be taken concurrently). The study of a firm's need for funds; the institutions, instruments and markets concerned with raising funds; and the techniques of analysis used to determine how effectively these funds, once raised, are invested within the firm.

**205 Introduction to Management Information Systems (3)**

Prerequisite: A programming language course (e.g. Business Administration 104 or 109 or Mathematics 122). The concept of an integrated management information system is explored. Data requirements and data relationships used to successfully implement business oriented systems (e.g. accounting, marketing, financial and production information systems) are examined. The economic tradeoffs between various data-support systems are analyzed.

**206 Basic Marketing (3)**

Prerequisites: Business Administration 140, Economics 51, and Business Administration 131 (may be taken concurrently). An examination of the character and importance of the marketing process, its essential functions and the institutions performing them. Attention is focused on the major policies (such as distribution, product, price, and promotion) which underlie the multifarious activities of marketing institutions and the managerial, economic, and societal implications of such policies.

**209 Advanced COBOL and Data Management (3)**

Prerequisite: Business Administration 109 with a grade of C or better. The following advanced COBOL programming techniques are explored: tape and disk file design and manipulation; sort and merge techniques; report writer features; library modules; communication modules; and data-base management concepts.
Business Administration

210 Management as a Behavioral Science I (3)
Prerequisites: Business Administration 131, and three hours in anthropology, psychology, or sociology. Organization theory examined as to its historical basis and current status, from a systems perspective. Nature and relevance of individual and organizational goals considered. Technological and structural influence on organizational behavior is examined. Characteristics of individuals and groups in an organization context explored.

221 Financial Markets and Institutions (3)
(Same as Economics 221). Prerequisites: Economics 51 and 52. Demand, supply, and flow of funds in the macrofinancial system, determinants of the structure of interest rates, and the impact of monetary and other governmental policies on interest rates, securities prices, and flows of funds. Examines types and historical development of financial intermediaries, including their regulatory environment, decision making within individual intermediaries, and how their portfolio decisions affect flows of funds in the economy.

224 Introduction to Systems Programming (3)
Prerequisite: Grade of A or B in either Business Administration 104 or 108, or Computer Science 122. Development and interpretation of machine languages, addressing techniques, symbolic coding, and assembly systems. A particular computer and programming system will be used extensively to illustrate concepts and to give students actual experience in programming.

231 Intermediate Statistics (3)
Prerequisites: Business Administration 131, Mathematics 101, and Mathematics 102. Further study of basic topics in statistics to include analysis of time dimensional processes, elements of statistical decision theory, and nonparametric procedures.

253 Managerial Economics (3)
(Same as Economics 253). Prerequisites: Economics 51 and Mathematics 101. Applications of microeconomic theory to the decision-making process in the business firm. Discussion of cost behavior, price and output determination under various competitive conditions, as well as factors affecting wages, interest, and profits.

256 Business Law (3)
Prerequisite: Fundamentals of Financial Accounting 140 and Economics 51. Introduction to legal instruments and statutes centering on such things as contracts, agencies, partnerships, unincorporated organizations, corporations, negotiable instruments, bailment, personal and real property, bankruptcy and receivership. Includes a survey of federal regulatory legislation to motivate and preserve competition and to protect the public.

270 Management of Promotion (3)
Prerequisite: Business Administration 206. A study of the design, organization, and implementation of the marketing "communications mix." Various methods, such as advertising, personal selling, and publicity are analyzed as alternatives for use alone, or in combination, to stimulate demand, reseller support, and buyer preference. Particular topics considered include: media selection, sales promotional, packaging, selling strategy and their relationships in the promotion process.

275 Marketing Intelligence (3)
Prerequisite: Business Administration 206. An investigation of the acquisition, presentation, and application of marketing information for management. Particular problems considered are defining information requirements, evaluating research findings, and utilizing information. Statistical methods, models, and or cases are employed to illustrate approaches to marketing intelligence problems, such as sales forecasts, market delineation, buyer motives, store location, and performance of marketing functions.

289 Career Planning (1)
Prerequisite: A minimum of junior standing. The emphasis of this course will be to assist business students to develop an understanding of themselves as related to employment, to develop an understanding of the world of work, and to integrate these so that effective career decisions can be made.

296 Business Administration Problems (1-10)
Prerequisite: To be determined each time the course is offered. Study of selected special problems in business and administration. May be repeated for credit with different topics.

296 Independent Study (1-3)
Prerequisite: Permission of the professor and the dean. Occasional special individual study topics under the guidance of a specific professor.

301 Buyer Behavior (3)
Prerequisites: Business Administration 206 and three hours of psychology or sociology, or consent of instructor. A study of consumer functions and concepts in economics, marketing and related subjects, such as decision making, attitude formation, cognition, perception, and learning as related to marketing phenomena, product image, brand loyalty, shopping preference, and diffusion of innovations. These are considered in context with political, social, market, and legal influences on buyer behavior.

302 Quantitative Marketing Methods (3)
Prerequisite: Business Administration 206, Mathematics 102 or permission of the instructor. Applications of stochastic, deterministic and simulation techniques to decision areas, such as market potential, product diversification, physical distribution alternatives, retail location, media selection, and market exposure. Quantitative and computerized methods are used heavily to enhance decision making in marketing, especially the selection, allocation, budgeting, and forecasting of marketing resources.

303 Industrial Marketing (3)
Prerequisites: Senior standing and Business Administration 206 or consent of the instructor. A study of the nature of the industrial marketplace, concentrating on those aspects that differentiate it from consumer markets. The major focus of the course is strategy, starting with the analysis of the market wants and segments, the concepts of pricing, the distribution arrangements, and buyer/seller relations. In this last area, consideration will be given to service, sales technical development, sales promotion, and advertising, as found in the industrial marketplace. At all times, emphasis is given to relating industrial marketing strategy to basic concepts in underlying business disciplines. Lectures and case discussions are used heavily in the course.

306 Computer Systems (3)
Prerequisite: Business Administration 205 or 209 or Computer Science 222 or consent of the instructor. Computer systems, their hardware and basic operating software, are studied with attention to the factors involved in computer system implementation and maintenance. Examples of integrated business computer systems, including communication systems, are analyzed.
Business Administration

308 Production and Operations Management (3)
Prerequisites: Business Administration 202, Mathematics 101 and 102. Application of the tools and techniques of statistical decision theory and operations research to production and operating problems. Emphasis is on the use of mathematical modeling and simulation techniques to analyze complex and ill-structured problems in large scale systems.

309 Personnel Management (3)
Prerequisite: Business Administration 210 or consent of instructor. A study of personnel practices and policies, acquisition, maintenance, and utilization of an effective work force. Employee selection, development, job performance, compensation, and collective bargaining. Emphasis on practical applications.

310 Business System Design (3)
Prerequisite: Business Administration 209 or Computer Science 322 or 376. System analysis and design techniques are explained. System implementation and post-implementation analysis techniques are discussed. A system development project is required.

311 Management as a Behavioral Science II (3)
Prerequisite: Business Administration 210. Using a task, people, structure, and technology perspective, the organization is viewed as a social-technological system. Various methods of changing organizations to meet both individual and organizational goals are considered through the use of cases, exercises, and readings.

312 Industrial and Labor Relations (3)
Prerequisite: Business Administration 210. Emphasis is on the dynamic relationship between management, employees, unions, and government as determinants in the efficient and effective use of human resources. Current issues and case materials are used to supplement text and lecture.

315 Marketing Management (3)
Prerequisites: Senior standing and nine hours in marketing, including Business Administration 206 or consent of instructor. An intensive analysis of major marketing decisions facing the firm, such as level, mix, allocation, and strategy of marketing efforts. Specific decision areas investigated include market determination, pricing, physical distribution, product policy, promotion, channel management and buyer behavior. Competitive, political, legal, and social factors that may affect such areas of decision are discussed. Cases, models, and problems are used heavily.

318 Industrial Psychology (3)
(Same as Psychology 318). Prerequisite: Psychology 101 or Business Administration 210. Activities of the applied psychologist. Selection and placement, testing and interviewing, personnel research. Motivation, production and operating problems. Emphasis is on the use of mathematical modeling and simulation techniques to analyze complex and ill-structured problems in large scale systems.

330 Applied Linear Statistical Models (3)
Prerequisites: Business Administration 131, Mathematics 101 and 102. A study of linear statistical models for regression, analysis of variance, and experimental designs as applied in management sciences.

331 Multivariate Analysis (3)
Prerequisites: Business Administration 131, Mathematics 101 and 102. A study of statistical techniques applicable to multivariable relationships.

334 Investments (3)
Prerequisite: Business Administration 204. Financial analysis of debt and equity instruments available on organized exchanges and in less tangible over-the-counter markets. Techniques of such analysis are presented in context with economic and management circumstances within the company, industry, and economy.

340 Intermediate Accounting I (3)
Prerequisites: Business Administration 140 with a minimum grade of C. Business Administration 145 and 131 (Business Administration 131 may be taken concurrently.) Accounting theory and practice related to the acquisition, use, and disposal of current fixed and intangible assets (excluding long-term investments in securities). Other topics include current liabilities and income-tax accounting. Expanded coverage is afforded the theoretical foundations of financial accounting and reporting, the accounting model and information processing, and the financial statements of profit-seeking enterprises.

341 Intermediate Accounting II (3)
Prerequisite: Business Administration 340 with a minimum grade of C or consent of department. Accounting theory and practice related to issued corporate debt and equity and to long-term investments in securities. Other topics include pension accounting, statement of changes in financial position, earnings per share calculations, and inflation accounting.

342 Advanced Accounting (3)
Prerequisite: Business Administration 341 with a minimum grade of C or consent of department. Accounting theory and practice related to partnership, business combinations, consolidated financial statements, financial reporting by multinational companies, and non-profit organizations.

345 Cost Accounting (3)
Prerequisite: Business Administration 145 with a minimum grade of C or consent of department. The study of the basic principles of cost determination for, and control of, manufacturing and distribution activities. The accumulation and tracing of costs to products, processes, and responsibility centers for purposes of financial accounting and management control are emphasized. Topics covered include: job-order costing, process costing, and the development and use of standard costs within a system of absorption costing.

347 Income Taxes (3)
Prerequisites: Business Administration 140 with a minimum grade of C and Business Administration 145 or consent of instructor. Fundamentals of federal income taxation with emphasis on individuals. Topics covered include: determination of income, exclusions, exemptions, personal and business deductions, accounting methods, capital gains and losses.

348 Auditing (3)
Prerequisite: Business Administration 341 with a minimum grade of C or consent of department. Examination of fundamental audit objectives and techniques employed in the verification, analysis, and interpretation of accounting records and financial statements. The work of the independent public accountant is emphasized.

349 Business Income Taxation (3)
Prerequisite: Business Administration 347. A study of the federal income taxation of partnerships and shareholders and corporations, including subchapter S (small business) corporations with emphasis on problems encountered in their formation, operation, liquidation and sale.

350 Financial Policies (3)
Prerequisite: Business Administration 204. The intensification and application of the concepts developed in Business Administration 204. Special emphasis is given to the development of top management policies and their application toward complex problems of finance. Techniques for identifying and dealing with these problems before they become acute will be investigated. Cases will be integrated with appropriate outside reading.
Business Administration

356 Commercial Bank Management (3)
Prerequisites: Economics 52 and Business Administration 204. Corporate finance and microeconomics are applied to matters of importance to commercial bankers. Among the subjects treated are bank-asset portfolio construction, lending policies, liabilities management, bank capital structure, short-run cash management, financial market rates and flows, and quantitative models for bank management. Commercial bank management is analyzed from an internal viewpoint in terms of what bank managers should look for in asset management and why; what market conditions they should be aware of; and what techniques they can use to meet changing economic and financial conditions.

368 Business Fluctuations and Forecasting (3)
(Same as Economics 368). Prerequisite: Economics 220. Discussion of factors affecting economic conditions, short-term fluctuations in business activity, and plans and policies for economic stabilization. Emphasis on problems and techniques of forecasting aggregate and industry demand.

375 Operations Research (3)
Prerequisites: Mathematics 101 and Business Administration 202. Applications of the theories and techniques of operations research to problems of business, government, and industry, with emphasis on the construction and utilization of quantitative decision models.

380 International Business (3)
Prerequisite: Economics 51. The United States in the world economy; emerging nations; foreign exchange market; foreign investment; commercial documents; world trade; and management of enterprises abroad.

386 Operations Research II (3)
Prerequisite: Business Administration 375. Topics of special interest including mathematical programming, stochastic decision making, digital simulation, game theory and other selected techniques. (Formerly Mathematical Programming).

391 Business Policy and Administration (3)
Prerequisites: Senior standing and Business Administration 204, 206, and 210. Comprehensive cases are used to examine the dynamics of business management. The role of high echelon management in the administrative process is integrated with the diverse functions of business to develop an operation system. Particular attention is given to formulation of a policy framework, planning and implementing executive action. Both team and individual analyses and reports are utilized with class evaluation and recommendation. (It is preferred that this course be taken during the student’s final semester).

392 Entrepreneurship/Small Business Management (3)
Prerequisites: Economics 51, 52 and a minimum of six courses from the required Business Administration core. This integrative general management course is designed to communicate the academic principles of business management applicable to solving of problems of small and medium size businesses and assist in their development. This course will provide a background in the forms of business, the development of business plans and systems integration, venture capital, accounting procurement, promotion, financing, distribution and negotiations for initial organization, operation and expansion of the firm.

396 Business Administration Seminar (1-10)
Prerequisite: To be determined each time the course is offered. May be repeated for credit.

410 Managerial Economic Analysis (3)
Microeconomic analysis of consumers, firms, and government. The concepts and mathematical tools of economic analysis are applied to the production and distribution functions of organizations.

411 Analysis of National Economic Environment (3)
The character and functioning of the national economic system; analyzing and forecasting fluctuations in national income and product, employment and prices; the influence of monetary and fiscal policies. Emphasis is on the acquisition of knowledge concerning forces affecting all business firms.

412 Public Policies Toward Business (3)
Analysis of public policies, as represented by laws, court decisions and other governmental activities, as they affect efficiency in the public and private sectors, employment and price levels, and business decision making.

415 Societal, Environmental and Management Decisions (3)
Prerequisites: Business Administration 410 and 411. An examination of the external relationships of a business enterprise with the broad and diverse interests of society. These are government and social forces that sometimes operate counter to the potential dictates of theoretical internal economic policies for an individual organization. The primary objective is to examine the increasingly complex set of interrelationships among business, government, other economic groups, and "the public," a series of major current problems, chosen to raise some of the major issues involved in these interrelationships, and in particular to explore the development of public policy on such problems.

416 International Finance, Investment and Commercial Relations (3)
Prerequisite: Business Administration 411. The international monetary system; balance of payments; liquidity; foreign exchange market; foreign investment; international and regional financial institutions. Commercial documents; United States trade patterns, composition and structures; United States commercial policy; regional trade groupings; trade of emerging nations; and international trade organizations.

417 International Business Operations (3)
Prerequisite: Business Administration 416. Functional management within multinational corporations; case studies of operations abroad; and focus on managerial decision making.

418 Governmental Budgeting and Financial Control (3)
Prerequisite: Accounting 440. A study of municipal and federal financial control and budgeting procedures with emphasis on public policy. The impact of financial control on top management decisions and the effect of budget strategies on the allocations of public funds.

420 Seminar in Business Administration (3)
An intensive study of a specific area of business administration of some specific business or economic phenomenon, or a specific problem or theory. Several different courses may be offered under this course number.

430 Individual Research (1-10)
Prerequisite: Consent of instructor and graduate director. Special individual research topics under the guidance of a specific professor.

490 Policy Formulation and Administration (3)
Prerequisites: Accounting 440, Finance 450, Management 460, Marketing 470, and Quantitative Management 482. This course should be taken during the semester prior to graduation. In no case may it be taken sooner than two semesters prior to graduation. A capstone case course which views policy problems and issues from the
Business Administration

perspective of top management. Policy formulation, decision-making processes, and corporate strategy. Implementation of corporate policy requires an examination of leadership, communication, organizational structure and social responsibility.

Accounting (400-level)

440 Financial Accounting: Theory and Practice (3) Business organization, operations, and terminology. A survey of the broad areas of accounting, including its mechanisms. Emphasis on the development of a logical framework for understanding concepts upon which practices and procedures are superimposed. Intensive study of balance sheet, income statement and other financial reports, together with the accounting principles underlying them. Statements designed for stockholders and creditors. The interpretative and analytical point of view is stressed.

441 Concepts in Management Accounting (3) Prerequisite: Mathematics 101 or 102 with minimum grade of C and Accounting 440. The development, interpretation, and uses of accounting reports and supplementary information for management planning, control and decision making. Emphasizes the application of relevant cost behavior, control, and traceability concepts in the preparation of internal accounting reports, with a secondary emphasis upon product costing techniques as appropriate to financial accounting needs. Topics include break-even analysis, operational budgeting, direct costing, absorption costing, standard costs and variance analysis, business segment analysis, responsibility accounting, distribution cost accounting, and gross profit analysis.

446 Topics in Professional Accounting (3) Prerequisites: Accounting 440 and Quantitative 481. An investigation of the impact of past, current, and prospective developments upon the role of the professional accountant. Topics include professional ethics, generally accepted auditing standards, types of auditor's opinions, internal control, and internal auditing; the use of probability theory and statistical sampling methods in the conduct of an audit; management advisory theory and statistical sampling methods in the conduct of an audit; management advisory services, auditing in mechanized and electronic data-processing systems; the requirements imposed by the S.E.C. and other regulatory agencies; and the legal responsibilities.

447 Accounting Systems for Management Planning and Control (3) Prerequisite: Accounting 441. A study of advanced managerial accounting techniques useful in facilitating the planning and control process in the modern organization. Emphasis on the implementation and administration of these techniques, their integration with management information systems, and the organizational role of the corporate accountant.

448 Seminar in Advanced Theory and Contemporary Issues in Accountancy (3) Prerequisite: Accounting 440. Consideration of the positions of several authoritative groups concerning the structure of accounting theory—assumptions, postulates, principles and practices. Evaluation of these positions in view of confirming and conflicting periodic literature. Critical analysis of topics of current interest and importance in accounting literature.

449 Systems Auditing (3) Prerequisites: Accounting 440 and Quantitative 490 or consent of instructor. Study of techniques involved in the control and audit of computer-based accounting information systems. Emphasis on the review of internal controls at operational and administrative levels and on computer-assisted audit techniques.

Finance (400-level)

450 Financial Management (3) Prerequisites: Mathematics 101 or 102 with a minimum grade of C and Accounting 440. A consideration of the methods used to determine the firm's need for short and long-term capital, the possible means of securing such capital once a need has been determined, and the techniques for judicious use of the capital in terms of asset investment and asset management decisions. Topics include the finance function, operating and financial methods of capital budgeting decisions, cost of capital, dividend policy, long-term financing, management of current assets, intermediate and short-term financing, and corporate valuation in mergers and consolidations.

451 Advanced Financial Management (3) Prerequisites: Finance 450, Quantitative Management 480 and 481. Exposure to recent financial management theory through selected readings. Financial management problems are considered by the use of cases and simulation models. An original research project under the supervision of the instructor is required.

455 Security Analysis (3) Prerequisite: Finance 450. An in-depth study of techniques used in evaluating various financial assets as investment opportunities. Financial assets studied include common stock, preferred stock, and fixed income securities. Other related topics such as sources of investment information and current market trends are discussed.

456 Management of Financial Intermediaries (3) Prerequisites: Accounting 441 and Finance 451 or concurrent registration. A consideration of the unique problems of management of institutions which form the money and capital markets in the United States. The impact of monetary and fiscal policies on the dynamic management of the financial assets of numerous financial intermediaries: commercial banks, insurance companies, savings and loan associations, investment bankers, and investment companies.

457 Portfolio Management and Special Topics in Investments (3) Prerequisites: Finance 450, 481 and 334 or 455, or consent of instructor. Traditional portfolio management as well as current portfolio theory is studied. The use of simulation and mathematical models to optimize the return on portfolios is discussed. In addition, special topics of current interest or recent developments in the field of security analysis and portfolio management are presented.
Business Administration

Management (400-level)

460 Organizational Behavior and Administrative Processes (3)
The theoretical and research contribution of the behavioral sciences to management and administration are examined and applied to selected organizational situations. Areas to be considered from the standpoint of both individual and organizational performance are communication, motivation, conflict, decision making, goal setting, leadership, organizational design, climate, development, and control. Utilizing a systems perspective, the course attempts to develop in each student an ability to analyze and solve organizational problems.

461 Managing Human Resources (3)
Prerequisite: Management 460. In-depth examination of selected human resource management issues from a contemporary manager's viewpoint. Topics examined include: personnel planning; employee selection; performance appraisal, training, and development; compensation; legal issues; discipline; and labor relations. The course examines these topics as they relate primarily to operational activities in organizations.

462 Advanced Organizational Behavior and Administrative Processes (3)
Prerequisite: Management 460. An in-depth examination of selected organizational and individual theories affecting behavior and operating performance. Organizational structure and design, formal and informal organization, decision making, communications and motivation are analyzed for their organizational impact. The course seeks to develop further the ability to analyze and evaluate organizational processes and individual behavior.

465 Union-Management Relations and Collective Bargaining (3)
Prerequisites: Management 460 and Business Administration 412. Primary concern is with the setting and the dynamics of contract negotiation and administration. Emphasis is on the development of insight and understanding of the forces affecting the decisions of the parties to a labor contract within the context of the social, political, and economic environment of the organization. A dynamic approach is taken to examine difficulties that arise in attempting to administer a collectively established relationship between employer and employee.

466 Personnel Administration: Theory and Practice (3)
Prerequisites: Management 461 and Quantitative Management Science 481. Examination of various methods and procedures (including statistical techniques) critical to the design and operation of a modern personnel management system. Personnel techniques to be studied include: job analysis, employee recruitment, selection and placement; performance appraisal; measurement of employee attitudes; job satisfaction, and organizational climate. Consideration will be given to relevant legal issues, as well as to the theories or rationale which underlie the various personnel techniques and functions.

467 Dynamics of Interpersonal Relations (3)
Prerequisites: Management 460 or academic background in general psychology. The self-concept, personality dynamics and mechanisms of adjustment. Catalysts and barriers to effective communication. Examination of the functional relationship between ego-needs, perceptual distortion, and stereotypical thinking. Role-playing, the resolution of role-conflict and objective self-evaluation. The development of cooperation and trust as a prerequisite to effective human relations.

Marketing (400-level)

470 Contemporary Marketing Concepts (3)
Prerequisite: Accounting 440 and Business Administration 410. Designed for students with no prior course work in the field of marketing. A wide spectrum of marketing institutions and activities is covered. The impact of marketing on the total firm, the economy and society in general is assessed. The course is intended to develop and organize the fundamental marketing concepts necessary to an analytical study of consumer behavior, the economic environment and four managerial aspects of marketing. The acquisition and utilization of marketing research data for problem solving is stressed. Relation and integration of basic marketing knowledge to the successful development of sound marketing policy, planning and strategy is developed.

471 Marketing, Planning, and Strategy (3)
Prerequisite: Marketing 470. Emphasizes the development of a total marketing program through an analytical study of the marketing-mix, the diagnosis of the business situation, along with the influence of exogenous variables and the development of an effective overall marketing strategy. Stresses importance of an integrated marketing plan and utilizes modern decision-making tools. Supplementary readings, journal articles, and current periodicals are used to place the theoretical framework of the course into the contemporary environment of the market place.

475 Consumer Motivation and Behavior (3)
Prerequisite: Marketing 470. An analysis of the socio-psychological foundations of consumer behavior including personality differences, needs and wants, status symbols, social change and mobility, fads and fashions. Consumer spending and saving habits, product preferences, leisure-time patterns, shopping behavior and motivation research also are examined for their impact on advertising, selling, and marketing management.

476 Marketing Communications (3)
Prerequisite: Marketing 470. Deals with managerial decision making by placing particular emphasis on assimilating and integrating all forms of marketing communication in the development of promotional policies, plans, and procedures. Course approach is analytical rather than descriptive in investigating the areas of advertising, public relations, sales management, packaging, and other forms of demand stimulation.

477 Product Planning and Pricing (3)
Prerequisite: Marketing 471 or concurrent registration. A study of product management including the areas of new product development, the concept of the product line, deletion of nonessential products and establishing the product's price. Also examined are pricing alternatives and the factors influencing price setting in the framework of a contemporary market structure.

478 Marketing and Business Research (3)
Prerequisite: Marketing 470. A broad approach to marketing research as a model for acquiring, retrieving and analyzing decision-making information. Includes market measurement, evaluation of sales and cost effectiveness, sales forecasting and primary marketing research studies aimed at solving specific problems. Emphasis is placed also on building a theoretical and analytical framework to provide flexibility in the design of marketing experiments and in judging recent research innovations.
School of Business Administration

Business Administration

479 Marketing Channel Strategy (3)
Prerequisites: Marketing 470 and Quantitative 482. A study of the marketing institutions involved in the distribution of goods and services, industrial and consumer markets, as well as the establishment and integration of marketing channels. The planning and analysis of the macrodistribution and microdistribution systems which contribute to creation of optimal time and place utility. Some attention is paid to quantitative applications to marketing situations including simulation and logistics.

Quantitative Management Science (400-level)

480 Introduction to Computer Programming and Business Applications (3)
A particular computer compiler language and computer system (University of Missouri computer network), are used extensively to illustrate computer system concepts and to give the student actual experience in programming and implementing business oriented systems. Time sharing systems are studied and utilized.

481 Statistical Analysis for Management Decisions (3)
Prerequisite: Mathematics 101 or 102 with a minimum grade of C. Development of the role of statistical evidence in the formation of inference and in the selection of strategies in solving business problems. Probability and probability distributions are studied as a basis of inference and applying Bayesian decision methods. An approach to multivariate analysis provides an integration of analysis of variance and regression methods.

482 Operations Research Methods (3)
Prerequisite: Quantitative 481. Development of a working knowledge of operations research techniques, as applied to dynamic business problems. A study of analytical approaches to business programs, construction of mathematical models, and manipulation of model variables for managerial decision making. Topics include mathematical programming, inventory theory, game theory, queuing theory, sequencing models, and simulation models.

483 Production and Operations Management (3)
Prerequisite: Quantitative 482. A study of the basic problems encountered in the administration of the production function. Topics include interpreting the production function; schematic, statistical, and economic analysis of production problems and production simulation models. The case method is used extensively in the course.

484 Business Information Systems (3)
Prerequisite: Quantitative 480. A study of business-oriented information systems. The programming language COBOL will be introduced and studied in detail. Emphasis will be on program definition and the use of file structures in business oriented applications.

485 Computer-Based Information Systems: Theory and Practice (3)
Prerequisite: Quantitative 480. Introduction to computer-based information systems. Problems of analysis, design, and implementation are examined. Various techniques commonly used in business-oriented applications are surveyed. Use of the computer is an integral part of the course.

486 Advanced Statistical Methods for Management Decisions (3)
Prerequisite: Quantitative 481. A study of statistical methods applicable to specialized areas of statistical analysis. Topics include Markov processes, distribution-free tests, sampling theory and methods, experimental design, time series analysis, and spectral analysis.

487 Advanced Operations Research Applications (3)
Prerequisite: Quantitative 482. Application of operations research techniques to business problems. After a brief review of these techniques, followed by an examination of typical applications reported in the literature, the major portion of the term is spent in analyzing and solving an actual business operations research problem. A team approach is used, with groups of two or three students responsible for finding and solving an operations research problem in a local company. Primary emphasis is placed on the use of operations research techniques to solve management problems.

488 Information System Design (3)
Prerequisite: Quantitative 485. A study of some advanced techniques used in information systems design including systems analysis. Data base management system concepts will be introduced. Primary emphasis of the course will be on the ability of the student to integrate the concepts and techniques of information systems into a well defined system design. Semester project required.

489 Data-Base Management Systems (3)
Prerequisite: Quantitative 485. Introduction to data-base processing. Data management and data independence. Data-base model philosophies are reviewed. Introduction to commercially available data-base management systems is made. A data-base management package is used to illustrate basic concepts.
Education

Abbreviations

The following abbreviations are used to indicate instructional areas in the School of Education:

Adult Education (ADU ED)
Counselor Education (CNS ED)
Early Childhood Education (ECH ED)
School-wide Education (EDUC)
Educational Administration (ED ADM)
Educational Foundations (ED FND)
Educational Psychology (ED PSY)
Educational Statistics & Research (ED S&R)
Educational Technology (ED TEC)
Elementary Education (ELE ED)
Evaluation and Measurement (EVL MS)
Physical Education (PHY ED)
Secondary Education (SEC ED)
Special Education (SPC ED)

Education (EDUC)

School-Wide Courses

Prerequisites may be waived by consent of the department.

65 The University (3)
A School of Education interdisciplinary course on the principles, development, and organized structure of the university. Special emphasis will be placed on the role of the university in modern society and upon forces affecting the direction of the University and its potential for change. Methods include outside speakers, discussion groups and laboratory research on UMSL.

204 Special Topics in Education (1-3)
Prerequisites: Completion of 75 hours and consent of instructor. Examination of a special area or topic within the field of education. Topics to be considered will be announced prior to registration and may vary. For elective credit only. This course may be repeated for different topics. Not to exceed a total of six hours credit.

297 Independent Study (1-3)
Prerequisites: Completion of 75 hours and consent of instructor. Independent study through readings, research, reports and conferences designed to provide depth in areas of study previously introduced in education courses. For elective credit only. May be repeated. Not to exceed a total of three hours credit.

306 Graduate Workshop (1-10)
Prerequisite: Consent of instructor.

308 Graduate Institute (1-10)
Prerequisite: Consent of instructor.

393 Practicum in Individualized Instruction (3-6)
Prerequisites: Completion of the course(s) to which assigned for instruction and consent of instructor. Supervised instruction in individualized programs. Seminar accompanies instructional experience. May be repeated.

408 Graduate Institute (1-10)
Prerequisite: Consent of instructor.

414 Seminar I (3)
Prerequisites: Admission to doctoral program in education and adviser’s consent. Common doctoral seminar. A core studies requirement in the Ed. D. program. Six hours required. Limited to doctoral students only.

415 Seminar II (3)
Prerequisites: Admission to the doctoral program in education and adviser’s consent. Emphasis area doctoral program. A role specialization requirement in the Ed. D. program. Six to twelve hours required. Limited to doctoral students only.

490 Internship (1-10)
Prerequisite: Consent of instructor. Closely supervised experience in a field setting under the direction of a graduate faculty member. An appropriate level of competence and evidence of growth in the professional role must be demonstrated by the intern. The internship will include planning, research, evaluation, and related professional activities.

491 Staff Development and Professional Growth (1-10)
Designed in conjunction with an individual school district or educational agency and related to problems of education confronting that specific district or agency.

497 Thesis Research (1-10)
Prerequisite: Consent of instructor.

499 Dissertation Research (1-12)
Prerequisite: Admission to candidacy in the Ed. D. program. Credit awarded only upon successful defense of the dissertation.

Administration, Foundations, and Secondary Education

Courses in this section are grouped as follows: Adult Education (ADU ED), Educational Administration (ED ADM), Educational Foundations (ED FND), Educational Statistics & Research (ED S&R), Educational Technology (ED TEC), and Secondary Education (SEC ED).

Prerequisites may be waived by consent of the department.

Adult Education (ADU ED)

310 Community and Adult Education (3)
Prerequisites: For upper division students, practitioners, or by consent of instructor. This course presents an overview of the models, practices, programs, and processes of community and adult education.

311 Teaching Basic Reading Skills to Adults (3)
A comprehensive, systematic foundation for teaching of adults. It will relate (a) the pragmatic philosophy and objectives of adult education in America to (b) the continuing education of the adult in a progressive social context.

413 Improvement of Instruction in Adult Education (3)
Prerequisites: ADU ED 412 or consent of instructor. A study of selected methods and instructional techniques appropriate for the teaching of adults. An examination of current research will be made as it relates to the problems of instructing adults.

414 Curriculum Theory and Development in Adult Education (3)
Prerequisites: ADU ED 412 and ADU ED 413 or consent of instructor. A study of curriculum theory and its application to adult education. Particular emphasis will be placed on the development of model curricula for various programs in adult education.

425 Principles of Business Education (3)
Prerequisites: Business education certification and consent of instructor.
Administration, Foundations, and Secondary Education

Designed for the business education teacher, this course examines in depth the principles, practices, and problems of business education programs. It emphasizes research into historical and philosophical implications, the influence of contemporary attitudes on business education, evaluation of current programs, and development of innovative approaches. It may be applied toward Missouri Vocational Business Education certification.

426 Coordination of Cooperative Education Programs (3)
This course deals with student selection procedures. Coordinating vocational instruction and planned employment experiences; research techniques for collecting and analyzing data for process and product evaluation; procedures for implementing new ideas and innovations in cooperative education programs. The course is designed for vocational teachers interested in secondary school cooperative programs and for teachers who wish to qualify as coordinators of cooperative education programs.

427 Improvement of Instruction in Secretarial Subjects (3)
Prerequisites: Business education certification and consent of instructor. Designed for business education teachers, this course examines current trends in planning, organizing, developing, and evaluating instructional materials relevant to business education classes. Emphasis is placed on research techniques and strategies for selecting and utilizing appropriate curriculum materials, resources, and media to match learning needs.

436 Problems in Teaching College Biology (3)
(Same as Biology 486). Prerequisites: Teaching experience, 30 semester hours in biology and consent of the instructor. Basic philosophies underlying undergraduate biology education at the college level will be presented and examined with concern for establishment of an individual philosophy in the prospective college teacher. Teaching techniques suitable for college-level instruction will be considered, practiced, and evaluated. Advantages and limitations of various methods of instruction will be considered with respect to current research findings.

437 Problems in Adult Education (1-10)
Prerequisite: ADU ED 412 or consent of instructor. Independent study on topics in adult education.

Educational Administration (ED ADM)

404 Seminar (1–10)

411 Theory & Organizational Development in Educational Administration (3)
Course is designed to examine the theory and organizational development in the area of educational administration. A comprehensive examination of the work of scholars in the field will provide an insight into practical functions of theory.

414 Foundations of School Administration (3)
Emphasis on processes common to all phases of educational administration. Conceptual framework for administration of education, decision-making and organizational theory.

416 Educational Administration and Policy Making (3)
Prerequisites: ED ADM 411 and ED ADM 414. Course will provide the prospective school administrator with a unified, comprehensive, and systematic approach to the understanding of the role of the school administrator in policymaking in American public education.

422 Leadership in Educational Administration (3)
Course is designed to acquaint the administrator with the factors of groups and interpersonal relationships directly affecting him in his job performance. The consequences of various types of group relationships upon the institution will be studied in detail. The administrator will study various rationales for and methods of improving interpersonal relationships within his institution.

425 Administration of Organizational Change Strategies in Schools (3)
Prerequisite: ED ADM 414. This course deals with (1) developing strategies for assessing educational needs, (2) methods of assessing the schools "organizational health," (3) the designing of educational change strategies involving theory-based models, (4) using systems-analysis techniques to implement educational change, and (5) methods of involving students and staff in incorporating meaningful organizational change strategies in educational institutions.

430 School District Administration (3)
Prerequisite: ED ADM 414 or consent of instructor. Course focuses on current research about school district administration: also deals with major central office issues including: board/superintendent relations, central office organization, the function and authority of assistant superintendents and program directors, and the administrative team approach to school district administration.

432 Problems in School Public Relations (3)
Principles of good school public relations, unique public functions of various school and community groups. Techniques for conducting school public relations.

441 Elementary School Administration (3)
Specialized course in elementary school administration for school administrators, supervisors, and teachers.

451 Secondary School Administration (3)
Specialized course in secondary school administration for school administrators, supervisors, and teachers.

456 Extracurricular Activities (3)
Activities related to the extracurricular program of secondary schools will be studied in depth. Analysis of appropriate activities will include the nature and purposes of these activities.

460 Legal Aspects of Educational Administration (3)
Principles of law as derived from court decisions; statutory and constitutional provisions affecting education. Legal status (power and responsibilities) of school board members, superintendents, principals, teachers, and pupils.

465 State and Federal Financing of Public Education (3)
Economic implications of public education. Determination of policy and practice in financing of public schools by local, state, and federal agencies. Developing principles of adequate tax programs and designing systems of state support of public education.

466 Principles of Public School Finance in Missouri (3)
Course is designed to analyze and study critical areas of public school finance at the local and state levels, highlighting the role of such factors as legislative procedures, principles of local and state support, budgeting and accounting procedures, assessment of property, etc.
Educational Foundations (ED FND)

111 The School in Contemporary Society (3)
The introductory course in teacher education. An examination of the organization and purpose of the school in its social setting. Selected, representative educational themes and issues will be studied. Required of students admitted to the School of Education. Prerequisite to other professional courses.

251 Black Americans in Education (3)
An examination and analysis of conditions affecting the education of black Americans and their schools, with emphasis on relationships between schools and the black community, and needed changes in education.

330 History of American Education (3)
Prerequisite: A course in American history or consent of instructor. An overview of the evolutionary development of American educational theory and practice from the early colonial period to the present. Attention is also given to selected issues in professional education.

340 Comparative Education (3)
A course designed to familiarize the student with the structure, purpose, and processes of community education with particular emphasis being placed on the administrative theories and functions of adult education.

421 Philosophy of Education (3)
A study of the fundamentals of education in the light of modern science and philosophy.

422 Analysis of Educational Issues (3)
Prerequisite: A course in philosophy of education or a course in history of education, or consent of instructor. A critical examination of issues about the elementary and secondary schools. This is done through the analysis of the procedures, resources, and goals that guide school policies and practices.

436 History of Western Education (3)
A course designed to survey the educational development of Western civilization from approximately the eight century B.C. until the present. Salient educational theory and practice will be considered in their appropriate social context.

Educational Statistics and Research (ED S&R)

320 Educational Statistics (3)
Statistical methods for teachers, supervisors, superintendents and beginning graduate students. Frequency distributions, measures of central tendency, variability, sampling and correlation.

404 Seminar (3)
Prerequisite: ED S&R 427 or equivalent. Statistics and research seminar will address special issues and topics not normally included in the regular statistics and research courses.

426 Multifactor Analysis in Education (3)
Prerequisite: ED S&R 427 or equivalent. Classical parametric statistical procedures for analyzing data in which there are two or more independent factors. Primary emphasis is on factorial design. Analysis of variance and of covariance are considered.

427 Educational Statistics (3)
Statistical methods for teachers, supervisors, superintendents and beginning graduate students.

428 Nonparametric Statistics (3)
Prerequisite: ED S&R 427 or equivalent. Attention is given to alternate analysis procedures to the classical parametric statistics. The nonparametric methods have less stringent data requirements than their parametric counterparts and thus are often more adaptable to much of the behavioral research.
Administration, Foundations, and Secondary Education

429 Advanced Test Theory in Education (3)
Prerequisite: ED S&R 425 and EVL MS 432 or equivalent. Statistical test theory procedures are presented. True and error score theory in mental measurement and its effect upon other statistical procedures are considered.

430 Research Design for Educators (3)
A primarily non-quantitative course surveying the various techniques and strategies available to the educational researcher for the design and execution of research, as well as for the evaluation of research carried out by others.

497 Problems (1-10)
Prerequisite: At least one previous educational statistics and research course with a grade of B or better. Individual study on topics pertaining to educational statistics and research design.

Educational Technology (ED TEC)

246 Preparation of Inexpensive Materials for the Classroom. (1)
An entry-level course for all teacher education students. May be taken concurrently with ED TEC 246. A self-paced, modularized, and criterion referenced course. Students will demonstrate competence in operating standard audiovisual equipment normally found in the schools.

247 Integration of Media and Materials in Instructional Planning (1)
Prerequisites: ED TEC 246, and for secondary education students SEC ED 213. Course concentrates on the integration of media and materials in lesson planning. Through lecture, demonstration and individualized instruction the student designs an instructional unit and prepares appropriate material for that unit. ED TEC 246 must be taken prior to, or concurrently, with this course.

340 Selection and Utilization of Educational Media (3)
Introduction to the selection, use, and evaluation of audiovisual materials and equipment including films, slides, transparencies, projectors, globes, charts, maps, bulletin boards, plus programmed materials, information retrieval systems, and instructional television.

345 Preparation of Graphic Material for Audiovisual Education (3)
Prerequisite: ED TEC 340 or consent of instructor. Not open to lower division students. A lecture-demonstration-laboratory course that emphasizes the graphic arts component of audiovisual material production. Theories of learning and communication are used in the design and production of materials used for classroom settings.

346 Instructional Television (3)
Prerequisite: ED TEC 340 or consent of instructor. Not open to lower division students. A lecture-demonstration-laboratory course designed to concentrate on the use of instructional television in formal and informal learning situations. Basic script writing, management of ITV systems, and design and production of low-budget programs will be emphasized.

363 Principles of Photographic Production for Education (3)
Prerequisite: ED TEC 340 or consent of instructor. A lecture-demonstration-laboratory course which stresses the application of theories of learning, perception, and retention as they relate to motion-picture production. Emphasis on designing and producing photographic material that enhances the teaching/learning process.

354 Principles of Motion Picture Production for Education (3)
Prerequisite: ED TEC 340 or consent of instructor. A lecture-demonstration-laboratory course. Emphasis on application of theories of learning, perception, and retention as they relate to motion-picture production. Special attention will be given to the design and production of motion-picture material that enhances the learning process.

404 Seminar in Educational Technology Research (3)
Prerequisites: ED TEC 340 and twelve hours of graduate work in educational technology. A review of research in educational technology with individual in-depth study. The student selects a research problem in conjunction with the instructor and completes a research project. Open to graduate students who have completed twelve hours of work in educational technology.

432 Educational Technology Systems Design (3)
Prerequisite: ED TEC 340. A lecture-demonstration course in the application of learning theory to the design of audiovisual materials. Emphasis on educational technology systems design, objectives, constraints, limitations, and evaluation. Methods of analyzing target populations and instructional demands along with decision-making models will be reviewed.

433 Educational Technology Systems Management (3)
Prerequisite: ED TEC 340. Basic principles of management in design and operation of media programs and systems in various educational settings. Emphasis on strategies and alternative structures for achieving and evaluating functions of media centers.

435 Diffusion and Adoption of Innovations in Educational Technology (3)
Prerequisite: ED TEC 340. A lecture course designed to provide an overview of the diffusion and adoption of technical innovations in the educational system. This course will include the technological, sociological, psychological, and political aspects of the process of diffusion and adoption. Various models, techniques, and applications of the diffusion and adoption process emphasized.

446 Advanced Instructional Television Production (3)
Prerequisites: ED TEC 340 and ED TEC 346. Advanced management, script writing and production of ITV programs. Laboratory activities in production of systematically designed instruction. Each student will produce ITV programs involving writing, production of graphics, directing, editing, and validating the programs.

493 Practicum in Educational Technology (3)
Prerequisite: ED TEC 340 or consent of instructor. Focus is on the application of principles of instructional development to teaching problems in educational technology. Selecting, developing, adapting, and using instructional technology appropriate to the specific teaching problems is an integral part of this course.

497 Problems (1-10)
Prerequisite: ED TEC 340 or consent of instructor. Individual study on topics pertaining to educational technology.
Secondary Education (SEC ED)

160 **Shorthand Theory I (3)**
Prerequisite: Typewriting. Study of Gregg shorthand theory with emphasis on reading, writing and taking dictation at moderate rates. Not open to students with previous training in Gregg shorthand theory.

161 **Shorthand Theory II (3)**
Prerequisites: Shorthand Theory I or equivalent; Business and Professional Typewriting I or equivalent. Review of Gregg shorthand theory; development of speed and accuracy in taking dictation; emphasis on transcribing techniques and office-style dictation.

162 **Business and Professional Typewriting I (2)**
Prerequisite: Beginning Typewriting. Review of typewriting techniques and skills; development of speed and accuracy; instruction in the preparation of business and professional papers and forms with emphasis on word processing and secretarial typing.

163 **Business and Professional Typewriting II (2)**
Prerequisite: Business and Professional Typewriting I or equivalent. Preparation of business and professional papers and forms in simulated office situations; instruction in typing short cuts.

213 **Techniques of Secondary School Teaching (3)**
Prerequisite: ED FND 111 and admission to the school of education. Activities and interaction of teachers and pupils in development of conditions for learning in secondary schools. Analysis of teaching/learning process and examination of studies of teaching.

222 **Middle School/Junior High School Organization, Philosophy and Curriculum (3)**
Prerequisite: ED FND 111. A study of the unique history, goals, philosophy and organization of the middle school/junior high school with a focus on curriculum and instruction. Intended to aid future teachers interested in middle school/junior high school teaching.

222 **The Curriculum and Methods of Teaching English (3)**
(Same as English 262). Prerequisites: SEC ED 213 and a near major in the subject matter. A study of the scope and sequence of the English course in the school curriculum with emphasis on the selection and organization of materials and methods of instruction and evaluation. Attention is also directed toward learning the techniques and research tools of the scholar in the field of English. To be taken concurrently with student teaching.

240 **The Curriculum and Methods of Teaching Physical Sciences (3)**
(Same as Chemistry 280 and Physics 280). Prerequisite: SEC ED 213 and a near major in the subject matter. A study of the scope and sequence of the physical science courses in the school curriculum, with emphasis on the selection and organization of materials and methods of instruction and evaluation. Attention is also directed toward learning the techniques and research tools of the scholar in the field of science. To be taken concurrently with student teaching.

244 **Laboratory in Teaching the Life Sciences (2)**
(Same as Biology 286). Prerequisite: SEC ED 213. Discussion, development, utilization and evaluation of equipment, materials and techniques applicable to instruction in the life sciences. Must be taken concurrently with Biology 286/SEC ED 245.

245 **The Curriculum and Methods of Teaching the Life Sciences (3)**
(Same as Biology 285). Prerequisites: SEC ED 213 and a near major in the subject matter. A study of the scope and sequence of the life sciences courses in the school curriculum, with emphasis on the selection and organization of materials and methods of instruction and evaluation. Attention is also directed toward learning the techniques and research tools of the scholar in the field of science. To be taken concurrently with student teaching.

246 **The Curriculum and Methods of Teaching Mathematics (3)**
Prerequisites: SEC ED 213 and a near major in the subject matter. A study of the scope and sequence of the mathematics courses in the school curriculum with emphasis on the selection and organization of materials and methods of instruction and evaluation. Attention is also directed toward learning the research tools of the scholar in the field of mathematics. To be taken concurrently with student teaching.

256 **The Curriculum and Methods of Teaching History and Social Studies (3)**
(Same as History 265). Prerequisites: SEC ED 213 and a near major in the subject matter. A study of the scope and sequence of the history and social studies courses in the school curriculum with emphasis on the selection and organization of materials and methods of instruction and evaluation. Attention is also directed toward learning the research tools of the scholar in the field of history and social studies. (Not counted as credit for a major in history). To be taken concurrently with student teaching.

261 **Methods of Teaching Typewriting (3)**
Prerequisite: Intermediate Typewriting or equivalent. Instruction in the methods and techniques used to teach basic and advanced typewriting.

262 **Methods of Teaching Shorthand (3)**
Prerequisites: SEC ED 161, or equivalent. Instruction in methods and techniques used in teaching Gregg shorthand, dictation, and transcription with emphasis on planning and organizing a shorthand laboratory and a secretarial practice laboratory.

263 **Methods of Teaching Accounting and Data Processing (3)**
Prerequisites: Business Administration 140, 340, or equivalent. Methods and techniques of teaching data processing and accounting in the secondary schools.

264 **Methods of Teaching Social Business Subjects (3)**
Prerequisites: Economics 51, Business Administration 156, 206 and 259. Methods and techniques of teaching general business, business law, economics, consumer economics, and business principles and management in the secondary curriculum.

265 **Secretarial Practice (3)**
Prerequisite: SEC ED 161 and SEC ED 163 or consent of instructor. Study of secretarial office procedures; office-style dictation for transcription; word processing; office machines; records management.

267 **The Curriculum and Methods of Teaching Business Subjects (3)**
Prerequisites: SEC ED 213, 261, 262, 263, 252 and near major in subject matter. Study of the scope of business education courses in the high school curriculum, with emphasis on Business English, distributive education programs, organizations and publications. Attention is also directed toward learning the research tools of the scholar in the field of business education. To be taken concurrently with student teaching. Course meets first four weeks and last week of semester.

273 **The Curriculum and Methods of Teaching Art (3)**
Prerequisites: SEC ED 213 and a near major in the subject matter. A study of the scope and sequence of art courses in the school curriculum, with emphasis on the selection and organization of materials and methods of instruction and evaluation. Attention is
Administration, Foundations, and Secondary Education

also directed toward learning the techniques and research tools of the scholar in the field of art. To be taken concurrently with student teaching.

274 The Curriculum and Methods of Teaching Foreign Language (3)
(Same as French, German and Spanish 284) Prerequisites: SEC ED 213 and a near major in the subject matter. A study of the scope and sequence of the foreign language courses in the school curriculum with emphasis on the selection and organization of materials and methods of instruction and evaluation. Attention is also directed toward learning the techniques and research tools of the scholar in the field of foreign language. To be taken concurrently with student teaching.

275 Philosophic and Practical Foundations of the Secondary Music Education Curriculum (1)
Prerequisites: Music 112, Music 257/ELE ED 277, and ED FND 111; Concurrent registration in Music 261, Music 268/SEC ED 276 or Music 269/SEC ED 277 and Music 270/SEC ED 278 or Music 271/SEC ED 278. For Music Education majors. A study of the secondary school music program: curricular objectives, philosophy, and general administrative procedures common to all secondary music classes.

276 Curriculum and Methods of Teaching Elementary/Middle/Junior High Instrumental Music (2)
Prerequisites: Music 112, Music 257/ELE ED 277, and ED FND 111; Concurrent registration in Music 261; Music 267/SEC ED 276 and Music 270/SEC ED 278. A study of the teaching techniques, materials, curriculum, and organization of the beginning instrumental music program in the elementary and middle/junior high school.

277 Curriculum and Methods of Teaching Middle School/Junior High School General Music (2)
Prerequisites: Music 112, Music 257/ELE ED 277, and ED FND 111; concurrent registration in Music 261. Music 267/SEC ED 276, Music 268/SEC ED 276. For the music education major. A study of the high-school instrumental music program: curriculum, methods, teaching techniques, organization, and administrative procedures for instrumental performance classes.

279 Curriculum and Methods of Teaching Secondary Choral Music (2)
(Same as Music 271) Prerequisite: Music 112, Music 257/ELE ED 277 and ED FND 111. Concurrent registration in Music 261, Music 267/SEC ED 275, Music 269/SEC ED 277. For the music education major. Study of the secondary school choral music program: curriculum, methods, teaching techniques, organization, and administrative procedures for choral performance classes.

290 Secondary School Student Teaching (6)
Prerequisites: SEC ED 213 and admission to student teaching. Clinical teaching experience in secondary school classrooms under University and school supervision. To be taken concurrently with appropriate curriculum and methods course.

291 Field Experience and Seminar in Secretarial Practice (3)
Prerequisites: ED FND 111, SEC ED 265 and admission to School of Education. Experience in office procedures. To be taken before student teaching.

293 Student Teaching in Music Education, K-6 (6)
Prerequisites: ELE ED 210, SEC ED 213, Music 257/ELE ED 277, Music 267/SEC ED 276 and Music 270/SEC ED 278. A study of the teaching techniques, materials, curriculum, and organization of the beginning instrumental music program in the elementary and middle/junior high school.

294 Student Teaching in Music Education, 7-12 (6)
Prerequisite: SEC ED 293. Must be taken “in block” with SEC ED 294 and must immediately precede it in the semester. Clinical teaching experience in music education settings in the schools under University and school supervision with seminar included. Required of all majors in music education.

295 Music 268/SEC ED 276. For the music education major. A study of the high-school instrumental music program: curriculum, methods, teaching techniques, organization, and administrative procedures for instrumental performance classes.

312 Secondary School Curriculum (3)
Prerequisite: SEC ED 213. Sources, scope, and organization of the curriculum, modern trends, and methods of investigation.

360 Administration and Supervision of Office Personnel (3)
Prerequisite: Consent of instructor. An advanced course in office administration and supervision designed to meet the needs of business personnel involved in administrative office management work; emphasis on updating leadership and human relations skills, organizing, planning, controlling office services, and business data processing systems.

395 Problems of Teaching Reading in Secondary Schools (3)
Prerequisite: ED FND 111. Methods and materials for improving reading in secondary school classes, including content fields.

415 The Secondary School Curriculum (3)
For secondary school principals, teachers, and superintendents. Present methods in curricular change and methods of curricular investigation.

418 The Junior High/Middle School Curriculum (3)
Prerequisite: SEC ED 415 or consent of instructor. Designed for those engaged in curriculum revision work and construction of new secondary school courses.

418 The Junior High/Middle School (3)
Survey of the progress of the junior high/middle school, including the study of more important problems of organization and administration.
**Administration, Foundations, and Secondary Education**

420 The Improvement of Secondary School Teaching (3)
For secondary school teachers, principals, and superintendents with considerable training in education and experience in teaching. Recent developments in secondary school teaching.

422 Individualizing Instruction in Secondary Schools (3)
The course, based on research and theory, will serve as a model of secondary school individualized instruction and is designed for both teaching and administrative personnel. Macro concepts such as: (1) the model schools project, (2) IGE procedures for individualization, (3) I/D/E/A theories of individualization and other models of individualized instruction may be chosen for individual concentration. Teachers will focus on learning packages, learning contracts, learning centers, audio-tutorial teaching, the Keller plan, independent study, mini-courses and other techniques of individualization.

425 Secondary School Supervision (3)
Methods of improving instruction in junior and senior high schools.

427 Supervision of Clinical Experiences in Teacher Education (3)
Prerequisite: Teaching experience and consent of instructor. A consideration of the clinical phase of the teacher education program, with special emphasis on student teaching. Examination of role responsibilities and supervisory practices. Study of professional literature for research findings, theoretical formulations and, recent developments in the field.

429 The Department Head (3)
This course emphasizes the role of the department chairperson as an educational leader. Theoretical concepts are related to sound practice. The potential for the job is discussed as well as the roadblocks to successful execution. Appropriate for practicing department chairpersons, school administrators, or classroom teachers interested in acquainting themselves with this position.

430 Problems of Teaching English in the Secondary School (3)
A review of recent developments in the teaching of secondary English. Special attention is given to research involving instructional problems in urban and suburban schools. The course is designed for teachers, department heads and supervisors in secondary English programs.

**Behavioral Studies**

Courses in this section are grouped as follows: Counselor Education (CNS ED), Educational Psychology (ED FSY), Evaluation and Measurement (EVL MS), Special Education (SPC ED).

Prerequisites may be waived by consent of the department.

431 Principles and Procedures of Student Personnel Work (3)
Student personnel work in educational institutions, objectives of student personnel work, and certain pertinent techniques.

432 Occupational and Educational Information (3)
Nature and use of occupational and educational information. Characteristics, requirements of occupations, and training opportunities.

434 Group Procedures in Counseling (3)
Emphasis is on a survey of theory and research in group structure and processes. Students are expected to participate in an intensive group experience and conduct a group themselves under the instructor's supervision.

435 Principles and Procedures of Student Personnel Work (3)
Student personnel work in educational institutions. Objectives of student personnel work and certain pertinent techniques.
Behavioral Studies

436 Student Personnel Work in Higher Education (3)
A survey course in student personnel administration with an emphasis on understanding the college student and on learning ways to meet both his academic and non-academic needs.

442 Career Information (3)
Career Development (3)
Emphasis is on current theories of vocational development and their application to interest, aptitude, and ability tests, and significantly related to vocational development.

451 Counseling Parents of Exceptional Children (3)
The development of counseling skills to enable human service professionals to interact productively with families who have handicapped children.

497 Problems (1-10)

Educational Psychology (ED PSY)

211 Growth and Development (3)
Comprehensive study of chronological age norms and the process of growth and development throughout the entire life span. There will be special emphasis on childhood, adolescence, and senescence.

312 The Psychology of Teaching and Learning (3)
Prerequisites: ED FND 111, Psychology 270 or 271, and admission to the School of Education. Application of the principles of psychology to an understanding of the dynamics of teaching behavior and learning behavior. Involves both theoretical and practical approaches to analysis of the learning environment of the school. Required of all who are preparing to teach.

325 Education and the Psychology of Human Sexuality (3)
The course is designed to provide educators and other human services personnel knowledge and understanding of various personal and social dimensions of human sexuality.

404 Seminar (1-10)

411 Psychology of Learning Processes (3)
An advanced course in the application of psychological theories and principles to the problems of the teacher, counselor, administrator, and others in the helping professions.

413 Personality Development and Adjustment (3)
A course in personality development, personality structure, and the dynamics of adjustment. Course materials are oriented to the applied problems of counselors, teachers, administrators, and others in the helping professions.

416 Psychology of Early Childhood Development (3)
A survey of current research on the development of children, ages birth to six, including research in the laboratory, in the home, and in day care and in early intervention projects.

417 Psychology of the Elementary School Child (3)
The application of educational psychology to problems of teaching in the elementary school.

418 The Psychology of Adolescence (3)
A critical psychological analysis of studies and investigation of the various aspects of adolescence.

420 Behavioral Analysis of Human Learning (3)
Prerequisite: Graduate standing. A course in the principles of human learning and the technology of behavior modification, from the perspective of the teaching and counseling professions. Emphasis is placed on its application to school learning and behavior problems and to social behavioral patterns in a variety of appropriate counseling settings.

497 Problems (1-10)

Evaluation and Measurement (EVL MS)

310 Interpretation of Educational Tests and Measurements (3)
A study of the principles of psychometrics with emphasis upon the classroom interpretation of group tests of intelligence and achievement. Required of all majors in special education.

331 Classroom Measurement and Evaluation I (3)
Tests and measurements for the classroom. Basic measurement principles; test planning, construction and use of selection type tests, supply type tests and performance tests; item analysis procedures; methods of summarizing test scores; determining derived scores and norms; and pupil evaluation.

412 Applications of Computers in Education (3)
Prerequisite: ED S&R 427 or consent of instructor. Review of a computer language and evaluation of the various uses and capabilities of computers in the teaching, administration, and counseling areas of education. Familiarization with computing facilities and package programs.

422 Individual Intelligence Testing (3)
Prerequisite: A course in group testing. Study of the Stanford-Binet Scale and other individual tests of intelligence. Practice in administering and interpreting the tests.

431 Classroom Measurement and Evaluation II (3)
Prerequisite: EVL MS 331 or equivalent is strongly recommended. Descriptive statistical procedures, norms and correlations, reliability, error of measurement and validity; measurement of aptitude, achievement, interests and attitudes; and personal-social adjustment.

432 Educational and Psychological Measurement (3)
Prerequisite: ED S&R 427. General theory of measurement; interpreting test data, derived scores; theory of psychological tests; reliability and validity; measurement of achievement and aptitude, interests and attitudes and personal-social adjustment.

434 Multivariate Analysis Methods in Education (3)
Prerequisite: ED S&R 427. The study and application of discriminant, canonical, factor, cluster, and MANOVA analysis in the evaluation of educational problems.

436 Multiple Linear Regression in Education (3)
Prerequisite: ED S&R 427 or consent of instructor. Evaluation of educational programs and hypotheses using linear regression models. Application of computer programs to analyze the usefulness and efficiency of educational models for decision making in teaching, administration, and counseling.
Behavioral Studies

497 Problems (1-10)
Individual study on topics pertaining to evaluation and measurement.

Special Education (SPC ED)

192 Field Experience in Special Education (3)
Intensive early field experience involving on-site observation and limited participation with exceptional individuals in schools and/or other educational agencies. This course is open to all students.

205 Seminar in Classroom Teaching (2)
Prerequisites: SPC ED 313 and SPC ED 332 and admission to student teaching. Must be taken “in block” with SPC ED 290 and SPC ED 291. Seminar focuses on the student-teaching experience as it relates to increasing the student teacher’s knowledge of teaching, refining individual teaching styles and skill, extending understanding of curriculum, and developing a classroom organization that will lead to appropriate environment and interaction. Required for all majors in special education.

242 Characteristics of Learning Disabilities (3)
A study of the divergent characteristics of children with perceptual impairments. This course consists of fifteen half-hour tapes, designed to offer instruction at an undergraduate level on the nature of children with learning disabilities, and the roles of educators, parents, and auxiliary personnel in diagnosis and remediation. Historical perspectives and future trends will be explored. The tapes are followed by student contact with the instructor, for discussion, work evaluation, and testing.

290 Student Teaching in Special Education I (5)
Prerequisites: SPC ED 313, SPC ED 320, SPC ED 332 and admission to student teaching. Must be taken “in block” with SPC ED 206 and SPC ED 291 and must immediately precede SPC ED 291 in the semester. Clinical teaching in special education classrooms in schools under University and School supervision. Required for all majors in special education.

291 Student Teaching in Special Education II (5)
Prerequisite: SPC ED 290. Must be taken “in block” with SPC ED 206 and SPC ED 290, and must immediately follow SPC ED 290 in the semester. Clinical teaching in special education classrooms in schools under University and School supervision. Assignments will be in different school districts, buildings, serving families of different socio-economic and cultural backgrounds, and at different grade levels from those of the SPC ED 290 assignments. Required for all majors in special education.

311 Sex Education for Exceptional Individuals (3)
Prerequisite: Consent of instructor. This course is designed to give teachers a thorough knowledge and understanding of the issues, problems, teaching techniques and the current curricular resources of teaching sex education to handicapped individuals.

313 The Psychology and Education of Exceptional Individuals (3)
Prerequisite: Psychology 270 or 271 or equivalent. The psychology and education of individuals with special problems and/or abilities. Survey of theories and strategies for the learning-teaching process and of sources of assistance to educators and parents. Required in certification programs.

315 Speech and Language Problems of Exceptional Children (3)
Prerequisites: SPC ED 313 and admission to the School of Education. Study of the problems associated with speech and language development and the techniques employed by classroom teachers to lessen these problems for children. Required for all majors in special education.

320 Behavior Management (3)
Prerequisites: SPC ED 313 and an appropriate introductory course in the special education area of concentration. An in-depth exploration of various behavior control techniques that are particularly applicable to exceptional children. Students will be required to conduct at least one behavior modification project with exceptional children.

330 Introduction to Mental Retardation (3)
Prerequisites: ED FND 111, SPC ED 313, and admission to the School of Education. An introductory course dealing with the characteristics, classification and causes of the mentally retarded.

332 Education of the Mentally Retarded (3)
Prerequisites: ED FND 111, SPC ED 313, SPC ED 330, and admission to the School of Education. Methods and techniques of use in the education of mentally retarded children. Required of all who are preparing for certification in special education for the mentally retarded.

370 Sensory-Motor Development of the Severely Handicapped (3)
Prerequisite: SPC ED 330 or equivalent or consent of instructor. An examination of basic sensory-motor development and associated disorders to enable teachers to work more effectively with occupational and physical therapists. Basic techniques used by therapists are presented together with an exploration of the teacher's role regarding sensory-motor programming. Required for certification in teaching individuals with severe handicaps.

382 An Introduction to Gifted Children (3)
Prerequisite: SPC ED 313. This course provides an introduction to gifted children. Their characteristics, cognitive abilities, special abilities and creativity will be reviewed. Current problems, research, and issues concerning the gifted are covered.

384 The Education of Gifted Children (3)
Prerequisite: SPC ED 313. This course deals with methods, techniques, and curricular modifications necessary for the effective education of gifted children.

390 Student Teaching in Special Education III (5)
Prerequisites: SPC ED 291 or equivalent and admission to student teaching. Clinical teaching experience in special education classrooms in schools under University and School supervision with seminar included. For students who wish an additional student teaching experience.

412 Psychology of Exceptional Children (3)
An in-depth analysis of the unique psychological problems of exceptional children and youth. Current psychological theories and research emphasized.

416 Current Research in Psychology of Exceptional Children (3)
Prerequisite: Permission of instructor/adviser. A study of current issues, trends, and major research in special education. Areas of investigation shall center around major developments in exceptionalities, situations relative to programming projected needs, and considerations and utilization of investigation of the exceptional individual. Graduate students should have experience or an undergraduate background in exceptionalities prior to admission to this course.

421 Prescriptive Teaching of Exceptional Children (3)
Prerequisite: SPC ED 412. Course will instruct teachers on how to develop and implement prescriptive educational programs for exceptional children and
Behavioral Studies

adolescents based upon available information. Students will become familiar with prescriptive systems which will enable them to utilize sources of information for remedial and developmental needs.

430 Education of the Mentally Retarded (3)
A study of the psychological aspects of mental retardation with regard to etiology, intellectual capabilities, characteristics, and personality structure. Application to learning theories with emphasis upon curricular approaches and materials. Administrative organization and structure for provision of services.

431 Problems in Mental Retardation (3)
Prerequisite: Permission of instructor. A study of learning characteristics, evaluation, teaching techniques and methods, and curriculum adaptations for the mentally retarded.

433 Learning Disabilities (3)
Prerequisite: SPC ED 412. An advanced study of the psychological and theoretical problems germane to the area of learning disabilities with particular emphasis on the application of current research findings to the solutions of these problems.

444 Education of Children With Learning Disabilities (3)
Prerequisite: SPC ED 443. A systematic study of modern educational procedures for children with learning disabilities. Methods and materials for educating children with learning disabilities are stressed.

450 Introduction to Behavioral Disorders (3)
Prerequisite: SPC ED 412. An advanced study of the psychological and sociological problems germane to behavioral disorders with particular emphasis on the application of current research findings to the solutions of these problems.

452 Education of Behaviorally Disordered Children (3)
Prerequisite: SPC ED 450. A systematic study of modern educational practices for behaviorally disordered children. Methods and materials for educating behaviorally disordered children are stressed.

462 Introduction to Early Childhood-Special Education (3)
Prerequisite: SPC ED 412. A study of issues and concepts central to special education for the young handicapped child. Focus will be placed upon program models, screening and assessment procedures, and curriculum concepts. An ecological approach to special education will be emphasized.

463 Curriculum, Methods, and Materials for Early Childhood Special Education (3)
Prerequisite: SPC ED 412 and 462. In-depth study of integrated assessment-based curriculum development for pre-school handicapped children. Emphasis will be on individualized educational planning and implementation.

470 Introduction to the Severely Handicapped (3)
Prerequisite: SPC ED 412 or consent of instructor. Introduces students to characteristics of and services for the severely handicapped: origins and impact of multiple disabilities; reorientations in goals, interventions and service-delivery. Required for certification in teaching the severely handicapped.

472 Screening and Diagnosis of the Developmentally Delayed (3)
Prerequisites: EVL MS 310 or equivalent; and SPC ED 462 or SPC ED 470 or consent of instructor. This course addresses the content, techniques, and special problems related to the assessment of handicapped individuals in the birth-to-age-five developmental range. Students gain experience in construction, administration, and interpretation of assessment tools used with low functioning handicapped individuals. Required for certification in severe handicaps and early childhood/special education.

473 Methods and Curricula for the Severely Handicapped (3)
Prerequisite: SPC ED 462 or SPC ED 470 or consent of the instructor. The course begins with the application of the clinical teaching model to the severely handicapped population regarding objectives, training methods, and program progress monitoring. It also includes critical analyses of existing curricula and methods of classroom or living-unit organization. Required for certification in severe handicaps.

482 Practicum in Special Education (3-6)
Prerequisite: Two courses in area of concentration. A supervised internship in educating exceptional children in a school setting or other appropriate site.

497 Problems (1-10)
Prerequisite: SPC ED 412 or equivalent. Selected problems on student-learner exceptionalities for individuals at the post-baccalaureate level.

Childhood Education

Courses in this section are grouped as follows: Early Childhood Education (ECH ED) and Elementary Education (ELE ED).

Prerequisites may be waived by consent of the department.

Early Childhood Education (ECH ED)

206 Seminar in Classroom Teaching (2)
Prerequisites: ELE ED 230, 336 or 385; ECH ED 333, 341 and 361; and admission to student teaching. Must be taken "in block" with ECH ED 290 and 291. Seminar focuses on student-teaching experience as it relates to teaching: on refining individual teaching styles and skill; on extending understanding of curriculum; and on developing a classroom organization that will lead to appropriate environment and interaction. Required for all majors in early childhood education.

220 Student Teaching in Early Childhood Education I (6)
Prerequisites: ELE ED 230, 336 or 385, ECH ED 333, 341 and 361; and admission to student teaching. Must be taken "in block" with ECH ED 205 and 291, and must immediately precede ECH ED 291 in the semester. Clinical teaching experience in early childhood education classrooms in the schools under University and School supervision. Required for all majors in early childhood education.

221 Student Teaching in Early Childhood Education II (6)
Prerequisite: ECH ED 290. Must be taken "in block" with ECH ED 205 and 290, and must follow ECH ED 290 in the semester. Clinical teaching experience in early childhood education classrooms in the schools under University and School supervision. Assignments will be in different school districts, buildings serving families of different socio-economic and cultural backgrounds, and at different age/grade levels from those of the ECH ED 290 assignments. Required of all majors in early childhood education.

312 Principles of Early Childhood Education (3)
Prerequisites: ED FND 111 and ED PSY 312. Study of basic principles underlying good schools for young children. Students will use theoretical base as well as on-site observations to develop an awareness of teaching-learning strategies appropriate for the developmental needs of children from birth through age eight. Scheduling, classroom arrangement, and child management
practices will be considered. Throughout
the course, students will be expected to
begin developing their own philosophy of
early childhood education.

314 Curriculum, Methods, and
Materials for Early Childhood
Education (3)
Prerequisite: ECH ED 312. Curriculum
development for pre-school and early
primary including writing and sequencing
objectives, constructing activities and
materials, and using lesson plans with
young children. Curriculum areas also
include science and social studies.
Individualization for special needs is
emphasized.

317 Assessing Individual Needs
for Early Childhood Instruction (3)
Prerequisites: ED FND 111 and ED PSY
312. Techniques of observing children and
using assessment instruments to plan an
individualized program for early childhood.

321 Parent and Community
Resources in Early Childhood Education (3)
Prerequisite: Admission to the School of
Education or graduate status. Competencies
for working with parents and community
agencies will be developed through a study
of community and community resources.
Procedures for parent participation and use
of service agencies in the education of all
young children, including those with special
needs, will be examined.

331 Language Acquisition and
Development in Early Childhood (3)
Prerequisite: ED PSY 312. Development of
language and the effects that environmental and
cultural factors have on the acquisition
process. Identification of language problems
for purpose of referral. Practicum
experiences included.

333 Creative Experiences for Young
Children (3)
Prerequisite: Admission to the Teacher
Education Program or consent of instructor.
Materials, techniques, and resources for
promoting cognitive, affective, and
perceptual motor development through the
use of art media, songs and rhythms, play
and creative dramatics. Course includes a
20-hour practicum.

341 Exploring the Physical World
With Young Children (3)
Prerequisites: ECH ED 312 and completion of
science requirements in general
education. A study of and experiences with
materials, techniques and resources for
broadening the child’s awareness and
understanding of science.

346 The Acquisition of Mathematical
Concepts (3)
Prerequisite: ELE ED 246 or equivalent and
consent of instructor. Applications of the
major theorists (Bruner, Piaget, Gagne,
etc.) to mathematics for children of mental
ages 3-8. Considerations suggested by
research and implications in the areas of
logical thinking, pre-number ideas,
geometry, topology, problem solving and
arithmetical operations.

351 Exploring the Social World With
Young Child (3)
Prerequisites: ECH ED 312 and completion of
social science requirements in general
education. A study of and experience with
materials, techniques and resources for
furthering the child’s mastery of the skills of
communication; his understanding of
people, social roles, society, and various
cultures; and his ability to develop
satisfying relationships with peers and
adults.

390 Student Teaching in Early
Childhood Education III (5)
Prerequisites: ECH ED 291 or equivalent and
admission to student teaching. Clinical
teaching experience in early childhood
education classrooms in the schools under
University and School supervision with
seminar included. For students who wish an
additional student teaching experience.

410 Foundations of Preschool
Education (3)
Prerequisite: A course in child psychology
or equivalent. A study of the various types
of early childhood programs and the
philosophy upon which they are based.
Attention will also be directed to the
implementation of such programs, problems
of parent involvement, and the social
environment of the children.

487 Problems (1-10)
Prerequisite: Graduate standing. Individual
study on topics pertaining to early
childhood education.

Elementary Education
(ELE ED)

082 Effective Reading and Study
Skills (2)
Designed to increase reading rate and
comprehension and to develop study
techniques appropriate to the purpose and
difficulty of materials. Use is made of
mechanical pacer, comprehension tests,
vocabulary materials, and lecture
demonstrations. No credit toward a
degree.

177 Elementary School Music (2)
(Same as Music 137). Prerequisite: Music
136 or consent of department. The role of
the classroom teacher in the development
of the elementary school general music
program; selection of music, demonstration
and practice of methods, and study of
resources. This course will not apply toward
requirements for a music major.

179 Art Activities for Elementary
Schools (3)
(Same as Art 134). A study of art
principles; provides laboratory experiences
with various media and materials. Stresses
curriculum planning and developments of
the elementary school program in art.

192 Educational Laboratory/Field
Experience (1-3)
A laboratory/field experience requiring
systematic observation and/or participation
in appropriate educational settings. To
precede student teaching. May be repeated
to maximum of three hours.

205 Seminar in Classroom Teaching (2)
Prerequisites: ELE ED 230 or 331; 241, 246,
253, 356 and admission to student teaching.
Must be taken “in block” with ELE ED 290
and 291. Seminar focuses on the student-
teaching experience as it relates to
increasing the student teacher’s knowledge
of teaching, refining individual teaching
styles and skill, extending understanding of
curriculum, and developing a classroom
organization that will lead to appropriate
environment and interaction. Required for
all majors in elementary education.

210 Elementary School Organization,
Management and Techniques of
Teaching (3)
Prerequisites: ED FND 111 and admission to
the School of Education. Organization and
management of the elementary classroom
emphasizing social factors affecting
elementary schools. Formal and informal
organizations in the school, relating to
administrative-teacher-pupil interactions and
teacher-learning environment and general
techniques of teaching.

230 Children’s Literature and
Reading (3)
Prerequisite: Junior standing. A course
designed to provide a knowledge of the
various types of literature for young people,
including books, magazines, comics,
television, and films; criteria for evaluating
and selecting material; uses of material in
the classroom and home; and motivating
reading for enjoyment and information,
bibliotherapy, and communication.
Childhood Education

241 Teaching of Science in the Elementary School (3)
Prerequisites: ED FND 111, junior standing and completion of science requirements in general education. A study of elementary school science emphasizing the current science curricular content, methods of teaching and instructional materials. Analysis of forces affecting objectives, materials and teaching techniques.

246 Teaching Mathematics in the Elementary School (3)
Prerequisites: ED FND 111, junior standing and completion of mathematics requirements in general education. Organization and implementation of a modern elementary school mathematics program.

253 Teaching of Social Studies in the Elementary School (3)
Prerequisites: ED FND 111, junior standing and completion of social science requirements in general education. Study of elementary school social studies, emphasizing the current social studies curricular content, methods of teaching and instructional materials. Analysis of forces affecting objectives, materials, and teaching techniques.

277 Teaching Music in the Elementary School (3)
(Same as Music 257) Prerequisites: Music 112 and ED FND 111. For the music education major. A study of the elementary school music curriculum emphasizing the objectives, methods of teaching and staffing music classes, and analysis of instructional materials and resources.

290 Elementary School Student Teaching I (5)
Prerequisites: ELE ED 230 or 336; 241, 246, 253, 285 and admission to student teaching. Must be taken “in block” with ELE ED 205 and 291, and must immediately precede ELE ED 291 in the semester. Clinical teaching experience in elementary school classrooms under University and school supervision. Required for all majors in elementary education.

291 Elementary School Student Teaching II (5)
Prerequisite: ELE ED 290. Must be taken “in block” with ELE ED 205 and 290 and must immediately follow ELE ED 290 in the semester. Clinical teaching experience in elementary school classrooms under University and school supervision. Assignments will be in different school districts, buildings serving families of different socio-economic and cultural backgrounds, and at different grade levels from those of the ELE ED 290 assignments. Required for all majors in elementary education.

310 Elementary School Curriculum (3)
Prerequisite: ELE ED 291 and junior standing. A study of modern education with regard to objectives, content, and methods in elementary school curriculum.

336 Teaching Language Arts and Reading N-9 (3)
Prerequisites: Six hours of English/ Speech; ED PSY 312. Involves study of methods and materials for implementing a total language arts program, including reading in the elementary school. Emphasis is placed on using the language experience approach in teaching listening, reading, spelling, handwriting, grammar and spoken or written composition as basic skills.

346 Advanced Methods in Elementary School Mathematics (3)
Prerequisites: ELE ED 246 and consent of instructor. Review, evaluate, develop and provide classroom trial of instructional components prepared for teaching mathematics. Course will develop greater depth of preparation in: elementary program content; programs for exceptional children; and curricular extensions such as transformational geometry, rational numbers and intuitive algebra.

385 Teaching Reading in the Elementary School (3)
Prerequisite: ED PSY 312 and junior standing. Methods and materials of improving word perception, vocabulary, comprehension and interests in independent reading.

387 Teaching Reading and Language Arts to Culturally Diverse Children (3)
Prerequisites: ELE ED 205 and 290 and senior standing. Systematic study of the problems of teaching reading and related language arts in ghetto schools. Attention is given to the areas in which the selection of materials and methodology of teaching reading to inner city children is influenced by their physical and psychological needs, their experience backgrounds, their spoken language patterns, their cultural heritage, and the sociology of their environment.

389 The Analysis and Correction of Reading Problems in the Classroom (3)
Prerequisites: ELE ED 385 or equivalent. Study of causes of reading difficulties and procedures that may be used to analyze and correct them in the group setting.

390 Elementary School Student Teaching III (5)
Prerequisites: ELE ED 291 or equivalent and admission to student teaching. Clinical teaching experience in elementary school classrooms under University and school supervision with seminar included. For students who wish an additional student teaching experience.

405 Seminar (1-10)

410 Elementary School Curriculum (3)
Survey methods of modern educational thought with regard to objectives, content, methods in elementary school curriculum.

411 The Elementary Teacher: Humanizing Decision Making (3)
Instructional decision-making skills will be developed through the analysis of problem situations. Through the implementation of decision-making models, students will analyze concrete classroom problems, consider alternative solutions, plan, and evaluate subsequent outcomes.

422 Curriculum Construction in Elementary Schools (3)
A study of the elementary curriculum with regard to selection of objectives and content and to provisions for curricular change.

423 Curricular Implementation in the Elementary School (3)
Prerequisite: ELE ED 422. Culminating experience for curricular project in ELE ED 422. Course will include procedures and techniques for curricular design implementation in the field.

425 Elementary School Supervision (3)
Organized to study such problems in field of supervision as will meet needs of superintendents, principals, and special supervisors.

427 Supervision of Clinical Experiences in Teacher Education (3)
Prerequisite: Teaching experience and consent of instructor. A consideration of the clinical phase of the teacher education program, with special emphasis on student teaching. Examination of role responsibilities and supervisory practices. Study of professional literature for research findings, theoretical formulation, and recent developments in the field.

430 Problems of Teaching the Language Arts (3)
Procedures used in teaching integrated language arts in elementary schools.
Childhood Education

432 Problems and Research in Elementary School Language Arts (3)
Prerequisites: ELE ED 430, EVL MS 431 and six hours of English. A systematic study of research in teaching speaking, listening, written composition, handwriting, spelling, and linguistics as it focuses on the problems of teaching these skills in the elementary school. Attention is given to innovations in the field.

436 Children's Literature I: Survey and Analysis (3)
A survey of children’s literature published in the last ten years. Special emphasis will be placed on the relationship between children's literature and contemporary issues of society. Students will experience the materials themselves rather than reading about books. In addition, students will begin to study the literary elements that make literature interesting and meaningful for children.

437 Children's Literature II: Selection and Functions (3)
Prerequisite: ELE ED 436. The study of literary elements that make literature interesting and meaningful for children will be completed. Further emphasis will focus on the application of trade books for children as resources in school curricula planning.

441 Problems and Research in Teaching Elementary School Science (3)
Prerequisites: Eight hours of science, ELE ED 241, ED PSY 411. A thorough examination of research related to elementary school science instruction with particular emphasis on innovative programs. Includes methods of investigation and techniques for interpreting the professional literature.

442 Teaching Physical Science in the Elementary School (3)
Activity-oriented experiences with basic physical science concepts, laboratory skills, and techniques that are appropriate for elementary school teachers. The physical science concepts in elementary school curricula will be analysed in depth.

444 Environmental Studies for Elementary Teachers (3)
Activity-oriented training in developing environmental awareness, field and/or laboratory skills and techniques, and the use of elementary environmental curricula. Materials and activities appropriate for one's students and locale will be developed.

445 Problems of Teaching Arithmetic in the Elementary School (3)
A study of the mathematics program in the elementary school from the viewpoint of goals, content, techniques, and evaluation.

446 Curriculum and Methods of Teaching Measurement in Mathematics: Metric and Standard Systems (3)
Prerequisite: ECH ED 346 or ELE ED 246. Curricular development and implementation on reflecting recent research findings. Content, materials, methods of teaching the general topic: measurement. Applications in both the metric and standard systems.

447 Problems and Research in Teaching Elementary School Mathematics (3)
Prerequisite: ELE ED 445. A thorough examination of research related to recurrent problems in elementary school mathematics instruction, as well as current problems arising within modern programs. Includes methodology appropriate to investigation of such problems and techniques for assessment of the literature.

448 Diagnosis and Remediation of Disabilities in Learning Mathematics (3)

450 Problems of Teaching Social Studies in the Elementary School (3)
A classroom-oriented study of curricular and instructional problems encountered in social studies. Emphasis is placed upon development of materials, techniques, and resources.

452 Problems and Research in Teaching Elementary School Social Studies (3)
Prerequisite: ELE ED 450. An advanced study of pedagogical problems germane to social studies education with particular emphasis on application of research findings to the solution of classroom problems.

456 Clinical Diagnosis and Treatment of Reading Disabilities (3)
Prerequisites: A graduate course in reading and in measurement or statistics. Etiology of specific reading disability, procedures that are used to diagnose and treat in the clinical setting.

482 Problems and Research in Teaching Elementary School Reading (3)
Prerequisite: ELE ED 486 or equivalent. Systematic study of research as it focuses on the problems of teaching reading in the elementary school. Attention is given to innovations in the field.

484 Developmental Reading (K-13) (3)
Prerequisite: ELE ED 486 or SEC ED 385 or equivalent. Designed to update classroom teachers' skills in reading instruction. Study of basic reading instruction at all grade levels with special emphasis on current instruction programs, innovative approaches to reading instruction, basic techniques, commercial reading materials, and recent research findings which have a bearing on methodology.

486 Diagnosis and Remediation of Disabilities in Learning Mathematics (3)
Prerequisite: ELE ED 486, EVL MS 422. Clinical experience in diagnosing learning problems, especially reading disability, in school children.

493 Clinical Methods in Child Study I (3)
Prerequisites: ELE ED 486, EVL MS 422. Clinical experience in applying remedial procedures to school children with learning problems, especially reading disability.

495 Supervision of Practicum in Clinical Reading (3)
Prerequisites: ELE ED 386 or SEC ED 385, ELE ED 486, 493, 494; EVL MS 386 and 422. Supervising graduate students in diagnosis and remedial process within the reading clinic.

497 Problems (1-10)
Selected problems to meet the needs of individual students.
Physical Education

Prerequisites may be waived by consent of the department or the instructor.

122 Analysis and Teaching of Aquatic Sports (3)
Prerequisite: Established proficiency in aquatics or consent of instructor. Study and performance of aquatic skills. Particular emphasis on safety and instructional techniques leading to the water safety instructor's certificate.

124 Analysis and Teaching of Gymnastics (3)
Prerequisite: Established proficiency in gymnastics or consent of instructor. The study of selected gymnastic movement. Emphasis will be given to teaching skills and techniques.

126 Analysis and Teaching of Team Sports (3)
Prerequisite: Established proficiency in team sports or consent of instructor. The study and performance of selected team sports. Particular emphasis will be given to skill analysis, strategy, and teaching of basketball, soccer, volleyball, field hockey, baseball, softball and flag football.

126 Analysis and Teaching of Lifetime Sports (3)
Prerequisite: Established proficiency in lifetime sports or consent of instructor. Study and performance of selected lifetime sports. Particular emphasis will be given to skill analysis, strategy, and teaching of badminton, tennis, golf and archery.

130 Elements of Health Education (3)
Prerequisite: ED FND 111 and admission to the School of Education. Basic school health for teachers. Considers health as it relates to the school and the child.

132 Personal Health (3)
A study of factors that contribute to physical and mental well-being at all stages of the life cycle. Particular attention will be given to the identification and analysis of individual health behaviors.

134 Personal Physical Fitness (3)
Prerequisite: Consent of instructor. A study of the relationship between vigorous physical activity and individual well-being. Emphasis will be placed on an individualized analysis of health fitness, resulting in a prescribed program to develop optimal levels of physical fitness, including aerobic fitness, strength, muscular endurance, flexibility, body composition, and lifetime sports considerations.

153 Analysis and Teaching of Social Dance (3)
Prerequisite: Established proficiency in social dance or consent of instructor. The study and performance of social dance forms. Particular emphasis will be given to contemporary American square dance, international folk dance, and American and Latin ballroom dances.

158 Analysis and Teaching of Modern Dance (3)
Prerequisite: PHY ED 256 or consent of instructor. Emphasizes movement theory and application of movement theory to the teaching of modern dance.

165 Physical Education Activities in the Elementary School (3)
Objectives of physical education for the elementary school child with applications of choice of activities, organization of program, theory, practices.

190 Clinical Experience in Physical Gerontology (3)
Prerequisite: Consent of instructor. Early supervised experience in gerontological physical activity programming. Seminar precedes and accompanies clinical experience.

191 Clinical Experience: Elementary School Physical Education (3)
Prerequisite: PHY ED 185. Early professional preparation in elementary school physical education process and practice. Seminar precedes and accompanies clinical experience.

192 Clinical Experience: Secondary Physical Education (3)
Prerequisite: Consent of instructor. Supervised experience in junior or senior-high physical education programs. Seminar precedes and accompanies clinical experience.

193 Clinical Experience in Youth Sport Programs (3)
Prerequisite: Consent of instructor. Supervised clinical experience in youth sport programs. Seminar precedes and accompanies clinical experience.

204 Special Topics in Physical Education (1-3)
Prerequisite: Consent of instructor. Independent study through readings, reports, field study or research.

232 Sports Medicine (3)
Prerequisite: PHY ED 280. Study of the medical supervision of sports participants, training, and prevention and care of injuries. Course grants Red Cross first aid certificate.

256 Rhythm and Movement (3)
Prerequisite: PHY ED 165. Exploration into locomotor, non-locomotor forms, and expressive movement through rhythm for children. Implications for methodology in concept teaching for elementary educators.

257 Creative Dance for Children (3)
Prerequisite: PHY ED 256 or consent of instructor. Study of the physical and aesthetic expression of children through the medium of dance, with particular emphasis on creating and teaching dances.

261 Physical Activity of the Exceptional Learner (3)
Prerequisites: SPC ED 311 and 313. A study of the special physical activity and exercise needs, interests, and problems of the exceptional learner with considerable emphasis on the development of methods and competencies in modifying physical activities.

268 Curriculum and Methods of Teaching Physical Education (3)
Prerequisite: ELE ED 210 or SEC ED 213. Study of the scope and sequence of the physical education courses in the school curriculum with emphasis on the selection and organization of materials and methods of instruction and evaluation. Attention is also directed toward learning the techniques and research tools of the scholar in the field of physical education. To be taken concurrently with student teaching.

275 Psychology of Sport (3)
Prerequisites: Psychology 3 and 270 or 271. A study of the following aspects of psychology as they influence performance in sport and physical activity: learning, retention, transfer, practice, motivation, anxiety, stress, relaxation, and fatigue.

276 Sociology of Sport (3)
Prerequisite: Sociology 10. Study of sport in the sociocultural process of school and society.

277 History and Philosophy of American Physical Education and Sport (3)
Prerequisite: Junior standing. A chronological study of the role of sport in American society and the development of physical education as a profession. Of particular interest will be the effect of religion, philosophy, economics, politics, and education upon physical education and sport.

280 Human Anatomy and Physiology (5)
Prerequisite: Biology 1 and 3 or consent of instructor. Study of the basic aspects of human anatomy and physiology and their
Physical Education

relationship to concepts in sport and physical activity. Two hours of laboratory per week.

292 Internship in Physical Education (6-12)
Prerequisite: PHY ED 190. Clinical experience in gerontological physical education. Clinical experience in selected gerontological setting as a physical education practitioner under University and institutional supervision. Experiences will include at least two separate experiences completed concurrently or successively. Seminar accompanies internship experiences.

306 Dance Workshop (1)

312 Management of Sports Programs (3)
Prerequisite: Consent of instructor. A study of administrative theory, roles, responsibilities, and functions in the management of sports programs.

330 Prescribing Physical Activity (3)
Prerequisite: PHY ED 280, 283, 284 or consent of instructor. Prescription of physical activity for individualized and group programming based upon physical fitness assessment. Health, nutrition, age, physical fitness and related components are considered in developing specialized exercise programming based upon current physiological and biomechanical research.

390 Student Teaching in Physical Education III (5)
Prerequisite: PHY ED 291 or equivalent and admission to student teaching. Clinical teaching experience in physical education settings in the school under University and school supervision. For students who wish an additional student teaching experience.

400 Practicum in Physical Gerontology (3)

462 The Physical Education Curriculum (3)
Prerequisite: Consent of instructor. A study of current practices, problems, trends and research involved in the analysis and development of the physical education curriculum.

464 Analysis of Teaching in Physical Education (3)
Prerequisite: Consent of instructor. A study of trends and research relating to teaching methodology, teacher effectiveness, and supervision of instruction in physical education. Emphasis will be given to the application of research on teacher effectiveness in the instructional process in physical education.

469 Problems of Teaching Physical Education in the Secondary School (3)
Prerequisite: Consent of instructor. A study of current practices, problems, trends, and research involved in analyzing and developing strategies for the improvement of the secondary-school physical education instructional program.

475 Psychomotor Learning (3)
Prerequisite: PHY ED 276. Application of specific principles of psychology to the teaching of physical education and sport. Involves both practical and theoretical approaches to motor learning. Explores techniques of improving physical education in the school through the understanding of various concepts of motor learning and skill acquisition.

476 Social Inquiry of Sport (3)
Prerequisite: PHY ED 276 or consent of instructor. A study of basic social processes in sport, such as socialization, social facilitation, and assimilation.

483 Biomechanics of Sport Techniques (3)
Prerequisite: PHY ED 283 or consent of instructor. A study of the biomechanical concepts important to analysis of techniques used in selected sports. Explores recent research findings on efficient sports techniques. Provides experience in the analysis of skill performance.

484 Physiological Bases of Physical Performance (3)
Prerequisites: PHY ED 280 and 284 or consent of instructor. Physiological bases and contemporary trends in the study of human performance and exercise stress; will analyze research literature and study experimental strategies with the focus upon application to teaching and coaching.

497 Problems (1-10)
Selected problems to meet the needs of individual students.
School of Nursing

Nursing

200 Dimensions of Professional Nursing Practice (3)
Prerequisite: Junior standing. Explores issues of professional nursing practice from a contemporary and historical perspective. Introduces the major concepts of the theory of self-care, self-care deficits, and the theory of nursing systems. (This course must be taken in the student's first semester in the nursing sequence).

210 Interpersonal Systems in the Practice of Nursing (3)
Prerequisites: Junior standing and Nursing 200. Focuses on therapeutic communication and the development of helping relationships in nursing settings. This course includes a clinical component.

220 Health Assessment (3)
Prerequisites: Junior standing and Nursing 200. Focuses on development of systematic approaches to assessment of universal and developmental self-care requisites. This course includes a clinical component.

230 Teaching and Guidance in the Practice of Nursing (3)
Prerequisites: Junior standing and Nursing 200. Focuses on concepts of learning theories, health education, and application of teaching and guidance in meeting self-care needs of clients. This course includes a clinical component.

240 Leadership and Management in Nursing (3)
Prerequisites: Junior standing and Nursing 200. Focuses on concepts in organization and management, leadership, collaboration, authority, autonomy, and accountability. This course includes a clinical component.

250 Research in Nursing (3)
Prerequisites: Junior standing and Nursing 200. Introduces basic research concepts, the critical analysis of research studies, and the application of research findings in clinical practice.

310 Designing Nursing Systems: Families (3)
Prerequisites: Senior standing, statistics, Chemistry 2 and advanced physiology. Focuses on assisting with self-care needs of families and/or family members, considering family development, life-cycle events, changing family structure, and cultural, environmental, and social influences on the family. This course includes a clinical component.

320 Designing Nursing Systems: Groups (3)
Prerequisites: Senior standing, statistics, Chemistry 2 and advanced physiology. Focuses on group process concepts, decision-making, and the change process in designing nursing systems to meet self-care requisites of client groups. This course includes a clinical component.

330 Community Health Nursing (4)
Prerequisites: Nursing 310 and 320. Focuses on the epidemiological approach to identification of health problems, analysis of community factors that influence ability to meet health-care needs, and community resources available to assist with meeting these needs. This course includes a clinical component.

340 Synthesis in Nursing Practice (2)
Prerequisites: Nursing 310 and 320. Focuses on the application of professional nursing in a traditional practice setting, utilizes the self-care deficit theory of nursing in the care of clients within these settings. This course includes a clinical component.

350 Senior Seminar (2)
Prerequisites: Senior standing, Nursing 330 and 340. Analyzes the development of the professional nursing role in the health-care delivery system in contemporary and future society. (This course must be taken in the student’s final semester).
Optometry

First Year
Fall Semester

501  Physiological Optics I (1)
An introduction to the various topic areas of vision science such as ocular anatomy and physiology, optics of the eye, eye movements, sensory physiology, visual psychophysics, binocular vision, and perception. Comparative anatomy and physiology of the visual systems of various animal species will be considered.

502  Gross Human Anatomy and Histology (4)
Structure of the human body with special emphasis on anatomy of the head and neck. The microanatomy of the basic tissue types and organs will also be examined.

503  Microbiology (4)
Bacteriology, virology, and immunology with consideration to their involvement in human disease. Ocular manifestations will be examined.

504  Neuroanatomy (4)
The anatomy of the skull with emphasis on the orbit. Detailed gross and microscopic anatomy of the human central nervous system with a special emphasis on the nuclei, cranial nerves, and the visual system.

505  Optics I (4)
The principles of geometrical optics as applied to refracting and reflecting surfaces, thin lenses, thick lenses and lens systems. The optics of various ophthalmic instruments and techniques will be examined.

506  Optometric Orientation (2)
An introduction to the contemporary practice of optometry, beginning with a consideration of the history of the optometric profession and concluding with the consideration of the present-day scope of optometric practice. The role of optometry in the total health-care system will be evaluated along with future projections.

507  Epidemiology (2)
A review of descriptive statistics, probability, sampling, correlation, prediction, and their use in optometry and vision research. The essentials of epidemiological study procedures and their significance in health care. Epidemiology of major systemic disorders and disorders of the visual system.

Winter Semester

510  Ocular Anatomy (3)
Detailed macroscopic, and light and electron microscopic study of the eyeball, orbit, optic nerve and visual pathways. Embryology of the eye.

511  Human Physiology (4)
Study of the function of the body's major organ systems. Physiology of the central, peripheral, and autonomic nervous systems, cardiovascular, respiratory, endocrine, digestive, and reproductive systems.

512  Biochemistry (2)
Basic concepts of general and cellular biochemistry. Study of nomenclature, structure, and reactions of organic molecules. Some emphasis on visual system—tears, intraocular fluids, lens and photochemistry.

513  Optics II (3)

514  Clinical Optometry I (3)
Introductory clinical optometry, essentials of case history, clinical testing of interpupillary distance, versions, accommodation, and pupillary reflexes.

515  Physiological Optics II (4)
The eye as an image-forming mechanism, the schematic eyes, the optical role of the pupil, the retinal image and its evaluation. Nature, classification and etiology of ametropia. Mechanism and optical aspects of accommodation.

Second Year
Fall Semester

520  Ophthalmic Materials I (3)
History of ophthalmic materials; physical characteristics of lenses, lens aberrations, lens design, ophthalmic prisms, multifocal lenses, lens specifications, physical characteristics of frames, lens and frame specification, fitting and dispensing concepts.

521  Clinical Optometry II (6)
Development of clinical skills necessary for patient care in the areas of refraction, ocular motility, binocular integration, and visual performance.

522  Systemic Pathology (4)

523  Ocular Physiology (3)
The physiology of the eye, aqueous production and drainage, intraocular pressure, corneal and lens metabolism, ocular circulation, retinal and optic nerve metabolism, tear fluid formation and physiology.

524  Physiological Optics III (4)
Monocular sensory mechanisms of vision, photoreception, visual neurophysiology, spatial and temporal effects, visual acuity and resolution, adaptation, brightness discrimination, and color vision. Topics include a consideration of both the psychophysical aspects and neurophysiological bases of these mechanisms.
Optometry

**Winter Semester**

530 Ophthalmic Materials II (3)
Special lenses and frames, protective eyewear, unique designs, low-vision aids, aniseikonic lenses, fitting and dispensing. Optics and design of contact lenses, contact lens specification, fabrication, verification, and modification of contact lenses.

531 Clinical Optometry III (6)
Continuation of Clinical Optometry II, correlation and analysis of optometric data, the process of patient care—diagnosis, prognosis and therapy. Preview discussion of optometric specialty areas. Limited clinical experience.

532 Physiological Optics IV (6)

533 Ocular Pathology I (4)
The etiology, epidemiology, symptoms, signs and course sequelae of ocular disease and anomalies. Disease and anomalies of lids, orbit, conjunctiva, cornea, sclera, iris, ciliary body, lens, vitreous, retina, choroid, and optic nerve.

534 Physiological Optics V (2)
Perception and information processing. Theories of perception. The perception of time, size, shape, distance and motion. Perceptual and sensory deprivation, and perceptual adaptations.

**Third Year**

**Summer Session**

540 General Clinic I (10)
The clinical examination and care of general clinic patients, along with the fitting and dispensing of lenses and frames.

541 Interpersonal Relations (2)
Principles of human interpersonal relationships. The development of patient-doctor relationships. Emphasis will be on preparing the student to understand and deal with the many human interpersonal relationships necessary in the practice of optometry.

542 Clinic Seminar I (2)
Presentation and discussion of interesting clinical patients. Additional clinical testing techniques and concepts. Further discussion of patient data analysis—the process of determining diagnosis, prognosis and therapy. Further discussions in the optometric specialties.

**Fall Semester**

550 General Clinic II (6)
Same as General Clinic I.

551 Clinical Medicine (3)
The etiology, epidemiology, symptoms, signs and course sequelae of the major or more common, or both, health problems in the U.S.A. Principles of emergency care.

552 Clinic Seminar II (2)
Same as Clinical Seminar I.

553 Contact Lenses I (3)

554 Binocular Vision Anomalies (4)
The etiology, epidemiology, symptoms, signs and course sequelae of the obstacles to binocular vision—sensory, integrative and motor. The detection, diagnosis, prognosis, and orthoptic treatment of such anomalies. Clinical care of aniseikonias.

555 General Pharmacology (2)
General pharmacological principles, methods of administration, various systemic drugs and their pharmacological action and side effects, with emphasis on those that affect the visual system. Agencies, laws and drug abuse.

556 Ocular Pathology II (3)
Ocular manifestations of systemic diseases and anomalies. The etiology, epidemiology, symptoms, signs and course sequelae of visual and ocular neurological anomalies, lid and pupillary anomalies, paralytic strabismus, and visual field problems.

**Winter Semester**

560 General Clinic III (4)
Same as General Clinic I.

561 Specialty Clinic I (2)
The clinical examination and care of patients in the optometric specialty areas.

562 Clinic Seminar III (2)
Same as Clinic Seminar I.

563 Contact Lenses II (4)
Advanced contact lens fitting, theories and clinical methods for meridional, prism, and bifocal contact lenses. Fitting keratoconus, astigmatic corneas, aphakic eyes, and high refractive errors. Use and fitting of haptic lenses, cosmetic shells, and prosthetic eyes. Limited clinical experience.

564 Low Vision (3)
The etiology, epidemiology, symptoms, signs and course sequelae of low-vision problems. Methods of testing, prognosis, selection of therapy, design of environmental and optical aids, problems of rehabilitation agencies, laws, public and social assistance for the partially sighted and blind. Study of the psychology, unique examination procedures, and care of geriatric patients and their problems and needs.

565 Ocular Pharmacology (3)
Pharmacology, uses, doses, contraindications, adverse effect of drugs producing miosis, mydriasis, cycloplegia, accommodation, and corneal anesthesia. The pharmacology, use contraindications, and adverse effect of drugs commonly used in treating visual and ocular problems.

566 Public Health I (1)
History of public health, sociological aspects of health care, the financing of health care, organizations of health care. Methods of payment.

567 Vision Performance (3)
The etiology, epidemiology, symptoms, signs and course sequelae of learning, perceptual-motor, and other visual performance problems, and their detection, diagnosis, prognosis and therapy. Study of the psychology, unique examination procedures, and care of pediatric patients and their problems and needs.
Optometry

Fourth Year
Summer Session

570 General Clinic IV (8)
Same as General Clinic I.

571 Specialty Clinic II (6)
Same as Specialty Clinic I.

572 Clinic Seminar IV (2)
Same as Clinic Seminar I.

Fall Semester

580 General Clinic V (6)
Same as General Clinic I.

581 Specialty Clinic III (4)
Same as Specialty Clinic I.

582 Clinic Seminar V (2)
Same as Clinic Seminar I.

583 Practice Management I (2)
The development and management of an optometric practice from a patient and community service point of view—office design, office routine, patient care administration, personnel management, recall systems, developing patient and interprofessional relationships through effective communication.

584 Affiliated Clinic I (4)
The clinical examination and care of clinic patients in the School of Optometry’s affiliated clinics. These clinics offer unique patient populations.

585 Public Health II (2)
Local, state, and federal organizations involved in health care, comprehensive health planning and new trends in health-care delivery, hospital organization, assessment of quality of health-care delivery, health and patient/community education, organization of health services.

586 Environmental Vision (2)
The principles of efficient illumination, vision requirements in homes, schools, business, industry, and vision safety in the environment. Vision screening in schools, industry, community, motor vehicle examinations. The relationships between vision and avocational efficiency. The roles of patient care and human engineering in maximum visual performance.

Winter Semester

590 General Clinic VI (6)
Same as General Clinic I.

591 Specialty Clinic IV (6)
Same as Specialty Clinic I.

592 Clinic Seminar VI (2)
Same as Clinic Seminar I.

593 Practice Management II (2)
The establishment, development, and management of an optometric practice from a business point of view. Legal development, governmental relationships, legislation and the legislative process, licensing procedures, state boards and laws, malpractice, professional ethics, taxes, fee structures, insurance, and accounting methods.

594 Affiliated Clinics II (4)
Same as Affiliated Clinic I.

595 Elective (2)
An elective series covering vision science and the clinical practice of optometry. Possible topics include: a) color vision b) electrodiagnostic evaluations c) advanced neuro-opthalmic evaluation d) special contact lenses e) corneal physiology f) emergency care.

596 Recent Advances (2)
Recent information relating to the visual process and the practice of optometry.
Courses in this section are grouped as follows: Aerospace Studies and Military Science.

Aerospace Studies

Aerospace Studies courses AERO 101 through AERO 202 are basic courses designed to acquaint students with the United States Air Force and the opportunities available as an officer. Grades earned in these courses will be computed in the student’s overall grade point average, but credit hours for these courses will not be included in the 120 hours needed for graduation.

101 The Air Force Today (2)
Introduction to contemporary military issues and overall Air Force structure. Profession, human rights, and civilian-military relationships are stressed. Leadership Laboratory activities, designed to develop leadership potential, includes military customs and courtesies, drill and ceremonies, and base visitations.

102 The Air Force Today (2)
Continuation of AERO 101. Includes strategic offensive and defense forces, general purpose forces, aerospace support forces, and relationships with U.S. Army forces. Individual communicative skills emphasized.

201 The Development of Air Power (2)
Study of the development of air power from balloons and dirigibles through WWII and WWII. Leadership Laboratory activities, designed to develop each student’s leadership potential, are included. Classroom activity, one hour per week; Leadership Laboratory, one hour per week.

202 The Development of Air Power (2)
Continuation of AERO 201 to include the history of air power in Korea, Vietnam and the peaceful employment of United States air power in relief missions. Classroom activity, one hour per week; Leadership Laboratory, one hour per week.

Aerospace Studies courses AERO 301 through AERO 402 are advanced courses designed to improve the communicative and management skills required of Air Force officers. Credit hours for these courses may be included in the 120 hours needed for graduation at the discretion of individual departmental chairpersons.

301 Air Force Management and Leadership (3)
Integrated management course emphasizing the individual as a manager in Air Force milieu. Motivational and behavioral processes, leadership, communication, and group dynamics are covered for the development of the junior officer’s professional skills as an Air Force officer. Basic managerial processes involving decision making, utilization of analytic aids in planning, and organizing and controlling in a changing environment are emphasized as professional concepts. Classroom activity, three hours per week; Leadership Laboratory, one hour per week.

302 Air Force Management and Leadership (3)
Continuation of AERO 301; includes organizational and personal values, management of forces in change, organizational strategy and tactics within context of the military organization. Actual Air Force cases are used to enhance learning and communication processes. Classroom activity, three hours per week; Leadership Laboratory, one hour per week.

401 National Security Forces in Contemporary American Society (3)
The Armed Forces as an integral element of society: American civil-military relations; environmental context in which U.S. defense policy is formulated and implemented; societal attitudes toward the military leader-manager in a democratic society; fundamental values and socialization processes associated with the Armed Forces. Individual and group oral and written reports. Classroom activity, three hours per week; Leadership Laboratory, one hour per week.

402 National Security Forces in Contemporary American Society (3)
Continuation of AERO 401. Requisites for maintaining adequate national security forces: political, economic and social constraints on the national defense structure; impact of technological and international developments on strategic preparedness; formulation and implementation of national security policy. Classroom activity, three hours per week; Leadership Laboratory, one hour per week.

Military Science

Prerequisites may be waived by consent of professor of military science. Course credit is for two semesters or one full year enrollment in the course.

101 Fundamentals of Leadership and Management I (1)
Provides an overview of the organizational make-up and role of the U.S. Army and the Army ROTC. Provides an appreciation of the military profession and its customs, traditions, and courtesies. Provides an introduction to the responsibilities and obligations of an Army officer. Provides an introduction to concepts and methods of individual and small-unit military tactics. Develops leadership and managerial abilities. Provides fundamentals of orienteering or marksmanship, depending on choice of student.

102 Fundamentals of Leadership and Management II (1)
Prerequisite: Military Science 101, equivalent or consent of Professor of Military Science (PMSL). Provides an introduction to theoretical and practical aspects of supervision. Emphasizes the need for proper motivation and cooperative attitudes as they pertain to both individual and group interaction. Examines principles and techniques of small-unit military offensive and defensive operations with emphasis on command and control, communications, weapons systems, and military geography. Continues development of leadership and managerial abilities. Provides fundamentals of mountaineering or air assault techniques, depending on choice of students.

201 Applied Leadership and Management I (1)
Prerequisite: Military Science 101, 102, equivalent or consent of Professor of Military Science (PMSL). Provides basic background in the skills necessary for military map reading and land navigation to include: (1) military grid reference system; (2) map scale, distance, elevation, and relief, and (3) military symbols. Provides for development of a working knowledge of advanced land navigation techniques and aerial photograph interpretation to include: (1) intersection and resection; (2) declination diagram; (3) map orientation and terrain association; and (4) plots interpretation. Continues development of leadership and managerial skills. Provides fundamentals of orienteering or marksmanship, depending on choice of student.
202 Applied Leadership and Management II (1)
Prerequisite: Military Science 201, equivalent or consent of Professor of Military Science (PMSI). Develops principles and techniques of applied leadership through discussion of some of the processes and procedures used by the leader to accomplish organizational objectives to include: (1) decision making; (2) communication; and (3) counseling. Provides practical experience in leadership of small units in the military environment. Examines principles and techniques of small-unit military tactical patrolling operations with emphasis on development of pre-planning and execution concepts. Application of concepts practiced through in-class map exercises and field training practicum. Provides an overview of the Army ROTC advanced course. Continues development of leadership and managerial abilities. Provides fundamentals of mountaineering or air assault techniques depending on choice of student.

301 Advanced Leadership and Management I (3)
Prerequisites: Military Science 101 through 202 or equivalent and selection by Professor of Military Science (PMSI). Covers the functional roles of the military leader and basic principles of management with emphasis on problem analysis and decision-making, span of control, delegation of authority and responsibility, planning and coordinating. Provides fundamentals of effective methods of instruction and includes practical exercises where each student plans, prepares, and presents part of instruction. Continues to develop the student's ability to communicate orally and in writing. Provides additional insight into areas of Army officer specialization. Stresses practical application in the development of leadership abilities in that students are placed in positions of leadership within the ROTC student structure.

302 Advanced Leadership and Management II (3)
Prerequisite: Military Science 301. Provides a review of basic military land navigation and map-reading techniques. Examines more advanced principles and techniques of small-unit military offensive and defensive tactical operations with concentrated study of such factors as command and control, communications, weapons systems, and military geography. Continues emphasis on practical application exercises to develop student's leadership abilities further. Solidifies students preparation for attendance of the ROTC advanced camp during the upcoming summer.

401 Seminar in Leadership, Management, Theory and Dynamics of the Military Team I (3)
Prerequisites: Military Science 301 and 302. Explores the practical aspects of military law. Examines the organization, responsibilities, and management of the military unit staff. Provides a working knowledge of proper staffing procedures. Continues development of leadership and managerial abilities through placement of students into key leadership positions within the ROTC student organizational structure. Students plan and conduct the majority of leadership practicum for all ROTC students.

402 Seminar in Leadership, Management, Theory, and Dynamics of the Military Team II (3)
Prerequisite: Military Science 401. Examines military professional ethics and ideal American values as a basis for military values. Examines techniques of resource management with particular emphasis on the military environment. Teaches proper application of tactical military doctrine at the company/team level and the planning necessary between elements of the team. Reviews the various roles of the newly commissioned Army officer. Culmination of ROTC training to develop leadership and managerial skills. Students continue to be assigned positions of leadership within the ROTC student organizational structure.
