Internships (4989) are required for 3 hours credit for most undergraduate programs and Site Based Experience (4990 and 4991) is required for 12 hours credit in all teacher certification programs. For more information, contact the Teacher Certification and Advising Office at 314-516-6710.

Joint Engineering Program
UMSL/Washington University Joint Undergraduate Engineering Program career-related work arrangements for students majoring in all areas of engineering are administered through Career Services and the UMSL Engineering Advisor. These positions are paid and non-credit-bearing.

College of Nursing
Clinical courses are required in both the undergraduate and graduate programs. These experiences are limited to nursing majors only.

Pierre Laclede Honors College
Internships chosen by Honors College students, or arranged by their major departments, are valuable opportunities to broaden educational experience while also meeting the honors independent study requirement for graduation.
Academic Integrity

Academic Dishonesty

Academic dishonesty is a serious offense that may lead to probation, suspension, or expulsion. One form of academic dishonesty is plagiarism—the use of an author's ideas, statements, or approaches without crediting the source. Academic dishonesty also includes such acts as cheating by using unauthorized assistance on assignments and exams, and/or copying information from another student's examination, take-home test, or laboratory manual.

Honor Statement

The University of Missouri-St. Louis encourages students to pursue excellence within a respectful and collegial environment and to assume responsibility for the consequences of personal actions. For that reason the university requires students to reject any type of dishonest behavior.

Honesty precludes seeking, providing, or receiving any form of unauthorized assistance on tests or any type of assignment. It requires giving credit through appropriate citation to the author of materials used in written or oral assignments.

The full Student Standard of Conduct is available on the Web. By registering for a class at UMSL, students agree to follow this standard of integrity.
Student Conduct and Title IX Policies

By registering for a class at any University of Missouri campus, students agree to abide by the Code of Student Conduct below. For more information about student conduct contact Student Conduct and Community Standards in the Office of Student Affairs (314-516-5211).

Code of Student Conduct

200.010 Standard of Conduct

Amended Bd. Min. 3-20-81; Bd. Min. 8-3-90, Bd. Min 5-19-94; Bd. Min. 5-24-01, Bd. Min. 7-27-12; Bd. Min. 12-7-12; Bd. Min. 6-19-14; Revised 9-22-14 by Executive Order 41; Revised 11-3-15 by Executive Order 41; Amended 2-9-17.

A student at the University assumes an obligation to behave in a manner compatible with the University’s function as an educational institution and voluntarily enters into a community of high achieving scholars. A student organization recognized by the University of Missouri also assumes an obligation to behave in a manner compatible with the University’s function as an educational institution. Consequently, students and student organizations must adhere to community standards in accordance with the University’s mission and expectations.

These expectations have been established in order to protect a specialized environment conducive to learning which fosters integrity, academic success, personal and professional growth, and responsible citizenship.

A. Jurisdiction of the University of Missouri generally shall be limited to conduct which occurs on the University of Missouri premises or at University-sponsored or University-supervised functions. However, the University may take appropriate action, including, but not limited to, the imposition of sanctions under Sections 200.020 and 600.030 of the Collected Rules and Regulations against students and student organizations for conduct occurring in other settings, including off-campus, in order to protect the physical safety of students, faculty, staff, and visitors or if there are effects of the conduct that interfere with or limit students’ ability to participate in or benefit from the University’s educational programs and activities.

B. A student organization is a recognized student organization which has received official approval in accordance with Section 250.010 of the Collected Rules and Regulations. To determine whether a student organization is responsible for conduct outlined in Section 200.010.C, all circumstances will be considered, including but not limited to whether:

1. The student organization approved, condoned, allowed, encouraged, assisted or promoted such conduct;
2. The prohibited behavior in question was committed by one or more student organization officers or a significant number of student organization members;
3. Student organization resources, such as funds, listservs, message boards or organization locations, are used for the prohibited conduct; and/or
4. A policy or official practice of the student organization resulted in the prohibited conduct.

C. Conduct for which students and student organizations, when applicable, are subject to sanctions falls into the following categories:

1. Academic dishonesty, including but not limited to cheating, plagiarism, or sabotage. The Board of Curators recognizes that academic honesty is essential for the intellectual life of the University. Faculty members have a special obligation to expect high standards of academic honesty in all student work. Students have a special obligation to adhere to such standards. In all cases of academic dishonesty, the instructor shall make an academic judgment about the student’s grade on that work and in that course. The instructor shall report the alleged academic dishonesty to the Primary Administrative Officer.
   a. The term cheating includes but is not limited to: (i) use of any unauthorized assistance in taking quizzes, tests, or examinations; (ii) dependence upon the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments; (iii) acquisition or possession without permission of tests or other academic material belonging to a member of the University faculty or staff; or (iv) knowingly providing any unauthorized assistance to another student on quizzes, tests, or examinations.
   b. The term plagiarism includes, but is not limited to: (i) use by paraphrase or direct quotation of author with footnotes, citations or bibliographical reference; (ii) unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials; or (iii) unacknowledged use of original work/material that has been produced through collaboration with others without release in writing from collaborators.
   c. The term sabotage includes, but is not limited to, the unauthorized interference with, modification of, or destruction of the work or intellectual property of another member of the University community.

2. Forgery, alteration, or misuse of University documents, records or identification, or knowingly furnishing false information to the University.

3. Obstruction or disruption of teaching, research, administration, conduct proceedings, or other University activities, including its public service functions on or off campus.

4. Physical abuse or other conduct which threatens or endangers the health or safety of any person.

5. Stalking another by following or engaging in a course of conduct with no legitimate purpose that puts another person reasonably in fear for his or her safety or would cause a reasonable person under the circumstances to be frightened, intimidated or emotionally distressed.

6. Violation of the University’s Equal Employment/Education Opportunity and Nondiscrimination Policy located at Section 600.010 of the Collected Rules and Regulations.

7. Violation of the University’s Sex Discrimination, Sexual Harassment and Sexual Misconduct in Education/Employment Policy in Section 600.020 of the Collected Rules and Regulations.

8. Threatening or Intimidating Behaviors, defined as written or verbal conduct that causes a reasonable expectation of injury to the health or safety of any person or damage to any property or implied threats or acts that cause a reasonable fear of harm in another.

9. Participating in attempted or actual taking of, damage to, or possession without permission of property of the University or of a member of the University community or of a campus visitor.
10. Unauthorized possession, duplication or use of keys to any University facilities or unauthorized entry to or use of University facilities.
11. Violation of University policies, rules or regulations or of campus regulations including, but not limited to, those governing residence in University-provided housing, or the use of University facilities, or student organizations, or the time, place and manner of public expression.
12. Manufacture, use, possession, sale or distribution of alcoholic beverages or any controlled substance without proper prescription or required license or as expressly permitted by law or University regulations, including operating a vehicle on University property, or on streets or roadways adjacent to and abutting a campus, under the influence of alcohol or a controlled substance as prohibited by law of the state of Missouri.
13. Disruptive conduct. Conduct that creates a substantial disruption of University operations including obstruction of teaching, research, administration, other University activities, and/or other authorized non-University activities that occur on campus.
14. Failure to comply with directions of University officials acting in the performance of their duties.
15. The illegal or unauthorized possession or use of firearms, explosives, other weapons, or hazardous chemicals.
16. Hazing, defined as an act that endangers the mental or physical health or safety of a student, or an act that is likely to cause physical or psychological harm to any person within the University community, or that destroys or removes public or private property, for the purpose of initiation, admission into, affiliation with, or as a condition for continued membership in a group or organization. Participation or cooperation by the person(s) being hazed does not excuse the violation. Failing to intervene to prevent, failing to discourage, and/or failing to report those acts may also violate this policy.
17. Misuse of computing resources in accordance with University policy, including but not limited to:
   a. Actual or attempted theft or other abuse;
   b. Unauthorized entry into a file to use, read, or change the contents, or for any other purpose;
   c. Unauthorized transfer of a file;
   d. Unauthorized use of another individual’s identification and password;
   e. Use of computing facilities to interfere with the work of another student, faculty member, or University official;
   f. Use of computing facilities to interfere with normal operation of the University computing system; and
   g. Knowingly causing a computer virus to become installed in a computer system or file.

Student Disciplinary Matters

200.20 Rules of Procedures in Student Conduct Matters

Bd. Min. 11-8-68, Amended Bd. Min. 3-20-81; Bd. Min. 12-8-89; Amended 5-19-94; Bd. Min. 5-24-01; Bd. Min. 7-27-12, 6-19-14; Revised 9-22-14 by Executive Order 41; Revised 11-3-15 by Executive Order 41; Amended 2-9-17.

A. Preamble. The following rules of procedure in student or student organization conduct matters are hereby adopted in order to ensure insofar as possible and practicable (a) that the requirements of procedural due process in student conduct proceedings will be fulfilled by the University, (b) that the immediate effectiveness of Section 10.030, which is Article V of the Bylaws of the Board of Curators relating to student conduct and sanctions may be secured for all students in the University of Missouri, and (c) that procedures shall be definite and determinable within the University of Missouri. Student or student organization conduct involving discrimination, harassment, and sexual misconduct is governed by Section 600.030: Equity Resolution Process for Resolving Complaints of Discrimination, Harassment and Sexual Misconduct against a Student or Student Organization.

B. Definitions. As used in these rules, the following definitions shall apply:

1. Primary Administrative Officers. As used in these procedures, the Chief Student Affairs Administrator on each campus is the Primary Administrative Officer except in cases of academic dishonesty, where the Chief Academic Administrator is the Primary Administrative Officer. Each Primary Administrative Officer may appoint designee(s) who are responsible for the administration of these conduct procedures, provided all such appointments are made in writing and filed with the Chancellor of the campus and the Office of General Counsel. The Primary Administrator's Office will certify in writing that the given designee has been trained in the administration of student conduct matters.

2. Student Panelist Pool. The student panelist pool is a panel of students appointed by the Vice Chancellor for Student Affairs, who may participate on the Student Conduct Committee. Specifically, if requested by the accused student or student organization, the Chair of the Student Conduct Committee shall select not more than three students from the Student Panelist Pool to serve as members on the Student Conduct Committee, or more than two students to serve as members on a Hearing Panel.

3. Student. A person having once been admitted to the University who has not completed a course of study and who intends to or does continue a course of study in or through one of the campuses of the University. For the purpose of these rules, student status continues whether or not the University's academic programs are in session.

4. Student Organization. A recognized student organization which has received official approval in accordance with Section 250.010 of the Collected Rules and Regulations. Three members of the organization may represent the student organization in all proceedings and, and the registered faculty/staff advisor may be present, though not act on behalf of the student organization. Each student organization shall designate, and such designation shall be on file with the University, the individual who will receive all notices, findings, determinations and decisions on behalf of the student organization. If the student organization fails to have a designation on file with the University, the President of the organization is the default designee. The registered faculty/staff advisor will also be sent a courtesy copy of all notices, findings, determinations and decisions.

5. Student Conduct Committee. As used in these procedures, "Student Conduct Committee," hereinafter referred to as the Committee, is that body on each campus which is authorized to conduct hearings and to make dispositions under these procedures or a Hearing Panel of such body as herein defined.

6. Hearing Panel. As used in these procedures, the term "hearing panel" refers to the part of the Student Conduct Committee described in Section 200.020.E.3(b) below.

C. Sanctions.
1. The following sanctions, when applicable, may be imposed upon any student or student organization found to have violated the Student Conduct Code. More than one of the sanctions may be imposed for any single violation. Sanctions include but are not limited to:
   a. **Warning.** A notice in writing to the student or student organization that there is or has been a violation of the institutional regulations.
   b. **Probation.** A written reprimand for violation of specified regulations. Probation is for a designated period of time and includes the probability of more severe sanctions if the student or student organization is found to be violating any institutional regulation(s) during the probationary period.
   c. **Loss of Privileges.** Denial of specified privileges of the student or student organization for a designated period of time.
   d. **Restitution.** Compensation by the student or student organization for loss, damage, or injury to the University or University property. This may take the form of appropriate service and/or monetary or material replacement.
   e. **Discretionary Sanctions.** Work assignments, service to the University or community, or other related discretionary assignments, or completion of educational programming or counseling.
   f. **University Housing Suspension.** Separation of the student or student organization from University owned or operated housing for a definite period of time, after which the student or student organization is eligible to return. Conditions for readmission may be specified.
   g. **University Housing Expulsion.** Permanent separation of the student or student organization from University owned or operated housing.
   h. **University Dismissal.** An involuntary separation of the student from the institution for misconduct. It is less than permanent in nature and does not imply or state a minimum separation time.
   i. **University Suspension.** Separation of the student from the University for a definite period of time, after which the student is eligible to return. Conditions for readmission may be specified.
   j. **University Expulsion.** Permanent separation of the student from the University.
   k. **Withdrawal of Recognition.** Student organization loses its official approval as a recognized student organization. May be either temporary or permanent. Conditions for future approval may be specified.

2. **Temporary Suspension.** The Chancellor or Designee may at any time temporarily suspend or deny readmission to a student from the University pending formal procedures when the Chancellor or Designee finds and believes from available information that the presence of a student on campus would seriously disrupt the University or constitute a danger to the health, safety, or welfare of members of the University community. The appropriate procedure to determine the future status of the student will be initiated within seven business days.

3. **Temporary Suspension of a Student Organization.** The Chancellor or Designee may at any time temporarily suspend the student organization's operations. University recognition, access to and use of the University campus/facilities/events and/or all other University activities or privileges for which the student organization might otherwise be eligible, pending formal procedures when the Chancellor or Designee finds and believes from available information that the presence of the student organization on campus would seriously disrupt the University or constitute a danger to the health, safety, or welfare of members of the University community. The appropriate procedure to determine the future status of the student organization will be initiated within seven business days.

D. **Records Retention.** Student conduct records shall be maintained for seven years after University action is completed.

E. **Policy and Procedures.**

1. **Preliminary Procedures.** The Primary Administrative Officer or Designee (hereafter "Primary Administrative Officer") shall investigate any reported student or student organization misconduct before initiating formal conduct procedures and give the student or student organization the opportunity to present a personal or organizational version of the incident or occurrence. The Primary Administrative Officer shall utilize the preponderance of the evidence standard in deciding whether or not to initiate formal conduct procedures and in deciding whether or not to offer an informal disposition in accordance with Section 200.020.E.2 below. The Primary Administrative Officer may discuss with any student or student organization such alleged misconduct and the student or student organization shall attend such consultation as requested by the Primary Administrative Officer. The Primary Administrative Officer, in making an investigation and disposition, may utilize student courts and boards and/or divisional deans to make recommendations.

2. **Informal Dispositions.** The Primary Administrative Officer shall have the authority to make a determination and to impose appropriate sanctions and shall fix a reasonable time within which the student or student organization shall accept or reject a proposed informal disposition. A failure of the student or student organization either to accept or reject within the time fixed may be deemed by the University to be an acceptance of the determination, provided the student or student organization has received written notice of the proposed determination and the result of the student or student organization's failure to formally reject and, in such event, the proposed disposition shall become final upon expiration of such time. If the student or student organization rejects informal disposition it must be in writing and shall be forwarded to the Committee. The Primary Administrative Officer may refer cases to the Committee without first offering informal disposition.

3. **Formal Procedure and Disposition.**
   a. **Student Conduct Committee:**
      i. The Committee shall be appointed by the Vice Chancellor for Student Affairs and shall have the authority to impose appropriate sanctions upon any accused student or students or student organization appearing before it.
      ii. When deemed appropriate or convenient by the Chair of the Committee, the Chair may divide the Committee into Hearing Panels each consisting of no less than five (5) Committee members of which no more than two (2) shall be students. If the Chair creates such Hearing Panels, the Chair of the Committee shall designate a Hearing Panel Chair. A Hearing Panel has the authority of the whole Committee in those cases assigned to it. The Chair of the Committee or a Hearing Panel Chair shall count as one member of the Committee or Hearing Panel and have the same rights as other members.
      iii. The Vice Chancellor for Student Affairs shall appoint a panel of students, to be known as the Student Panelist Pool. Upon written request of an accused student or the student organization designee before the Committee made at least seventy-two (72) hours prior to the hearing, the Chair of the Committee shall appoint from the Student Panelist Pool not
more than three students to sit with the Committee or the Hearing Panel Chair shall appoint two students to sit with the Hearing Panel for that particular case. When students from the Student Panelist Pool serve as members of the Committee or as members of the Hearing Panel, they shall have the same rights as other members of the Committee or Hearing Panel.

b. General Statement of Procedures. A student or student organization accused of violating the Student Conduct Code is entitled to a written notice and a formal hearing unless the matter is disposed of under the rules for informal disposition. Student conduct proceedings are not to be construed as judicial trials and need not wait for legal action before proceeding; but care shall be taken to comply as fully as possible with the spirit and intent of the procedural safeguards set forth herein. The Office of the General Counsel shall be legal adviser to the Committee and the Primary Administrative Officer, but the same attorney from the Office of the General Counsel shall not perform both roles with regard to the same case.

c. Notice of Hearing. At least fourteen (14) business days prior to the Student Conduct Committee Hearing, or as far in advance as is reasonably possible if an accelerated resolution process is scheduled with the consent of the accused student or student organization, the Primary Administrative Officer will send a letter to the accused student or student organization with the following information:
   i. A description of the alleged violation(s) and applicable policies
   ii. A description of the applicable procedures
   iii. A statement of the potential sanctions/remedial actions that could result; and
   iv. The time, date and location of the hearing. If any party does not appear at the hearing, the hearing will be held in their absence. For compelling reasons, the hearing may be rescheduled.

   1. This Notice of Charges letter will be made in writing and will be delivered either: 1) in person, 2) by email only to the Party's University-issued email account if the Party has consented in writing to receipt of all notifications by email; or 3) mailed to the mailing address of the respective Party as indicated in the official University records and emailed to the Party's University-issued email account. If there is no local address on file, mail will be sent to the Party's permanent address.

   Notice is presumptively deemed delivered, when: 1) provided in person or 2) emailed to the individual (when prior consent - whether electronically or in writing - has been given to receipt of all notifications by email or 3) when mailed and emailed.

   Any request to reschedule the hearing shall be made in writing to the Chair, who shall have the authority to reschedule the hearing if the request is timely and made for good cause. The Chair shall notify the Primary Administrative Officer and the accused student or student organization of the new date for the hearing. If the accused student or student organization fails to appear at the scheduled time, the Committee may hear and determine the matter.

4. Right to Petition for Review: (other than University expulsion, University dismissal, or University suspension or Withdrawal of Recognition).
   a. In all cases where the sanction imposed by the Committee is other than University expulsion, University dismissal, University suspension or Withdrawal of Recognition, the Primary Administrative Officer or the accused student or student organization may petition the Chancellor or Designee in writing for a review of the decision within five (5) business days after written notification. A copy of the Petition for Review must also be served upon the non-appealing party or parties within such time. The Petition for Review must state the grounds or reasons for review in detail, and the non-appealing party or parties may answer the petition within five (5) business days.

   b. The Chancellor or Designee (hereafter "the Chancellor") may grant or refuse the right of review. In all cases where the Petition for Review is refused, the action of the Committee shall be final. If the Chancellor reviews the decision, the action of the Chancellor shall be final unless it is to remand the matter for further proceedings.

5. Right of Appeal (University expulsion, University dismissal, University suspension only or Withdrawal of Recognition only).
   a. When an accused student is expelled, dismissed, or suspended from the University or when a student organization has its recognition withdrawn, either temporarily or permanently, by the Committee, the Primary Administrative Officer, the accused student or student organization may appeal such decision to the Chancellor by filing written notice of appeal stating the grounds or reasons for appeal in detail with the Chancellor within ten (10) business days after notification of the decision of the Committee. The appealing party may file a written memorandum for consideration by the Chancellor with the Notice of Appeal, and the Chancellor may request a reply to such memorandum by the appropriate party.

   b. The Chancellor shall review the record of the case and the appeal documents and may affirm, reverse, or remand the case for further proceedings. The Chancellor shall notify the accused student or student organization in writing of the decision on the appeal. The action of the Chancellor shall be final unless it is to remand the matter for further proceedings.

   a. In cases of suspension, dismissal, or expulsion where a Notice of Appeal is filed within the required time, a student may petition the Chancellor in writing for permission to attend classes pending final determination of appeal. The Chancellor may permit a student to continue in school under such conditions as may be designated pending completion of appellate procedures, provided such continuance will not seriously disrupt the University or constitute a danger to the health, safety, or welfare of members of the University community. In such event, however, any final sanctions imposed shall be effective from the date of the action of the Committee.

   b. In cases of withdrawal of recognition where a Notice of Appeal is filed within a required time, a student organization may petition the Chancellor in writing to stay the withdrawal of recognition while the appeal is pending. The Chancellor may stay the withdrawal of recognition under such conditions as may be designated pending completion of appellate procedures, provided such continuance will not seriously disrupt the University or constitute a danger to the health, safety, or welfare of members of the University community.
7. Student Honor System. Forums under the student honor systems established for investigating facts, holding hearings, and recommending and imposing sanctions are authorized when the student honor code or other regulations containing well defined jurisdictional statements and satisfying the requirements of Section 10.030, which is Article V of the Bylaws of the Board of Curators, have been reduced to writing and have been approved by the Chancellor and the Board of Curators and notice thereof in writing has been furnished to students subject thereto. Though the student honor system has jurisdiction, together with procedures set forth therein, instead of the Primary Administrative Officer, the standard of conduct called for in any such student honor system shall be deemed to contain at a minimum the same standards set forth in Section 200.010, entitled Standards of Conduct. Procedures shall satisfy the requirements of the Board of Curators’ Bylaws, Section 10.030, which is Article V, and shall contain procedures herein before stated insofar as appropriate and adaptable to the particular situation and shall be approved by the Chancellor and the General Counsel. Students subject to student honor systems shall have the rights of appeal as set forth in Section 200.020.E.6 and 7.

F. Hearing Procedures.

1. Pre-Hearing Witness List and Documentary Evidence. At least seven (7) business days prior to the hearing, the student or representatives of the student organization will provide the Primary Administrative Officer a list of the names of the proposed witnesses and copies of all proposed documentary evidence. At least five (5) business days prior to the hearing, the Primary Administrative Officer will have the names of proposed witnesses, copies of all pertinent documentary evidence and a copy of any investigative report available for the student or representatives of the student organization, and a copy of the same will be sent to the Hearing Panel Chair.

2. Conduct of Hearing. The Chair shall preside at the hearing, call the hearing to order, call the roll of the Committee in attendance, ascertain the presence or absence of the student or representatives of the student organization accused of misconduct, read the notice of hearing and charges, verify the receipt of notices of charges by the student or student organization, report any continuances requested or granted, establish the presence of any adviser or counselor of the student or student organization and the registered faculty/staff adviser of the student organization, and call to the attention of the accused student or student organization and the registered faculty/staff adviser of the student organization, and call to the attention of the accused student or student organization and the adviser any special or extraordinary procedures to be employed during the hearing and permit the student or student organization to make suggestions regarding or objections to any procedures for the Conduct Committee to consider.

   a. Opening Statements.
      i. The Primary Administrative Officer shall make opening remarks outlining the general nature of the case and testify to any facts the investigation has revealed.
      ii. The accused student or student organization may make a statement to the Committee about the charge at this time or at the conclusion of the University’s presentation.

   b. University Evidence.
      i. University witnesses are to be called and identified or written reports of evidence introduced as appropriate.
      ii. The Committee may question witnesses at any time.
      iii. The accused student or student organization or, with permission of the Committee, the adviser or counselor may question witnesses or examine evidence at the conclusion of the University’s presentation.

3. Accused Student or Student Organization Evidence.

   a. If the accused student or student organization has not elected to make a statement earlier under a.(2) above, the accused student or student organization shall have the opportunity to make a statement to the Committee about the charge.
   b. The accused student or student organization may present evidence through witnesses or in the form of written memoranda.
   c. The Committee or Hearing Panel may question the accused student or witnesses at any time. The Primary Administrative Officer may question the accused student or witnesses.

3. Rights of Student Conduct Committee. The Committee shall have the right to:

   i. Hear together cases involving more than one student or more than one student organization which arise out of the same transaction or occurrence, but in that event shall make separate findings and determinations for each student or student organization;
   ii. Permit a stipulation of facts by the Primary Administrative Officer and the student or student organization involved;
   iii. Permit the incorporation in the record by reference of any documentation, produced and desired in the record by the University or the accused;
   iv. Question witnesses or challenge other evidence introduced by either the University or the student or student organization at any time;
   v. Hear from the Primary Administrative Officer about dispositions made in similar cases and any dispositions offered to the accused student or student organization appearing before the Committee;
   vi. Call additional witnesses or require additional investigation;
   vii. Dismiss any action at any time or permit informal disposition as otherwise provided;
   viii. Permit or require at any time amendment of the Notice of Hearing to include new or additional matters which may come to the attention of the Committee before final determination of the case; provided, however, that in such event the Committee shall grant to the student or student organization or Primary Administrative Officer such time as the Committee may determine reasonable under the circumstances to answer or explain such additional matters;
   ix. Dismiss any person from the hearing who interferes with or obstructs the hearing or fails to abide by the rulings of the Chair of the Committee;
   x. Suspend summarily students from the University who, during the hearing, obstruct or interfere with the course of the hearing or fail to abide by the ruling of the Chair of the Committee on any procedural question or request of the Chair for order.

3. Rights of Accused upon Hearing. A student or student organization appearing before a Committee shall have the right to:

   a. Be present at the hearing
   b. Have an adviser or counselor and to consult with such adviser or counselor during the hearing;
Hear or examine evidence presented to the Committee;

Question witnesses present and testifying;

Present evidence by witnesses or affidavit;

Make any statement to the Committee in mitigation or explanation of the conduct in question;

Be informed in writing of the findings of the Committee and any sanctions it imposes; and

Request review or appeal to the Chancellor as herein provided.

4. **Determination by the Student Conduct Committee.** The Committee shall make its findings and determinations based on the preponderance of the evidence in executive session out of the presence of the Primary Administrative Officer and the accused student or student organization. Separate findings are to be made:

a. As to the conduct of the accused student or student organization, and

b. On the sanctions, if any, to be imposed. No sanctions shall be imposed on the accused student or student organization unless a majority of the Committee present is convinced by the preponderance of the evidence that the student or student organization has committed the violation charged. In determining what sanction, if any, is appropriate, the Committee may take into consideration the previous disciplinary history of the accused student or student organization.

5. **Official Report of Findings and Determinations.** The Committee shall promptly consider the case on the merits and make its findings and determination and transmit them to the Primary Administrative Officer/Designee(s) and the accused student or student organization designee.

6. **Other Procedural Questions.** Procedural questions which arise during the hearing not covered by these general rules shall be determined by the Chair, whose ruling shall be final unless the Chair shall present the question to the Committee at the request of a member of the Committee, in which event the ruling of the Committee by majority vote shall be final.

7. **General Rules of Decorum.** The following general rules of decorum shall be adhered to:

a. All requests to address the Committee shall be addressed to the Chair.

b. The Chair will rule on all requests and points of order and may consult with Committee's legal adviser prior to any ruling. The Chair's ruling shall be final and all participants shall abide thereby, unless the Chair shall present the question to the Committee at the request of a member of the Committee, in which event the ruling of the Committee by majority vote shall be final.

c. Rules of common courtesy and decency shall be observed at all times.

d. An adviser or counselor may be permitted to address the Committee at the discretion of the Committee. An adviser or counselor may request clarification of a procedural matter or object on the basis of procedure at any time by addressing the Chair after recognition.

8. **Record of Hearing.** An audio, video, digital or stenographic record of the hearing shall be maintained. The notice, exhibits, hearing record and the findings and determination of the Committee shall become the "Record of the Case" and shall be filed in the Office of the Primary Administrative Officer and for the purpose of review or appeal be accessible at reasonable times and places to the University, and the accused student(s) or student organization designee.

**UML Anti-Hazing Policy**

Hazing, defined by the Fraternity Executive Association and accepted by the University of Missouri St. Louis, is any intentional action taken or situation created, whether on or off University or chapter premises, that produces mental or physical discomfort, embarrassment, harassment, or ridicule. This includes but is not limited to: paddling in any form, creation of excessive fatigue, physical or psychological shocks, wearing apparel in public, stunts and buffoonery, morally degrading or humiliating games and activities, involuntary labor, or any activity not consistent with the University Of Missouri Board Of Directors Standard Of Student Conduct.

The University of Missouri-St. Louis does not condone nor tolerate hazing of any type by any organization, or by an individual against another individual.

The University and the Office of Student Involvement will investigate any incident in which a charge of hazing has been made. University recognition may be temporarily withdrawn pending hearings and due process procedures.

1. Automatic and indefinite suspension of campus recognition with an accompanying loss of all campus privileges, (i.e. use of facilities, student services, etc.)

2. Disciplinary action against those members involved in the incident(s) including suspension or expulsion from the University.

The following diversity, equity and inclusion policies have been established by the University of Missouri Board of Curators to govern the academic and administrative functions of the four campuses and are available on the UM System website.

600.010 Equal Employment/Educational Opportunity and Nondiscrimination Policy

600.070 Policy Related to Students with Disabilities

330.070 Affirmative Action on Committee Appointments

Students may contact Student Affairs or the Title IX Office to lodge complaints or seek information about these procedures.

**Equal Employment/Educational Opportunity**

600.010 Equal Employment/Educational Opportunity and Nondiscrimination Policy

Bd. Min. 2-19-71; Reaffirmed Bd. Min. 10-14-77; Amended Bd. Min. 5-23-80; Amended Bd. Min. 10-15-82; Amended Bd. Min. 10-16-03; Amended Bd. Min. 6-19-14; Revised 9-22-14 by Executive Order 41. Revised 2-5-15; Amended 2-9-17 with an effective date of 3-1-17; Revised 7-28-20 with effective date of 8-14-20.

A. **Equal Employment/Educational Opportunity Policy and Statement of Nondiscrimination.** The Curators of the University of Missouri does hereby reaffirm and state the policy of the University of Missouri on Equal Employment/Educational Opportunity and Nondiscrimination.

1. Equal Opportunity is and shall be provided for all employees and applicants for employment on the basis of their demonstrated ability and competence without unlawful discrimination on the basis of their race, color, national origin, ancestry, religion, sex, pregnancy, sexual orientation, gender identity, gender expression, age, disability, protected veteran status, or any other status protected by applicable
state or federal law. This policy shall not be interpreted in such a manner as to violate the legal rights of religious organizations or the recruiting rights of military organizations associated with the Armed Forces or the Department of Homeland Security of the United States of America.

2. Equal Opportunity is and shall be provided for all students and applicants for admission without unlawful discrimination on the basis of their race, color, national origin, ancestry, religion, sex, pregnancy, sexual orientation, gender identity, gender expression, age, disability, protected veteran status, or any other status protected by applicable state or federal law. This policy shall not be interpreted in such a manner as to violate the legal rights of religious organizations or the recruiting rights of military organizations associated with the Armed Forces of the Department of Homeland Security of the United States of America.

3. The University of Missouri does not discriminate on the basis of race, color, national origin, ancestry, religion, sex, pregnancy, sexual orientation, gender identity, gender expression, age, disability, protected veteran status, and any other status protected by applicable state or federal law. As used in this policy, the word “sex” is also inclusive of the term “gender.”

The University’s Nondiscrimination policies apply to any phase of its employment process, any phase of its admission or financial aid programs, other aspects of its educational programs or activities, and instances occurring in other settings, including off-campus, if there are effects of the conduct that interfere with or limit any person’s ability to participate in or benefit from the University’s educational programs, activities or employment. Notices of Nondiscrimination are posted online and in physical locations for the UM System and each of the Universities in the System.

The President of the University shall establish affirmative action procedures to implement this policy.

B. Definition of Discrimination and Harassment. For purposes of determining whether a particular course of conduct constitutes prohibited discrimination or harassment under this policy, the following definitions will be used:

1. Conduct that constitutes sex discrimination (including discrimination on the basis of sex, pregnancy, gender identity, and gender expression), sexual harassment, sexual misconduct, stalking on the basis of sex, dating/intimate partner violence or sexual exploitation is defined in Section 600.020 – Sex Discrimination, Sexual Harassment and Sexual Misconduct in Employment/Education Policy.

2. Conduct that is based upon an individual’s race, color, national origin, ancestry, religion, sexual orientation, age, disability, protected veteran status, or any other status protected by applicable state or federal law that:
   a. Adversely affects a term or condition of employment, education, living environment or participation in a University activity; or
   b. Creates a hostile environment by being sufficiently severe or pervasive and objectively offensive that it interferes with, limits, or denies the ability to participate in or benefit from the University’s educational programs, activities, or employment.

C. Equity Officers. Duties and responsibilities of the University’s Equity Officers include monitoring and oversight of overall implementation and compliance with the University’s Equal Employment/Educational Opportunity and Nondiscrimination Policy, including coordination of training, education, communications and coordination with the equity resolution processes for faculty, staff, students and other members of the University community and investigation of complaints of discrimination, harassment, and retaliation.

Any person having inquiries concerning this policy should contact their respective UM System or campus Equity Officer. The following individuals serve as Equity Officers and are designated to handle inquiries regarding the Anti-Discrimination policies and to serve as the coordinators for purposes of compliance with those policies:

**University of Missouri-St. Louis**

Dana Beetee Daniels
Title IX Coordinator and Chief Equity Officer
Senior Human Resources Consultant
**Address:**
220 Woods Hall
St. Louis, MO 63121
**Telephone:** (314) 516-4538
**Email:** dana@umsl.edu

http://www.umsl.edu/title-ix/

NOTE: The above-listed contact information for Title IX Coordinators may be updated as needed and without requiring the approval of the Board of Curators.

If the Complaint involves the University’s Equity Officer, Complaints may be made to the System Equity Officer. If the Complaint involves the System Equity Officer, reports may be made to the System President. The contact information for the System President is:

Office of the President
321 University Hall
Columbia, MO 65211
**Telephone:** (573) 882-2011
**Email:** umpresident@umsystem.edu

NOTE: The above-listed contact information for Equity Officers may be updated as needed and without requiring the approval of the Board of Curators.

D. Equity Resolution Processes. The University is committed to preventing and eliminating impermissible discrimination and harassment in its educational programs, activities and employment. To that end, the University maintains policies regarding reporting, investigation, and resolution of complaints of discrimination, harassment, or sexual misconduct. Specifically, please see:

1. Section 600.030 – Equity Resolution Process for Resolving Complaints of Discrimination, Harassment and Sexual Misconduct Against a Student or Student Organization
2. Section 600.040 – Equity Resolution Process for Resolving Complaints of Discrimination, Harassment and Sexual Misconduct Against a Faculty Member
3. Section 600.050 – Equity Resolution Process for Resolving Complaints of Discrimination, Harassment and Sexual Misconduct Against a Staff Member
4. Section 600.060 - Equity Resolution Process for Resolving Complaints of Discrimination and Harassment Against the University of Missouri

E. Retaliation. Retaliation is any adverse action taken against a person because of that person’s participation in protected activity. The University strictly prohibits retaliation against any person for making any good faith report of discrimination, harassment, or sexual misconduct, or for filing, testifying, assisting, or participating in any investigation or proceeding.
involving allegations of discrimination, harassment or sexual misconduct. Any person who engages in such retaliation shall be subject to disciplinary action, up to and including expulsion or termination, in accordance with applicable procedures. Any person who believes they have been subjected to retaliation is encouraged to promptly notify the Equity Officer or Title IX Coordinator. The University will promptly investigate all claims of retaliation.

F. False Reporting. False reporting is making an intentional false report or accusation in relation to this policy as opposed to a report or accusation, which, even if erroneous, is made in good faith. False reporting is a serious offense subject to appropriate disciplinary action up to and including expulsion or termination.

G. Witness Intimidation or Harassment. No individual participating in an investigation relating to a report or Complaint that a violation of this policy has occurred should, directly or through others, take any action which may interfere with the investigation. The University prohibits attempts to or actual intimidation or harassment of any potential witness. Failure to adhere to these requirements may lead to disciplinary action ranging up to and including expulsion or termination.

H. U.S. Department of Education – Office for Civil Rights. Inquiries concerning discrimination in educational opportunities also may be referred to the United States Department of Education’s Office of Civil Rights. For further information on notice of nondiscrimination and for the address and phone number of the U.S. Department of Education office which serves your area call 1-800-421-3481. The State of Missouri regional Office for Civil Rights is located in Kansas City and is available to provide assistance.

600.030 Resolution Process for Resolving Complaints of Sexual Harassment under Title IX - for matters involving conduct alleged to have occurred on or after August 14, 2020

A. General. The University will promptly and appropriately respond to any report of violation of the University’s Title IX policies.

B. Jurisdiction. Jurisdiction of the University of Missouri under the Title IX policies shall be limited to sexual harassment which occurs in an education program or activity of the University of Missouri against a person in the United States. For purposes of this policy, “education program or activity” includes locations, events, or circumstances over which the University exercised substantial control over both the Respondent and the context in which the conduct occurs, and includes any building owned or controlled by a student organization that is officially recognized by the University. This policy does not apply to sexual harassment which occurs outside of the United States, even when the conduct occurs in an education program or activity of the University.

If a Complainant alleges or the investigation suggests that another University policy violation occurred in concert with an alleged violation of the University’s Title IX policies, the University shall have the authority to investigate and take appropriate action regarding the alleged violations of other University policies pursuant to this process. In conducting such investigations, the Title IX Coordinator(s), and/or their Investigator may consult with and/or seek guidance from the Equity Officer, Student Conduct Coordinator, or other University officials as appropriate. If the allegations in a Formal Complaint that fall under this policy are dismissed, the University may discontinue the process under this policy and proceed under the applicable University procedure for all remaining allegations in the Formal Complaint.

C. Definitions:

1. Academic Medical Center. University of Missouri Hospitals and Clinics, and other Academic Medical Centers as may be designated by the University in the future.

2. Academic Medical Center Resolution Process. Resolution of a Formal Complaint by a decision-maker making a finding on each of the alleged policy violations and a finding on sanctions.

3. Administrative Resolution. A voluntary informal resolution process where a decision-maker makes a finding on each of the alleged policy violations in a Formal Complaint and a finding on sanctions without a hearing.

4. Advisors. The individuals selected by the Complainant and the Respondent, or if a Party does not have their own Advisor, selected by the University, to conduct all cross-examination and other questioning on behalf of a Party at a hearing; an Advisor may, but is not required to, be an attorney.

5. Alternate Methods of Notice: Methods of providing Notice to a Party other than in person or by email to the Party’s University email account; these include email to another email account specified by the Party, or a Party’s designation of an address to which Notice may be mailed via U.S. Mail; a Party seeking to designate an Alternate Method of Notice must provide such designation in writing to the Title IX Coordinator.

6. Complainant. “Complainant” means an individual who is alleged to be the victim of conduct that could constitute sexual harassment.

7. Emergency Removal Appeal Individual/Committee: An individual or committee of three (3) individuals appointed by the Chancellor (or Designee) to hear appeals of an Emergency Removal decision by the Title IX Coordinator.

8. Equity Resolution Appellate Officer. For Staff, Student(s) or Student Organization Respondents, a trained, senior-level administrator appointed by the Chancellor (or Designee) to hear appeals stemming from the Title IX Resolution Process. For Faculty Respondents, the Chancellor (or Designee).

9. Equity Resolution Hearing Panel (“Hearing Panel”). A group of two (2) trained Equity Resolution Hearing Panelist Pool members who, together with the Hearing Officer, serve as the Hearing Panel for a specific Formal Complaint. A good faith attempt will be made for the Hearing Panel to include at least one faculty member and one administrator or staff member. The Hearing Officer shall serve as the Chair of the Hearing Panel.

10. Equity Resolution Hearing Panelists Pool (“Hearing Panelist Pool”). A group of at least five (5) faculty and five (5) administrators and/or staff selected by the Chancellor (or Designee) to serve as hearing panel members in the Hearing Panel Resolution process. The faculty hearing panel members selected by the Chancellor (or Designee) shall be selected from a list of no less than ten (10) faculty members proposed by the
faculty council/senate. Selection of hearing panel pool members shall be made with an attempt to recognize the diversity of the University community. Hearing Panel members from one University may be asked to serve on a hearing panel involving another University.

11. **Formal Complaint.** Formal Complaint means a written document filed by a Complainant or signed by the Title IX Coordinator alleging sexual harassment against a Respondent and requesting that the University investigate the allegation of sexual harassment. The phrase “document filed by a Complainant” means a document or electronic submission (such as by electronic mail or an online portal provided for this purpose by the University) that contains the Complainant’s physical or digital signature, or otherwise indicates that the Complainant is the person filing the Formal Complaint.

12. **Hearing Officer.** A trained individual appointed by the Chancellor (or Designee) to preside over a hearing and act as a member of the Hearing Panel, and to rule on objections and the relevancy of questions and evidence during the hearing.

13. **Hearing Panel Decision.** Resolution of a Formal Complaint by an Equity Resolution Hearing Panel recommending or making a finding on each of the alleged policy violations and sanctions, if applicable.

14. **Hearing Panelist Pool Chair (‘Pool Chair’).** The Hearing Panelist Pool Chair is selected by the Chancellor (Designee). The Pool Chair randomly selects and coordinates the hearing panel members to serve on the Hearing Panel for a specific Formal Complaint. The Pool Chair may serve as a panel member for a specific Formal Complaint.

15. **Informal Resolution.** A voluntary resolution process using alternative dispute resolution mechanisms such as mediation, facilitated dialogue, administrative resolution, or restorative justice.

16. **Investigators.** Investigators are trained individuals appointed by the Title IX Coordinator (or Designee) to conduct investigations of the alleged violations of the University’s Title IX Policies.

17. **Parties.** The Complainant and the Respondent are collectively referred to as the Parties.

18. **Record of the Case.** The Record of the Case in the Section 600.030 Process includes, when applicable: All Notices to the Parties; investigative report; recordings of Party and witness interviews; exhibits used at a hearing or at the Academic Medical Center (AMC) Meeting; recordings of meetings between the AMC decision-maker and Parties and witnesses, if any; the hearing record (an audio or audiovisual record of the hearing); any determination of dismissal of all or part of a Formal Complaint; the determination on each of the alleged policy violations and sanctions by either the Hearing Panel or decision-maker; and the decision on the appeal, if any, including the request for appeal, any additional evidence submitted for the appeal, and written arguments of the Parties.

19. **Report.** Any verbal or written communication or notice of an alleged violation of the University’s Title IX Policies.

20. **Respondent.** Respondent means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

21. **Rules of Decorum.** Hearing process rules to which Parties and their Advisors must adhere during any Hearing under this policy.

22. **Student.** A person having once been admitted to the University who has not completed a course of study and who intends to or does continue a course of study in or through one of the Universities of the University System. For the purpose of these rules, student status continues whether or not the University’s academic programs are in session.

23. **Student Organization.** A recognized student organization which has received Official Approval in accordance with Section 250.010 of the Collected Rules and Regulations. Three members of the organization may represent the student organization as the Party.

24. **Support Person.** An individual selected by a Party to accompany the Party to all meetings and interviews to provide support for the Party throughout the Title IX Process. A Support Person may not attend a hearing under the Title IX process unless also serving as a Party’s Advisor.

25. **Title IX Coordinator.** The Title IX Coordinator is a trained administrator designated by the Chancellor (or Designee) to respond to reports of sexual harassment; and to receive and assist with the Title IX process for Formal Complaints alleging violation of the University’s Sexual Harassment in Employment/Education Policy. All references to “Title IX Coordinator” throughout this policy refer to the Title IX Coordinator or the Title IX Coordinator’s designee.

26. **University’s Title IX Policies.** The University’s Title IX Policies include this Policy and the Sexual Harassment in Employment/Education Policy located at Section 600.020 of the Collected Rules and Regulations (CRR).

D. **Making a Report.** Any person (whether or not the person reporting is the Complainant) may report sexual harassment to the Title IX Coordinator. Such Reports may be made in person, or at any time (including during non-business hours) by mail, by telephone, or by electronic mail, using the contact information listed for the Title IX Coordinator, by an online portal set up by the University for this purpose, or by any other means that results in the Title IX Coordinator receiving the person’s verbal or written report. Individuals may also contact University police if the alleged offense may also constitute a crime. In order to foster reporting and participation, the University may provide amnesty to Parties and witnesses accused of minor student conduct violations ancillary to the incident.

E. **Preliminary Contact.** Upon receiving a Report, the Title IX Coordinator shall promptly contact the Complainant to discuss the availability of Supportive Measures as defined herein, consider the Complainant’s wishes with respect to Supportive Measures, inform the Complainant of the availability of Supportive Measures with or without the filing of a Formal Complaint, and explain to the Complainant the process for filing a Formal Complaint. If the identity of the Complainant is unknown, the Title IX Coordinator may conduct a limited investigation sufficient to identify the Complainant to the extent possible.

F. **Filing of a Formal Complaint.** A Complainant may file a Formal Complaint with the Title IX Coordinator in person, by mail, or by electronic mail, by using the contact information set forth in CRR 600.020, or through an online portal provided for this purpose by the University. At the time of filing a Formal Complaint, the Complainant must be participating in or attempting to participate in an education program or activity of the University.

The Title IX Coordinator may sign a Formal Complaint when they believe that with or without the Complainant’s desire to participate in this process, a non-deliberately indifferent response to the allegations requires an investigation. Where the Title IX Coordinator signs a Formal Complaint,
the Title IX Coordinator is not a Complainant or otherwise a Party under this policy.

If the Respondent files a Formal Complaint against the Complainant within ten (10) business days of the date of the Notice of Allegations where the allegations of sexual harassment in both Formal Complaints arise out of the same facts or circumstances, the University will consolidate the Formal Complaints for purposes of investigation and resolution in accordance with this policy.

The University may consolidate Formal Complaints as to allegations of sexual harassment against more than one Respondent, or by more than one Complainant against one or more Respondents, or by one Party against the other Party where the allegations of sexual harassment arise out of the same facts or circumstances. If the Respondent files a Formal Complaint against the Complainant more than ten (10) business days after the date of the Notice of Allegations where the allegations of sexual harassment in both Formal Complaints arise out of the same facts or circumstances, the University may consolidate the Formal Complaints for purposes of investigation and resolution in accordance with this policy. Where this process involves more than one Complainant or more than one Respondent, each Complainant and each Respondent shall be entitled and subject to all of the rights and obligations set forth herein.

G. Notice of Allegations:

1. Upon receipt of a Formal Complaint, the Title IX Coordinator will provide a written notice to the known Parties that includes the following:
   a. A description of the University’s Title IX Process, including Informal Resolution;
   b. Notice of the allegations of sexual harassment, including sufficient details known at the time. Sufficient details include the identities of the Parties involved in the incident, if known; the conduct allegedly constituting the sexual harassment; and the date and location of the alleged incident;
   c. A statement that the Respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the Title IX process;
   d. A statement reminding the Respondent that they have the right to file a report or Formal Complaint with the Title IX Coordinator; however, both Parties are advised that retaliation against any Party is prohibited;
   e. A statement notifying the Parties of the availability of Supportive Measures;
   f. A statement notifying the Parties of their right to have an Advisor of their choice, who may be, but is not required to be, an attorney. The Parties will be advised that if they do not have an Advisor to conduct cross-examination at a hearing on their behalf, the University will appoint such an Advisor; this Advisor may be, but is not required to be, an attorney. (This provision does not apply to matters proceeding under the process for Academic Medical Centers set forth in Section R);
   g. A statement notifying the Parties that they may have a Support Person selected by a Party accompany the Party to all meetings and interviews to provide support for the Party throughout the Title IX Process. A Support Person may not attend a hearing under the Title IX process unless also serving as a Party’s Advisor;
   h. A statement notifying the Parties that they will be permitted to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in the Formal Complaint, including the evidence upon which the University does not intend to rely in reaching a determination regarding responsibility, and including inculpatory and exculpatory evidence whether obtained from a Party or other source;
   i. A statement notifying the Parties that they must be truthful when making any statement or providing any information or evidence to the University throughout the Title IX process, and all documentary evidence must be genuine and accurate. False statements and fraudulent evidence by an employee may be the basis for personnel action pursuant to CRR 370.010 or HR 601, or other applicable University policies, or for disciplinary action pursuant to CRR 200.010 for students;
   j. A statement that nothing in the Title IX process is intended to supersede nor expand any rights the individual may have under applicable state or federal statutory laws or the U.S. Constitution;
   k. A statement informing a Party that all notices hereafter will be sent via their University-issued email account, unless they provide to the Title IX Coordinator an alternate method of notification. If a Party does not have a University-issued email account, all notices will be via U.S. Mail unless they provide the Title IX Coordinator with a preferred method of notification.

2. The Notice of Allegations will be made in writing to the Parties by email to the Party’s University-issued email account, with a read-receipt. If a read-receipt is not returned within one (1) business day or the Party does not have a University-issued email account, the Notice of Allegations shall be sent via U.S. Mail postage pre-paid to the last known address of the Party. Notice also may be provided in person to either Party, Notice is presumptively deemed delivered, when: 1) provided in person, 2) emailed to the individual, or 3) when mailed.

H. Supportive Measures. Supportive measures are non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the Complainant or the Respondent before or after the filing of a Formal Complaint or where no Formal Complaint has been filed. These measures are designed to restore or preserve equal access to the University’s education program or activity without unreasonably burdening the other Party, including measures designed to protect the safety of all Parties or the University’s education environment, or deter sexual harassment. The University will maintain as confidential any Supportive Measures provided to the Complainant or Respondent, to the extent that maintaining such confidentiality would not impair the ability of the University to provide the Supportive Measures. The Title IX Coordinator is responsible for the effective implementation of Supportive Measures. Supportive Measures may include:

1. Referral and facilitating contact for the Complainant or Respondent for counseling or other support services.
2. Mutual restrictions on contact between the Parties.
3. Providing campus escort services to the Parties.
4. Increased security and monitoring of certain areas of the campus.
5. Adjusting the extracurricular activities, work schedules, work assignments, supervisory responsibilities, or work arrangements of the Complainant and/or the Respondent, as appropriate.

6. If either Party is a student:
   a. Referral of that Party to academic support services and any other services that may be beneficial to the Party.
   b. Adjusting the courses, assignments, and/or exam schedules of the Party.
   c. Altering the on-campus housing assignments, dining arrangements, or other campus services for the Party.

7. Providing limited transportation accommodations for the Parties.

8. Informing the Parties of the right to notify law enforcement authorities of the alleged incident and offering to help facilitated such a report.

9. Implementing an Emergency Removal of a Respondent from the University's education program or activity on an emergency basis, if the Title IX Coordinator, after conducting an individualized safety and risk analysis, determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment, justifies removal.
   a. In all cases in which an Emergency Removal is imposed, the Respondent will immediately be given notice and an opportunity to challenge the decision of the Title IX Coordinator either prior to such Removal being imposed, or as soon thereafter as reasonably possible but no later than five (5) business days, to show cause why the removal should not be implemented. Any such challenge shall be made in writing and directed to the Title IX Coordinator who will forward such challenge to the Emergency Removal Appeal Individual/Committee, which will make a final decision on removal within three (3) business days.
   b. Violation of an Emergency Removal under this policy may be grounds for discipline.

10. Suspending, on an interim basis, a Respondent Student Organization's operations, University recognition, access to and use of the University campus/facilities/events and/or all other University activities or privileges for which the Respondent Student Organization might otherwise be eligible, pending the completion of the Title IX Process when the Title IX Coordinator finds and believes from available information that the presence of the student organization on campus would seriously disrupt the University or constitute a danger to the health, safety, or welfare of members of the University community. The appropriate procedure to determine the future status of the student organization will be initiated within seven (7) business days.

11. Implementing an administrative leave for an employee in accordance with University Human Resources Policies. Administrative leave for an employee is not an Emergency Removal under this policy.

I. Employees and Students Participating in the Title IX Process. All University employees and students must be truthful when making any statement or providing any information or evidence to the University throughout the process, including but not limited to the Investigator, Title IX Coordinator, the Hearing Panel and/or the Equity Resolution Appellate Officer, and all documentary evidence must be genuine and accurate. False statements or fraudulent evidence provided in this process, including but not limited to the Investigator, Title IX Coordinator, Hearing Panel and/or the Equity Resolution Appellate Officer, by an employee may be the basis for personnel action pursuant to CRR 370.010 or HR 601, or other applicable University policies, or if by a student may be the basis for disciplinary action pursuant to the provisions of CRR 200.010. However, this obligation does not supersede nor expand any rights the individual may have under applicable state or federal statutory law or the U.S. Constitution. Nothing in this provision is intended to require a Party or witness to participate in the process. The fact that a determination has been made that a Respondent has or has not violated any policy is not sufficient grounds, by itself, to declare that a false statement or fraudulent evidence has been provided by a Party or witness.

No employee or student, directly or through others, should take any action which may interfere with the investigation. Employees and students are prohibited from attempting to or actually intimidating or harassing any potential witness. Failure to adhere to these requirements may lead to disciplinary action, up to and including expulsion or termination.

J. Rights of the Parties in the Title IX Process

1. To be treated with respect by University officials.

2. To be free from retaliation.

3. To have access to University support resources (such as counseling and mental health services and University health services).

4. To request a no contact directive between the Parties.

5. To have a Support Person of the Party's choice accompany the party to all interviews and meetings (excluding hearings) throughout the Title IX Process.

6. To refuse to have an allegation resolved through the Informal Resolution Processes.

7. To receive prior to a hearing or other time of determination regarding responsibility, an investigative report that fairly summarizes the relevant evidence in an electronic format or hard copy for their review and written response.

8. To have an opportunity to present a list of potential witnesses and provide evidence to the Investigator.

9. To have Formal Complaints heard in substantial accordance with these procedures.

10. To receive written notice of any delay of this process or limited extension of time frames for good cause which may include considerations such as the absence of a Party, a Party's Advisor or a witness; concurrent law enforcement activity; or the need for language assistance or accommodation of disabilities.

11. To be informed of the finding, rationale, sanctions and remedial actions.

12. To report the matter to law enforcement (if applicable) and to have assistance in making that report.

13. To have an opportunity to appeal the dismissal of all or a portion of a Formal Complaint, and appeal the determination of a Hearing Panel or other decision-maker.

14. Additional Rights for Students as a Party:
   a. To request reasonable housing, living and other accommodations and remedies consistent with Section 600.030.H.
   b. To receive amnesty for minor student misconduct that is ancillary to the incident, at the discretion of the Title IX Coordinator.

15. Additional Rights for Hearing Panel Resolution:
K. Role of Support Persons and Advisors.

1. **Support Persons.** Each Complainant and Respondent is allowed to have one Support Person of their choice present with them for all Title IX Process interviews and meetings. The Parties may select whomever they wish to serve as their Support Person, including an attorney or parent. The Support Person may also act as the Party’s Advisor. If requested by a student Party, the Title IX Coordinator may assign a Trained Support Person to explain the Title IX process and attend interviews and meetings with a Party. University Trained Support Person(s) are administrators, faculty, or staff at the University trained on the Title IX Process. A Trained Support Person cannot be called upon as a witness by a Party in a hearing to testify about matters learned while that individual was acting in their capacity as a Trained Support Person.

2. **Advisors.** Each Party may have an Advisor of their choice present at the hearing to conduct cross-examination and other questioning for that Party. A Party may not directly question any other Party or any witness; all cross-examination and other questioning on behalf of a Party must be conducted by their Advisor. The Advisor may be, but is not required to be, an attorney. If a Party does not have an Advisor of their choice present at the hearing, the University will provide, without fee or charge to that Party, an Advisor of the University’s choice to conduct cross-examination and other questioning on behalf of that Party. The Parties may not require that the assigned Advisor have specific qualifications such as being an attorney. At the hearing, a Party’s Advisor may ask the other Party and any witnesses all relevant questions and follow-up questions, including those challenging credibility. An Advisor may conduct cross-examination and other questioning for a Party, and object to questions on limited grounds as specified in the Rules of Decorum. The Advisor may not make a presentation or otherwise represent the Complainant or the Respondent during the hearing. The Advisor may consult with the Party quietly or in writing, or outside the hearing during breaks, but may not speak on behalf of the Party, other than to conduct cross-examination or other questioning for the Party. Advisors who do not follow the Rules of Decorum will be warned or dismissed from the hearing at the discretion of the Hearing Officer.

3. **Investigation.** If a Formal Complaint is filed, then the Title IX Coordinator will promptly appoint a trained Investigator or a team of trained Investigators to investigate. The burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the University.

For purposes of the Investigation, the University cannot access, consider, disclose, or otherwise use a Party’s records that are made or maintained by a physician, psychiatrist, or other recognized professional or paraprofessional acting in the professional’s or paraprofessional’s capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the Party, unless the University obtains that Party’s voluntary, written consent to do so for use in the Title IX process.

The Parties are not prohibited from discussing the allegations under investigation or from gathering and presenting relevant evidence. The Parties may present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence; all such evidence must be relevant.

A Party whose participation is expected or invited at a hearing, interview or other meeting, shall receive written notice of the date, time, location, participants, and purpose of all hearings, investigative interviews, or other meetings, with sufficient time for the Party to prepare to participate.

The Parties may be accompanied to any related meeting or interview by a Support Person of their choice, who may be, but is not required to be, an attorney; however, the Support Person may only participate in the proceedings as set forth in this policy.

The Parties shall be permitted to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in the Formal Complaint, including the evidence upon which the University does not intend to rely in reaching any determination regarding responsibility, and inculpatory or exculpatory evidence whether obtained from a Party or other source and copies of recordings of all interviews conducted during the investigation, in sufficient time for the
Parties to meaningfully respond to the evidence prior to the conclusion of the investigation.

Prior to completion of the investigative report, the University will make available to each Party and the Party’s Advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy, and the Parties will have ten (10) business days to submit a written response to the Investigator, which the Investigator will consider prior to completion of the investigative report.

The final investigative report will fairly summarize the relevant evidence, and prior to a hearing or other time of determination regarding responsibility, the investigator will send to each Party and the Party’s Advisor, if any, the final investigative report in an electronic format or a hard copy, for their review and written response. If a written response is received from either Party, that response will be shared with the other Party and their Advisor, if any.

All investigations will be thorough, reliable and impartial. All interviews shall be recorded. In the event that recording is not possible due to technological issues, the investigator shall take thorough notes and such notes shall be provided to the Parties in lieu of recordings. The investigator shall document the reason the recording was not possible and such documentation shall become part of the Record of the Case.

The investigation of reported sexual harassment should be completed expeditiously, normally within thirty (30) business days of the filing of the Formal Complaint. Investigation of a Formal Complaint may take longer based on the nature and circumstances of the Formal Complaint.

M. Impact of Optional Report to Law Enforcement. A delay may also occur when criminal charges on the basis of the same behaviors that invoke this process are being investigated, to allow for evidence collection by the law enforcement agency. However, University action will not typically be altered or precluded on the grounds that civil cases or criminal charges involving the same incident have been filed or that such charges have been dismissed or reduced.

The Title IX Coordinator will not wait for the conclusion of a criminal investigation or criminal proceeding to begin the Title IX process. However, a Title IX investigation and resolution process may be temporarily delayed for good cause, which can include concurrent law enforcement activity. In such instances, written notice of the delay or extension with reasons for the action will be sent to each Party.

If delayed, the Title IX Coordinator will promptly resume the Title IX investigation as soon as notified by the law enforcement agency that it has completed the evidence-gathering process. The Title IX Coordinator will implement appropriate supportive measures during the law enforcement agency’s investigation period to provide for the safety of all Parties, the University community and the avoidance of retaliation or sexual harassment.

N. Dismissal of a Formal Complaint. During or upon the completion of the investigation, the Title IX Coordinator will review the Formal Complaint and the investigative report, if available, to determine if the Formal Complaint is subject to dismissal. A Formal Complaint shall be dismissed: (1) if the conduct alleged in the Formal Complaint would not constitute sexual harassment, as defined in CRR 600.020 even if proved; (2) the conduct alleged in the Formal Complaint did not occur in the University’s education program or activity, or (3) the conduct alleged in the Formal Complaint did not occur against a person in the United States. A dismissal under this provision does not preclude action under other applicable University processes.

A Formal Complaint or any allegations therein, may be dismissed at any time during the investigation or hearing if (1) the Complainant notifies the Title IX Coordinator in writing that the Complainant would like to withdraw the Formal Complaint or any allegations therein; (2) the Respondent is no longer enrolled or employed by the University; or (3) specific circumstances prevent the University from gathering evidence sufficient to reach a determination as to the Formal Complaint or the allegations therein.

Upon a dismissal required or permitted under this provision, the University will promptly send written notice of the dismissal and reason(s) therefor simultaneously to the Parties. Either Party may appeal a dismissal as set forth in Section U herein.

If the Title IX Coordinator determines there is a sufficient basis to proceed with the Formal Complaint, then the Title IX Coordinator will direct the process to continue. The Formal Complaint will then be resolved through Informal Resolution or Hearing Panel Resolution, or the Academic Medical Center (AMC) Process, if applicable.

O. Informal Resolution. Upon the filing of a Formal Complaint, the Parties may choose to engage in Informal Resolution. The decision of the Parties to engage in Informal Resolution must be voluntary, informed, and in writing. The Parties are not required to engage in Informal Resolution as a condition of enrollment or continuing enrollment, or employment or continuing employment, or enjoyment of any other right. The Parties are not required to waive their right to an investigation of a Formal Complaint or a right to a hearing process, or AMC Process, if applicable. At any time prior to agreeing to (or in Administrative Resolution, rendering of) a final resolution, any Party has the right to withdraw from the Informal Resolution process and the matter will be referred back for further investigation and/or hearing as may be applicable.

Informal Resolution is never available to resolve allegations that an employee sexually harassed a student.

In Informal Resolution, which includes mediation or facilitated dialogue, a neutral facilitator will foster a dialogue with the Parties to an effective resolution, if possible. The Complainant’s and the Respondent’s Support Persons may attend the Informal Resolution meeting. The Parties will abide by the terms of the agreed-upon resolution. Failure to abide by the terms of the agreed-upon resolution may be referred to the Title IX Coordinator for review and referral to the appropriate University Process for discipline or sanctions. The Title IX Coordinator will keep records of any Informal Resolution that is reached.

In the event the Parties are unable to reach a mutually agreeable resolution, the matter will be referred back for further investigation and/ or hearing as may be applicable. The content of the Parties’ discussions during the Informal Resolution Process will be kept confidential in the event the matter proceeds to the hearing process. The Parties’ agreement to participate, refusal to participate in, or termination of participation in Informal Resolution shall not be factors in any subsequent decisions regarding whether a policy violation occurred.

Among the resolutions which may be reached at this stage, the Respondent may voluntarily request to permanently separate from the University of Missouri System. If the Title IX Coordinator accepts the
Respondent’s proposal, the Respondent must sign a Voluntary Permanent Separation and General Release agreement to effectuate their separation and terminate the Title IX Process.

P. Procedural Details for Administrative Resolution. The Parties may mutually choose to participate in a type of Informal Resolution called Administrative Resolution. The Administrative Resolution process is not available where a student has alleged that an employee sexually harassed the student. The Administrative Resolution process is not available to Academic Medical Centers (AMC).

The Administrative Resolution process is a process whereby the decision-maker will meet separately with the Parties and their Support Person, if any, and consider the evidence provided by the investigator, including the investigative report, and evidence provided by the Parties, and will make a determination of responsibility that is binding on both Parties. The decision of the Parties to participate in Administrative Resolution must be voluntary, informed and in writing provided to the investigator, and must include a knowing written waiver of their right to a hearing under the Title IX process. However, either Party may choose to leave the process and opt for a hearing at any time before a final determination has been rendered. In addition, the following will apply to the Administrative Resolution process:

1. The standard of proof will be “preponderance of the evidence,” defined as determining whether the evidence shows it is more likely than not that a policy violation occurred.

2. The decision-maker has the discretion to determine the relevance of any witness or documentary evidence and may exclude information that is irrelevant, immaterial, cumulative, or otherwise use questions or evidence that constitute, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege, unless the person holding such privilege has waived the privilege.

3. In the Administrative Resolution Process, the Respondent and the Complainant may provide a list of questions for the decision-maker to ask the other Party. If those questions are deemed appropriate and relevant, they may be asked on behalf of the requesting Party; answers to such questions will be shared with the requesting Party.

4. At any time prior to a final determination being rendered, the Complainant and/or the Respondent may request that the Formal Complaint shift from the Administrative Resolution Process to the Hearing Panel Resolution Process. Upon receipt of such timely request from either Party, the Formal Complaint will shift to the Hearing Panel Resolution Process.

5. The Administrative Resolution process will normally be completed within sixty (60) business days of the decision-maker’s receipt of the Formal Complaint. Deviations from this timeframe will be promptly communicated to both Parties.

6. For good cause, the decision-maker in the Administrative Resolution Process may, in their discretion, grant reasonable extensions to the time frames and limits provided.

7. The Administration Resolution process consists of:
   a. A prompt, thorough and impartial investigation;
   b. A separate meeting with each Party and their Support Person, if any, and the decision-maker;
   c. A written finding by the decision-maker on each of the alleged policy violations;
   d. A written finding by the decision-maker on sanctions and remedial actions for findings of responsibility; and
   e. The decision-maker shall be as follows:

      (1) For Student or Student Organization Respondents and Staff Respondents, the decision-maker will be the Title IX Coordinator;

      (2) For Faculty Respondents, the decision-maker will be as follows:

         (a) The Title IX Coordinator will act as decision-maker and make recommendation(s) on findings of responsibility and sanctions and remedial actions, if applicable, to the Provost who will be the final decision-maker.

         (b) The Title IX Coordinator has the option to request that a designee from the Provost’s office act as decision-maker in Administrative Resolution and make recommendation(s) regarding findings of responsibility and sanctions and remedial actions, if applicable, to the Provost who will be the final decision-maker.

8. At least fifteen (15) business days prior to meeting with the decision-maker or if no meeting is requested, at least fifteen (15) business days prior to the decision-maker rendering a finding(s), the Title IX Coordinator or Provost’s designee, if applicable, will send a letter (Notice of Administrative Resolution) to the Parties with the following information:
   a. A description of the alleged violation(s) and applicable policy or policies that are alleged to have been violated.
b. The name of the decision-maker.

c. Reference to or attachment of the applicable procedures.

d. A copy of the final investigative report.

e. The option and deadline of ten (10) business days from the date of the notice to request a meeting with the decision-maker.

f. An indication that the Parties may have the assistance of a Support Person of their choosing at the meeting, though the Support Person’s attendance at the meeting is the responsibility of the respective Parties.

9. The sanctions of expulsion and termination are not available sanctions under the Administrative Resolution process in this Policy. Further, any suspension of a student under this Administrative Resolution process shall not exceed two (2) years. Any suspension of an employee under this Administrative Resolution process may be without pay, but may not exceed ten (10) business days.

10. The decision-maker can, but is not required to, meet with and question the Investigator and any identified witnesses. The decision-maker may request that the Investigator conduct additional interviews and/or gather additional information. The decision-maker will meet separately with the Complainant and the Respondent, and their Support Person, if any, to review the alleged policy violations and the investigative report. The Respondent may choose to admit responsibility for all or part of the alleged policy violations at any point in the process. If the Respondent admits responsibility, in whole or in part, the decision-maker will render a finding that the individual is in violation of University policy for the admitted conduct. For any disputed violations, the decision-maker will render a finding using the preponderance of the evidence standard. The decision-maker will also determine appropriate sanctions or remedial actions.

11. The decision-maker will inform the Respondent and the Complainant simultaneously of the finding on each of the alleged policy violations and the finding of sanctions, if applicable, in writing by email to the Party’s University-issued email account, or by the method of notification previously designated in writing by the Party. Notice is presumptively deemed delivered, when: 1) provided in person, 2) emailed to the individual to their University-issued email account, or 3) when sent via the alternate method of notification specified by the Party.

12. Either Party may appeal a decision under Administrative Resolution in accordance with Section U of this policy.

Q. Hearing Panel Resolution. This process is not available for Academic Medical Centers. See Section R.

1. Equity Resolution Hearing Panelist Pool. Each University will create and annually train a pool of not less than five (5) faculty and five (5) administrators and/or staff to serve as hearing panel members in the Hearing Panel Resolution Process. The faculty hearing panel pool members selected by the Chancellor (or Designee) shall be selected from a list of no less than ten (10) faculty members proposed by the faculty council/senate. Pool members are selected by the Chancellor (or Designee) and serve a renewable one-year term. Selection of hearing panel pool members shall be made with an attempt to recognize the diversity of the University community. Hearing Panel members from one University may be asked to serve on a hearing panel involving another University. The Chancellor (or Designee) will select a Hearing Panelist Pool Chair (“Pool Chair”). The Pool Chair randomly selects and coordinates the hearing panel members to serve on the Hearing Panel for a specific Formal Complaint. The Pool Chair may serve as a panel member for a specific Formal Complaint.

Administrators, faculty, and staff will be removed from the Hearing Panelist Pool if they fail to satisfy the annual training requirements, as determined by the Title IX Coordinator. Under such circumstances, the Title IX Coordinator will notify the Chancellor (or Designee), who will inform the administrator, faculty, or staff member of the discontinuation of their term.

2. Title IX Hearing Panel ("Hearing Panel"). When a Formal Complaint is not resolved through an Informal Resolution process, the Hearing Panelist Pool Chair will randomly select two (2) members from the Hearing Panelist Pool to serve on the specific Hearing Panel together with the Hearing Officer. A good faith attempt will be made for the Hearing Panel to include at least one faculty member and one administrator or staff member. Up to two (2) alternates may be designated to sit in throughout the process as needed. The University reserves the right to have its attorney present during the hearing and during deliberations to advise the Hearing Panel.

a. At least twenty (20) business days prior to the hearing, the Title IX Coordinator will send a letter (Notice of Hearing) to the Parties with the following information:

(1) A description of the alleged violation(s) and applicable policy or policies that are alleged to have been violated

(2) A description of the applicable procedures.

(3) A statement that the Parties may have the assistance of an Advisor of their choosing, at the hearing; that the Party’s Advisor will conduct all cross-examination and other questioning of the other Party and all witnesses on behalf of the Party they are advising; that if the Party does not have an Advisor, an Advisor will be provided by the University for the purpose of conducting cross-examination and other questioning for that Party; and the Advisor may be, but is not required to be, an attorney.

(4) The time, date and location of the hearing.

(5) A list of the names of each of the Hearing Panel members, including the Hearing Officer, and alternates, and information on how to raise an objection to any member of the Hearing Panel and the timeline in which to raise any objections.

(6) A copy of the final investigative report and exhibits.

(7) Notification to the Parties that all of the evidence gathered in the course of the investigation that is directly related to the allegations including inculpatory and exculpatory evidence, is available to the Parties and instructions regarding how to request access to that evidence.

(8) Notice that if a Party or witness does not submit to cross-examination at the hearing, the decision-maker(s) must not rely on any statement of that Party or witness in reaching a determination regarding responsibility, but no inference can be drawn from the fact that a Party or witness failed to submit to cross-examination.
   a. At least fifteen (15) business days prior to the hearing, the Complainant and Respondent will provide to the Investigator a list of the names of the proposed witnesses and copies of all proposed documentary evidence that a Party intends to call or use at the hearing.
   b. At least ten (10) business days prior to the hearing, the Investigator will provide to each Party the names of proposed witnesses and proposed documentary evidence that the other Party intends to call or use at the hearing.
   c. No employee or student, directly or through others, should take any action which may interfere with the investigation or hearing procedures. Employees and students are prohibited from attempted or actual intimidation or harassment of any potential witness. Failure to adhere to these requirements may lead to disciplinary action, up to and including expulsion or termination.

5. Objection to or Recusal of Hearing Panel Member.
   a. Hearing Panel members, including the Hearing Officer, shall not have a conflict of interest or bias for or against Complainants or Respondents generally or an individual Complainant or Respondent. If a Hearing Panel member or Hearing Officer feels that they have a conflict of interest or bias, or cannot make an objective determination, they must recuse themselves from the proceedings in advance of the hearing.
   b. The Parties will have been given the names of the Hearing Panel members, including the Hearing Officer, in the Notice of Hearing. Should any Complainant or Respondent object to any panelist, they must raise all objections, in writing, to the Title IX Coordinator at least fifteen (15) business days prior to the hearing.
   c. Hearing Panel members will only be unseated and replaced if the Title IX Coordinator concludes that good cause exists for the removal of a panel member. Good cause may include, but is not limited to, bias that would preclude an impartial hearing or circumstances in which the Hearing Panel member’s involvement could impact the Party’s work or learning environment due to current or potential interactions with the Hearing Panel member (e.g., a panel member being in the same department as either Party). If the Title IX Coordinator determines that a Hearing Panel member, other than the Hearing Officer, should be unseated and replaced, then Title IX Coordinator will ask the Hearing Panel Pool Chair to randomly select another member from the pool to serve on the Hearing Panel. The Title IX Coordinator will select an alternate Hearing Officer if they determine that the Hearing Officer should be replaced. The Title IX Coordinator will provide a written response to all Parties addressing any objections to the Hearing Panel members, including the Hearing Officer.

6. Alternative Attendance or Questioning Mechanisms. All hearings will be live. However, at the request of either Party or by the University’s designation, the live hearing may occur with the Parties located in separate rooms with technology enabling the Hearing Panel, including the Hearing Officer, and their legal advisor, if any, the Parties and their Advisors, and the Investigator, to simultaneously see and hear the Party or the witness answering questions. Should any hearing take place in this manner, the Title IX Coordinator (or Designee) shall be in charge of the technology during the hearing. The University will make reasonable accommodations for the Parties in keeping with the principles of equity and fairness.

7. Requests to Reschedule the Hearing Date. For good cause, the Title IX Coordinator may grant requests to reschedule the hearing date.

   a. At least ten (10) business days prior to the hearing date, a Party shall inform the Title IX Coordinator whether the Party intends to bring an Advisor of their choice to the hearing.
   b. At least ten (10) business days prior to the hearing date, a Party shall inform the Title IX Coordinator whether the Party is requesting accommodations for the hearing.
   c. At least five (5) business days prior to the hearing date, the final investigative report and all exhibits will be provided to the Hearing Panel members.

9. Pre-Hearing Meeting. Unless otherwise agreed by the Parties and the Hearing Officer, a pre-hearing meeting may be scheduled one hour prior to the start of the hearing between the Hearing Officer and Parties’ Advisors. Parties may, but are not required to, be in attendance at this meeting.

10. Conduct of Hearing. The Hearing Officer shall participate on the Hearing Panel and preside at the hearing, call the hearing to order, call the roll of the Hearing Panel and alternates in attendance, ascertain the presence or absence of the Investigator, the Complainant and the Respondent, confirm receipt of the Notice of Allegations and Notice of Hearing by the Parties, report any extensions requested or granted and establish the presence of any Advisors.

   a. Order of Evidence. The order of evidence shall generally be the following:

   (1) The Complainant will proceed first and may give a verbal statement of their allegations of sexual harassment against the Respondent. The Hearing Panel may next ask questions of the Complainant. The Complainant will then be subject to cross-examination by the Advisor of the Respondent. The Complainant may also call witnesses who will be subject to questioning by the Advisor of the Complainant, questioning by the Hearing Panel, and cross-examination by the Advisor of the Respondent. The Complainant may also submit documentary evidence
The Title IX Coordinator shall arrange for an audio or audiovisual recording of the hearing. The recording of the hearing shall be provided by the University to the Complainant; and access to the University's education programs or activities will not be denied to the Complainant; and whether remedies designed to restore or preserve equal educational opportunities for the Complainant; and any disciplinary sanctions to be imposed on the Respondent, including a determination regarding responsibility, sanctions and remedial actions, if any. Findings of the Hearing Panel.

a. The Hearing Panel will deliberate with no others present, except any legal advisor to the Hearing Panel, to find whether the Respondent is responsible or not responsible for the policy violation(s) in question. The Hearing Panel will base its finding on a preponderance of the evidence (i.e., whether it is more likely than not that the Respondent committed each alleged violation). If a Respondent is found responsible by a majority of the Hearing Panel, the Hearing Panel will determine appropriate sanctions and remedial actions by a majority vote.

b. The Hearing Officer will prepare a written determination reflecting the decision of the Hearing Panel regarding responsibility, sanctions and remedial actions, if any ("Hearing Panel Decision"), and deliver it to the Title IX Coordinator detailing the following:

(1) Identification of the allegations potentially constituting sexual harassment as defined in CRR 600.020;

(2) A description of the procedural steps taken from the receipt of the Formal Complaint through the determination, including any notifications to the Parties, interviews with Parties and witnesses, site visits, methods used to gather other evidence and hearings held;

(3) Findings of fact supporting the determination;

(4) Conclusions regarding the application of the University's Title IX Policies to the facts;

(5) A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any disciplinary sanctions to be imposed on the Respondent, and whether remedies designed to restore or preserve equal access to the University's education programs or activities will be provided by the University to the Complainant; and
(6) The procedures and permissible bases for the Complainant and the Respondent to appeal.

c. The Hearing Panel Decision should be submitted to the Title IX Coordinator within five (5) business days of the end of deliberations. Deviations from the five-day period will be communicated by the Hearing Officer to the Parties and the Title IX Coordinator, along with an expected time for completion. The Hearing Panel Decision will be provided to the Title IX Coordinator who will provide it to the Parties simultaneously within five (5) business days of receipt of the decision.

d. The Hearing Panel Decision will be sent to each Party by email to their University-issued email account, or by the method of notification previously designated in writing by the Party. Notice is presumptively deemed delivered, when: 1) provided in person, 2) emailed to the individual to their University-issued email account, or 3) when sent via the alternate method of notification specified by the Party.

e. The Hearing Panel Decision will become final either on the date that the Parties are provided with the written determination of the result of the appeal, if an appeal is filed, or if an appeal is not filed, the date on which an appeal would no longer be considered timely.

f. The Title IX Coordinator is responsible for effective implementation of any remedies.

R. Process for Academic Medical Centers (AMC)

1. Academic Medical Centers at the University of Missouri are not required to provide for a live hearing, but rather must adhere to the following process for resolving Formal Complaints alleging Title IX violations.

2. The decision-maker(s) for the Title IX Process for Academic Medical Centers shall be a neutral, impartial, and unbiased decision-maker designated by the Executive Vice Chancellor for Health Affairs.

3. Notice of AMC Meeting. The decision-maker will meet separately with each Party. At least fifteen (15) business days prior to the initial meeting with the decision-maker, the Title IX Coordinator will send a letter (Notice of AMC Meeting) to the Parties with the following information:
   a. A description of the alleged violation(s) and applicable policy or policies that are alleged to have been violated.
   b. A description of the applicable procedures.
   c. A statement that the Parties may be accompanied by a Support Person of their choosing at the AMC Meeting.
   d. The time, date and location of the AMC Meeting.
   e. The name of the decision-maker, and information on how to raise an objection to the decision-maker and the timeline in which to raise any objections.
   f. A copy of the investigative report and exhibits.
   g. Notification to the Parties that all of the evidence gathered in the course of the investigation that is directly related to the allegations, including inculpatory and exculpatory evidence, is available to the Parties and how to request access to that evidence.

4. The Notice of AMC Meeting letter will be sent to each Party by email to their University-issued email account, or by the method of notification previously designated in writing by the Party. Notice is presumptively deemed delivered, when: 1) provided in person, 2) emailed to the individual to their University-issued email account, or 3) when sent via the alternate method of notification specified by the Party.

5. At least fifteen (15) business days prior to the initial AMC Meeting, the Investigator will provide to the Parties access to all evidence gathered in the investigation which is directly related to the allegations in the Formal Complaint, including any evidence upon which the Investigator does not intend to rely, and inculpatory and exculpatory evidence whether obtained from a Party or other source, copies of recordings of all interviews conducted during the investigation, and a copy of any investigative report.

6. At least ten (10) business days prior to the initial AMC Meeting, the Complainant and Respondent may provide the decision-maker with written, relevant questions the Party wants asked of any Party or witness. At least five (5) business days prior to the initial AMC Meeting, the decision-maker will provide each Party with the answers, and allow for additional, limited follow-up questions from each Party. The decision-maker must explain to the Party proposing the questions any decision to exclude a question as not relevant. The Parties may also provide the decision-maker with documentary evidence.

7. No employee or student, directly or through others, should take any action which may interfere with the investigation or the AMC process. Employees and students are prohibited from attempted or actual intimidation or harassment of any potential witness. Failure to adhere to these requirements may lead to disciplinary action, up to and including expulsion or termination.

8. The decision-maker shall not have a conflict of interest or bias for or against Complainants or Respondents generally or an individual Complainant or Respondent. If a decision-maker feels that they have a conflict of interest or bias, or cannot make an objective determination, they must recuse themselves from the proceedings in advance of the AMC meeting.

9. At least ten (10) business days prior to the initial AMC Meeting, the Parties shall provide to the Title IX Coordinator all objections in writing to the decision-maker identified in the Notice of AMC Meeting. If the Title IX Coordinator determines that the decision-maker should be replaced, the Title IX Coordinator will select an alternate decision-maker. The Title IX Coordinator will provide a written response to all Parties addressing the objections.

10. Questions and evidence about the Complainant’s predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the Complainant’s prior sexual behavior are offered to prove that someone other than the Respondent committed conduct alleged by the Complainant, or if the questions and evidence concern specific incidents of the Complainant’s prior sexual behavior with respect to the Respondent and are offered to prove consent.

11. Character evidence is information that does not directly relate to the facts at issue, but instead reflects upon the reputation, personality, or qualities of an individual, including honesty. Such evidence regarding either Party’s character is of limited utility and shall not be admitted unless deemed relevant by the Hearing Officer.

12. Incidents or behaviors of a Party not directly related to the possible violation(s) will not be considered unless they show a pattern of related misconduct. History of related misconduct by a Party that shows a pattern may be considered only if deemed relevant by the Hearing Officer.
13. A Party’s records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional’s or paraprofessional’s capacity, or assisting in that capacity, and which are made or maintained in connection with the provision of treatment to the Party, may not be used without that Party’s express consent.

14. The decision-maker shall not require, allow, rely upon, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege, unless the person holding such privilege has waived the privilege.

15. All meetings between the decision-maker and Parties and/or witnesses shall be recorded.

16. Within ten (10) business days of the last meeting with any Party or witness, the decision-maker must issue a written determination regarding responsibility, applying the preponderance of the evidence standard of evidence. The written determination must include:
   a. Identification of the allegations potentially constituting sexual harassment as defined in CRR 600.020.
   b. A description of the procedural steps taken from the receipt of the Formal Complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence and meetings held;
   c. Findings of fact supporting the determination;
   d. Conclusions regarding the application of the Title IX policies to the facts;
   e. A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any disciplinary sanctions to be imposed on the Respondent, and whether any remedies designed to restore or preserve equal access to the University’s education program or activity will be provided by the University to the Complainant; and
   f. The University’s procedures and permissible bases for the Complainant and Respondent to appeal as set forth in Section U.

17. The written determination will be provided to the Title IX Coordinator, who will provide it to the Parties simultaneously within five (5) business days of receipt of the determination. Notification will be made in writing and sent to each Party by email to their University-issued email account, or by the method of notification previously designated in writing by the Party. Notice is presumptively deemed delivered, when: 1) provided in person, 2) emailed to the individual to their University-issued email account, or 3) when sent via the alternate method of notification specified by the Party.

18. The determination becomes final either on the date that the University provides the Parties with the written determination of the result of the appeal, if any appeal is filed, or if any appeal is not filed, the date on which an appeal would no longer be considered timely.

19. The Title IX Coordinator is responsible for effective implementation of any remedies.

S. Sanctions and Remedial Actions.

1. If the Respondent is found responsible for a violation of the University’s Title IX Policies, the Hearing Panel, or the decision-maker in the Administrative Resolution Process or Academic Medical Center Process, will determine sanctions and remedial actions. The Title IX Coordinator will apply and enforce the sanctions and remedial actions and may also add other remedial actions as deemed appropriate.
   a. Factors Considered When Finding Sanctions/Remedial Actions include but are not limited to:
      (1) The nature, severity of, and circumstances surrounding the violation;
      (2) The disciplinary history of the Respondent;
      (3) The need for sanctions/remedial actions to bring an end to the conduct;
      (4) The need for sanctions/remedial actions to prevent the future recurrence of the conduct; and
      (5) The need to remedy the effects of the conduct on the Complainant and the University community.

2. Types of Sanctions. The following sanctions may be imposed upon any Respondent found to have violated the University’s Title IX Policies. Multiple sanctions may be imposed for any single violation. Sanctions include but are not limited to the following:
   a. For Respondents who are Student(s) or Student Organization(s):
      (1) Warning. A notice in writing to the Respondent that there is or has been a violation of institutional regulations, and cautioning that if there are further violations, the existence of the Warning may result in more severe sanctions in the future.
      (2) Probation. A written reprimand for violation of specified regulations. Probation is for a designated period of time and includes the probability of more severe sanctions if the Respondent is found to be violating any institutional regulation(s) during the probationary period.
      (3) Loss of Privileges. Denial of specified privileges for a designated period of time.
      (4) Restitution. Compensating the University for loss, damage, or injury to University property. This may take the form of appropriate service and/or monetary or material replacement.
      (5) Discretionary Sanctions. Work assignments, service to the University, or other related discretionary assignments, or completion of educational programming.
      (6) Residence Hall Suspension. Separation of the Respondent from the residence halls for a definite period of time, after which the Respondent is eligible to return. Conditions for readmission may be specified.
      (7) Residence Hall Expulsion. Permanent separation of the Respondent from the residence halls.
      (8) Campus Suspension. Respondent is suspended from being allowed on a specific University campus for a definite period of time. Logistical modifications consistent with the
sanction imposed, may be granted at the discretion of the Chief Student Affairs Officer (or Designee).

(9) **University System Suspension.** Separation of the Respondent from the University System for a definite period of time, after which the Respondent is eligible to return. Conditions for readmission may be specified.

(10) **Withdrawal of Recognition.** Respondent Student Organization loses its Official Approval as a recognized student organization. May be either temporary or permanent.

(11) **University System Expulsion.** Permanent and complete separation (i.e., not eligible for online courses either) of the Respondent from the University System.

b. **For Respondents who are Employee(s):**

(1) Warning – verbal or written;
(2) Performance improvement plan;
(3) Required counseling;
(4) Required training or education;
(5) Loss of annual pay increase;
(6) Loss of supervisory responsibility;
(7) Recommendation of discipline in a training program, including recommendation of termination, suspension or other corrective or remedial actions;
(8) For Non-Regular Faculty, immediate termination of term contract and employment;
(9) For Regular, Untenured Faculty, immediate termination of term contract and employment. Notice of not reappointing would not be required;
(10) Suspension without pay;
(11) Non-renewal of appointment;
(12) For Regular, Tenured Faculty, suspension without pay, removal from campus and referral to the Chancellor to initiate dismissal for cause as detailed in Section 310.060 of the Collected Rules and Regulations;
(13) For Staff, Demotion;
(14) For Staff, Termination.

c. **Remedial Actions.** The following remedial actions may also be imposed to address the effects of the violation(s) of the University’s Title IX Policies on the Complainant. Such remedial actions will vary depending on the circumstances of the policy violation(s), but may include:

(1) Where the Complainant is a student:

(a) Permitting the student to retake courses;
(b) Providing tuition reimbursement;
(c) Providing additional academic support;
(d) Removal of a disciplinary action; and
(e) Providing educational and/or on-campus housing accommodations.

(2) Where the Complainant is an employee:

(a) Removal of a disciplinary action;
(b) Modification of a performance review;
(c) Adjustment in pay;
(d) Changes to the employee’s reporting relationships; and
(e) Workplace accommodations.

In addition, the University may offer or require training and/or monitoring as appropriate to address the effects of the violation(s) of the University’s Title IX Policies.

d. **When Implemented.** Sanctions will be imposed once the written determination regarding responsibility becomes final; the determination regarding responsibility is final either on the date that the Parties are provided with the written determination of the result of the appeal, if an appeal is filed, or if an appeal is not filed, the date on which an appeal would no longer be considered timely.

T. **Withdrawal While Charges Pending.** Should a Respondent decide to resign employment, or withdraw from the University and not participate in the investigation and/or hearing without signing a Voluntary Permanent Separation and General Release Agreement and without the approval of the Title IX Coordinator, the Formal Complaint may be dismissed, or the Title IX Coordinator may determine that the process will nonetheless proceed in the Respondent’s absence to a reasonable resolution and, if the Respondent is found responsible, the Respondent will not be permitted to return to the University unless all sanctions have been satisfied.

U. **Appeal.**

1. **Grounds for Appeal.** Both Complainant and Respondent are allowed to appeal the dismissal of a Formal Complaint or any of the allegations therein, or the findings of the Administrative Resolution Process, the Hearing Panel Resolution Process, or the Academic Medical Center process. Appeals are limited to the following:

a. A procedural irregularity that affected the outcome of the matter (e.g., material deviation from established procedures, etc.);

b. To consider new evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter;

c. The Title IX Coordinator, Investigator(s), or decision-maker(s) had a conflict of interest or bias for or against Complainants or Respondents generally or the individual Complainant or Respondent that affected the outcome of the matter; or

d. The sanctions fall outside the range typically imposed for this offense, or for the cumulative conduct record of the Respondent.

2. **Requests for Appeal.** Both the Complainant and the Respondent may appeal a dismissal of a Formal Complaint or any allegations therein, or a determination regarding
responsibility to the Equity Resolution Appellate Officer. The Equity Resolution Appellate Officer must not have a conflict of interest or bias for or against Complainants or Respondents generally or an individual Complainant or Respondent; if the Equity Resolution Appellate Officer does not believe that they can make an objective decision about an appeal, they should recuse themselves and the Chancellor (or Designee) shall appoint an alternate Equity Resolution Appellate Officer to hear the pending appeal. All requests for appeal must be submitted in writing to the Equity Resolution Appellate Officer within five (5) business days of the delivery of the notice of dismissal or Administrative Resolution Decision, Hearing Panel Decision, or AMC Determination. When any Party requests an appeal, the other Party will be notified and receive a copy of the request for appeal.

3. **Response to Request for Appeal.** Within five (5) business days of the delivery of the notice and copy of the request for appeal, the non-appealing Party may file a response to the request for appeal. The response can address that sufficient grounds for appeal have not been met and/or the merits of the appeal.

4. **Review of the Request to Appeal.** The Equity Resolution Appellate Officer will make an initial review of the appeal request(s) to determine whether:
   - The Equity Resolution Appellate Officer will reject the request for appeal if any of the above requirements are not met. The decision to reject the request for appeal is final and further appeals and grievances are not permitted. The Equity Resolution Appellate Officer will render a written decision whether the request for appeal is accepted or rejected within fifteen (15) business days from receipt of the request for appeal. If no written decision is provided to the Parties within fifteen (15) business days from receipt of the request, the appeal will be deemed accepted.
   a. The request is timely, and
   b. The appeal is on the basis of any of the articulated grounds listed above, and
   c. When viewed in the light most favorable to the appealing Party, the appeal states grounds that could result in an adjusted finding or sanction.

5. **Review of the Appeal.** If all three (3) requirements for appeal listed in paragraph 4 above are met, the Equity Resolution Appellate Officer will accept the request for appeal and proceed with rendering a decision on the appeal applying the following additional principles:
   a. Appeals are not intended to be full re-hearings of the Formal Complaint and are therefore deferential to the original findings. In most cases, appeals are confined to a review of the written documentation and Record of the Case, and relevant documentation regarding the grounds for appeal. Appeals granted based on new evidence should normally be remanded to the original decision-maker for reconsideration.
   b. The Equity Resolution Appellate Officer will render a written decision on the appeal to all Parties within ten (10) business days from accepting the request for appeal. In the event the Equity Resolution Appellate Officer is unable to render a written decision within ten (10) business days from accepting the request for appeal, the Equity Resolution Appellate Officer will promptly notify the Parties in writing of the delay.
   c. Once an appeal is decided, the outcome is final. Further appeals are not permitted.

6. **Extensions of Time.** For good cause, the Equity Resolution Appellate Officer may grant reasonable extensions of time (e.g.: 7-10 business days) to the deadlines in the appeal process. The Equity Resolution Appellate Officer will notify the Parties in writing if such extensions are granted.

V. **Failure to Complete Sanctions/Comply with Interim and Long-term Remedial Actions.** All Respondents are expected to comply with all sanctions and remedial actions within the timeframe specified. Failure to follow through on these sanctions and remedial actions by the date specified, whether by refusal, neglect or any other reason, may result in additional sanctions and remedial actions and/or suspension, expulsion, termination, referral to Dismissal for Cause process, or withdrawal of recognition from the University. Suspension will only be lifted when compliance is achieved to the satisfaction of the Title IX Coordinator.

W. **Dismissal for Cause Referral.** If the recommended sanction for a Regular, Tenured Faculty member is referral to the Chancellor to initiate Dismissal for Cause, the Record of the Case will be forwarded to the appropriate Faculty Committee on Tenure. Because the Dismissal for Cause proceeding is not a re-hearing of the Complaint, the Record of the Case will be included as evidence and the findings will be adopted for proceeding as detailed in Section 310.060: Procedures in Case of Dismissal for Cause in the Collected Rules and Regulations.

X. **Records.** In implementing this policy, records of all Formal Complaints, the Hearing Process or Academic Medical Center Process, and resolutions (including Informal resolution and result therefrom), will be kept by the Title IX Coordinator. For the purpose of review or appeal, the Record of the Case will be accessible at reasonable times and places to the Respondent and the Complainant. The Record of the Case will be kept for seven (7) years following final resolution.

In addition, a record of the response to all complaints of sexual harassment, must be maintained for a period of seven (7) years, including records of any actions, including Supportive Measures, taken in response to a report or Formal Complaint of sexual harassment. In each instance, the University must document the basis for its conclusion that its response was not deliberately indifferent, and document that it has taken measures designed to restore or preserve equal access to the University’s education programs or activities. If the University did not provide a Complainant with Supportive Measures, the University must document the reasons why such a response was not clearly unreasonable in light of the known circumstances.

Each Title IX Coordinator, including the Title IX Coordinator for the academic medical center, shall maintain statistical, de-identified data on the race, gender and age of each Party to a Formal Complaint for that university/ academic medical center, and will report such data on an annual basis to the President of the University of Missouri. Additionally, statistical data relating to each university in the University of Missouri System shall be reported on an annual basis to that university’s Chancellor and chief officers for human resources, student affairs, and diversity, equity and inclusion; the academic medical center shall report such statistical data for the academic medical center on an annual basis to the Executive Vice-Chancellor for Health Affairs. Data relating to the University of Missouri System shall be reported on an annual basis to the University of Missouri System’s chief officers for human resources, student affairs, and diversity, equity and inclusion.
Y. Retaliation. No person may intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by Title IX, or because the individual has made a report or complaint, testified, assisted, or participated or refused to participate in any manner in an investigation, proceeding, or hearing under this policy. Retaliation is prohibited on any phase of its employment process, any phase of its educational programs or activities, or in the university settings, including off-campus, if there are effects of the conduct that arise out of the same facts or circumstances as a report or complaint of sex discrimination, or a report or formal complaint of sexual harassment, for the purpose of interfering with any right or privilege secured by Title IX, constitutes retaliation.

The University must keep confidential the identity of any individual who has made a report or complaint of sex discrimination, including any individual who has made a report or filed a formal complaint of sexual harassment, any complainant, any individual who has been reported to be the perpetrator of sex discrimination, any respondent, and any witness, except as may be permitted by the FERPA statute, 20 U.S.C. 1232g, or FERPA regulations, 34 CFR part 99, or as required by law, or to carry out the purposes of Title IX, including the conducts of any investigation, hearing, or judicial proceeding arising thereunder. Complaints alleging retaliation may be filed with the Equity Officer in accordance with CRRs 600.010, 600.040, and 600.050.

The exercise of rights protected under the First Amendment does not constitute retaliation prohibited under this section.

Charging an individual with a policy violation for making a materially false statement in bad faith in the course of the any proceedings under this policy does not constitute retaliation provided, however, that a determination regarding responsibility, alone, is not sufficient to conclude that any party made a materially false statement in bad faith.

600.020 Sex Harassment under Title IX - for matters involving conduct alleged to have occurred on or after August 14, 2020

Executive Order 40, 4-8-14; Revised 6-19-14; Revised 9-22-14 by Executive Order 41. Revised 2-9-17 with an effective date of 3-1-17.

A. Sex Discrimination, Sexual Harassment and Sexual Misconduct in Education. The University is committed to affording equal employment and education opportunities to its employees and students, and to creating an environment free from discrimination (see Section 600.010 of the Collected Rules and Regulations). In furtherance of these commitments, both University policy and applicable state and federal law, prohibit all students, employees, volunteers and visitors at the University from engaging in discrimination on the basis of any protected characteristic, including sex, pregnancy, gender identity, and gender expression. In addition, University policy and the law prohibit sexual misconduct, sexual harassment, stalking on the basis of sex, dating/intimate partner violence, and sexual exploitation, as defined in Section 600.020.B. As used in this policy, the word “sex” is also inclusive of the term “gender.” This policy applies to any phase of its employment process, any phase of its admission or financial aid programs, and all other aspects of its educational programs or activities. Additionally, this policy applies to allegations of sexual misconduct or allegations of other forms of sex discrimination, as defined in Section 600.020.B., occurring in other settings, including off-campus, if there are effects of the conduct that interfere with or limit any person’s ability to participate in or benefit from the University’s educational programs, activities or employment. Notices of nondiscrimination are posted online and in physical locations for the University System and each of the campuses.

B. Definitions

1. Sex Discrimination. Sex discrimination is conduct that is based upon an individual’s sex, pregnancy, gender identity, or gender expression that adversely affects a term or condition of an individual’s employment, education, living environment, or participation in a University activity.

In addition, sexual harassment, sexual misconduct, sexual exploitation, stalking on the basis of sex and dating/intimate partner violence, as further defined below, are forms of sex discrimination which are prohibited under this policy.

2. Sexual Harassment. Sexual harassment is defined as:
   a. Unwelcome sexual advances or requests for sexual activity by a person or persons in a position of power or authority to another person;
   b. Other unwelcome verbal or physical conduct of a sexual nature or because of sex, pregnancy, gender identity, or gender expression when:
      i. Submission to or rejection of such conduct is used explicitly or implicitly as a condition for academic or employment decisions;
      ii. Such conduct creates a hostile environment by being sufficiently severe or pervasive or objectively offensive that it interferes with, limits or denies the ability to participate in or benefit from the University’s educational programs, activities, or employment.

3. Sexual Misconduct. Sexual misconduct includes: 1) Nonconsensual sexual intercourse; 2) Nonconsensual sexual contact involving the sexual touching of a body part (i.e., the lips, genitals, breast, anus, groin, or buttocks of another person) or the nonconsensual sexual touching of another with one’s own genitals whether directly or through the clothing; 3) Exposing one’s genitals to another under circumstances in which one should reasonably know that the conduct is likely to cause affront or alarm; or 4) Sexual exploitation.

4. Stalking on the Basis of Sex. Stalking on the basis of sex is following or engaging in a course of conduct on the basis of sex with no legitimate purpose that makes another person reasonably concerned for their safety or would cause a reasonable person under the circumstances to be frightened, intimidated or emotionally distressed.

5. Dating/Intimate Partner Violence. Violence, threats of violence, intimidation and acts of coercion committed by a person who is or has been in a social relationship of a romantic or intimate nature with the recipient of the violent behavior.

6. Sexual Exploitation. Sexual exploitation occurs when one person takes nonconsensual or abusive sexual advantage of another person for one’s own advantage or benefit or for the advantage or benefit of anyone other than the person being exploited and which behavior does not constitute any other form of sexual misconduct. Examples of sexual exploitation include, but are not limited to, the following activities done without the consent of all participants:
   a. Invasion of sexual privacy;
   b.Prostituting another person;
   c. Taping or recording of sexual activity;
   d. Going beyond the boundaries of consent to sexual activity (e.g., letting your friends hide to watch you engaging in sexual activity);
   e. Engaging in voyeurism;
f. Knowingly transmitting an STI, STD, venereal disease or HIV to another person;
g. Inducing another to expose their genitals;
h. Nonconsensual distribution of intimate images;
i. Use or distribution of drugs or alcohol with intent to facilitate sexual contact without consent (i.e., predatory drugs or alcohol).

7. Consent to Sexual Activity. Consent to sexual activity is knowing and voluntary. Consent to sexual activity requires of all involved persons a conscious and voluntary agreement to engage in sexual activity. Each person engaged in the sexual activity must have met the legal age of consent. It is the responsibility of each person to ensure they have the consent of all others engaged in the sexual activity. Consent must be obtained at the time of the specific activity and can be withdrawn at any time. Consent, lack of consent or withdrawal of consent may be communicated by words or non-verbal acts.

Someone who is incapacitated cannot consent. Silence or absence of resistance does not establish consent. The existence of a dating relationship or past sexual relations between the Parties involved should never by itself be assumed to be an indicator of consent. Further, consent, to one form of sexual activity does not imply consent to other forms of sexual activity. Consent to engage in sexual activity with one person does not imply consent to engage in sexual activity with another. Coercion and force, or threat of either, invalidates consent.

8. Incapacitated or Incapacitation. A state in which rational decision-making or the ability to consent is rendered impossible because of a person’s temporary or permanent physical or mental impairment, including but not limited to physical or mental impairment resulting from drugs or alcohol, disability, sleep, unconsciousness or illness. Consent does not exist when the Respondent knew or should have known of the other individual’s incapacitation. Incapacitation is determined based on the totality of the circumstances. Incapacitation is more than intoxication but intoxication can cause incapacitation.

Factors to consider in determining incapacity include, but are not limited to, the following:
- Lack of awareness of circumstances or surroundings (e.g., an inability to understand, either temporarily or permanently, the who, what, where, how and/or why of the circumstances; blackout state)
- Inability to physically or verbally communicate coherently, particularly with regard to consent (e.g., slurred or incoherent speech)
- Lack of full control over physical movements (e.g., difficulty walking or standing without stumbling or assistance)
- Physical symptoms (e.g., vomiting or incontinence)

C. Title IX Coordinators. Duties and responsibilities of the University’s Title IX Coordinators include monitoring and oversight of overall implementation of Title IX compliance at the University, including coordination of training, education, communications and coordination with the Equity Resolution Processes for faculty, staff, students and other members of the University community and investigation of complaints of sex discrimination. The University may designate Deputy Coordinators as needed to assist in fulfillment of the Coordinator’s duties and responsibilities.

NOTE: All references to “Title IX Coordinator” throughout this policy refer to the Title IX Coordinator or the Coordinator’s designee.

Any person having inquiries concerning the application of Title IX should contact their respective UM System or campus Title IX Coordinator.

The following individuals serve as Title IX Coordinators and are designated to handle inquiries regarding the Anti-Discrimination policies and to serve as coordinators for purposes of Title IX compliance:

University of Missouri-St. Louis
Dana Bettee Daniels
Title IX Coordinator and Chief Equity Officer
Senior Human Resources Consultant

Address:
220 Woods Hall
St. Louis, MO 63121
Telephone: 314-516-4538
Email: dana@umsl.edu
http://www.umsl.edu/title-ix

If the Complaint involves the University’s Title IX Coordinator, Complaints may be made to the System Title IX Coordinator. If the Complaint involves the System Title IX Coordinator, reports may be made to the System President. The contact information for the System President is:

Office of the President
321 University Hall
Columbia, MO 65211
Telephone: 573-882-2011
Email: umpresident@umsystem.edu

NOTE: The above-listed contact information for Title IX Coordinators may be updated as needed and without requiring the approval of the Board of Curators.

D. Reporting Sex Discrimination, Including Sexual Harassment and Sexual Misconduct

1. Students, Employees, Volunteers, Visitors, and Patients. Students, employees, volunteers, visitors, and patients of the University who have experienced any form of sex discrimination, sexual harassment or sexual misconduct, are encouraged to report the incident promptly to the appropriate Title IX Coordinator listed in Section 600.020.C. above. In addition, students, volunteers, visitors, and patients of the University who have witnessed such conduct are encouraged to report the incident promptly to the appropriate Title IX Coordinator. The University will investigate and appropriately resolve all such reports pursuant to one of its Equity Resolution Processes (see Sections 600.030, 600.040, 600.050, 600.060). For questions regarding confidentiality or requests that the Complaint not be pursued, see Section 600.020.E. below. In order to foster reporting and participation, the University may provide amnesty to Complainants and witnesses for minor student conduct violations ancillary to the incident.

2. Mandated Reporters. Any employee of the University, except as noted below, who becomes aware of sex discrimination as defined in this policy (including sexual harassment, sexual misconduct, stalking on the basis of sex, dating/intimate partner violence or sexual exploitation) is a Mandated Reporter, regardless of whether the recipient of the behavior is a student, employee, volunteer or visitor of the University.

3. Employees with a Legal Obligation or Privilege of Confidentiality. Employees with a legal obligation or privilege of confidentiality (including health care providers, counselors, lawyers, and their associated staff) are not considered Mandated Reporters and are not required to report when the information is learned in the course of a confidential communication. This also means that the employee seeking the exemption is employed by the University for that specific
Designated Confidential Employees. Consistent with the law and upon approval from the Office of the General Counsel, campuses may also designate non-professional counselors or advocates as confidential for purposes of this policy and, therefore, excluded from the definition of Mandated Reporters. However, these individuals are required once per month to report to the Title IX Coordinator aggregate, non-personally identifiable information regarding incidents of sex discrimination reported to them. The aggregate data report should contain general information about individual incidents of sexual violence such as the nature, date, time, and general location of the incident. Confidentiality in this context is not the same as privilege under the law.

5. Required Reporting and Disclosure. A mandated Reporter is required to promptly report the information to the appropriate Title IX Coordinator. The Mandated Report must be made regardless of whether the person reporting the information to the Mandated Reporter requests confidentiality and regardless of how the Mandated Reporter becomes aware of the offensive behavior (personal observation, direct information from the subject of the behavior, indirect information from a third party, etc.). If the Complainant requests confidentiality or that the charges not be pursued, the Mandated Reporter should warn the Complainant that, at this stage in the process, the Mandated Reporter must report all known information to the Title IX Coordinator.

6. Content of Mandated Report to Title IX Coordinator. Mandated Reporters must report all details that they possess. This includes names of the Parties, if known, and all other information in the Mandated Reporter’s possession.

E. Requests for Confidentiality or Not to Pursue an Investigation

1. The Title IX Coordinator or other appropriate official should inform and obtain the consent from the Complainant before beginning an investigation. If the Complainant requests confidentiality or asks that the Complaint not be pursued, the Title IX Coordinator should take all reasonable steps to investigate and respond to the Complaint consistent with the request for confidentiality or request not to pursue an investigation. If a Complainant requests confidentiality or insist that identifiable information, such as the Complainant’s name, not be disclosed to the Respondent, the Title IX Coordinator should inform the Complainant that the institution’s ability to respond may be limited. The Title IX Coordinator should evaluate the Complainant’s request in the context of providing a safe and nondiscriminatory environment for the University community.

2. If, after due deliberation and based on the nature and severity of the Complaint, the Title IX Coordinator determines there is a sufficient basis to proceed with the Complaint, the Title IX Coordinator may initiate an investigation notwithstanding a Complainant’s request that the Complaint not be pursued. Such a decision should be well-reasoned and documented. Documentation of the decision will be maintained by the Title IX Coordinator. In such cases, the Title IX Coordinator will inform the Complainant of the decision to commence an investigation.

Alternatively, if after due deliberation and based on the nature and severity of the Complaint, the Title IX Coordinator determines there is not a sufficient basis to proceed with the Complaint, the Title IX Coordinator may decide not to initiate an investigation and/or may also refer the Complaint to the appropriate procedural process. Such a decision should be well-reasoned and documented. Documentation of the decision will be maintained by the Title IX Coordinator. If, after due deliberation, the Title IX Coordinator decides the University cannot or should not take disciplinary action with respect to the Respondent, the Title IX Coordinator should consider other steps to limit the effects of the alleged harassment and prevent its recurrence, and remedy its effects on the victim and the University community.

F. Impact of Optional Report to Law Enforcement. In accordance with federal law, the Title IX Coordinator will not wait for the conclusion of a criminal investigation or criminal proceeding to begin the Title IX preliminary investigation. It may be necessary to delay temporarily the fact-finding portion of a Title IX preliminary investigation while the police are gathering evidence. The Title IX Coordinator will promptly resume the preliminary Title IX investigation as soon as notified by the law enforcement agency that it has completed the evidence-gathering process. The Title IX Coordinator will implement appropriate interim steps during the law enforcement agency’s investigation period to provide for the safety of the Complainant and the campus community and the avoidance of retaliation.

G. Non-compliance. Failure to comply with this policy can result in disciplinary action. Employees also are cautioned that non-compliance with this policy may increase their risk of personal liability. Further, an individual who fails to report as required under this policy may be determined to be ineligible for defense or protection under Section 490.010 for any associated claims, causes of action, liabilities or damages.

H. Retaliation. Retaliation is any adverse action taken against a person because of that person’s participation in protected activity. The University strictly prohibits retaliation against any person for making any good faith report to a Title IX Coordinator or for filing, testifying, assisting, or participating in any investigation or proceeding involving allegations of sex discrimination, sexual harassment or sexual misconduct. Any person who engages in such retaliation shall be subject to disciplinary action, up to and including expulsion or termination, in accordance with applicable procedures. Any person who believes they have been subjected to retaliation is encouraged to promptly notify the Equity Officer or Title IX Coordinator. The University will promptly investigate all claims of retaliation.

Examples of prohibited retaliation include, but are not limited to, giving a lesser grade than the student’s academic work warrants because the student filed a Complaint of sexual harassment; giving lower than justified performance appraisals because a person was a witness in an investigation of alleged sexual harassment; and threatening to spread false information about a person for filing a Complaint of sexual harassment.

I. False Reporting. False reporting is making an intentional false report or accusation in relation to this policy as opposed to a report or accusation, which, even if erroneous, is made in good faith. False reporting is a serious offense subject to appropriate disciplinary action ranging up to and including expulsion or termination.

J. Witness Intimidation or Harassment. No individual participating in an investigation relating to a report or Complaint that a violation of this policy has occurred should, directly or through others, take any action which may interfere with the investigation. The University prohibits attempts to or actual intimidation or harassment of any potential witness. Failure to
adhere to these requirements may lead to disciplinary action, up to and including expulsion or termination.

K. U.S. Department of Education—Office for Civil Rights. Inquiries concerning the application of Title IX also may be referred to the United States Department of Education’s Office for Civil Rights. For further information on notice of nondiscrimination, visit http://wdcrrobcolp01.ed.gov/CFAPPS/OCR/contactus.cfm and for the address and phone number of the U.S. Department of Education office which serves your area, or call 1-800-421-3481.

The State of Missouri regional Office for Civil Rights is located in Kansas City and is available to provide assistance.

600.040 Equity Resolution Process for Resolving Complaints of Discrimination, Harassment, and Sexual Misconduct against a Faculty Member

600.050 Equity Resolution Process for Resolving Complaints of Discrimination, Harassment, and Sexual Misconduct against a Staff Member

600.060 Equity Resolution Process for Resolving Complaints of Discrimination and Harassment against the University of Missouri
Confidentiality Policies

These statements are set forth as guidelines and procedures to implement the University of Missouri policy on student records developed from the federal Family Educational Rights and Privacy Act of 1974.

The University of Missouri--St. Louis, as charged in the act, will annually inform its eligible students by including in the Student Planner and the UMSL Bulletin the following information:

1. "Education Records" are those records, files, documents, and other materials that contain information directly related to a student and are maintained by the university. Those records, made available for review to the student under The Family Educational Rights and Privacy Act of 1974, are student financial aid, the student’s cumulative advisement file, student health records, disciplinary records, admissions file, and academic record. Confidential letters and statements of recommendation that were placed in student credential folders at the Office of Career Placement Services after January 1, 1975, are also made available, if the student has not waived the right to view these recommendations.

The University of Missouri--St. Louis "Education Records" do not include:

Records of instructional, supervisor, and administrative personnel and educational personnel ancillary thereto which are in the sole possession of the maker thereof and which are not accessible or revealed to any other person except a substitute.

Records of the University of Missouri Police Department created for a law enforcement purpose and maintained by the police department.

In the case of persons who are employed by the university but who are not in attendance at the university, records made and maintained in the normal course of business that related exclusively to such persons and that person’s capacity as an employee where the records are not available for any other purpose.

All records on any university student that are created and maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in his professional or paraprofessional capacity, or assisting in that capacity, and created, maintained, or used only in connection with the provision of treatment to the student, and are not available to anyone other than persons providing such treatment, provided, however, that such records can be personally reviewed by a physician or other appropriate professional of the student’s choice.

Directory Information:

1. The University of Missouri-St. Louis recognizes "Directory Information/ Public Information" to mean a student's name, address, telephone listing, e-mail, enrollment status, current level, major field of study, participation in officially recognized activities and sports, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student. All students must inform the Office of the Registrar if the information designated as directory information should not be released without the student's prior consent. Students may change their privacy settings by logging in to MyView.

2. University of Missouri-St. Louis students have access to the educational records identified in Paragraph 1 above. In accordance with Public Law 93380 as amended, the University of Missouri--St. Louis will not make available to students the following materials:

   Financial records of the parents of students or any information contained therein.

   Confidential letters and statements of recommendation placed in the education records prior to January 1, 1975, if such letters or statements are not used for the purpose other than those for which they were specifically intended.

   Confidential recommendations respecting admission to the university, application for employment and receipt of honor, or honorary recognition, where the student has signed a waiver of the student's rights of access as provided in 6.0404, the University Policy on Student Records.

1. The Director of Financial Aid, the appropriate academic dean, Assistant Vice Provost for Student Affairs: Health, Wellness, & Counseling Services, the Vice Provost for Student Affairs, the Director of Career Placement Services, the Director of Admissions, and the Registrar are the officials responsible for the maintenance of each type of record listed in Paragraph 1.

2. Any student may, upon request, review his or her records and, if inaccurate information is included, may request the expunging of such information from the file. Such inaccurate information will then be expunged upon authorization of the official responsible for the file.

3. Students desiring to challenge the content of their record may request an opportunity for a hearing to challenge the content of the educational record in order to ensure that the record is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student, to provide an opportunity for the correction or deletion of any such inaccurate, misleading, or otherwise inappropriate data contained therein, and to insert into such records a written explanation respecting the content of such records.

4. The university official charged with custody of the records will attempt to settle informally any disputes with any student regarding the content of the university’s educational records through informal meetings and discussions with the student.

5. Upon request of the student or the university official charged with custody of the records of the student, a formal hearing shall be conducted as follows:

   a. The request for a hearing shall be submitted in writing to the chancellor, who will appoint a hearing officer or a hearing committee to conduct the hearing.

   b. The hearing shall be conducted and decided within a reasonable period of time following the request for a hearing. The parties will be entitled to written notice 10 days prior to the time and place of the hearing.

   c. The hearing shall be conducted and the decision rendered by an appointed hearing official or officials who shall not have a direct interest in the outcome of the hearing.

   d. The student shall be afforded a full and fair opportunity to present evidence relevant to the hearing.

   e. The decision shall be rendered in writing within a reasonable period of time after the conclusion of the hearing.

Either party may appeal the decision of the hearing official or officials to the campus chancellor. Appeal of the chancellor’s decision is to the president. Appeal of the president’s decision is to the Board of Curators.
1. The University of Missouri-St. Louis will not provide grade reports to parents unless the student has granted access to academic information via their self-service student center.

2. The University of Missouri-St. Louis may permit access to or release of the educational records without the written consent of the student to the parents of a dependent student as defined in Section 152 of the Internal Revenue Code of 1954.

3. If any material or document in the educational record of a student includes information on more than one student, the student may inspect and review only such part of such material or document as relates to him or her or to be informed of the specific information contained in such part of such material.
Tuition and Payments

Fee Assessment
Fees for coursework vary due to the student’s residency, undergraduate, graduate or post-graduate status, credit hours, and the applicability of any course fees charged to specific courses or programs. Detailed information on tuition and fee rates and residency can be found on the Student Financial Services website.

Financial Responsibility
A Statement of Financial Responsibility will be presented to all students at least once per academic year. The agreement explains the billing methods, payment options, and all policies related to student accounts. It is the responsibility of the student that fees and other financial obligations are paid as they become due regardless of who is making the payments. Students who need assistance in meeting financial obligations to the University should contact the Student Financial Services Office in a timely manner. Students are expected to adhere to important dates and policies that impact fees. Due dates and fee reassessment dates are posted on the Student Financial Services website and through links on the eBill website. The non-payment of any financial obligation may result in additional collection fees, the inability to register, and the withholding of student records.

Billing
The Student Financial Services Office bills you by posting a monthly student account billing statement on eBill around the 17th of any month in which there is a new charge or credit on your account. The Student Financial Services Office will send you and your authorized payer (if any) a billing notification email reminder to check your statement and pay any balance due. The mail.umsl.edu email address will be used for students and the authorized payers email address will be used for authorized payers.

Payment of Fees
Payments are due on the 10th day of each month. The minimum payment can be found at the top of the monthly billing statement or by checking the percentage due as shown in the billing schedules on the Student Financial Services website. If a student chooses to make the minimum payment or a partial payment, a finance charge of 1% will be assessed on the unpaid billed balance. The monthly 1% finance charge can be avoided by paying the balance in full. A $25 late payment fee will be charged to student accounts in which the billed minimum or payment in full is not paid by the due date.

All fees, fines, bookstore charges, etc. must be paid by the last day of the term. After the term ends, unpaid accounts will be turned over to an outside collection agency. The University will pursue any and all collection efforts and practices including referring accounts to collection agencies and reporting to the credit bureaus. Accounts may be assessed additional collection charges of 25% of the unpaid principal balance when it is referred to a collection agency. Your Missouri state income tax refund may also be intercepted to partially or fully satisfy a past due debt to the University. Educational and related fees are generally non-dischargeable in bankruptcy and will survive after the bankruptcy has closed. Except in certain limited situations, this means that a student will still owe the debt to the University after the bankruptcy.

Payment Options
Online – Log on to the Touchnet student system to make payment using a personal checking or savings account with no additional fee or all major credit cards with a 2.85% service fee (minimum $3 fee).

Mail – Send your check or money order to the Student Financial Services Office at: University of Missouri - St. Louis, 327 Millennium Student Center (MC 212), One University Blvd., St. Louis, MO 63121-4400. Include student name and student number on the check or money order.

In person – Visit the Student Financial Services Office on the third floor of the Millennium Student Center in Room 327. Payment in cash, check, money order or pin-based debit are accepted. Credit card payments cannot be processed at the Student Financial Services Office, but are accepted online at http://ebill.umsl.edu.

Payment Drop Box – A secure payment drop box is located outside the Student Financial Services Office, Room 327 of the Millennium Student Center. Only check or money order payments, please.

Any communications concerning disputed debts, including instruments tendered as full satisfaction of debt, must be sent to Account Disputes, One University Blvd., 349 Millennium Student Center, St. Louis, MO 63121-4400.

Any check presented to the University for payment that is not honored by your bank will be assessed a $20.00 returned check fee in addition to any fees that the bank may charge.

ERDPP – Employer Reimbursement Deferred Payment Program. Many companies offer tuition reimbursement to their employees. While the student is ultimately responsible for the payment of their tuition and fees, the Student Financial Services Office offers the ERDPP program to allow a student to take advantage of this employer benefit by deferring payment of all, or a portion, of their tuition and related costs. There is a non-refundable $50.00 application fee each semester. A $100 late fee will be assessed if student does not make payment in full by the semester’s deadline.

Financial Aid – If you have applied for financial aid in advance and have received an award letter, your letter describes how much of your award will be paid towards your student fees. If your financial aid does not cover all the fees, then you must pay the remainder of your student fees yourself by the due date. Financial aid that has not yet been disbursed will appear on your monthly billing statement as “Anticipated Aid”. Your statement will reflect Anticipated Aid as being deducted from your Account Balance giving you an Adjusted Amount Due. Your Minimum Payment is a percentage of the Adjusted Amount Due. Students should pay either the Adjusted Amount Due or the full Minimum Payment by the due date to avoid a late payment fee.

Third Party Sponsor – When an organization makes a commitment to pay your educational expenses, they are considered a Third Party Sponsor. If you are expecting a third party sponsor to pay your tuition and fees, you will need to have your sponsor submit a letter of authorization to the Student Financial Services Office. Once the sponsor’s letter is received, a credit for the amount the sponsor has indicated will be applied to your student account. An invoice for this amount will then be sent to your sponsor. You are responsible for paying any charges not covered by your sponsor on time, to avoid finance and late charges or other penalties. If your sponsor does not pay for the charges they authorized, the responsibility of paying those charges defaults back to you.
UMSL Compliance with the Veteran Access, Choice and Accountability Act of 2014, Section 702

UMSL is compliant with the requirements of PL 113-146 the Veteran Access, Choice and Accountability Act of 2014, Section 702. Section 702 targets educational assistance through ensuring in-state tuition/in-district rates to uniformed services veterans and their qualified dependents covered under this Section.

The following individuals shall be charged the in-state rate, or otherwise considered a resident, for tuition purposes:

- A Veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill – Active Duty Program) or chapter 33 (Post-9/11 G.I. Bill), of title 38, United States Code, who lives in Missouri while attending a school located in Missouri (regardless of his/her formal State of residence) and enrolls in the school within three years of discharge or release from a period of active duty service of 90 days or more.

- Anyone using transferred Post-9/11 GI Bill benefits (38 U.S.C. § 3319) who lives in Missouri while attending a school located in Missouri (regardless of his/her formal State of residence) and enrolls in the school within three years of the transferor’s discharge or release from a period of active duty service of 90 days or more.

- Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three year period following discharge or release as described above and must be using educational benefits under either chapter 30 or chapter 33, of title 38, United States Code.

- Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)) who lives in Missouri while attending a school located in Missouri (regardless of his/her formal State of residence).

- Anyone using transferred Post-9/11 G.I. Bill benefits (38 U.S.C. § 3319) who lives in Missouri while attending a school located in Missouri (regardless of his/her formal State of residence) and the transferor is a member of the uniformed service who is serving on active duty.

UMSL Compliance with the Veterans Benefits and Transition Act of 2018, Section 103

This policy ensures that UMSL will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual’s inability to meet his or her financial obligations to the institution due to the delayed disbursement of a payment to be provided by the VA under chapter 31 or 33 of this title.

Refunds

A credit balance is the result of an overpayment on a student’s account from financial aid, loans or payments received. Credit balance refunds will be processed when a credit actually exists on the student’s account. Anticipated financial aid must be received and posted to the student’s account in order for a credit to exist and for a refund to be processed.

When financial aid funds are received by the University, the funds are applied to the student’s account. During the Fall and Spring semesters, financial aid funds are applied to student accounts no sooner than ten days prior to the start of classes. During the Summer semester, a student must be enrolled in enough hours to qualify for financial aid. Aid for that term will not apply to the student’s account until all of the course(s) begin that satisfy that qualification. If the student has a credit balance after financial aid funds have paid all account charges in full, the student is now eligible for a refund.

Parent-Plus Loan Refund - If you have any funds available after what is owed directly to the University, the refund may be released to the parent at the address listed on the PLUS Loan Application. Refunds from proceeds of PLUS will be issued to the student only if the parent requests that on the PLUS application.

Credit Card Refund - If a credit card payment has been made towards your student account in the past 120 days, any refund due to you will be returned to that credit card.

Drop/Withdrawal Refund – Students who are leaving school or dropping classes are responsible for canceling their registration and verifying that their classes have been dropped. Any refunding of fees will be made according to the reassessment schedule available on the Student Financial Services website. Fees reassessed may include Tuition and Course/Supplemental fees (if applicable). The Spring and Fall reassessment schedules only apply to regular 16-week session courses. The Summer reassessment schedules only apply to regular 4-week, 8-week and 12-week session courses. Fee reassessment for courses not in regular sessions will be based on the course’s total number of calendar days (weekends and holidays included) and the number of calendar days that the student was enrolled in the course. If the meeting dates for your course are different from the regular session meeting dates, please contact the Student Financial Services Office as your fee reassessment for withdrawal or dropping may differ from the regular reassessment.

After the withdrawal/drop of a class, the refund process may require two to four weeks processing time. When a student completely withdraws from a semester and was receiving federal financial aid, the University and/or the student may be required to return some of the financial aid awarded to the student.

Charges that students accrue prior to a refund being issued will be deducted from the refund amount. Charges that are accrued after a refund is issued will be billed to the student on the monthly billing statement. As student accounts go into credit balance, the Student Financial Services Office processes refunds to students by checks through the mail and by direct deposit to students personal checking or savings accounts. Students should allow 7-10 business days from the day that the refund is processed to receive a refund check in the mail. For students that have direct deposit, please allow 3-5 business days from the day that the refund is processed to receive the refund in your bank account.

Cancellation of Registration Due to Nonpayment of Fees

The University will attempt to notify any student whose registration is about to be administratively canceled for nonpayment of fees prior to taking this action. On or before the last day on which a student may enroll in a course, a canceled student’s space in a course will be given to other students on that course’s wait lists. The canceled student will be placed at the end of the course wait list. Any student who has been administratively canceled for nonpayment of assessed fees may not enroll in a class.
unless the required fees have been paid. If your classes are canceled for nonpayment and you wish to be reinstated, the minimum payment will be required plus a late registration fee. When payment is received, you will be charged for all classes that were canceled.

Fees May Change Without Notice

The University reserves the right to modify by increase or decrease the fees charged for attendance and other services at the University, including but not limited to tuition or educational fees, at any time when in the discretion of the governing board the same is in the best interest of the University with all modification of fees to be effective irrespective as to whether fees have or have not been paid by or on behalf of a student prior to the effective date of the modification.
Missouri Score Card

Pursuant to Missouri HB 1606 (2018), information regarding the number of credit hours, program length, employment rate, wage data, and graduates employed in careers related to their program of study at The University of Missouri - St. Louis can be found at the following URL: scorecard.mo.gov.

To Search:

• Enter “University of Missouri” in the School / Program box.
• Enter “63121” in the Location (Zip Code)
• Choose a Degree/Credential Type. We offer:
  • Bachelor's Degrees
  • Certificates
  • Doctoral/Professional Degrees
  • Educational Specialist
  • Graduate Certificates
  • Master's Degrees
• Choose the Field of Study.
Programs A-Z

A
- Accounting BS (p. 369)
- Accounting BS/MAcc Dual Degree Program (p. 371)
- Accounting Data Analytics Graduate Certificate (p. 371)
- Accounting Data Security Graduate Certificate (p. 372)
- Accounting MAcc (p. 372)

Accounting BS

General Education Requirements
All Business majors must meet the university general education requirements (p. 48). As part of meeting the university's general education requirements, all Business majors must complete the prerequisite courses below:

ECON 1001 Principles of Microeconomics (MOTR ECON 102) 3
ECON 1002 Principles of Macroeconomics (MOTR ECON 101) 3
MATH 1030 College Algebra (MOTR MATH 130) 3
MATH 1100 Basic Calculus or BUS AD 1107 3
MATH 1105 Basic Probability and Statistics 3

Degree Requirements
All Business majors must meet College of Business G.P.A., good standing and credit requirements (p. 201) as outlined in the Bulletin.

1 The prerequisite for enrollment in ACCTNG 3402, ACCTNG 3411, ACCTNG 3441, ACCTNG 3451, and all 4000-level accounting courses is an upper-level accounting grade point average of 2.3 or higher.

See the Office of Undergraduate Academic Advising for alternatives to satisfy the State of Missouri’s requirements for eligibility to take the Uniform Certified Public Accounting Examination.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Interpret business process transactions and create financial statements
- Analyze strategic options relevant to business processes
- Identify and assess legal and ethical issues with financial reporting and the accounting profession
- Effectively prepare and present written and oral financial information
- Evaluate business decisions associated with financial analysis, corporate governance, taxation, or business processes
- Understand the role of the audit and design and carry out auditing procedures
- Carry out required income tax compliance reporting procedures
- Explain the impact of International Financial Reporting Standards on Financial Reporting

**Accounting BS/MAcc Dual Degree Program**

The 2+3 Combined Bachelor of Science - Accounting / Master of Accounting (BSA/MACC) program provides an opportunity for students of recognized academic ability and educational maturity to complete the requirements for the undergraduate and graduate degree in Accounting with a total of 135 credit hours instead of the typical 150 credit hours required when the degrees are pursued separately. When all the requirements of the BSA/MACC program have been completed, students will be awarded both the BSA and the MAcc degrees.

It should be noted that CPA licensure in most states requires 150 hours of university credit. Students earning the BSA/MACC in 135 hours are encouraged to use the additional 15 hours to pursue complementary skills such as taxation, data analytics, systems controls testing, cybersecurity, or the like as they complete the 150 credit hours required for CPA licensure.

Students can apply to the Chair of the Accounting Department for admission into the 2+3 combined degree program during the semester they will have completed 60 undergraduate credit hours. A cumulative grade point average of 3.0 or higher is required. Students must also meet with a Graduate Business Programs academic advisor.

Students will be admitted to the 2+3 program under provisional status until they have completed the department-specified 15 hours in the program with a grade point average of 3.0 or higher. After completion of the provisional period, upon recommendation from the Department Chair, students can be granted formal admission into the 2+3 program, which involves admission to the Graduate School. After formal admission, the student will be classified as a graduate student, will pay graduate tuition for all courses, and must continue taking courses in graduate status until completion of the master's degree. Students must maintain a grade point average of 3.0 or higher throughout the combined program.

Applicants are considered for formal admission into the 2+3 program if they meet the following four criteria: (1) have earned at least 90 hours as an undergraduate student; (2) have a minimum GPA of 3.0 since being granted provisional status; (3) have submitted at least one letter of recommendation from an Accounting faculty member; and (4) have met with a Graduate Business Programs academic advisor.

A total of 15 hours of graduate coursework may be counted towards the 120 credit hours required for the Bachelor of Science - Accounting degree and the requirements for the Master of Accounting. Students may resign from the 2+3 Program and apply for the bachelor's degree. However, once the bachelor's degree is awarded, the benefit of "double counting" courses will be lost. Any course used to meet a degree requirement for an undergraduate degree cannot be applied to a subsequent master's degree.

Undergraduate BSA students who choose to pursue the 2+3 BSA/MACC degree option will be required to take the following courses (15 credits).

- **ACCTNG 5405** Professional Accountancy II 3
- **ACCTNG 5411** Cost Systems Analysis 3
- **ACCTNG 4435** Auditing 3

Select two of the following: 6

- **BUS AD 5100** Managerial Communication
- **BUS AD 5900** Law, Ethics and Business
- **INFSYS 5800** Management Information Systems
- **SCMA 5320** Supply Chain and Operations Management
- **MGMT 5600** Managing People in Organizations
- **MKTG 5700** Contemporary Marketing Concepts

Total Hours: 15

The above courses will qualify for credit towards both the Bachelor of Science - Accounting degree and the Master of Accounting. If a student has completed the undergraduate equivalent of a course, they may not receive graduate credit. Students may request to substitute other courses, subject to approval of the Department Chair.

**Accounting Data Analytics Graduate Certificate**

The Graduate Certificate in Accounting Data Analytics is designed for individuals seeking expertise in the fast growing data analytics specialty in CPA Practice and corporate practice. Students will gain experience with data visualization and analytics techniques applied to business settings.

**Admission Requirements**

Applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements.

**Certificate Requirements**

All course prerequisites and all course waivers are applicable. Substitute courses may be approved by the appropriate department chairperson and the Director of Graduate Business Programs. All 12 credit hours taken as part of this certificate transfer to the MBA degree program.

Choose four of the following courses: 12

- **ACCTNG 5435** Graduate Topics in Auditing
- **ACCTNG 5443** Decision Support Systems for Business Intelligence
- **ACCTNG 5444**
- **ACCTNG 4450**
Accounting Data Security Graduate Certificate

The Accounting Data Security Certificate requires 12 credit hours in data security beyond the Auditing course (ACCTNG 4435 or the equivalent). Students pursuing the Master of Accounting degree, the MBA with an Accounting Emphasis, or the Post-Baccalaureate Certificate in Accounting may be interested in also earning this certificate. The certificate requires Auditing plus any four from the following courses:

**Required:**
- ACCTNG 4435 Auditing 3

**Choose any four of the following:**
- ACCTNG 5408 Fraud Examination 3
- ACCTNG 5435 Graduate Topics in Auditing 3
- ACCTNG 5436 Systems Auditing 3
- ACCTNG 5465 Principles of Information Security 3
- ACCTNG 5466 Management of Accounting Networks and Security 3
- ACCTNG 5467 Advanced Data Security Concepts 3
- ACCTNG 5468 Accounting Software Assurance 3
- ACCTNG 5469 Management of Accounting Data Security 3

**Accounting MAcc**

The following are the Master of Accounting degree requirements. Students with an undergraduate degree in business and/or accounting will find that they can waive several of the requirements based on previous coursework. Overall, a candidate for the Master of Accounting degree must complete a minimum of 30 credit hours.

**Core Courses**

Students who have had equivalent coursework at the undergraduate level may have these courses waived. Contact the advising office for more information. (For students required to complete any of ACCTNG 5404, 5405, 5411, 5421, or 5447, up to 9 credits can be counted toward the required electives below):

- ACCTNG 5400 Financial and Managerial Accounting 3
- ACCTNG 5404 Professional Accountancy I 3
- ACCTNG 5405 Professional Accountancy II 3
- ACCTNG 5411 Cost Systems Analysis 3
- ACCTNG 5421 Information Systems in Accounting 3
- ACCTNG 5447 Taxation of Individuals and Businesses 3

**Business Breadth Courses**

Students who have had equivalent coursework at the undergraduate level may have these courses waived. Contact the advising office for more information. (For students required to complete these courses, 6 credits can be counted towards the required electives below).

- SCMA 5300 Business Analytics 3
- FINANCE 6500 Financial Management 3

**Required Accounting Courses**

Students must complete the following three courses. Students with equivalent undergraduate coursework may substitute ACCTNG 4441 or any Accounting course greater than 5401.

- ACCTNG 4401 Financial Accounting and Reporting III 3
- ACCTNG 4402 Financial Accounting and Reporting IV 3
- ACCTNG 4435 Auditing 3

**Research Course**

3

Select one of the following:

- ACCTNG 5402 Professional Accounting Research
- ACCTNG 5406 Research and Professional Writing in Accounting
- ACCTNG 5441 Tax Research

**Graduate Topics Course**

3

Select one of the following:

- ACCTNG 5403 Graduate Topics in Financial Accounting
- ACCTNG 5412 Graduate Topics in Management Accounting: Controllership
- ACCTNG 5435 Graduate Topics in Auditing
- ACCTNG 6441 Graduate Topics in Taxation

**Electives**

15

Students must complete 15 credits of electives including at least 9 credits of Accounting courses.

**Accounting Electives**

Select at least 3 of the following (Not all courses are offered each year):

- ACCTNG 4441 Advanced Federal Income Tax: Business Taxation 3
- ACCTNG 4450 3
- ACCTNG 5402 Professional Accounting Research 3
- ACCTNG 5403 Graduate Topics in Financial Accounting 3
- ACCTNG 5406 Research and Professional Writing in Accounting 3
- ACCTNG 5408 Fraud Examination 3
- ACCTNG 5412 Graduate Topics in Management Accounting: Controllership 3
- ACCTNG 5435 Graduate Topics in Auditing 3
- ACCTNG 5436 Systems Auditing 3
- ACCTNG 5441 Tax Research 3
- ACCTNG 5443 Decision Support Systems for Business Intelligence 3
- ACCTNG 5444 3
- ACCTNG 5446 Advanced Topics in Taxation 3
- ACCTNG 5451 Accounting and Auditing in Governmental and Not-for-Profit Entities 3
- ACCTNG 5465 Principles of Information Security 3
- ACCTNG 5466 Management of Accounting Networks and Security 3
- ACCTNG 5467 Advanced Data Security Concepts 3
ACCTNG 5468  Accounting Software Assurance 3
ACCTNG 5469  Management of Accounting Data Security 3
ACCTNG 5490  Graduate Internship in Accounting 1-3
ACCTNG 5495  Advanced Special Administrative Problems - Accounting (VITA) Program 1-3
ACCTNG 5498  Graduate Seminar in Accounting 3
ACCTNG 5499  Individual Research in Accounting 1-3
ACCTNG 6441  Graduate Topics in Taxation 3
ACCTNG 6460  Data Integration 3

Non-Accounting Electives
Students may complete up to 6 credits at the graduate level from other business disciplines. Students should ensure that they will have earned the minimum number of accounting credit hours required for licensure before choosing electives from other business disciplines.

- Any BUS AD 5000 and above
- Any FINANCE 6500 and above
- Any INFSYS 5800 and above
- Any SCMA 5300 and above
- Any MGMT 5600 and above
- Any MKTG 5700 and above

Students must complete a minimum of 30 credit hours while enrolled as a graduate student.

Learning Outcomes
Upon Completion of the program, graduates will be able to:

- Synthesize business process transactions as well as create and analyze financial statements
- Analyze, critique, and inform strategic options relevant to business processes, corporate governance, internal controls, and security
- Identify and discuss the impact of International Financial Reporting Standards upon financial reporting
- Apply ethical judgement in analyzing accounting situations and be able to formulate ethical accounting and business decisions
- Actively participate in team collaborations as well as prepare written professional communications that justify, critique, or inform relevant accounting or business decisions
- Analyze and critique business decisions in the functional business areas of financial analysis, corporate governance, taxation, or business processes

Accounting Minor
General Requirements

- All minors are 15 credit hours or 5 courses, including business core courses.
- Students must attain a 2.0 grade point average for all courses in the minor.
- Students must attain a minimum grade of C- in each course included in the minor.
- All courses in the minor must be on a graded basis.
- A minimum of 9 credit hours of coursework included in the minor must be taken in residence at UMSL.
- One must complete a baccalaureate degree at UMSL in order for a minor to be conferred.
- A minor may be added for up to two years following completion of the baccalaureate degree

Specific Requirements for the Minor
Available to all students except those pursuing the Bachelor of Science in Accounting degree. Students must complete:

- ACCTNG 2400  Fundamentals of Financial Accounting 3
- ACCTNG 2410  Managerial Accounting 3
- Plus any three upper division accounting electives 9

Total Hours 15

Learning Outcomes

- Analyze business process transactions and create financial statements
- Critically examine strategic options relevant to business processes, corporate governance, internal controls, and security
- Assess business decisions in the functional areas of financial analysis, corporate governance, taxation, and business processes

1. MATH 1030 College Algebra is a prerequisite for the required accounting courses. It may be taken concurrently with ACCTNG 2400 Fundamentals Of Financial Accounting, but must be completed prior to enrollment in ACCTNG 2410 Managerial Accounting.
2. ACCTNG 2400 Fundamentals Of Financial Accounting and ACCTNG 2410 Managerial Accounting are also prerequisites for the 3000-level accounting courses.

Required

Complete 27 hours of accounting courses at the 3000-level or above, at least 15 hours of which are completed at UMSL. The accounting courses must include the six required courses listed below and three accounting electives. Courses previously completed can be waived upon presentation of appropriate documentation. Waived courses will not count toward the 15-hour residency requirement.

Courses must be completed with a grade of C- or higher. The grade point average for all courses counting toward the Post-Baccalaureate Certificate in Accounting must be 2.3 or higher. The prerequisite for enrollment in ACCTNG 3402, ACCTNG 3411, ACCTNG 3441, ACCTNG 3451 and all
4000-level accounting courses is an upper-level accounting grade point average of 2.3 or higher.

Total Hours 27

1 Most of these are offered only once a year.

Notes on qualifying for the CPA exam in Missouri

Successful completion of the Post-Baccalaureate Certificate in Accounting includes all the accounting courses needed to qualify for the CPA exam in Missouri. However, Missouri law also requires a total of 60 credit hours in business (including the accounting courses). Many students with undergraduate degrees in business have satisfied this requirement. A student who has not satisfied this requirement must take additional business classes in order to qualify for the CPA exam.

In addition, Missouri requires 150 credit hours of college level coursework in order to qualify for the CPA exam. A student who has completed a 120-hour undergraduate business degree and the Post-Baccalaureate Certificate in Accounting will need additional coursework in order to satisfy the 150-hour requirement.

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Analyze business process transactions and create financial statements
- Critically examine strategic options relevant to business processes, corporate governance, internal controls, and security
- Assess business decisions in the functional areas of financial analysis, corporate governance, taxation, and business processes

ACP Instructional Communication Graduate Certificate

The ACP Instructional Communication Certificate is designed for secondary educators interested in teaching public speaking and related courses to high school students for college credit through programs such as UMSL’s Advanced Credit Program. The certificate combines practical application with theory and research to provide teachers with a grounded approach to delivering college appropriate courses with empirical research in communication at the foundation.

Through a combination of online courses and independent studies, students can complete the ACP Communication graduate certificate without visiting campus.

Students who earn the ACP Instructional Communication graduate certificate will be eligible to teach college level courses in public speaking at the secondary level.

Requirements: Graduate Standing. To earn the ACP Communication certificate, students must complete a minimum of 18 hours. Typically, students will earn the certificate by completing the following courses in sequence:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

Total Hours 18

1 Other 5000+ electives may be substituted based on approval and availability. Contact the Graduate Coordinator in the Department of Communication for more information.
2 Pre-requisites: Students must have completed or currently be enrolled in each of the following courses: COMM 5000, COMM 5010, COMM 5020
3 May be repeated.

[R] Required for the certificate.
[E] Elective.

Actuarial Science BS

Campus Address: 408 Social Sciences and Business Building (SSB)
Main Number: 314-516-5353
Fax Number: 314-516-5352

Bachelor of Science (B.S.) in Actuarial Science

The B.S. in Actuarial Science provides students with the quantitative skills used by actuaries. Students are required to complete courses offered by the Department of Mathematics and Computer Science, the Department of Economics and the College of Business Administration. Students take coursework in calculus, financial mathematics, statistics, economics, econometrics, and finance. The program is designed to provide students with a solid preparation to take exams and to complete validation by educational experience requirements needed to begin a career as an actuary.

Certificate in Actuarial Studies

The Certificate in Actuarial Studies is designed to provide the education needed for entry level employment in the actuarial profession.
Career Outlook in Actuarial Science

Graduates with this skill set are hired by insurance firms, consulting firms, and financial institutions. Actuarial training is also transferable to broader jobs in data science and analytics. Job prospects for those with actuarial degrees are expected to remain strong over the next decade.

For more information on careers in actuarial science, visit the website of the Society of Actuaries (https://www.soa.org/Member/).

Bachelor of Science in Actuarial Science

General Education Requirements

Students must satisfy the university general education requirements (p. 48). Many of the courses for the degree may be used to fulfill math proficiency, information literacy, social science, and math and life/natural sciences requirements. There is no foreign language requirement for the degree.

Satisfactory/Unsatisfactory Option

Courses required for the major may not be taken on a satisfactory/unsatisfactory basis.

Required Courses

Candidates for the B.S. in Actuarial Science degree must complete a program of 62 credit hours of required courses. Each required course must be completed with a grade of C- or better and students must maintain a GPA of 2.0 for courses required for the degree.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Learn basic programming techniques for use in actuarial applications.
- Understand the fundamental concepts of financial mathematics and how those concepts are applied in present and accumulated values for various streams of cash flow.
- Develop the fundamental probability tools for quantitatively assessing risk.
- Use the concepts of statistical inference, such as estimation and hypothesis testing, required for actuarial modeling.
- Become familiar with regression models to analyze and forecast time series data.
- Use economic reasoning to explain individual decision-making and economy-wide outcomes.
- Understand and apply accounting concepts and knowledge of financial instruments and how they are utilized.
- Develop knowledge of the theoretical basis of actuarial models and the application of those models to insurance and other financial risks.

The Certificate in Actuarial Studies is designed to provide the education needed for entry level employment in the actuarial profession. Those who complete the certificate will satisfy the Validation by Educational Experience requirements of the Society of Actuaries and be prepared to take the first two actuarial examinations (P and FM).

Completion of the certificate requires the following courses. Please note that many of these courses have prerequisites so anyone pursuing the certificate should work carefully with an academic advisor.

### Total Hours: 120

1

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

### Acute Care Pediatric Nurse Practitioner Post-Graduate Certificate

Post-graduate certificate (PGC) requirements are tailored to the individual student, depending on past academic work, experience, the student’s goals, and specialty requirements. Upon completion of the PGC requirements, a certificate is awarded by the College of Nursing (CON) and Graduate School. Graduates are eligible to apply to take board certification exams in the advanced practice role and population for which they have been prepared.

Due to higher education regulation changes, the University of Missouri—St. Louis cannot admit students from all states for online programs. Please see the Center for Teaching and Learning for additional information: [http://www.umsl.edu/services/ctl/onlinelearning/state_authorization.html](http://www.umsl.edu/services/ctl/onlinelearning/state_authorization.html).

### Admission Criteria

- Admission to the University by completing the UMSL Graduate Application
- Completion of College of Nursing supplemental application
- MSN or DNP from a nationally accredited nursing program
- MSN or DNP 3.0 minimum GPA
- Current professional licensure

### Certificate Requirements

Students must complete a minimum of 12 credit hours of coursework from the University of Missouri - St. Louis College of Nursing. Courses must be from the list below.

<table>

**Adult and Higher Education MEd, Higher Education Emphasis**

The Master’s degree with an emphasis in Higher Education has been flexibly designed to include an expanded focus related to college access, equity and affordability, social justice, and workforce preparation, as well as student services and higher education leadership. In addition to student services professionals in postsecondary education settings, the revised curriculum also considers K-12 teacher leaders and college and career preparation professionals who aim to transform the college access and workforce preparation culture for K-12 and postsecondary education institutions in order to champion success for ALL students.

Our innovative program aims to provide the foundational tools practitioners desire to consider several career pathways:

- **STUDENT AFFAIRS** professionals (student life; residential life; student conduct; admissions and recruitment; financial aid; international student services; diversity, equity and inclusion; etc.)
- **ACADEMIC AFFAIRS** professionals (academic and career advising/coaching professionals in higher education institutions; registrar/registration; faculty support)
- Pre-Collegiate programming, including TRIO, Bridge, Talent Search, and Upward Bound
- College preparation and access advocacy and support that is provided by agencies such as College Bound, Wyman Center, College Advising Corps, AmeriCorps, and Scholarship Foundation of St. Louis
- Independent college preparation and career readiness professionals interested in establishing private practice focused in this area
- College and Career Advising in Charter Schools
• College and career readiness public policy development within state and federal agencies
• Organizing, mobilizing, and leading advocacy efforts related to public policy formulation and analysis for national higher education and professional associations, including the American Council on Education, NASPA, etc., as well as higher education think tanks and non-profit research and advocacy organizations, such as the Institute for Higher Education Policy.
• Child victimization, maltreatment and trauma advocacy and support for K-12 and postsecondary students

**Admission Requirements**

This degree program follows the policies of The College of Education and the Graduate School relating to academic standards, residency, transfer credit, time limitations, and thesis options (see Graduate Study (p. 35) in the Bulletin).

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL Bulletin. Students are considered for admission to the graduate program in Adult and Higher Education only after they have formally applied for admission through the Graduate School. Applications may be completed on-line.

**African American and African Diaspora Studies Undergraduate Certificate**

The Undergraduate Certificate in African American and African Diaspora Studies (AAADS) will offer undergraduate students from any major/discipline an opportunity to engage in an interdisciplinary examination of the history, culture, and life of African Americans and the African diaspora from ancient times to the present day. This program stresses
critical thinking, ethical and moral reasoning, intercultural competence, community service, and justice.

Core
HIST 1003 African American History 3
HIST 1007 Introduction to African and African American Studies 3

SOC 4340 Race, Crime, and Justice
THEATR 2274 African-American Cinema ²

Capstone
A capstone course (minimum of 3 hours) is a 4000–level research, internship, or practicum course not already used as an elective. This course must be approved, in advance, by the program coordinator for the certificate.

Total Hours 18

Other UMSL courses and courses from other UM campuses, through ICCS or other formats, may be included as electives with prior approval of the program coordinator.

¹ These topical courses are included when the topics or book selections are appropriate for this certificate as determined by the program coordinator.
² These courses have additional prerequisites.

Learning Outcomes
Upon completion of the program, certificate earners will be able to:

• Describe the historical developments of the African American and African diasporan experiences that reflect the complexities of continuity and change
• Analyze the key issues facing African, African American, and African diasporan peoples by applying scholarly research, perspectives and data
• Design programs and tactics that address a major civic or social challenge facing African, African American, or African diaspora communities.

African/African American Studies Minor
Core Course (Required):
HIST 1007 Introduction to African and African American Studies 3

Select at least four of the following electives: 12
ANTHRO 2124 Introduction to Contemporary African Cultures (Core Course (Required))
ANTHRO 3235 Women in Subsaharan Africa: A Contemporary Perspective
ART HS 1150 Introduction to the Art and Visual Cultures of Africa
ENGL 4630 African American Literature Prior to 1900
ENGL 4660 African American Literature Since 1900
ENGL 4910 Studies in African Diasporic Literature, Performance, and Criticism
HIST 1003 African American History
HIST 1062 Modern Africa: From Colonies to Nations
HIST 2017 African American History: From Civil Rights to Black Power
HIST/GS 2066 Women and Gender in African History
HIST 2067 African History through Fiction and Film
HIST 2068 Aiding Africa
M H L T 1180 Musical Journey Through Africa
POL SCI 2320 African Americans and the Political System
American Politics Minor

Requirements for Political Science Minors

A general minor in political science can be arranged, as well as specialized minors in eight different subfields of the discipline. Interested students should see a faculty adviser to plan a coherent program of study as a minor field.

Students must achieve a cumulative 2.0 GPA in the political science courses chosen to qualify for the minor. Students may count no more than 3 hours in political science taken on a satisfactory/unsatisfactory basis toward the minor. Students taking an internship POL SCI 3940 may count no more than three hours of the internship toward the minor.

American Politics

Designed for those students interested in careers in communications, education, business, social work, political consulting, and other fields requiring knowledge of American urban, state, and national politics and institutions. Education majors planning to teach in the social studies field, communications majors planning on a career in journalism, or business majors thinking about working in corporate relations may especially wish to consider a double major in political science with a focus in this area. In addition to the core curriculum and common requirements for all majors, students are advised to take:

Total Hours 15

In addition, students may wish to choose other political science courses listed below under the public policy and administration program of study. Given the growing reality of international interdependence, students should not restrict their studies completely to American politics but should take some course work in comparative and international politics as well. Depending on their specific career interest, students may wish to round out their program with course work in other social science departments such as criminal justice, communications, economics, or social work.

Learning Outcomes

- Demonstrate knowledge of the institutions, political culture, and processes of American politics.
- Analyze the actions of political actors and their motives.
- Assess political issues, formulate evidence-based recommendations, and communicate them with clarity and coherence.

American Studies Minor

American Studies involves an interdisciplinary approach to the study of the history, cultures, politics, and economy of the United States, its colonial antecedents, and its indigenous peoples. At UMSL, the minor enables students also to study the city and region of St. Louis, a quintessentially American city.

Students interested in this minor should contact the coordinator of American Studies for advice and information.

There are 18 hours required in the minor, and in completing these hours candidates must take courses from at least three disciplines. Candidates must have a cumulative grade point average of 2.0 or better in the minor. Three hours of the minor may be taken on a satisfactory/unsatisfactory basis, and a maximum of nine hours will be accepted in transfer. Candidates wishing to take American Studies courses in the Honors College do not need to be members of the Honors College but must register for the courses via the Honors College.

Requirements for the Minor

Completion of the American Studies Minor requires at least 18 credit hours (6 courses) including an interdisciplinary introductory course. Of the remaining 15 hours, at least six hours must be taken from a small group of core courses designed to give students a foundation for further study and at least six hours from a larger group of elective courses which will broaden students’ experience or enable them to specialize in specific areas. At least six hours must be taken from advanced level (3000 and 4000) undergraduate courses. Students are recommended to include in this advanced work an American Studies “capstone”, an option that may be fulfilled in several ways, which are described below.

Introductory Course

ENGL 3710 American Literature Before 1865 3
ENGL 3720 American Literature After 1865 3

Choose at least one of the following:

HIST 1001 American Civilization to 1865 (MOTR HIST 101)
HIST 1002 American Civilization to Present (MOTR HIST 102)

POL SCI 1100 Introduction to American Politics (MOTR POSC 101)
HONORS 1230 American Traditions: Social and Behavioral Sciences

Elective Courses
Choose at least two courses from the following American Studies electives

Anthropology
ANTHRO 2120 Native Peoples of North America

Art History
ART HS 1140 Indigenous Arts of the Americas
ART HS 2270 Art of the United States

Criminology
CRIMIN 1100 Introduction to Criminology and Criminal Justice
CRIMIN 1120 Criminal Law
CRIMIN 1150 Violence in America
CRIMIN 4300 Communities and Crime
CRIMIN 4325 Gender, Crime, and Justice
CRIMIN 4340 Race, Crime, and Justice

Economics
ECON 2800 History of American Economic Development

English
ENGL 4620 Selected Major American Writers II
ENGL 4650 Modern American Fiction

History
HIST 2008 History of St. Louis
HIST 2028 Sex, Drugs, and Rock ’n Roll: The 1960s in Song, Fashion, Dating, and Protest

Gender Studies
GS 2020 Women and Social Movements in U.S. History
GS 2380 Politics of Gender in the United States
GS 3700 Diversity and Social Justice
GS 4335 Gender and Body Image in Media and Culture

Honors
HONORS 2010 Inquiries in The Humanities (topic must be approved by American Studies coordinator)
HONORS 2030 Inquiries in the Social and Behavioral Sciences (topic must be approved by American Studies coordinator)

HONORS 3010 Advanced Honors Seminar in the Humanities (topic must be approved by American Studies coordinator)
HONORS 3030 Advanced Honors Seminar in the Social and Behavioral Sciences (topic must be approved by American Studies coordinator)

Military and Veterans Studies
MVS 2100
MVS 2130

Music History
M H L T 1003 History of Rock Music (MOTR MUSC 100RP)
M H L T 1070 Introduction to Jazz (MOTR MUSC 100J)
M H L T 1140 Popular Music in America
M H L T 1190 Musical Journey of the Native North American
M H L T 4280 American Music

Political Science
POL SCI 2260 Law, Politics and Society
POL SCI 2320 African Americans and the Political System
POL SCI 2330 The American Presidency
POL SCI 2370 The Politics of Identity and Social Justice
POL SCI 2380 The Politics of Gender in the United States
POL SCI 3210 Civil Liberties
POL SCI 3330 Public Opinion and Political Participation
POL SCI 3460 The Politics of Poverty and Welfare

Sociology
SOC 1040 Social Problems
SOC 2202 Urban Sociology
SOC 2203 The City
SOC 4100 Introduction to Feminist and Gender Theory
SOC 4312 Sociology of Wealth and Poverty

Student considering other elective choices must work with the American Studies faculty coordinator to obtain approval to apply these courses to the minor.

Capstone options:

Students are encouraged to complete a capstone for the American Studies minor. A capstone course can satisfy three credit hours of the 18 hour minor. Experiences that could serve as a capstone include appropriate departmental capstone courses, independent studies, research projects, and internships. Interested students should work with the coordinator of American Studies to have a capstone course approved.
Analytical Chemistry Graduate Certificate

The graduate certificate in analytical chemistry is a 12-credit-hour program. It provides the skills and training necessary to advance in growing areas of analytical chemistry, with fields such as environmental sample testing, or verifying the quality and safety of food as well as pharmaceutical and cosmetic products. Analytical chemists also work in clinical areas, supporting the development of assays needed for disease diagnosis, assuring compliance with environmental and other regulations, or supporting the legal process. The certificate requires three analytical chemistry lecture courses. Research credits taken towards the certificate in the Department of Chemistry and Biochemistry must be completed in a research group using experimental analytical techniques. Research credits can be taken in the same or in different research groups. All students must take the three required courses subject to the Graduate School regulations.

A minimum of three of the courses must be taken at UMSL. Research credits must be taken at UMSL. Courses may be substituted with the permission of the certificate coordinator. For more information, students can contact the Department of Chemistry and Biochemistry.

Certificate applicants must meet the general University of Missouri-St. Louis Graduate School admissions requirements to be admitted to the Certificate program. Students admitted to the Chemistry M.S. program are automatically eligible to pursue the Certificate; however, they must apply separately to the Certificate program. Students must maintain a minimum GPA of 3.0 to remain in the Certificate program. The certificate is awarded after completion of the 12 credit hours of courses listed below. Students must apply to be awarded the Certificate. Courses taken while enrolled as an undergraduate may not be repeated nor will they count towards the Certificate.

This 12-credit-hour certificate program also counts toward the 30-credit-hour Master of Science in Chemistry degree program requirements. Students may choose to combine this certificate with other courses and/or chemistry Certificates to obtain the Master of Science in Chemistry degree.

**Required Courses**

- CHEM 5212 Advanced Instrumental Analysis 3
- CHEM 5652 Spectroscopic Identification of Organic Compounds 3
- CHEM 5294 Special Topics in Analytical Chemistry 1

**Electives Courses**

Choose a total of 3 credit hours from the following:

- CHEM 5772 Advanced Physical Biochemistry
- CHEM 6905 Graduate Research in Chemistry 1
- CHEM 4733 Biochemistry Laboratory

1 If CHEM 6905 is chosen, the research project must make significant use of experimental analytical techniques.

General Education Requirements

Majors must satisfy the university and college general education requirements (p. 48). Any foreign language may be used to meet the language requirement for the B.A. degrees.

**Degree Requirements**

All required courses for the major must be completed with a grade of C- or better. The following courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTHRO 1005</td>

</tr>
</tbody>
</table>

Select nine additional credit hours in Anthropology numbered 3000-4999

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
</table>

**Total Hours** 37

The three courses must come from two different subfields: Cultural Anthropology, Archaeology, or Biological Anthropology.

The total number of hours required for the major is 37. Students may elect to take up to, but not to exceed, 15 additional hours in anthropology courses of their choice.

At the end of the program, students should have these competencies:

- **Discipline-Specific (Content) Knowledge**
  Graduates will be able to discuss the importance of cultural diversity, thus preparing them to function in multicultural or international settings. Graduates will understand the common evolutionary origins that unify all cultural differences, as well as human biological variation within our shared humanity. Graduates will develop in-depth knowledge of the culture of a particular region of the world.

- **Communication Skills**
  Graduates will develop social science writing skills, including writing of a research proposal for a grant agency and a substantial research report. Graduates will develop oral presentation skills, including presenting a formal research report.

- **Information Management/Quantitative Skills**

*Anthropology BA*

Beginning Fall 2021, the program is no longer accepting applications.
Graduates will master research methods in one of the subfields of anthropology (cultural anthropology, biological anthropology, archaeology). Graduates will learn to design and conduct an original research project, working in close cooperation with faculty.

- Valuing/Ethics/Integrity
  Graduates will be able to discuss and articulate the professional ethics and codes of conduct of the discipline.

- Critical Thinking Skills
  Graduates will develop the ability to apply anthropological concepts in performing critical analysis of broad historical trends and complex social issues. Graduates will be able to value cultural diversity, thus preparing them to function in multicultural or international settings.

- Application/Internship Skills
  Graduates will gain hands-on experience in the application of anthropological concepts to real life and will be able to apply anthropological theory to real-life experience.

### Residency Requirement

Undergraduate majors must complete a minimum of 17 hours of upper-level (3000-5000) Anthropology courses in residence, including:

- **ANTHRO 4315** Anthropology Past, Present, and Future 3
  And at least one of the following: 3
  - **ANTHRO 3209** Forensic Anthropology
  - **ANTHRO 3211** Linguistic Anthropology
  - **ANTHRO 3212** Medical Anthropology
  - **ANTHRO 4015** Data Analytics in the Social Sciences
  - **ANTHRO 4000** Ethnographic Field Research Methods
  - **ANTHRO 4100** Field Methods in Archaeology
  - **ANTHRO 4307** Community Based Research in Anthropology
  - **ANTHRO 4310** Laboratory Methods in Archaeology

**Total Hours:** 6

### Learning Outcomes

Upon completion of the program, graduates will be able to:

- Demonstrate an appreciation for the diversity of human cultures and the interconnectedness of people around the world
- Demonstrate knowledge of the evolutionary and historical processes that shaped our ancestors and led to the biological, behavioral, and cultural diversity seen in the present
- Demonstrate a command of key concepts, issues, theories, and debates in anthropology
- Demonstrate knowledge of varying types of anthropological data and how they are collected, analyzed, synthesized, and interpreted
- Think critically and analytically about issues of social justice and social inequality
- Apply problem-solving and research skills beneficial to anthropology as well as to a variety of careers in today’s global economy
- Communicate cross-culturally and within multicultural settings
- Demonstrate an appreciation for the role of anthropology in the workplace and the real world

Total Hours 6

### Thesis Requirement

Students are required to complete a total of 6 credit hours of thesis. The student will engage in sustained and self-motivated study through the research process, conferring with advisors, and drafting and revising a manuscript. The thesis proposal must be approved by the committee and successfully defended. A committee chair will be identified, who
will consult with the student on selecting two other members for the committee.

Students will work with their committee chair to identify a thesis project such as the following but not limited to a literature review, a scholarly tutorial, or an empirical study. The thesis project should be a scholarly work related to behavior analysis.

Students are expected to follow all other general requirements of the Graduate School regarding master’s degree and thesis requirements.

**Applied Econometrics and Data Analysis Undergraduate Certificate**

Those with economics degrees are in high demand in a large number of occupations, whether in business or government; students with advanced econometrics skills who understand how to apply these techniques in real-world settings are in even higher demand. This Certificate in Applied Econometrics and Data Analysis is designed to provide the education needed for employment in analysis positions in business or government. The Certificate is a valuable credential for economics majors with a quantitative focus, (applied) math majors, and selected students from other social sciences.

The Certificate consists of 6 courses met through 3 required courses and 3 electives which must be selected from the list below. At least 4 of these courses must be completed in residency at UMSL. (Note that all of these courses have prerequisites that the student must complete before taking the selected course.)

**Required Courses**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 4100</td>
<td>Introduction to Econometrics</td>
<td>4</td>
</tr>
<tr>
<td>ECON 4110</td>
<td>Applied Econometrics</td>
<td>4</td>
</tr>
<tr>
<td>ECON 4120</td>
<td>Time Series Econometrics for Economics and Finance</td>
<td>4</td>
</tr>
<tr>
<td>or ECON 4130</td>
<td>Business and Economic Forecasting</td>
<td></td>
</tr>
</tbody>
</table>

**Electives**

The remaining 3 electives must come from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 4040</td>
<td>Booms and Busts in the Economy: Data and Theory</td>
<td></td>
</tr>
<tr>
<td>ECON 4120</td>
<td>Time Series Econometrics for Economics and Finance (if course not used above)</td>
<td></td>
</tr>
<tr>
<td>ECON 4130</td>
<td>Business and Economic Forecasting (if course not used above)</td>
<td></td>
</tr>
<tr>
<td>ECON 4160</td>
<td>Geospatial Analysis in the Social Sciences</td>
<td></td>
</tr>
<tr>
<td>MATH 4200</td>
<td>Mathematical Statistics I</td>
<td></td>
</tr>
<tr>
<td>MATH 4210</td>
<td>Mathematical Statistics II</td>
<td></td>
</tr>
<tr>
<td>POL SCI 4040</td>
<td>Survey Research Practicum in Political Science</td>
<td></td>
</tr>
<tr>
<td>PSYCH 4365</td>
<td>Psychological Testing and Assessment</td>
<td></td>
</tr>
<tr>
<td>SOC 4040</td>
<td>Survey Research Practicum for Sociology</td>
<td></td>
</tr>
</tbody>
</table>

**Learning Outcomes**

- Use statistical software to estimate, analyze, and interpret economic relationships applying regression analysis techniques to data.
- Develop appropriate econometric models using real-world data to make management or policy recommendations in a variety of professional settings.
- Apply key concepts of estimation and forecasting in a time series context.

**Applied Psychology of Child Advocacy Studies BA**

**General Education Requirements**

Majors must satisfy the university and college General Education curricular requirements (p. 48). Selected courses in Psychology and Child Advocacy Studies may be used to meet General Education Social and Behavioral Sciences requirements.

**Degree Requirements**

**Core**

Artificial Intelligence Graduate Certificate

The graduate certificate in Artificial Intelligence is a four-course (12 credit hour) program. It provides skills and training necessary to start and/or advance in the growing areas of AI, with a range of electives to focus more specifically in one's desired direction of study. All students must take two required courses and two electives.

A minimum of three courses must be taken from UMSL. A maximum of two courses can be used from the 4000-level. Courses may be substituted with the permission of the certificate coordinator. For more information, students can contact the department chair or email info@arch.umsl.edu.

Required Courses
- CMP SCI 5130 Advanced Data Structures and Algorithms 3
- CMP SCI 5300 Artificial Intelligence 3

Elective Courses 6
Choose two of the following:
- CMP SCI 4610 Database Management Systems
- CMP SCI 5151 Statistical Methods for Data Science
- CMP SCI 5320 Evolutionary Computation
- CMP SCI 5340 Machine Learning
- CMP SCI 5342 Data Mining
- CMP SCI 5370 Biological Data Science
- CMP SCI 5390 Deep Learning
- CMP SCI 5420 Digital Image Processing and Computer Vision
- CMP SCI 6320 Advances in Evolutionary Computation
- CMP SCI 6340 Genetic Programming

Total Hours: 12

Artificial Intelligence Undergraduate Certificate

The undergraduate certificate in Artificial Intelligence is a five-course (15 credit hour) program. It provides skills and training necessary to start or progress in the growing areas of AI, with a range of electives to focus more specifically in one’s desired direction of study. A minimum GPA of 2.5 is required for admission.

A minimum of three courses must be taken from UMSL. Courses may be substituted with the permission of the certificate coordinator. For more information, students can contact the department chair or email info@arch.edu.

Required Courses
- CMP SCI 3130 Design and Analysis of Algorithms 3
- CMP SCI 4300 Introduction to Artificial Intelligence 3

Electives
Choose three of the following courses:
- CMP SCI 4151 Introduction to Statistical Methods for Data Science 9
CMP SCI 4320  Introduction to Evolutionary Computation
CMP SCI 4340  Introduction to Machine Learning
CMP SCI 4342  Introduction to Data Mining
CMP SCI 4370  Introduction to Biological Data Science
CMP SCI 4390  Introduction to Deep Learning
CMP SCI 4420  Introduction to Digital Image Processing and Computer Vision

Total Hours 15

**Athletic Coaching Minor**

The Athletic Coaching minor is intended for those who would like to work with youth in a variety of sport settings, in either school or non-school settings. The following courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HLTH PE 3275</td>

<td>3</td>
</tr>
</tbody>
</table>

Total Hours 22

**Auditing Graduate Certificate**

The Certificate Program in Auditing provides students with the knowledge and judgment needed to conduct audits of for-profit, not-for-profit, and government entities. Concepts associated with independent audits, systems audits, controls evaluations, internal audits, and operational audits are examined.

**Admission Requirements**

Applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements.

**Certificate Requirements**

All course prerequisites and all course waivers are applicable. Substitute courses may be approved by the appropriate department chairperson and the Director of Graduate Business Programs. All 12 credit hours taken as part of this certificate transfer to the MBA degree program.

**Autism Studies Graduate Certificate**

The mission of the certificate program is:

- To improve current preparation of teachers and related educational practitioners in the greater St. Louis area with dedicated coursework that increases program participants' understanding and skills necessary to providing comprehensive and holistic programming (in areas of academic, social, functional, and life skills) that addresses the unique characteristics of individuals with Autism.
- To provide contemporary, best practices-based preparation of professionals who specialize in the treatment of individuals with autism spectrum disorders (ASD) and/or who work collaboratively with school personnel to recognize and follow the ASD profile that best educates the students.
- To gain greater understanding of challenges faced by families of individuals with ASD.
- To prepare personnel to educate and support individuals with ASD, which includes autism, Asperger Syndrome, and other pervasive developmental disorders.
- To address the complex needs of students with ASD, including those who require intensive and highly individualized programs, to those who require less intensive modifications to succeed in their educational, functional, and life goals.
- To increase the current body of scholarly and applied knowledge pertaining to the science and practice in areas of cognitive disability studies.

1 The first three courses in the autism certificate are the same as those in the M.Ed. Special Education Concentration I.
Biochemistry and Biotechnology BS

The mission of the Biochemistry and Biotechnology Program is to provide students with a solid foundation in both chemistry and biology, as well as specialized training in the rapidly growing fields of biochemistry and biotechnology. Faculty members in this program are engaged in teaching and research in a broad range of areas, including genetics and molecular biology, microbiology and immunology, and protein biochemistry and biophysics. Students have the opportunity through coursework, laboratories, seminars, and research experience to develop the knowledge and skills necessary to enter the workforce or to continue with further graduate education.

Degree Requirements

General Education Requirements

Students must satisfy the university and college general education requirements (p. 48). Some math or science courses required for the major may be used to meet the science and mathematics requirement of the university. There is no foreign language requirement for the degree.

All Biochemistry & Biotechnology majors are required to take a capstone seminar (either CHEM 4797 or BIOL 4797) during the semester in which they plan to graduate (the winter semester for students graduating in the summer). Students may not receive credit for both CHEM 4797 and BIOL 4797.

Satisfactory/Unsatisfactory Option

Up to 18 credit hours may be taken on a satisfactory/unsatisfactory (s/u). Excluded from this option are required courses in biology, chemistry, physics, and mathematics.

Non-major Biology or Chemistry courses

Courses in Biology with a number less than 1800 and courses in Chemistry with a number less than 1100 do not count toward the credit hours required for a major in biochemistry and biotechnology.

Research for Credit

A maximum of 3 credit hours from any combination of BIOL 4905 and CHEM 3905 may be applied toward the Biochemistry & Biotechnology program. This provides an opportunity to gain research experience under the supervision of a faculty member. The project will normally include a review of the literature, laboratory experience and a final research report.

Transfer of Credit from Saint Louis Community Colleges

Students transferring BIO 219 and BIO 220 from Saint Louis Community Colleges will not have to complete BIO 4614. However, they will have to take an additional 3 credit hours of Biochemistry and Biotechnology Elective coursework.

Students in this program will develop a well-rounded set of competencies in several critical areas. These include:

- **Discipline-Specific Knowledge.** Graduates will demonstrate a clear understanding of the overriding principles and theorems within and between the primary content areas of chemistry, biology, and biochemistry, including the
  - Structure and function of the basic biological units of living organisms and their role in life and disease.
  - Information flow, exchange, and storage from parent to offspring or from parent cells to progeny cells.
  - Organic reactions and physical chemical principles underlying metabolic reactions.
  - Molecular mechanisms commonly used to regulate metabolic and cellular pathways.

- **Laboratory Skills.** Scientists not only learn the results of others, they work in the lab to generate new knowledge. Graduates will develop basic skills associated with performing laboratory experiments in chemistry, biology, and biochemistry following a broad introduction of commonly used equipment and procedures.

- **Critical thinking Skills.** Graduates will be able to formulate meaningful hypotheses and evaluate data critically, including an appreciation of the potential sources of error associated with laboratory measurements and an ability to troubleshoot technical issues.

- **Problem Solving Skills.** Graduates will be able to define and solve scientific problems. In part, this expands on laboratory skills, as students learn how to interpret and evaluate their data.

- **Translational Skills.** Graduates will be able to take general principles from various areas of chemistry, biochemistry, and biology and apply them towards solutions for novel and emerging biotechnology problems.

- **Communication Skills.** Scientists not only must be able to solve problems, they must also be able to communicate those solutions to others. Graduates of this program can present data in a clear and accurate manner. Graduates will be able to write scientific reports and make effective oral presentations of their results and ideas.

- **Scientific Literacy.** Scientists must be able to build on the previous work of others and to put their new results into the larger context of the field. Graduates will be able to find and retrieve information within the vast scientific literature in chemistry, biology, and biochemistry. Graduates will have the background knowledge necessary to read the literature and scientific information presented to the public with good comprehension and be able to critically evaluate reliability, accuracy, authority, and point of view or bias.

- **Professional Ethics.** Graduates will follow standard scientific practices, including honestly and objectively evaluating and reporting data and acknowledging the ideas and published work of others. In doing so, graduates will demonstrate an understanding and respect for the accepted standards of conduct associated with the profession.

## Electives

Recommendations include basic statistics (MATH 1320), computer science, public speaking (COMM 1040), foreign language, ethics, and undergraduate research.

### Minor in Biology

Students who complete the B.S. degree in Biochemistry and Biotechnology may also obtain a minor in biology by completing BIOL 1821, Introductory Biology: Organisms and the Environment. The minor must be approved by the chair of the Department of Biology. At least 9 hours of the biology course credits must be taken in residence at UMSL. Candidates must have a cumulative grade point average of 2.0 or better in the minor, and none of the courses may be taken on a satisfactory/unsatisfactory (S/U) basis.

### Minor in Chemistry

Students who complete the B.S. degree in Biochemistry and Biotechnology will also fulfill the course requirements for a minor in Chemistry. A GPA of at least 2.0 is required for the courses presented for the minor. At least three courses toward the Chemistry minor must be completed at UMSL.

### Program Learning Outcomes

Students often think of the physical and life sciences as areas in which one masters a collection of “scientific facts”. However, an education in Biochemistry & Biotechnology involves much more than memorizing facts. Students in this program will develop a well-rounded set of competencies in several critical areas. These include:

- **Discipline-Specific Knowledge.** Graduates will demonstrate a clear understanding of the overriding principles and theorems within and between the primary content areas of chemistry, biology, and biochemistry, including the
  - Structure and function of the basic biological units of living organisms and their role in life and disease.
  - Information flow, exchange, and storage from parent to offspring or from parent cells to progeny cells.
  - Organic reactions and physical chemical principles underlying metabolic reactions.
  - Molecular mechanisms commonly used to regulate metabolic and cellular pathways.

- **Laboratory Skills.** Scientists not only learn the results of others, they work in the lab to generate new knowledge. Graduates will develop basic skills associated with performing laboratory experiments in chemistry, biology, and biochemistry following a broad introduction of commonly used equipment and procedures.

Biochemistry and Biotechnology MS

The Biochemistry and Biotechnology Program offers three types of Master of Science degrees.

Non-Thesis

One is a 30-credit-hour non-thesis option suitable for those with laboratory research experience or for others, such as educators, who do not require research experience.

Thesis

The second option includes laboratory-based research under the supervision of one of the program faculty members, leading to a written thesis. All students admitted to the graduate program are considered to be in the non-thesis program. They may transfer into the thesis program after they have been accepted as a thesis student by one of the faculty.

Professional Science

The third is a 32-credit-hour Professional Science emphasis area that includes a strong business component for students who are interested in learning more about the business aspects of companies. This track may not be appropriate for students who are interested in pursuing a PhD or working primarily as laboratory scientists. For more information go to the Professional Science program page. (p. 391)

Admission Requirements

Applicants to the M.S. program must submit a completed application and personal data forms, and transcripts of all previous postsecondary academic work. Submission of Graduate Record Examination scores and letters of recommendation, although not required, will be considered. Admission as a regular graduate student requires graduation from an accredited college with a minimum grade point overall and in biology and chemistry courses of 3.0 (where A=4.0). Students will generally be expected to have completed a major in biology, chemistry, biochemistry or biotechnology. In addition to the Graduate School admission requirements, applicants should have completed undergraduate courses in biochemistry, organic chemistry, cell biology, and genetics. Applicants may be asked to make up any deficiencies in these areas as a condition of enrollment.

All international applicants, except those from countries where English is the primary language, must show English proficiency by submitting according to UMSL’s International Student and Scholar Services requirements.

Degree Requirements

Both the thesis and non-thesis options require a total of 30 graduate credit hours, of which at least half must be at the 5000-level or above. A maximum of 12 credit hours of Graduate Research (BIOL 6905 or CHEM 6905) may be applied toward the thesis option and a maximum of 5 credit hours toward the non-thesis option. Students must have a 3.0 GPA in non-research courses.

Biochemistry and Biotechnology MS, Professional Emphasis

This track requires a total of 32 graduate credit hours, of which at least half must be at the 5000-level or above. Students take 21 credit hours of science courses (Biochemistry and Chemistry) and 9 hours in business courses. In addition, each student is required to take 2 credit hours of either an on-campus practicum course or an off-campus internship.

Total Hours 30

1. Maximum of 3 credit hours between BIOL 5069, BIOL 5099, and CHEM 6787.
Upon completion of the program, certificate earners will be able to:

- Demonstrate an in-depth knowledge in protein, nucleic acid and membrane biochemistry, as well as biophysical chemistry or computational biology.
- Take responsibility for the success of projects associated with biochemistry.

Biochemistry Graduate Certificate

The graduate Certificate in Biochemistry is 12-credit-hour program. It provides skills and training necessary to advance in the area of biochemistry, which deals with the structure, composition, and chemical reactions of substances in living systems. Biochemistry includes biorganic, bioinorganic and biophysical chemistry. The Certificate requires three biochemistry lecture courses (each three credits) and three credits of elective courses. All students must take these three required courses and three credits of elective course, subject to the Graduate School regulations.

A minimum of three of the courses must be taken at UMSL. Research credits must be taken at UMSL. Courses may be substituted with the permission of the Certificate coordinator. For more information, students can contact the Department of Chemistry and Biochemistry.

Certificate applicants must meet the general University of Missouri-St. Louis Graduate School admissions requirements to be admitted to the Certificate program. Students admitted to the Chemistry M.S. program are automatically eligible to pursue the Certificate; however, they must apply separately to the Certificate program. Students must maintain a minimum GPA of 3.0 to remain in the Certificate program. The certificate is awarded after completion of the 12 credit hours of courses listed below. Students must apply to be awarded the Certificate. Courses taken while enrolled as an undergraduate may not be repeated nor will they count towards the Certificate.

This 12-credit-hour certificate program also counts toward the 30-credit-hour Master of Science in Chemistry degree program requirements. Students may choose to combine this certificate with other courses and/or certificates to obtain the Master of Science in Chemistry degree.

| Elective Courses | 3 |

Choose a total of 3 credit hours from the following:

- CHEM 5794 Special Topics in Biochemistry
- CHEM 4733 Biochemistry Laboratory
- CHEM 6787 Problem Seminar in Biochemistry
- CHEM 6905 Graduate Research in Chemistry

1 If CHEM 6905 is chosen, the research project must be in biochemistry.

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

**Biochemistry Graduate Certificate**

The B.A. degree in biology is designed to prepare students for basic technical positions and graduate studies in the life sciences. Candidates for the degree have the same core courses and general education requirements as those seeking the Bachelor of Science degree, but with less emphasis on science electives and more emphasis on liberal arts.

**General Education Requirements**

Students must satisfy the university and college general education requirements (p. 48). Some Biology courses may be used to meet the science and mathematics requirement of the university.

Candidates for the B.A. degree must fulfill the foreign language requirement of the College of Arts and Sciences. There is no foreign language requirement for the B.S. degree.

**Satisfactory/Unsatisfactory Option**

Up to 18 credit hours may be taken on a satisfactory/unsatisfactory (s/u) basis. Excluded from this option are required courses in biology, chemistry, physics, and mathematics.

**Non-major biology courses**

The following 1000 level biology courses do not count toward the biology credit hours required for a major in biology. Moreover, if biology majors take these courses, they are treated as biology courses when computing the 70 credit hours outside of biology needed to be included in the 120 total credit hours required for graduation.

The B.A. degree provides maximum flexibility for biology majors to pursue an undergraduate liberal arts course of study that can lead to professional careers in medicine, allied health, public and environmental health, law, and graduate studies in the life sciences. Candidates must have a cumulative grade point average of 2.0 or better in biology courses. Candidates must also earn a minimum grade of C- in all core courses.

All B.A. degree majors must take at least 40 credit hours, but not more than 50 hours, in appropriate biology course work. A minimum of 18 hours at or above the 2000 level (including one laboratory) must be taken in residence in the UMSL Department of Biology in order to receive a B.A. degree from the College of Arts and Sciences with a major in biology.

| Total Hours                            | 25-29 |

Elective Courses

Three additional biology lecture courses, at the 2000 level or higher are required. They may be selected from any of the lecture or lecture-laboratory courses offered. Selection of these courses should reflect the career interest of the student. Biology courses taken to fulfill basic skill requirements (e.g., statistics requirement or biochemistry option) can be used to satisfy this requirement.

At least two biology lecture courses taken as part of the core or as electives must be at the 4000 level or higher. No more than one of these higher level courses can be used to fulfill other requirements (e.g., diversity or statistics requirements, or biochemistry option). Biochemistry CHEM 4722 can also be used toward satisfying this requirement. BIOL 4905 or BIOL 4915 can be applied to the electives requirement but two 4000 level lecture courses are still required.

Laboratory Course Requirements

Three biology laboratory courses at the 2000 level or higher are required. They may be taken from any of the lecture-laboratory or laboratory courses offered. Two credit hours of BIOL 3699, BIOL 4299, BIOL 4905, or BIOL 4915 (no combination of these courses allowed) can be used to fulfill one laboratory requirement. Students may take CHEM 4733 to satisfy one of these laboratory course requirements, but students may not use both BIOL 4713 and CHEM 4733 to fulfill this requirement.

Basic Skills Requirement

A well-rounded biologist needs certain skills outside the biology subject matter. The basic skills requirement is designed to provide the student with a background in communication skills and knowledge in associated science areas.

Communication Skills. Courses in foreign languages and in writing are required for development of the basic communication skills needed to transmit scientific information. The following satisfy this requirement:

**Foreign Language**

| The foreign language requirement of the College of Arts & Sciences fulfills the departmental requirement. |

<table>
<thead>
<tr>
<th>Writing</th>
<th>3</th>
</tr>
</thead>

</tbody>
</table>

**Total Hours** 6

Associated Science Area

The following courses or their equivalents must be successfully completed in science areas related to biology:

**PHYSICS 1011** Basic Physics I 3
**PHYSICS 1011L** Basic Physics I Laboratory 1
**PHYSICS 1012** Basic Physics II 3
**PHYSICS 1012L** Basic Physics II Laboratory 1
**CHEM 1111** Introductory Chemistry I (MOTR CHEM 150L) 5
**CHEM 1121** Introductory Chemistry II 5
**CHEM 2612** Organic Chemistry I 3
**Select one of the following:** 2-3
| CHEM 2223 Quantitative Analysis in Chemistry |
| CHEM 2622 Organic Chemistry II |
| CHEM 2633 Organic Chemistry Laboratory |
| BIOL 4732 Principles of Biochemistry |
| MATH 1310 Course MATH 1310 Not Found 3 |
| MATH 1035 Trigonometry 2 |
| MATH 1100 Basic Calculus 3 |
| or MATH 1800 Analytic Geometry and Calculus I |
| Select one of the following: 3-4 |
| BIOL 4122 Biostatistics |
| MATH 1310 Course MATH 1310 Not Found |
| MATH 1320 Introduction to Probability and Statistics |

**Total Hours** 34-36

Research Opportunity

Students in the B.A. Biology degree program who are interested in gaining research experience are encouraged to take a minimum 2 credit hours of undergraduate research, BIOL 4905. The privilege of doing undergraduate research provides students with a first-hand opportunity to experience the research process under the supervision of a faculty member or off-campus scientist. The project normally includes a library search of pertinent literature, laboratory or field experience, and a summary paper and a presentation, all based on an average 8 hr. per week per credit hour for a 15 week semester.
Thesis in Biology Research and the Degree with Distinction

The Department of Biology offers high-achieving students the opportunity to present primary research in the form of a written thesis and to graduate with a Degree with Distinction in Biology. The first step in conducting an undergraduate thesis is to identify a faculty research mentor with whom you can conduct novel research. The mentor, along with two UMSL faculty members, will be readers of the thesis. Students need a minimum of two semesters, usually more, to conduct research. After students have identified a research mentor and have completed 75 credit hours, they may apply for a Degree with Distinction in Biology. The final thesis will be written in the form of a scientific manuscript and presented orally in an advertised public forum at least 6 weeks prior to commencement. The readers of the thesis will decide if the thesis merits a Degree with Distinction, and will report their recommendation to the Dean of Arts and Sciences. In addition to fulfilling the coursework required for a B.S. or B.A. in Biology and the thesis itself, students must also fulfill all the requirements for UMSL’s Degree with Distinction.

Academic Tracks within the Major of Biology

Biology majors may choose to focus their elective hours in a particular sub-discipline of biology, or academic track. These tracks are groups of departmental courses that fit within sub-disciplines of biology and are recommendations for students wanting to pursue careers in specific sub-disciplines. Academic tracks are NOT majors and are only intended to serve as guides for courses within a particular area of biology and are represented by current faculty expertise. Selecting an academic track does not prevent a student from taking courses in another track. Students should not expect to take all recommended courses for each academic track. Students may choose not to select an academic track. Currently, the Biology Department offers three academic tracks: Cell and Molecular Biology; Ecology, Evolution and Conservation Biology; and Pre-professional/Health Sciences.

B.S. Ed. in Secondary Education with Emphasis in Biology

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. or B.S. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

B.A. or B.S. in Biology with Master’s Level Coursework for Secondary Teacher Certification

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path.
Learning Outcomes

Integrative Knowledge
Graduates will demonstrate a clear understanding of the overriding principles and theorems within and between the content areas of anatomy, botany, cytology, ecology, evolutionary biology, microbiology, physiology, and zoology. Specifically, graduates will demonstrate competency in the following areas:

- Structure and function of the basic biological units of living organisms
- Information flow, exchange and storage from parent to offspring or from parent cells to progeny cells.
- Pathways and transformations of energy and matter that govern metabolism
- Systems that govern interactions between organisms or between organisms and their environment
- Biodiversity at the genetic, organismal, community, and global scales
- Evolution, common ancestry, and changes to biological populations over successive generations.

Laboratory Skills
Scientists not only learn the results of others, they work in the lab to generate new knowledge. Graduates will demonstrate basic skills associated with performing laboratory experiments or field studies in biology following a broad introduction of commonly used equipment and procedures.

Critical Thinking Skills
Graduates will be able to formulate meaningful hypotheses, design experiments to test them, and evaluate data critically, including an appreciation of the potential sources of error associated with laboratory measurements and troubleshooting technical issues.

Scientific Literacy
Graduates will be able to identify the need for information, procure the information from relevant scientific literature publications and databases, and critically evaluate reliability, validity, accuracy, authority, timeliness, and point of view or bias.

Communication Skills
Scientists not only must be able to solve problems, they also must be able to communicate those solutions to others. Graduates of this program demonstrate how to present scientific concepts and information in a clear and accurate manner. Specifically, graduates will be able to write scientific reports and make effective oral presentations of their results and ideas.

Professional and Research Ethics
Graduates will honestly and objectively evaluate and report data in an ethical and legal manner to promote the values that are essential to scholarly work: trust, accountability, mutual respect, and fairness. By doing so, graduates will come to understand and respect the accepted standards of conduct associated with the scientific profession regarding citation, use of privileged information, integrity of data, and authorship.

Foreign Language
B.A. graduates will demonstrate basic proficiency in speaking, listening, writing and reading in a language in addition to English.

Total Hours: 122

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.
The B.S. degree in biology is designed to prepare students for basic technical positions and graduate studies in the life sciences. Candidates for the degree have the same core courses and general education requirements as those seeking the Bachelor of Arts degree, as well as additional requirements in depth of study, laboratory experience, communication skills, and background in associated science areas.

### General Education Requirements

Students must satisfy the university and college general education requirements (p. 48). Some Biology courses may be used to meet the science and mathematics requirement of the university.

Candidates for the B.A. degree must fulfill the foreign language requirement of the College of Arts and Sciences. There is no foreign language requirement for the B.S. degree.

### Satisfactory/Unsatisfactory Option

Up to 18 credit hours may be taken on a satisfactory/unsatisfactory (s/u) basis. Excluded from this option are required courses in biology, chemistry, physics, and mathematics.

### Non-major biology courses

The following 1000 level biology courses do not count toward the biology credit hours required for a major in biology. Moreover, if biology majors take these courses, they are treated as biology courses when computing the 70 credit hours outside of biology needed to be included in the 120 total credit hours required for graduation.

### Degree Requirements

The B.S. degree in biology is designed to prepare students for basic technical positions and graduate studies in the life sciences. Candidates for the degree have the same core courses and general education requirements as those seeking the Bachelor of Arts degree, as well as additional requirements in depth of study, laboratory experience, communication skills, and background in associated science areas.

Candidates must have a cumulative grade point average of 2.0 or better in all core courses.

There is no foreign language requirement for the B.S. degree. However, students should realize that the literature for biological studies is in many different languages and the ability to extract information from this literature is an important skill.

To fulfill the requirements for the B.S. degree a minimum of 45 hours, but not more than 50 hours, must be completed in appropriate biology course work. A minimum of 22 hours at or above the 2000 level (including two laboratory courses) must be taken in residence in the UMSL Department of Biology in order to receive a B.S. degree from the College of Arts and Sciences with a major in biology.

### Lecture and Seminar Course Requirements

The following biology courses or their equivalents are required:

#### Core

### Elective Courses

Four additional biology lecture courses at the 2000 level or higher are required. They may be selected from any of the lecture or lecture-laboratory courses offered. Selection of these courses should reflect the career interest of the student and may be selected from optional academic tracks (see below). Biology courses taken to fulfill basic skill requirements (e.g., statistics requirement or biochemistry option) can be used to satisfy this requirement.

At least two biology lecture courses taken as electives must be at the 4000 level or higher. No more than one of these higher level courses can be used to fulfill other requirements (e.g., statistics requirement or biochemistry option). Biochemistry CHEM 4722 can also be used toward satisfying this requirement. BIOL 4905 or BIOL 4915 can be applied to the electives requirement but two 4000 level lecture courses are still required.

### Laboratory Course Requirements

Four biology laboratory courses at the 2000 level or higher are required. They may be selected from any of the lecture-laboratory or laboratory courses offered. Two credit hours of BIOL 3699, BIOL 4905, or BIOL 4915 (no combination of these courses allowed) can be used to fulfill one laboratory requirement. Students may take CHEM 4733 to satisfy one
of these laboratory course requirements, but students may not use both BIOL 4713 and CHEM 4733 to fulfill this requirement.

**Basic Skills Requirement**

A well-rounded biologist needs certain skills outside the biology subject matter. The basic skills requirement is designed to provide the student with a background in communication skills and knowledge in associated science areas.

**Communication Skills**

Courses in both formal speaking and writing are required for development of the basic communication skills needed to transmit scientific information.

**Formal Speaking**

**Research Opportunity**

Students in the B.S. Biology degree program who are interested in gaining research experience are encouraged to take a minimum 2 credit hours of undergraduate research, BIOL 4905. The privilege of doing undergraduate research provides students with a first-hand opportunity to experience the research process under the supervision of a faculty member or off-campus scientist. The project normally includes a library search of pertinent literature, laboratory or field experience, and a summary paper and a presentation, all based on an average 8 hr. per week per credit hour for a 15 week semester.

**Thesis in Biology Research and the Degree with Distinction**

The Department of Biology offers high-achieving students the opportunity to present primary research in the form of a written thesis and to graduate with a Degree with Distinction in Biology. The first step in conducting an undergraduate thesis is to identify a faculty research mentor with whom you can conduct novel research. The mentor, along with two UMSL faculty members, will be readers of the thesis. Students need a minimum of two semesters, usually more, to conduct research. After students have identified a research mentor and have completed 75 credit hours, they may apply for a Degree with Distinction in Biology. The final thesis will be written in the form of a scientific manuscript and presented orally in an advertised public forum at least 6 weeks prior to commencement. The readers of the thesis will decide if the thesis merits a Degree with Distinction, and will report their recommendation to the Dean of Arts and Sciences. In addition to fulfilling the coursework required for a B.S. or B.A. in Biology and the thesis itself, students must also fulfill all the requirements for UMSL’s Degree with Distinction.

**Pre-professional Graduation**

The Department of Biology sponsors a 3+4 Program for the UMSL College of Optometry.

In this program students may be admitted to the College of Optometry after completing three years (90 semester hours) of study in the Department of Biology. The undergraduate degree is granted when students satisfactorily complete the first year of optometry school. One or more of the following conditions must be met in order to qualify for the undergraduate degree. All general education requirements and all requirements for the major, except electives, must be completed. Any deficiency in required courses must be remedied with courses taken at UMSL within three years after entering the College of Optometry. Up to 6 hours from the College of Optometry may be substituted for undergraduate degree requirements, with approval of the Department of Biology.

**UMSL – Logan College (3+3 program)**

The Department of Biology has developed a 3+3 articulation agreement with Logan College of Chiropractic (LCC). This program enables qualified students the opportunity to complete a Bachelor of Science degree in Biology for the University of Missouri – St. Louis as well as a Doctor of Chiropractic for Logan College of Chiropractic in six years.

The program is open to students who enter UMSL as first-time freshmen.

Participants must complete their first 90 hours of college work (3 years) at UMSL following a prescribed curriculum.

Participants who have achieved at least 3.25 GPA at UMSL will automatically be granted admission by Logan College of Chiropractic.

After successfully completing an additional 30 credit hours (4th year) at Logan, a student will receive a BS in Biology degree from UMSL.

After completing two additional years at Logan, the student will receive a doctorate in chiropractic.
The acceptance of transfer credits or testing toward completion of degree requirements shall be governed by current policies of UMSL. However, no more than 20 credits of required courses, and NONE of the science credits required for admission to LCC may be earned via examination or transfer from another school.

LCC shall accept, for the entrance date of their choice, all students who successfully complete the Pre-Chiropractic Program with a cumulative GPA of 3.25 or higher and meet all other criteria for admission thereafter in a timely manner, including submission of recommendation and a satisfactory interview.

Students who earn less than a 3.25 GPA, but at least a 2.50 GPA, will be eligible for admission to LCC, and will receive appropriate consideration in the admission process for having completed the UMSL Pre-Chiropractic Program, but will not receive the assurance of a seat reserved for students earning a 3.25 or higher GPA.

Students will make application to LCC one year in advance of their desired entrance date and will complete all required application procedures thereafter in a timely manner, including submission of recommendation and a satisfactory interview.

This program offers benefits to students (six years instead of seven from high school to doctorate). The University of Missouri courses are listed below:

**General Education Requirements**

**Humanities:**
- Select from General Education List

**Social Sciences (One course must be a Psychology):**
- Select from General Education List of courses meeting Social Science Gen. Ed requirements.

**American History & Government**
- MATH 1320 Introduction to Probability and Statistics
- or BIOL 4122 Biostatistics
- ENGL 1100 First-Year Writing (MOTR ENGL 200)
- ENGL 3160 Writing in the Sciences

**Major**

**Foundation courses:**
- BIOL 1821 Introductory Biology: Organisms and the Environment (MOTR BIOL 150L)
- BIOL 1831 Introductory Biology: From Molecules to Organisms (MOTR BIOL 150L)
- BIOL 2012 Genetics
- BIOL 2482 Microbiology
- BIOL 3622 Cell Biology
- BIOL 3302 Evolution
- BIOL 4732 Principles of Biochemistry
- BIOL 4889 Senior Seminar
- PHYSICS 1011 Basic Physics I
- PHYSICS 1011L Basic Physics I Laboratory
- PHYSICS 1012 Basic Physics II
- PHYSICS 1012L Basic Physics II Laboratory
- CHEM 1111 Introductory Chemistry I (MOTR CHEM 150L)
- CHEM 1121 Introductory Chemistry II

**Major**

**Transfer Credits (34):**
- Anatomy I / Lab (6)
- Spinal Anatomy / Lab (5)
- Biochemistry I / Lab (4)
- Histology / Cell Biology / Lab (5)
- Anatomy II / Lab (6)
- Neuroanatomy / Lab (5)
- Biochemistry II (4)
- Physiology I (4)
- Microbiology / Lab (4)

**Academic Tracks within the Major of Biology**

Biology majors may choose to focus their elective hours in a particular sub-discipline of biology, or academic track. These tracks are groups of departmental courses that fit within sub-disciplines of biology and are recommendations for students wanting to pursue careers in specific sub-disciplines. Academic tracks are NOT majors and are only intended to serve as guides for courses within a particular area of biology and are represented by current faculty expertise. Selecting an academic track does not prevent a student from taking courses in another track. Students should not expect to take all recommended courses for each academic track. Students may choose not to select an academic track. Currently, the Biology Department offers three academic tracks: Cell and Molecular Biology; Ecology, Evolution and Conservation Biology; and Pre-professional/Health Sciences.

**Cell and Molecular Biology Track**

- BIOL 2482 Microbiology
- BIOL 2483 Microbiology Laboratory
- BIOL 4442 Developmental Biology
- BIOL 4550 Bacterial Pathogenesis
- BIOL 4602 Molecular Biology
- BIOL 4614 Biotechnology Laboratory I
- BIOL 4615 Biotechnology Laboratory II
- BIOL 4622 Cellular Basis of Disease
- BIOL 4632 Nucleic Acid Structure and Function
- BIOL 4642 Plant Molecular Biology and Biotechnology
- BIOL 4652 Virology
- BIOL 4713 Techniques in Biochemistry
- BIOL 4842 Immunobiology

**Ecology, Evolution and Conservation Biology Track**

- BIOL 2102 Ecology
- BIOL 2103 Ecology Laboratory

The remaining 30 hours to be taken at Logan include:

- Transfer Credits (34):
- Anatomy I / Lab (6)
- Spinal Anatomy / Lab (5)
- Biochemistry I / Lab (4)
- Histology / Cell Biology / Lab (5)
- Anatomy II / Lab (6)
- Neuroanatomy / Lab (5)
- Biochemistry II (4)
- Physiology I (4)
- Microbiology / Lab (4)
B.S. Ed. in Secondary Education with Emphasis in Biology

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. or B.S. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

Learning Outcomes

Integrative Knowledge

Graduates will demonstrate a clear understanding of the overriding principles and theorems within and between the content areas of anatomy, botany, cytology, ecology, evolutionary biology, microbiology, physiology, and zoology. Specifically, graduates will demonstrate competency in the following areas:

- Structure and function of the basic biological units of living organisms
- Information flow, exchange and storage from parent to offspring or from parent cells to progeny cells.
- Pathways and transformations of energy and matter that govern metabolism
- Systems that govern interactions between organisms or between organisms and their environment
- Biodiversity at the genetic, organismal, community, and global scales
- Evolution, common ancestry, and changes to biological populations over successive generations.

Laboratory Skills

Scientists not only learn the results of others, they work in the lab to generate new knowledge. Graduates will demonstrate basic skills associated with performing laboratory experiments or field studies in biology following a broad introduction of commonly used equipment and procedures.

Critical Thinking Skills

Graduates will be able to formulate meaningful hypotheses, design experiments to test them, and evaluate data critically, including an appreciation of the potential sources of error associated with laboratory measurements and troubleshooting technical issues.

Scientific Literacy

Graduates will be able to identify the need for information, procure the information from relevant scientific literature publications and databases, and critically evaluate reliability, validity, accuracy, authority, timeliness, and point of view or bias.

Communication Skills

Scientists not only must be able to solve problems, they also must be able to communicate those solutions to others. Graduates of this program demonstrate how to present scientific concepts and hypotheses in an ethical and legal manner to promote the values that are essential to scholarly work: trust, accountability, mutual respect, and...
fairness. By doing so, graduates will come to understand and respect the accepted standards of conduct associated with the scientific profession regarding citation, use of privileged information, integrity of data, and authorship.

| Total Hours: 120-121 |     | 14 | | 17 |

INTDSC 1003 is required only for first-time freshman and transfer students with less that 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

### Biology BS/MS Dual Degree Program

**BS/MS Dual Degree Program in Biology**

The BS/MS ("2+3") Biology program is an accelerated program that allows students of appropriate academic ability and maturity to complete both a BS and a MS in Biology in five years of full time study. The program allows students to apply 12 of the 30 MS credit hours towards the BS (per the approval of the College of Arts and Sciences), reducing the overall required hours for the two degrees. Students will pay graduate credit hour tuition for all courses applied to the graduate degree. All other requirements for the BS and MS degrees remain in effect.

### Admission Requirements

Students interested in this program must go through a two-step admission process. First, applicants for Provisional Status must have completed all courses in the biology, chemistry, math and physics cores of the BS Biology program. Applicants should have completed all of the general education requirements. Applicants must also have a minimum GPA of 3.0 (both overall and in science courses) and must submit at least two letters of recommendation (one instructor and one academic advisor is recommended). The second step of the admission process is the transition from Provisional status to formal graduate status. Admission requirements for formal graduate status are the same as for the traditional MS program.

### Awarding of Degrees

Both degrees (the BS and MS) will be awarded when all requirements for the entire program have been completed. In other words, the BS and MS degrees will be simultaneously awarded at the completion of study. Students who officially withdraw from the BS/MS Dual Biology Degree Program and who have successfully completed all of the requirements for the BS degree will be awarded the BS degree.

### Biology Minor

Students may minor in biology by completing a minimum of 19 credit hours in biology, of which at least 9 hours of the biology course credits must be taken in residence at UMSL.

**Requirements are:**

- BIOL 1821 Introductory Biology: Organisms and the Environment (MOTR BIOL 150L) 5
- BIOL 1831 Introductory Biology: From Molecules to Organisms (MOTR BIOL 150L) 5
- BIOL 2012 Genetics 3
- Two additional courses totaling no less than 6 credit hours. At least one course should be at the 3000 level or above. 6

**Total Hours** 19

All students must plan an appropriate course of study in consultation with an advisor, and the program must be given prior approval by the Chairperson of the Department of Biology. Under certain circumstances, a student may deviate from the prescribed course of study and substitute a group of courses that exhibit a coherent area of specialization to coordinate with a career objective.
Candidates must have a cumulative grade point average of 2.0 or better in the minor, courses may be taken on a satisfactory/unsatisfactory (s/u) basis.

**Learning Outcomes**

**Foundational Knowledge**

Students with a minor in biology will demonstrate an understanding of the fundamental principles of biology including the structure and function of cells and their components, heredity and variation in populations, and evolution.

**Laboratory Skills**

Minors will acquire a basic understanding of how the scientific method is employed for research.

**Biology MS**

**Advisors**

All graduate students will have a faculty advisor. In the event that a student's interest changes or the faculty advisor feels the student's direction no longer falls with his/her area of expertise, the student and advisor should discuss whether a change of advisor is warranted. The graduate director must be notified in writing of any change in advisors. If a student or advisor is uncomfortable discussing the issue directly with the other, he/she is encouraged to meet with the director of the graduate program.

**Graduate Assistantships**

Stipends for teaching and research assistantships are awarded on a competitive basis to qualified graduate students in masters or PhD Programs. Tuition fees are waived for graduate assistants. Applications for assistantships must be sent to the Director of Graduate Studies in the Department of Biology and received by December 15.

The Department of Biology offers three ways of achieving the Master of Science degree. The first is a 30 credit hour non-thesis option suitable for those who may already have extensive research experience, for educators who seek to upgrade their academic skills but do not require research experience, or for those who need to broaden their biological background. The second is a 32 credit hour Professional Science track that includes a strong business component for students who are interested in learning more about the business aspects of companies. This track may not be appropriate for students who are interested in pursuing a PhD or working primarily as laboratory scientists. The third is a 30 credit hour traditional apprenticeship in research leading to a written thesis. All students admitted to the graduate program are considered to be in the non-thesis program unless they have been accepted into an individual faculty lab. Starting with a common core, both the thesis and non-thesis option may be developed into a final degree program in either of two broad areas in biology:

1. Cell and Molecular Biology or

Non-thesis students may also elect to take courses in both areas. Only the non-thesis option is available in the Professional Science emphasis.

**M.S. Admission Requirements**

Applicants to the M.S. program must submit completed application and personal data forms, three letters of recommendation from undergraduate faculty or work supervisors, and transcripts of all previous work. Submission of Graduate Record Examination scores, although not required, is highly recommended and will be helpful for positive consideration of admittance. Admission as a regular graduate student requires graduation from an accredited college with a minimum grade point average of 3.0 (where A = 4.0).

All foreign applicants, except those from countries where English is the primary language, must take the TOEFL. Ordinarily, a score of 213 on the computer-based exam (550 on the paper-based exam) or better is required.

In addition to the Graduate School admission requirements, applicants should have completed advanced undergraduate biology courses including genetics, biochemistry, and evolution. Courses in organic chemistry, college physics, and calculus are also expected, and a course in statistics is highly recommended.

Students admitted to the degree program who have not met some of the prerequisites may be asked to pass appropriate courses before graduating. These courses will be agreed upon by the student's advisor and the student during the first semester of enrollment. In particular, undergraduate deficiencies in genetics and either biochemistry or evolution shall be made up by taking the appropriate course(s). Three credits of BIOL 4920 Selected Topics can be given to graduate students for BIOL 2012 (Genetics) or BIOL 3302 (Evolution), if they receive a grade of B or better for all undergraduate course work and complete a graduate level paper assigned by the instructor. Instructor consent is required.

**General Requirements**

All students are required to take at least 4 but not more than 8 hours of BIOL 6889, Graduate Seminar. However, Professional Science masters students must take only 4 credit hours total of BIOL 6889. Thesis students are required to take BIOL 5179, Ethical Issues in Biology. Students are expected to maintain a GPA of 3.0 or better. Students may choose to specialize in either Cellular and Molecular Biology (CMB) emphasis area or the Ecology, Evolution and Systematics (EES) emphasis area, and appropriate courses in each area will be recommended by the student’s advisor. The Professional Science emphasis area in CMB has specific course requirements that are described below.

**Non-thesis Option**

Including the general requirement, students must take at least 30 graduate credit hours, of which at least half must be at the 5000 or 6000 level. No more than 5 hours of BIOL 6905, Graduate Research, may be counted toward the degree.

**Thesis Option**

The student and adviser work together to develop a research plan. The thesis proposal must be approved by the student's adviser and advisory committee before the student enrolls in more than 4 credit hours of BIOL 6905, Graduate Research, and before the student has completed 15 credit hours in the master's program. No more than 13 hours of BIOL 6905, Graduate Research, may be counted toward 30 hours of the degree. A thesis embodying results of original research shall be submitted to and approved by the Department of Biology and the Graduate School. This approval requires both a written thesis and oral presentation and defense.
Biology MS, Cellular and Molecular Biology Emphasis

The Department of Biology offers three ways of achieving the Master of Science degree. The first is a 30 credit hour non-thesis option suitable for those who may already have extensive research experience, for educators who seek to upgrade their academic skills but do not require research experience, or for those who need to broaden their biological background. The second is a 32 credit hour Professional Science track that includes a strong business component for students who are interested in learning more about the business aspects of companies. This track may not be appropriate for students who are interested in pursuing a PhD or working primarily as laboratory scientists. The third is a 30 credit hour traditional apprenticeship in research leading to a written thesis. All students admitted to the graduate program are considered to be in the non-thesis program unless they have been accepted into an individual faculty lab. Starting with a common core, both the thesis and non-thesis option may be developed into a final degree program in either of two broad areas in biology:

1. Cell and Molecular Biology or

Non-thesis students may also elect to take courses in both areas. Only the non-thesis option is available in the Professional Science emphasis.

M.S. Admission Requirements

Applicants to the M.S. program must submit completed application and personal data forms, three letters of recommendation from undergraduate faculty or work supervisors, and transcripts of all previous work. Submission of Graduate Record Examination scores, although not required, is highly recommended and will be helpful for positive consideration of admittance. Admission as a regular graduate student requires graduation from an accredited college with a minimum grade point average overall and in biology courses of 3.0 (where A = 4.0).

All foreign applicants, except those from countries where English is the primary language, must take the TOEFL. Ordinarily, a score of 213 on the computer-based exam (550 on the paper-based exam) or better is required.

In addition to the Graduate School admission requirements, applicants should have completed advanced undergraduate biology courses including genetics, biochemistry, and evolution. Courses in organic chemistry, college physics, and calculus are also expected, and a course in statistics is highly recommended.

Students admitted to the degree program who have not met some of the prerequisites may be asked to pass appropriate courses before graduating. These courses will be agreed upon by the student's advisor and the student during the first semester of enrollment. In particular, undergraduate deficiencies in genetics and either biochemistry or evolution shall be made up by taking the appropriate course(s). Three credits of BIOL 4920 Selected Topics can be given to graduate students for BIOL 2012 (Genetics) or BIOL 3302 (Evolution), if they receive a grade of B or better for all undergraduate course work and complete a graduate level paper assigned by the instructor. Instructor consent is required.

General Requirements

All students are required to take at least 4 but not more than 8 hours of BIOL 6889, Graduate Seminar. However, Professional Science masters students must take only 4 credit hours total of BIOL 6889. Thesis students are required to take BIOL 5179, Ethical Issues in Biology. Students are expected to maintain a GPA of 3.0 or better. Students may choose to specialize in either Cellular and Molecular Biology (CMB) emphasis area or the Ecology, Evolution and Systematics (EES) emphasis area, and appropriate courses in each area will be recommended by the student's advisor. The Professional Science emphasis area in CMB has specific course requirements that are described below.

Non-thesis Option

Including the general requirement, students must take at least 30 graduate credit hours, of which at least half must be at the 5000 or 6000 level. No more than 5 hours of BIOL 6905, Graduate Research, may be counted toward the degree.

Thesis Option

The student and adviser work together to develop a research plan. The thesis proposal must be approved by the student's adviser and advisory committee before the student enrolls in more than 4 credit hours of BIOL 6905, Graduate Research, and before the student has completed 15 credit hours in the master's program. No more than 13 hours of BIOL 6905, Graduate Research, may be counted toward 30 hours of the degree. A thesis embodying results of original research shall be submitted to and approved by the Department of Biology and the Graduate School. This approval requires both a written thesis and oral presentation and defense.

Biology MS, Ecology Evolution and Systematics Emphasis

The Department of Biology offers three ways of achieving the Master of Science degree. The first is a 30 credit hour non-thesis option suitable for those who may already have extensive research experience, for educators who seek to upgrade their academic skills but do not require research experience, or for those who need to broaden their biological background. The second is a 32 credit hour Professional Science track that includes a strong business component for students who are interested in learning more about the business aspects of companies. This track may not be appropriate for students who are interested in pursuing a PhD or working primarily as laboratory scientists. The third is a 30 credit hour traditional apprenticeship in research leading to a written thesis. All students admitted to the graduate program are considered to be in the non-thesis program unless they have been accepted into an individual faculty lab. Starting with a common core, both the thesis and non-thesis option may be developed into a final degree program in either of two broad areas in biology:

1. Cell and Molecular Biology or

Non-thesis students may also elect to take courses in both areas. Only the non-thesis option is available in the Professional Science emphasis.

M.S. Admission Requirements

Applicants to the M.S. program must submit completed application and personal data forms, three letters of recommendation from undergraduate faculty or work supervisors, and transcripts of all previous work. Submission of Graduate Record Examination scores, although not required, is highly recommended and will be helpful for positive consideration of admittance. Admission as a regular graduate student
requires graduation from an accredited college with a minimum grade point average overall and in biology courses of 3.0 (where A = 4.0).

All foreign applicants, except those from countries where English is the primary language, must take the TOEFL. Ordinarily, a score of 213 on the computer-based exam (550 on the paper-based exam) or better is required.

In addition to the Graduate School admission requirements, applicants should have completed advanced undergraduate biology courses including genetics, biochemistry, and evolution. Courses in organic chemistry, college physics, and calculus are also expected, and a course in statistics is highly recommended.

Students admitted to the degree program who have not met some of the prerequisites may be asked to pass appropriate courses before graduating. These courses will be agreed upon by the student's advisor and the student during the first semester of enrollment. In particular, undergraduate deficiencies in genetics and either biochemistry or evolution shall be made up by taking the appropriate course(s). Three credits of BIOL 4920 Selected Topics can be given to graduate students for BIOL 2012 (Genetics) or BIOL 3302 (Evolution), if they receive a grade of B or better for all undergraduate course work and complete a graduate level paper assigned by the instructor. Instructor consent is required.

General Requirements
All students are required to take at least 4 but not more than 8 hours of BIOL 6889, Graduate Seminar. However, Professional Science masters students must take only 4 credit hours total of BIOL 6889. Thesis students are required to take BIOL 5179, Ethical Issues in Biology. Students are expected to maintain a GPA of 3.0 or better. Students may choose to specialize in either Cellular and Molecular Biology (CMB) emphasis area or the Ecology, Evolution and Systematics (EES) emphasis area, and appropriate courses in each area will be recommended by the student's advisor. The Professional Science emphasis area in CMB has specific course requirements that are described below.

Non-thesis Option
Including the general requirement, students must take at least 30 graduate credit hours, of which at least half must be at the 5000 or 6000 level. No more than 5 hours of BIOL 6905, Graduate Research, may be counted toward the degree.

Thesis Option
The student and adviser work together to develop a research plan. The thesis proposal must be approved by the student's adviser and advisory committee before the student enrolls in more than 4 credit hours of BIOL 6905, Graduate Research, and before the student has completed 15 credit hours in the master's program. No more than 13 hours of BIOL 6905, Graduate Research, may be counted toward 30 hours of the degree. A thesis embodying results of original research shall be submitted to and approved by the Department of Biology and the Graduate School. This approval requires both a written thesis and oral presentation and defense.

### Biology MS, Professional Science in Cellular and Molecular Biology Emphasis

This Master of Science in Biology with the Professional Science in Cellular and Molecular Biology emphasis requires a total of 32 credit hours, of which at least half must be at the 5000-level or above. Students will take 21 credit hours in Biology, 9 hours in business courses, and 2 credit hours of internship/practicum. Professional Science students: 1) must take 2 seminars (4 credit hours total) of BIOL 6889, 2) are limited to a maximum of 2 credit hours of Topics in Cellular and Molecular Biology (BIOL 5069) and 3) cannot count any hours of Graduate Research (BIOL 6905) as part of the 32 credit hour total.

The requirements for all Ph.D. students include:

- enrollment.
- orientation meetings conducted prior to the start of the second semester.
- courses taken elsewhere will be considered for transfer credit during orientation meetings by the graduate committee and by the Graduate School. Graduate credit for course work transferred from another program is subject to approval while in residence at the University of Missouri-St. Louis. Graduate credit is available for graduate credit. At least 31 of the 60 hours must be taken in the designated departments. Courses in biology at the 3000 level and below are not available for credit.

- Max of 2 credit hours.

### Biology PhD, Cell and Molecular Biology Emphasis

The doctoral program emphasizes empirical and theoretical approaches to biological research. Students are required to integrate basic skills in biology with focal studies in an emphasis area. The program is designed to provide research experience and training appropriate for advanced positions in academic research and teaching, government and public agencies, and industry.

#### Admission Requirements

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in Biology only after they have formally applied for admission through the Graduate School. Applications may be completed on-line.

In addition to Graduate School admission requirements, applicants to the Ph.D. in Biology program must submit three letters of recommendation submitted from individuals able to comment on academic potential (such as faculty members at previously attended colleges or universities) and transcripts of all postsecondary academic work. We encourage GRE scores (Verbal, Quantitative, and Analytical) to be sent as well; however, these are not required. Admission to the Ph.D. program normally requires a minimum grade point average overall and in biology courses of 3.0 (where A=4.0). Applicants from countries where English is not a primary language are required to meet the language requirements set by UMSL Global. Scores must be submitted before admission can be decided.

Applicants should have a bachelor's or M.S. degree from an accredited United States college or university or evidence of equivalent training at an accredited institution outside the United States. They should have the appropriate background for graduate work in biology, including courses in genetics, biochemistry, and evolution. Courses in organic chemistry, college physics, and calculus are expected. Students admitted to the Ph.D. program who have not met all the prerequisites may be required to make up deficiencies before admission to candidacy. The deficiencies will be decided during orientation meetings prior to the start of the second semester.

### Degree Requirements

In addition to the general requirements of the Graduate School, the basic requirements for the Ph.D. degree in Biology include 60 graduate credit hours. At least 30 of the 60 hours must be taken at the 5000 or 6000 level. With the explicit consent of the graduate committee, students may take for graduate credit up to 3 credit hours of 3000 level courses in allied departments. Courses in biology at the 3000 level and below are not available for credit. At least 31 of the 60 hours must be taken while in residence at the University of Missouri-St. Louis. Graduate credit for course work transferred from another program is subject to approval by the graduate committee and by the Graduate School. Graduate courses taken elsewhere will be considered for transfer credit during orientation meetings conducted prior to the start of the second semester of enrollment.

The requirements for all Ph.D. students include:

#### Coursework

- At least 30 credits of course work, including the following required courses (20 credits total)

<table>

#### Total Hours

20

- Up to 30 credits of graduate research (BIOL 6905)

The maximum number of credit hours that may be applied toward the 60-hour requirement is limited as stated below:

- BIOL 6889, Graduate Seminar: 10 hours
- BIOL 6905, Graduate Research: 30 hours

The department also offers five 1-credit journal-club-style classes, focusing on different topics. A maximum of six credits from this group of courses can be applied towards the degree:

</tr>
</tbody>
</table>

#### Emphasis areas

Each Ph.D. student should select one of three emphasis areas, and choose at least six credit hours of appropriate elective courses to fit this area in consultation with their advisor. These emphases include Ecology, Evolution, and Behavior (EEB), Cellular and Molecular Biology (CMB), or Integrative Biology (IB), which would involve a combination of coursework from both of the previous emphases. Other courses may be included as electives with prior approval of the program coordinator.

examination may be taken earlier. Alternatively, those who require extra experience or an especially strong undergraduate preparation, the third year of graduate school. When a candidate has prior graduate and oral component, which will normally be taken in the fall semester of

All students must pass a qualifying examination, consisting of a written and oral component, which will normally be taken in the fall semester of the third year of graduate school. When a candidate has prior graduate experience or an especially strong undergraduate preparation, the examination may be taken earlier. Alternatively, those who require extra time due to a high load of language classes or missing prerequisite courses may petition for a one-time extension.

**Admission to Candidacy**

To be admitted to candidacy, students must satisfy the requirements of the Graduate School, which includes passing all qualifying examinations and completing all required course work.

**Dissertation Proposal**

All students must defend orally a written dissertation proposal to their dissertation committee. After successful defense, the proposal must be submitted to the director of graduate studies in biology and approved by the Graduate School. The proposal is to be successfully defended by the end of the sixth semester.

**Dissertation**

A dissertation embodying the results of original research shall be submitted to and approved by the Department of Biology and the Graduate School. The general regulations of the Graduate School concerning the preparation of the dissertation must be met. These rules include a public oral defense of the written dissertation. Dissertations are to be presented in a style appropriate for one or more publications in scientific journals.

**Teaching**

At least one semester of supervised teaching is required of all doctoral students.

**Biology PhD, Ecology, Evolution and Behavior Emphasis**

The doctoral program emphasizes empirical and theoretical approaches to biological research. Students are required to integrate basic skills in biology with focal studies in an emphasis area. The program is designed to provide research experience and training appropriate for advanced positions in academic research and teaching, government and public agencies, and industry.

**Admission Requirements**

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in Biology only after they have formally applied for admission through the Graduate School. Applications may be completed on-line.

In addition to Graduate School admission requirements, applicants to the Ph.D. in Biology program must submit three letters of recommendation submitted from individuals able to comment on academic potential (such as faculty members at previously attended colleges or universities) and transcripts of all postsecondary academic work. We encourage GRE scores (Verbal, Quantitative, and Analytical) to be sent as well; however these are not required. Admission to the Ph.D. program normally requires a minimum grade point average overall and in biology courses of 3.0 (where A=4.0). Applicants from countries where English is not a primary language are required to meet the language requirements set by UMSL Global. Scores must be submitted before admission can be decided.

Applicants should have a bachelor’s or M.S. degree from an accredited United States college or university or evidence of equivalent training at an accredited institution outside the United States. They should have the appropriate background for graduate work in biology, including courses

| BIOL 6632 | Advanced Nucleic Acid Structure and Function | 3 |
| BIOL 6642 | Advanced Plant Biology and Biotechnology | 3 |
| BIOL 6652 | Advanced Virology | 3 |

**Maintenance of Status**

All students are expected to maintain a GPA of 3.0 or better. To maintain their status in the program, normally students will formally each year with their thesis committee, or if that has not been formed yet, with their dissertation advisor.

**Identifying a Dissertation Advisor**

All PhD students must identify a dissertation advisor, via mutual consent between the student and the advisor. Students entering the program with an agreement in hand may join the lab in their first semester (this is more common for the EEB emphasis). Alternatively, students entering the program may rotate through three labs to identify a permanent lab and advisor (more common for the CMB emphasis). Additionally, students are expected to work with their advisor to assemble their dissertation committee by the end of the 2nd year.

In the event that a student’s interest changes or the dissertation advisor feels the student’s direction no longer falls with his/her area of expertise, the student and advisor should discuss whether a change of advisor is warranted. The graduate director must be notified in writing of any change in advisors. If a student or advisor is uncomfortable discussing the issue directly with the other, he/she is encouraged to meet with the director of the graduate program. If a student is unable to identify an advisor, they may be dismissed from the PhD program, typically with the option of completing an MS degree.

**Qualifying Examination**

All students must pass a qualifying examination, consisting of a written and oral component, which will normally be taken in the fall semester of the third year of graduate school. When a candidate has prior graduate experience or an especially strong undergraduate preparation, the examination may be taken earlier. Alternatively, those who require extra
in genetics, biochemistry, and evolution. Courses in organic chemistry, college physics, and calculus are expected. Students admitted to the Ph.D. program who have not met all the prerequisites may be required to make up deficiencies before admission to candidacy. The deficiencies will be decided during orientation meetings prior to the start of the second semester.

### Degree Requirements

In addition to the general requirements of the Graduate School, the basic requirements for the Ph.D. degree in Biology include 60 graduate credit hours. At least 30 of the 60 hours must be taken at the 5000 or 6000 level. With the explicit consent of the graduate committee, students may take for graduate credit up to 3 credit hours of 3000 level courses in allied departments. Courses in biology at the 3000 level and below are not available for graduate credit. At least 31 of the 60 hours must be taken while in residence at the University of Missouri-St. Louis. Graduate credit for course work transferred from another program is subject to approval by the graduate committee and by the Graduate School. Graduate courses taken elsewhere will be considered for transfer credit during orientation meetings conducted prior to the start of the second semester of enrollment.

### Maintenance of Status

All students are expected to maintain a GPA of 3.0 or better. To maintain their status in the program, normally students will meet formally each year with their thesis committee, or if that has not been formed yet, with their dissertation advisor.
Identifying a Dissertation Advisor

All PhD students must identify a dissertation advisor, via mutual consent between the student and the advisor. Students entering the program with an agreement in hand may join the lab in their first semester (this is more common for the EEB emphasis). Alternatively, students entering the program may rotate through three labs to identify a permanent lab and advisor (more common for the CMB emphasis). Additionally, students are expected to work with their advisor to assemble their dissertation committee by the end of the 2nd year.

In the event that a student's interest changes or the dissertation advisor feels the student's direction no longer falls with his/her area of expertise, the student and advisor should discuss whether a change of advisor is warranted. The graduate director must be notified in writing of any change in advisors. If a student or advisor is uncomfortable discussing the issue directly with the other, he/she is encouraged to meet with the director of the graduate program. If a student is unable to identify an advisor, they may be dismissed from the PhD program, typically with the option of completing an MS degree.

Qualifying Examination

All students must pass a qualifying examination, consisting of a written and oral component, which will normally be taken in the fall semester of the third year of graduate school. When a candidate has prior graduate experience or an especially strong undergraduate preparation, the examination may be taken earlier. Alternatively, those who require extra time due to a high load of language classes or missing prerequisite courses may petition for a one-time extension.

Admission to Candidacy

To be admitted to candidacy, students must satisfy the requirements of the Graduate School, which includes passing all qualifying examinations and completing all required course work.

Dissertation Proposal

All students must defend orally a written dissertation proposal to their dissertation committee. After successful defense, the proposal must be submitted to the director of graduate studies in biology and approved by the Graduate School. The proposal is to be successfully defended by the end of the sixth semester.

Dissertation

A dissertation embodying the results of original research shall be submitted to and approved by the Department of Biology and the Graduate School. The general regulations of the Graduate School concerning the preparation of the dissertation must be met. These rules include a public oral defense of the written dissertation. Dissertations are to be presented in a style appropriate for one or more publications in scientific journals.

Teaching

At least one semester of supervised teaching is required of all doctoral students.

Biology PhD, Integrative Biology Emphasis

The doctoral program emphasizes empirical and theoretical approaches to biological research. Students are required to integrate basic skills in biology with focal studies in an emphasis area. The program is designed to provide research experience and training appropriate for advanced positions in academic research and teaching, government and public agencies, and industry.

Admission Requirements

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in Biology only after they have formally applied for admission through the Graduate School. Applications may be completed on-line.

In addition to Graduate School admission requirements, applicants to the Ph.D. in Biology program must submit three letters of recommendation submitted from individuals able to comment on academic potential (such as faculty members at previously attended colleges or universities) and transcripts of all postsecondary academic work. We encourage GRE scores (Verbal, Quantitative, and Analytical) to be sent as well; however these are not required. Admission to the Ph.D. program normally requires a minimum grade point average overall and in biology courses of 3.0 (where A=4.0). Applicants from countries where English is not a primary language are required to meet the language requirements set by UMSL Global. Scores must be submitted before admission can be decided.

Applicants should have a bachelor's or M.S. degree from an accredited United States college or university or evidence of equivalent training at an accredited institution outside the United States. They should have the appropriate background for graduate work in biology, including courses in genetics, biochemistry, and evolution. Courses in organic chemistry, college physics, and calculus are expected. Students admitted to the Ph.D. program who have not met all the prerequisites may be required to make up deficiencies before admission to candidacy. The deficiencies will be decided during orientation meetings prior to the start of the second semester.

Degree Requirements

In addition to the general requirements of the Graduate School, the basic requirements for the Ph.D. degree in Biology include 60 graduate credit hours. At least 30 of the 60 hours must be taken at the 5000 or 6000 level. With the explicit consent of the graduate committee, students may take for graduate credit up to 3 credit hours of 3000 level courses in allied departments. Courses in biology at the 3000 level and below are not available for graduate credit. At least 31 of the 60 hours must be taken while in residence at the University of Missouri-St. Louis. Graduate credit for course work transferred from another program is subject to approval by the graduate committee and by the Graduate School. Graduate courses taken elsewhere will be considered for transfer credit during orientation meetings conducted prior to the start of the second semester of enrollment.

The requirements for all Ph.D. students include:

Coursework

- At least 30 credits of course work, including the following required courses (20 credits total)

<table>
<thead>
<tr>

Biology PhD, Integrative Biology Emphasis

BIOL 5012 Advanced Genetics 3
BIOL 5302 Advanced Evolution 3

Total Hours 20

- Up to 30 credits of graduate research (BIOL 6905)

The maximum number of credit hours that may be applied toward the 60-hour requirement is limited as stated below:

- BIOL 6889, Graduate Seminar: 10 hours
- BIOL 6905, Graduate Research: 30 hours

The department also offers five 1-credit journal-club-style classes, focusing on different topics. A maximum of six credits from this group of courses can be applied towards the degree:

BIOL 5059 Topics in Ecology, Evolution, and Systematics 1
BIOL 5069 Topics in Cellular and Molecular Biology 1
BIOL 5079 Topics in Floristic Taxonomy 1
BIOL 5089 Topics in Animal Behavior 1
BIOL 5099 Biology Colloquium 1

Emphasis areas

Each Ph.D. student should select one of three emphasis areas, and choose at least six credit hours of appropriate elective courses to fit this area in consultation with their advisor. These emphases include Ecology, Evolution, and Behavior (EEB), Cellular and Molecular Biology (CMB), or Integrative Biology (IB), which would involve a combination of coursework from both of the previous emphases. Other courses may be included as electives with prior approval of the program coordinator.

Ecology, Evolution and Behavior Electives

BIOL 5192 Community Ecology 3
BIOL 5312 Theory of Systematics 3
BIOL 6102 Advanced Topics in Behavioral Ecology 3
BIOL 6182 Advanced Population Biology 3
BIOL 6502 Advanced Evolution of Cognition 3

Cellular and Molecular Biology Electives

BIOL 6442 Advanced Developmental Biology 3
BIOL 6550 Advanced Bacterial Pathogenesis 3
BIOL 6602 Advanced Molecular Biology 3
BIOL 6608 Advanced Synthetic Biology 3
BIOL 6615 Advanced Biotechnology Laboratory II 4
BIOL 6622 Advanced Cellular Basis of Disease 3
BIOL 6632 Advanced Nucleic Acid Structure and Function 3
BIOL 6642 Advanced Plant Biology and Biotechnology 3
BIOL 6652 Advanced Virology 3

Integrative Biology Electives

BIOL 5192 Community Ecology 3
BIOL 5312 Theory of Systematics 3

BIOL 6102 Advanced Topics in Behavioral Ecology 3
BIOL 6182 Advanced Population Biology 3
BIOL 6502 Advanced Evolution of Cognition 3
BIOL 6608 Advanced Synthetic Biology 3
BIOL 6615 Advanced Biotechnology Laboratory II 4
BIOL 6622 Advanced Cellular Basis of Disease 3
BIOL 6632 Advanced Nucleic Acid Structure and Function 3
BIOL 6642 Advanced Plant Biology and Biotechnology 3
BIOL 6652 Advanced Virology 3

Maintenance of Status

All students are expected to maintain a GPA of 3.0 or better. To maintain their status in the program, normally students will meet formally each year with their thesis committee, or if that has not been formed yet, with their dissertation advisor.

Identifying a Dissertation Advisor

All PhD students must identify a dissertation advisor, via mutual consent between the student and the advisor. Students entering the program with an agreement in hand may join the lab in their first semester (this is more common for the EEB emphasis). Alternatively, students entering the program may rotate through three labs to identify a permanent lab and advisor (more common for the CMB emphasis). Additionally, students are expected to work with their advisor to assemble their dissertation committee by the end of the 2nd year.

In the event that a student’s interest changes or the dissertation advisor feels the student’s direction no longer falls with his/her area of expertise, the student and advisor should discuss whether a change of advisor is warranted. The graduate director must be notified in writing of any change in advisors. If a student or advisor is uncomfortable discussing the issue directly with the other, he/she is encouraged to meet with the director of the graduate program. If a student is unable to identify an advisor, they may be dismissed from the PhD program, typically with the option of completing an MS degree.

Qualifying Examination

All students must pass a qualifying examination, consisting of a written and oral component, which will normally be taken in the fall semester of the third year of graduate school. When a candidate has prior graduate experience or an especially strong undergraduate preparation, the examination may be taken earlier. Alternatively, those who require extra time due to a high load of language classes or missing prerequisite courses may petition for a one-time extension.

Admission to Candidacy

To be admitted to candidacy, students must satisfy the requirements of the Graduate School, which includes passing all qualifying examinations and completing all required course work.

Dissertation Proposal

All students must defend orally a written dissertation proposal to their dissertation committee. After successful defense, the proposal must be submitted to the director of graduate studies in biology and approved by
The Graduate School. The proposal is to be successfully defended by the end of the sixth semester.

### Dissertation
A dissertation embodying the results of original research shall be submitted to and approved by the Department of Biology and the Graduate School. The general regulations of the Graduate School concerning the preparation of the dissertation must be met. These rules include a public oral defense of the written dissertation. Dissertations are to be presented in a style appropriate for one or more publications in scientific journals.

### Teaching
At least one semester of supervised teaching is required of all doctoral students.

### Biotechnology Graduate Certificate
The Graduate Certificate in Biotechnology is offered for students with a bachelor's degree who wish to obtain advanced level training in those fields of biology that pertain to biotechnology without necessarily earning a master's degree. Students who enter this program may have a variety of interests, including biochemistry, microbiology, molecular biology, cell biology, developmental biology, or molecular evolution.

### Admission
Students who wish to earn a Graduate Certificate in Biotechnology must apply to the Biotechnology Certificate Program for admission to the program. Students must be enrolled in the graduate program at the University of Missouri-St. Louis either as non-degree students or as master's students.

Students who wish to obtain a Master's degree with a Biotechnology Certificate must be accepted into the Master's degree program in Biology as well as into the Biotechnology Certificate Program. Students who apply to the certificate program as non-degree students will earn only the certificate.

Students must have at least a 3.0 GPA for undergraduate course work to be accepted into the program. The minimum course prerequisites for admission to the program are undergraduate courses in genetics, cell biology, and biochemistry.

### Requirements
Students must maintain a minimum GPA of 3.0 to remain in the certificate program. The certificate is awarded after completion of the courses listed below. Students enrolled in the Master's program may simultaneously earn a graduate degree and count the appropriate courses from the list below toward the Biotechnology Certificate.

The biotechnology certificate requires 18 credit hours of course work:

Upper Division Requirements

ENGL 3120 Business Writing 3

Upper Division Non-Business or Business Requirement

Two global awareness courses selected from an approved list maintained in the Office of Undergraduate Academic Advising in the College of Business Administration; also available on our web site.

Upper Division Business Requirements

ENT 3100 Applications of Entrepreneurship 3
FINANCE 3500 Financial Management 3
SCMA 3300 Business Analytics and Statistics 3
SCMA 3301 Introduction to Supply Chain Management 3
MGMT 3600 Management and Organizational Behavior 3
MGMT 4219 Strategic Management 3
MKTG 3700 Principles of Marketing 3
A minimum of 15 additional hours of upper division approved business electives 15

Total Hours 36

Course is required for BS Accounting and all BS Business Administration majors.

Assessment Requirement

MGMT 4220 Business Assessment Testing 0

General Business

For those undecided regarding a specific emphasis area, a general business degree option is available. Students must complete a minimum of 18 hours of upper division approved business electives (see comprehensive list of business courses in the course descriptions section of this publication)

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Articulate and apply foundational knowledge associated with core business disciplines (accounting, finance, supply chain management, marketing, information technology, and management). (Functional Business Knowledge)
- (a) Identify business problems and opportunities, (b) analyze relevant strategic, tactical, and operational options through qualitative and quantitative methods in order to (c) make recommendations and provide the rationale behind decisions. (Decision Making Skills)
- Identify and evaluate global business factors, including the opportunities, constraints and risks of operating across various country environments. (Global Orientation)
- Identify legal/ethical issues, assess impact, and decide on a socially responsible course of action. (Ethical Orientation)
- Students will be able to effectively communicate business issues, analyses and recommendations in written and oral presentations to stakeholders. (Business Communication Skills)
- Develop technological and quantitative skills, including those associated with statistics, data visualization and analysis, project management, social media, and those commensurate with their business specialization. (Technological Skills)
- Demonstrate interpersonal skills to collaborate within diverse teams, effectively engage with stakeholders in a professional manner, and develop leadership skills. (Interpersonal Skills)

Total Hours: 120

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor. All requirements are subject to change.

Business Administration BS, Entrepreneurship Emphasis

The Entrepreneurship emphasis area will focus on students acquiring knowledge, abilities, and skills enabling them to ultimately develop and successfully launch entrepreneurial ventures in small, medium sized, corporate, and not-for-profit organizational settings.
General Education Requirements

All Business majors must meet the university general education requirements (p. 48). As part of meeting the university’s general education requirements, all Business majors must complete the prerequisite courses below:

- ECON 1001: Principles of Microeconomics (MOTR ECON 102) 3
- ECON 1002: Principles of Macroeconomics (MOTR ECON 101) 3
- MATH 1030: College Algebra (MOTR MATH 130) 3
- MATH 1100: Basic Calculus 3
  or BUS AD 1107: Quantitative Methods for Business 3
- MATH 1105: Basic Probability and Statistics 3

Degree Requirements

All Business majors must meet College of Business G.P.A., good standing and credit requirements (p. 201) as outlined in the Bulletin.

Lower Division Business Core Requirements

- ACCTNG 2410: Managerial Accounting 3
- BUS AD 2900: Legal Environment of Business 3
- INFSYS 2800: Information Systems Concepts and Applications 3

Total Hours: 12

Upper Division Requirements

- ENGL 3120: Business Writing 3

Upper Division Non-Business or Business Requirement

Two global awareness courses selected from an approved list maintained in the Office of Undergraduate Academic Advising in the College of Business Administration; also available on our web site.

Upper Division Business Requirements

- ENT 3100: Applications of Entrepreneurship 3
- FINANCE 3500: Financial Management 3
- SCMA 3300: Business Analytics and Statistics 3
- SCMA 3301: Introduction to Supply Chain Management 3
- MGMT 3600: Management and Organizational Behavior 3
- MGMT 4219: Strategic Management 3
- MKTG 3700: Principles of Marketing 3

A minimum of 15 additional hours of upper division approved business electives 15

Total Hours: 36

1 Course is required for BS Accounting and all BS Business Administration majors.

Assessment Requirement

- MGMT 4220: Business Assessment Testing 0

Emphasis Area Requirements

Required Courses

- ENT 3100: Applications of Entrepreneurship 3
- ENT 4001: Accelerate Capstone 3

Elective

Choose four of the following courses: 2 12

- ENT 3140: Creativity and Systems for Innovation
- ENT 3150: Experiential Entrepreneurship
- ENT 4114/SCMA 4614: Entrepreneurship/Small Business Management
- ENT 3133/MKTG 3733
- ENT 4147/SCMA 4347
- ENT 3141
- ENT 3161: New Product Development
- FINANCE 3545: Seminar in Venture Capital and Private Equity

Total Hours: 18

1

ENT 3100 should be taken before any electives in the program.

2 Other elective courses may be taken with approval of program coordinator.

Learning Outcomes

Upon completion of the program, graduates should be able to:

- Articulate and apply foundational knowledge associated with core business disciplines (accounting, finance, supply chain management, marketing, information technology, and management). (Functional Business Knowledge)
- (a) Identify business problems and opportunities, (b) analyze relevant strategic, tactical, and operational options through qualitative and quantitative methods in order to (c) make recommendations and provide the rationale behind decisions. (Decision Making Skills)
- Identify and evaluate global business factors, including the opportunities, constraints and risks of operating across various country environments. (Global Orientation)
- Identify legal/ethical issues, assess impact, and decide on a socially responsible course of action. (Ethical Orientation)
- Students will be able to effectively communicate business issues, analyses and recommendations in written and oral presentations to stakeholders. (Business Communication Skills)
- Develop technological and quantitative skills, including those associated with statistics, data visualization and analysis, project management, social media, and those commensurate with their business specialization. (Technological Skills)
- Demonstrate interpersonal skills to collaborate within diverse teams, effectively engage with stakeholders in a professional manner, and develop leadership skills. (Interpersonal Skills)
- Utilize innovation and creativity tools and techniques to solve business and social problems.
• Describe how venture capital and private equity processes operate, and explain other sources of financing for entrepreneurial ventures.
• Demonstrate an entrepreneurial mindset by creating and launching a real-world business or social venture.
• Demonstrate expertise in applying methods and processes that support effective scaling of entrepreneurial ventures, including operational and strategic planning, project management techniques, and protecting technology.

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Business Administration BS, Finance Emphasis

General Education Requirements

All Business majors must meet the university general education requirements (p. 48). As part of meeting the university’s general education requirements, all Business majors must complete the prerequisite courses below:

- ECON 1001 Principles of Microeconomics (MOTR ECON 102) 3
- ECON 1002 Principles of Macroeconomics (MOTR ECON 101) 3
- MATH 1030 College Algebra (MOTR MATH 130) 3
- MATH 1100 Basic Calculus 3
  - or BUS AD 1107 Quantitative Methods for Business 3
- MATH 1105 Basic Probability and Statistics 3

Degree Requirements

All Business majors must meet College of Business G.P.A., good standing and credit requirements (p. 201) as outlined in the Bulletin.

Lower Division Business Core Requirements

- ACCTNG 2400 Fundamentals of Financial Accounting 3
- ACCTNG 2410 Managerial Accounting 3
- BUS AD 2900 Legal Environment of Business 3
- INFYS 2800 Information Systems Concepts and Applications 3

Total Hours: 12

Upper Division Requirements

- ENGL 3120 Business Writing 3

Upper Division Non-Business or Business Requirement

Two global awareness courses selected from an approved list maintained in the Office of Undergraduate Academic Advising in the College of Business Administration; also available on our web site.

Upper Division Business Requirements

- ENT 3100 Applications of Entrepreneurship 3
- FINANCE 3500 Financial Management 3
- SCMA 3300 Business Analytics and Statistics 3
- SCMA 3301 Introduction to Supply Chain Management 3
- MGMT 3600 Management and Organizational Behavior 3
- MGMT 4219 Strategic Management 3
- MKTG 3700 Principles of Marketing 3

A minimum of 15 additional hours of upper division approved business electives 15

Total Hours: 36
The specific tracks available include:

- Corporate Finance
- Financial Institutions and Services
- Investment and Portfolio Management

Information is available in the Office of Undergraduate Academic Advising.

Students may combine selected courses from the list above, and other specified upper division business electives, to fulfill a designated track with dual objectives of acquiring in depth knowledge, and to prepare and be eligible for various professional certification examinations. Detailed information is available in the Office of Undergraduate Academic Advising.

A minimum of 18 hours of upper division finance electives must be selected from the following:

### Emphasis in Finance

Finance is a multidisciplinary field that combines various concepts from management, economics and accounting with financial techniques to make sound business decisions and solve problems.

#### Learning Outcomes

Upon completion of the program, graduates will be able to:

- Articulate and apply foundational knowledge associated with core business disciplines (accounting, finance, supply chain management, marketing, information technology, and management). (Functional Business Knowledge)
- (a) Identify business problems and opportunities, (b) analyze relevant strategic, tactical, and operational options through qualitative and quantitative methods in order to (c) make recommendations and provide the rationale behind decisions. (Decision Making Skills)
- Identify and evaluate global business factors, including the opportunities, constraints and risks of operating across various country environments. (Global Orientation)
- Identify legal/ethical issues, assess impact, and decide on a socially responsible course of action. (Ethical Orientation)
- Students will be able to effectively communicate business issues, analyses and recommendations in written and oral presentations to stakeholders. (Business Communication Skills)
- Develop technological and quantitative skills, including those associated with statistics, data visualization and analysis, project management, social media, and those commensurate with their business specialization. (Technological Skills)
- Demonstrate interpersonal skills to collaborate within diverse teams, effectively engage with stakeholders in a professional manner, and develop leadership skills. (Interpersonal Skills)
- Explain and apply fundamental concepts in finance.
- Address corporate and investment issues by utilizing financial principles.
- Interpret and analyze financial data to evaluate firm performance.
- Apply financial tools and technologies to assist in real-life personal financial decision making and real estate investment.

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor. All requirements are subject to change.

Business Administration BS, Information Systems and Technology Emphasis

BSBA (IST emphasis) students will complement coursework in Business Administration with coursework in Information Systems and Technology (IST) to understand how business processes, people, and organizational design when complemented with IST can solve business problems and enable competitive advantage.

General Education Requirements

All Business majors must meet the university general education requirements (p. 48). As part of meeting the university’s general education requirements, all Business majors must complete the prerequisite courses below:

- ECON 1001  
  Principles of Microeconomics (MOTR ECON 102)  
  3

- ECON 1002  
  Principles of Macroeconomics (MOTR ECON 101)  
  3

- MATH 1030  
  College Algebra (MOTR MATH 130)  
  3

- MATH 1100  
  Basic Calculus  
  or BUS AD 1107  
  3

- MATH 1105  
  Basic Probability and Statistics  
  3

Degree Requirements

All Business majors must meet College of Business G.P.A., good standing and credit requirements (p. 201) as outlined in the Bulletin.

Lower Division Business Core Requirements

- ACCTNG 2400  
  Fundamentals of Financial Accounting  
  3

- ACCTNG 2410  
  Managerial Accounting  
  3

- BUS AD 2900  
  Legal Environment of Business  
  3

Business Administration BS, Marketing Emphasis

General Education Requirements
All Business majors must meet the university general education requirements (p. 48). As part of meeting the university’s general education requirements, all Business majors must complete the prerequisite courses below:

- ECON 1001 Principles of Microeconomics (MOTR ECON 102) 3
- ECON 1002 Principles of Macroeconomics (MOTR ECON 101) 3
- MATH 1030 College Algebra (MOTR MATH 130) 3
- MATH 1100 Basic Calculus 3
- MATH 1105 or BUS AD 1107 Quantitative Methods for Business 3

Degree Requirements
All Business majors must meet College of Business G.P.A., good standing and credit requirements (p. 201) as outlined in the Bulletin.

Lower Division Business Core Requirements

- ACCTNG 2400 Fundamentals of Financial Accounting 3
- ACCTNG 2410 Managerial Accounting 3
- BUS AD 2900 Legal Environment of Business 3
- INFYS 2800 Information Systems Concepts and Applications 3

Total Hours: 12

Please note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor. All requirements are subject to change.

**Total Hours: 120**
Upper Division Requirements

ENGL 3120 Business Writing 3

Upper Division Non-Business or Business Requirement

Two global awareness courses selected from an approved list maintained in the Office of Undergraduate Academic Advising in the College of Business Administration; also available on our web site.

Upper Division Business Requirements

ENT 3100 Applications of Entrepreneurship 1 3
FINANCE 3500 Financial Management 3
SCMA 3300 Business Analytics and Statistics 3
SCMA 3301 Introduction to Supply Chain Management 3
MGMT 3600 Management and Organizational Behavior 3
MGMT 4219 Strategic Management 3
MKTG 3700 Principles of Marketing 3
A minimum of 15 additional hours of upper division approved business electives 15

Total Hours 36

1 Course is required for BS Accounting and all BS Business Administration majors.

Assessment Requirement

MGMT 4220 Business Assessment Testing 0

Emphasis Area Requirements

Marketing involves the activities needed to facilitate an exchange. This includes selling products, services, or ideas to both individual consumers and business buyers.

MKTG 3740 Marketing Analysis 3
MKTG 4700 Marketing Management 3
Select four additional upper division courses from the following: 12
- Marketing (MKTG) courses at the 3000-level or higher
- SCMA 3300 Business Analytics and Statistics
- ENGL 3120 Business Writing
- INTDSC 1003
- INFSYS 1800
- BUS AD 1107 or MATH 1100
- BUS AD 2900
- INFSYS 2800
- EXPLORE - Humanities & Fine Arts
- EXPLORE - Humanities & Fine Arts
- EXPLORE - Humanities & Fine Arts
- EXPLORE - Humanities & Fine Arts
- INTDSC 1003

Total Hours 18

Marketing majors may choose to focus their electives in the area of digital and social media marketing and communications. This track is a group of departmental courses that will focus on the use of emerging technologies and platforms by which business use to communicate with and engage with their customers, prospects and vendors.

The Track in Digital and Social Media Marketing is comprised of the following courses:

MKTG 3721 Introduction to Digital Marketing Strategies 3
MKTG 3722 Introduction to Social Media Marketing 3

MKTG 3710 Consumer Behavior 3
MKTG 3720 Advertising and Promotion 3

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Articulate and apply foundational knowledge associated with core business disciplines (accounting, finance, supply chain management, marketing, information technology, and management). (Functional Business Knowledge)
- (a) Identify business problems and opportunities, (b) analyze relevant strategic, tactical, and operational options through qualitative and quantitative methods in order to (c) make recommendations and provide the rationale behind decisions. (Decision Making Skills)
- Identify and evaluate global business factors, including the opportunities, constraints and risks of operating across various country environments. (Global Orientation)
- Identify legal/ethical issues, assess impact, and decide on a socially responsible course of action. (Ethical Orientation)
- Students will be able to effectively communicate business issues, analyses and recommendations in written and oral presentations to stakeholders. (Business Communication Skills)
- Develop technological and quantitative skills, including those associated with statistics, data visualization and analysis, project management, social media, and those commensurate with their business specialization. (Technological Skills)
- Demonstrate interpersonal skills to collaborate within diverse teams, effectively engage with stakeholders in a professional manner, and develop leadership skills. (Interpersonal Skills)
- Students will be able to solve marketing related problems using qualitative and/or quantitative tools.
- Students will be able to demonstrate creativity in developing marketing communication plans (e.g., advertising, social media).
- Students will be able to develop marketing plans and execute marketing strategies.

**Total Hours: 36**

1 Course is required for BS Accounting and all BS Business Administration majors.

### Assessment Requirement

- **MGMT 4220**  Business Assessment Testing  0

### Emphasis Area Requirements

The study of supply chain management focuses on the whole supply chain from the acquisition of raw materials, through production or service delivery, to the point of consumption.

Twelve (12) credit hours are required of all individuals seeking an emphasis in Supply Chain Management:

- **SCMA 3320**  Advanced Supply Chain and Operations Management  3

Select three of the following courses:

- SCMA 3321  Procurement  3
- SCMA 3345  Predictive Analytics and Data Mining  3
- SCMA 3370/MKTG 3770  Introduction to Transportation  3
- SCMA 3371  Course SCMA 3371 Not Found  3
- SCMA 3376  Transportation Security and Risk  3
- SCMA 3390  Internship in Supply Chain and Analytics  3
- SCMA 3398  Seminar in Supply Chain Management and Analytics  3
- SCMA 3399  Independent Study in Supply Chain and Analytics  3
- SCMA 4322  Lean Production in Manufacturing and Service Operations  3
- SCMA 4325  Environmental Sustainability in Business Operations  3
- SCMA 4330  Business Logistics  3
- SCMA 4331  Applied Supply Chain Modeling  3
- SCMA 4347  Introduction to Project Management  3
Upon completion of the program, graduates will be able to:

Learning Outcomes

- Articulate and apply foundational knowledge associated with core business disciplines (accounting, finance, supply chain management, marketing, information technology, and management). (Functional Business Knowledge)
- (a) Identify business problems and opportunities, (b) analyze relevant strategic, tactical, and operational options through qualitative and quantitative methods in order to (c) make recommendations and provide the rationale behind decisions. (Decision Making Skills)
- Identify and evaluate global business factors, including the opportunities, constraints and risks of operating across various country environments. (Global Orientation)
- Identify legal/ethical issues, assess impact, and decide on a socially responsible course of action. (Ethical Orientation)
- Students will be able to effectively communicate business issues, analyses and recommendations in written and oral presentations to stakeholders. (Business Communication Skills)
- Develop technological and quantitative skills, including those associated with statistics, data visualization and analysis, project management, social media, and those commensurate with their business specialization. (Technological Skills)
- Demonstrate interpersonal skills to collaborate within diverse teams, effectively engage with stakeholders in a professional manner, and develop leadership skills. (Interpersonal Skills)
- Explain basic concepts in supply chain management related to areas such as purchasing, production, operations, logistics, integration and reverse supply chains.
- Apply descriptive, predictive and prescriptive analytics for decision-making in supply chains, such as demand planning, supply chain network design, production planning, inventory control and transportation.

Total Hours: 120

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor. All requirements are subject to change.

Business Administration BSBA/ MBA Dual Degree Program

The 2+3 combined BSBA/MBA program in Business Administration provides an opportunity for students of recognized academic ability and educational maturity to complete the requirements for both degrees in 5 years of full-time study. This program is available to UMSL students and students of partner universities with which UMSL has an established 2+3 Memorandum of Understanding. The combined program allows students to complete both the undergraduate and graduate degrees in Business Administration with a total of 138 credit hours instead of the typical 150 credit hours if the degrees were pursued separately. When
all the requirements of the BSBA/MBA program have been completed, students will be awarded both the BSBA and MBA degrees.

Admission Requirements

Students will apply to the 2+3 program for provisional status after they have completed 60 undergraduate credit hours with a grade point average of 3.0 or higher. After completion of the provisional period, upon recommendation of the Graduate Program Director, students can be granted formal admission into the 2+3 program, which involves admission to the Graduate School. After formal admission, the student will be classified as a graduate student, will pay graduate tuition for all subsequent courses, and must continue taking courses under graduate status until completion of the master’s degree. Students must maintain a grade point average of 3.0 or higher throughout the combined program.

Students on provisional status may request enrollment in up to 6 credit hours of 4000/5000/6000 level coursework to count towards their graduate degree, while in undergrad status, per the submission of the C1 form, and the approval of their advisor and the Director of Graduate Business Programs.

Applicants are considered for formal admission into the 2+3 program, if they meet the following four criteria:

1. earned at least 90 hours as an undergraduate;
2. have a minimum GPA of 3.0 since being granted provisional status;
3. have submitted at least one letter of recommendation from a College of Business Faculty member; and
4. have met with a Graduate Business Programs academic advisor.

Up to 12 hours of graduate coursework may be counted both to meet the 120 credit hours required for the Bachelor’s degree (p. 409) and to meet the requirements of the Master’s degree (p. 422). Students may resign from the 2+3 Program and apply for the Bachelor’s degree. However, once the Bachelor’s degree is awarded, the benefit of “double counting” courses will be lost. Any course used to meet a degree requirement for an undergraduate degree cannot be applied to a subsequent Master’s degree.

The courses which will be “double counted” for both degrees must be approved by both the Undergraduate and Graduate Program Directors. All other requirements for the BSBA degree remain in effect.

A waiver of GMAT requirement may be requested if applicants meet certain criteria. Please see petition to waive the GMAT: http://mba.umsl.edu/files/pdfs/GMAT-waiver.pdf.

Awarding of Degree

Both degrees (the BSBA and MBA) will be awarded when all requirements for the entire program have been completed. In other words, the BSBA and MBA degrees will be simultaneously awarded at the completion of study.

Note: The CPA exam and Accounting licensure requirements are not related to the BSBA/MBA degree requirements.

Business Administration Graduate Certificate

This is an 18-hour program designed to accommodate individuals with an undergraduate/graduate degree in a non-business field seeking core business knowledge. The program emphasizes coursework designed to cover the major disciplines within the field of business. Upon completion, the student will have knowledge of common business theories, practices, and procedures.

Program Description

The Graduate Certificate in Business Administration is designed for individuals with an undergraduate/graduate degree in non-business fields. It provides students a focused exposure to core business functions and contemporary business administration frameworks. Upon successful completion, students will have the core knowledge necessary to articulate and apply business administration principles and practices across functional domains.

All 12 credit-hours taken as part of this certificate program transfer to the MBA degree program.

Admission Requirements

Applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements.

Certificate Requirements

All course prerequisites and all course waivers are applicable. Substitute courses may be approved by the appropriate department chairperson and the Director of Graduate Business Programs.

Choose four of the following courses: 12

</tr>
</tbody>
</table>

Total Hours 12

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Apply theories and frameworks of business to analyze authentic contexts and business problems;
- Integrate core knowledge of and apply business administration principles and practices across the functional domains: finance, marketing, management, supply chain management and information systems.

Business Administration MBA

The Master of Business Administration (MBA) at the University of Missouri-St. Louis (UMSL) is a selective program designed to create business managers and leaders. The MBA at UMSL is fully accredited by the The Association to Advance Collegiate Schools of Business (AACSB) International, the premier accrediting body in collegiate business education.
The MBA program is designed for students with bachelor’s degrees from accredited institutions in fields such as the sciences, engineering, humanities, arts or business.

Students pursuing a Graduate Certificate in Business Administration may transfer all certificate program courses toward the MBA.

For more information go to: https://mba.umsl.edu

For students pursuing an emphasis, the following areas are available:

- Accounting (p. 424)
- Business Analytics (p. 425)
- Finance (p. 428)
- Information Systems and Technology (p. 429)
- International Business (p. 430)
- Management (p. 432)
- Marketing (p. 434)
- Supply Chain Management (p. 435)

**Admission Requirements**

The admission standards for all Graduate Business Programs (master programs and graduate certificates) are the same. To be eligible to apply, an applicant must hold a bachelor’s degree from an accredited college or university and show high promise of academic success.

Graduate Business Programs take a holistic approach when evaluating student applications. Grade point average (GPA), and professional experience are considered when making an admissions decision.

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in MBA only after they have formally applied for admission through the Graduate School.

**Degree Requirements**

Depending on the student’s previous background, programs will require a minimum of 30 hours. Coursework must be completed within a maximum six-year period. At least 2/3 of coursework must be taken while enrolled as an MBA candidate at UMSL.

All students must satisfy the following requirements in professional written and oral communication, business law and ethics/ and social responsibility, economics, and business statistics. The Graduate Business Office in collaboration with department chairs will determine whether a student satisfies these requirements. In general:

The Professional and Written Communications skills requirement can be satisfied by any one of the following:

- Evidence of prior coursework
- Completion of BUS AD 5100

The Business Law and Ethics/Social Responsibility requirements can be satisfied by any one of the following:

- Evidence of prior coursework
- Completion of BUS AD 5900

The Economics requirement can be satisfied by any one of the following:

- Evidence of prior coursework
- Completion of BUS AD 5000
- Completion of Economics boot camp

The Statistics requirement can be satisfied by any one of the following:

- Evidence of prior coursework
- Completion of SCMA 5300
- Completion of Statistics boot camp

**Assurance of Learning**

All MBA students are required to participate in the BUS AD 6991 Graduate Business Assessment Testing class during their last semester. This learning assessment course is not for credit.

**Business Core (18 credit hours)**

The following courses or their equivalents are required of all degree candidates:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCTNG 5400</td>
<td>Financial and Managerial Accounting</td>
<td>3</td>

<td>3</td>
</tr>
<tr>
<td>SCMA 5310</td>
<td>Supply Chain Strategies</td>
<td>3</td>
</tr>
</tbody>
</table>

Students with prior business degrees take advanced courses in each of the functional areas listed in the Business Core, as advised by the Graduate Business Advisors assigned to the students. Based on a formal review and evaluation by the Graduate Business Programs Office, students may be granted waivers in the Business Core section. Waivers depend on the applicability of, and performance in, prior coursework. Regardless of the number of courses waived, all students must complete at least 30 credit hours to earn the MBA degree.

**Strategic Management Required (3 credit hours)**

Take one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BUS AD 6990</td>
<td>Strategy Formulation And Implementation</td>

<td>International Business Strategies</td>
<td>3</td>
</tr>
<tr>
<td>MGMT 4614</td>
<td>Entrepreneurship/Small Business Management</td>
<td>3</td>
</tr>
</tbody>
</table>

Students with a non-business undergraduate degree are required to take BUS AD 6990 to satisfy the Strategic Management requirement.

**Electives (9 credit hours)**

Students may choose to pursue an Emphasis Area to satisfy the 9 credit hour Electives requirement or pursue an MBA with no emphasis area. No course may be used for more than one emphasis area. If no emphasis area is chosen, students have the flexibility to customize their MBA by choosing from a large collection of elective graduate courses within the College of Business Administration, in consultation with their Graduate Business academic advisor.
Learning Outcomes

Upon completion of the program, graduates will be able to:

• Demonstrate knowledge of core business content in accounting, finance, information systems, supply chain analytics, management, and marketing.
• Apply core business content and principles for effective business decision making.
• Demonstrate analytical skills to solve business problems and evaluate the conditions of corporations and markets.
• Effectively communicate business insights using oral and written formats.
• Identify legal/ethical issues and implications, and make informed decisions.
• Expand leadership skills to effectively engage with stakeholders in a professional manner.
• Demonstrate a global mindset needed to effectively navigate the interconnected nature of today’s business environment.

Business Administration MBA, Accounting Emphasis

Admission Requirements

The admission standards for all Graduate Business Programs (master programs and graduate certificates) are the same. To be eligible to apply, an applicant must hold a bachelor’s degree from an accredited college or university and show high promise of academic success.

Graduate Business Programs take a holistic approach when evaluating student applications. Grade point average (GPA), and professional experience are considered when making an admissions decision.

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in MBA only after they have formally applied for admission through the Graduate School.

Degree Requirements

Depending on the student’s previous background, programs will require a minimum of 30 hours. Coursework must be completed within a maximum six-year period. At least 2/3 of coursework must be taken while enrolled as an MBA candidate at UMSL.

All students must satisfy the following requirements in professional written and oral communication, business law and ethics/ and social responsibility, economics, and business statistics. The Graduate Business Office in collaboration with department chairs will determine whether a student satisfies these requirements. In general:

The Professional and Written Communications skills requirement can be satisfied by any one of the following:

• Evidence of prior coursework
• Completion of BUS AD 5100

The Business Law and Ethics/Social Responsibility requirements can be satisfied by any one of the following:

• Evidence of prior coursework
• Completion of BUS AD 5900

The Economics requirement can be satisfied by any one of the following:

• Evidence of prior coursework
• Completion of BUS AD 5000
• Completion of Economics boot camp

The Statistics requirement can be satisfied by any one of the following:

• Evidence of prior coursework
• Completion of SCMA 5300
• Completion of Statistics boot camp

Assurance of Learning

All MBA students are required to participate in the BUS AD 6991 Graduate Business Assessment Testing class during their last semester. This learning assessment course is not for credit.

Business Core (18 credit hours)

The following courses or their equivalents are required of all degree candidates. Students with prior business degrees take advanced courses in each of the functional areas listed in the Business Core, as advised by the Graduate Business Advisors assigned to the students. Based on a formal review and evaluation by the Graduate Business Programs Office, students may be granted waivers in the Business Core section. Waivers depend on the applicability of, and performance in, prior coursework. Regardless of the number of courses waived, all students must complete at least 30 credit hours to earn the MBA degree.

Strategic Management Required (3 credit hours)

Take one of the following:

• BUS AD 6990 Strategy Formulation And Implementation
• INTL BUS 5289 International Business Strategies
• MGMT 4614 Entrepreneurship/Small Business Management

Electives (9 credit hours)

Students may choose to pursue an Emphasis Area to satisfy the 9 credit hour Electives requirement or pursue an MBA with no emphasis area. No course may be used for more than one emphasis area. If no emphasis
area is chosen, students have the flexibility to customize their MBA by choosing from a large collection of elective graduate courses within the College of Business Administration, in consultation with their Graduate Business academic advisor.

**Emphasis Area Requirements**

Master of Business Administration (MBA) students seeking an emphasis in Accounting must complete a minimum of 9 hours of Accounting Electives beyond ACCTNG 5400 as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCTNG 5404</td>
<td>Professional Accountancy I</td>
<td>3</td>
</tr>
<tr>
<td>ACCTNG 5405</td>
<td>Professional Accountancy II</td>
<td>3</td>
</tr>
<tr>
<td>ACCTNG 5411</td>
<td>Cost Systems Analysis</td>
<td>3</td>
</tr>
<tr>
<td>or ACCTNG 5421</td>
<td>Information Systems in Accounting</td>
<td></td>
</tr>
<tr>
<td>or ACCTNG 5447</td>
<td>Taxation of Individuals and Businesses</td>
<td></td>
</tr>
</tbody>
</table>

**Total Hours** 9

Students that have completed equivalent courses to any of the above may choose:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCTNG 4401</td>
<td>Financial Accounting and Reporting III</td>
<td>3</td>
</tr>
<tr>
<td>ACCTNG 4402</td>
<td>Financial Accounting and Reporting IV</td>
<td>3</td>
</tr>
<tr>
<td>ACCTNG 4435</td>
<td>Auditing</td>
<td>3</td>
</tr>
</tbody>
</table>

Any other 5000-level course except ACCTNG 5400 and ACCTNG 5401

Students with an undergraduate degree in accounting qualify to waive ACCTNG 5400 and ACCTNG 5401. These courses may be replaced with any upper level accounting course. A maximum of 15 hours in any functional area will count toward degree requirements. Only courses that are substantially different from courses taken for credit in a student's undergraduate program will be acceptable.

**Learning Outcomes**

Upon completion of the program, graduates will be able to:

- Demonstrate knowledge of core business content in accounting, finance, information systems, supply chain analytics, management, and marketing.
- Apply core business content and principles for effective business decision making.
- Demonstrate analytical skills to solve business problems and evaluate the conditions of corporations and markets.
- Effectively communicate business insights using oral and written formats.
- Identify legal/ethical issues and implications, and make informed decisions.
- Expand leadership skills to effectively engage with stakeholders in a professional manner.
- Demonstrate a global mindset needed to effectively navigate the interconnected nature of today's business environment.
- Understand the Accounting cycle from analysis of transaction through financial statements.
- Apply key financial accounting topics related to balance sheet and income statement accounts.
- Demonstrate appropriate concepts of managerial accounting.

**Business Administration MBA, Business Analytics Emphasis**

**Admission Requirements**

The admission standards for all Graduate Business Programs (master programs and graduate certificates) are the same. To be eligible to apply, an applicant must hold a bachelor’s degree from an accredited college or university and show high promise of academic success.

Graduate Business Programs take a holistic approach when evaluating student applications. Grade point average (GPA), and professional experience are considered when making an admissions decision.

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in MBA only after they have formally applied for admission through the Graduate School.

**Degree Requirements**

Depending on the student's previous background, programs will require a minimum of 30 hours. Coursework must be completed within a maximum six-year period. At least 2/3 of coursework must be taken while enrolled as an MBA candidate at UMSL.

All students must satisfy the following requirements in professional written and oral communication, business law and ethics/ and social responsibility, economics, and business statistics. The Graduate Business Office in collaboration with department chairs will determine whether a student satisfies these requirements. In general:

The Professional and Written Communications skills requirement can be satisfied by any one of the following:

- Evidence of prior coursework
- Completion of BUS AD 5100

The Business Law and Ethics/Social Responsibility requirements can be satisfied by any one of the following:

- Evidence of prior coursework
- Completion of BUS AD 5900

The Economics requirement can be satisfied by any one of the following:

- Evidence of prior coursework
- Completion of BUS AD 5000
- Completion of Economics boot camp

The Statistics requirement can be satisfied by any one of the following:

- Evidence of prior coursework
- Completion of SCMA 5300
- Completion of Statistics boot camp

**Assurance of Learning**

All MBA students are required to participate in the BUS AD 6991 Graduate Business Assessment Testing class during their last semester. This learning assessment course is not for credit.

**Business Core (18 credit hours)**
The following courses or their equivalents are required of all degree candidates.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCTNG 5400</td>

</tbody>
</table>

1 Students with prior business degrees take advanced courses in each of the functional areas listed in the Business Core, as advised by the Graduate Business Advisors assigned to the students. Based on a formal review and evaluation by the Graduate Business Programs Office, students may be granted waivers in the Business Core section. Waivers depend on the applicability of, and performance in, prior coursework. Regardless of the number of courses waived, all students must complete at least 30 credit hours to earn the MBA degree.

Strategic Management Required (3 credit hours)

Take one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BUS AD 6990</td>

</tbody>
</table>

2 Students with a non-business undergraduate degree are required to take BUS AD 6990 to satisfy the Strategic Management requirement.

Electives (9 credit hours)

Students may choose to pursue an Emphasis Area to satisfy the 9 credit hour Elective requirement or pursue an MBA with no emphasis area. No course may be used for more than one emphasis area. If no emphasis area is chosen, students have the flexibility to customize their MBA by choosing from a large collection of elective graduate courses within the College of Business Administration, in consultation with their Graduate Business academic advisor.

Emphasis Area Requirements

Master of Business Administration (MBA) students seeking an emphasis in Business Analytics must complete SCMA 6345, SCMA 6350, and three additional hours from approved Business Analytics electives beyond SCMA 5310 (SCMA 5310 does not count toward the emphasis in Business Analytics). A maximum of 15 hours in any functional area will count toward the degree requirements. A student cannot receive an emphasis in both Operations Management and Logistics and Supply Chain Management for the same set of courses.

An overlap of up to 3 credit hours from approved courses, other than SCMA 5300 and SCMA 5310 is allowed. Only courses that are substantially different from courses taken for credit in a student's undergraduate program will be acceptable.

1 If topic is appropriate.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Demonstrate knowledge of core business content in accounting, finance, information systems, supply chain analytics, management, and marketing.
- Apply core business content and principles for effective business decision making.
- Demonstrate analytical skills to solve business problems and evaluate the conditions of corporations and markets.
- Effectively communicate business insights using oral and written formats.
- Identify legal/ethical issues and implications, and make informed decisions.
- Expand leadership skills to effectively engage with stakeholders in a professional manner.
- Demonstrate a global mindset needed to effectively navigate the interconnected nature of today's business environment.
- Understand the central role of supply chain management in business, and its connections with other business functions internally (marketing, finance, information systems), and supply chain players externally.
- Build models and apply analytical methodologies: descriptive, predictive and prescriptive, for data-driven decision-making in supply chains including supply chain network design, demand planning, production and inventory control, resource allocation, scheduling and transportation.
- Communicate effectively about supply chain related issues and data-driven solutions with business acumen.

If no emphasis area is chosen, students have the flexibility to customize their MBA by choosing from a large collection of elective graduate courses within the College of Business Administration, in consultation with their Graduate Business academic advisor.

Emphasis Area Requirements

Master of Business Administration (MBA) students seeking an emphasis in International Business must complete a minimum of 9 credits from International Business courses or courses approved by the director of the International Business Institute. A maximum of 15 hours in any functional area will count toward degree requirements. Only courses that are substantially different from courses taken for credit in a student’s undergraduate program will be acceptable.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Demonstrate knowledge of core business content in accounting, finance, information systems, supply chain analytics, management, and marketing.
- Apply core business content and principles for effective business decision making.
- Demonstrate analytical skills to solve business problems and evaluate the conditions of corporations and markets.
- Effectively communicate business insights using oral and written formats.
- Identify legal/ethical issues and implications, and make informed decisions.
- Expand leadership skills to effectively engage with stakeholders in a professional manner.
- Demonstrate a global mindset needed to effectively navigate the interconnected nature of today’s business environment.
- Apply cultural knowledge in implementing and adapting management techniques in a foreign market.
- Evaluate and provide solutions for legal/ethical issues across country markets.
- Propose and criticize alternative strategic options and make specific recommendations for multinational firms.

Business Administration MBA, International Program

Admission Requirements

The admission standards for all Graduate Business Programs (master programs and graduate certificates) are the same. To be eligible to apply, an applicant must hold a bachelor’s degree from an accredited college or university and show high promise of academic success.

Graduate Business Programs take a holistic approach when evaluating student applications. Grade point average (GPA), and professional experience are considered when making an admissions decision.

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in MBA only after they have formally applied for admission through the Graduate School.

Degree Requirements

Depending on the student’s previous background, programs will require a minimum of 30 hours. Coursework must be completed within a maximum six-year period. At least 2/3 of coursework must be taken while enrolled as an MBA candidate at UMSL.

All students must satisfy the following requirements in professional written and oral communication, business law and ethics/ and social responsibility, economics, and business statistics. The Graduate Business Office in collaboration with department chairs will determine whether a student satisfies these requirements. In general:

The Professional and Written Communications skills requirement can be satisfied by any one of the following:

- Evidence of prior coursework
- Completion of BUS AD 5100

The Business Law and Ethics/Social Responsibility requirements can be satisfied by any one of the following:
• Evidence of prior coursework
• Completion of BUS AD 5900

The Economics requirement can be satisfied by any one of the following:

• Evidence of prior coursework
• Completion of BUS AD 5000
• Completion of Economics boot camp

The Statistics requirement can be satisfied by any one of the following:

• Evidence of prior coursework
• Completion of SCMA 5300
• Completion of Statistics boot camp

Assurance of Learning

All MBA students are required to participate in the BUS AD 6991 Graduate Business Assessment Testing class during their last semester. This learning assessment course is not for credit.

Business Core (18 credit hours)

The following courses or their equivalents are required of all degree candidates.

<table>
<thead>
<tr>

1

Students with prior business degrees take advanced courses in each of the functional areas listed in the Business Core, as advised by the Graduate Business Advisors assigned to the students. Based on a formal review and evaluation by the Graduate Business Programs Office, students may be granted waivers in the Business Core section. Waivers depend on the applicability of, and performance in, prior coursework. Regardless of the number of courses waived, all students must complete at least 30 credit hours to earn the MBA degree.

Strategic Management Required (3 credit hours)

Take one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BUS AD 6990</td>

</tr>
</tbody>
</table>

2

Students with a non-business undergraduate degree are required to take BUS AD 6990 to satisfy the Strategic Management requirement.

Electives (9 credit hours)

Students may choose to pursue an Emphasis Area to satisfy the 9 credit hour Electives requirement or pursue an MBA with no emphasis area. No course may be used for more than one emphasis area. If no emphasis area is chosen, students have the flexibility to customize their MBA by choosing from a large collection of elective graduate courses within the College of Business Administration, in consultation with their Graduate Business academic advisor.

International MBA Program

An international version of the MBA program also exists as an alternative to the Flex MBA program. This program is a two-year, full-time program. Students take courses the first year outside the U.S. at a partner university and then take courses the second year on the University of Missouri–St. Louis campus.

Degree Requirements

All participants in the International MBA program must meet the same general and core requirements as those in the Flex MBA program. In addition, the International MBA program may entail an internship (outside the U.S. for Americans and in the U.S. for all others). The program also requires proficiency in the language spoken at the destination university. Coursework at the partner-schools is typically in English.

Learning Outcomes

Upon completion of the program, graduates will be able to:

• Demonstrate knowledge of core business content in accounting, finance, information systems, supply chain analytics, management, and marketing.
• Apply core business content and principles for effective business decision making.
• Demonstrate analytical skills to solve business problems and evaluate the conditions of corporations and markets.
• Effectively communicate business insights using oral and written formats.
• Identify legal/ethical issues and implications, and make informed decisions.
• Expand leadership skills to effectively engage with stakeholders in a professional manner.
• Demonstrate a global mindset needed to effectively navigate the interconnected nature of today’s business environment.

- Demonstrate proficiency in digital marketing, social media marketing and analytics.
- Describe how marketers can design and adapt their campaigns and strategies based on the study of consumer behavior.

**Business Administration MBA, Online Program**

The UMSL Online MBA is a 33 hour, four semester cohort-based program designed to be completed in 18 months.

**Admission Requirements**

Applicants must meet the general graduate admission requirements of the Graduate School (p. 35). Students are considered for admission to the graduate program only after they have formally applied for admission through the Graduate School. The application is online.

The admissions decision is based on a combination of factors. Consideration is given to a candidate’s academic record, scores on the Graduate Management Admissions Test (GMAT), work and leadership experience, a personal narrative on the application form and recommendation letters.

Applicants are generally required to submit Graduate Management Admissions Test (GMAT) scores. A waiver of GMAT requirement may be requested if applicants meet certain criteria. Please see petition to waive the GMAT: http://mba.umsl.edu/files/pdfs/GMAT-waiver.pdf.

Admission to this program is for the Fall semester only.

1 If the topic is appropriate.

Learning Outcomes
Upon completion of the program, graduates will be able to:

• Demonstrate knowledge of core business content in accounting, finance, information systems, supply chain analytics, management, and marketing.
• Apply core business content and principles for effective business decision making.
• Demonstrate analytical skills to solve business problems and evaluate the conditions of corporations and markets.
• Effectively communicate business insights using oral and written formats.
• Identify legal/ethical issues and implications, and make informed decisions.
• Expand leadership skills to effectively engage with stakeholders in a professional manner.
• Demonstrate a global mindset needed to effectively navigate the interconnected nature of today’s business environment.
• Understand the central role of supply chain management in business, and its connections with other business functions internally (marketing, finance, information systems) and supply chain players externally.
• Apply knowledge and concepts for decision-making in supply chain management including purchasing, operations, logistics, integration and global supply chains.
• Communicate effectively about supply chain related issues and data-driven solutions with business acumen.

Business Administration Minor

General Requirements

• All minors are 15 credit hours or 5 courses, including business core courses.
• Students must attain a 2.0 grade point average for all courses in the minor.
• Students must attain a minimum grade of C- in each course included in the minor.
• All courses in the minor must be on a graded basis.
• A minimum of 9 credit hours of coursework included in the minor must be taken in residence at UMSL.
• One must complete a baccalaureate degree at UMSL in order for a minor to be conferred.
• A minor may be added for up to two years following completion of the baccalaureate degree

Specific Requirements for the Minor

This minor is available only to students seeking a baccalaureate degree outside the College of Business Administration.

Business Intelligence Graduate Certificate

The Graduate Certificate in Business intelligence (BI) prepares students to support better business decision-making by providing internal data and external data in a useful and usable format. Using BI, decision makers are able to examine the value of business processes and products while watching for competitive opportunities in the marketplace. BI technologies provide historical, descriptive, predictive, and prescriptive views of business operations. The BI Certificate blends analytics and information technology in a unique program during which students work on industry datasets and learn to appreciate the difficulties of large-scale, unstructured data as well as the need for nuanced solutions.

This 12 credit hour certificate program also counts toward the 30 credit hour Master of Science in Information Systems and Technology degree program requirements. Students may choose to combine this certificate with other courses and/or certificates to obtain the Master of Science in Information Systems and Technology degree.

Admission Requirements

Applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements.

Certificate Requirements

All course prerequisites and all course waivers are applicable. Substitute courses may be approved by the appropriate department chairperson and the Director of Graduate Business Programs.

Required Courses

Total Hours 12

The required courses may be substituted with other courses with the approval of the Chair of the Information Systems and Technology Department.

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

• Apply contemporary data programming techniques
• Structure and visualize data in useful and usable formats for business insights
• Utilize business intelligence technologies to provide historical, descriptive, predictive, and prescriptive views of business operations
• Communicate business intelligence insights to stakeholders

Business Administration PhD, Supply Chain and Analytics Emphasis

Admission Requirements

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the Ph.D. in Business Administration only after they have formally applied for admission through the Graduate School. Applications may be completed on-line.

Admission decisions are based on past academic record, intellectual ability, GMAT or GRE scores, and career commitment. Applications are accepted from students who have baccalaureate or graduate degrees.
Past graduate work may be credited toward degree requirements where appropriate. Applicants must submit:

- Official academic transcripts.
- Official GMAT or GRE results in fields approved by the College of Business Administration.
- A minimum of two letters of recommendation (at least one of which is from an individual with an earned doctorate).
- A statement of objectives for the course of study.
- A current resume or CV.

Applications will be accepted for Fall enrollment beginning in the previous Fall. The application deadline for all materials is the first week of February.

Graduate Assistantships

Stipends for research and teaching assistantships (20 hours per week) are awarded to full-time Ph.D. students on a competitive basis. Tuition is waived for graduate assistants.

Degree Requirements

The Ph.D. in the College of Business Administration requires a minimum of 62 course credit hours, including a minimum of 5 dissertation credit hours, beyond the baccalaureate degree. Courses are determined according to the chosen Emphasis Area. To ensure sufficient background for doctoral-level courses, students must demonstrate appropriate competence in quantitative reasoning, which is evidenced through completion of prior coursework or equivalent to be determined by the Ph.D. Program Director. Students must also demonstrate appropriate competence in managerial communication, which is evidenced through completion of BUS AD 5100 or equivalent to be determined by the Ph.D. Program Director.

Course Requirements

Specific course requirements are determined based on the chosen Emphasis Area within the Ph.D. in Business Administration. The Ph.D. in Business Administration program has required courses in four areas: Business & Research Foundations (Section I), Emphasis Area Foundations (Section II), Research Methods (Section III) and Doctoral Courses (Section IV). Electives in the program are included in Section V.

I. Business & Research Foundation Requirement: 15 credit hours (5 courses)

Students are required to take five Business & Research Foundations courses as advised by the emphasis area Ph.D. Coordinator. These five courses may be waived if students have completed the courses as part of an UMSL program or had equivalent graduate course work at an institution approved by the Graduate Business Programs Office and the emphasis area Ph.D. Coordinator.

V. Electives (9 credit hours)

Students must take 9 credit hours of graduate-level elective courses, selected in consultation with their emphasis area Ph.D. Coordinator. If the three courses are selected in a thematic area outside the emphasis area, they are deemed to constitute a “Supporting Field” for the Ph.D.

VI. Other Requirements

- Upon completion of the coursework in Sections I-V, students enroll in BUS AD 7001 Doctoral Research, or BUS AD 7002 Dissertation Research. Students are advanced to candidacy by successfully completing a comprehensive examination in their area of emphasis. Students should take the comprehensive exam in the first semester after completing the coursework in Sections I-V.
- Students will be evaluated annually for satisfactory progress. Students deemed not to be making adequate progress are subject to the policies of the College of Business Administration regarding continuation of their assistantship. Students deemed not to be making adequate progress are subject to the policies of the Graduate School and the College of Business Administration regarding probation and dismissal from the program.
- Students are required to take a minimum of 5 credit hours total of BUS AD 7001 Doctoral Research, and BUS AD 7002 Dissertation.
Research and to defend a dissertation proposal within one year of advancement to candidacy.

• The following requirements are to be completed before or after admission to candidacy:
  • Students are required to present one paper at a regional, national, or international conference, approved by the dissertation advisor or program advisor.
  • Students are required to submit one paper, approved by the dissertation advisor or program advisor, to a refereed journal.
  • At least two semesters of supervised teaching in the College of Business Administration are required of all doctoral students.
  • Students are required to demonstrate competency in teaching during the first year in which they teach in the College of Business Administration. This requirement may be met by successfully completing one or more courses/programs.
  • The degree is awarded upon successful completion and defense of the Ph.D. dissertation and satisfaction of all Graduate School requirements. The dissertation must be defended within three years of approval of a Ph.D. dissertation proposal.

Career Counseling Graduate Certificate

The Career Counseling Graduate Certificate is for individuals and students who want to add an additional focus of career counseling to their academic credentials. The goals of the Graduate Certificate in Career Counseling are: (a) to provide an academic program to help counselors, career development professionals, and students increase their competency in supporting the career development of all their clients across various settings; (b) to provide a curriculum focused on helping counselors, career development professionals, and students apply knowledge and skill to practice in the areas of career assessment, career decision making, career counseling with PK-16 students and adults; (c) increase career development professionals’ awareness of social justice issues and their impact on career development.

The Career Counseling Certificate may be pursued as a stand-alone credential or in conjunction with another mental health or related program (such as Master’s in Education, Master’s in Adult & Higher Education, Master’s in Social Work, Ed.D. or the Ph.D. in Education, or Ph.D. in Clinical Psychology). With advance planning, all 12 credits may be applied to the Master’s of Education in School or Clinical Mental Health Counseling degree at UMSL. Completion of the Career Counseling Certificate, however, does not guarantee acceptance into any other degree program (separate application required for admission).

The counseling degree coordinator will act as the program director for this graduate certificate.

Admission Requirements

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate certificate in Career Counseling only after they have formally applied for admission through the Graduate School. Applications may be completed on-line.

In addition, to Graduate School admission requirements, the following requirements apply to the Career Counseling Graduate Certificate program:

Current “good standing” (non-probation) in an UMSL graduate mental health practitioner training program (counseling, social work, or psychology)

Or

All of the following criteria must be met:

1. Undergraduate degree with a GPA of 3.0 or better;
2. Enrollment in a graduate mental health practitioner or related training program or earned Master’s degree in mental health field (or related);
3. Two letters of recommendation with at least one from a current or former college-level instructor (or someone with a graduate degree who can attest to the applicant’s capacity to complete graduate-level work);
4. Two-page personal statement explaining the applicant’s personal and professional goals.

| CNS ED 7000 | Advanced Theories and Practice of Counseling |  |

Other CNS ED 6800-level courses as offered

Total Hours | 12 |

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

• Demonstrate strategies to help clients develop skills to make life-work role transitions, acquire employability and job search skills, and evaluate career information resources.
• Analyze factors that influence clients’ attitudes toward work and career decision-making processes particularly race, gender roles, family responsibilities, education and other cultural factors.
• Develop a collection of culturally-relevant resources to assist clients from various backgrounds in their career development and planning.
Character and Citizenship Education Graduate Certificate

The three program goals of the Character and Citizenship Education (CCE) graduate certificate program are: (a) the understanding of theory and research in citizenship education as it relates to civic participation, concepts of democracy, the democratic purposes of education, and the development of civic identity and political thinking, attitudes, and engagement as well as the competence to apply this knowledge to analysis and design of practical programs in citizenship education; (b) the understanding of character development and character education in childhood and adolescence, including the empirical and conceptual study of the nature of how moral character develops, as well as how it can be fostered in schools by school reform, curriculum development, professional development, and practical pedagogical methods; and (c) the understanding of the connections between character and citizenship development and education.

The Sanford N. McDonnell Professor of Character Education and the Teresa M. Fischer Professor of Citizenship Education serve as program directors.

Admission Requirements
Requirements for admission to the CCE certificate program are current good standing in an UMSL graduate program or all three of the following:

1. Undergraduate degree with a GPA of 3.0 or better
2. Two letters of recommendation with at least one from a current or former college-level instructor
3. Two-page personal statement explaining the applicant's personal and professional goal

The CCE certificate may be pursued as a stand-alone credential or in conjunction with the Master's Degree in Education and/or the Ph.D. in Education. With advance planning, all 18 credit hours from the CCE certificate can be applied to these degrees. Completion of the CCE certificate, however, does not guarantee acceptance into any of those degree programs, which requires a separate application.

Credit Requirements
A minimum of 18 credit hours of graduate course work is required for the graduate certificate. Twelve of these hours must consist of the four core courses in character and citizenship education. A minimum of six additional hours are to be chosen from the list of electives. At least twelve hours must be completed in residence at UMSL.

Chemistry BA

The St. Louis metropolitan area has long been a major center for industrial chemistry, and in the past decade it has also become vibrant in life sciences research and development. A bachelor's degree in chemistry provides a student with the professional training needed to contribute to this dynamic industry. The B.A. degree provides a well-rounded academic background and includes a language requirement. Students who earn this degree are well prepared for a career in the chemical industry, graduate work in the chemical sciences, health sciences, medicine, business or law.

General Education Requirements
Students must satisfy the university and college general education requirements (p. 48). Courses in chemistry may be used to meet the university’s mathematics and life/natural science requirement. The college's foreign language requirement fulfills the departmental requirements for B.A. candidates. B.S. degree candidates are not required to take a foreign language; however, the American Chemical Society (ACS) states that the study of a foreign language is recommended, especially for students planning to pursue graduate studies in chemistry.

Satisfactory/Unsatisfactory Restrictions
Chemistry majors may not take required chemistry, mathematics, or physics courses on a satisfactory/unsatisfactory basis.

Related Area Requirements
Bachelor of Arts and Bachelor of Science in Chemistry
Candidates for both degrees must also complete:

B.A. or B.S. in Chemistry with Master’s Level Coursework for Secondary Teacher Certification

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Demonstrate proficiency at an in-depth level in organic chemistry and physical chemistry.
- Apply appropriate concepts and investigative and quantitative methods as used in all sub-disciplines of chemistry research.
- Critically evaluate existing scientific studies to integrate and apply that body of knowledge to the design of studies to test specific hypotheses addressing unsolved problems in the chemical and life sciences.
- Use computers and the required scientific software in data acquisition, processing, presentation or analysis, including statistical and regression analysis.
- Demonstrate basic skills associated with safely performing and properly documenting laboratory experiments in chemistry following a broad introduction of commonly used equipment and procedures.
- Demonstrate the ability to work either independently or as a part of a small team.
- Identify the need for information, procure the information from relevant scientific literature publications and databases, properly cite the information, and critically evaluate reliability, validity, accuracy, authority, timeliness, and point of view or bias.
- Effectively communicate orally, visually and in writing about the processes of the chemical sciences and the results of scientific inquiry.
- Follow ethical practices in research, experimental interpretation, presentation, citation and application of research.

Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

B.S. Ed. in Secondary Education with Emphasis in Chemistry

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. or B.S. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

| Total Hours | 25 |
| Candidates must complete the following chemistry courses: | |
| CHEM 1000 | Chemistry: The Central Science | 1 |
| CHEM 1111 | Introductory Chemistry I (MOTR CHEM 150L) | 5 |

Total Hours 38

No more than 45 hours in chemistry may be applied toward the degree. Each chemistry major must present a seminar and pass a comprehensive examination during the senior year. At least 12 credits at the 3000 level or higher must be completed at UMSL. The Department of Chemistry and Biochemistry may require students to pass a tracking test in order to enroll in the next level course, provided this or an equivalent test is administered to all students seeking to enroll in that course.
Candidates must complete:

- Related Area Requirements
  - physics courses on a satisfactory/unsatisfactory basis.

Chemistry majors may not take required chemistry, mathematics, or physical science courses on a satisfactory/unsatisfactory basis.

Satisfactory/Unsatisfactory Restrictions

Chemistry majors may not take required chemistry, mathematics, or physical science courses on a satisfactory/unsatisfactory basis.

**Total Hours** 19

If either research option is chosen, the project must be in biochemistry and must include a written final report submitted to the Department of Chemistry and Biochemistry.

**B.S. Ed. in Secondary Education with Emphasis in Chemistry**

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. or B.S. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. **Note:** To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

- B.S. degree students will demonstrate a clear understanding of the essential principles of the five foundational areas of chemistry and be able to apply them to solve chemical problems. The foundational areas of chemistry are specified as analytical, organic, inorganic, physical and biochemistry and include both the study of small molecules and macromolecules. B.A. degree students do not need to meet this outcome in biochemistry. Demonstrating understanding and application at the foundational level requires a thorough comprehension of basic chemical concepts from the introductory course sequence including stoichiometry, states of matter, molecular structure and bonding, thermodynamics, equilibria and kinetics. B.S. degree graduates will demonstrate proficiency in at least four of the foundational areas at an in-depth level. B.A. degree graduates will demonstrate proficiency at an in-depth level in organic chemistry and physical chemistry.
- Students will apply appropriate concepts and investigative and quantitative methods as used in all sub-disciplines of chemistry research.
- Students will critically evaluate existing scientific studies to integrate and apply that body of knowledge to the design of studies to test specific hypotheses addressing unsolved problems in the chemical and life sciences.
- Students will use computers and the required scientific software in data acquisition, processing, presentation or analysis, including statistical and regression analysis.
- Students will demonstrate basic skills associated with safely performing and properly documenting laboratory experiments in chemistry following a broad introduction of commonly used equipment and procedures. B.S. degree graduates will demonstrate skills in performing laboratory experiments using advanced and specialized instrumentation related to the areas of chemistry that are studied in depth. Students will demonstrate the ability to work either independently or as a part of a small team.
- Students will be able to identify the need for information, procure the information from relevant scientific literature publications and databases, properly cite the information, and critically evaluate reliability, validity, accuracy, authority, timeliness, and point of view or bias.
- Students will effectively communicate orally, visually and in writing about the processes of the chemical sciences and the results of scientific inquiry.
- Students will follow ethical practices in research, experimental interpretation, presentation, citation and application of research.

**B.A. or B.S. in Chemistry with Master’s Level Coursework for Secondary Teacher Certification**

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education.

**Total Hours: 122**

1. INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

**Please Note:** This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

### Chemistry Minor

**Requirements for the Minor**

Students may earn a minor in chemistry by completing the following program. The following five courses are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 1111 Introductory Chemistry I (MOTR CHEM 150L)</td>
<td>5</td>
</tr>
<tr>
<td>CHEM 1121 Introductory Chemistry II</td>
<td>5</td>
</tr>
<tr>
<td>CHEM 2223 Quantitative Analysis in Chemistry</td>
<td>4</td>
</tr>
<tr>
<td>CHEM 2612 Organic Chemistry I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 2633 Organic Chemistry Laboratory</td>
<td>2</td>
</tr>
</tbody>
</table>

Select one of the following:

- CHEM 2622 Organic Chemistry II
- CHEM 3302 Physical Chemistry for The Life Sciences
- CHEM 3312 Physical Chemistry I: Thermodynamics and Kinetics
- CHEM 3412 Basic Inorganic Chemistry
- CHEM 4712 Biochemistry

**Total Hours: 21-22**

Courses taken for the minor may not be taken on a satisfactory/unsatisfactory basis. A GPA of at least 2.0 is required for the courses.
Chemistry MS

Admission Requirements

Individuals with at least the equivalent of the B.A. degree in the natural sciences may be admitted to the Graduate School as candidates for the M.S. degree or as precandidates for the Ph.D. degree in chemistry. A student in the M.S. program may request to transfer to the Ph.D. program by petition to the department.

The department admissions committee considers applicants’ grade point averages and normally requires above-average performance in all areas of chemistry as well as physics and mathematics, or other evidence of high aptitude for graduate work in chemistry. Applicants’ letters of recommendation and academic programs are also considered. In some cases the committee may require successful completion of undergraduate course work at UMSL as a condition of enrollment as a regular student.

Students with bachelor’s degrees in fields other than chemistry may be admitted to pursue graduate studies in chemistry, but they must make up background deficiencies, usually by taking undergraduate course work at UMSL.

Financial Support

Teaching assistantships are available to qualified applicants. Research assistantships and fellowships are available for advanced students. Departmental support is not normally available beyond the fifth year in the program. For further information, contact the Department of Chemistry & Biochemistry Graduate Admissions Committee.

Preliminary Advisement

Students who have been admitted for graduate work in chemistry will be contacted by the Director of Graduate Studies in order to develop a tentative plan of study which takes into consideration the student’s background and interests. Entering students are required to demonstrate proficiency at the undergraduate level in four areas of chemistry (biochemistry, organic, inorganic, physical, and analytical).

Proficiency may be demonstrated in one of the following ways:

- Outstanding performance in recent undergraduate course work.
- Satisfactory performance in standardized placement examinations. These examinations are given twice a year, approximately one week before the beginning of the fall and winter semesters.
- Successful completion of assigned course work.

The ultimate choice of whether students may enroll in the M.S. or Ph.D. degree programs resides with the chemistry faculty.

Admission Requirements

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL Bulletin (p. 35). Applications may be completed online.

In addition to the Graduate School admission requirements, the following requirements apply to the MS in Chemistry program:

- BS or BA in a scientific discipline is required, although other degrees will be considered for strong candidates. The admission committee will evaluate previous coursework to determine potential for success.
- Minimum of 3.00 GPA on 4.0 scale. Students whose GPA is 2.75 to 2.99 may be admitted under some circumstances.
- Two Letters of Recommendation.
- Official transcripts from all universities attended.
- The Graduate Record Examination General Test is NOT required, but may add value to the application.
- International students are required to document English proficiency by providing scores from an internationally accepted standardized examination prior to admission decision.

Degree Requirements

30 hours are required to earn a Master of Science in Chemistry and the advanced curriculum can be customized for each student. Students may choose to focus their coursework in a few, some, or all chemical disciplines including organic, inorganic, biochemical, physical, and analytical chemistry.

Master of Science without Thesis

Students may be enrolled part-time to complete the degree without a thesis. Of the required 30 hours, 15 credits must be at the 5000 level and 3 must be earned by taking 3 separate semesters of CHEM 6897, Colloquium.

Master of Science with Thesis

Students selecting this option must be enrolled full-time for at least two consecutive semesters. During this time, students are expected to enroll in CHEM 6905, Graduate Research in Chemistry, and conduct their thesis research. Of the required 30 credits, 15 must be taken at the 5000 level and 3 must be earned by taking 3 separate semesters of CHEM 6897, Colloquium.

Master of Science Degrees for Doctoral Students

Doctoral students may receive a Master’s degree in their program for work completed towards the doctoral degree. To receive a Master’s degree, doctoral students must complete 30 credit hours of courses, with at least 15 of these credit hours in courses numbered at or above the 5000 level. No more than 3 hours in CHEM 6897, 3 hours from a combination of CHEM 6487, CHEM 6687, CHEM 6787, CHEM 6812, CHEM 6822 and CHEM 6832, and 6 hours of CHEM 6905 may be applied.

The non-dissertation courses presented for the M.S. degree may not include any of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 4212</td>
<td>Instrumental Analysis</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 4233</td>
<td>Laboratory in Instrumental Analysis</td>
<td>2</td>
</tr>
<tr>
<td>CHEM 4302</td>
<td>Survey of Physical Chemistry with Applications to the Life Sciences</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 4343</td>
<td>Physical Chemistry Laboratory II</td>
<td>2</td>
</tr>
<tr>
<td>CHEM 4412</td>
<td>Advanced Inorganic Chemistry</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 4433</td>
<td>Inorganic Chemistry Laboratory</td>
<td>2</td>
</tr>
<tr>
<td>CHEM 4712</td>
<td>Biochemistry</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 4733</td>
<td>Biochemistry Laboratory</td>
<td>2</td>
</tr>
</tbody>
</table>

Learning Outcomes
Upon completion of the program, graduates will be able to:

- Demonstrate an advanced conceptual understanding of several chemistry sub-disciplines including organic, inorganic, physical, biological and analytical chemistry.
- Demonstrate an understanding of important principles that underlie techniques used in chemical and biochemical research, thereby possessing the ability to analyze and interpret data, and make conclusions.
- Explain phenomena by means of accepted chemical principles, theories or laws in particular areas of the chemical sciences with a high degree of sophistication.
- Demonstrate knowledge of chemical nomenclature, structure, and function and be able to effectively communicate this information to both scientists and the public.
- Formulate hypotheses based on an advanced knowledge of chemistry and the current published literature.
- Demonstrate a mastery of literature resources and published findings in chemistry for the preparation of papers, reports, or summaries within a particular subfield of chemistry.

Proficiency may be demonstrated in one of the following ways:

- Outstanding performance in recent undergraduate course work.
- Satisfactory performance in standardized placement examinations. These examinations are given twice a year, approximately one week before the beginning of the fall and winter semesters.
- Successful completion of assigned course work.

The ultimate choice of whether students may enroll in the M.S. or Ph.D. degree programs resides with the chemistry faculty.

Degree Requirements

This option requires a minimum of 32 hours, of which 16 credit hours must be at or above the 5000 level. Students must take 21 credit hours of chemistry, 9 hours in business, and 2 credits hours of internship or practicum. A maximum of 3 credits of CHEM 6897 may be applied toward the required minimum of number of chemistry credits (21 hours).

The courses presented for the Master’s degree (professional science emphasis) may not include any of the following:

| CHEM 4212 | Instrumental Analysis | 3 |
| CHEM 4233 | Laboratory in Instrumental Analysis | 2 |
| CHEM 4302 | Survey of Physical Chemistry with Applications to the Life Sciences | 3 |
| CHEM 4343 | Physical Chemistry Laboratory II | 2 |
| CHEM 4412 | Advanced Inorganic Chemistry | 3 |
| CHEM 4433 | Inorganic Chemistry Laboratory | 2 |
| CHEM 4712 | Biochemistry | 3 |
| CHEM 4733 | Biochemistry Laboratory | 2 |
| CHEM 6487 | Problem Seminar in Inorganic Chemistry | 1 |
| CHEM 6687 | Problem Seminar in Organic Chemistry | 1-3 |
| CHEM 6787 | Problem Seminar in Biochemistry | 1 |
| CHEM 6812 | Introduction to Graduate Study in Chemistry | 1 |
| CHEM 6822 | Introduction to Graduate Research in Chemistry | 1 |
| CHEM 6905 | Graduate Research in Chemistry | 1-10 |

Emphasis Area Requirements

| Elective Courses in Business (9 credit hours required) |
| MGMT 3623 | Industrial and Organizational Psychology | 3 |
| BUS AD 5000 | Economics for Managers | 3 |
| BUS AD 5100 | Managerial Communication | 3 |
| MGMT 5600 | Managing People in Organizations | 3 |
| MKTG 5700 | Contemporary Marketing Concepts | 3 |
| BUS AD 5900 | Law, Ethics and Business | 3 |

| Required Internship or Practicum (2 credit hours required) |
| CHEM 5798 | 2 |

There are no distribution requirements for the Masters in Chemistry (Professional Science Emphasis).

Chemistry PhD

Admission Requirements

Individuals with at least the equivalent of the B.A. degree in the natural sciences may be admitted to the Graduate School as candidates for the M.S. degree or as precandidates for the Ph.D. degree in chemistry. A student in the M.S. program may request to transfer to the Ph.D. program by petition to the department.

The department admissions committee considers applicants' grade point averages and normally requires above-average performance in all areas of chemistry as well as physics and mathematics, or other evidence of high aptitude for graduate work in chemistry. Applicants' letters of recommendation and academic programs are also considered. In some cases the committee may require successful completion of undergraduate course work at UMSL as a condition of enrollment as a regular student.

Students with bachelor's degrees in fields other than chemistry may be admitted to pursue graduate studies in chemistry, but they must make up background deficiencies, usually by taking undergraduate course work at UMSL.

Financial Support

Teaching assistantships are available to qualified applicants. Research assistantships and fellowships are available for advanced students. Departmental support is not normally available beyond the fifth year in the program. For further information, contact the Department of Chemistry & Biochemistry Graduate Admissions Committee.

Preliminary Advisement

Students who have been admitted for graduate work in chemistry will be contacted by the Director of Graduate Studies in order to develop a tentative plan of study which takes into consideration the student's background and interests. Entering students are required to demonstrate proficiency at the undergraduate level in four areas of chemistry (biochemistry, organic, inorganic, physical, and analytical).

Proficiency may be demonstrated in one of the following ways:

- Outstanding performance in recent undergraduate course work.
- Satisfactory performance in standardized placement examinations. These examinations are given twice a year, approximately one week before the beginning of the fall and winter semesters.
- Successful completion of assigned course work.

The ultimate choice of whether students may enroll in the M.S. or Ph.D. degree programs resides with the chemistry faculty.

Doctoral Degree Requirements

Within one year of initial enrollment, incoming doctoral students must demonstrate proficiency in four of the following five areas: biochemistry, organic, inorganic, physical, and analytical chemistry. A minimum of 60 credit hours is required, including research hours.

Comprehensive Exam Committee

Before the end of the second regular semester of study, the doctoral student and his/her research advisor will select a comprehensive exam committee. The student should prepare Graduate School form D-1, which should be signed by the research advisor and the Director of Graduate Studies, and filed with the graduate school.

In the Department of Chemistry & Biochemistry, the comprehensive exam committee also serves as a mentoring committee for the student. The committee will meet with the student at the end of each spring semester to review progress in coursework and research. A written report summarizing their assessment and recommendations will be provided to the student and the Director of Graduate Studies.

Comprehensive Examinations

Each student seeking the Ph.D. degree must successfully complete a comprehensive examination prior to advancement to candidacy. The comprehensive exam is typically taken when formal coursework has been completed, but it must be completed before the start of the fifth regular semester.

The comprehensive exam consists of writing an original research proposal and an oral defense that will be evaluated by the student's committee. The student will select a topic that is not directly related to the expected research area. The research advisor must approve the topic. The specific format for the proposal is described in the Department of Chemistry & Biochemistry Handbook of Graduate Studies.

Dissertation Proposal

Doctoral students must prepare and defend a Dissertation Proposal before the student has completed the equivalent of 6 regular semesters of full-time study. The proposal should be defended within six months following successful completion of the Comprehensive Examination.

The Dissertation Proposal includes both a written and oral component. Both components will be evaluated by the student's Comprehensive Examination committee. The written proposal will be submitted to the Comprehensive Examination committee and will be presented as a seminar to the Department. After the seminar, the student will defend the proposal before the Comprehensive Examination committee.

Advancement to Candidacy

In addition to general Graduate School requirements for advancement to candidacy, students must complete the following:

1. 18 hours of non-dissertation work.

This may not include:

<table>
<thead>
<tr>

### CHEM 6812
Introduction to Graduate Study in Chemistry
1

### CHEM 6822
Introduction to Graduate Research in Chemistry
1

### CHEM 6897
Chemistry Colloquium
1

At least 9 of the 18 credits of non-dissertation coursework must be at the 5000 level. Courses in areas other than chemistry may be included with prior departmental approval.

2. Successfully pass a Comprehensive Examination.

3. Successfully present and defend a dissertation proposal.

4. Submit the proposal for approval to the Graduate School.

5. Be in good standing.

### Seminar Requirement
Students must enroll in CHEM 6897, Chemistry Colloquium, each semester they are in residence. In their final semester in the program, each student will present an "exit seminar" to the Department describing the results of their dissertation research.

### Dissertation
One copy of the dissertation must be submitted upon completion of the graduate research problem.

### Probation and Dismissal
Students are dismissed from the Ph.D. program if they fail to pass their Comprehensive Examination or otherwise fail to meet the academic and professional standards set forth by the Graduate School and the Department of Chemistry and Biochemistry.

## Child Advocacy Studies Minor

### Minor in Child Advocacy Studies
The undergraduate minor in Child Advocacy Studies (CAST) is an interdisciplinary program requiring 15 credits of training in Child Advocacy Studies. The CAST minor encompasses a group of courses focused on children, youth, and traumatic stress. The CAST minor is appropriate for students who want to explore working in a variety of professional settings with children and adolescents, many of whom have experienced trauma.

Most courses required by the minor in Child Advocacy Studies have prerequisites. Some students may satisfy prerequisites by virtue of their prior curriculum. When this is not the case, students are responsible for satisfying the prerequisites. All required courses must be taken in residence at UM-St. Louis.

**Required courses:**

**Total Hours: 15**

### Learning Outcomes

- Demonstrate the ethical behavior and values of their discipline in the context of traumatic stress.
- Integrate the current fund of traumatic stress knowledge into their professional role.
- Generate effective responses to traumatic stress and child maltreatment using trauma-informed decision-making processes.
- Create trauma-sensitive relationships with diverse consumers.
- Interact effectively with professionals across multiple disciplines.
- Communicate effectively with the community about traumatic stress and child maltreatment.

## Child Advocacy Studies Undergraduate Certificate

The undergraduate Certificate Program in Child Advocacy Studies (CAST) is an interdisciplinary program requiring 19 credits of training in Child Advocacy Studies. The CAST certificate encompasses a group of courses focused on children, youth, and traumatic stress capped by a field experience. The CAST certificate is appropriate for students who want to
specialize in working in a variety of professional settings with children and adolescents, many of whom may have experienced trauma.

Most courses required by the Certificate Program in Child Advocacy Studies have prerequisites. Some students may satisfy prerequisites by virtue of their prior curriculum. When this is not the case, students are responsible for satisfying the prerequisites. All students must take at least one course outside their home department. All required courses must be taken in residence at UM-St. Louis.

Field Experience Options

A field experience in a child-related field, approved and supervised by the student’s home department, is the final part of the certificate. All required CAST courses should be completed, though concurrent enrollment in one CAST course is permitted. Additionally, students must receive prior approval from the CAST program director.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CAST 4698</td>
<td>Internship in Child Advocacy Studies</td>
</tr>
</tbody>
</table>

Simultaneous enrollment in a CAST seminar is required for all disciplines.

Learning Outcomes

Upon completion of the program, certificate earners should be able to:

- Demonstrate the ethical behavior and values of their discipline in the context of traumatic stress.
- Integrate the current fund of knowledge about traumatic stress into their professional role.
- Generate effective responses to traumatic stress and child maltreatment using trauma-informed decision-making processes.
- Create trauma-sensitive relationships with diverse consumers.
- Use knowledge to increase consumer access to trauma-informed services.
- Formulate service strategies that reduce the impact of trauma and promote well-being.
- Interact effectively with professionals across multiple disciplines.
- Produce trauma-sensitive written and verbal communication consistent with discipline standards.
- Recommend trauma-informed policy changes within their work setting.

Civil Engineering BSCIE

Admission

Students are admitted to the upper-division program after they have completed an acceptable pre-engineering program. The pre-engineering program can be taken at University of Missouri-St. Louis or at community colleges in the area. Normally, admission is granted to persons who have completed the pre-engineering program with a minimum grade point average of 2.75 over all their mathematics, chemistry, physics, and introductory (statics and dynamics) engineering courses. Students with less than a 2.75 grade point average, but at least a C, in all their science, engineering and mathematics courses may be admitted on a conditional basis.

For more information, please contact the program advisor at (314) 516-7018.

Degree Requirements

A program of 132 semester hours is required for the Bachelor of Science in Civil Engineering.
Majors must complete the University General Education (p. 48) and Graduation (p. 15) requirements, the Pre-Engineering Requirements, the Core Engineering Requirements, and Major Requirements.

A minimum grade of C- is necessary to meet the prerequisite requirement for any course.

**General Education and Graduation Requirements**

The following courses fulfill general education and graduation requirements and are required of Civil Engineering majors:

<table>
<thead>
<tr>
<th>Course Code</th>

<td>American Civilization 1865 to Present</td>
<td>3</td>
</tr>
</tbody>
</table>

Three additional Social Science courses

Total Hours 18

1 One Social Science course must satisfy the Cultural Diversity Requirement. Humanities and social sciences electives must meet both the University of Missouri-St. Louis General Education Requirements and the Humanities and Social Sciences Requirements of the Joint Undergraduate Engineering Program. Check with your advisor for details.

**Pre-Engineering Requirements**

Students seeking to major in engineering are first designated as ‘Undeclared with an interest in Engineering majors’ until they have completed Math 1800 Analytical Geometry & Calculus I. Upon successful completion of Math 1800 with a grade of C or better, students will be allowed to declare pre-engineering as their major. Math 1800 must be completed successfully within two attempts.

**Take at least three courses from one of the tracks below:**

#### Structures

- J C ENGR 2160 | Surveying
- J M ENGR 3360 | Material Science for J C ENGR
- J C ENGR 3410 | Structural Analysis
- J C ENGR 3420 | Structural Design
- J C ENGR 4630 | Design of Steel Structures
- J C ENGR 4660 | Advanced Design of Concrete Structures

#### Water Resources/Environmental

- J C ENGR 3520 | Water and Wastewater Treatment
- J C ENGR 3760 | Hydraulic Engineering
- J C ENGR 4830 | Fundamentals of Surface Water Hydrology and Environmental Engineering
Communication BA

The BA in Communication is a flexible degree program that students can tailor to meet personal, professional, or academic goals through elective courses in interpersonal, mass, strategic, and visual communication. Students explore how messages are constructed, delivered, and perceived by audiences. Whether the intent is to inform, influence, or entertain, students will use research and theory to improve message effectiveness and achieve desired outcomes in interpersonal and mass-mediated communication. In addition, students can find a creative outlet in courses that focus on content creation and its consequences and significance.

Students majoring in communication must complete a minimum of 36 credit-hours in communication courses. Students may complete either a general communication degree or they may select one of four different emphasis areas as a focus for their studies: Interpersonal Communication, Mass Communication, Applied Visual Communication, or Strategic Communication. To complete the degree with one of these emphases, the student must complete the 21 credit-hour core and at least 15 hours of electives from within the selected emphasis area. In addition, the skills and knowledge applied in the required Practicum/Internship should be consistent with the selected emphasis area. Students seeking a general communication degree must complete the 21 credit-hour core and can select elective courses from any combination of the emphasis areas.

General Education Requirements

Majors must satisfy the university and college general education requirements (p. 48). The college's foreign language requirement may be taken in any language. Communication courses may not be taken on a satisfactory/unsatisfactory basis.

Degree Requirements

At least 18 credit hours must be taken at UMSL. Furthermore, at least 12 credit hours of the communication courses completed must be numbered 3000-4999 for students seeking a general communication degree, as well as for students pursuing an emphasis area. All students must earn a C or better in each of the required core courses of the major and maintain a 2.0 grade point average in all of the courses applied to the communication degree.

Total Hours 21
Learning Outcomes

- Adapt communication strategies to different situations and audiences
- Evaluate and interpret media, information, and data effectively
- Produce high-quality communications
- Apply interpersonal skills to a variety of situations, audiences, and professional environments
- Use communication theories to take diverse perspectives and excel in a variety of professional environments
- Evolve with changing technologies

| Total Hours: 120 |

<sup>1</sup> INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Communication BA, Applied Visual Communication Emphasis

This emphasis area covers digital audiovisual media production, helping students master the art of telling stories and effectively communicating information through digital media. Students receive practical instruction in areas such as camera work, location shooting, digital video editing, directing, and performance for the camera, typically in small, applied skills courses. This coursework is complemented by instruction in areas such as interpersonal, intercultural, and professional communication that help students gain jobs, advance in the workplace, and better connect with diverse audiences.

Career Outlook

New graduates often enter this career path as video editors or camera operators. According to the U.S. Bureau of Labor Statistics, employment in these occupations is expected to grow faster than average, in part because of increasing demand for audio-visual media on internet-only platforms such as streaming services. The job outlook for more experienced positions in the field, such as producers and directors, is also robust. Successful alumni have gone on to work in these careers.

Students majoring in communication must complete a minimum of 36 credit-hours in communication courses. Students may complete either a general communication degree or they may select one of four different emphasis areas as a focus for their studies: Interpersonal Communication, Mass Communication, Applied Visual Communication, or Strategic Communication. To complete the degree with one of these emphases, the student must complete the 21 credit-hour core and at least 15 hours of electives from within the selected emphasis area. In addition, the skills and knowledge applied in the required Practicum/Internship should be consistent with the selected emphasis area. Students seeking a general communication degree must complete the 21 credit-hour core and can select elective courses from any combination of the emphasis areas.

Four Year Plan

**Learning Outcomes**

- Recognize and apply the fundamental principles of effective visual communication
- Design, implement, and critique media content based on appropriate production, design, and aesthetic principles
- Light, block and record digital video footage in studio and location settings
- Edit digital footage into a coherent narrative or persuasive message, including the addition of titles and graphic effects
- Produce work that contributes knowledge and creativity with effective communication skills in all forms of media: written, visual, and oral
- Effectively work in groups as both leaders and collaborators

**Emphasis Area Requirements**

The applied visual communication emphasis area offers hands-on learning related to media production, focusing on developing skills to convey information and tell stories through time-based digital media. 15 credits are needed.

**Total Hours: 120**

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

**Communication BA, Interpersonal Communication Emphasis**

The Interpersonal Communication emphasis area focuses on communication processes in personal relationships. Students in this emphasis area will master the ability to communicate meaningfully with colleagues, clients, and loved ones in a variety of settings. Strong interpersonal skills are needed in almost any type of job and can truly transform your career and your life. Our faculty members are actively engaged in research and our students benefit from first-hand knowledge not currently offered at other institutions. Many faculty members have been recognized for excellence or innovation in teaching.

Students majoring in communication must complete a minimum of 36 credit-hours in communication courses. Students may complete either a general communication degree or they may select one of four different emphasis areas as a focus for their studies: Interpersonal Communication, Mass Communication, Applied Visual Communication, or Strategic Communication. To complete the degree with one of these emphases, the student must complete the 21 credit-hour core and at least 15 hours of electives from within the selected emphasis area. In addition, the skills and knowledge applied in the required Practicum/Internship should be consistent with the selected emphasis area. Students seeking a general communication degree must complete the 21 credit-hour core and can select elective courses from any combination of the emphasis areas.
General Education Requirements
Majors must satisfy the university and college general education requirements (p. 48). The college's foreign language requirement may be taken in any language. Communication courses may not be taken on a satisfactory/unsatisfactory basis.

Degree Requirements
At least 18 credit hours must be taken at UMSL. Furthermore, at least 12 credit hours of the communication courses completed must be numbered 3000-4999 for students seeking a general communication degree, as well as for students pursuing an emphasis area. All students must earn a C or better in each of the required core courses of the major and maintain a 2.0 grade point average in all of the courses applied to the communication degree.

Required Courses
- COMM 1030 Interpersonal Communication I (MOTR COMM 120) - 3 hours
- COMM 1050 Introduction to Mass Communication - 3 hours
- COMM 2231 Communication in the Organization - 3 hours
- COMM 2332 Intercultural Communication - 3 hours
- COMM 2235 Professional Communication - 3 hours
- COMM 3330 Research Methods in Communication I - 3 hours
- COMM 4920 Practicum in Applied Communication - 3 hours
- or COMM 4950 Internship in Applied Communication

Total Hours: 21

Emphasis Area Requirements
The interpersonal emphasis area focuses on communication between individuals and the impact of verbal and nonverbal communication on personal relationships. 15 credits are needed.

Up to six credit hours of Special Topics Courses, Directed Readings courses, and Supervised Research courses offered by the Communication and Media Department can be applied to the emphasis area if the specific topic of the course is relevant to the emphasis area.

Choose five of the following courses:
1. COMM 1369 Introduction to Health Communication
2. COMM 2230 Small Group Communication (MOTR COMM 125)
3. COMM 2240 Persuasive Communication
4. COMM 3130 Communication in Family, Dating, and Marriage
5. COMM 3337 Communication and Gender
6. COMM 3368 Advanced Health Communication
7. COMM 4500 Seminar in Fundamental Communication Theory
8. COMM 4650 Seminar in Fundamental Interpersonal Communication Theory

Total Hours: 15

Learning Outcomes
- Explore the roles that communication plays in personal and professional relationships
- Evaluate situations and apply interpersonal communication strategies that will be effective to achieve one's goals
- Apply theories and models of interpersonal communication phenomena to complex, real-life experiences
- Recognize and adapt to different cultures and perspectives
- Sharpen one's self- and other-awareness in order to successfully navigate conflict, manage teamwork, and enhance interpersonal relationships

First Year
- INTDSC 1003 - 16 hours

Communication BA, Mass Communication Emphasis

This emphasis area focuses on forms of communication that seek to reach broad audiences, such as news, movies, entertainment programming, video games, advertising, and social media. Courses address business strategies behind these forms of mass communication, how they are created, and how they affect individuals and society. Students pursuing this emphasis area gain a deeper understanding of some of the most fascinating and influential institutions in today’s society.

Students majoring in communication must complete a minimum of 36 credit-hours in communication courses. Students may complete either a general communication degree or they may select one of four different emphasis areas as a focus for their studies: Interpersonal Communication, Mass Communication, Applied Visual Communication, or Strategic Communication. To complete the degree with one of these emphases, the student must complete the 21 credit-hour core and at least 15 hours of electives from within the selected emphasis area. In addition, the skills and knowledge applied in the required Practicum/Internship should be consistent with the selected emphasis area. Students seeking a general communication degree must complete the 21 credit-hour core and can select elective courses from any combination of the emphasis areas.

General Education Requirements

Majors must satisfy the university and college general education requirements (p. 48). The college’s foreign language requirement may be taken in any language. Communication courses may not be taken on a satisfactory/unsatisfactory basis.

Degree Requirements

Emphasis Area Requirements

The strategic communication emphasis area deals with public and inter-
organizational communication intended to serve a specific company goal
or purpose. It is an interdisciplinary emphasis that can incorporate areas
from public relations, advertising, and organizational communication. 15
credits are needed.

Up to six credit hours of Special Topics Courses, Directed Readings
courses, and Supervised Research courses offered by the Communication
and Media Department can be applied to the emphasis area if the specific
topic of the course is relevant to the emphasis area.

Communication BA, Strategic Communication Emphasis

Strategic Communication aims to persuade and inform. Corporations,
nonprofits, government agencies, and small businesses use strategic
communication tactics to deliver messages to the public in order to
encourage individuals to take action. It is an interdisciplinary approach
that can incorporate elements from public relations, advertising, health,
and organizational communication. Courses in this emphasis area target
the skills students need to communicate with audiences through writing,
content development, and strategic messaging. Professions that may
apply strategic communication principles include advertising, public
relations or any profession that communicates with the public for a specific
purpose.

Students majoring in communication must complete a minimum of 36
credit-hours in communication courses. Students may complete either a
general communication degree or they may select one of four different
emphasis areas as a focus for their studies: Interpersonal Communication,
Mass Communication, Applied Visual Communication, or Strategic
Communication. To complete the degree with one of these emphases,
the student must complete the 21 credit-hour core and at least 15 hours
electives from within the selected emphasis area. In addition, the skills
and knowledge applied in the required Practicum/Internship should be
consistent with the selected emphasis area. Students seeking a general
communication degree must complete the 21 credit-hour core and can
select elective courses from any combination of the emphasis areas.

Please Note: This plan is an example of what a four year plan could look
like for a typical student. Placement exam scores in math as well as the
completion of coursework may change the plan. It should not be used in
the place of regular academic advising appointments. All students are
encouraged to meet with their advisor each semester. All requirements are
subject to change.

INTDSC 1003 is required only for first-time freshmen and transfer students
with less than 24 college credits.

1

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

### Communication BA/MA Dual Degree Program

The 2+3 Combined BA/MA program in Communication provides an opportunity for students of recognized academic ability and educational maturity to complete the requirements for both degrees in 5 years of full-time study. When all the requirements of the B.A./M.A. program have been completed, students will be awarded both the B.A. and M.A. degrees.

The combined program requires a minimum of 135 credit hours of which at least 30 must be at the graduate level. In qualifying for the BA, students must meet all University and College requirements.

Student should apply to the Department for admission to the 2+3 combined degree program in Communication during the semester they will complete 60 undergraduate credit hours. A cumulative grade point average of 3.25 or higher and three letters of recommendation from faculty are required. Students will be admitted to the 2+3 program under provisional status until they have completed 15 hours in that program with a grade point average of 3.0 or higher. After completion of the provisional period, with the recommendation of the Graduate Director, students can be granted full admission into the 2+3 program. Students must maintain a grade point average of 3.0 or higher throughout the combined program. Students who officially withdraw from the Combined Program who have successfully completed all the requirements for the B.A. degrees will be awarded the B.A. degree.

All of the Masters coursework must be taken under graduate status. However, with advance permission (Graduate Form C-1), students may take up to 6 credit hours of 5000/6000 level courses while still classified as an undergraduate. No 4000-level courses taken as an undergraduate may be applied to the Master’s degree. This means all combined section classes must be taken as graduate courses in order to count for the graduate degree. These 6 hours will be treated by the Graduate School as “undergraduate status” and they may be counted toward a master’s degree. Up to 15 credit hours of graduate courses can be applied to the undergraduate degree.

Communication MA

Admission Requirements

Applicants must have a baccalaureate in communication or a related discipline by the end of the semester in which they apply. The minimum cumulative GPA required for regular admission to the graduate program in communication is 3.25 on a 4-point scale. In addition, three letters of recommendation, at least two of which address the applicant’s potential to succeed in graduate studies in communication, are also required. Finally, international students who are non-native speakers of English must obtain a TOEFL iBT score of 100 to be considered for admission. Applicants with GPAs that do not meet the admission criterion may elect to submit other materials, such as scores on the Graduate Record Exam (GRE), to offset these deficiencies. Contact the Graduate Program Director for more information.

Degree Requirements

The MA in Communication requires either 30 or 36 credit hours of coursework, depending on the exit project. Candidates approved for a thesis or internship will complete at least 30 semester hours of approved study, at least 21 of which must be taken in courses offered by the department. Candidates completing the non-thesis, non-internship option must complete 36 semester hours of approved study, 27 of which must be taken in courses offered by the department. However, students who choose this option may be eligible to waive up to 6 hours if justified by prior coursework or professional experience. Please contact the Graduate Program Coordinator for additional details.

All students complete a 15 credit-hour core. This includes two required courses focusing on the fundamental theories and basic research methods within the field. To complete the core, students will select at least three of four “applications” courses dealing with communication processes within a particular context.

</tr>
</tbody>
</table>

Total Hours 15

Students who choose the internship or thesis option must identify a prospective committee, including a chairperson and two additional committee members, who will consult in development of an appropriate exit project. The expectation for each internship varies by project and committee, but submission of an essay in which the coursework and internship experiences are integrated is typically required. Internship exit projects and theses must be approved by the student’s committee and assigned a grade by the advisor. Students who complete a thesis or internship must complete no less than a 3 hour internship or 6 credit hour thesis.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Graduates will be able to interpret and evaluate academic and industry-oriented research reports and findings.
- Graduates will be able to evaluate and use scientific research and tested models of communication processes to identify, develop, and implement plans to achieve specific communication goals and apply them to real-world settings.
- Graduates will be able to produce effective messages and select appropriate channels to achieve specific outcomes within complex work environments.
- Graduates will be able to evaluate the implications of communication processes and develop messages and strategies that are consistent with ethical principles.

Communication Minor

Coursework for a minor in Communication consists of 15 semester hours of the core requirements for the major. Credit hours in and/or COMM 3395 may be substituted for credit hours listed below with written consent of the communication department chairperson.

Core Requirements:

<table>

Total Hours 15

At least 9 of the 15 hours required for the minor must be taken at UMSL.

Students must earn at least a C for all communication courses applied to the minor. A minimum GPA of 2.5 is required in the minor.
Computer Programming Education Undergraduate Certificate

The undergraduate certificate in Computer Programming Education is an 18 credit hour program. It is designed to provide secondary school science teachers with training needed to implement a range of computer programming related courses in their schools. A minimum GPA of 2.5 is required for admission.

A minimum of four courses must be taken in residence in the Department of Mathematics and Computer Science at UMSL. Courses may be substituted with the permission of the program director.

Core Courses
- CMP SCI 1250 Introduction to Computing 3
- CMP SCI 2250 Programming and Data Structures 3
- CMP SCI 2261 Object-Oriented Programming 3
- ED TECH 3420 Computer Programming and Pedagogy 1

Electives
Choose two of the following courses: 6
- CMP SCI 2700 Computer Organization and Architecture
- CMP SCI 2750 Linux Environment and Programming
- CMP SCI 3010 Web Programming
- CMP SCI 3702 Introduction to Cyber Threats and Defense
- CMP SCI 4010 Web Development with Java
- CMP SCI 4011 Web Development with Advanced JavaScript
- CMP SCI 4020 Introduction to Android Apps: Android Fundamentals
- CMP SCI 4200 Python for Scientific Computing and Data Science
- CMP SCI 4220 Introduction to iOS Programming and Apps
- CMP SCI 4222 iOS Apps
- CMP SCI 4610 Database Management Systems
- INFSYS 3844 Developing Business Applications in .NET

Total Hours 18

Computer Science BS

The B.S. in Computer Science combines the depth and breadth of traditional computer science studies with practical exposure to a wide variety of tools and technologies. This program is designed for those interested in software and computer systems. It provides students a solid foundation in computing and mathematics, and facilitates specializations offered through electives and certificates such as Artificial Intelligence, Cybersecurity, Data Science, Mobile Apps and Computing, and Internet and Web. In addition, students develop practical skills for working in groups and technical reading and writing. Students completing this degree have also gained professional and ethical perspectives and are well prepared for a challenging career or further graduate studies in Computer Science. The entire program can be completed in the evening, and most courses can also be completed online.

General Education Requirements
All department majors must satisfy the university and appropriate school or college general education requirements (p. 48). All mathematics courses may be used to meet the university’s general education breadth of study requirement in natural sciences and mathematics.

Satisfactory/Unsatisfactory Restrictions
All department majors may not take mathematical and computer sciences courses on a satisfactory/unsatisfactory basis. Students considering graduate study should consult with their advisers about taking work on a satisfactory/unsatisfactory basis.
Degree Requirements

All courses of the department presented to meet the degree requirements must be completed with a grade of C- or better. At least four courses numbered 3000 or above must be taken in residence. Students must have a 2.0 grade point average in the computer science courses completed.

A minimum grade of C- is required to meet the prerequisite requirement for any course except with permission of the department.

Students who are ready to begin their program with CMP SCI 2250 Programming and Data Structures, will be granted credit for CMP SCI 1250, Introduction to Computing, once they complete CMP SCI 2250 with a grade of C- or better.

Note: Courses that are prerequisites for higher-level courses may not be taken for credit or quality points if the higher-level course has been satisfactorily completed.

Degree Requirements in Computer Science

Candidates for the B. S. Computer Science degree must complete the following work:

1) Computer Science Core

<table>

Total Hours 71

There are no related area requirements for majors in Computer Science.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Apply logical reasoning, algorithmic and mathematical principles, and computer science theory to understand and solve a wide variety of computational problems
- Analyze computing problems, their size and scope, and input-output requirements
- Analyze, evaluate, and compare alternative solutions to computing problems, with particular reference to computational complexity, scalability, and usability
- Compare multiple general-purpose programming languages and select and use the appropriate languages for specific applications
- Design, implement (code) and document solutions to computational problems
- Create software systems following specific design and performance requirements within practical constraints
- Implement Internet applications on client and server sides
- Work effectively in teams to design, implement and evaluate solutions to computational problems
- Effectively communicate computer science concepts and solutions, verbally and in writing
- Recognize and promote the professional, social, ethical and legal issues and responsibilities in the computing / software profession

Handwritten mathematical notations and text.
experience) in the following areas. Courses in parentheses are UMSL recommended undergraduate courses that would satisfy the requirements.

1. Programming skills in C or C++ and Java (CMP SCI 1250 or CMP SCI 2250, and CMP SCI 2261)
2. Proficiency with Object-Oriented concepts and terminology (CMP SCI 2261)
3. Proficiency with dynamic data structures (CMP SCI 2250)
4. Proficiency with computer organization, architecture, or assembly level programming (CMP SCI 2700)
5. Proficiency with design and time/space analysis of algorithms (CMP SCI 3130)
6. Familiarity with Unix/Linux/OSX and with command-line processing, file system and permissions, shell and script programming (CMP SCI 2750)

Students must also have satisfactorily completed mathematics courses equivalent to the following UMSL courses:

1. One semester of calculus (MATH 1800)
2. A course in discrete mathematics (MATH 3000)
3. An elementary course in probability or statistics (MATH 1320)

An applicant missing some of the above requirements may be admitted on restricted status if there is strong supportive evidence in other areas. Such restricted students would have to take the suggested courses for the missing requirements or otherwise demonstrate proficiency. Special regulations of the Graduate School that apply to students on restricted status are described in the UMSL Bulletin.

Degree Requirements

Students choose one of the following options.

1. Traditional Computer Science option
2. Certificate option
3. Professional option

Students must complete the following common requirements, and additional specific requirements specific to the chosen option.

Candidates for the M.S. degree in Computer Science must complete 30 credit hours of course work in CMP SCI, subject to the Graduate School regulations. Up to 6 hours can be completed outside CMP SCI in a related field, based on student’s interests and with the permission of the Graduate Director. Up to a third of the required credit hours can be transferred into the program.

At least 18 credit hours must be numbered 5000 or above, and at least 3 credit hours must be at the 6000-level (research courses or thesis). All courses numbered below 5000 must be completed with a grade of at least B−.

All students must complete the following core courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

<td>Software Engineering</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Hours</strong></td>
<td></td>
<td><strong>9</strong></td>
</tr>
</tbody>
</table>

Students having prior similar courses may apply for a waiver if the course was passed at the undergraduate level (students will replace the core course with another) or credit if the course was passed at the graduate level. Students may also request a waiver based on a demonstrated similar experience or a combination of courses and experience.

Students may choose to write an M.S. thesis under the direction of a faculty member in the Department of Computer Science (CMP SCI 6900). A student writing an M.S. thesis must defend the thesis in an oral exam administered by a committee of three department members which includes the thesis director.

Additionally, students must attend at least five different seminars or colloquium presentations in the department prior to applying for graduation.

Traditional Computer Science Option

This option allows students to complete a traditional computer science graduate program. In addition to the common core requirements, students must also complete the following courses as part of the minimum 30 hours:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMP SCI 4760</td>
<td>Operating Systems</td>
<td>3</td>
</tr>
<tr>
<td>CMP SCI 5700</td>
<td>Computer Systems</td>
<td>3</td>
</tr>
</tbody>
</table>

Certificate Option

This option is for students interested in a very specific area of study as indicated by a certificate. In addition to the common core requirements, students must complete any of the graduate certificates in the department as part of the minimum of 30 credit hours.

For a list of current certificates visit the Computer Science Department page in the University Bulletin or visit the departmental list of current certificates.

Professional Option

This option is for professionals who already have a bachelor’s degree and have worked in a computing/technology field for a minimum of three years beyond graduation. It allows them to return to school for an advanced degree while utilizing some of their professional experience. Potential applicants should contact the program director for guidance on the assessment process and may get up to 6 credit hours for their relevant competencies. Each case will be reviewed individually.

Applicants must still satisfy all application and graduation requirements.

More Information

For further information about the degree, financial aid, and the regulations of the Graduate School, see our page on advanced degrees.

Computing Technology BS

The B.S. in Computing Technology is designed for those interested in broad and deep computing education but without some traditional advanced courses. This program is designed for students who want to focus on technologies, tools, and applications and transition to fulfilling careers. Students completing this degree can also further specialize by completing one of the certificates and find in-demand careers in many related areas such as cybersecurity, networks, internet programming, software and mobile apps development, data science, AI, graphics, or pursue additional graduate studies. The program can be completed in the evening, and most courses can also be completed online.
General Education Requirements
All department majors must satisfy the university and appropriate school or college general education requirements (p. 48). All mathematics courses may be used to meet the university's general education breadth of study requirement in natural sciences and mathematics.

Satisfactory/Unsatisfactory Restrictions
All department majors may not take mathematical and computer sciences courses on a satisfactory/unsatisfactory basis. Students considering graduate study should consult with their advisers about taking work on a satisfactory/unsatisfactory basis.

Degree Requirements
All courses of the department presented to meet the degree requirements must be completed with a grade of C- or better. At least four courses numbered 3000 or above must be taken in residence. Students must have a 2.0 grade point average in the computer science courses completed.

A minimum grade of C- is required to meet the prerequisite requirement for any course except with permission of the department.

Students who are ready to begin their program with CMP SCI 2250 Programming and Data Structures, will be granted credit for CMP SCI 1250, Introduction to Computing, once they complete CMP SCI 2250 with a grade of C- or better.

Note: Courses that are prerequisites for higher-level courses may not be taken for credit or quality points if the higher-level course has been satisfactorily completed.

Candidates for the B. S. Computing Technology degree must complete the following courses:

Core
- CMP SCI 1000 Computer Science Experiences 1
- CMP SCI 1250 Introduction to Computing 3
- CMP SCI 2250 Programming and Data Structures 3
- CMP SCI 2261 Object-Oriented Programming 3
- CMP SCI 2700 Computer Organization and Architecture 3
- CMP SCI 2750 Linux Environment and Programming 3
- CMP SCI 3010 Web Full Stack Development 3
- CMP SCI 3702 Introduction to Cyber Threats and Defense 3
  or CMP SCI 3780 Software Security
- CMP SCI 4010 Web Development with Java 3
- CMP SCI 4500 Introduction to the Software Profession 3
- CMP SCI 4610 Database Management Systems 3
- INFSYS 3820 Introduction to Systems Administration 3
- INFSYS 3844 Developing Business Applications in .NET 3

Computer Science Electives
Select six CMP SCI courses, numbered 2000 and above. May use up to two INFSYS courses as part of this requirement with permission of the department chair.

Mathematics and Statistics
- MATH 1320 Introduction to Probability and Statistics 3
- MATH 3000 Discrete Structures 3
- MATH 1100 Basic Calculus 3
  or MATH 1800 Analytic Geometry and Calculus I 3-5

Additional Skills
- ENGL 3130 Technical Writing 3

Total Hours 67-69

There are no related area requirements for majors in Computing Technology.

Learning Outcomes
Upon completion of the program, graduates will be able to:

- Apply algorithmic principles to solve a variety of computational problems
- Analyze computing problems, their size and scope, and input-output requirements
- Compare alternative solutions to computing problems
- Use multiple general-purpose programming languages for solving computational problems
- Design, implement (code) and document solutions to computational problems, especially for business applications
- Design, evaluate, and manage information technology infrastructure in an organization
- Create secure software systems that meet specified needs
- Work effectively in teams to design and implement solutions to computational problems
- Effectively communicate computing technology concepts and solutions, verbally and in writing
- Recognize and promote the professional, social, ethical and legal issues and responsibilities in the computing / software profession

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Corporate Controllership
Graduate Certificate

Program Description

The Graduate Certificate in Corporate Controllership provides students with the skills to succeed in corporate financial management. Topics emphasized include cost behavior and control, budgeting, forecasting, financial analysis, and business analytics.

Admission Requirements

Applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements.

Certificate Requirements

All course prerequisites and all course waivers are applicable. Substitute courses may be approved by the appropriate department chairperson and the Director of Graduate Business Programs. All 12 credit hours taken as part of this certificate transfer to the MBA degree program.

Required Courses

ACCTNG 5411  Financial Accounting and Reporting III  3
ACCTNG 5402  Financial Accounting and Reporting IV  3
ACCTNG 5403  Professional Accounting Research and Professional Writing in Accounting

Elective

Select one of the following courses:  3
ACCTNG 5403  Graduate Topics in Financial Accounting
ACCTNG 5412  Graduate Topics in Management Accounting: Controllership
ACCTNG 5451  Accounting and Auditing in Governmental and Not-for-Profit Entities

Total Hours  12

Counseling and Human Services
Minor

Students completing this minor will understand careers in counseling and other human service-related fields and assess their fit for those careers, gain awareness of communication and listening skills required of helping professionals, and appreciate important systemic considerations in mental health work. This minor will help students conceptualize the strengths and needs of diverse individuals and communities, the impact of their own intersecting identities on their interactions with other people, and how to communicate with others using skills in empathy, active listening, and conflict resolution.
The minor in counseling is open to any undergraduate student at UMSL. It is especially relevant for students majoring in the social sciences or any other field requiring strong communication skills and awareness of cultural diversity and advocacy. Additionally, each of the three required courses in the minor is open to any undergraduate student. In other words, students can take any of the undergraduate CNS ED classes in the minor without being enrolled in the minor.

The focus of the program is on academic preparation, not clinical practice. Students in this minor will be trained and positioned to work in bachelor's-level mental health service positions. Students who want to become clinical mental health counselors or school counselors can choose to seek licensure and/or certification after completing their master's degree in counseling. This minor would offer strong preparation to help students be successful in UMSL's counseling master's programs or to work or study in other helping professions such as psychology or social work.

The Minor in Counseling and Human Services requires 15 credits hours, including counseling core classes.

Students must earn a minimum grade of C- in each course in the minor and attain a 2.0 grade point average for all courses in the minor. All courses in the minor must be on a graded basis. A minimum of 9 credit hours included in the minor must be taken in residence at UMSL.

</table>

### Learning Outcomes

Demonstrate effective skills in interacting with individuals and groups and working with diverse populations. (Interpersonal/Helping Skills)

Articulate the needs of individuals and communities with diverse backgrounds in order to engage with social advocacy in a responsible way. (Social Justice and Advocacy)

Differentiate between mental health professions and how they support the mental health needs of individuals and groups and use this understanding to reflect upon the student's career journey. (Career and professional awareness)

### Counseling MEd, Clinical Mental Health Emphasis

#### Mission

The Clinical Mental Health Counseling Program of the Department of Education Sciences and Professional Programs prepares professional counselors, including mental health, career, addictions, couples/family, and child and adolescent counselors, to serve the mental health needs of culturally diverse individuals, groups, couples, and families in need. The program's outreach extends to schools, colleges and universities, community based organizations, business and industry, as well as independent practice. The program strives to develop a culturally diverse student population and to draw students from local, regional, national, and international locations.

#### Purpose

The M.Ed. in Clinical Mental Health Counseling program prepares clinical mental health counselors for positions in community colleges, universities, employment agencies, vocational rehabilitation agencies, probation and parole work, juvenile detention, alcoholism and drug abuse clinics, career planning and placement centers, community mental health agencies, family and children services, and various federally funded public service projects. Additionally, graduates are employed in career development, business and industry positions, especially in training and personnel areas. Others have moved into roles calling for research and evaluation skills. The program is designed to fulfill entry-level program standards of preparation. It also is intended to enable program graduates to apply for the Missouri License for Professional Counselors.
Admission

In addition to meeting the general admission requirements of the Graduate School, applicants to the M.Ed. must complete the program supplemental application, have two completed references on file, have an undergraduate GPA of 3.0, and upon admission will take CNS ED 6010, Theories of Counseling, in their first semester. Admissions will be conducted twice a year. The deadlines for application are March 1 for the fall semester and October 1 for the spring semester.

Since it is the objective of the counseling faculty to identify students with low potential for competent practice as early as possible and to initiate the necessary procedures for dealing with such students, faculty of the counseling program reserve the right to review students at any stage of their coursework. A U (Unsatisfactory) in any clinical course or any grade less than a B- in these core counseling courses will automatically trigger a review process by the Counseling Review Board.

CNS ED 6010  Theories of Counseling
CNS ED 6020  Ethical and Professional Issues in Counseling
CNS ED 6060  Helping-Relationship Skills
CNS ED 6270  School Counseling Practicum

CNS ED 6370  Clinical Mental Health Counseling Practicum I
CNS ED 6380  Clinical Mental Health Counseling Field Experience

The Counseling Review Board process, however initiated, may result in the termination of the student’s degree program or other required or recommended remedies to address deficiencies judged by the Counseling Review Board as related to the skills that are essential to the development of competent and ethical practices as a professional counselor.

Students admitted to the M.Ed. degree programs in counseling as “restricted graduate students” (see the “graduate study” rules in this Bulletin) must attain a 3.0 GPA in the 12 hours of course work at UMSL. Restricted students must include the following courses in the first 12 hours of coursework: CNS ED 610: Theories of Counseling and CNS ED 620: Ethical and Professional Issues in Counseling. A student on restricted status earning any grade less than a B- in either of these courses but still maintaining a 3.0 GPA, will be allowed to repeat the course one time and must earn a grade of B- or better to be fully admitted.

Master of Education: Emphasis in Clinical Mental Health Counseling

The clinical mental health counseling emphasis prepares professionals for work in community settings, universities, and businesses. Graduates are eligible for the Missouri Licensed Professional Counselor and National Certified Counselor credentials.

Core Curriculum (CNS ED)

CNS ED 6010  Theories of Counseling 3
CNS ED 6020  Ethical and Professional Issues in Counseling 3
CNS ED 6030  Foundations for Multicultural Counseling 3
CNS ED 6040  Group Procedures in Counseling 3
CNS ED 6050  Individual Inventory 3
CNS ED 6060  Helping-Relationship Skills 3
CNS ED 6070  Psychopathology and Diagnosis 3
CNS ED 6300  Foundations of Clinical Mental Health Counseling 3
CNS ED 6370  Clinical Mental Health Counseling Practicum I 3
CNS ED 6370  Clinical Mental Health Counseling Practicum II 3
CNS ED 6380  Clinical Mental Health Counseling Field Experience 6
CNS ED 6400  Career Information and Development 3
CNS ED 6500  Introduction to Systems Theory for Couples and Family Counseling 3
CNS ED 6700  Introduction to Addictive Behaviors and Addiction Counseling 3

One course from the advanced multicultural cognate which includes:

- CNS ED 6810  Integrating Religion and Spirituality in Counseling
- CNS ED 6820  Counseling Women Toward Empowerment
- CNS ED 6830  Counseling African American Clients
- CNS ED 6840  Social Class and Gender Diversity in Counseling
- CNS ED 6850  Social Class and Poverty Issues in Counseling
- CNS ED 6860  Human Sexuality in Counseling

Psychological Foundations and Human Development

The following course is required:

ED PSY 6210  Life-Span: Individual and Family Development 3

Educational Research and Evaluation Methods

The following course is required:

ED REM 6710  Educational Research Methods and Design 3

Electives and Area of Specialization

Electives and coursework in an area of specialization should be selected in consultation with the adviser. Areas of specialization are not required but may be chosen. They include career counseling, addictions/substance abuse counseling, child and adolescent counseling, couples and family counseling, and others.

Comprehensive Examination (Capstone Experience) 1

Total Hours 60

1 Please consult with the Department office for requirements and dates of this examination.

Learning Outcomes

The Master of Education in Counseling programs prepare professionals to work in educational settings - elementary, middle, or high schools - as school counselors or in clinical settings - clinics, community mental health centers, or private practice - as clinical mental health counselors. Counselors have professional preparation in the theory and practice of counseling, treatment planning, and career development.
The candidate learning outcomes of the school and clinical mental health counseling programs are to:

Be prepared to function effectively and ethically as counselors in a variety of professional settings which includes school, community, and clinical mental health settings.

1. Be self-aware and sensitive to their clients as people who exist in the context of different cultures and races and people who are potentially at risk.

2. Be able to flexibly and skillfully construct and apply theory and techniques to fit the changing needs of clients both individually and in groups, within school, community, and/or clinical mental health settings.

3. Be proficient with the understanding and human relations skills necessary to consult as part of a team effort, within a school, community, and/or mental health setting.

4. Be prepared to help individuals meet developmental concerns and needs both individually and in a variety of developmental group programs, within a school, community, or clinical mental health setting.

5. Be knowledgeable about career development and the use of appraisal instruments and test interpretation and their impact on individual planning.

6. Be knowledgeable about research methods and research literature.

7. Value developing professional expertise as a lifelong process.

Counseling MEd, School Counseling Emphasis

Mission

The School Counseling Program of the Department of Education Sciences and Professional Programs prepares professional school counselors to serve the academic, career, and personal/social needs of culturally diverse students in the elementary, middle, and secondary schools. The Counseling Program strives to develop a culturally diverse student population and to draw students from local, regional, national, and international locations.

Purpose

The M.Ed. in School Counseling degree prepares students to work as school counselors in public or private elementary, middle, or high school settings. Preparation is designed to enable students to deliver counseling services to schools and their extended communities. Students are trained to apply principles of learning, human development, counseling, research, and measurement within the schools. The program is approved by the Missouri Department of Elementary and Secondary Education. Students wishing to receive Missouri certification in Elementary School Counseling or Secondary School Counseling must complete all required courses. Students not possessing a teaching certificate must complete additional coursework to complete their certification requirements.

Admission

In addition to meeting the general admission requirements of the Graduate School, applicants to the M.Ed. must complete the program supplemental application, have two completed references on file, have an undergraduate GPA of 3.0, and upon admission will take CNS ED 6010, Theories of Counseling, in their first semester. Admissions will be conducted twice a year. The deadlines for application are March 1 for the fall semester and October 1 for the spring semester.

Since it is the objective of the counseling faculty to identify students with low potential for competent practice as early as possible and to initiate the necessary procedures for dealing with such students, faculty of the counseling program reserve the right to review students at any stage of their coursework. A U (Unsatisfactory) in any clinical course or any grade less than a B- in these core counseling courses will automatically trigger a review process by the Counseling Review Board.

| CNS ED 6010 | Theories of Counseling |
| CNS ED 6020 | Ethical and Professional Issues in Counseling |
| CNS ED 6060 | Helping-Relationship Skills |
| CNS ED 6270 | School Counseling Practicum |
| CNS ED 6280 | School Counseling Field Experience |
| CNS ED 6370 | Clinical Mental Health Counseling Practicum I |
| CNS ED 6380 | Clinical Mental Health Counseling Field Experience |

The Counseling Review Board process, however initiated, may result in the termination of the student’s degree program or other required or recommended remedies to address deficiencies judged by the Counseling Review Board as related to the skills that are essential to the development of competent and ethical practices as a professional counselor.

Students admitted to the M.Ed. degree programs in counseling as “restricted graduate students” (see the “graduate study” rules in this Bulletin) must attain a 3.0 GPA in the 12 hours of course work at UMSL. Restricted students must include the following courses in the first 12 hours of coursework: CNS ED 6010: Theories of Counseling and CNS ED 6020: Ethical and Professional Issues in Counseling. A student on restricted status earning any grade less than a B- in either of these courses but still maintaining a 3.0 GPA, will be allowed to repeat the course one time and must earn a grade of B- or better to be fully admitted.

The courses listed below meet the course work requirements for the M.Ed. degree, state certification, and licensing as a professional counselor:

Counselor Education

| CNS ED 6010 | Theories of Counseling |
| CNS ED 6020 | Ethical and Professional Issues in Counseling |
| CNS ED 6030 | Foundations for Multicultural Counseling |
| CNS ED 6040 | Group Procedures in Counseling |
| CNS ED 6050 | Individual Inventory |
| CNS ED 6060 | Helping-Relationship Skills |
| CNS ED 6200 | Foundations of School Counseling |
| CNS ED 6270 | School Counseling Practicum |
| CNS ED 6280 | School Counseling Field Experience |
| CNS ED 6400 | Career Information and Development |
| CNS ED 6600 | Theories and Techniques of Counseling Children and Adolescents |
Counseling programs are to:

1. Be prepared to function effectively and ethically as counselors in a variety of professional settings which includes school, community, and clinical mental health settings.

2. Be self-aware and sensitive to their clients as people who exist in the context of different cultures and races and people who are potentially at risk.

3. Be able to flexibly and skillfully construct and apply theory and techniques to fit the changing needs of clients both individually and in groups, within school, community, and/or clinical mental health settings.

4. Be proficient with the understanding and human relations skills necessary to consult as part of a team effort, within a school, community, and/or mental health setting.

5. Be prepared to help individuals meet developmental concerns and needs both individually and in a variety of developmental group programs, within a school, community, or clinical mental health setting.

6. Be knowledgeable about career development and the use of appraisal instruments and test interpretation and their impact on individual planning.

7. Be knowledgeable about research methods and research literature.

8. Value developing professional expertise as a lifelong process.

**Couple, Marriage and Family Counseling Graduate Certificate**

The Graduate Certificate in Couple, Marriage and Family Counseling (CMFC) may be pursued as a stand-alone credential or in conjunction with the Master’s Degree in Education in counseling, the Master’s in Social Work degree, the Ed.D., or the Ph.D. in Education. With advance planning, all 12 credits may be applied to the Master’s of Education in Clinical Mental Health Counseling. Completion of the CMFC certificate, however, does not guarantee acceptance into any other degree program (which requires a separate application for admission).

**Admission Requirements**

Requirements for admission to the CMFC certificate program are current “good standing” (non-probation) in an UMSL graduate mental health practitioner training program (such as counseling, social work, or psychology), OR all of the following criteria must be met:

1. Undergraduate degree with a GPA of 3.0 or better;

2. Enrollment in a graduate mental health practitioner training program, or completion of a mental health practitioner master’s degree;

3. Two letters of recommendation with at least one from a current or former college-level instructor (or someone with a graduate degree who can attest to the applicant’s capacity to complete graduate-level work);

4. Two-page personal statement explaining the applicant’s personal and professional goals.

**Learning Outcomes**

The Master of Education in Counseling programs prepare professionals to work in educational settings - elementary, middle, or high schools - as school counselors or in clinical settings - clinics, community mental health centers, or private practice - as clinical mental health counselors. Counselors have professional preparation in the theory and practice of counseling, treatment planning, and career development.

The candidate learning outcomes of the school and clinical mental health counseling programs are to:

1. Be prepared to function effectively and ethically as counselors in a variety of professional settings which includes school, community, and clinical mental health settings.

2. Be self-aware and sensitive to their clients as people who exist in the context of different cultures and races and people who are potentially at risk.
or CNS ED 7780 | Doctoral Internship
---|---
Total Hours | 12

1 For CNS ED 6380/CNS ED 7000/CNS ED 7780, the counseling must be completed at a site requiring the student to work with couples/families.

Creative Writing MFA

The application process is identical to that for the master of arts degree (p. 535), with these exceptions: there is one annual deadline for all applications, Feb. 15; a writing sample is required (15-20 poems or 20-40 pages of fiction); the GRE test is required only if the applicant seeks financial aid or a teaching assistantship. In addition to the Graduate School requirements, students must complete at least 39 hours, 30 of which must be in 5000-level courses. Nine hours may be taken in 4000-level courses approved by the department and Graduate School. Students will specialize in one genre, poetry or fiction. They must complete the following course work: 15 hours of workshops, three hours of literary journal editing (ENGL 5190), 3 hours of either ENGL 5170 or ENGL 5180 depending on specialization (fiction writers take ENGL 5170 and poets take ENGL 5180), 3 hours thesis (ENGL 6000). Total designated hours, 24. Any of the following can make up the remaining 15 hours, but we especially recommend the first three:

1. ENGL 5180 for fiction writers and ENGL 5170 for poets, the opposite of the students’ specialization.
2. A contemporary literature class offered by the MFA program or the MA program
3. A composition theory course, recommended mainly for those who want to teach later
4. another workshop
5. ENGL 5190, literary journal editing, a second time
6. Any other graduate level class in literature, linguistics, or composition offered by the Department of English
7. 5200-MFA readings course, or an independent study-IF you can find someone to work with you.
8. Up to 3 (9 hours) of 4000 level undergrad lit or linguistics classes offered by the Department of English, recommended especially for those without an English background.
9. One three hour class outside the Department of English, at least a 4000 level, and with all needed permissions from both departments that will enhance the student’s writing.

Complete information may be found in The Master of Fine Arts in Creative Writing, available from the English department.

Creative Writing Undergraduate Certificate

Requirements

Students earn the Certificate in Creative Writing by completing 18 hours in selected writing courses with a grade point average of 3.0 or better. The creative writing emphasis focuses the students’ effort toward producing original fiction, poetry, and creative nonfiction and can include other endeavors, such as publishing, feature writing, and copywriting. The specific requirements for the Creative Writing Emphasis are listed below.

Courses for the certificate should be chosen with the guidance of the program coordinator. If the student elects to complete English 4890 as one of the courses for the certificate, he or she should meet with the coordinator to make arrangements for the internship.

To receive this certificate, the student must take 18 hours chosen from the courses listed below, three of which should be creative writing courses. Creative writing courses have a CW designation after the course title in the list below.

2000-Level Courses

</tr>
<tr>
<td>ENGL 4162 Writers at Work</td>
</tr>
<tr>
<td>ENGL 4860 Editing and the Production Process</td>
</tr>
</tbody>
</table>

Capstone Course

Students may use ENGL 4895, ENGL 4890, ENGL 4140, or ENGL 4130 as their capstone course. If ENGL 4890 is used, it will be an internship in literary publishing, feature writing, or advertising copywriting. To use ENGL 4130 or ENGL 4140, the student must obtain the teacher’s permission and do extra work in the course. The Editing Litmag course, ENGL 4895, may also be used as the final course for this certificate.

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Identify and execute particular techniques of the genre, such as characterization, plot, dialogue, metaphor, meter, and rhyme
• Improve, sharpen, and extend these techniques in their own writing through revision
• Demonstrate practice in multiple creative writing genres
• Reflect on their own work in the context of literary traditions and aesthetic points of view
• Possess the ability to critically read and analyze the work of others
• Incorporate constructive criticism into the revising process
• Provide critical feedback to other writers during their creative process
• Experiment with literary traditions to break tradition
• Explain how different genres inform and intersect with one another
• Pursue ideas, techniques, and forms that are outside their comfort zone
• Demonstrate how professional publishing and editing functions, including how and where to send their work for publication
• Market their skills set as creative writers for employment

Criminology and Criminal Justice BS

The interdisciplinary curricula unify a body of knowledge from criminology, social science, law, public administration, and corrections, and provide the student with an understanding of the assumptions, values, and processes of the system of justice. Many pre-law students choose criminology and criminal justice as an undergraduate major because of the excellent preparation offered for law school.

General Education Requirements

Majors must satisfy the university and college general education requirements (p. 48). Foreign language proficiency is not required, although students are encouraged to take foreign language courses. Majors may not take the following courses on a satisfactory/unsatisfactory basis: criminology and criminal justice courses; SOC 3220, Quantitative Techniques in Sociology; or SOC 3230, Research Methods. Additionally, substitutions approved by departmental advisers for these courses may not be taken on a satisfactory/unsatisfactory basis.

Declaring the Criminology and Criminal Justice Major

Students must complete the following courses before declaring the major:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRIMIN 1100</td>
<td>Introduction to Criminology and Criminal Justice</td>
<td>3</td>
</tr>
<tr>
<td>CRIMIN 1110</td>
<td>Theories of Crime</td>
<td>3</td>
</tr>
<tr>
<td>CRIMIN 2210</td>
<td>Research Methods in Criminology and Criminal Justice</td>
<td>3</td>
</tr>
<tr>
<td>CRIMIN 2220</td>
<td>Statistical Analysis in Criminology and Criminal Justice</td>
<td>4</td>
</tr>
</tbody>
</table>

1 Students must successfully complete CRIMIN 2220 with a grade of C- or better within three attempts.

Degree Requirements

Courses used to fulfill the social science or state requirements may not be taken from courses in the major. Students may register for 3000-5000 level courses only after completing ENGL 3100 (Advanced Expository Writing).

Students may register for 3000-5000 level courses only after prerequisites have been satisfied or after obtaining a signature from the adviser in criminology and criminal justice or consent of the instructor.

Criminology majors may not take course numbers 1100, 2260, or 3345 offered through UM-Independent Studies to fulfill degree requirements in the major.

Core Curriculum

Bachelor of Science in Criminology and Criminal Justice candidates must complete the core curriculum listed below:

</tbody>
</table>

Select three additional CRIMIN courses at the 3000, 4000, or 5000 level: 9

Total Hours 37

Candidates must earn a minimum grade of (C-) in the following courses: CRIMIN 2220 Statistical Analysis in Criminology and Criminal Justice, and CRIMIN 4390 Seminar in Criminology and Criminal Justice.

Candidates must also have a cumulative grade point average of 2.0 or better in the major.

Credit for Police Officer Certified Police Academy Training

Credit may be allowed for individuals certified as law enforcement officers in the states of Missouri and Illinois, as well as certified Federal law enforcement officers/agents for police academy training. Consideration may be given to individuals certified as law enforcement officers/agents from other states on a case-by-case evaluation. Individuals who qualify
as certified law enforcement officers/agents may receive up to 15 hours of credit for Criminology and Criminal Justice (CCJ) coursework awarded at the discretion of the CCJ department faculty. To count toward a degree, the credit granted must be appropriate to the student’s curriculum.

**Expected Learning Outcomes**

- Students will demonstrate critical thinking to reflect a depth, breadth and integration of knowledge in the key areas of criminology and criminal justice, law, theory, research methods, statistics, and criminal justice policy.
- Students will demonstrate an understanding of the three areas of the criminal justice system: policing, courts, and corrections.
- Students will analyze the role that class, race, gender and culture play in crime and criminal justice.
- Students will be able to evaluate and report research findings and data in a professional and ethical manner.
- Graduates will be able to formulate and assess research questions, recognize the need for information and the knowledge to procure that information from relevant scholarly literature and databases, design research projects grounded in theory and scholarship, and evaluate data critically.

**Total Hours:** 120

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

**Criminology and Criminal Justice BS/MA Dual Degree Program**

The Department of Criminology and Criminal Justice offers a 2+3 degree program that allows students to simultaneously earn their BS and MA in Criminology and Criminal Justice in as few as 10 semesters. The BS and MA degrees are conferred at the same time, upon completion of the 2+3 program. Students in the 2+3 program will complete the MA through coursework. The master’s thesis option is not available for 2+3 degree program students.

The combined program requires a minimum of 138 credit hours, 30 of which must be taken in graduate status. Students accepted to the 2+3 degree program will be permitted to count up to 12 credit hours at the 4000-level or higher toward both the BS and MA degrees. 4000-level courses used toward the MA degree typically require additional graduate-level work. The remaining 18 credit hours must be at the 5000/6000 level.

Any 4000-level course taken before graduate status is conferred will apply to the undergraduate requirements only unless given prior permission from the Graduate School (up to 6 credits). Students are encouraged to work closely with the Undergraduate and 2+3 Program Directors to ensure that required courses are timed appropriately.

**Eligibility**

Students will need to have fulfilled the core curriculum requirements (p. 473) prior to applying for the 2+3 program, with the exception of CRIMIN 4390 (Seminar in Criminology and Criminal Justice).

**Junior/Senior Year Courses (taken in graduate status)**

**Total Hours:** 18
NOTE: A student must obtain permission from the 2+3 Program Director to take a 4000-level course and 6000-level course as two separate courses when they have the same name (e.g., CRIMIN 4350 Victimology and CRIMIN 6448 Victimology).

Admission

Admission to the 2+3 Program is a two-step process.

Provisional Admission

Applicants are considered for provisional admission if they meet the following four criteria:

1. earned 60 hours as an undergraduate
2. completed the core curriculum requirements for the Criminology and Criminal Justice major, with the exception of CRIMIN 4390
3. have a minimum GPA of 3.0, with a B or better in CRIMIN 2220 (Statistics) and CRIMIN 2210 (Research Methods)
4. have met with both the Undergraduate and 2+3 Directors in CRIMIN. Second semester seniors will not be considered for the 2+3 degree program.

The 2+3 Program Director, in consultation with the Undergraduate Director, will determine whether the student can apply for provisional status. Courses taken in provisional status do not count towards the 30 credit hours needed for the 2+3 degree. Therefore, it is recommended to apply for provisional status as a junior, preferably in the first semester of junior year.

Formal Admission

Applicants are considered for formal admission to the graduate school each semester after being granted provisional status. Thus, students should meet with the 2+3 Program Director each semester.

Applicants are considered for formal admission if they meet the following four criteria:

1. earned at least 90 hours as an undergraduate;
2. have a minimum GPA of 3.0 since being granted provisional status;
3. submitted at least one letter of recommendation from an UMSL Criminology and Criminal Justice professor; and
4. have met with the 2+3 Program Director in Criminology and Criminal Justice.

The 2+3 Program Director, in consultation with the Undergraduate Director, will determine whether the student can apply for formal admission. Final decisions concerning formal admission are made by the Program Director in consultation with the Graduate School. Students admitted at this stage are conferred graduate status and may take courses intended for graduate credit at this time. Students in graduate status; courses taken in provisional status do not count towards the 30 credit hours needed for the 2+3 degree. Therefore, it is recommended to apply for provisional status as a junior, preferably in the first semester of junior year.

Admission Requirements

The minimum GPA for regular admission to graduate study is 3.0 on a 4-point scale and students are expected to begin their course of study in the Fall semester. Admission is competitive.

Degree Requirements

The M.A. in Criminology and Criminal Justice requires the completion of 30 credit hours, at least 21 of which are required to be in courses housed in the Department of Criminology and Criminal Justice. 12 of these hours represent the core of the curriculum. Students may choose between a thesis and nonthesis course of study. Students whose cumulative GPAs fall below 3.0 after 9 or more hours of work will be placed on probation and given one semester to raise their cumulative GPAs to at least the 3.0 threshold.

Expected Learning Outcomes

- Develop a comprehensive understanding of the theories, methods and substance of issues in criminology and criminal justice and demonstrate an ability to synthesize knowledge in these areas.
- Develop a comprehensive understanding of interdisciplinary underpinnings (e.g., from sociology, psychology, political science, economics) of criminology and criminal justice issues and policies.
- Develop critical thinking and communication skills through the application of criminological theory and social science research methods.
- Develop a comprehensive understanding of the structure and functioning of the fundamental institutions (e.g., legislatures, police, punishment, supervisory) that are part of criminal justice systems.
- Develop comprehensive understanding of the role of research and its application for informing policies about criminal justice issues.

Plan of Study

- Required Coursework (12 hours)

- Three additional Criminology and Criminal Justice seminars at the 6000 level (9; non-core)
- Electives (9 hours)

Nine elective hours of coursework are required; some or all of these credits may be earned in Criminology and Criminal Justice 6000 level seminars not counted toward the 21 hour requirement. Students may take a maximum of two 4000-level courses in partial fulfillment of this requirement but they must have the prior approval of the Graduate
Criminology and Criminal Justice Minor

Requirements for the Minor

The minor has been designed to ground students in the basics of criminology and criminal justice.

Transfer Courses

Transfer courses are evaluated for acceptance on a case-by-case basis subject to the rules and regulations of the Graduate School. A maximum of 10 credit hours earned at other institutions can be credited toward the UMSL M.A. degree in Criminology and Criminal Justice.

Learning Outcomes

Without Thesis

Upon completion of the program, graduates will be able to:

- Demonstrate a thorough understanding of theory, methods, and substantive literature of criminology and criminal justice, and the interconnections between social theory, research, and policy
- Demonstrate a thorough understanding of the research methods of criminology and criminal justice
- Demonstrate a thorough understanding of the structure and functioning of the fundamental institutions (e.g., legislatures, police, punishment, supervisory) that are part of criminal justice system
- Analyze the role that social structure (e.g. race, class, gender, etc.) plays in crime and criminal justice
- Assess research questions, recognize the need for information and the knowledge to procure that information from relevant scholarly literature and databases, design research projects grounded in theory and scholarship, and evaluate data critically
- Be knowledgeable users of scientific research related to a wide range of criminology and criminal justice issues

With Thesis

Upon completion of the program, graduates will be able to:

- Demonstrate a thorough understanding of theory, methods, and substantive literature of criminology and criminal justice, and the interconnections between social theory, research, and policy
- Analyze the role that social structure (e.g. race, class, gender, etc.) plays in crime and criminal justice
- Formulate and assess research questions, recognize the need for information and the knowledge to procure that information from relevant scholarly literature and databases, design research projects grounded in theory and scholarship, and evaluate data critically
- Use scientific research related to a wide range of criminology and criminal justice issues
- Apply scientific research methods to produce original, theoretically relevant, and socially important criminological research
- Conduct research in accordance with the highest ethical standards and scientific integrity
- Effectively translate and communicate scientific findings effectively, in both oral and written forms

Expected Learning Outcomes

A Minor in Criminology and Criminal Justice (CCJ) will expose students to some of the same learning outcomes as the BA, thereby providing a foundation for pursuit of the BA if desired. The Minor in CCJ will also offer students the opportunity to advance their current criminology or criminal justice careers or pursue a new or more advanced career path.

- Students will be able to describe the structure and functioning of the fundamental institutions (e.g., police, courts, corrections) that comprise the criminal justice system in the United States.
- Students will be able to define basic laws, legal concepts, constitutional requirements, and legal procedures relevant to criminal justice professionals in the United States.
- Students will critically assess and evaluate contemporary issues and research in criminology and criminal justice.
- Students will be able to define and explain the major criminological and criminal justice theories, thereby helping them to better understand causes of crime and criminal behavior.
- Students will actively apply their theoretical knowledge and academic skills by formulating basic research hypotheses, conducting basic criminological research, and completing academic writing assignments and exams.

Criminology and Criminal Justice PhD

Eligibility

Undergraduate applicants must have a baccalaureate degree or expect one by the end of the academic year in which they apply. Applicants must have a grade point average of 3.0 or greater (on a scale of A = 4.0) for the last 60 hours of undergraduate work. Admission is competitive.

Graduate applicants who have or will have a master's degree must have a grade point average of 3.0 or greater (on a scale of A = 4.0) for their graduate course work.
Application

To consider an applicant for admission, the Department of Criminology and Criminal Justice must have transcripts, three letters of recommendation, GRE scores, statement of purpose, and a writing sample. Applicants with master’s degrees should include a chapter of their thesis. International students whose native language is not English are required to submit scores from the TOEFL examination.

Amount of Course Work

Sixty-post-baccalaureate hours of graduate work are required for the Ph.D. More than half of these hours must be completed in residence. A minimum of six credit hours of dissertation research (CRIMIN 7499) are required. Students may enroll for dissertation credits (CRIMIN 7499) only when all other degree requirements have been completed.

Required Courses

| CRIMIN 5415 | Foundations of Criminological Theory | 3 |
| CRIMIN 6400 | Proseminar | 3 |
| CRIMIN 6405 | Methods | 3 |
| CRIMIN 6410 | Statistical Applications in Criminology and Criminal Justice | 3 |
| CRIMIN 6420 | Contemporary Criminal Theories | 3 |
| CRIMIN 6450 | Criminal Justice Theory and Policy | 3 |
| CRIMIN 6465 | Qualitative Research Design | 3 |
| CRIMIN 6470 | Quantitative Research Design | 3 |
| CRIMIN 6480 | Multivariate Statistics in Criminology | 3 |

Area Courses | 12
At least twelve hours beyond those required must be taken at the 5000-level or higher within the CCJ Department.

Electives | 9
Three additional courses beyond the above requirements are taken as elective courses.

Qualifying Examination

Graduate students in the Ph.D. program do not become recognized as Ph.D. candidates until they have passed the qualifying examination. The goals of the qualifying examination are to assess the student's familiarity with substantive literature, theory and methods of criminology and criminal justice and to evaluate the student's intellectual imagination and ability to apply knowledge to broad criminological questions.

Further information about the qualifying exam is available from the department.

The Dissertation

The dissertation is required of all Ph.D. candidates and demonstrates the student's scholarly expertise. The dissertation process formally begins when all other requirements of the Ph.D. program have been met. The dissertation committee assists in selecting and developing the research problem and evaluates the student's work on that problem.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Demonstrate a mastery of theory, methods, and substantive literature of criminology and criminal justice, and the interconnections between social theory, research, and policy
- Analyze the role that social structure (e.g. race, class, gender, etc.) plays in crime and criminal justice
- Critically synthesize and analyze the nature, scope, and determinants of major criminological problems and identify gaps for further inquiry
- Independently apply scientific research methods and empirical analyses to produce high-quality original, theoretically relevant, and socially important criminological research
- Conduct independent high-quality research in accordance with the highest ethical standards and scientific integrity
- Effectively translate and communicate scientific findings effectively, in both oral and written forms
- Demonstrate knowledge of the profession needed for a successful research and/or teaching career in criminology and criminal justice

Cybersecurity BS, Computer Science Emphasis

The joint Interdisciplinary B.S. in Cybersecurity is designed for students who wish to pursue high-demand work roles such as cybersecurity specialist, cyber defense analyst, cyber defense incident responder, information security analyst, vulnerability assessment analyst, security architect, among a variety of other entry to mid-level cybersecurity and computing related fields. The Computer Science emphasis focuses on more technical aspects of the field. The entire program can be completed in the evening or online.

Students must choose one of the following emphasis areas at the time of application for admission.

- Computer Science (CS) Emphasis
- Information Systems and Technology (IST) Emphasis

Degree requirements vary depending on the chosen emphasis area (see common and emphasis area required courses and credit hours below).

General Education Requirements

Students must satisfy the university general education requirements. (p. 48) Many of the courses for the degree may be used to fulfill general education requirements. There is no foreign language requirement for this degree.

Satisfactory/Unsatisfactory Option

Courses required for the major may not be taken on a satisfactory/unsatisfactory basis.

Required Courses

The degree requires 24 credit hours of core coursework applicable to both emphasis areas. Emphasis specific required courses are listed below. Please see 4-year degree plans for recommend course sequences within each emphasis.

Required Core Courses

| ENGL 3120 or ENGL 3130 | Business Writing Technical Writing | 3 |
| CMP SCI 1250 | Introduction to Computing | 3 |
| CMP SCI 2250 | Programming and Data Structures | 3 |
| CMP SCI 2700 | Computer Organization and Architecture | 3 |
For the Computer Science emphasis all general degree requirements from credit hours of required courses.

Complete a major program of 75-77 (24 core + 51-53 emphasis-specific) credit hours of emphasis-specific coursework. Thus, candidates for the Cybersecurity degree with Computer Science emphasis requires 51-53 credit hours of core required coursework, the B.S. in Cybersecurity degree with Computer Science emphasis must credit hours of required courses.

For the Computer Science emphasis all general degree requirements from the College of Arts and Science (p. 56) apply.

### Emphasis Area Requirements

In addition to the 24 credit hours of core required coursework, the B.S. Cybersecurity degree with Computer Science emphasis requires 51-53 credit hours of emphasis-specific course work. Thus, candidates for the B.S. in Cybersecurity degree with Computer Science emphasis must complete a major program of 75-77 (24 core + 51-53 emphasis-specific) credit hours of required courses.

For the Computer Science emphasis all general degree requirements from the College of Arts and Science (p. 56) apply.

### Learning Outcomes

1. Understand and Describe the Confidentiality, Integrity, and Availability security objectives and key security principles that enable the development of security mechanisms
2. Demonstrate an understanding of physical, data link, network, transport, and application layers of data networking and identify potential information security pitfalls at each layer
3. Describe important secure software development principles and common web application security vulnerabilities
4. Describe common applications of cryptographic, network, application, and systems security defense mechanisms to improve information security
5. Understand the role of systematic information security risk management in fostering information security within organizations and the role of management and control frameworks such as NIST Special Publications and ISO 27000 series standards in doing so.

Total Hours: 24

Emphasis Area Requirements

In addition to the 24 credit hours of core required coursework, the B.S. Cybersecurity degree with Information Systems and Technology emphasis requires 81 credit hours of emphasis specific coursework (45 general business + 36 program specific). Thus, candidates for the B.S. in Cybersecurity degree with Information Systems and Technology emphasis must complete a program of 105 (24 core + 81 emphasis specific) credit hours of required courses.

For the Information Systems and Technology emphasis all general degree requirements from the College of Business Administration apply.

INFSYS 3806  Managerial Applications of Object-Oriented Programming I  3
INFSYS 3820  Introduction to Systems Administration  3
INFSYS 3830  Data Programming  3
INFSYS 3842  Data Networks and Security  3
INFSYS 3845  Database Management Systems  3
INFSYS 3858  Advanced Security and Information Systems  3
INFSYS 3862  Artificial Intelligence Applications for Business  3
INFSYS 3864  Applied Cryptography for Business  3
INFSYS 3866  Cloud Security for Business  3

Electives  9

Choose three of the following:

INFSYS 3807  Legacy Systems
INFSYS 3815  Object-Oriented Applications in Business
INFSYS 3816  Managerial Application of Object-Oriented Programming II
INFSYS 3817  Advanced Legacy Systems
INFSYS 3818  Management of Software Testing
INFSYS 3818  Management of Software Testing
INFSYS 3841  Enterprise Information Systems
INFSYS 3844  Developing Business Applications in .NET
INFSYS 3847  Web Design
INFSYS 3860  Data Integration
INFSYS 3890  Internship in Information Systems
INFSYS 3898  Seminar in Information Systems
INFSYS 3899  Independent Study in Information Systems

Total Hours: 120

1

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Cybersecurity BS, Information Systems Emphasis

Students must choose one of the following emphasis areas at the time of application for admission.

• Computer Science (CS) Emphasis
• Information Systems and Technology (IST) Emphasis

Degree requirements vary depending on the chosen emphasis area (see common and emphasis area required courses and credit hours below).

General Education Requirements

Students must satisfy the university general education requirements. (p. 48) Many of the courses for the degree may be used to fulfill general education requirements. There is no foreign language requirement for this degree.

Satisfactory/Unsatisfactory Option

Courses required for the major may not be taken on a satisfactory/unsatisfactory basis.

Required Courses

The degree requires 24 credit hours of core coursework applicable to both emphasis areas. Emphasis specific required courses are listed below. Please see 4-year degree plans for recommend course sequences within each emphasis.

Required Core Courses

ENGL 3120  Business Writing  3
or ENGL 3130  Technical Writing
CMP SCI 1250  Introduction to Computing  3
CMP SCI 2250  Programming and Data Structures  3

CMP SCI 2700  Computer Organization and Architecture  3
CMP SCI 2750  Linux Environment and Programming  3
INFSYS 3848  Introduction to Information Security  3
or CMP SCI 3702  Introduction to Cyber Threats and Defense
INFSYS 3868  Secure Software Development  3
INFSYS 3878  Information Security Risk Management and Business Continuity  3

Total Hours  24
Learning Outcomes

Upon completion of the program, graduates will be able to:

- Analyze a complex cybersecurity problem and apply principles of cybersecurity and business decision-making to identify potential solutions.
- Design, implement, and evaluate a cybersecurity-based solution to meet a given set of cybersecurity and business requirements.
- Communicate cybersecurity issues effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in cybersecurity practice based on legal and ethical principles.
- Function effectively as a member of a team engaged in activities appropriate to the cybersecurity discipline.
- Apply security principles and practices to maintain business operations in the presence of risks and threats.

If course is offered and topic is approved by the Information Systems and Technology department chair.

Please Note: This is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Cybersecurity Graduate Certificate

Information security is currently one of the most critical issues facing individuals, organizations, governments, and society. Media reports are replete with breaches of information security and the adverse consequences for all stakeholders involved. Thus, demand for professionals who understand the managerial and technical aspects of information security is growing. However, security is a rather broad field and includes a plethora of interconnected sub-specialties. Students or professionals seeking an entry into this field are often overwhelmed by its vastness. Further, since security is both a management issue and a technological issue, it is critical that students think about it from both perspectives and develop skills at their intersection.

This multidisciplinary certificate program is designed for students from diverse backgrounds who wish to get a foundation in information security. Given its flexible structure, it allows students to pursue either more technical courses throughout their program or have a mixture of technical and non-technical courses to match their interests and skill-sets.

The University of Missouri-St. Louis holds the prestigious National Center of Academic Excellence in Cyber Defense Education (CAE-CDE) designation granted by the National Security Agency and the U.S. Department of Homeland Security. We are currently one of only two institutions that hold such a designation in the state of Missouri and the only CAE-CDE in the St. Louis region. UMSL also holds an additional CAE-CDE designation in the Security Policy Development and Compliance focus area.
Admissions Requirements

Applicants must meet the following program admission requirements in addition to the general requirements of the Graduate School.

By the time of enrollment, prospective students must have obtained a baccalaureate degree or the equivalent from an accredited college or university. A minimum GPA of 3.0 on a 4.0 scale is required to be considered for regular admission. This GPA is higher than the minimum for the Graduate School. An undergraduate GPA below 3.0 will be considered on an individual basis for restricted admission. Applicants must demonstrate proficiency in college algebra or the equivalent. Graduate coursework also will be taken into consideration.

Applicants must obtain three letters of recommendation. The letters should be from those who are familiar with your professional and/or academic skills. At least one of the letters must be from a current or former college-level instructor. Written letters of recommendation must accompany the downloadable recommendation forms from the Graduate School. These materials should be sent by the letter writer directly to the Cybersecurity program director of either Computer Science or Information Systems.

Applicants must submit official transcripts to the graduate admissions office documenting the baccalaureate degree and all other prior college and graduate-level coursework completed.

Certificate Requirements

The Graduate Certificate in Cybersecurity is a four-course (12 credit hours) multidisciplinary program designed to help students from all backgrounds achieve a foundation in information security. It provides students the flexibility to focus on technical and/or managerial aspects of computer, software, network, and information security. With primary courses offered by the Computer Science and Information Systems and Technology departments, the program also allows students to choose from a range of electives based on student interests. This certificate serves a broad group of managers, technical specialists, and professionals with a bachelor’s degree. A prior background in information security is not required to enter this program.

Requirements

All students must take three required courses and one elective.

A maximum of two (2) 4000-level courses can be taken as part of the graduate certificate. A minimum of three courses must be taken from UMSL. Students may not receive both the Undergraduate and the Graduate Certificate in Cybersecurity.

For more information, students can contact the program directors at cybersecurityUMSL@umsl.edu.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- apply fundamental security principles and formal security models to solve problems in cybersecurity
- develop, maintain, and update an organization’s information security policies to meet security and compliance requirements
- select and execute appropriate security mechanisms to implement security policies of an organization
- communicate cybersecurity issues effectively to a range of audiences and work effectively in a team environment

Cybersecurity Minor

General Requirements

- All minors are 15 credit hours or 5 courses, including business core courses.
- Students must attain a 2.0 grade point average for all courses in the minor.
- Students must attain a minimum grade of C- in each course included in the minor.
- All courses in the minor must be on a graded basis.
- A minimum of 9 credit hours of coursework included in the minor must be taken in residence at UMSL.
- One must complete a baccalaureate degree at UMSL in order for a minor to be conferred.
- A minor may be added for up to two years following completion of the baccalaureate degree
Specific Requirements for the Minor

The Undergraduate Minor in Cybersecurity is a five-course (15 credit hours) program. It is designed to help students from all backgrounds achieve a foundation in Cybersecurity. It provides students the flexibility to focus on technical and/or managerial aspects of Cybersecurity. The program also allows students to choose from a range of electives based on student interests. This minor serves a broad group of managers, technical specialists, and professionals enrolled in any baccalaureate degree at UMSL. A prior background in information security is not required to enter this program. This minor may be added for up to two years following completion of the baccalaureate degree.

Requirements: All students must take four required courses and one elective.

Total Hours 15

Students may substitute the above courses with other courses upon approval by the Chair of the Information Systems department. In all cases, 15 hours are needed to complete the Undergraduate Minor in Cybersecurity. A minimum of four courses must be taken in residence at UMSL.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Analyze a complex cybersecurity problem and apply principles of cybersecurity and business decision making to identify potential solutions.
- Design, implement, and evaluate a cybersecurity-based solution to meet a given set of cybersecurity and business requirements.
- Describe professional responsibilities and make informed judgments in cybersecurity practice based on legal and ethical principles.
- Communicate with a wide range of audiences about critical challenges and solutions related to cybersecurity.
- Function effectively as a member of a team engaged in activities appropriate to the cybersecurity discipline.

Cybersecurity MS, Computer Science Emphasis

The joint interdisciplinary M.S. in Cybersecurity is designed for graduates to pursue high-demand work roles such as cybersecurity specialist, cyber defense analyst, cyber defense incident responder, information security analyst, vulnerability assessment analyst, or security architect, among a variety of other entry to mid-level cybersecurity and computing-related fields. The Computer Science emphasis focuses on more technical aspects of the field. The program can be taken part-time or full-time and can be completed in the evening or online.

Admission Requirements

Applicants must have at least a bachelor’s degree, preferably in cybersecurity, computer science, information systems, or a related area. Applicants with bachelor’s degrees outside of specified areas must demonstrate significant proficiency by showing competence (proving related academic or professional experience, or taking a test) in the following areas. Courses in parenthesis are UMSL courses that can be used to fulfill the requirement.

1. Programming skills in C/C++ and Java with at least three college semesters or comparable experience (CMP SCI 1250; CMP SCI 2250 and CMP SCI 2261, or INFSYS 3806 and INFSYS 3816)
2. Proficiency with computer organization, architecture, or assembly level programming (CMP SCI 2700)
3. Familiarity with Unix/Linux/OSX and with command-line scripting with tools (CMP SCI 2750)

Students must also have satisfactorily completed mathematics courses equivalent to the following UMSL courses:

1. Survey Calculus or Calculus I (MATH 1100 or MATH 1800)
2. An elementary course in probability or statistics (MATH 1320)
3. A course in discrete mathematics (MATH 3000)

A student missing some of the above requirements may be admitted on restricted status if there is strong supportive evidence in other areas. The student will have to take the missing courses, or otherwise demonstrate proficiency. Special regulations of the Graduate School that apply to students on restricted status are described in the UMSL Bulletin.

Entrance examinations

- The Graduate Record Examination (GRE) General Test is required only to apply for an assistantship (see http://www.gre.org/ttindex.html).
- International students are required to document English proficiency by providing scores from an internationally accepted standardized examination before a decision is made on admission.

Coursework

Candidates for the M.S. in Cybersecurity with Computer Science emphasis must complete 30 credit-hours of graduate coursework, subject to the Graduate School regulations. Of these, at least 18 hours must be numbered 5000 or above. All courses numbered below 5000 must be completed with grades of at least B-. Outside computer science and information systems, up to 6 hours of related course work is allowed upon permission of the Graduate Director.

Electives (Choose four courses. At least two must be from Computer Science)
Admission Requirements

Students must meet all general University of Missouri-St. Louis Graduate School admission and degree requirements.

Students must choose one of the following emphasis areas at the time of application for admission:

1. Information Systems Emphasis or
2. Computer Science Emphasis

Degree requirements vary depending on the chosen emphasis area.

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in Cybersecurity only after they have formally applied for admission through the Graduate School. Applications may be completed on-line.

Additional emphasis specific requirements are listed below.

Cybersecurity MS, Information Systems Emphasis

Students must meet all general University of Missouri-St. Louis Graduate School admission and degree requirements.

Students must choose one of the following emphasis areas at the time of application for admission:

1. Information Systems Emphasis or

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Apply fundamental security principles and formal security models to solve many complex problems in cybersecurity.
- Develop, maintain, and update an organization's information security policies to meet security and compliance requirements.
- Select and execute appropriate security mechanisms to implement security policies of an organization.
- Evaluate and maintain information systems for secure and reliable operations by employing appropriate risk management strategies.
- Communicate cybersecurity issues effectively to a range of audiences.
- Function effectively as a leader or member of a team engaged in activities appropriate to the cybersecurity discipline.
Cybersecurity Undergraduate Certificate

Certificate Requirements

The Undergraduate Certificate in Cybersecurity is a five-course (15 credit hours) interdisciplinary studies program. It is designed to help students from all backgrounds achieve a foundation in information security. It provides students the flexibility to focus on technical and/or managerial aspects of computer, software, network, and information security. With primary courses offered by Computer Science and Information Systems and Technology departments, the program also allows students to choose from a range of electives based on student interests. This certificate serves a broad group of managers, technical specialists, and professionals with or without a bachelor’s degree. A prior background in information security is not required to enter this program. A minimum GPA of 2.5 is required for admission.

Requirements

All students must take three required courses and two electives.

INFSYS 3878 | Information Security Risk Management and Business Continuity | 15 |

Students may substitute the above courses with other courses upon approval by the program adviser in either the Computer Science or Information Systems department. In all cases, 15 hours are needed to complete the Undergraduate Certificate in Cybersecurity. A minimum of three courses must be taken from UMSL. Students may not receive both the Undergraduate and the Graduate Certificate in Cybersecurity.

For more information, students can contact the program directors at cybersecurityUMSL@umsl.edu.

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Analyze a cybersecurity problem and apply principles of cybersecurity and business decision making to identify potential solutions
- Design, implement, and evaluate a cybersecurity-based solution to meet a given set of cybersecurity and business requirements
- Describe professional responsibilities and make informed judgments in cybersecurity practice based on legal and ethical principles
- Function effectively as a member of a team engaged in activities appropriate to the cybersecurity discipline

Data Science and Analysis BS, Biology Emphasis

General Education Requirements

Students must satisfy the university general education requirements (p. 48). Many of the courses for the degree may be used to fulfill math proficiency, information literacy, social science, and math and life/natural sciences requirements. There is no foreign language requirement for the degree.

Satisfactory/Unsatisfactory Option

Courses required for the major may not be taken on a satisfactory/unsatisfactory basis.

Degree Requirements

Upon completion of the program, graduates will be able to:

- Apply knowledge of statistical data collection, analysis and quantitative modeling techniques
- Demonstrate proficiency in industry-standard programming languages that support data acquisition, retrieval and analysis
- Select, apply and build data-based models and visualizations to devise solutions to data science problems
- Effectively communicate technical results and recommendations in various formats to appropriate audiences
- Reformulate problems or question in relevant mathematical terms
- Solve multivariable problems which involve algebra or calculus
- Apply statistical concepts and data science methods to analyze real-world problems using appropriate mathematical processes and techniques

Data Science and Analysis BS, Social Science Emphasis

General Education Requirements

Students must satisfy the university general education requirements (p. 48). Many of the courses for the degree may be used to fulfill math proficiency, information literacy, social science, and math and life/natural sciences requirements. There is no foreign language requirement for the degree.
Satisfactory/Unsatisfactory Option
Courses required for the major may not be taken on a satisfactory/unsatisfactory basis.

Degree Requirements
The BS in Data Science and Analysis consists of a set of core courses along with an emphasis area.

Core Course
MATH 1800 Analytic Geometry and Calculus I \(^1\) 3-5
or MATH 1100 Basic Calculus

Statistics Course
The Introduction to Statistics course should align with the student's Discipline Emphasis Area.
Choose one of the following:

- SOC/ANTHRO 3220 Quantitative Data Analysis in Social Science Research
- BIOL 4122 Biostatistics
- ECON 3100 Economic Data and Statistics
- CRIMIN 2220 Statistical Analysis in Criminology and Criminal Justice
- MATH 1320 Introduction to Probability and Statistics
- PSYCH 2201 Psychological Statistics
- POL SCI 3000 Political Analysis
- SCMA 3300 Business Analytics and Statistics
- MATH 4005 Exploratory Data Analysis with R
- CMP SCI 1250 Introduction to Computing
- CMP SCI 4200 Python for Scientific Computing and Data Science
- CMP SCI 4342 Introduction to Data Mining

Total Hours: 18-20

\(^1\) Students interested in the Computer Science emphasis area, the Mathematics Emphasis Area, or in taking additional mathematics courses should take MATH 1800.

Emphasis Area Requirements
Choose two of the following. Courses must be from at least two subject areas:

- ANTHRO 1005 Introduction to Biological Anthropology
- CRIMIN 1100 Introduction to Criminology and Criminal Justice
- ANTHRO 1011 Introduction To Cultural Anthropology (MOTR ANTH 201)
- ANTHRO 1019 Introduction to Archaeology
- CRIMIN 1110 Theories of Crime
- POL SCI 1100 Introduction to American Politics (MOTR POSC 101)
- POL SCI 1500 Introduction to Comparative Politics (MOTR POSC 202)
- POL SCI 1800 Introduction to International Politics (MOTR POSC 201)

Total Hours: 6

Learning Outcomes
Upon completion of the program, graduates will be able to:

- Apply knowledge of statistical data collection, analysis and quantitative modeling techniques
- Demonstrate proficiency in industry-standard programming languages that support data acquisition, retrieval and analysis
- Select, apply and build data-based models and visualizations to devise solutions to data science problems
- Effectively communicate technical results and recommendations in various formats to appropriate audiences
- Identify and apply appropriate social theories to understand social phenomena
- Critically evaluate explanations of human behavior and social phenomena
- Apply statistical concepts and data science methods to analyze real-world problems in communications, political science, sociology, or psychology
Data Science and Analysis BS, Supply Chain Analytics Emphasis

General Education Requirements

Students must satisfy the university general education requirements (p. 48). Many of the courses for the degree may be used to fulfill math proficiency, information literacy, social science, and math and life/natural sciences requirements. There is no foreign language requirement for the degree.

Satisfactory/Unsatisfactory Option

Courses required for the major may not be taken on a satisfactory/unsatisfactory basis.

Degree Requirements

The BS in Data Science and Analysis consists of a set of core courses along with an emphasis area.

Core Course

MATH 1800 Analytic Geometry and Calculus I 3-5
or MATH 1100 Basic Calculus

Statistics Course

The Introduction to Statistics course should align with the student's Discipline Emphasis Area.

Choose one of the following:

SOC/ANTHRO 3220 Quantitative Data Analysis in Social Science Research
BIOL 4122 Biostatistics
ECON 3100 Economic Data and Statistics
CRIMIN 2220 Statistical Analysis in Criminology and Criminal Justice
MATH 1320 Introduction to Probability and Statistics
PSYCH 2201 Psychological Statistics
POL SCI 3000 Political Analysis
SCMA 3300 Business Analytics and Statistics

Elective Course

MATH 4005 Exploratory Data Analysis with R
CMP SCI 4200 Python for Scientific Computing and Data Science

Total Hours 18-20

1 Students interested in the Computer Science emphasis area, the Mathematics Emphasis Area, or in taking additional mathematics courses should take MATH 1800.

Emphasis Area Requirements

SCMA 3301 Introduction to Supply Chain Management 3
SCMA 3320 Advanced Supply Chain and Operations Management 3
SCMA 4330 Business Logistics 3
SCMA 4331 Applied Supply Chain Modeling 3

SCMA 4350 Prescriptive Analytics and Optimization 3

Choose one of the following:

SCMA 3345 Predictive Analytics and Data Mining
SCMA 3390 Internship in Supply Chain and Analytics
SCMA 3398 Seminar in Supply Chain Management and Analytics 1
SCMA 4389 Supply Chain Management Practicum
SCMA 4398 Advanced Topics in Supply Chain and Analytics 1

Total Hours 18

1 Students must complete 3 credit hours in order to count the course as an elective.

Data Science Graduate Certificate

The graduate certificate in Data Science is a four-course (12 credit hour) program. It provides skills, both statistical and computational, and technologies for the growing and popular fields involving data science and analysis. All students must take two required courses and two electives.

A minimum of three courses must be taken from UMSL. A maximum of two courses can be used from the 4000-level. Courses may be substituted with the permission of the certificate coordinator. For more information, students can contact the department chair or email info@arch.umsl.edu.

Required Courses

CMP SCI 4200 Python for Scientific Computing and Data Science 3
CMP SCI 5340 Machine Learning 3
CMP SCI 5342 Data Mining 3

Elective Courses 3

Choose one of the following:

CMP SCI 4610 Database Management Systems
CMP SCI 5151 Statistical Methods for Data Science
CMP SCI 5370 Biological Data Science
CMP SCI 5390 Deep Learning
CMP SCI 5411 Data Visualization
MATH 4005 Exploratory Data Analysis with R
MATH 4220 Bayesian Statistical Methods

Total Hours 12

Data Science Undergraduate Certificate

Certificate Requirements

The undergraduate certificate in Data Science is a five-course (15 credit hour) program. It provides skills, both statistical and computational, and technologies for the growing and popular fields involving data science and analysis. A student pursuing this certificate can choose from one of the two tracks, the computational track or the statistical track. Each track
Digital and Social Media Marketing Graduate Certificate

The Graduate Certificate in Digital and Social Media Marketing is designed to provide a focused, intensive study of the applications of digital and social media marketing management within organizations. Topics include web analytics, search engine optimization, paid search techniques, user experience, social media applications and best practices, content management and creation, video production and podcasting. Based on course selection, they can further their knowledge in CRM techniques including Salesforce and Hubspot as well as LinkedIn B2B marketing strategies or advanced Facebook advertising. This certificate is suitable for those seeking their MBA or those with an undergraduate degree who are working professionals seeking to gain experience in this exciting and complex field.

All 12 credit hours taken as part of this certificate transfer to the MBA degree program.

Admission Requirements
Applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements.

Certificate Requirements
All course prerequisites and all course waivers are applicable. Substitute courses may be approved by the appropriate department chairperson and the Director of Graduate Business Programs.

Required Courses

</tbody>
</table>
MKTG 5733  |  Customer Relationship Management Strategies  

| Total Hours | 12 |

**Learning Outcomes**

Upon completion of the program, certificate earners will be able to:

- Assess the role and practice of marketing within an organization, including theoretical and applied aspects of the marketing discipline (MKTG 5700)
- Demonstrate fluency in digital marketing technologies such as web analytics, search engine optimization and paid search techniques (MKTG 5721)
- Design and measure the effectiveness of social marketing campaigns leveraging social networks to develop social media content to meet specific marketing objectives (MKTG 5722)
- Examine advanced customer relationship marketing techniques to reach new audiences and refine marketing campaigns (MKTG 5733).

**Digital Marketing Communications Minor**

This minor in Digital Marketing Communications is a 15-hour program designed to provide a focused, intensive study of the applications of digital and social media marketing communications, advertising and branding within organizations. This program serves marketing managers who want to understand a true integrated marketing and communication approach to sales, brand management, promotion, and consumer behavior.

**General Requirements**

- All minors are 15 credit hours or 5 courses, including business core courses.
- Students must attain a 2.0 grade point average for all courses in the minor.
- Students must attain a minimum grade of C- in each course included in the minor.
- All courses in the minor must be on a graded basis.
- A minimum of 9 credit hours of coursework included in the minor must be taken in residence at UMSL.
- A minor may be added for up to two years following completion of the baccalaureate degree.

**Specific Requirements for the Minor**

To obtain this minor, students must successfully complete the following four “core” marketing courses.

**Required Courses:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKTG 3700</td>
<td>Principles of Marketing</td>

<td>MKTG 3720</td>
<td>Advertising and Promotion</td>
</tr>
<tr>
<td>MKTG 3740</td>
<td>Marketing Analysis</td>
</tr>
</tbody>
</table>

**Total Hours**

15

**Learning Outcomes**

Upon completion of the program, graduates will be able to:

- Develop knowledge of the general digital industry landscape.
- Elaborate new online consumer behaviors made possible by digital technologies and identify firms’ strategies to cope with the new behaviors.
- Perform analysis of digital marketing strategies.
- Develop problem-solving skills using digital measurement and analytics.

**Doctor of Business Administration (DBA)**

**Admission Requirements**

Candidates must be committed to a rigorous program of study requiring periodic residence at the University of Missouri-St. Louis College of Business Administration as well as substantial reading and academic inquiry throughout the program. Applicants are expected to hold an MBA or other relevant advanced degree from an acceptable academic institution and to have ten years of significant professional and/or senior level management experience with high levels of responsibility. In exceptional cases, individuals without an advanced degree but other forms of advanced education and substantial managerial experience may be considered; other experience or qualifications may also compensate for less than 10 years of professional or managerial experience. Applicants must submit

- Most recent transcript(s). Scanned transcripts will be sufficient for the preliminary application. Official Transcripts in sealed envelopes will be required for final acceptance.
- Résumé or Curriculum Vitae (C.V.)
- Names and contact information of two people who can provide insights into the applicant’s academic potential and ability to think critically.
- Two essays (Statement of Commitment & Statement of Research Interest)

For more information and application deadlines, please go to http://dba.umsl.edu.

**Degree Requirements**

The DBA in the College of Business Administration requires completion of 60 credit hours. To ensure sufficient background for doctoral-level courses, students must demonstrate appropriate competence in quantitative reasoning, which is evidenced through completion of BUS AD 7301 and BUS AD 7109 or their equivalent to be determined by the DBA Director.
The Ed.D. in Educational Practice degree is designed for educational practitioners interested in: (1) leading critical analyses of existing problems of practice and (2) proposing solutions to those problems of practice that can be assessed for effectiveness. Students are admitted to a learning community of practice, under the mentorship of a faculty team that focuses on an area of educational practice (theme).

Learning Outcomes
Upon completion of the program, graduates should be able to:

- Design research studies based on sound methodological considerations
- Exhibit expertise in a stream of academic research
- Apply theory to address business problems
- Apply advanced quantitative methods to conduct original research
- Apply advanced qualitative methods to conduct original research
- Communicate research findings in both oral and written formats in a public forum
- Develop pedagogical skills for disseminating information in educational settings

Doctor of Education (Ed.D.)

Students seeking the Ed.D. degree are expected to meet the Graduate School’s (p. 304) relevant practitioner doctoral degree requirements and procedures.

Degree requirements

1. Learning Community of Practice Seminars 15-20
   - EDUC 7600 Learning Community of Practice I
   - EDUC 7610 Learning Community of Practice II
   - EDUC 7620 Learning Community of Practice III
   - EDUC 7630 Learning Community of Practice IV
   - EDUC 7640 Learning Community of Practice V
   - EDUC 7650 Learning Community of Practice VI

2. Laboratory of Practice
   - EDUC 7889 Laboratory of Practice 3

3. Required Common Courses
   - EDUC 7215 Data Analysis for Educational Practitioners 3
   - EDUC 7395 Research and Technical Writing for Educational Practitioners 2
   - EDUC 7615 Course EDUC 7615 Not Found
   - EDUC 7625 Building Socially Just and Ethical Educational Communities 3
   - EDUC 7710 Research Methods and Design for Educational Practitioners 3
   - ED REM 7781 Qualitative Methods in Educational Research I 3

4. Tools Courses
   - EDUC 7310 Integrating Technology in Learning for Educational Practitioners 1
   - EDUC 7325 Grant Writing for Educational Practitioners 1

5. Specialization 30-60
   Courses in an area of specialization (can include Master’s or Education Specialist work)

6. Dissertation in Practice
   - EDUC 7998 Dissertation in Practice Research 8

Total: minimum 80 hours, post-baccalaureate

Learning Outcomes
Upon completion of the program, graduates will be able to:

- Design solutions to complex problems of practice related to educational practices that are equitable, ethical, and socially just.
- Construct and apply educational practice knowledge to make a positive difference in the lives of individuals, families, organizations, or communities.
- Demonstrate effective collaboration and communication skills when working with diverse communities and building partnerships.
- Integrate practical and research knowledge with systemic and systematic inquiry in educational practice.
- Create solutions to problems of practice by generating, transforming, and using professional knowledge and practices related to educational practice.
- Take part in and develop communities of practice highlighting their value and function.
• Implement change in their professional practice and within educational practice organizations using critical reflective practice.

**Early Childhood Education BSEd**

Undergraduate educator preparation is both engaging and innovative. Our high quality undergraduate educator preparation programs are designed around research-based scholarship and practical community-based contexts. To prepare our undergraduate students as the highest quality educators for our region, we contribute to and harness the resources of our deep community partnerships. The community-based experiences broaden candidates’ understanding of their own identity as educators as well as enhancing their ability to build relationships, extend their skills, and understand family/community dynamics and interactions.

The Bachelor of Science in Education (B.S.Ed.) in Early Childhood Education prepares those who desire to teach birth through grade 3. Students electing this program will work directly with young children as a part of the professional courses offered. The curriculum provides learning background, applied knowledge, and best practice interventions for children of diverse populations who demonstrate varied abilities and levels of developmental growth.

Early Childhood Education with an emphasis in Early Childhood Special Education can be achieved with courses satisfactorily completed in this program of study. The core courses are combined with the emphasis area in Early Childhood Special Education. Please see the degree requirements listed below.

The Bachelor’s of Science in Early Childhood Education degree prepares candidates to teach in early childhood and preschool settings. Candidates who complete this program are eligible for Missouri teacher certification in Early Childhood (Birth-Grade 3).

**University General Education and Graduation Requirements**

Education majors must complete all General Education requirements (p. 48) and Graduation Requirements (p. 15) of the University as outlined in this Bulletin.

The courses listed below fulfill General Education requirements and best prepare students for advanced education coursework and licensure exams.

**First Year Writing**

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Continually reflect on professional growth to improve student learning outcomes/hance student learning.
- Integrate technology to create meaningful student learning within the context of a global digital society.
- Apply content and pedagogical knowledge to create authentic and deep learning experiences.
- Use learning science principles to design, implement, and evaluate curriculum based on learning standards.
- Foster effective working relationships with students, school colleagues, families, and community members to enhance student learning and well-being.
- Design and establish a safe, inclusive, and respectful learning environment that nurtures the intellectual, social, and personal development of all students.
- Use equitable frameworks and inclusive practices to create a variety of instructional and assessment opportunities adapted to diverse learners to encourage all students’ critical thinking, problem solving, and performance skills.

Early Childhood Education BSEd, Special Education Emphasis

Professional Education courses must be completed with a grade of C or better (a grade of C- or below must be retaken).

To be recommended for certification, candidates must satisfy all DESE requirements for grade point average and for certification-specific assessments.

Preparing for the Teacher Education Program

The following courses must be completed prior to applying for admission to the teacher education program:
TCH ED 1000  Building Community, Culture, and Learning in Education  1
TCH ED 1001  Early Clinical Experience: Community Agency  1
TCH ED 2000  Becoming a Professional Educator  1
TCH ED 2001  Early Clinical Experience: Schools  1

**Teacher Education Program**
The following courses are completed after acceptance into the teacher education program:

**ART ED 2179**  Visual Art Activities for Elementary School  3
MUS ED 2770  An Introduction to Music for the Elementary School Teacher  3
HLTH PE 3432  Teaching Health and Physical Education in Elementary Schools  3
TCH ED 3001  Mid-Level Clinical Experience: Diverse Learners  1
TCH ED 3212  Sociolinguistics and Communication in the Classroom  3
ED PSY 3312  Psychology of Learning, Instruction, and Assessment  3
ELE ED 3339  Teaching Elementary Literacy in Inclusive Settings: Literacy Instruction and Learning  4
ELE ED 4246  Teaching Elementary Mathematics in Inclusive Settings I  3
ELE ED 4342  Teaching Elementary Mathematics in Inclusive Settings II  3
SPEC ED 3318  Inclusive Classrooms  3
SPEC ED 4323  Classroom Management and Positive Behavioral Supports in Inclusive Educational Settings  3

**Total Hours**  32

**Emphasis Area Requirements**
In addition to the above courses, students must complete all required coursework for the emphasis area in Early Childhood Special Education:
ECH ED 3302  Introduction to Inclusive Early Childhood Education  3
ECH ED 3303  Curriculum and Practice Laboratory: Infant/Toddler  1
ECH ED 3304  Curriculum and Practice Laboratory: Preschool  1
ECH ED 3313  Curriculum and Practice: Infant/Toddler  2
ECH ED 3314  Curriculum and Practice: Preschool Education  2
ECH ED 3332  Literacy, Learning and Instruction For The Young Child  3
ECH ED 3350  Family and Professional Partnerships within School/Community  3
SPEC ED 4315  Language and Communication of Children with Special Needs  3

**Total Hours**  32
Economics BA

Nearly every decision which a person, business, or government makes involves trade-offs, and so, falls under the purview of economic analysis. In coursework for the Economics BA, students learn to think analytically and apply their knowledge to a broad range of topics such as property rights, environmental regulation, labor markets, and government regulation. Students also study the economy as a whole and explore the sources of growth, recessions, and inflation, as well as government policies designed to influence the economy. The study of economics is an excellent way to learn how to apply analytical skills to a range of interesting questions and problems.

General Education Requirements

All undergraduate economics majors must meet the university and college general education requirements (p. 48). Candidates for the B.A. degree may take any foreign language to meet this requirement. Candidates for the B.S. degree take mathematics and quantitative courses instead of the foreign language requirement. Courses in economics may be used to meet the university social sciences requirement.

Satisfactory/Unsatisfactory Option

Courses outside the major field and ECON 1001, Principles of Microeconomics, and ECON 1002, Principles of Macroeconomics, may be taken on a satisfactory/unsatisfactory basis.

Prerequisites

All prerequisites for economics courses must be completed with a C- or better.

Degree Requirements

Candidates for the B.A. degree must take at least 33, but no more than 45, hours in economics. At least 27 hours must be above the 2000 level. All core courses for the major must be completed with a grade of C- or better.

The following core courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>

</tbody>
</table>

Departmental Honors

A student may earn departmental honors with a GPA of 3.6 in economics and the recommendation of the department.

Complementary Areas of Study

The department encourages all majors to develop breadth in related disciplines. Course work and minors are available in a number of areas such as business administration, computer science, statistics, and political science. In addition, courses offered by the department are required for the B.S. in Actuarial Science (p. 374) and help satisfy the prerequisites for courses required for the Certificate in Actuarial Studies (p. 376) and have been approved by the Society of Actuaries (SOA) to satisfy the VEE requirements in Economics. Students should check with their advisers for recommendations concerning courses in these areas. The department suggests the following supplemental course work for students interested in pursuing doctoral-level graduate work in economics or careers in general business. It also encourages all students to obtain work experience by enrolling in the Internship in Applied Economics (ECON 4990).

General Business Preparation

It is recommended that students interested in pursuing careers in business also take:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCTNG 2400</td>
<td>Fundamentals of Financial Accounting</td>

</tr>
</tbody>
</table>
Learning Outcomes

- Use economic reasoning to interpret and evaluate social, political and economic arguments, and policies.
- Use mathematical methods to construct and analyze economic models and to analyze and interpret economic phenomena.
- Understand key market institutions such as property rights and contracts and economic organizations such as the Federal Reserve System and the International Monetary Fund and apply this knowledge to analyze economic behavior and evaluate public policy.
- Identify the causes and consequences of poverty and prosperity across and within societies.
- Predict changes in key macroeconomic variables in response to changes in social, political, and economic policy as well as non-economic events such as terrorist attacks, natural disasters, and changes in consumer confidence.
- Use basic statistical methods and statistical software to interpret and analyze economic data and relationships.
- Acquire a historical perspective through knowledge of the development of the U.S. economy and its key institutions.

ECON 1001 Principles of Microeconomics (MOTR ECON 102) 3
ECON 1002 Principles of Macroeconomics (MOTR ECON 101) 3
ECON 3001 Intermediate Microeconomics 3
ECON 3002 Intermediate Macroeconomics 3
ECON 3100 Economic Data and Statistics 3
ECON 4100 Introduction to Econometrics 4

ECON 4100 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Economics BS

Nearly every decision a person, business, or government makes involves trade-offs and can fall under the purview of economic analysis. In coursework for the Economics BS, students develop analytical and quantitative skills and apply their knowledge to a range of topics such as economic modeling, financial markets, and market analysis. Students also study the economy as a whole and analyze the sources of growth, recessions, and inflation, as well as government policies. The study of economics is an excellent way to learn how to apply analytical and quantitative skills to a range of interesting economic problems.

General Education Requirements

All undergraduate economics majors must meet the university and college general education requirements (p. 48). Candidates for the B.A. degree may take any foreign language to meet this requirement. Candidates for the B.S. degree take mathematics and quantitative courses instead of the foreign language requirement. Courses in economics may be used to meet the university social sciences requirement.

Satisfactory/Unsatisfactory Option

Courses outside the major field and ECON 1001, Principles of Microeconomics, and ECON 1002, Principles of Macroeconomics, may be taken on a satisfactory/unsatisfactory basis.

Prerequisites

All prerequisites for economics courses must be completed with a C- or better.

Degree Requirements

Candidates for the B.S. degree must complete at least 36, but no more than 50, hours in economics. At least 30 hours must be at or above the 2000 level. All core courses for the major must be completed with a grade of C- or better.

The following core courses are required:

ECON 1001 Principles of Microeconomics (MOTR ECON 102) 3
ECON 1002 Principles of Macroeconomics (MOTR ECON 101) 3
ECON 3001 Intermediate Microeconomics 3
ECON 3002 Intermediate Macroeconomics 3
ECON 3100 Economic Data and Statistics 3
ECON 4100 Introduction to Econometrics 4
Learning Outcomes

- Use economic reasoning to interpret and evaluate social, political and economic arguments, and policies.
- Use mathematical methods to construct and analyze economic models and to analyze and interpret economic phenomena.

Departmental Honors

A student may earn departmental honors with a GPA of 3.6 in economics and the recommendation of the department.

Complementary Areas of Study

The department encourages all majors to develop breadth in related disciplines. Course work and minors are available in a number of areas such as business administration, computer science, statistics, and political science. In addition, courses offered by the department are required for the B.S. in Actuarial Science (p. 374) and help satisfy the prerequisites for courses required for the Certificate in Actuarial Studies (p. 376) and have been approved by the Society of Actuaries (SOA) to satisfy the VEE requirements in Economics. Students should check with their advisers for recommendations concerning courses in these areas. The department suggests the following supplemental course work for students interested in pursuing doctoral-level graduate work in economics or careers in general business. It also encourages all students to obtain work experience by enrolling in the Internship in Applied Economics (ECON 4990).

Graduate School Preparation

It is recommended that students considering doctoral-level graduate work in economics also take:

- MATH 1800 Analytic Geometry and Calculus I (strongly recommended) 3-5
- or MATH 1100 Basic Calculus
- Select two of the following quantitative courses: 6-8
  - ECON 4030 Managerial Economics
  - ECON 4040 Booms and Busts in the Economy: Data and Theory
  - ECON 4110 Applied Econometrics
  - ECON 4120 Time Series Econometrics for Economics and Finance
  - ECON 4130 Business and Economic Forecasting
  - ECON 4150 Mathematical Economics
  - ECON 4160 Geospatial Analysis in the Social Sciences
  - ECON 4170 Fundamentals of Cost-Benefit Analysis

Mathematics courses numbered 1900 or above with consent of advisor

</table>

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 26 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are
encouraged to meet with their advisor each semester. All requirements are subject to change.

Economics BS/MA Dual Degree Program

The B.S./M.A. (also known as the “2+3”) program is an accelerated program that allows students to complete a B.S. and a M.A in economics in five years. The program allows students to apply 12 of the M.A. credit hours towards the B.S., reducing the overall required hours for the two degrees from the standard 150 (120 for the B.S. plus 30 for the M.A.) to 138 hours.

The M.A. in Economics requires 30 credit hours; at least 21 hours must be completed in residence.

The following 3 courses (9 credit hours) are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 5001</td>
<td>Microeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5002</td>
<td>Macroeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5100</td>
<td>Econometric Theory and Methods</td>
<td>3</td>
</tr>
</tbody>
</table>

In addition, 21 credit hours of electives must be completed. At most, six of these credit hours may be economics courses at the 4000 level (excluding ECON 4100 and ECON 4150 which cannot be utilized as part of the M.A. degree); all other electives must be at the 5000 level or higher.

Of the 30 hours taken in the M.A. program, 12 of these hours (per the approval of the Graduate Director) will also count toward the undergraduate B.S. requirements. All other requirements for the B.S. degree remain in effect.

Admission Requirements

Applicants must have completed between 60 and 108 credit hours. Applicants must have a minimum G.P.A. of 3.0 (both overall and in economics courses) and must be nominated by a full-time regular economics faculty member. Applicants must have completed all of the general education requirements as well as college algebra (or a higher level mathematics course), introductory microeconomics and introductory macroeconomics. Those accepted with fewer than 90 semester credit hours are accepted only on a provisional basis. Once the student has completed 90 semester hours of coursework (typically including ECON 3001, ECON 3002, ECON 3100, ECON 3200, MATH 1800, and preferably ECON 4100) with a satisfactory G.P.A. (minimum G.P.A. of 3.0 overall and in economics courses) the provisional status is dropped.

It is recommended that applicants apply when they have completed 90 credit hours; further, it is recommended that applicants should complete intermediate microeconomics (ECON 3001) and/or introductory econometrics (ECON 4100) before applying.

AWarding of Degree

Both degrees (the B.S. and M.A.) will be awarded when all requirements for the entire program have been completed. In other words, the B.S. and M.A. degrees will be simultaneously awarded at the completion of study.

Students who officially withdraw from the B.S./M.A. Dual Degree Program in Economics and who have successfully completed all of the requirements for the B.S. degree will be awarded the B.S. degree.

Economics MA

Admission Requirements

An undergraduate major in economics is not required for acceptance into the program. Application for admission may be submitted at any time, although class work formally begins in late August, mid-January, and mid-June. Candidates must meet the general admission requirements of the Graduate School, submit GRE scores (Advanced Economics optional), and submit two letters of recommendation from persons qualified to judge the candidate’s potential for success in the program.

The admissions decision is based on the applicant’s academic transcript, GRE scores, letters of recommendation, and a personal narrative on the application form.

Degree Requirements

The M.A. in Economics requires 30 credit hours; at least 21 hours must be completed in residence.

Candidates need not have an undergraduate degree in economics. However, students are expected to have taken intermediate micro- and macro-economics, mathematical economics, and introductory econometrics prior to the beginning of the core curriculum. Students that do not have these courses will take these courses first; credits earned in these courses do not count towards the 30 hours required for the MA.

Required Core Courses

The following courses or their equivalents are required for the M.A. in Economics. Students with previous education in economics or business may waive some of these courses.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 5001</td>
<td>Microeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5002</td>
<td>Macroeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5100</td>
<td>Econometric Theory and Methods</td>
<td>3</td>
</tr>
</tbody>
</table>

Electives

Candidates must complete at least 21 hours of electives. A maximum of 6 hours of economics electives may be taken at the 4000 level. With the approval of the graduate coordinator, students may take up to 9 hours of graduate courses outside the Department of Economics. In particular, students interested in business economics may take up to three approved graduate business courses for their electives.

Departmental Honors

A student may earn departmental honors with a GPA of 3.75 in all required courses for the M.A. degree and the recommendation of the department.

Complementary Areas of Study

Students with a public policy focus can complete the M.A. in Economics and the Public Policy Administration (PPA) Graduate Certificate in Policy and Program Evaluation (PPE) (p. 658). It is possible to earn the Certificate without any additional coursework beyond what is required for the M.A. alone.

Learning Outcomes

Upon completion of the program, graduates will be able to:
Economics MA, Business Economics Emphasis

Admission Requirements
An undergraduate major in economics is not required for acceptance into the program. Application for admission may be submitted at any time, although class work formally begins in late August, mid-January, and mid-June. Candidates must meet the general admission requirements of the Graduate School, submit GRE scores (Advanced Economics optional), and submit two letters of recommendation from persons qualified to judge the candidate's potential for success in the program.

The admissions decision is based on the applicant's academic transcript, GRE scores, letters of recommendation, and a personal narrative on the application form.

Degree Requirements
Like the General Option of the Economics MA, the Business Economics option requires 30 credit hours. Subject to approval from the Director of Graduate Studies, as many as nine credit hours may be waived based on previously completed graduate education. Independent of any waived courses, the 30 credit-hour program must be completed within a six-year period. A minimum of 21 credit hours must be completed while enrolled in the MA program at UMSL.

Required Courses
- ECON 5001 Microeconomic Analysis 3
- ECON 5002 Macroeconomic Analysis 3
- ECON 5100 Econometric Theory and Methods 3

Electives 21
- Financial Economics Electives (Choose 3 courses)
  - ECON 5120 Advanced Topics In Time Series Econometrics
  - ECON 5200 Monetary Theory and Policy
  - ECON 5210 Financial Markets
  - ECON 5300 International Markets
  - ECON 5301 International Monetary Analysis

Total Hours 30

Departmental Honors
A student may earn departmental honors with a GPA of 3.75 in all required courses for the M.A. degree and the recommendation of the department.

Complementary Areas of Study
Students with a public policy focus can complete the M.A. in Economics and the Public Policy Administration (PPA) Graduate Certificate in Policy and Program Evaluation (PPE) (p. 658). It is possible to earn the Certificate without any additional coursework beyond what is required for the M.A. alone.

Economics Minor
Candidates for a minor in economics must take a minimum of 15 hours in economics.

The following courses are required:
- ECON 1001 Principles of Microeconomics (MOTR ECON 102) 3
- ECON 1002 Principles of Macroeconomics (MOTR ECON 101) 3

For the remaining 9 hours, 3 hours must be at or above the 2000 level and 6 hours must be at or above the 3000 level. It is recommended that students take ECON 3001, Intermediate Economic Theory: Microeconomics and/or ECON 3002, Intermediate Economic Theory: Macroeconomics. ECON 3100, Economic Statistics, cannot be counted towards the economics minor if the student has also taken SCMA 3300 or the equivalent.

A GPA of 2.0 or better is required for courses presented for the minor. The satisfactory/unsatisfactory (s/u) option may be applied to ECON 1001 and only.

Learning Outcomes
- Apply the concepts of choice and opportunity cost to basic situations involving scarcity, and be able to clearly identify feasible choices.
- Understand supply, demand, and how markets operate and be able to identify welfare outcomes for consumers and producers.
- Understand the determination of the growth and short-run fluctuations of an economy.
- Appraise how government policies, monetary policies and fiscal policies in particular, affect output, unemployment, inflation and growth.

Education Administration EdS

The Ed.S. is designed for individuals who want to take their career, and their ability, to the next level. Students in the Ed.S. program may choose a plan of study that will prepare them for one of three Missouri Department of Elementary and Secondary Education (DESE) certification areas: Superintendent, Special Education Program Director, and Initial Principal Certification. Please note, the superintendent certification track is an online cohort program in collaboration with colleagues at the University of Missouri - Columbia and the University of Missouri - Kansas City.

The Ed.S. in Education Administration requires at least sixty (60) graduate credit hours of a planned program and may include no more than thirty (30) credit hours of an approved master's degree. One-half of all hours must be completed at UMSL.

Admission Standards

To be admitted to the Ed.S. in Education Administration program students must meet the following criteria:

1. Be admitted without qualification to the UMSL Graduate School;
2. Have a grade point average of at least 3.0 on a scale of 4.00 in graduate studies in education (Master's degree) from an accredited institution;
3. Have on file at least three (3) recommendations including the following: one (1) from an educator presently occupying a position equal or similar to that which the applicant aspires upon completing the Ed.S. and one (1) from someone other than a member of the applicant's family who can comment on the applicant's character;
4. Applicants must have a minimum of two years teaching experience. For candidates seeking superintendent certification, a current principal certification and experience as a building-level leader is preferred.

Degree Requirements

There are three distinct plans of study for individuals seeking an Ed.S. Degree. Each candidate must complete the following core courses or an equivalent. Courses may have been taken as part of a master's degree program.

<table>
<thead>
<tr>

<td><strong>Total Hours</strong></td>
<td><strong>15</strong></td>
<td></td>
</tr>
</tbody>
</table>

Emphasis Area Requirements

This plan of study prepares students with a current principal certification and building-level leadership experience to become inquiring, reflective school leaders at the district level. This unique online program is a collaboration with three campuses in the University of Missouri System: Columbia, Kansas City, and St. Louis. Students will work with students enrolled at the partner universities and receive instruction from professors at the different institutions based on expertise and experience. The program aligns with the Missouri Department of Elementary and Secondary Education (DESE) and the Missouri Leadership Standards for superintendent certification. We serve a diverse population of graduate students who are making a positive difference in students’ lives.

For students who have obtained an approved master's degree in education administration (minimum 30 credit hours), the Ed.S. is an additional 30 credit hours (Minimum of 60 total credit hours). Candidates should consult with an advisor to ensure their courses align to specific certification requirements.
Internships and State Assessments

Students will complete a total of three semester hours of an internship during the fall and/or spring semester. An approved mentor, usually in the school district in which the student is employed, must be approved by the student’s advisor. The mentor must be serving in an assistant superintendent or superintendent capacity, must have superintendent certification, and must have an Ed.S. or doctoral degree. The internship requires an action research project which will serve as a capstone examination for the program.

To be certified, students must take the appropriate content exam as required by the Missouri Department of Elementary and Secondary Education.

The plan of study for this certification area is below:

<table>

Education MEd, Curriculum and Instruction Emphasis

The Master’s Degree in Education is an accredited program appropriate for K-12 teachers, specialists, department chairpersons, and those who work in informal learning or international educational settings. Candidates choose electives that will support their personal growth and development as an educational leader to impact the communities with which they work.

Diverse candidates will engage in a learner-centered environment committed to the success of historically marginalized and diverse students, research, and community engagement. Within diverse education settings, candidates will: advance pedagogical knowledge, recognize inequalities in educational opportunity, design differentiated assessments to inform practice, critically examine professional practice, and demonstrate commitment to ethical professional practice.

It is important that both candidates and advisors plan ahead to ensure courses are taken when they are offered in the schedule. Programs must be planned with an academic advisor and meet the approval of the faculty advisor, adhering to the College of Education and UMSL Graduate School policies.

The M.Ed. with an emphasis in Curriculum and Instruction is designed for graduate candidates who wish to further their competencies as educators, curriculum specialists, or instructional leaders. Educators must develop evidence-based, socially just, and differentiated curriculum to prepare all learners for a digital, global society. This emphasis area explores common issues in curriculum design, implementation, and leadership in K-12 environments. Candidates will create cutting-edge curriculum and design innovative instruction for their educational settings.

Admission Requirements

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in Education only after they have formally applied for admission through the Graduate School. Applications may be completed on-line.

Degree Requirements

Curricular Program

The M.Ed. in Education consists of 4 required courses (12 hours) plus candidate choice from emphasis areas and electives (18 hours) for a total of 30 hours. Program requirements are met by:

(a) completing 2 required foundation courses (6 hours) toward the beginning of the M.Ed. program
(b) completing the coursework for an emphasis area and/or electives (18 hours)
(c) completing the 2 exit research capstone classes (6 hours)

Most emphasis areas indicate 3-6 required courses. In addition, electives allow candidates to construct an individualized set of target courses. Transfer graduate credit from another institution may also fit into elective hours.

Candidates seeking certifications with the master’s program may require additional coursework and State of Missouri assessments (Reading, TESOL, initial teacher certification).

Required Core

Students are required to complete the following courses within the first 15 hours of study.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH ED 6010</td>
<td>Examining History, Community and Social Justice in Education</td>
<td>3</td>
</tr>
<tr>
<td>ED PSY 6030</td>
<td>Instruction, Learning, and Assessment¹</td>
<td>3</td>
</tr>
<tr>
<td>Total Hours</td>
<td></td>
<td>12</td>
</tr>
</tbody>
</table>

¹ Students earning the TESOL emphasis area will be required to take TCH ED 6240 instead of ED PSY 6030 in order to meet state certification requirements.

Specific Requirements for the Emphasis Area
In addition to the required courses above (12 hours), candidates seeking an emphasis in Curriculum and Instruction are required to complete the following coursework (18 hours) for a program total of 30 hours.

**Education MEd, Early Childhood Education Emphasis**

The Master's Degree in Education is an accredited program appropriate for K-12 teachers, specialists, department chairpersons, and those who work in informal learning or international educational settings. Candidates choose electives that will support their personal growth and development as an educational leader to impact the communities with which they work.

Diverse candidates will engage in a learner-centered environment committed to the success of historically marginalized and diverse students, research, and community engagement. Within diverse education settings, candidates will: advance pedagogical knowledge, recognize inequalities in educational opportunity, design differentiated assessments to inform practice, critically examine professional practice, and demonstrate commitment to ethical professional practice.

It is important that both candidates and advisors plan ahead to ensure courses are taken when they are offered in the schedule. Programs must be planned with an academic advisor and meet the approval of the faculty advisor, adhering to the College of Education and UMSL Graduate School policies.

The M.Ed with an emphasis in Early Childhood Education is designed to enable candidates to further their competencies as teachers or program administrators in public and private early childhood programs. Early childhood education also prepares candidates for positions in community agencies that support families and young children.

**Admission Requirements**

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in Education only after they have formally applied for admission through the Graduate School. Applications may be completed on-line.

**Degree Requirements**

**Curricular Program**

The M.Ed. in Education consists of 4 required courses (12 hours) plus candidate choice from emphasis areas and electives (18 hours) for a total of 30 hours. Program requirements are met by:

(a) completing 2 required foundation courses (6 hours) toward the beginning of the M.Ed. program

(b) completing the coursework for an emphasis area and/or electives (18 hours)

(c) completing the 2 exit research capstone classes (6 hours)

Most emphasis areas indicate 3-6 required courses. In addition, electives allow candidates to construct an individualized set of target courses. Transfer graduate credit from another institution may also fit into elective hours.

Candidates seeking certifications with the master's program may require additional coursework and State of Missouri assessments (Reading, TESOL, initial teacher certification).

**Required Core**

Students are required to complete the following courses within the first 15 hours of study.

<table>
<thead>

**Education MEd, Elementary and Special Education Teacher Certification Emphasis**

The Master's Degree in Education is an accredited program appropriate for K-12 teachers, specialists, department chairpersons, and those who work in informal learning or international educational settings. Candidates choose electives that will support their personal growth and development as an educational leader to impact the communities with which they work.
Diverse candidates will engage in a learner-centered environment committed to the success of historically marginalized and diverse students, research, and community engagement. Within diverse education settings, candidates will: advance pedagogical knowledge, recognize inequalities in educational opportunity, design differentiated assessments to inform practice, critically examine professional practice, and demonstrate commitment to ethical professional practice.

This program of study is for individuals with a bachelor's degree who would like to pursue elementary teacher certification and the Master’s Degree in Education. This option leads to Missouri Initial Teacher Certification in Elementary Teaching 1-6 with an add-on in Mild/Moderate Cross-Categorical Disabilities, K-12 Special Education.

It is important that both candidates and advisors plan ahead to ensure courses are taken when they are offered in the schedule. Programs must be planned with an academic advisor and meet the approval of the faculty advisor, adhering to the College of Education and UMSL Graduate School policies.

**Admission Requirements**

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in Education only after they have formally applied for admission through the Graduate School. Applications may be completed on-line.

Education MEd, Reading Emphasis

The Master’s Degree in Education is an accredited program appropriate for K-12 teachers, specialists, department chairpersons, and those who work in informal learning or international educational settings. Candidates choose electives that will support their personal growth and development as an educational leader to impact the communities with which they work.

Diverse candidates will engage in a learner-centered environment committed to the success of historically marginalized and diverse students, research, and community engagement. Within diverse education settings, candidates will: advance pedagogical knowledge, recognize inequalities in educational opportunity, design differentiated assessments to inform practice, critically examine professional practice, and demonstrate commitment to ethical professional practice.

It is important that both candidates and advisors plan ahead to ensure courses are taken when they are offered in the schedule. Programs must be planned with an academic advisor and meet the approval of the faculty advisor, adhering to the College of Education and UMSL Graduate School policies.

The M.Ed. program with an emphasis in Reading (K-12 literacy) is designed to enable candidates to further their competencies as teachers of reading, writing and other communication arts. The program also prepares them for positions as literacy coaches, reading specialists, curriculum specialists, consultants in areas of communication arts, and/or for further graduate study. This program may lead to the Department of Elementary and Secondary Education (DESE) requirements for Special Reading K-12 certification in Missouri.

Admission Requirements

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in Education only after they have formally applied for admission through the Graduate School. Applications may be completed on-line.

Degree Requirements

To be recommended for Missouri Department of Elementary and Secondary Education Special Reading Certification K-12, teachers must have a valid Missouri teacher’s certificate, two years of approved classroom teaching experience as determined by DESE, successful completion of any required DESE assessments, and the following:

- A course(s) in child and adolescent psychology (3-6 hours)
- A course in psychology/education of exceptional child (3 hours)
- A course in reading in the content area (3 hours)
- A course in language acquisition or development specifically targeting children with special needs (3 hours)
- A course in behavior intervention strategies (3 hours)
- A course in counseling techniques (3 hours)

These certification requirements may be in addition to the courses listed in the program of study above. Students should consult their graduate advisor for information about these courses.

### Degree Requirements

#### Curricular Program

The M.Ed. in Education consists of 4 required courses (12 hours) plus candidate choice from emphasis areas and electives (18 hours) for a total of 30 hours. Program requirements are met by:

1. **Required Core**
   - Completing 2 required foundation courses (6 hours) toward the beginning of the M.Ed. program
   - Completing the coursework for an emphasis area and/or electives (18 hours)
   - Completing the 2 exit research capstone classes (6 hours)

Most emphasis areas indicate 3-6 required courses. In addition, electives allow candidates to construct an individualized set of target courses. Transfer graduate credit from another institution may also fit into elective hours.

Candidates seeking certifications with the master’s program may require additional coursework and State of Missouri assessments (Reading, TESOL, initial teacher certification).

1 Students earning the TESOL emphasis area will be required to take TCH ED 6240 instead of ED PSY 6030 in order to meet state certification requirements.

#### Specific Requirements for the Emphasis Area

In addition to the Required Core (12 hours), candidates seeking an emphasis in TESOL are required to complete the following coursework (18 hours) for a total of 30 hours.

### Education MEd, Teaching English to Speakers of Other Languages Emphasis

The Master’s Degree in Education is an accredited program appropriate for K-12 teachers, specialists, department chairpersons, and those who work in informal learning or international educational settings. Candidates choose electives that will support their personal growth and development as an educational leader to impact the communities with which they work.

Diverse candidates will engage in a learner-centered environment committed to the success of historically marginalized and diverse students, research, and community engagement. Within diverse education settings, candidates will: advance pedagogical knowledge, recognize inequalities in educational opportunity, design differentiated assessments to inform practice, critically examine professional practice, and demonstrate commitment to ethical professional practice.

It is important that both candidates and advisors plan ahead to ensure courses are taken when they are offered in the schedule. Programs must be planned with an academic advisor and meet the approval of the faculty advisor, adhering to the College of Education and UMSL Graduate School policies.

The M.Ed. program with an emphasis in TESOL is designed to meet the need for teachers who can apply knowledge about language learning to their culturally and linguistically diverse classrooms. This program meets the requirements for a Missouri Department of Elementary and Secondary Education (DESE) endorsement in Teaching English to Speakers of Other Languages (TESOL).

### Admission Requirements

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in Education only after they have formally applied for admission through the Graduate School. Applications may be completed on-line.

TCH ED 6250 Methods and Materials for Teaching English to Speakers of Other Languages 3
TCH ED 6260 Practicum in Teaching English to Speakers of Other Languages 3

Total Hours 18

Degree Program

To ensure time for review and decision, applicants should submit the
Graduate School application, college transcripts, and any program-specific
materials (e.g. supplemental application, letters of recommendation, etc.) well in advance of the November 1st deadline. Please note that
unofficial transcripts can be uploaded with the Graduate School application
before regular admission to any program will be granted. In addition, applicants are urged
to request transcripts and letters or recommendation two weeks before
completing the online application. Consideration of applications cannot be
undertaken until all materials are available.

Degree Requirements

Students in the Counseling emphasis area complete the following
requirements:

Research Methods (21 hours)

ED REM 6710 Educational Research Methods and Design 3
CNS ED 7020 Seminar in Counseling Research 3
CNS ED 7025 Advanced Counseling Research 3
ED REM 7771 Quantitative Research Methods I 3
ED REM 7781 Qualitative Methods in Educational Research I 3

One of the following:

ED REM 7772 Quantitative Research Methods II 3
ED REM 7782 Qualitative Methods in Educational Research II 3

One of the following:

ED REM 6730 Educational Program Development and Evaluation 3
Upon completion of the program, graduates will be able to:

- Demonstrate and apply the ethical and culturally relevant practice of counseling
- Be adept at conceptualizing clients using theory and integrating theory and research into counseling practice
- Demonstrate skills in the process and practice of clinical supervision and consultation, including the use of theory, assessment, gatekeeping, and ethical and culturally relevant strategies
- Develop skills in teaching, including course design, assessment, andragogy, differentiation, and gatekeeping.

### Learning Outcomes

Upon completion of the program, graduates will be able to:

- Demonstrate the ethical practice of conducting rigorous and intentionally designed counseling research.
- Develop and refine scholarship skills through advanced qualitative and quantitative coursework to be able to disseminate findings through professional presentations or publications
- Demonstrate abilities to serve as leaders in the field and advocates for the profession, for clients, and with marginalized populations to stand up against issues of systemic inequity

### Education PhD, Educational Leadership and Policy Studies Emphasis

#### Admission and General Requirements

In addition to meeting the application and admissions requirements of the Graduate School, students must submit:

- Three letters of recommendation (at least two from individuals with earned doctorates, preferably prior instructors).
- An original essay.
- A professional resume.
- Evidence of above-average academic records. A GPA of 3.5 or higher is preferred.
- GRE scores. Quantitative and verbal scores at or above the 50th percentile are preferred. An analytical writing score of 4.0 or higher is preferred.

Admission is competitive, and a favorable vote of an admission interview committee, composed of faculty in the emphasis area, is required.

#### Degree Program

- Coursework: A minimum of 60 credit hours is required beyond the master’s degree, including 6 hours of dissertation research. A minimum of 42 of these hours must be completed in residence. For students who have not completed a master’s degree, a minimum of 90 hours, postbaccalaureate, is required, including 6 hours of dissertation research (the Graduate School’s residency requirement applies). Students in the Counseling emphasis area complete the following requirements: a minimum 90 hours, postbaccalaureate, including 12 hours of dissertation research (the Graduate School’s residency requirement applies).
- Dissertation: All students must defend orally a written dissertation proposal to their dissertation committee. A dissertation embodying the results of original research must be accepted by the dissertation committee and the Graduate School.

### Admission Application

To ensure time for review and decision, applicants should submit the Graduate School application, college transcripts, and any program-specific materials (e.g., supplemental application, letters of recommendation, etc.) well in advance of the December 1st deadline. Please note that unofficial transcripts can be uploaded with the Graduate School application to expedite admissions decisions; however, official transcripts must be received directly from all prior institutions attended before regular admission to any program will be granted. In addition, applicants are urged to request transcripts and letters or recommendation two weeks before completing the online application. Consideration of applications cannot be undertaken until all materials are available.

### Learning Outcomes

Upon completion of the program, graduates will be able to:

- Access, critically examine, and use theoretically informed literature in human development, the science of learning, and sociocultural factors that explain variation in learning and developmental pathways.
- Examine and apply complex interrelationships that affect issues of diversity, equity and social justice from multiple and cross-disciplinary perspectives to teaching and learning processes contexts.
- Formulate questions, increase knowledge, use statistics intelligently, and make ethical decisions integrating multiple perspectives using reason, evidence, and teaching and learning processes contexts.
- Analyze, categorize, and evaluate qualitative, quantitative, and/or mixed methods approaches within an education context.

- Design and produce rigorous research projects as an independent scholar using qualitative, quantitative, and/or mixed methods approaches.
- Apply and demonstrate leadership skills to promote community engagement or civic action to benefit the public good related to teaching and learning processes settings.
- Communicate effectively and engage with others constructively across contexts, languages, and media.

Educational Administration MEd, Community Education Emphasis

The M.Ed. in Administration, Community Education will not be accepting applications for the 2022-2023 Academic Year due to curricular revisions.

The Department of Education Sciences and Professional Programs provides students with an opportunity, through the M.Ed. in Community Education, to cultivate the insights, capacities, and skill sets required to lead educational innovation, harness the power of technology for community engagement, strengthen critical literacies, bridge in-school, out-of-school, and lifelong learning, and build stronger, more resilient communities. Through coursework and hands-on, place-based experiences, students will grapple with such concepts and practices as heritage, relevance, inclusion, collaboration, critical analysis, dialogue, co-created experiences, community capacity building, and empowerment. This degree is the nexus of putting knowledge into action in the service of community goals.

The M.Ed. in Community Education has 100% online options. The degree provides a scaffold from entry-level to leadership positions in parks, museums, science centers, public agencies, and other community service organizations. It also equips students to pursue practitioner-focused doctoral degrees (e.g., Doctorate in Educational Practice, Ed.D.) and research-focused doctoral degrees (e.g., Doctorate of Philosophy, Ph.D.) in education.

Admissions Requirements

Admissions requirements include an earned baccalaureate degree from an accredited college or university with an overall grade point average of 3.0 or higher, a completed UMSL Graduate School Application Form, official transcripts from all colleges and universities attended, and two letters of recommendation.

Degree Requirements

The M.Ed. in Community Education consists of 33 hours of graduate coursework in the following areas:

Total Hours: 33

Students must complete the courses listed in this program or an equivalent, as approved by the program director. Students who have prior graduate credits may be able to transfer 9-12 credits towards this degree. In this matter, it is important to consult with your academic advisor as specific courses are required for certification. Additionally, the courses must have been completed within the specified time requirements outlined by the Graduate School rules.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Develop and implement a vision for a school in order to guide the learning of all students. (Visionary Leadership)
- Promote effective instructional practices, utilize effective assessments, and ensure professional growth among school faculty. (Instructional Leadership)
- Implement operational systems, oversee personnel, and ensure equitable and strategic use of resources. (Managerial Leadership)
- Interact professionally with students, staff, family, and community, respecting and embracing diversity and inclusion. (Relational Leader)
- Actively engage in reflective practice and apply new knowledge and understanding in order to drive appropriate change. (Innovative Leadership)

Educational Psychology MEd

The Department of Education Sciences and Professional Programs provides training in the theory, research, and practice of the psychological mechanisms underlying teaching, learning, and human development of students as well as the related school processes and
The department also specializes in educational research, psychoeducational assessment, and school psychology.

The M.Ed. in Educational Psychology is a flexible degree that allows candidates to tailor the program curriculum to meet individual interests and career goals. The degree is not associated with any particular position or career; rather it is intended to enhance current performance in a variety of educational and community-based settings and roles, to facilitate advancement within one’s current position, and to prepare candidates for other advanced degrees in education or psychology. The M.Ed. in Educational Psychology degree consists of 30 hours of graduate coursework in the following areas:

A. Foundations (15 hours)

B. Electives (12 hours)

C. Capstone Experience (3 hours)

The foundations courses consist of 6 hours of study regarding the educational and psychological foundations, 3 hours of human development, and 6 hours of educational research and evaluation methods. The specific courses chosen within each category, the electives, and capstone experience will vary according to the candidate’s interests.

**Admissions Requirements**

Admissions requirements include an earned baccalaureate degree from an accredited college or university with an overall grade point average of 3.0 or higher, a completed UMSL Graduate School Application Form, official transcripts from all colleges and universities attended, a statement of purpose, and a curriculum vitae.

**Curriculum (30 hours)**

**Educational Studies BES, Early Childhood Emphasis**

The Bachelor of Educational Studies (BES) is perfect for students excited about education, but looking for challenges outside the traditional classroom. The BES will prepare you for a career as an educator in many agencies. Many institutions emphasize informal learning and many different settings. Employers at these institutions are eager to hire people who have training and relevant experience in education, management, marketing, and technology. This degree is designed to be a creative, flexible, and inter-disciplinary bachelor’s degree that emphasizes practical skills in multiple settings.

**General Education Requirements**

Students follow the University’s General Education Requirements (p. 48), Mathematical Skills, Advanced Expository Writing, American History and Government, and Cultural Diversity Requirements. Due to prerequisites of required courses all students must take PSYCH 1003 and POL SCI 1100. Students pursuing the Exercise Science emphasis area must take BIOL 1012, BIOL 1013, and MATH 1030.

**Learning Outcomes**

Upon completion of the program, graduates will be able to:

- Engage their clients while adding diverse perspectives that articulate how difference shapes experience and human identity.
- Apply their unique understanding of social justice by addressing institutional and social barriers that limit access, equity, and achievement.
- Conduct themselves in a respectful and professional manner that views failure as an opportunity to learn, as they effectively work on multiple projects.
- Apply reasoning and critical thinking while making connections between information, data, and arguments to synthesize and interpret information, forming valid conclusions.
- Apply unique leadership, management, and communication skills to articulate thoughts/ideas effectively using oral, written, nonverbal, and visual communication skills in a variety of formats and contexts.
- Apply knowledge and skills as innovative childhood educators, managers, directors, program planners, or curriculum developers to effectively manage early childhood programs.
- Demonstrate a unique application of best practices of teaching young children outside a traditional classroom setting.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Engage their clients while adding diverse perspectives that articulate how difference shapes experience and human identity.
- Apply their unique understanding of social justice by addressing institutional and social barriers that limit access, equity, and achievement.
• Conduct themselves in a respectful and professional manner that views failure as an opportunity to learn, as they effectively work on multiple projects.
• Apply reasoning and critical thinking while making connections between information, data, and arguments to synthesize and interprets information, forming valid conclusions.
• Apply unique leadership, management and communication skills to articulate thoughts/ideas effectively using oral, written, nonverbal, and visual communication skills in a variety of formats and contexts.
• Integrate knowledge from disciplines such as child advocacy, gerontology, social work, and public policy administration to deliver effective youth and adult programs.
• Apply knowledge of educational theories and practice in relation to not-for-profit and non-government institutions, to deliver sustainable youth and adult programs.

Electrical Engineering BSEE

Admission

Students are admitted to the upper-division program after they have completed an acceptable pre-engineering program. The pre-engineering program can be taken at University of Missouri-St. Louis or at community colleges in the area. Normally, admission is granted to persons who have completed the pre-engineering program with a minimum grade point average of 2.75 over all their mathematics, chemistry, physics, and introductory (statics and dynamics) engineering courses. Students with less than a 2.75 grade point average, but at least a C, in all their science, engineering and mathematics courses may be admitted on a conditional basis.

For more information, please contact the program advisor at (314) 516-7018.

Degree Requirements

A program of 124 semester hours is required for the Bachelor of Science in Electrical Engineering.

• Majors must complete the University General Education (p. 48) and Graduation (p. 15) requirements, the Pre-Engineering Requirements, the Core Engineering Requirements, and Major Requirements.
• Majors must first complete J E MATH 3170, Engineering Mathematics, with a minimum grade of C-.
• Majors must also complete J E ENGR 2300, Introduction to Electrical Networks, with a minimum grade of C-.
• A minimum grade of C- is necessary to meet the prerequisite requirement for any course.

General Education and Graduation Requirements

The following courses fulfill general education and graduation requirements and are required of Electrical Engineering majors:

<table>

<td>3</td>
</tr>
</tbody>
</table>

Three additional Social Science courses

Total Hours: 18

1 One course must meet the Cultural Diversity requirement. Humanities and social sciences electives must meet both the University of Missouri-St. Louis General Education Requirements and the Humanities and Social Sciences Requirements of the Joint Undergraduate Engineering Program. Check with your advisor for details.

Pre-Engineering Requirements

Students seeking to major in engineering are first designated as ‘Undeclared with an interest in Engineering majors’ until they have completed Math 1800 Analytical Geometry & Calculus I. Upon successful completion of Math 1800 with a grade of C or better, students will be allowed to declare pre-engineering as their major. Math 1800 must be completed successfully within two attempts.

Graduation Requirements

In addition to the requirements of the University of Missouri-St. Louis that apply to all candidates for undergraduate degrees, the student must earn a minimum campus grade point average of 2.0 and a minimum grade point average of 2.0 for all engineering courses attempted at the University of Missouri-St. Louis.

Total Hours: 125

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Elementary and Special Education Teaching Graduate Certificate

This program of study is for individuals with a bachelor’s degree who would like to prepare for teacher certification in Elementary Education and Special Education. This graduate certificate program option leads to Missouri Initial Teacher Certification in Elementary Teaching 1-6 with an add-on in Mild/Moderate Cross-Categorical Disabilities, K-12 Special Education.

Admission Requirements for the Option in Teacher Certification:

1. A passing score on the designated Missouri Content Examination or an approved program of study
2. A 2.75 or higher overall GPA
3. Approved results of the Family Care Safety Registry
4. A clear TB test or chest x-ray, if appropriate

Applicants must meet the application deadlines set by the Graduate School.

Total Hours 58

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Continually reflect on professional growth to improve student learning outcomes/enhance student learning.
- Integrate technology to create meaningful student learning within the context of a global digital society.
- Apply content and pedagogical knowledge to create authentic and deep learning experiences.
- Use learning science principles to design, implement, and evaluate curriculum based on learning standards.
- Foster effective working relationships with students, school colleagues, families, and community members to enhance student learning and well-being.
- Design and establish a safe, inclusive, and respectful learning environment that nurtures the intellectual, social, and personal development of all students.
- Use equitable frameworks and inclusive practices to create a variety of instructional and assessment opportunities adapted to diverse
Elementary Education BSEd, Middle School Education Emphasis

The Bachelor of Science in Education (B.S.Ed.) in Elementary Education prepares those who desire to teach grades 1 - 6. The core courses are combined with one of three emphasis areas: Special Education, Teaching English to Speakers of Other Languages (TESOL), or Middle School. It is also possible to select the Special Education emphasis area and take the TESOL courses for TESOL endorsement. Please see each of the Emphasis Area Requirements listed below.

Undergraduate educator preparation is both engaging and innovative. Our high quality undergraduate educator preparation programs are designed around research-based scholarship and practical community-based contexts. To prepare our undergraduate students as the highest quality educators for our region, we contribute to and harness the resources of our deep community partnerships. The community-based experiences broaden candidates’ understanding of their own identity as educators as well as enhancing their ability to build relationships, extend their skills, and understand family/community dynamics and interactions.

For their final year-long practicum, teacher candidates are immersed in Studio Schools. These partnering K-12 schools participate in our innovative, collaborative approach to educator preparation. Rather than being placed as individuals with one cooperating teacher, our candidates work with multiple teachers learning from each one, this process is supported and facilitated on-site by a specially trained UMSL clinical educator who leads a weekly seminar, conducts observations and provides candidates with regular feedback to guide their growth.

The focus of candidates’ work is to explore challenges of student learning, envision solutions based on their research-based coursework, recent school initiatives, and carefully studied practices, and then enact innovative solutions to increase student learning. Candidates inquire deeply into how their students are learning, and use data to inform their instruction. Teacher candidates participate in all appropriate school and district professional development and school-wide activities, thereby becoming professionals who are part of the fabric of a studio school, not a just a temporary teacher candidate. Graduating educators have experienced an innovative education which prepares them for their future career as educational leaders in our region and beyond.

This area of specialization in elementary education prepares students to teach in grades 5-9.

University General Education and Graduation Requirements

B.S. Ed. degree candidates must complete the following General Education Requirements and Graduation Requirements of the University as outlined in this Bulletin.

The courses listed below fulfill general education requirements and best prepare students for advanced education coursework and licensure exams.

Total Hours: 45

Program Requirements

All students in the B.S.Ed. in Elementary Education, Middle School program are required to take the following Teacher Education courses. Each student must also select a content area and complete the required courses and certification assessments as specified by the Missouri Department of Elementary and Secondary Education.

Note for all emphasis areas:

Professional Education courses must be completed with a grade of C or better (a grade of C- or below must be retaken).

Beginning with those students graduating in May 2017 and receiving teacher certification, the Missouri Department of Elementary and Secondary Education requires a 3.0 GPA in professional education courses, a 3.0 GPA in the teaching content field, and a 2.75 overall GPA.

Students must pass all required DESE certification assessments to receive the B.S.Ed. degree.

Preparing for Teacher Education

The following courses must be completed prior to applying for admission to the Teacher Education Program:

<table>
<thead>
<tr>

Total: minimum 122 hours

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Continually reflect on professional growth to improve student learning outcomes/enhance student learning.
- Integrate technology to create meaningful student learning within the context of a global digital society.
- Apply content and pedagogical knowledge to create authentic and deep learning experiences.
- Use learning science principles to design, implement, and evaluate curriculum based on learning standards.
- Foster effective working relationships with students, school colleagues, families, and community members to enhance student learning and well-being.
- Design and establish a safe, inclusive, and respectful learning environment that nurtures the intellectual, social, and personal development of all students.
- Use equitable frameworks and inclusive practices to create a variety of instructional and assessment opportunities adapted to diverse learners to encourage all students’ critical thinking, problem solving, and performance skills.

Elementary Education BSEd, Special Education and TESOL Emphasis

The Bachelor of Science in Education (B.S.Ed.) in Elementary Education prepares those who desire to teach grades 1 - 6. The core courses are combined with one of three emphasis areas: Special Education, Teaching English to Speakers of Other Languages (TESOL), or Middle School. It is also possible to select the Special Education emphasis area and take the TESOL courses for TESOL endorsement. Please see each of the Emphasis Area Requirements listed below.

Undergraduate educator preparation is both engaging and innovative. Our high quality undergraduate educator preparation programs are designed around research-based scholarship and practical community-based contexts. To prepare our undergraduate students as the highest quality educators for our region, we contribute to and harness the resources of our deep community partnerships. The community-based experiences broaden candidates’ understanding of their own identity as educators as well as enhancing their ability to build relationships, extend their skills, and understand family/community dynamics and interactions.

For their final year-long practicum, teacher candidates are immersed in Studio Schools. These partnering K-12 schools participate in our innovative, collaborative approach to educator preparation. Rather than being placed as individuals with one cooperating teacher, our candidates work with multiple teachers learning from each one, this process is supported and facilitated on-site by a specially trained UMSL clinical educator who leads a weekly seminar, conducts observations and provides candidates with regular feedback to guide their growth.

The focus of candidates’ work is to explore challenges of student learning, envision solutions based on their research-based coursework, recent school initiatives, and carefully studied practices, and then enact innovative solutions to increase student learning. Candidates inquire deeply into how their students are learning, and use data to inform their instruction. Teacher candidates participate in all appropriate school and district professional development and school-wide activities, thereby becoming professionals who are part of the fabric of a studio school, not just a temporary teacher candidate. Graduating educators have experienced an innovative education which prepares them for their future career as educational leaders in our region and beyond.

The Bachelor’s of Science in Elementary Education degree prepares students to teach in elementary or middle school settings. This program requires the selection and completion of required coursework in one of the following emphasis areas: Special Education; Teaching English to Speakers of Other Languages (TESOL); Special Education and TESOL; or Middle School.

University General Education and Graduation Requirements

B.S.Ed. degree candidates must complete the following General Education Requirements (p. 48) and Graduation Requirements (p. 15) of the University as outlined in this Bulletin.

The courses listed below fulfill these requirements and best prepare students for advanced education coursework and licensure exams.

### Program Requirements

All students in the B.S.Ed. in Elementary Education program are required to take the following Teacher Education courses, as well as the required courses for the selected emphasis area. Each student must also complete all required courses and certification assessments as specified by the Missouri Department of Elementary and Secondary Education.

#### Grade Requirement

Professional Education courses must be completed with a grade of C or better (a grade of C- or below must be retaken).

#### GPA Requirement

Beginning with those students graduating in May 2017 who will also receive teaching certification, the Missouri Department of Elementary and Secondary Education requires a 3.0 GPA in professional education courses, a 3.0 GPA in the teaching content field, and a 2.75 overall GPA.

#### Assessment Requirement

Students must pass the required DESE certification assessments to receive the B.S.Ed. degree.

#### Preparing for the Teacher Education Program

ELE ED 4246 Teaching Elementary Mathematics in Inclusive Settings I 3
ELE ED 4253 Teaching Elementary Social Studies in Inclusive Settings 3

In addition, students must complete the following TESOL courses:

TCH ED 3210 General Linguistics in Teaching English to Speakers of Other Languages 3
TCH ED 3211 | Basic Principles of Second and Foreign Language Acquisition | 3
TCH ED 3213 | Performance-based Assessment for TESOL | 3
TCH ED 3214 | Material Development and Methods for TESOL | 3
TCH ED 3224 | Curriculum Development for Content Teaching of English Language Learners | 3

The program will culminate in the following practicum courses:

ELE ED 4994 | Practicum I: Elementary/TESOL Site-Based Experience | 3
ELE ED 4995 | Practicum II: Elementary/TESOL Site-Based Experience | 12

Total Credit Hours: 132

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Continually reflect on professional growth to improve student learning outcomes/enhance student learning.
- Integrate technology to create meaningful student learning within the context of a global digital society.
- Apply content and pedagogical knowledge to create authentic and deep learning experiences.
- Use learning science principles to design, implement, and evaluate curriculum based on learning standards.
- Foster effective working relationships with students, school colleagues, families, and community members to enhance student learning and well-being.
- Design and establish a safe, inclusive, and respectful learning environment that nurtures the intellectual, social, and personal development of all students.
- Use equitable frameworks and inclusive practices to create a variety of instructional and assessment opportunities adapted to diverse learners to encourage all students’ critical thinking, problem solving, and performance skills.

Elementary Mathematics Specialist Graduate Certificate

The Elementary Mathematics Specialist (Grades 1-6) certificate recognizes teachers with special training and expertise in mathematics content at the elementary school level. The program includes online courses and school-based internships. This program is designed for full-time classroom teachers.

Note: For those candidates who wish to pursue a Master’s degree in Education, the M.Ed. can be earned using 18 of the credit hours required for the Elementary Math Specialist Certificate and 12 hours of additional coursework at the graduate level as required by the UMSL College of Education.

To be recommended for Missouri Department of Elementary and Secondary Education Elementary Math Specialist Certification (Grades 1-6), teachers must have a valid Missouri teacher’s certificate, two years of appropriate classroom teaching experience as determined by DESE, and successful completion of any required DESE assessments.

Elementary School Teaching Graduate Certificate

The Graduate Certificate in Elementary School Teaching prepares those with at least a bachelor’s degree, who are not pursuing an M.Ed., for teaching in the Elementary classroom.

This program of study is for individuals with a bachelor’s degree who would like to prepare for teacher certification in Elementary Education. This graduate certificate program option leads to Missouri Initial Professional Teacher Certification in Elementary Teaching 1-6.

Admission Requirements for the Graduate Certificate in Elementary School Teaching:

1. A passing score on the designated Missouri Content Examination or an approved program of study
2. A 2.75 or higher overall GPA
3. Approved results of the Family Care Safety Registry
4. A clear TB test or chest x-ray, if appropriate

Applicants must meet the application deadlines set by the Graduate School.

Total Hours 43-45

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Continually reflect on professional growth to improve student learning outcomes/enhance student learning.
- Integrate technology to create meaningful student learning within the context of a global digital society.
- Apply content and pedagogical knowledge to create authentic and deep learning experiences.
- Use learning science principles to design, implement, and evaluate curriculum based on learning standards.
- Foster effective working relationships with students, school colleagues, families, and community members to enhance student learning and well-being.
- Design and establish a safe, inclusive, and respectful learning environment that nurtures the intellectual, social, and personal development of all students.

- Use equitable frameworks and inclusive practices to create a variety of instructional and assessment opportunities adapted to diverse learners to encourage all students’ critical thinking, problem solving, and performance skills.

English BA

Engaging with and changing the world starts with reading and writing your way through it. The Department of English offers classroom, research, internship, and creative opportunities that will help you critically approach and insightfully analyze the diverse texts and situations you encounter every day. From reading and discussing important literary works, to impressing people with your outstanding writing, to becoming a more critical consumer and composer of digital media, the English BA positions you to advocate for awareness and change in both professional and public spheres. English majors love words, and our department offers insight into wielding their power and using them for the greater good.

General Education Requirements

All undergraduate English majors must meet the university and college general education requirements (p. 48).

The college’s foreign language requirement may be met in any language.

Satisfactory/Unsatisfactory Option

Majors may take no more than 6 satisfactory/unsatisfactory hours in the department. Any English course may be taken on a satisfactory/unsatisfactory basis except the following:

ENGL 1100  First-Year Writing (MOTR ENGL 200)  3
ENGL 1110  First-Year Writing for International Students  3
ENGL 3090  Turning the Kaleidoscope: How We Look at Texts  3
ENGL 3100  Junior-Level Writing  3
ENGL 3110  Junior-Level Writing for International Students  3
ENGL 3120  Business Writing  3
ENGL 3130  Technical Writing  3
ENGL 3160  Writing in the Sciences  3

Degree Requirements

English majors must complete at least 39, but no more than 48, hours in English exclusive of:

ENGL 1100  First-Year Writing (MOTR ENGL 200)  3
ENGL 1110  First-Year Writing for International Students  3

Junior-Level Writing Requirement  3

Students majoring in English must take one three-hour 2000-level course in each of the following areas: Literature in English, Language and Writing Studies, and Creative Writing. Collectively, the three 2000-level courses introduce all majors to the intellectual work people in English Studies do, and help them explore the range of skills, processes, areas of knowledge, and practices we work with and the texts we produce.
### Literature in English

<td>3</td>
</tr>
</tbody>
</table>

**Total Hours**: 9 hours

### Junior-Level Writing Requirement

Students choose one three-hour course from the following list to meet the junior-level writing requirement:

- ENGL 3090 Turning the Kaleidoscope: How We Look at Texts
- ENGL 3100 Junior-Level Writing
- ENGL 3110 Junior-Level Writing for International Students
- ENGL 3120 Business Writing
- ENGL 3130 Technical Writing
- ENGL 3160 Writing in the Sciences
- HONORS 3100 Honors Advanced Composition: Writing The City

1 This course is strongly advised for literature majors and students anticipating graduate study in English.

### 3000 Level Major Courses: required total of 9 hours, at least six of which are literature.

Courses at this level feature a more narrow range of content, deepening the skills and habits of mind learned at the 2000 level.

- One 3000-level British Literature Course | 3 hours
- One 3000-level American Literature Course | 3 hours
- An additional 3000-level English Course | 3 hours

**Total Hours**: 9 hours

### 4000 Level Courses: required total of 12 hours. Pre-requisite: students must pass all three 2000-level core curriculum courses before enrolling in 4000-level courses.

Senior level courses are more specialized in content and more challenging in the kinds of work students produce. A wide range of these is available, in literature in English, writing and language, and creative writing. A student can focus on one of those three areas or may remain a generalist.

**Electives**: 9 hours of English courses at any level, exclusive of courses used to satisfy the first-year and junior-level writing requirements.

### B.S. Ed. in Secondary Education with Emphasis in English

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. or B.S. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. **Note**: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

### B.A. in English with Master’s Level Coursework for Secondary Teacher Certification

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education. **Note**: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

### Bachelor of Arts (B.A.) in English Learning Outcomes

English BA Graduates Will Be Strong Writers, Compose Ideas with Clarity and Utilize Effective Writing Processes. They Will:

- Experiment with and enact various textual and discursive forms
- Integrate audience expectations and/or needs into texts they create
- Challenge audience expectations when appropriate
- Construct purposeful texts
  - (i.e. texts may include but are not limited to: literature, rhetoric, language, film, music, and other media/interactions)
- Practice revision processes, with complexity and concision complementing each other
- Make use of grammatically and mechanically correct prose when the rhetorical situation requires it
- Adapt and experiment with grammatical and mechanical conventions when the rhetorical situation requires it

English BA Graduates Participate in Conversations via Reading, Writing, Speaking, Listening, and Critical Thinking. They Will:

- Read, write, and interact with a variety of texts
  - Read broadly and widely
  - Read closely and critically
- Engage with increasingly complex texts as readers and writers
- Contribute their own perspectives to scholarly and public conversations involving texts they read
Develop their own ideas and elaborate on them in relation to the ideas of others
- Discuss texts thoughtfully, inside and outside of classrooms
- Listen to others and synthesize perspectives when discussing texts
- Develop and master listening rhetorically, and listening to understand, not merely to argue against.

**English BA Graduates Will Engage with a Wide Variety of Texts and Become Astute Analysts and Creators.** They will:

- Define and describe texts
- Identify patterns in texts
- Analyze patterns in texts
- Make claims based on evidence found in texts
- Develop and propose alternative claims about texts
- Create original texts in response to texts
- Demonstrate strong social awareness
- Explore the structure and history of the English language
- Explore and explain the interrelatedness of texts with culture,
- Articulate worldviews from varied perspectives and evidence-based positions
- Discuss the historical dimensions and contemporary implications of texts
- Create and articulate original ideas in texts
- Analyze patterns in texts
- Identify patterns in texts
- Make claims based on evidence found in texts
- Discuss the historical dimensions and contemporary implications of texts
- Make claims based on evidence found in texts
- Discuss the historical dimensions and contemporary implications of texts
- Create and articulate original ideas in texts
- Analyze patterns in texts
- Identify patterns in texts
- Make claims based on evidence found in texts

**English BA Graduates Will Be Culturally and Historically Aware Citizens and Professionals.** They will:

- Explore and explain the interrelatedness of texts with culture, race, ethnicity, gender, disability, sexuality, class, and power, and the intersectional and sometimes fluid nature of such concepts
- Articulate worldviews from varied perspectives and evidence-based positions
- Discuss the historical dimensions and contemporary implications of texts
- Explore the structure and history of the English language
- Demonstrate strong social awareness

- **Total Hours: 120**

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

**PLEASE NOTE:** This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor. All requirements are subject to change.

## English MA

### Admission Requirements

To enter the graduate program in English a candidate must satisfy the requirements both of the Graduate School and the Department of English. A candidate should have a bachelor’s degree, with at least 18 hours in English above the freshmen level, 12 of which must be in literature. Normally, only students with a grade point average of 3.0 in undergraduate English courses and an overall undergraduate average of 2.75 will be considered. Though the English department welcomes scores from the Graduate Record Aptitude Exam and letters of recommendation, it does not require either of these. (Students applying for Teaching Assistantships, please see “Financial Aid and Teaching Assistantships.”)

The graduate coordinator of the English Department with the advice of the graduate committee will use the undergraduate record and, if available, the scores of the GRE general test as the basis for a decision. We welcome letters of recommendation from the applicant’s former English instructors and a sample of expository prose. Applications to the MA in English are considered at all times. However, because spaces in graduate courses are limited, it is strongly advised that prospective students submit their applications well before the semester begins in order to gain admission into their appropriate classes.

### Teaching Assistantships

A number of teaching assistantships are available for qualified applicants. In addition to the undergraduate record and the scores on the GRE general test, applications should include two letters of recommendation from former English instructors. Applications should be submitted to the graduate coordinator of the English department no later than March 15 preceding the academic year for which the appointment is desired.

### Degree Requirements

In addition to the Graduate School requirements, students must complete at least 30 hours, 18 hours of which must be in 5000-level courses. Up to 12 hours may be taken in 4000-level courses approved by the department and Graduate School.

Required of both concentrations, literature and writing studies:
The minor will include a total of 18 hours of required English courses, which may include a mixture of courses and remain generalists. Students minoring in English may choose to specialize in literature, cultural or reading theories; literacy; and the history of writing instruction; or composition pedagogies; technologies.

The thesis may be a critical study, theoretical exploration or descriptive assessment of fieldwork drawing on writing, language, rhetorical, socio-cultural or reading theories: literacy; and the history of writing instruction; composition pedagogies; technologies.

**English Minor**

**Minor in English**

Students minoring in English may choose to specialize in literature, language and writing, or creative writing. Alternatively, students may choose a mixture of courses and remain generalists.

The minor will include a total of 18 hours of required English courses, exclusive of first-year composition and junior-level writing:

- One 2000-level core curriculum course in each of the following areas: one in literature, one in writing and language, and one in creative writing.

**Learning Outcomes**

**English Minor Graduates Will Be Able To:**

- Demonstrate a knowledge that what counts as text is broader than traditionally assumed
- Interpret and compose for numerous contexts
- Demonstrate knowledge about audience and apply that understanding in shaping texts
- Compose purposeful texts
- Exhibit the ability to practice revision processes
- Make use of correct grammar and writing mechanics when rhetorically appropriate
- Engage with sources
- Analyze texts
- Develop and propose claims about texts
- Respond to texts with originality and purpose
- Contribute to scholarly and public conversations
- View the world from varied perspectives and evidence-based positions
- Apply skills and knowledge from the minor into their major course of study
- Discuss texts thoughtfully, inside and outside of classrooms
- Listen to others and synthesize perspectives when discussing texts

**Enterprise Systems Development Graduate Certificate**

The Graduate Certificate in Enterprise Systems Development is designed to help students from all backgrounds achieve competence in the development and management of web-based or legacy information systems including the interface with contemporary programming languages, frameworks, platforms, testing methodologies, and security standards.

This 12 credit hour certificate program also counts toward the 30 credit hour Master of Science in Information Systems and Technology degree program requirements. Students may choose to combine this certificate with other courses and/or certificates to obtain the Master of Science in Information Systems and Technology degree.

**Admission Requirements**

Applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements.

**Certificate Requirements**

All course prerequisites and all course waivers are applicable. Substitute courses may be approved by the appropriate department chairperson and the Director of Graduate Business Programs.

**Required Course**

</tr>
</tbody>
</table>

Total Hours: 12

The required courses may be substituted with other courses with the approval of the Chair of the Information Systems and Technology Department.

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Develop business information systems
- Exhibit specialized technical expertise
- Apply software testing methodologies to ensure high quality business applications
- Apply software security standards in business applications
- Communicate effectively with information systems users

Entrepreneurship Graduate Certificate

The Graduate Certificate in Entrepreneurship is an applied program of study designed for individuals who seek to develop skills enabling them to lead venture creation processes and sustainable growth efforts in all types of organizations. Course experiences will enable students to develop an entrepreneurial mindset and a deep understanding of problem identification, opportunity recognition, customer discovery, design thinking, and lean startup processes. Students may pursue a general track of study or may pursue either social or technology specialized tracks of study.

Admission Requirements

Applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements.

Certificate Requirements

The Graduate Certificate in Entrepreneurship is an experientially-based 12-credit-hour program. Students complete 6 credit hours of required coursework and 6 credit hours of specialized track coursework. Students can select technology, social, or general entrepreneurship tracks. Students must complete both elective courses from the same track of study. All course prerequisites and all course waivers are applicable. Substitute courses may be approved by the appropriate department chairperson and the Director of Graduate Business Programs. All 12 credit hours taken as part of this certificate transfer to the MBA degree program.

Entrepreneurship Undergraduate Certificate

Requirements

This 15-credit hour certificate, which includes 9 hours of required coursework, will allow students from different majors and with different professional interests to investigate the foundations of entrepreneurial practice. This certificate is appropriate for any student who has an interest in advancing his or her knowledge, creativity, and skills necessary to become or work with entrepreneurs, bring entrepreneurial thinking to his or her workplace, and who seeks a competitive edge in the job market.

Total Hours: 12

1 Students may enroll in EDUC 2002 in lieu of one of the ENT electives. Other Entrepreneurship related courses may be used with the approval of the program coordinator.

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Understand and apply the language of entrepreneurship and innovation
- Apply entrepreneurship concepts in both personal and professional contexts
- Articulate and communicate new opportunities by writing and presenting elevator pitches, slide decks, and performing class presentations
- Use interdisciplinary theories and concepts to identify root causes and solve problems in any setting

Environmental Studies Minor

This is an interdisciplinary program that integrates the natural and physical sciences with the social sciences and humanities to study current environmental problems resulting from human population growth, global climate change, overuse of natural resources, pollution and biodiversity loss. A minimum 18 hours are required, 9 of which must be in the natural and physical sciences, including the listed Honors College courses, and 9 must be from the social sciences and humanities. Both BIOL 1202 (Environmental Biology) and POL SCI 3480 Environmental Politics must be completed as part of the total 18 hours. A total of 12 hours must be taken at or above the 2000 level, with one additional course at or above the 3000 level besides POL SCI 3480. At least 9 hours must be taken while in residence at UMSL. A minimum GPA of 2.0 is required.

Learning Outcomes

Foundational Knowledge

Students obtaining a minor in environmental studies will be able to integrate knowledge from multiple disciplines including natural sciences, physical sciences, social sciences, and economics as they pertain to environmental issues and policies.

Practical skills and problem solving
Students earning a minor in environmental studies will be able to appreciate the biological methods and applications to solving environmental issues while recognizing the cultural and ethical context of environmental issues. Moreover, the minor will be able to reflect on his or her contribution as a citizen and consumer to global environmental issues.

Exercise Science Minor

A minor in Exercise Science is available for students pursuing any undergraduate degree program. It is intended for those who wish to join careers in prescribed physical activity such as personal training, strength and conditioning, rehabilitation and human performance. Students completing this minor could work with clients in recreational and wellness programs as well.

Family Nurse Practitioner Post-Graduate Certificate

Post-graduate certificate (PGC) requirements are tailored to the individual student, depending on past academic work, experience, the student’s goals, and specialty requirements. Upon completion of the PGC requirements, a certificate is awarded by the College of Nursing (CON) and Graduate School. Graduates are eligible to apply to take board certification exams in the advanced practice role and population for which they have been prepared.

Due to higher education regulation changes, the University of Missouri–St. Louis cannot admit students from all states for online programs. Please see the Center for Teaching and Learning for additional information: http://www.umsl.edu/services/ctl/onlinelearning/state_authorization.html.

Certificate Requirements

Students must complete a minimum of 12 credit hours of coursework from the University of Missouri - St. Louis College of Nursing. Courses must be from the list below.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

All students must complete 8 credit hours of Residency. Once credit hour is equivalent to 75 residency hours.

Finance Minor

General Requirements

- All minors are 15 credit hours or 5 courses, including business core courses.
- Students must attain a 2.0 grade point average for all courses in the minor.
- Students must attain a minimum grade of C- in each course included in the minor.
- All courses in the minor must be on a graded basis.
- A minimum of 9 credit hours of coursework included in the minor must be taken in residence at UMSL.
- One must complete a baccalaureate degree at UMSL in order for a minor to be conferred.
- A minor may be added for up to two years following completion of the baccalaureate degree.

Specific Requirements for the Minor

Available to all students except those pursuing the Bachelor of Science in Business Administration degree. Students must complete:

<table>

</thead>
<tbody>
<tr>
<td>FINANCE 3500</td>
<td>Financial Management</td>
<td>3</td>
</tr>
<tr>
<td>Select any four upper division finance electives</td>
<td>12</td>
<td></td>
</tr>
</tbody>
</table>

Total Hours: 15

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Describe fundamental concepts in finance.
- Interpret financial data and describe firm financial performance.
- Demonstrate competency to identify and assess financial risk and return.

Fintech Graduate Certificate

The Graduate Certificate in Fintech is designed for finance professionals at all levels and other professionals interested in seeking specialized training in financial technology and data analytics to keep up with transformative changes in the financial industry and advance their careers. This 15-hour program focuses on financial technology (fintech), including topics like an introduction to fintech, blockchain, statistical inference, dynamic modeling, big data analytics, artificial intelligence and machine
learning, robo advisors, algorithmic trading, financial derivatives, and portfolio analysis and management.

Admission Requirements

Applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements (p. 35).

Certificate Requirements

Required
FINANCE 6570 Introduction to Fintech 3
FINANCE 6576 Blockchain: Applications in Finance 3

Electives 9
Choose three of the following:
FINANCE 6503 Computer Applications in Finance
FINANCE 6520 Security Analysis
FINANCE 6524 Portfolio Analysis and Management
FINANCE 6572 Financial Data Analytics
FINANCE 6574 Artificial Intelligence and Machine Learning in Finance

Total Hours 15

French Minor

A minor in French, German, Japanese or Spanish requires the completion of four courses in the language beyond the basic foundation sequence (Language 1001, Language 1002, and Language 2101). Transfer students must complete at least two courses for the minor at UMSL. All courses must be passed with a grade of C- or better.

Specific Requirements for the French Minor

FRENCH 2170 Intermediate French Language and Culture 3
FRENCH 2180 Readings in French 3
Select two French courses 3000-level or above 6

Total Hours 12

Gender and Politics Minor

Requirements for Political Science Minors

A general minor in political science can be arranged, as well as specialized minors in eight different subfields of the discipline. Interested students should see a faculty adviser to plan a coherent program of study as a minor field.

Students must achieve a cumulative 2.0 GPA in the political science courses chosen to qualify for the minor. Students may count no more than 3 hours in political science taken on a satisfactory/unsatisfactory basis toward the minor. Students taking an internship POL SCI 3940 may count no more than three hours of the internship toward the minor.

Specific Requirements for the Minor

Select five of the following: 15
POL SCI 2102
POL SCI 2290 Gender and the Law

Learning Outcomes

Upon completion of the program, graduates will be able to:

• Explain the major events, laws, and court findings regarding gender and politics.
• Compare and contrast multiple social movements and policies.
• Assess issues of inequity, formulate evidence-based recommendations that take into account areas of privilege and oppression and existing political and societal structures, and communicate them with clarity and coherence.

Gender Studies Graduate Certificate

Requirements For Admission

• Baccalaureate degree 2.75 G.P.A.
• Official transcripts of all previous undergraduate/graduate work
• Two letters of recommendation

If you are not currently enrolled at UMSL, you must apply through the Graduate School. This certificate is available to students with Bachelor’s or Master’s degrees and students enrolled in graduate degree programs. A student need not be enrolled in a degree program to earn the Gender Studies graduate certificate. Post B.A./B.S. students may enroll in the undergraduate or graduate certificate program.

Certificate Requirements

At least 18 hours of Gender Studies courses at the 4000, 5000, and/or 6000 level

1. 3 hours must include a graduate feminist or gender theory course, which may be GS 5033, Advanced Sexuality and Gender Theory, GS 5040 Feminist Critical Theory, or other theory course.
2. 3 hours must include either a graduate internship or practicum, or final writing project, which may be an independent study GS 6452 Special Readings in Gender Studies, or a substantial research and writing project for a GS graduate seminar, which may be GS 6450 Seminar in Gender Studies, or other cross-listed, 5000 or 6000-level seminar.
3. 12 hours must be at the 5000 level or above, while up to 6 hours of 4000-level courses may be taken for graduate credit, as long as student completes graduate level work for the course.
4. No more than 6 hours may be taken as Directed or Independent Study credit.
Most Gender Studies courses are cross-listed with other departments and count toward a department’s degree requirements we well as toward the certificate.

Learning Outcomes
Upon completion of the certificate earners will be able to:

Knowledge
- Contrast different theoretical approaches to understanding gender and their implications for advocacy and activism
- Develop in-depth knowledge of one aspect of gendered experience examined through the lens of a time period, literary genre, a geographic region, or other focus on a narrowed topic

Writing Research and Communications
- Apply feminist theories and methods to analyze, interpret, and discuss the role of gender in written, oral, visual, and/or multimedia texts
- Apply feminist research methods to identify and investigate a problem relating to gender in order to design an original research project that contributes to the scholarship on a topic in the field of Gender Studies by conducting a comprehensive and critical literature review, identifying and utilizing at least one appropriate method of original data collection, evaluating sources, and interpreting and disseminating the results

Professional
- Network with local and global leaders in the field of gender studies or fields appropriate to students’ interests and career goals
- Develop the skills and knowledge necessary to compete for and be successful in a wide range of fields both local and global including non-profit management, education, academia, social work, the sciences, business, law, and transnational feminist work

Gender Studies Minor
For a Minor in Gender Studies, students must take at least 12 hours of Gender Studies courses. 9 hours must include 3 core courses:

1. GS 2102 Introduction to Gender Studies
2. GS 3033 Sexuality and Gender Theory or other 3000-5000 level course in feminist or gender theory
3. Capstone experience: Students must complete a final research project or practicum. The Capstone requirement may be satisfied by GS 4352 Independent Study in Gender Studies, GS 4353 Internship in Gender Studies, or by a 4000-level Gender Studies course or other 4000-level seminar where student completes a final research and writing project that focuses on gender studies.

The remaining 3 hours may be cross-listed courses with the student’s major department or Gender Studies electives from various disciplines.

Learning Outcomes
Upon completion of the Gender Studies Minor and Undergraduate Certificate, a student will be able to:

Knowledge
- Analyze how gender affects individuals and society historically and currently, locally and globally, including how systems of power and oppression operate and how gender intersects with other facets of identity such as ethnicity, nationality, class, sexuality, age, and ability
- Describe key figures, concepts, and debates within the discipline of gender studies, such as “the Other,” sex vs. gender, gender as a social construct vs. essentialism, and intersectionality
- Utilize gender as a variable to explain historical, social, cultural, technological, and/or symbolic phenomena
- Evaluate ideological assumptions underlying social institutions and systems of representation

Writing Research and Communications
- Articulate complex ideas coherently to diverse audiences.
- Relate how personal experience connects to institutions and systems of privilege and oppression.
- Apply traditional and new media literacies to locate, evaluate, utilize, and produce knowledge.
- Synthesize evidence obtained from research to compose texts that advance, support, and defend an argument about gender.

Professional
- Develop strategies for promoting equality and combating oppression
- Connect personal experience and the ideas explored in the classroom to apply the insights gained to other classes and personal and professional life
- Describe the importance of respect, civility, sensitivity, civic engagement, and appreciation for diversity and demonstrate these traits

Gender Studies Undergraduate Certificate

Gender Studies Certificate
Requirements For Admission
Undergraduate certificate candidates must meet the University's general education requirements. Applicants must have a cumulative G.P.A. of at least 2.5 and must maintain a minimum 2.5 G.P.A. in Gender Studies courses. Candidates for undergraduate certificates are asked to register with Gender Studies after taking one or two courses. Students will then be enrolled in the program and will be placed on our mailing list for class information and announcements of upcoming events.

Certificate Requirements
Students must take at least 18 hours in Gender Studies courses. 9 hours must include 3 core courses:

1. GS 2102 Introduction to Gender Studies
2. GS 3033 Sexuality and Gender Theory or other 3000-5000 level course in feminist or gender theory
3. Capstone Experience: Students must complete a final research project or practicum. The Capstone requirement may be satisfied by GS 4352
Independent Study in Gender Studies, GS 4353 Internship in Gender Studies, or by a 4000-level Gender Studies course or other 4000-level seminar where student completes a final research and writing project that focuses on gender studies. 9 hours may be cross-listed courses with student’s major department or Gender Studies electives from various disciplines.

**Learning Outcomes**

Upon completion of the program, certificate earners will be able to:

- Demonstrate an understanding of the complex ways gender and other culturally constructed categories inform social, cultural, economic, and political practices that both reproduce and resist hierarchies of power in the U.S. and global contexts.
- Articulate the central questions of gender studies scholarship, including foundational theories in feminist thought and action.
- Conduct interdisciplinary research that applies gender as a central category of analysis.
- Apply gained knowledge, research skills, and gender studies concepts in an independent study, experience of direct engagement with professionals in their field, and/or community service-oriented activity.

**German Minor**

A minor in French, German, Japanese or Spanish requires the completion of four courses in the language beyond the basic foundation sequence (Language 1001, Language 1002, and Language 2101). Transfer students must complete at least two courses for the minor at UMSL. All courses must be passed with a grade of C- or better.

**German Studies Undergraduate Certificate**

Opportunities and challenges of human aging intersect with most academic and professional disciplines. Older adults receive a range of health, social, economic and other support services (e.g. through government programs, medical centers, senior centers, long-term care facilities, not-for-profit agencies) in order to age successfully at home or elsewhere.

The proportion of older adults in the US population will grow substantially in coming decades. The 15 credit hour Undergraduate Certificate in Gerontological Studies (UCGS) is designed to prepare students for entry level, service-oriented positions in this growing marketplace.

The UCGS adds a tangible credential for future work with and for older adults, and it can be pursued with any major area of study with proper planning. Please contact the Gerontology Program Coordinator to learn more and for an advising appointment.

**Introduction**

SOC/GERON 2170 Aging in America: Concepts & Controversies 3

**Electives**

Complete at least 9 elective hours in GERON, with at least 6 hours at the 3000 level or above. 9

**Capstone**

GERON 4400 Social & Community Services for an Aging Population 3

**Total Hours** 15

1 Courses that are aging-related but not cross-listed with GERON may be substituted with the approval of the Gerontology Program Coordinator.

2 An alternative aging-related practicum/field experience from a student's major field may be substituted with the approval of the Gerontology Program Coordinator.

**Gerontology Minor**

Opportunities and challenges of human aging intersect with most academic and professional disciplines. Older adults receive a range of health, social, economic and other support services (e.g. through government programs, medical centers, senior centers, long-term care facilities, not-for-profit agencies) in order to help them age successfully at home or elsewhere. The 12 credit hour Undergraduate Minor in Gerontology is designed to introduce students to this important field.

All students must take a 3-credit introductory course. The remaining 9 credit hours must include at least two courses at the 3000-level or above. Substitutions or alternative courses may be included with approval of the Program Coordinator for Gerontology.

Students wishing to designate a 4000-level course as capstone for the BLS must coordinate this with Program Coordinator for Gerontology prior to starting the course.

**Required Course**

SOC/GERON 2170 Aging in America: Concepts & Controversies 3

**Electives**

Complete at least 9 elective hours in GERON, with at least 6 hours at the 3000 level or above. 9

**Total Hours** 12

1 Courses that are aging-related but not cross listed with GERON may be substituted with the approval of the Gerontology Program Coordinator.

**Global Biodiversity Conservation and Leadership Graduate Certificate**

The Graduate Certificate in Biodiversity Conservation and Leadership is intended for students who wish to pursue a career in conservation biology or ecology from either a research or practical standpoint. Cooperating institutions include the Missouri Botanical Garden, St. Louis Zoo, Center

The Graduate Certificate in Global Biodiversity Conservation and Leadership is intended for students who wish to pursue a career in conservation biology or ecology from either a research or practical standpoint. Cooperating institutions include the Missouri Botanical Garden, the Saint Louis Zoo, the Center for International Studies at UMSL, and the Departments of Economics, History, Political Science, and the Business School.

**Admission**

Graduate students enrolled in UMSL who intend to receive a Graduate Certificate in Global Biodiversity Conservation and Leadership must complete the Application for Graduate Certificate (G10) once completing the required coursework. Students not enrolled in a course of graduate studies at UMSL who have a baccalaureate degree or are enrolled in graduate work elsewhere must apply for admission to the UMSL Graduate School as graduate certificate-seeking students. The minimum admission requirements include: (1) completion of a baccalaureate degree and the prerequisites of the certificate program; (2) at least a 3.0 GPA for undergraduate course work or a 3.2 GPA for 12 credit hours of graduate course work. The minimum prerequisites are undergraduate courses in ecology, evolution and genetics.

**Requirements**

The certificate is awarded after completion of 18 credit hours of core courses and electives with a minimum of 12 credits at the 5000 or 6000 level. Electives must include a minimum of 3 credits outside biology with a maximum of 7 outside biology. A maximum of 3 credits may be taken at institutions other than UMSL. Students may simultaneously earn a graduate degree and count credits earned in their degree program toward the certificate when appropriate.

Health Communication Undergraduate Certificate

The Department of Communication and Media offers a certificate program for those students interested in careers in health communication. Our certificate program addresses the dynamics of health communication from varying perspectives. The core classes in the program focus on a breadth of health communication topics, such as the influence of mass media, interpersonal communication, organizational communication, and culture. After completing the certificate, students will be able to recognize, analyze, and design effective communication strategies for promoting individual and public health.

The certificate program is comprised of 18 credit hours of coursework, as indicated. All students must earn a C or better in all courses applied to the certificate program.

Total Hours | 18

1 COMM 4360 may count toward the internship credit for the BA in Communication.

For more information on this certificate, please contact the Department of Communication and Media’s Health Communication Certificate Coordinator.

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Effectively apply theory and best practices to design messages to enhance health
- Critically analyze and evaluate health strategies and messages using relevant theory and best practices
- Understand the roles of communication and other factors that contribute to and/or alleviate health issues
- Practice effective, professional communication in a variety of health-related settings

History BA

Do you often ask “how” and “why”? Are you curious and analytical and up for a challenge? A History degree is for those who answer “Yes!” Studying history introduces you to the fascinating and familiar in ancient and modern societies, to cultures in faraway places, and to the complexities of our own neighborhoods. A history major will help you understand the present in new ways and build your professional future through hands-on research. By honing the skills demanded by employers in a wide variety of fields, history is a versatile and marketable major.

General Education Requirements

History majors must meet the university and college general education requirements (p. 48).

Majors may not take required history courses on a satisfactory/unsatisfactory basis. Students enrolled in variable credit reading courses for 5 credit hours must complete a seminar paper.

Students may take any language that fulfills the college’s foreign language requirement.

Degree Requirements

Majors must complete at least 33, but not more than 45, hours in history with no grade below C-. Students are encouraged to move from introductory courses at the 1000 level to more advanced courses at the 2000 and 3000 levels then to research oriented courses at the 4000 level.

1000 Level

Select three courses at the 1000 level 9

2000 and 3000 Level

Select an additional two to five courses at the 2000 and 3000 level. 6-15

HIST 3199 Introduction to Historical Inquiry 4

4000 Level

Select two to four of the following courses at the 4000 level. 6-14

HIST 4142 Inquiries in U.S. History

HIST 4143 Inquiries in World History

HIST 4999 Senior Seminar 1

1 Students seeking a degree with distinction must enroll in this course.

Undergraduate majors must complete a residency minimum of 15 hours of 2000/3000/4000 level History courses including 6 credit hours of 4000 level courses at UMSL.

Alternative courses to satisfy the History requirements

Some courses may satisfy the History requirement even though they are not listed as such, depending the content. These include courses at the Honors College, and in other departments. If a course covers some aspect of History, a student may request to include it as satisfying a degree requirement. The student should obtain a description and syllabus and submit both to the History undergraduate advisor for approval.

Departmental Honors

Students who have achieved the following: a) at least a 3.2 overall GPA; b) at least a 3.5 GPA for all hours attempted in history courses; and c) an outstanding research paper in the Senior Seminar as certified by the faculty member responsible for directing it, may be awarded departmental honors upon graduation.
B.S. Ed. in Secondary Education with Emphasis in History

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

B.A. in History Learning Outcomes

Graduates of this program will be able to:

• Identify, summarize, appraise, and synthesize other scholars’ historical arguments.
• Apply the range of historical thinking skills to evidence that is often incomplete, complex, and contradictory.
• Consider a variety of historical sources for credibility, position, perspective, and relevance.
• Evaluate historical arguments, explaining how they were constructed and might be improved.
• Revise analyses and narratives when new evidence requires it.
• Create historical arguments and narratives and effectively communicate them.
• Generate substantive, open-ended questions about the past and develop research strategies to answer them.
• Craft well-supported historical narratives, arguments, and reports of research findings in a variety of media for a variety of audiences.
• Use historical perspective as central to active citizenship.
• Apply historical knowledge and historical thinking to contemporary issues.
• Develop positions that reflect deliberation, cooperation, and diverse perspectives.

B.A. in History with Master’s Level Coursework for Secondary Teacher Certification

Students may opt to complete a B.A. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12 or a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

**Total Hours: 121**
INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

History BA, Public History and Museums in the Digital Age Emphasis

The emphasis in Public History and Museums in the Digital Age is designed for students interested in pursuing careers in the fields of museums, heritage, and public history. It will familiarize students with the major issues confronted by cultural institutions that interpret the past for and in collaboration with public audiences and introduce students to the skills and digital competencies required for successful professional careers in these fields. Students are prepared to apply for graduate level work in Museum Studies and Public History.

General Education Requirements

History majors must meet the university and college general education requirements (p. 48).

Majors may not take required history courses on a satisfactory/unsatisfactory basis. Students enrolled in variable credit reading courses for 5 credit hours must complete a seminar paper.

Students may take any language that fulfills the college’s foreign language requirement.

Degree Requirements

Majors must complete at least 33, but not more than 45, hours in history with no grade below C-. Students are encouraged to move from introductory courses at the 1000 level to more advanced courses at the 2000 and 3000 levels then to research oriented courses at the 4000 level.

1000 Level
Select three courses at the 1000 level 9

2000 and 3000 Level
Select an additional two to five courses at the 2000 and 3000 level 6-15
HIST 3199 Introduction to Historical Inquiry 4

4000 Level
Select two to four of the following courses at the 4000 level 6-14
HIST 4142 Inquiries in U.S. History
HIST 4143 Inquiries in World History
HIST 4999 Senior Seminar 1

1 Students seeking a degree with distinction must enroll in this course.

Undergraduate majors must complete a residency minimum of 15 hours of 2000/3000/4000 level History courses including 6 credit hours of 4000 level courses at UMSL.

Alternative courses to satisfy the History requirements

Some courses may satisfy the History requirement even though they are not listed as such, depending the content. These include courses at the Honors College, and in other departments. If a course covers some aspect of History, a student may request to include it as satisfying a degree requirement. The student should obtain a description and syllabus and submit both to the History undergraduate advisor for approval.

History BA/MA Dual Degree Program

The 2+3 B.A./B.S. – Ed and M.A. in History enables students of demonstrated academic ability and educational maturity to complete the requirements for both degrees in five years of full-time study. Because of its accelerated nature, the program requires the completion of lower-division requirements (15 hours) before entry into the three-year portion of the program. It also has prerequisites numbered 5000-5999 for graduate readings courses numbered 6000-6999. When all the requirements of the B.A./B.S. – Ed. and M.A. program have been completed, students will be awarded both the baccalaureate and master’s degrees. A carefully designed program can permit a student to earn both degrees within as few as ten semesters.

The combined program requires a minimum of 137 hours, at least 5 of which must be at the senior level (HIST 4999) and at least 32 of which must be at the graduate level (courses numbered in the 5000 and 6000 range). In qualifying for the B.A. or B.S. – Ed., students must meet all university and college requirements, including the requirements of the undergraduate major. In qualifying for the M.A., students must meet all university and Graduate School requirements, including satisfactory completion of at least 32 credit hours at the graduate level.

The semester they will complete 62 undergraduate credit hours, (including 15 credit hours of appropriate 1000-level coursework in the History Department) interested students should apply to the Graduate Director of the Department of History for admission to the 2+3 combined degree program in History. A cumulative grade point average of 3.4 or higher in
history courses, a writing sample, and three letters of recommendation from faculty are required for consideration. Students will be admitted to the 2+3 program under provisional status until they have completed 105 total credit hours toward their BA degree with a grade point average of 3.0 or higher. After completion of the provisional period, and with the recommendation of the graduate director, and approval of the graduate dean, students can be granted full admission into the program. Students will not be admitted to the program, if they have accumulated more than 105 credits. Students in the 2+3 program begin to pay graduate credit hour fees once they exceed the 105 credit hour threshold. Students must maintain a grade point average of 3.0 or higher throughout the combined program. Students who officially withdraw from the 2+3 combined degree program will be awarded the B.A. or B.S. – Ed. Degree when they have successfully completed all the requirements for the degree.

Undergraduate History Requirements For Students in the 2+3 Program

The following requirements must be completed prior to enrolling in the 2+3 Program:

<table>
<thead>
<tr>

<td><strong>19</strong></td>
</tr>
</tbody>
</table>

Once admitted to the program students must take the following courses:

Additional Undergraduate History Requirements For Students in the 2+3 Program:

HIST 4999, Senior Seminar (5).

Graduate History Requirements For Students in the 2+3 Program

- Three courses at the 5000-level for 9 credit hours.
- Five courses at the 6000-level for 17 credits beginning with HIST 6000 (students must take two of their three 5000-level courses prior to enrolling in HIST 6000), followed by at least three courses in a major field of study and one 5-credit course.
- In addition to this core, each candidate must select one of the two following degree options:

  a. Thesis Option – 32 hours total

  In addition to the fulfilling the requirements listed above, the candidate choosing this option must enroll for 6 hours of thesis credit and submit an acceptable thesis. The thesis is based on original research in primary sources. Normally, theses do not exceed 100 pages of text. Candidates receive a grade for the thesis upon its approval by an advisory committee. The committee consists of professors selected by the candidate after consultation with the major professor. One member of the committee must be from the department but outside the candidate’s general area of study, and one may be outside the history department.

  The advisory committee conducts an oral examination on the thesis during the candidate’s last semester of residence.

  The committee decides whether the candidate shall pass, fail or fail with the option to repeat the oral examination at a later date. Students may not take the oral examination more than twice. The second examination must be held no less than one and no more than two semesters following the date of the first examination. Summer session may be counted as a semester under this procedure, but students should be aware of the difficulties involved in assembling faculty committees during the summer.

  Thesis candidates must demonstrate competence in one foreign language or in quantitative methods as applied to historical study. Candidates shall demonstrate foreign language competence by translating, with the use of a dictionary, 500 words in one hour. A member of the history faculty will conduct this examination and choose the test for translation. Candidates shall demonstrate quantitative methods competence by satisfactory completion of either PSYCH 2201, Psychological Statistics or SOC 3220, Sociological Statistics, or their equivalent.

  b. Research Paper Option

  To complete this option, the candidate must complete two additional 5-credit hour seminars (each consisting of a 6000-level reading seminar plus 2 credit hours of supplementary work on a substantial research paper.) The candidate may choose a fourth field in addition to the three already represented in the core to complete this option.

History Education Graduate Certificate

The Graduate Certificate in History Education is designed for practicing teachers, instructional coordinators, and history educators in the community who are seeking to deepen their knowledge of history education. It offers history and social studies educators a program that integrates historical and educational knowledge, theory, and practice. The purpose of the certificate is to improve the practice of history education in schools and the community, to introduce history educators to research in the field, to deepen their historical knowledge, and to encourage sophisticated teaching and curriculum development built on research at the intersection of history and the learning sciences.

Admission Requirements

Applicants wishing to pursue the Graduate Certificate in History Education in conjunction with an MA degree or an MED should follow the normal application procedures for their respective Master’s level program. Applicants wishing to pursue the Graduate Certificate in History Education alone normally must have a GPA of 3.0 or higher and should apply specifically for this certificate program and submit three letters of recommendation and a writing sample along with their application.

Program Requirements

All candidates for Graduate Certificate in History Education must complete:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 6013</td>
<td>History Education in Schools and Communities</td>
<td>3</td>
</tr>
<tr>
<td>HIST/TCH ED 6115</td>
<td>Historical Thinking in Research and Practice</td>
<td>3</td>
</tr>
</tbody>
</table>

Students must take an additional twelve credits at the graduate level in History or Education courses as approved by the Program Director.
History MA

The History M.A. program offers study in U.S. History, World History, History Education, Public History and Cultural Heritage, and Museum Studies. All students receive disciplined advanced work in preparation for doctoral programs or advanced training leading to teaching or other careers. Students select one of two options for completing the Master of Arts degree: thesis or research papers. The first path requires a substantial master's thesis; this path emphasizes depth of knowledge and research competence. The second path requires several research papers. This path emphasizes breadth of historical knowledge. Students should consult with the Director of Graduate Studies to be sure that they have properly selected their fields of study.

The M.A in History provides a broad-based program of study that emphasizes historical writing, research, and analysis. Students pursuing an M.A. in History can specialize in World History, U.S. History, Public History, or History Education.

Admission Requirements

Applicants must meet several departmental admission requirements in addition to the general criteria of the Graduate School. The applicant's undergraduate studies need not have been in history, but they must demonstrate high academic potential. Normally, only students with a 3.2 grade point average (3.35 for the online degree) in their undergraduate major are admitted; most successful applicants have higher grades.

Applicants must submit three letters of recommendation, preferably from former teachers, and a sample of their written work. The History Department bases its admission decisions upon the undergraduate transcript, the letters of recommendation, and the sample of written work. The department admits applications throughout the year. deadlines for applications are March 15th for the Fall semester and October 15th for the Spring semester. Students should consult the Graduate School's Admission timeline

Core

All candidates for the M.A. degree in history must complete a core of 26 hours of course work (excluding thesis credit), with no more than nine hours of history and related fields at the 5000 level. This 26-hour core must include seven courses at 3 credit hours each (21 hours in all), and one 5-credit-hour writing seminar consisting of a 2-credit-hour research paper supplement to a 3-credit-hour, 6000-level history readings course.

To earn the 26-hour core, candidates must complete HIST 6000, complete one section of either HIST 5142 or HIST 5143 and select at least one field of study with a minimum of three courses (each at 3 credit hours or more.) Students may use the remaining hours to complete a second field.

In addition to this core, each candidate must select one of the two following degree options:

1. Thesis Option--32 hours total

In addition to the core, the candidate choosing this option must enroll for 6 hours of thesis credit and submit an acceptable thesis. The thesis is based on original research in primary sources. Normally, theses do not exceed 100 pages of text. Candidates receive a grade for the thesis upon its approval by an advisory committee. The committee consists of professors selected by the candidate after consultation with the major professor. One member of the committee must be from the department but outside the candidate's general area of study, and one may be outside the history department.

The advisory committee conducts an oral examination on the thesis during the candidate's last semester of residence.

The committee decides whether the candidate shall pass, fail, or fail with the option to repeat the oral examination at a later date. Students may not take the oral examination more than twice. The second examination must be held no less than one and no more than two semesters following the date of the first examination. Summer session may be counted as a semester under this procedure, but students should be aware of the difficulties involved in assembling faculty committees during the summer.

Thesis candidates must demonstrate competence in one foreign language or in quantitative methods as applied to historical study. Candidates shall demonstrate foreign language competence by translating, with the use of a dictionary, 500 words in one hour. Normally a member of the history faculty will conduct this examination and choose the test for translation. Candidates shall demonstrate quantitative methods competence by satisfactory completion of either PSYCH 2201 Psychological Statistics or SOC 3220 Sociological Statistics, or their equivalent.

2. Research Paper Option-36 hours total

To complete this option, the candidate must complete two 5-credit-hour seminars (each consisting of a 6000-level reading seminar plus 2 credit hours of supplementary work on a substantial research paper), in addition to the core. The candidate may choose a fourth field in addition to the three already represented in the core to complete this option.

Learning Outcomes

Upon completion of the program, graduates will be able to:

• Conduct empirical historical research based on primary source evidence
• Compose publishable-quality scholarship that makes an original contribution to knowledge
• Evaluate recent scholarship within chosen subfield of study in the context of historiographical trends
• Synthesize historical research in interpretive formats, including written papers and essays
• Demonstrate facility for presenting historical argument orally and describing research and findings to an audience
• Distinguish between different methodological approaches to historical research, writing, and interpretation

History MA, Museums, Heritage and Public History Emphasis

The MA in Museums, Heritage, and Public History joins theoretical and practical study at an advanced level to prepare students for careers in museums, heritage institutions, historic sites and societies, and related organizations. The program works closely with cultural resources in St Louis, particularly the city's many museums and historic sites. We focus on community engagement, the interdisciplinary and cross-cultural study of material culture, interpreting and debating the past, new media and public education, and research in archival and material collections.
Our graduates work in art museums, history museums, science centers, historic house museums, and other cultural institutions across the United States and internationally.

**Career Outlook for M. A. in Museums, Heritage, and Public History**

According to the Institute of Museum and Library Services, there are more than 35,000 museums in the United States, employing more than 400,000 individuals. History museums constitute forty-eight percent of the total museums in the country; there are more than 16,800 historical societies and historic preservation organizations alone. While job requirements vary among individual institutions and specific professional roles, the MA degree offered by this program qualifies graduates for a wide range of careers in the museum and heritage field. Faculty and mentors in the Museum Studies Program provide students with placement assistance, counseling, and access to information on career opportunities. Our alumni are employed at institutions around the country, from Santa Fe to Philadelphia, Minneapolis to Dallas.

The MA in History with an emphasis in Museum, Heritage, and Public History may be taken as a terminal degree by students intending to become museum professionals or public historians. Students may focus their studies on subdisciplines such as museum curation, digital public history, collection or archival management, or other areas.

**Admission Requirements**

Prospective students for the Master of Arts in History with an emphasis in Museums, Heritage, and Public History must apply specifically for this program on the graduate application. Applications for the Master of Arts in History with an emphasis in Museums, Heritage, and Public History will be accepted only for the fall semester.

Prospective students must demonstrate high academic potential. Typically, the History department admits only students with at least a 3.2 grade point average in their undergraduate major; most successful applicants have higher grades. An undergraduate major in History is not required for admission to this program. Applicants must submit three letters of recommendation, preferably from former teachers and/or employers, and a sample of their written work. Applicants must also complete the Museums, Heritage, and Public History Supplemental Application, which includes a statement of career intent.

Admissions decisions are based on the undergraduate transcript, the letters of recommendation, the sample of written work, and the supplemental application.

Applications must be received by the university no later than February 1.

**Program Requirements**

All candidates for the MA in History with an emphasis in Museums, Heritage, and Public History must complete the following core courses (25 hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 6000</td>
<td>The Historian's Craft</td>
<td>3</td>
</tr>
<tr>

<td>1</td>
</tr>
</tbody>
</table>

Students may substitute other courses with approval of the Director of the Museums, Heritage, and Public History program. For courses outside the History Department, a maximum of six credits may be at the 3000 level. No 3000 level courses may be taken for graduate credit within the History Department.

Candidates conclude the degree with an internship or exit project represented by the course numbered HIST 6138 (5 credits). This capstone project will be customized to the interests and career aspirations of each student, as approved in advance by the Director.

**Total hours for Program: 34**

**Learning Outcomes**

Upon completion of the program, graduates will be able to:

- Conduct original historical research based on disciplinary protocols
- Demonstrate competence in digital technologies utilized in the creation, presentation, and distribution of interpretive content
- Assess contemporary activities in the field of museums, heritage, and public history with reference to best practices
- Develop skills for communicating interpretive content effectively with public and professional audiences
- Demonstrate skills to become a competent professional and ethical contributor to museum, heritage, and public history collaborative settings
- Integrate community perspectives into professional museum, heritage, and public history products and activities

**History Minor**

Students may minor in history by taking 19 hours of history courses as follows:
1. Three courses numbered 1000-1999 (9 credits)
2. Three courses numbered 2000-3999, including HIST 3199 (10 credits)

No course in which a grade below a C- is received shall count toward a minor.

**Prerequisites**

Some courses required by the Minor in History have prerequisites. Some students may satisfy prerequisites by virtue of their prior curriculum. When this is not the case, students are responsible for either satisfying the prerequisites by adding courses to their curriculum or obtaining a waiver from the instructor.

### History of Art and Visual Culture Minor

A minor in History of Art and Visual Culture requires the completion of at least 18 hours with a GPA of 2.0 or better. Students must take ART HS 1100 and at least one course in non-Western art. They must also take at least two courses at the 2000-level and two courses at the 3000-level or above in History of Art and Visual Culture. A maximum of 3 hours of internship can be applied toward the minor in art history. At least nine of the 18 hours must be taken in residence at UMSL. All courses in the minor must receive a grade of C- or above.

### Honors College Undergraduate Certificate, 2-year Program

**Two year Program (22 credit hours total):**

Students in this program will take a combination of Honors College seminars and honors independent study credit (usually for work done in their major fields). The 22 credit hours must include 6 credits of independent study, as for the four-year program.

**Third Year**

During the first year of the two-year program, students take three honors seminars, including HONORS 3100 (Writing the City), HONORS 3120 (Honors Business Writing), or HONORS 3160 (Honors Writing in the Sciences); one course from the Inquiries series (2000 level); one course from either the Advanced Seminar (3000 level). In addition, 3 credit hours of independent study may be taken during this year, normally in or closely related to their major.

**Fourth Year**

The final year of the two-year program involves three courses chosen from the 3000 and 4000 level options, including HONORS 4100, the honors writing portfolio, and at least one course chosen from the 3000 level. In addition, students will complete their independent study requirements with 3 or 6 hours of project, internship, or research work.

### Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Through coursework comparing and contrasting diverse cultural viewpoints, academic disciplinary approaches and information, Honors students will demonstrate the ability to synthesize knowledge from various perspectives.
- Honors students will exhibit the ability to communicate effectively in speech and writing:
  - by speaking in groups to present, reflect on and evaluate information and perspectives.
  - by completing the written assignments required in all Honors courses that focus on various perspectives, audiences and disciplinary approaches/demonstrating effective writing that employs correct diction, syntax, usage, grammar and mechanics.
- Honors students will demonstrate skills in higher-order thinking, valuing and managing information:
  - by exhibiting the ability to distinguish among opinions, facts and inferences; by identifying underlying or implicit ins assumptions; by making informed judgments; and by solving problems through applying evaluative standards.
  - by locating, accessing, synthesizing and annotating information from print, electronic, and other sources; by distinguishing between scholarly and non-scholarly sources in preparation for higher-order thinking.
  - by analyzing and synthesizing information from a variety of sources, applying the results to resolving complex situations and problems, and defending conclusions using relevant evidence and reasoned argument.
  - by utilizing cultural, behavioral, and historical knowledge to clarify and articulate a personal value system while recognizing the ramifications of personal value decisions on the self and others.
  - by identifying conflicts within and between multiple perspectives and value systems; by recognizing and analyzing ethical issues in a variety of contexts; and by employing standards of logic to formulate a reasonable position among multiple perspectives.
- Honors students will select and participate in Honors courses in various disciplines and will demonstrate essential skills and approaches relevant to those disciplines: Students participating in Honors courses in disciplines such as the social sciences, life and physical sciences that rely upon the understanding of fundamental
mathematical concepts and their applications will display a level of quantitative literacy that would enable them to understand and analyze quantitative data, draw conclusions, and solve problems.

• Students participating in Honors courses in the social and behavioral sciences will exhibit understanding of themselves and the world around them through the study of the content and methodologies used by historians and social and behavioral scientists to discover, describe, explain, and predict human behavior and social systems; they will demonstrate understanding of the diversities and complexities of the cultural and social world, past and present, and come to an informed sense of self and others.

• Students participating in Honors courses in the humanities and fine arts will exhibit understanding and critical analysis of the ways in which people have addressed their condition through literature and art; they will demonstrate their understanding of these cultural works and their historical circumstances; they will formulate aesthetic judgments of these works.

• Students participating in Honors courses focusing on life and physical sciences will demonstrate knowledge of scientific principles, research procedures and empirical methods of scientific enquiry; they will display their understanding of how scientific discoveries affect and are affected by theoretical views of the world and human history.

• Honors students will complete specific Honors requirements designed to develop their awareness of career and advanced study opportunities:
  • by participating in internships, independent study and undergraduate research to develop and demonstrate advanced knowledge in a discipline, professional skills, and greater understanding of career and educational goals.
  • by creating an Honors Writing Portfolio that demonstrates the ability to assess their writing skills and development; by devising and revising documents for employment searches or graduate school applications to enhance their ability to formulate and pursue specific career goals.

Honors College Undergraduate Certificate, 4-year Program

Four Year Program (40 credit hours total):
Approximately one-third of the 120 hours honors students earn toward graduation are taken in the Honors College. Most of these credits are associated with a sequence of honors courses designed specifically for the college, the majority of which are taken during the first two years. During this period, these students fulfill virtually all of the university’s general education requirements (p. 48), usually in innovative ways. In their junior and senior years, honors students also may earn honors credit for work done within their major fields, work which includes the possibility of internships, independent study projects, and advanced undergraduate research.

First Year
Students take HONORS 1100, HONORS 1200 and HONORS 1201 or HONORS 1202 and HONORS 1203, and one course each from the Western Traditions and Non-Western Traditions seminar series. Students may take a seminar from the American Traditions series as an elective or in place of the Western Traditions seminar.

</tr>
</tbody>
</table>

During the first two years, honors students will take additional course work in other areas, such as mathematics, natural science, foreign language, and major prerequisite classes to satisfy various university, Honors College, and specific degree requirements.

Third and Fourth Years
Honors students in the four-year program take at least four seminars (12 credit hours) from the Advanced Seminar (3000 level series). They may take more where this is compatible with their major and/or minor requirements. Honors students in the four-year program who take HONORS 3100 (“Writing the City”), HONORS 3120 (“Business Writing”) or HONORS 3160 (“Writing in the Sciences”) may present it for their honors certificate as one of their 3000-level seminars. They may also, depending
Upon completion of the program, certificate earners will be able to:

- **HONORS 3001** Topics in Global Awareness 3
- **HONORS 3010** Advanced Honors Seminar in the Humanities 3
- **HONORS 3020** Advanced Honors Seminar in the Fine and Performing Arts 3
- **HONORS 3030** Advanced Honors Seminar in the Social and Behavioral Sciences 3
- **HONORS 3100** Honors Advanced Composition: Writing The City 3
- **HONORS 3120** Honors Business Writing 3
- **HONORS 3160** Honors Writing in the Sciences 3

In addition, honors students do 6 credit hours in independent study projects, normally in or closely related to their major field. These independent study projects normally carry credit in the major, but can be done as Honors College independent study or research projects (HONORS 4900, HONORS 4910). During the final year, students also take HONORS 4100, a one-hour capstone for the Honors College writing program; HONORS 4100 may be taken for two hours.

**Learning Outcomes**

Upon completion of the program, certificate earners will be able to:

- Through coursework comparing and contrasting diverse cultural viewpoints, academic disciplinary approaches and information, Honors students will demonstrate the ability to synthesize knowledge from various perspectives.
- Honors students will exhibit the ability to communicate effectively in speech and writing:
  - by speaking in groups to present, reflect on and evaluate information and perspectives.
  - by completing the written assignments required in all Honors courses that focus on various perspectives, audiences and disciplinary approaches (demonstrating effective writing that employs correct diction, syntax, usage, grammar and mechanics).
- Honors students will demonstrate skills in higher-order thinking, valuing and managing information:
  - by exhibiting the ability to distinguish among opinions, facts and inferences; by identifying underlying or implicit ins assumptions; by making informed judgments; and by solving problems through applying evaluative standards.
  - by locating, accessing, synthesizing and annotating information from print, electronic, and other sources; by distinguishing between scholarly and non-scholarly sources in preparation for higher-order thinking.
  - by analyzing and synthesizing information from a variety of sources, applying the results to resolving complex situations and problems, and defending conclusions using relevant evidence and reasoned argument.
  - by utilizing cultural, behavioral, and historical knowledge to clarify and articulate a personal value system while recognizing the ramifications of personal value decisions on the self and others.
  - by identifying conflicts within and between multiple perspectives and value systems; by recognizing and analyzing ethical issues in a variety of contexts; and by employing standards of logic to formulate a reasonable position among multiple perspectives.
- Honors students will select and participate in Honors courses in various disciplines and will demonstrate essential skills and approaches relevant to those disciplines: Students participating in Honors courses in disciplines such as the social sciences, life and physical sciences that rely upon the understanding of fundamental mathematical concepts and their applications will display a level of quantitative literacy that would enable them to understand and analyze quantitative data, draw conclusions, and solve problems.
- Students participating in Honors courses in the social and behavioral sciences will exhibit understanding of themselves and the world around them through the study of the content and methodologies used by historians and social and behavioral scientists to discover, describe, explain, and predict human behavior and social systems; they will demonstrate understanding of the diversities and complexities of the cultural and social world, past and present, and come to an informed sense of self and others.
- Students participating in Honors courses in the humanities and fine arts will exhibit understanding and critical analysis of the ways in which people have addressed their condition through literature and art; they will demonstrate their understanding of these cultural works and their historical circumstances; they will formulate aesthetic judgments of these works.
- Students participating in Honors courses focusing on life and physical sciences will demonstrate knowledge of scientific principles, research procedures and empirical methods of scientific enquiry; they will display their understanding of how scientific discoveries affect and are affected by theoretical views of the world and human history.
- Honors students will complete specific Honors requirements designed to develop their awareness of career and advanced study opportunities:
  - by participating in internships, independent study and undergraduate research to develop and demonstrate advanced knowledge in a discipline, professional skills, and greater understanding of career and educational goals.
  - by creating an Honors Writing Portfolio that demonstrates the ability to assess their writing skills and development; by revising and revising documents for employment searches or graduate school applications to enhance their ability to formulate and pursue specific career goals.

**Information Security Management and Auditing Graduate Certificate**

The Graduate Certificate in Information Security Management and Auditing provides students an opportunity to pursue a focused study of core information security management principles and practices and auditing of information security programs and operations. Students first obtain basic technical background to understand core information security issues and principles. They then learn about designing, managing, assessing, and auditing security within organizational contexts. The program is suitable for candidates with undergraduate education and/or work experience in business related fields and who do not prior technical background. It’s also suitable for candidates with Information Technology and/or technical cybersecurity backgrounds who wish to broaden their skill-sets in the business and management aspects of information security.

**Admission Requirements**

Applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements.
Certificate Requirements

All course prerequisites and all course waivers are applicable. Substitute courses may be approved by the appropriate department chairperson and the Director of Graduate Business Programs. This 12 credit hour certificate program also counts toward the 30 credit hour Master of Science in Information Systems and Technology degree program requirements. Students may choose to combine this certificate with other courses and/or certificates to obtain the Master of Science in Information Systems and Technology degree.

Total Hours: 12

Information Systems and Technology BS

The Information Systems (IS) area endeavors to prepare high-potential students of diverse backgrounds for successful careers in the IS profession. Careers in IS may include programming, systems analysis and design, database administration, end-user support, network administration, and management consulting. The goal is to provide students with the skills to deal with the challenges confronting IS through teaching, research, and service to the profession.

General Education Requirements

All Business majors must meet the university general education requirements (p. 48). As part of meeting the university’s general education requirements, all Business majors must complete the prerequisite courses below:

Academic Tracks within the Information Systems and Technology Major

Information Systems and Technology majors may choose to focus their elective hours in a particular sub-discipline of information systems and
Upon completion of the program, graduates will be able to:

- Evaluate and implement effective IS leadership principles and strategy.
- Prioritize and propose managerial practices to develop and deploy technological innovations that produce business advantage.
- Explain best practices in systems analysis and design.
- Support and improve current best practices in application development, business intelligence, cybersecurity, and legacy systems.
- Exhibit specialized leadership and technical expertise.

**Total Hours: 120**

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor. All requirements are subject to change.

Information Systems and Technology BS/MS Dual Degree Program

The 2+3 Combined BS/MS program in Information Systems and Technology provides an opportunity for students of recognized academic ability and educational maturity to complete the requirements for both degrees in 5 years of full-time study. The combined program allows students to complete both the undergraduate and graduate degrees in Information Systems and Technology with a total of 135 credit hours instead of the typical 150 credit hours if the degrees were pursued.
separately. When all the requirements of the BS/MS program have been completed, students will be awarded both the BS and MS degrees.

Students can apply to the Chair of the Information Systems and Technology Department for admission to the 2+3 combined degree program during the semester they will complete 60 undergraduate credit hours. A cumulative grade point average of 3.0 or higher is required. Students must also meet with a Graduate Business Programs academic advisor.

Students will be admitted to the 2+3 program under provisional status until they have completed the department-specified 15 hours in the program with a grade point average of 3.0 or higher. After completion of the provisional period, upon recommendation of the Department Chair, students can be granted formal admission into the 2+3 program, which involves admission to the Graduate School. After formal admission, the student will be classified as a graduate student, will pay graduate tuition for all courses, and must continue taking courses under graduate status until completion of the master’s degree. Students must maintain a grade point average of 3.0 or higher throughout the combined program.

Applicants are considered for formal admission into the 2+3 program, if they meet the following four criteria:

1. earned at least 90 hours as an undergraduate;
2. have a minimum GPA of 3.0 since being granted provisional status;
3. have submitted at least one letter of recommendation from an Information Systems and Technology faculty member; and
4. have met with a Graduate Business Programs academic advisor.

A total of 15 hours of graduate coursework may be counted both to meet the 120 credit hours required for the Bachelor’s degree and to meet the requirements of the Master’s degree. Students may resign from the 2+3 Program and apply for the Bachelor’s degree. However, once the Bachelor’s degree is awarded, the benefit of “double counting” courses will be lost. Any course used to meet a degree requirement for an undergraduate degree cannot be applied to a subsequent Master’s degree.

Undergraduate BS in Information Systems and Technology students who choose to pursue the 2+3 BS/MS degree option will be required to take the following five graduate courses (15 credits). With permission (Graduate School Form C1), provisional 2+3 students may take up to 6 hours of 4000/5000/6000 level courses while still classified as an undergraduate. These 6 hours will be treated by the Graduate School as “undergraduate status”, and they may be counted toward a master’s degree.

Total Hours 15

If a student has completed the undergraduate equivalent of a course, they may not receive graduate credit. Students may request to substitute other courses, subject to approval of the Department Chair. In addition, 2+3 students will complete INFSYS 5800 and the requirements for one of the Graduate Certificates listed below.

- Graduate Certificate in Business Intelligence (p. 437)
- Graduate Certificate in Enterprise Systems Development (p. 536)
- Graduate Certificate in Information Security Management and Auditing (p. 552)

Information Systems and Technology Graduate Certificate

Program Description

The Graduate Certificate in Information Systems and Technology provides students with core technical skills in programming, database management, systems analysis, and systems design. These skills are a foundation for specialized domains of study in business intelligence, cybersecurity, and enterprise systems development.

Admission Requirements

Applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements.

Certificate Requirements

All course prerequisites and all course waivers are applicable. Substitute courses may be approved by the appropriate department chairperson and the Director of Graduate Business Programs.

This 12 credit hour certificate program also counts toward the 30 credit hour Master of Science in Information Systems and Technology degree program requirements. Students may choose to combine this certificate with other courses and/or certificates to obtain the Master of Science in Information Systems and Technology degree.

</tbody>
</table>

Total Hours 12

The required courses may be substituted with other courses with the approval of the Chair of the Information Systems and Technology Department.

Information Systems and Technology Minor

General Requirements

- All minors are 15 credit hours or 5 courses, including business core courses.
- Students must attain a 2.0 grade point average for all courses in the minor.
- Students must attain a minimum grade of C- in each course included in the minor.
- All courses in the minor must be on a graded basis.
- A minimum of 9 credit hours of coursework included in the minor must be taken in residence at UMSL.
• One must complete a baccalaureate degree at UMSL in order for a minor to be conferred.
• A minor may be added for up to two years following completion of the baccalaureate degree

Specific Requirements for the Minor
Available to all students except those pursuing the Bachelor of Science in Information Systems and Technology degree. A minimum of 15 credit hours are required for the minor. Students must complete INFSYS 2800 and four elective courses. At least three of the elective courses must be 3000-level or higher Information Systems and Technology (INFSYS) courses. The fourth course can be any related course from Accounting (ACCTNG), Entrepreneurship (ENT) Finance (FINANCE), International Business (INTL BUS) Management (MGMT), Marketing (MKTG), Supply Chain and Analytics (SCMA), Computer Science (CMP SCI), or a related discipline subject to approval from the department chair.

Learning Outcomes
Upon completion of the program, graduates will be able to:
• Analyze challenges confronting the management of information systems.
• Apply ethical, legal, privacy, and compliance perspectives to the design, development, maintenance, and use of information systems.
• Explain the analysis and design of information systems.
• Synthesize data for managerial decisions.
• Demonstrate specialized technical expertise.

Information Systems and Technology MS
The Master of Science in Information Systems and Technology (MSIST) is designed to provide the technical and managerial knowledge to work successfully in design, development, and leadership roles related to information technology (IT). Students have opportunities to gain skills in application development, business intelligence, cybersecurity, cloud computing, fintech, and other emerging areas that impact organizational IT strategies.

The program is designed for students and professionals with diverse undergraduate backgrounds including business, information systems and technology, computer science, engineering, and other disciplines. MSIST students interact extensively with their peers as well as with industry executives in a carefully curated academic environment to gain a well-rounded perspective on the role of IT in contemporary organizations. Flexible class schedules (day and evening, weekends, 8 or 16 week sessions) and course delivery formats (face-to-face, blended, and online) enable students to balance school, work, and life.

The MSIST program provides students with flexible pathways to complete the degree by combining two graduate certificates and taking two additional courses toward the MSIST degree.

The Master of Science in IS program is designed to provide the technical and managerial knowledge to operate successfully in careers associated with the design, development and management of computer-based information, telecommunications, and Internet applications. The program accommodates students with undergraduate degrees specializing in IS, business, and computer science, as well as students with undergraduate degrees outside business.

Admission Requirements
Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in Information Systems and Technology only after they have formally applied for admission through the Graduate School. Applications may be completed on-line.

In addition to Graduate School admission requirements, the following requirements apply for the MSIST program:

Applicants must have an undergraduate degree with a minimum cumulative GPA of 3.0. Students whose GPAs are between 2.75 and 2.9 may be admitted under a restricted status within the terms specified by the Graduate School.

Applicants must have foundational knowledge of data analysis and computer programming. This requirement can be fulfilled by providing evidence of prior coursework, training, or professional experience.

Applicants may also join the program without this background and complete the following coursework:

• Students without a background in data analysis could take SCMA 5300 as a graduate student to fulfill this requirement.
• Students without a background in computer programming can take INFSYS 6805 as a graduate student to fulfill this requirement.

Entrance Examinations
• This program generally requires the Graduate Management Admissions Test (GMAT) or Graduate Record Examination (GRE) scores. A waiver of this requirement may be requested if applicants meet certain criteria. Please see the petition to waive the GMAT: http://mba.umsl.edu/files/pdfs/GMAT-waiver.pdf.
• Non-native speakers of English must provide evidence of English language competency by submitting an official TOEFL or IELTS score. The minimum TOEFL score for graduate admission is 79 iBT. The minimum IELTS score is 6.0.

Degree Requirements
Candidates for the Master of Science in Information Systems and Technology must meet all Graduate School requirements including, but not limited to, requirements on admissions, enrollment, course policies, and academic standing as listed in the University Bulletin.

The program requires a total of 30 hours for students with either business or non-business undergraduate degrees.

Program Requirements
All students will complete:
• INFSYS 5800 (3 hours)
• The requirements for two of the certificates listed (24 hours):
  • Graduate Certificate in Enterprise Systems Development (p. 536)
  • Graduate Certificate in Information Security Management and Auditing (p. 552)
  • Graduate Certificate in Information Systems and Technology (p. 555)
  • Graduate Certificate in Business Intelligence (p. 437)
One elective course from the list below or from the certificates above (3 hours). Courses may also be substituted with other courses upon approval from the Department Chair:

**Cybersecurity Courses**

- INFSYS 6836 Management of Data Networks and Security 3
- INFSYS 6858 Advanced Cybersecurity Concepts 3
- INFSYS 6864 Applied Cryptography for Business Applications 3
- INFSYS 6888 Capstone in Information Security 3

**Information Systems and Technology Management**

- INFSYS 6832 Information Systems Strategy 3
- INFSYS 6838 Business Processes: Design, Management and Integration 3
- INFSYS 6847 Project Management 3

**Experiential Learning, Research, and Emerging Topics**

- INFSYS 5890 Graduate Internship in Information Systems 1
- INFSYS 5899 Individual Research in Information Systems 1
- INFSYS 6891 Seminar in Information Systems 3

**Learning Outcomes**

Upon completion of the program, graduates should be able to:

- Evaluate and implement effective IS leadership principles and strategy.
- Prioritize and propose managerial practices to develop and deploy technological innovations that produce business advantage.
- Explain best practices in systems analysis and design.
- Support and improve current best practices in application development, business intelligence, cybersecurity, and legacy systems.
- Exhibit specialized leadership and technical expertise.

**Interdisciplinary Studies BIS**

**Bachelor of Interdisciplinary Studies (BIS)**

The Bachelor of Interdisciplinary Studies degree (B.I.S.) provides a flexible, individualized program of study for the self-directed learner. It is developed by each student with advisement by UMSL professional advisers and faculty, and it is intended for students who have unique educational goals that cannot be met by any other UMSL degree program.

Oversight of the B.I.S. degree is the responsibility of the Interdisciplinary Studies Committee, composed of faculty and professional staff, including representatives from Arts and Sciences (Humanities, Social Sciences, and Natural Sciences), Business, Education, Fine Arts and Communication, Nursing or other divisions. The Interdisciplinary Studies Committee will be convened and supported by the Office of the Provost.

**Admission Requirements for the B.I.S. Program**

Candidates for the B.I.S. degree must complete an application for admission to the program. The Interdisciplinary Studies Committee approves applications.

Approved programs of study are well-designed, coherent, structured to meet the student’s unique educational goals, and not readily available under any other UMSL degree program.

Students must have demonstrated the equivalent of academic proficiency required for any other undergraduate degree at UMSL.

**Degree Requirements for the B.I.S. Program**

**General Education Requirements**

Students must complete the university’s general education requirements. For details refer to the general education requirements (p. 48) section of this Bulletin.

**Area of Study**

In consultation with faculty and staff advisers, students will carry out an area of study of at least 36 advanced semester hours of graded credit that meets their educational goals. Graded credit consists of degree credit courses in which the student received a letter grade C- or better. The area of study must include at least nine hours at the 3000-level or above; these courses may be in one or more disciplines.

**Hour and Grade Requirements**

The degree requires completion of 120 semester hours with a 2.0 campus grade point average overall and in the area of study. No more than 15 hours may be taken in one department. At least 45 hours must be earned in courses beyond the introductory level. A minimum of 24 hours of graded credit must be completed in residence at UMSL, of which 15 hours must be in the area of study and completed after admission to the B.I.S. program. Each candidate must be in residence for 24 of the last 30 hours of graded credit (exclusive of courses taken on a satisfactory/unsatisfactory basis).

**Supervised Professional or Service Internship and Independent Research**

Credit not exceeding 6 hours may be earned for department-approved professional internship, service internship, or independent research. The projects or activities must be formulated by the student and carried out under the supervision of a faculty member with the approval of the adviser. Students must submit a written report approved by the supervisor upon completion of the projects or activities.

**Learning Outcomes**

Upon completion of the program, graduates will be able to:

- Communicate effectively and professionally, in writing, in preparing presentations, and in interactions with others in their field.
- Prepare persuasive reports and documents that are well-organized and carefully edited.
- Work with advanced technologies in settings appropriate to their current and future workplaces.
- Engage in informed dialogue about their chosen fields, and clearly articulate their aspirations for their future success.
- Conduct research for their areas of academic focus and on avenues for career advancement and evolving opportunities in their professions.
- Negotiate details related to planning for future steps toward their professional development, and work productively with advisors, mentors, and colleagues to maximize their strategic impact.
• Network with professionals in their field to prepare for the job market and gain a thoroughly realistic perception of their potential.
• Undertake a variety of projects independently, and develop coherent and innovative plans to launch those projects.
• Design innovative approaches to solving problems, and explore solutions that merge disparate ideas and concepts and encourage collaboration and risk-taking.

### International and Comparative Politics Minor

#### Requirements for Political Science Minors

A general minor in political science can be arranged, as well as specialized minors in eight different subfields of the discipline. Interested students should see a faculty adviser to plan a coherent program of study as a minor field.

Students must achieve a cumulative 2.0 GPA in the political science courses chosen to qualify for the minor. Students may count no more than 3 hours in political science taken on a satisfactory/unsatisfactory basis toward the minor. Students taking an internship POL SCI 3940 may count no more than three hours of the internship toward the minor.

Select four of the following: 12

- POL SCI 2500 Comparing Different Worlds
- POL SCI 2510 The Politics of European Union
- POL SCI 2530 Political Systems of South America
- POL SCI 2540 Political Systems of Mexico, Central America and the Caribbean
- POL SCI 2580 African Politics
- POL SCI 2590 Globalization: Prospects and Problems
- POL SCI 2800 International Relations Theories
- POL SCI 2810 Global Issues
- POL SCI 2820 United States Foreign Policy
- POL SCI 3810 The Politics of the Middle East: International and National Dynamics
- POL SCI 3830 International Political Economy
- POL SCI 3850 International Organizations and Global Problem-Solving
- POL SCI 3860 Political Violence
- POL SCI 3880 Global Diasporas and International Relations in the 21st Century
- POL SCI 3890 Workers and Globalization
- POL SCI 3900 Special Readings 1
- POL SCI 3940 Public Affairs Internship 1
- POL SCI 4810 Human Rights
- POL SCI 4850 International Law

**Total Hours** 15

May be taken with approval of the faculty advisor.

#### Learning Outcomes

- Evaluate critical issues within and between other countries
- Demonstrate cross-cultural competence and a global worldview.
- Compare and contrast the major political, economic, cultural, and geographic features of different regions of the world.
- Assess comparative and international political issues, formulate evidence-based recommendations, and communicate them with clarity and coherence.

### International Business Minor

#### General Requirements

- All minors are 15 credit hours or 5 courses, including business core courses.
- Students must attain a 2.0 grade point average for all courses in the minor.
- Students must attain a minimum grade of C- in each course included in the minor.
- All courses in the minor must be on a graded basis.
- A minimum of 9 credit hours of coursework included in the minor must be taken in residence at UMSL.
- One must complete a baccalaureate degree at UMSL in order for a minor to be conferred.
- A minor may be added for up to two years following completion of the baccalaureate degree.

#### Specific Requirements for the Minor

Available to all students except those pursuing the Bachelor of Science in Business Administration degree with an emphasis in International Business. Students must complete any 5 courses in International Business.

#### Learning Outcomes

Upon completion of the program, graduates will be able to:

- Discuss the impact of globalization on international businesses operations;
- Examine the impact of cultural factors and develop the sensitivity and appreciation for cultural differences;
- Relate functional knowledge for a specific area of business with global operation.

### International Relations BA

#### Bachelor of Arts in International Relations

#### General Education Requirements

Majors must satisfy the university and college general education requirements. Political science courses may be used to satisfy the social sciences requirement. The foreign language requirement for the B.A. degree may be satisfied in any language.

Departmental Honors
The department awards honors to students having a minimum grade point average (GPA) of 3.2 in the major, a minimum overall GPA of 3.2 (except in extraordinary circumstances), and successfully completed an honors thesis, project, or report.

**Degree Requirements**

All majors must complete at least 15 hours in Political Science at the 3000 level or above.

</table>

1. Topic must relate to international relations.
2. Topic must relate to comparative politics.

It is recommended that majors take POL SCI 1500, POL SCI 1800, POL SCI 1820, and POL SCI 3000 as early as possible since these courses are designed to provide a substantive foundation as well as conceptual and analytical tools for subsequent course work.

Majors are strongly encouraged to broaden their academic experience by including relevant curricular experiences including study abroad, and minors or certificates in areas such as economics and foreign languages.

B.A. degree students may take a maximum of 3 hours of political science on a satisfactory/unsatisfactory basis; this can include any course except the four required courses in the core curriculum.

**Departmental Honors**

The department awards honors to students having a grade point average (GPA) of 3.2 in the major, an overall GPA of 3.2 (except in extraordinary circumstances), and successfully completed an honors thesis, project, or report.

**Learning Outcomes**

Graduates of this program will be able to:

- Identify key trends in international relations that are expected to impact life in the United States and other countries in the foreseeable future.
- Demonstrate cross-cultural competence and a global worldview.
- Apply major international relations theories and concepts to contemporary issues in global affairs.
- Analyze the foreign policy behavior of the United States and other major actors in world politics.
- Compare and contrast the major political, economic, cultural, and geographic features of different regions of the world.
- Assess international relations issues, formulate evidence-based recommendations, and communicate them with clarity and coherence.
- Plan, execute, and defend a major research project.

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

International Studies Graduate Certificate

Applicants to the Certificate program must meet the general requirements for admission to Graduate School as explained in the graduate study section of this Bulletin. The Certificate is awarded after completion of 18 hours, including a minimum of 12 hours drawn from a list of core courses and an additional six hours selected from a wide variety of offerings in eight different disciplines. No more than 12 hours may be from any one discipline. Students may simultaneously earn a graduate degree and count credits earned in their degree program toward the Certificate when appropriate.

Requirements

| POL SCI 6485 | Directed Readings and Research in International Relations |

Total Hours: 18

Note: No more than 12 credit hours may be from any one discipline.
Learning Outcomes
Upon completion of the program, certificate earners will be able to:

• Explain the major components of culture and how cultural differences affect conducting business abroad
• Integrate global awareness and cultural knowledge into business analysis
• Describe functional knowledge of global operation for a specific area of business, such as marketing or finance
• Assess the impact of cultural and environmental factors on international business operations

Internet and Web Graduate Certificate
The graduate certificate in Internet and Web is a four-course (12 credit hour) program. It is designed to provide broad training in web technologies on both the client and server sides, including various stack architectures and frameworks, recent technologies such as REST, and trends such as microservices. All students must take three required courses and one elective, subject to the Graduate School regulations.

A minimum of three courses must be taken from UMSL. A maximum of two courses can be used from the 4000#level. Courses may be substituted with the permission of the certificate coordinator.

</tr>
</tbody>
</table>

Total Hours 15

A minimum of three courses must be taken from UMSL. Courses may be substituted with the permission of the certificate coordinator. For more information, students can contact the department chair or email info@arch.umsl.edu.

Learning Outcomes
Upon completion the program, certificate earners will be able to:

• Identify and implement techniques for communicating complex information on the Web
• Use Web languages to integrate media and user interaction
• Design and develop Internet applications
• Use the state-of-the-art languages and frameworks on both server and client sides

Japanese Minor
A minor in French, German, Japanese or Spanish requires the completion of four courses in the language beyond the basic foundation sequence (Language 1001, Language 1002, and Language 2101). Transfer students must complete at least two courses for the minor at UMSL. All courses must be passed with a grade of C- or better.

Select one course in Japanese Studies 3

Learning Outcomes
Graduates with a minor in Japanese from the University of Missouri-St. Louis can use the language to interact with native speakers on familiar topics related to their daily lives. They have an emerging understanding of Japanese culture fostered through engaging courses and opportunities such as study abroad. They can apply their linguistic and cultural competencies in real-life situations such as travel and work.

Skills and Knowledge Areas
Upon completion of the Japanese minor, students should be able to:

### K-12 Teacher Leader Graduate Certificate

**Admission Requirements**

Applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements and have active teacher certification. Preferred candidates have teaching experience.

Students may submit application materials at anytime, however applications will be reviewed twice annually: October 1 and March 1.

**Certificate Requirements**

Students are required to take 15 credit hours in three areas:

- Foundations
- Knowledge/Concepts
- Skills

All courses must be taken at the University of Missouri - St. Louis.

### Foundation Course

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>ED ADM 6717</td>
<td>Instructional Coaching for K-12 Teacher Leaders</td>
<td>3</td>
</tr>
</tbody>
</table>

### Knowledge/Concepts

9 credit hours, choose three of the following:

- ED ADM 6701 Leadership for Equity
- ED ADM 6702 Supervision in Education Organizations
- ED ADM 6704 Data-Driven Instruction and Team Leadership I
- ED ADM 6705 School Culture I

### Skills

3 credit hours, choose one of the following:

- Curriculum
- STEM
- Literacy
- Diagnosis and Remediation of Disabilities in Learning Mathematics
- STEM Instruction in Secondary Education
- Gateway Writing Project

Total Hours 15
### Labor Studies Undergraduate Certificate

**Labor Studies Certificate**

The Labor Studies Certificate is designed for students who are interested in a focused specialty in labor studies. The 18 credit hour curriculum consists of six credit courses offered over a three-semester period.

</tbody>
</table>

**Learning Outcomes**

Upon completion of the program, a certificate earner will be able to:

- Identify and apply techniques to research and analyze power relations, organizational structures, and effective action in workplace settings.
- Demonstrate knowledge about the economy, including wage, tax, and trade policy; historical disparities; and the role of corporations, unions, and other organizations.
- Assess, analyze and apply the skills of building cooperation and collaboration needed in negotiations and in alternative dispute resolution.
- Locate and clearly explain the laws and regulations affecting workers, workplaces, labor and community organizations.

### LatinX Studies Minor

Latinx Studies at the University of Missouri-St. Louis is an interdisciplinary program dedicated to the study of the historical, social, political, language, and cultural experiences of U.S. Latina/Latinos/Latinx, their families and communities. Students in this program will examine how transnational understandings of race, ethnicity, politics, culture, and language are mapped onto and struggled over within the United States, the Midwest, and St. Louis.

In addition to two required courses—Introduction to Latinx Studies and an internship/service learning Capstone Experience—students will select three electives to round out the minor, each from a different discipline, on topics such as immigration, bilingualism, cultural worldview, comparative politics, and history (more classes will be added as created). Students will combine courses across the disciplinary spectrum into an individualized program to gain a deeper understanding of Latina/Latino cultures, histories, and social conditions; while they engage in collaborative projects, civic programs, and service learning; and enhance writing and analytical skills.

#### Electives

Choose 3 from following list; at most one course from each discipline will count toward the minor

---

### Law and Philosophy Minor

The undergraduate minor in Law and Philosophy requires five philosophy courses (15 credit hours). At least 6 hours must be at the 3000 level or above. A GPA of 2.0 or better is required in courses presented for the minor. Prospective minors are encouraged to consult with members of the department for advice in planning an appropriate sequence of courses.

#### Two courses in Philosophy

| Total Hours | 6 |

---

1 PHIL 3000-level or higher courses must be taken in residence in the UMSL Department of Philosophy. In special cases, one of the 3000-level or higher courses may be taken outside of the UMSL Department of Philosophy; the course must (1) have a strong law and philosophy component and (2) have been pre-approved by the Pre-Law advisor.

**Learning Outcomes**

An ideal graduate with a Minor in Law and Philosophy will:

- Demonstrate an ability to apply the distinctive methods of philosophy by reconstructing philosophical arguments and deliberating rationally over their merits
- Understand central theories about the nature of law and its role in society
• Be able to critically evaluate on moral and empirical grounds a range of common justifications for the use of punishment by the state
• Demonstrate competence with formal reasoning tools such as syllogistic logic, propositional logic and/or quantification logic and show an ability to apply those to tools in philosophical and everyday contexts
• Will have detailed knowledge of, and an ability to critically evaluate, the dominant positions in the history of legal philosophy on the nature and role of law
• Will be able to apply legal theory to contemporary ethical and social issues
• Will be able to think critically and ethically about issues in legal theory and express their thoughts in a clear and persuasive writing style

Liberal Studies BLS

Bachelor of Liberal Studies (BLS)

The Bachelor of Liberal Studies is a degree program that enables students to combine structured areas of academic emphasis in ways more relevant to their interests than the standard academic major.

Students who participate in this program must declare their areas of study (two minors or a minor and undergraduate certificate) at the time they declare that BLS is their intended degree. The plan of study must be approved at the beginning of the program.

The BLS program is administered through the Department of Philosophy.

To obtain a Bachelor of Liberal Studies (BLS), a student must complete:

• UMSL General Education Requirements (consult General Education (p. 48) section of course listings)
• In addition, students must complete the State Requirement (3) and Cultural Diversity Requirement (3) if not met in General Education course selection
• The university requirement of proficiency in English Composition
  • ENGL 1100 - First Year Writing (to be completed in the first 24 credit hours at the university)
  • Junior Level Writing
• The university requirement of proficiency in Mathematics (to be completed in the first 24 credit hours at the university)
• Two emphasis areas that are satisfied by completing the requirements for:
  • two designated BLS Minors in participating departments or other units OR
  • a designated minor and any undergraduate certificate. No course may be used more than once.
• A capstone course (minimum of 3 hours) selected from one of the concentration areas that make up the identified BLS core.

Also Required

• Minimum of 45 credit hours in upper level course work (2000 or higher)
  • Electives 28-42
  • A minimum of 120 credit hours
  • Overall GPA of 2.0 or better
  • GPA of 2.0 or better in BLS combination areas (unless otherwise specified)

• Minimum grade of C in all courses used in BLS combination areas unless otherwise specified by the department
• Residency requirement, in addition to campus residency, unless otherwise specified, 9 graded hours in each minor and certificate at 2000 level or above and one capstone course

1 Note: Not all minors have a designated BLS capstone course so students must be careful to pair minors and certificates so that they have a capstone course.

The Colleges of Arts and Sciences (CAS), Business Administration (COBA), College of Education (COE), the Pierre Laclede Honors College (PLHC), and the School of Social Work (SW) have joined together to make available Liberal Studies combinations involving the following units:

• Department of Art and Design (CAS)
• Department of Biology (CAS)
• College of Business Administration (COBA)
• College of Education (COE)
• Department of Chemistry and Biochemistry (CAS)
• Department of Communication and Media (CAS)
• Department of Computer Science (CAS)
• Department of Criminology and Criminal Justice (CAS)
• Department of Economics (CAS)
• Department of English (CAS)
• Department of History (CAS)
• Department of Language and Cultural Studies (CAS)
• Department of Mathematics, Physics, Astronomy and Statistics (CAS)
• Department of Music (CAS)
• Department of Philosophy (CAS)
• Department of Political Science (CAS)
• Department of Psychological Sciences (CAS)
• Department of Sociology (CAS)
• School of Social Work (SW)
• Undergraduate certificates

1 Must be admitted to Honors program.

Bachelor of Liberal Studies: Capstone and Other Restrictions

1. Students who are planning to earn a Bachelor of Liberal Studies degree should declare the BLS as their major within the first 90 hours of the program. Declaration past this time may prevent timely graduation as all capstone courses are not available every semester.
2. The College of Nursing and the Joint Engineering Program are not participants in the BLS program.
3. The following Colleges/Departments participate in the BLS program but do not offer a capstone course and must be paired with a minor from one of the areas listed below: Business, Studio Art, Statistics, Undergraduate Certificates, and Interdisciplinary minors.
4. Students admitted to the Pierre Laclede Honors College who wish to present the Honors Certificate as a minor for the BLS must complete the Honors Capstone, (one or two credit hours) and also direct three to six hours of their Honors independent study requirement to work
demonstrably relevant to their BLS program. Students should consult the BLS faculty advisor in the Honors College about this requirement.

5. The capstone is required in addition to the courses presented for the minor. A minimum grade of C must be earned in the capstone course. The capstone course is not counted toward the minor residency requirement.

6. The following have identified a Capstone, so at least one of these minors must be included in the BLS program:

**Anthropology**
One additional 4000 level course in Anthropology not used in the minor.

**Art & Design**
One additional 4000 level topics course in Art History not used in the minor.

**Biology**
BIOL 3302 Evolution

**Chemistry/Biochemistry**
3 total hours from the options listed:
- CHEM 3022 Introduction to Chemical Literature
- CHEM 3905 Chemical Research
- CHEM 4897 Seminar in Chemistry

**Communication**
One additional 3000/4000 level Communication course not used in the minor.

**Criminology & Criminal Justice**
One additional 4000 level course in Criminology and Criminal Justice, not used as part of the minor.

**Economics**
One additional 4000 level Economics course (except ECON 4105, ECON 4160, and ECON 4550) not used in the minor.

**Education**
A 3 hour capstone course must be selected from the following:
- ECH ED 4989 Practicum I: Early Childhood Education/Early Childhood Special Education Site Based Experience 3
- EDUC 4989 Internship I 3
- ELE ED 4989 Practicum I: Elementary/Special Education Site-Based Experience 3
- ELE ED 4992 Practicum I: Elementary/Special Education/TESOL Site-Based Experience 3
- ELE ED 4994 Practicum I: Elementary/TESOL Site-Based Experience 3
- MID ED 4989 Practicum I: Middle Level Education Site-Based Experience 3
- SEC ED 4989 Practicum I: Site-Based Experience 3

**English**
One additional 4000 level English Literature course not used in the minor.

**Gerontology**
One additional 4000 level course in Gerontology not used in the minor and to be coordinated with the program director for Gerontology before starting the course.

**History**

**HIST 4999** Senior Seminar

**Honors College**
3 total hours taken from the options listed:
- HONORS 4100 Independent Portfolio Writing
- HONORS 4900 Independent Study in Honors
  or HONORS 4910 Independent Study: Internships

**Languages and Cultures**
- FRENCH 3211 Contemporary French Culture 3
- JAPAN 3280 Readings in Japanese 3
- SPANISH 3210 Course SPANISH 3210 Not Found
  or SPANISH 3211 Course SPANISH 3211 Not Found

**Mathematics/Computer Science**
Computer Science: One additional 4000 Level Course in Computer Science not used in the minor.
Mathematics: One additional 4000 Level Course in Mathematics not in the minor.

**Media Studies**
One additional 4000 level course not used in the minor.

**Music**
Select one of the following:
- M H L T 4000 Directed Studies
- THRY COM 4000 Directed Studies: Variable Topic
- PDGOY 4000 Directed Study: Variable Topic
- PRACTM 4000 Directed Studies: Variable Topic

**Philosophy**
One additional 4000 level course not used in the minor.

**Physics**
PHYSICS 4381 Directed Readings in Physics 3

**Political Science**
POL SCI 4950 Senior Seminar in Political Science 3

**Psychology**
One additional 4000 level Psychology course not used in the minor.

**Sociology**
One additional 4000 level course in Sociology not used in the minor, excluding:
- SOC 4350 Special Study
  or SOC 4385 Internship in Sociology

**Local Government Management Graduate Certificate**

The Graduate Certificate in Local Government Management is designed for current professional staff, elected or non-elected local government officials, and those who are interested in pursuing a career in the local government sector. The certificate can be taken by itself or in conjunction with the Master of Public Policy Administration degree or other graduate degree. A separate application for the certificate program may be required when students in a degree program wish to incorporate the certificate program.

1 Must be admitted to Honors program.
requirements
the graduate certificate in local government management requires the completion of 18 credit hours. Twelve of these are the following core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>P P ADM 6180</td>
<td>Governmental Budgeting and Financial Control</td>
<td>3</td>

<td></td>
</tr>
<tr>
<td>P P ADM 6600</td>
<td>Managing and Leading in Organizations</td>
<td></td>
</tr>
</tbody>
</table>

Total Hours 3

three hours of internship are also required but may be waived if the student has sufficient professional experience in the field. Any request for an exemption from the internship requirement must be submitted in writing and approved by the local government program director after a review of the student’s professional or managerial field experience. Students who receive an exemption must take another three hours of electives from courses listed above.

¹ Other courses may be added as advisors deem appropriate for content.

requirements for admission to the graduate certificate program include an undergraduate degree and a GPA of 3.0 or better. Applicants must submit two letters of recommendation. At least one of the letters should be from a current or former college-level instructor. Applicants must submit a two-page personal statement explaining how the certificate program fits in with the applicant’s educational and professional goals. The letters and the personal statement should be sent directly to the Public Policy Administration Program.

logistics and supply chain management graduate certificate

the graduate certificate in logistics and supply chain management is an 18-hour program designed to provide a focused, intensive study of important issues within logistics and, more broadly, in supply chain management. Three required courses provide thorough background in operations, logistics and supply chain management. Three elective courses allow specialization in areas such as logistics and supply chain software, international logistics, operations research, e-commerce, and quality.

program description

the graduate certificate in logistics and supply chain management provides focused and intensive study of important topics in supply chain management including procurement, production, operations, logistics and transportation. Students first get introduced to the foundation and basic concepts of supply chain management. They then take in-depth studies into domain topics of global supply chain management, strategic sourcing and supply chain integration, in conjunction with analytical methodologies for various data-driven decision-making functions in supply chains, including facility location and layout, production planning, inventory control, scheduling and vehicle routing. The program is suitable for candidates with undergraduate or graduate education other than supply chain management. It is also suitable for professionals whose primary responsibility is in other business functions (e.g., finance, marketing, information system, accounting), but who wish to broaden their scope of knowledge and training in supply chains.

this 12 credit hour certificate program also counts toward MBA degree program with the Management, and Operations Management Emphasis.

admission requirements

applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements.

certificate requirements

all course prerequisites and all course waivers are applicable. Substitute courses may be approved by the appropriate department chairperson and the Director of Graduate Business Programs.

required course

<table>

</tr>
</tbody>
</table>

elective
An additional course chosen from the remaining Supply Chain Management and Supply Chain Analytics courses 3

Total Hours 12

The required and elective courses may be substituted with other courses with the approval of the Chair of Supply Chain & Analytics Department.

Learning Outcomes

Upon completion of the program, certificate earners should be able to:

- Interpret foundational concepts in supply chain management including procurement/sourcing, production, operations and logistics, across domain contexts such as global supply chain management, strategic sourcing and supply chain integration
- Apply analytical methods for data-driven decision making in supply chain management

Management Minor

General Requirements

- All minors are 15 credit hours or 5 courses, including business core courses.
- Students must attain a 2.0 grade point average for all courses in the minor.
- Students must attain a minimum grade of C- in each course included in the minor.
- All courses in the minor must be on a graded basis.
- A minimum of 9 credit hours of coursework included in the minor must be taken in residence at UMSL.
- One must complete a baccalaureate degree at UMSL in order for a minor to be conferred.
- A minor may be added for up to two years following completion of the baccalaureate degree

Specific Requirements for the Minor

Available to all students except those pursuing the Bachelor of Science in Business Administration degree. Students must complete:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGMT 3600</td>
<td>Management and Organizational Behavior</td>
<td>3</td>
</tr>
<tr>
<td>MGMT 3611</td>
<td>Advanced Management and Organizational Behavior</td>
<td>3</td>
</tr>
</tbody>
</table>

Select any three upper division management and organizational behavior electives.

Total Hours 15

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Demonstrate competence in applying management concepts and theories related to motivation, leadership, group process, decision making, job design, and organizational development.
- Demonstrate the ability to utilize a diversity-oriented mindset in business decision-making.
- Demonstrate the ability to apply human resource concepts regarding attracting, selecting, developing, motivating, evaluating and retaining employees.

Marketing Management Graduate Certificate

Effective Fall 2020, The Marketing Management Graduate Certificate will no longer be accepting applications

Requirements

Students must complete the following six courses or appropriate substitutes if course waivers are appropriate:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MKTG 5700</td>
<td>Contemporary Marketing Concepts</td>
<td>3</td>

<td>3</td>
</tr>
<tr>
<td>MKTG 5730</td>
<td>Course MKTG 5730 Not Found</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Hours 18

All course prerequisites and all course waivers are applicable. The Marketing department chairperson and the director of Graduate Studies in Business must approve substitute courses. In all cases, 18 hours (including at least 12 hours in Marketing) are needed to complete the certificate.

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Assess the role and practice of marketing within an organization, including theoretical and applied aspects of the marketing discipline (MKTG 5700)
- Demonstrate proficiency in marketing analytics and research skills (MKTG 5740)
- Describe how marketers design and adapt their campaigns and strategies based on the psychology of their buyers and the processes these buyers employ to learn about, select, use, and dispose of products (MKTG 5710)
- Develop, analyze, and evaluate strategic and tactical marketing plans and programs and to assess marketing performance (MKTG 5701)

Marketing Minor

General Requirements

- All minors are 15 credit hours or 5 courses, including business core courses.
- Students must attain a 2.0 grade point average for all courses in the minor.
- Students must attain a minimum grade of C- in each course included in the minor.
- All courses in the minor must be on a graded basis.
- A minimum of 9 credit hours of coursework included in the minor must be taken in residence at UMSL.
- One must complete a baccalaureate degree at UMSL in order for a minor to be conferred.
- A minor may be added for up to two years following completion of the baccalaureate degree
Specific Requirements for the Minor
Available to all students except those pursuing the Bachelor of Science in Business Administration degree. Students must complete:

MKTG 3700 Basic Marketing 3
Select any four additional upper division marketing electives. 12

Learning Outcomes
Upon completion of the program, graduates will be able to:

- Students will be able to develop knowledge about the definition of marketing, consumer, and environment.
- Students will be able to identify drivers of consumer behavior and market opportunities and threats.
- Students will be able to interpret marketing research results.
- Students will be able to explain product, price, place, and promotion strategies.

Mathematical and Computational Science PhD, Computer Science Emphasis

Admission Requirements
Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL Bulletin. Students are considered for admission to the graduate program in Computer Science only after they have formally applied for admission through Graduate School. Applications are completed on-line. Additional requirements are listed below. An applicant for admission to the Ph.D. in Mathematical and Computational Science - Computer Science option should have completed a Master’s in Computer Science or a related area, with a GPA of at least 3.0/4.0.

An applicant without a related master’s but with an exceptional record will also be considered for admission into the Ph.D. program. Such a case will require justification in the form of strong academic standing, experience, participation in research/publications, and/or strong GRE. It should be presented through the statement of purpose and recommendation letters. Other applicants without a master’s degree are advised to apply to the master’s program in Computer Science or a related area, with a GPA of at least 3.0/4.0.

The statement of purpose should show evidence of the ability to convey ideas in a succinct and focused manner. The applicant should describe their reasons for applying to the UMSL Ph.D. program in Computer Science, their objectives, including research and career, and should outline a path to successful completion.

The application also requires at least two recommendation letters from academic or professional sources who can comment on academic competence, research potential, or professional experience. At least one of the letters must be from an academic source.

Applicants are advised to submit scores from the GRE general test, which are not more than 5 years old.

A student admitted to the Ph.D. can transfer prior related graduate coursework, subject to Graduate School regulations. Credits from an awarded master’s degree can be credited towards the doctoral degree requirements. A student admitted without a master’s degree can transfer up to 20 graduate credit hours of related courses, with the approval of the advisor and the Graduate Director. However, at least 31 credits used to satisfy requirements for the doctoral degree must be completed in residence at UMSL. An applicant will be evaluated based on competency (related academic or professional experience) in core areas of computer science, specifically including

1. Programming skills and languages
2. Operating systems
3. Data structures and analysis of algorithms
4. Computer organization and architecture

Applicants missing some of the listed competency areas may be admitted and will be required to take related courses as a part of their studies. Applicants with too many core deficiencies may be advised to apply to the M.S. in Computer Science (p. 464) or M.S. in Cybersecurity - Computer Science Emphasis (p. 482), and reapply to the doctoral program after completing necessary courses, which can be transferred into the Ph.D. program subject to the stated limitations. International applicants are required to show proficiency in English as directed by the UMSL Global office. The requirement is waived for students whose native language is English, or who have completed a previous degree from a US university. It may also be waived for students who are permanent residents of the US and who have lived in the US for a substantial period of time. Visit this page for information on our research areas, this page for information about the current sponsored projects, and this page for information on financial support.

Application Process
The department admits students for the Fall and Spring semesters on a rolling basis. For international students, the deadlines are determined by the visa processing times and usually are May 31 for the Fall semester and October 31 for the Spring semester.

Follow the directions on the Graduate School web site.

Degree Requirements
The requirements for the Ph.D. degree include the following:

1. Course work
2. Comprehensive examination leading to Ph.D. Candidacy
3. Ph.D. Candidacy and Doctoral Dissertation

A student must advance to Ph.D. candidacy before working on a dissertation, then defend the dissertation to be awarded the doctoral degree.

Course Work
A minimum of 60 credit hours of courses numbered 4000 or above are required, of which at least 45 credit hours must be from courses numbered 5000 or above. The 60 credit hours must include a minimum of 9 and a maximum of 15 Dissertation Research credit hours. All courses numbered below 5000 must be completed with a grade of at least B. Courses outside the Department of Computer Science will require the approval of the Graduate Director. The same applies to courses taken at other institutions, and these credits would be subject to residency requirements. All courses to be counted as part of the degree requirement, including transfers but excluding a prior M.S. degree, are subject to an eight-year limitation.
Students are expected to maintain a GPA of 3.0 on a 4-point scale. At least half of the counted courses must be UMSL courses according to the residency requirements.

Comprehensive Examination leading to Ph.D. Candidacy

A student advances to Ph.D. candidacy after satisfying the following requirements:

I. Passing comprehensive examinations in two steps:

1. Passing a qualifier examination covering fundamental topics in Computer Science. This examination should take place no later than in the semester immediately after completing 12 credit hours in the program at UMSL. If necessary, this examination can be repeated once in the first semester, but no later than the second semester following the first attempt. This examination covers the following two courses/topics:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMP SCI 4760</td>
<td>3</td>
</tr>
<tr>
<td>Operating Systems</td>
<td></td>
</tr>
<tr>
<td>CMP SCI 5130</td>
<td>3</td>
</tr>
<tr>
<td>Advanced Data Structures</td>
<td></td>
</tr>
<tr>
<td>and Algorithms</td>
<td></td>
</tr>
<tr>
<td>Total Hours</td>
<td>6</td>
</tr>
</tbody>
</table>

and two additional courses, selected by the Graduate Director taking each student’s interests into account.

2. After passing the qualifier examination, the student finds a research advisor, constitutes a research committee, and then must do one of the following:

- Pass a written examination in the area of the student’s interests written under the direction of the research advisor covering some specialized advanced coursework or area.
- Write a survey paper in the area of the student’s interests under the direction of the research advisor and successfully present it orally.

II. Completing the required credit hours other than Dissertation Research (minimum 45 credits, including transfers and prior M.S. credited toward the Ph.D.)

Doctoral Dissertation

A Ph.D. candidate obtains the Ph.D. in these steps:

1. The Ph.D. candidate must propose a dissertation committee.
2. The Ph.D. candidate must prepare a written dissertation proposal and defend it in front of the dissertation committee. The dissertation proposal is a substantial document describing the problem area, the specific problem to be worked on, and the methods to be used, as well as demonstrating the student’s proficiency in written communication. A candidate making substantial changes in the research direction may have to repeat this step.
3. The Ph.D. candidate must then write a dissertation as outlined in the dissertation proposal while enrolling for Dissertation Research credits. This work must be an original contribution to the field, and it must meet the standards and requirements set by the Graduate School including a public defense of the dissertation.
4. The Ph.D. candidate must successfully present and defend the dissertation in front of the dissertation committee.

Mathematical and Computational Science PhD, Mathematics Emphasis

Effective Fall 2021, the Mathematics and Computational Sciences with an emphasis in Mathematics program will no longer be accepting applications.

Admission Requirements

Applicants must have at least a bachelor’s degree in mathematics or in a field with significant mathematical content. Examples of such fields include computer science, data science, economics, engineering and physics. An applicant’s record should demonstrate superior achievement in undergraduate mathematics.

Individuals may apply for direct admission to the M.A. or Ph.D. program. Candidates for the M.A. degree may choose an emphasis in mathematics or data science. Students in the M.A. program who want to transfer to the Ph.D. program upon successful completion of 15 credit hours must fill out a new application through Graduate Admissions.

Applicants for the Ph.D. program must, in addition, submit at least one and up to three letters of recommendation.

Preliminary Advisement

Incoming students are assigned advisers with whom they should consult before each registration period to determine an appropriate course of study. If necessary, students may be required to complete undergraduate coursework without receiving graduate credit.

Students interested in the Ph.D. program in mathematical and computational sciences with the computer science option must follow the requirements for that program and that option.

Admission Requirements

Applicants must have at least a bachelor’s degree in mathematics or in a field with significant mathematical content. Examples of such fields include computer science, data science, economics, engineering and physics. An applicant’s record should demonstrate superior achievement in undergraduate mathematics.

Individuals may apply for direct admission to the Ph.D. program. Students in the M.A. program who want to transfer to the Ph.D. program upon successful completion of 15 credit hours must fill out a new application through Graduate Admissions.

Applicants for the Ph.D. program must, in addition, submit at least one and up to three letters of recommendation.

Degree Requirements

The requirements for the Ph.D. degree include the following:

1. Course work
2. Ph.D. candidacy
3. Doctoral dissertation
The requirements are described in detail below.

Course Work

- A minimum of 60 hours of courses numbered 4000 or above.
- In either the Mathematics or Statistics option, at least 33 hours must be in courses numbered 5000 or above.
- At most 9 hours of a student’s enrollment in Dissertation Research may be counted. Students are expected to maintain a 3.0 average on a 4.0 scale. All courses numbered below 5000 must be completed with a grade of at least B. Courses outside the Department of Mathematics and Statistics will require approval of the graduate director.

When students who have earned a Master’s degree are admitted to the doctoral program, up to 27 credit hours of course work may be applied toward meeting the requirements for the doctoral degree, subject to Graduate School regulations and the approval of the graduate director. The same applied to those with some appropriate graduate credits but without a completed Master’s degree.

Ph.D. Candidacy

Advancement to Ph.D. candidacy is a three-step process consisting of:

1. Completing 18 hours of 5000 level courses other than Ph.D. Dissertation Research as appropriate for the selected option.
2. Passing the comprehensive examination.
3. Selecting a Ph.D. committee and preparing a dissertation proposal and defense of the proposal.

Qualifying Examination

A student must fulfill the following requirements.

Basic Requirement

Pass one written examination covering fundamental topics. This examination would normally take place within the first 12 credit hours of study after admission to the Ph.D. program.

Mathematics Option

Topics from real analysis, complex analysis, and linear algebra:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 4100</td>
<td>Real Analysis I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 4160</td>
<td>Complex Analysis I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 4450</td>
<td>Linear Algebra</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Hours</strong></td>
<td></td>
<td><strong>9</strong></td>
</tr>
</tbody>
</table>

Statistics Option

Topics from real analysis, linear algebra, and mathematical statistics:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 4100</td>
<td>Real Analysis I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 4450</td>
<td>Linear Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 4200</td>
<td>Mathematical Statistics I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 4210</td>
<td>Mathematical Statistics II</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Hours</strong></td>
<td></td>
<td><strong>12</strong></td>
</tr>
</tbody>
</table>

Additional Requirement

After fulfilling the basic requirement above, the student must meet one of the following:

1. Pass a written examination in an area of the student’s interests. This area will be approved by the graduate committee and will be based on a set of two or more graduate courses taken by the student. This examination would normally take place within the first 24 credit hours of study after admission to the Ph.D. program.
2. Write a survey paper in a specialized area under the direction of a member of the graduate faculty. The student should propose to take this option when he/she has already finished at least 2 graduate level courses and has the approval of the graduate committee. The paper should be submitted within four semesters, at which time an oral examination given by a committee of at least three members of the graduate faculty must be passed.

In both parts 1) and 2), the graduate committee will determine if the topics are consistent with the option that the student is pursuing.

Dissertation Committee and Dissertation Proposal

After completing the comprehensive examinations, each student chooses a dissertation advisor and prepares a Dissertation Proposal. Usually students choose an advisor from contacts made through their course work. The dissertation committee will be formed, and the student will meet with this committee for an oral defense of his/her dissertation proposal. The dissertation proposal is a substantial document describing the problem to be worked on and the methods to be used, as well as demonstrating the student’s proficiency in written communication.

Doctoral Dissertation

Each Ph.D. candidate must write a dissertation that is an original contribution to the field on a topic approved by the candidate’s Ph.D. Committee and the department, and which meets the standards and requirements set by the Graduate School including the public defense of the dissertation. Students working on a dissertation may enroll in Ph.D. Dissertation Research, as appropriate for the selected option. A maximum of 9 hours Dissertation Research can be used toward the required hours of work in courses numbered 5000 or above.

Financial Assistance

Any student who intends to apply for financial assistance, in the form of a teaching assistantship or a research assistantship, is required to have three letters of recommendation submitted with the application to the graduate program in Mathematics or Computer Science. The application must include scores on the GRE general aptitude test. Applicants are also encouraged to submit scores in the GRE subject area test in Mathematics or Computer Science. Applications for financial assistance should be submitted before February 15 prior to the academic year in which the student expects to begin graduate study. Notifications of awards are generally made March 15, and students awarded financial assistance are expected to return letters of acceptance by April 15.

Mathematical and Computational Science PhD, Statistics Emphasis

Effective Fall 2021, the Mathematics and Computational Sciences with an emphasis in Statistics program will no longer be accepting applications.
Advancement to Ph.D. candidacy is a three-step process consisting of:

1. Course work
2. Ph.D. candidacy
3. Doctoral dissertation

The requirements are described in detail below.

Course Work
- A minimum of 60 hours of courses numbered 4000 or above.
- In either the Mathematics or Statistics option, at least 33 hours must be in courses numbered 5000 or above.
- At most 9 hours of a student’s enrollment in Dissertation Research may be counted. Students are expected to maintain a 3.0 average on a 4.0 scale. All courses numbered below 5000 must be completed with a grade of at least B. Courses outside the Department of Mathematics and Statistics will require approval of the graduate director.

When students who have earned a Master’s degree are admitted to the doctoral program, up to 27 credit hours of course work may be applied toward meeting the requirements for the doctoral degree, subject to Graduate School regulations and the approval of the graduate director. The same applied to those with some appropriate graduate credits but without a completed Master’s degree.

</table>

Additional Requirement
After fulfilling the basic requirement above, the student must meet one of the following:

1. Pass a written examination in an area of the student’s interests. This area will be approved by the graduate committee and will be based on a set of two or more graduate courses taken by the student. This examination would normally take place within the first 24 credit hours of study after admission to the Ph.D. program.
2. Write a survey paper in a specialized area under the direction of a member of the graduate faculty. The student should propose to take this option when he/she has already finished at least 2 graduate level courses and has the approval of the graduate committee. The paper should be submitted within four semesters, at which time an oral examination given by a committee of at least three members of the graduate faculty must be passed.

In both parts 1) and 2), the graduate committee will determine if the topics are consistent with the option that the student is pursuing.

Dissertation Committee and Dissertation Proposal
After completing the comprehensive examinations, each student chooses a dissertation advisor and prepares a Dissertation Proposal. Usually students choose an advisor from contacts made through their course work. The dissertation committee will be formed, and the student will meet with this committee for an oral defense of his/her dissertation proposal.
dissertation proposal is a substantial document describing the problem to be worked on and the methods to be used, as well as demonstrating the student's proficiency in written communication.

**Doctoral Dissertation**

Each Ph.D. candidate must write a dissertation that is an original contribution to the field on a topic approved by the candidate's Ph.D. Committee and the department, and which meets the standards and requirements set by the Graduate School including the public defense of the dissertation. Students working on a dissertation may enroll in Ph.D. Dissertation Research, as appropriate for the selected option. A maximum of 9 hours Dissertation Research can be used toward the required hours of work in courses numbered 5000 or above.

**Mathematics BA**

**General Education Requirements**

All department majors must satisfy the university and appropriate school or college general education requirements (p. 48). All mathematics courses may be used to meet the university's general education breadth of study requirement in natural sciences and mathematics.

**Satisfactory/Unsatisfactory Restrictions**

All department majors may not take mathematical sciences or related area courses on a satisfactory/unsatisfactory basis. Students considering graduate study should consult with their advisers about taking work on a satisfactory/unsatisfactory basis.

**Degree Requirements**

All courses of the department presented to meet the degree requirements must be completed with a grade of C- or better. At least four courses numbered 3000 or above must be taken in residence. Students must have a 2.0 grade point average in the mathematical sciences courses completed.

Students enrolling in introductory mathematics courses should check the prerequisites to determine if a satisfactory score on the Mathematics Placement Test is necessary. Placement into introductory courses assumes a mastery of two years of high school algebra.

A minimum grade of C- is required to meet the prerequisite requirement for any course except with permission of the department.

Note: Courses that are prerequisites for higher-level courses may not be taken for credit or quality points if the higher-level course has been satisfactorily completed.

Many students are qualified, as a result of having studied calculus in high school, to begin their major with MATH 1900, Analytic Geometry and Calculus I, or MATH 2000, Analytic Geometry and Calculus II. These students are urged to consult with the department before planning their programs. Credit for MATH 1800, Analytic Geometry and Calculus I, will be granted to those students who complete MATH 1900 with a grade of C- or better.

**Declaring the Mathematics Major**

Students seeking to major in mathematics are first designated as "pre-mathematics majors" until they have completed both MATH 1900 and MATH 2000 or equivalent courses. Upon successful completion of these two courses with grades of C or better, students will be allowed to declare mathematics as their major. Each of these courses must be completed successfully within two attempts.

**Degree Requirements in Mathematics**

All mathematics majors in all undergraduate programs must complete the mathematics core requirements.

**Core Requirements**

1. The following courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMP SCI 1250</td>
<td>Introduction to Computing</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1320</td>
<td>Introduction to Probability and</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Statistics</td>
<td></td>
</tr>
<tr>
<td>MATH 1800</td>
<td>Analytic Geometry and Calculus I</td>
<td>5</td>
</tr>
<tr>
<td>MATH 1900</td>
<td>Analytic Geometry and Calculus II</td>
<td>5</td>
</tr>
<tr>
<td>MATH 2000</td>
<td>Analytic Geometry and Calculus III</td>
<td>5</td>
</tr>
<tr>
<td>MATH 2020</td>
<td>Introduction to Differential Equations</td>
<td>3</td>
</tr>
<tr>
<td>MATH 2450</td>
<td>Elementary Linear Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 3250</td>
<td>Foundations of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>or CMP SCI 3130</td>
<td>Design and Analysis of Algorithms</td>
<td></td>
</tr>
<tr>
<td>MATH 4100</td>
<td>Real Analysis I</td>
<td>3</td>
</tr>
</tbody>
</table>

**Total Hours** 33

2. The related area requirements as described below must be satisfied. Students seeking a double degree, either within this department or with another department, do not have to fulfill the related area requirements.

**Related Area Requirements for majors in Mathematics**

Candidates for the B.A. in Mathematics must satisfy the requirements in one of the groups below with a grade of C-or better. Candidates for the B.S.Ed. in Mathematics and B.S. in Mathematics must satisfy the requirements in two of the groups below with a grade of C-or better.

If candidates choose group 2, then they cannot apply either of the two courses listed in that group towards the additional 4000 level mathematics courses (beyond the core requirements) that must be completed for each of these degrees.

Students seeking a double degree, either within this department or with another department do not have to fulfill the related area requirements.

**Related Area Courses**

1) **Computer Science**

Select two of the following:

<table>
<thead>
<tr>
<th>Course Code</th>

SCMA 3320 Advanced Supply Chain and Operations Management 3
SCMA 4350 Prescriptive Analytics and Optimization 3
12) Engineering
ENGR 2310 Statics 3
ENGR 2320 Dynamics 3

In addition to the core requirements and the College of Arts and Sciences’ foreign language requirement, three mathematics courses at the 4000 level or higher must be completed. Of these, one must be MATH 4400, Introduction to Abstract Algebra

**B.S. Ed. in Secondary Education with Emphasis in Mathematics**

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. or B.S. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. *Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.*

**B.A. or B.S. in Mathematics with Master’s Level Coursework for Secondary Teacher Certification**

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education.

*Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.*

**Learning Outcomes**

- A successful undergraduate should, upon completion, be able to:
  - Write clear, logically consistent proofs.
  - Read, understand and assess the veracity of logical arguments or mathematical proofs.
  - Reformulate problems or questions in relevant mathematical terms.
  - Solve problems which involve analysis, algebra or linear algebra, elementary number theory, elementary probability or statistics.
  - Demonstrate basic proficiency in speaking, reading and writing in a language in addition to English.

Program Requirements

1. The current separate requirements for BA/BS and MA in math remain unchanged.

2. Once the student is admitted in this program, the student is allowed to take graduate courses (paid with graduate fees).

3. The student in this program can apply up to 12 credit hours of 4000- and-above level courses towards both the bachelor and master's degrees. The student may get the BA/BS and MA degrees at the same time.

4. In case a student cannot complete the master's degree for some reason, up to 12 credit hours of graduate level courses can be applied towards the BA/BS degree.

5. Students will pay graduate fees for all courses after being admitted and starting the program.

Mathematics BS

General Education Requirements

All department majors must satisfy the university and appropriate school or college general education requirements (p. 48). All mathematics courses may be used to meet the university's general education breadth of study requirement in natural sciences and mathematics.

Satisfactory/Unsatisfactory Restrictions

All department majors may not take mathematical sciences or related area courses on a satisfactory/unsatisfactory basis. Students considering graduate study should consult with their advisers about taking work on a satisfactory/unsatisfactory basis.

Degree Requirements

All courses of the department presented to meet the degree requirements must be completed with a grade of C- or better. At least four courses numbered 3000 or above must be taken in residence. Students must have a 2.0 grade point average in the mathematical sciences courses completed.

Students enrolling in introductory mathematics courses should check the prerequisites to determine if a satisfactory score on the Mathematics Placement Test is necessary. Placement into introductory courses assumes a mastery of two years of high school algebra.

A minimum grade of C- is required to meet the prerequisite requirement for any course except with permission of the department.

Note: Courses that are prerequisites for higher-level courses may not be taken for credit or quality points if the higher-level course has been satisfactorily completed.

Many students are qualified, as a result of having studied calculus in high school, to begin their major with MATH 1900, Analytic Geometry and Calculus II, or MATH 2000, Analytic Geometry and Calculus III. These students are urged to consult with the department before planning their programs. Credit for MATH 1800, Analytic Geometry and Calculus I, will be granted to those students who complete MATH 1900 with a grade of C- or better.

Declaring the Mathematics Major

Students seeking to major in mathematics are first designated as "pre-mathematics majors" until they have completed both MATH 1900 and MATH 2000 or equivalent courses. Upon successful completion of these two courses with grades of C or better, students will be allowed to declare...
Mathematics as their major. Each of these courses must be completed successfully within two attempts.

Degree Requirements in Mathematics

All mathematics majors in all undergraduate programs must complete the mathematics core requirements.

<td>Introduction to Abstract Algebra I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 4450</td>
<td>Linear Algebra</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Hours 9

2. Completing an additional three courses numbered above 4000 in mathematics, statistics or computer science, at least one of which must be in mathematics/statistics.
B.S. Ed. in Secondary Education with Emphasis in Mathematics

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. or B.S. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

B.A. or B.S. in Mathematics with Master’s Level Coursework for Secondary Teacher Certification

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

Learning Outcomes

A successful undergraduate should, upon completion, be able to:

- Write clear, logically consistent proofs.
- Read, understand and assess the veracity of logical arguments or mathematical proofs.
- Reformulate problems or questions in relevant mathematical terms.
- Solve problems which involve analysis, algebra or linear algebra, elementary number theory.
- Interpret, formulate and solve applied problems in probability and statistics.
- Interpret, formulate and solve applied problems in mathematics relating to annuities, bonds and derivative investments.

Total Hours: 120

1

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Mathematics BS, Data Science Emphasis

General Education Requirements

All department majors must satisfy the university and appropriate school or college general education requirements (p. 48). All mathematics courses may be used to meet the university’s general education breadth of study requirement in natural sciences and mathematics.

Satisfactory/Unsatisfactory Restrictions

All department majors may not take mathematical sciences or related area courses on a satisfactory/unsatisfactory basis. Students considering graduate study should consult with their advisers about taking work on a satisfactory/unsatisfactory basis.

Degree Requirements

All courses of the department presented to meet the degree requirements must be completed with a grade of C- or better. At least four courses numbered 3000 or above must be taken in residence. Students must have a 2.0 grade point average in the mathematical sciences courses completed.

Students enrolling in introductory mathematics courses should check the prerequisites to determine if a satisfactory score on the Mathematics Placement Test is necessary. Placement into introductory courses assumes a mastery of two years of high school algebra.
A minimum grade of C- is required to meet the prerequisite requirement for any course except with permission of the department.

Note: Courses that are prerequisites for higher-level courses may not be taken for credit or quality points if the higher-level course has been satisfactorily completed.

Many students are qualified, as a result of having studied calculus in high school, to begin their major with MATH 1900, Analytic Geometry and Calculus II, or MATH 2000, Analytic Geometry and Calculus III. These students are urged to consult with the department before planning their programs. Credit for MATH 1800, Analytic Geometry and Calculus I, will be granted to those students who complete MATH 1900 with a grade of C- or better.

Declaring the Mathematics Major

Students seeking to major in mathematics are first designated as “pre-mathematics majors” until they have completed both MATH 1900 and MATH 2000 or equivalent courses. Upon successful completion of these two courses with grades of C or better, students will be allowed to declare mathematics as their major. Each of these courses must be completed successfully within two attempts.

Degree Requirements in Mathematics

All mathematics majors in all undergraduate programs must complete the mathematics core requirements.

Core Requirements

1. The following courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMP SCI 1250</td>
<td>Introduction to Computing</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1320</td>
<td>Introduction to Probability and Statistics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1800</td>
<td>Analytic Geometry and Calculus I</td>
<td>5</td>
</tr>
<tr>
<td>MATH 1900</td>
<td>Analytic Geometry and Calculus II</td>
<td>5</td>
</tr>
<tr>
<td>MATH 2000</td>
<td>Analytic Geometry and Calculus III</td>
<td>5</td>
</tr>
<tr>
<td>MATH 2020</td>
<td>Introduction to Differential Equations</td>
<td>3</td>
</tr>
<tr>
<td>MATH 2450</td>
<td>Elementary Linear Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 3250</td>
<td>Foundations of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>or CMP SCI 3130</td>
<td>Design and Analysis of Algorithms</td>
<td></td>
</tr>
<tr>
<td>MATH 4100</td>
<td>Real Analysis I</td>
<td>3</td>
</tr>
</tbody>
</table>

   **Total Hours** 33

2. The related area requirements as described below must be satisfied. Students seeking a double degree, either within this department or with another department, do not have to fulfill the related area requirements.

In addition to the core requirements, the B.S. in Mathematics degree requires:

1. Completing all of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 4160</td>
<td>Complex Analysis I</td>
<td>3</td>

<td>3</td>
</tr>
<tr>
<td>MATH 4450</td>
<td>Linear Algebra</td>
<td>3</td>
</tr>
</tbody>
</table>

**Total Hours** 60

There are no related area requirements.

Computer Science majors who would like to pursue the B.S. in Mathematics (Emphasis in Data Science) are not required to take MATH 2020 and must:

a) complete all courses in the core requirements, except for MATH 4100 and may substitute MATH 3000 for MATH 3250

b) complete all courses in the specialized requirements and one from elective requirements.

**B.S. Ed. in Secondary Education with Emphasis in Mathematics**

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. or B.S. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher
Learning Outcomes
A successful undergraduate should, upon completion, be able to:

- Write clear, logically consistent proofs.
- Read, understand and assess the veracity of logical arguments or mathematical proofs.
- Reformulate problems or questions in relevant mathematical terms.
- Solve problems which involve analysis, algebra or linear algebra, elementary number theory.
- Interpret, formulate and solve problems and assess data related questions from an advanced probabilistic and statistical viewpoint.

Learning Outcomes

A successful undergraduate should, upon completion, be able to:

- Write clear, logically consistent proofs.
- Read, understand and assess the veracity of logical arguments or mathematical proofs.
- Reformulate problems or questions in relevant mathematical terms.
- Solve problems which involve analysis, algebra or linear algebra, elementary number theory.
- Interpret, formulate and solve applied problems in probability and statistics.
- Interpret, formulate and solve applied problems in mathematics relating to annuities, bonds and derivative investments.

Sample Four Year Plan

| First Year | Hours |  | Hours |
|------------|-------|  |-------|
| Fall       |  | Spring                  |  |    |

Total Hours: 120

Please note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

B.S. Ed. in Secondary Education with Emphasis in Mathematics

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. or B.S. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

B.A. or B.S. in Mathematics with Master’s Level Coursework for Secondary Teacher Certification

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply toward a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

Related Requirements

- ECON 4100: Introduction to Econometrics
- ECON 4110: Applied Econometrics
  or ECON 4130: Business and Economic Forecasting

Complete two of the following courses:

- FINANCE 3503: Computer Applications in Finance
- FINANCE 3520: Investments
- FINANCE 3521: Financial Engineering: Applying Derivatives
- FINANCE 3523: Fixed Income Analysis
- FINANCE 3540: Introduction to Financial Institutions and Financial Markets
- FINANCE 3561: Principles of Insurance

Total Hours: 120
Mathematics MA

Admission Requirements

Applicants must have at least a bachelor's degree in mathematics or in a field with significant mathematical content. Examples of such fields include computer science, data science, economics, engineering and physics. An applicant's record should demonstrate superior achievement in undergraduate mathematics.

Individuals may apply for direct admission to either the M.A. or Ph.D. program. Candidates for the M.A. degree may choose an emphasis in mathematics or data science. Students in the M.A. program who want to transfer to the Ph.D. program upon successful completion of 15 credit hours must fill out a new application through Graduate Admissions.

Applicants for the Ph.D. program must, in addition, submit at least one and up to three letters of recommendation.

Admission Requirements

Applicants must have at least a bachelor's degree in mathematics or in a field with significant mathematical content. Examples of such fields include computer science, data science, economics, engineering and physics. An applicant's record should demonstrate superior achievement in undergraduate mathematics.

Individuals may apply for direct admission to either the M.A. or Ph.D. program. Candidates for the M.A. degree may choose an emphasis in mathematics or data science. Students in the M.A. program who want to transfer to the Ph.D. program upon successful completion of 15 credit hours must fill out a new application through Graduate Admissions.

Degree Requirements

Candidates for the M.A. degree must complete 30 hours of course work with at least 15 hours of courses numbered 5000 or above. Up to 6 credit hours can be completed outside the Department of Mathematics and Statistics in a related field with graduate program director’s prior approval. Up to 9 graduate credit hours could be transferred into the the program, pending the approval of the Graduate School. All courses numbered below 5000 must be completed with grades of at least B. The selections of the courses numbered 5000 or above need the prior approval of the graduate advisor.

For the M.A. degree with mathematics emphasis, the courses taken must include those listed below in the mathematics core and other seven mathematics courses numbered 4000 or higher with at least five courses numbered 5000 or above.

Students who have already completed courses equivalent to those in the core may substitute other courses numbered above 4000. All substitutions of courses for those listed in the core require the prior approval of the graduate director.

Thesis Option

The non-core course work may consist of an M.A. thesis written under the direction of a faculty member in the Department of Mathematics and Statistics. A thesis is not, however, required for this degree. A student who wishes to write a thesis should enroll in 6 hours of MATH 6900, M.A. Thesis. Students writing an M.A. thesis must defend their thesis in an oral exam administered by a committee of three department members which includes the thesis director.

</tbody>
</table>

$^1$ Electives must be seven mathematics courses numbered 4000 or higher with at least five courses numbered 5000 or above.

Preliminary Advisement

Incoming students are assigned advisers with whom they should consult before each registration period to determine an appropriate course of study. If necessary, students may be required to complete undergraduate course work without receiving graduate credit.

Students interested in the Ph.D. program in mathematical and computational sciences with the computer science option must follow the requirements for that program and that option.

Financial Assistance

Any student who intends to apply for financial assistance, in the form of a teaching assistantship or a research assistantship, is required to have three letters of recommendation submitted with the application to the graduate program in Mathematics or Computer Science. The application must include scores on the GRE general aptitude test. Applicants are also encouraged to submit scores in the GRE subject area test in Mathematics or Computer Science. Applications for financial assistance should be submitted before February 15 prior to the academic year in which the student expects to begin graduate study. Notifications of awards are generally made March 15, and students awarded financial assistance are expected to return letters of acceptance by April 15.

Mathematics MA, Data Science Emphasis

Admission Requirements

Applicants must have at least a bachelor's degree in mathematics or in a field with significant mathematical content. Examples of such fields include computer science, data science, economics, engineering and physics. An applicant’s record should demonstrate superior achievement in undergraduate mathematics.

Individuals may apply for direct admission to either the M.A. or Ph.D. program. Candidates for the M.A. degree may choose an emphasis in mathematics or data science. Students in the M.A. program who want to transfer to the Ph.D. program upon successful completion of 15 credit hours must fill out a new application through Graduate Admissions.

Applicants for the Ph.D. program must, in addition, submit at least one and up to three letters of recommendation.

Preliminary Advisement

Incoming students are assigned advisers with whom they should consult before each registration period to determine an appropriate course of study. If necessary, students may be required to complete undergraduate course work without receiving graduate credit.
Students interested in the Ph.D. program in mathematical and computational sciences with the computer science option must follow the requirements for that program and that option.

**Admission Requirements**

Applicants must have at least a bachelor’s degree in mathematics or in a field with significant mathematical content. Examples of such fields include computer science, data science, economics, engineering and physics. An applicant’s record should demonstrate superior achievement in undergraduate mathematics.

Individuals may apply for direct admission to either the M.A. or Ph.D. program. Candidates for the M.A. degree may choose an emphasis in mathematics or data science. Students in the M.A. program who want to transfer to the Ph.D. program upon successful completion of 15 credit hours must fill out a new application through Graduate Admissions.

**Degree Requirements**

Candidates for the M.A. degree must complete 30 hours of course work with at least 15 hours of courses numbered 5000 or above. Up to 6 credit hours can be completed outside the Department of Mathematics and Statistics in a related field, with graduate program director’s prior approval. Up to 9 graduate credit hours could be transferred into the program, pending the approval of the Graduate School. All courses numbered below 5000 must be completed with grades of at least B. The selections of the courses numbered 5000 or above need the prior approval of the graduate advisor.

For the M.A. degree with data science emphasis, the courses taken must include the data-science core courses and five elective courses chosen from the data-science electives listed below. Up to 2 courses in the data-science electives can be substituted with other courses upon student’s request and graduate program director’s approval.

Students who have already completed courses equivalent to those in the core may substitute other courses numbered above 4000. All substitutions of courses for those listed in the core require the prior approval of the graduate director.

**Thesis Option**

The non-core course work may consist of an M.A. thesis written under the direction of a faculty member in the Department of Mathematics and Statistics. A thesis is not, however, required for this degree. A student who wishes to write a thesis should enroll in 6 hours of MATH 6900, M.A. Thesis. Students writing an M.A. thesis must defend their thesis in an oral exam administered by a committee of three department members which includes the thesis director.

</tr>
</tbody>
</table>

**Elective Courses**

Choose five of the following courses:

- MATH 4220  Bayesian Statistical Methods
- MATH 4260  Introduction to Stochastic Processes
- MATH 5080  Scientific Computation

**Total Hours**

30

**Financial Assistance**

Any student who intends to apply for financial assistance, in the form of a teaching assistantship or a research assistantship, is required to have three letters of recommendation submitted with the application to the graduate program in Mathematics or Computer Science. The application must include scores on the GRE general aptitude test. Applicants are also encouraged to submit scores in the GRE subject area test in Mathematics or Computer Science. Applications for financial assistance should be submitted before February 15 prior to the academic year in which the student expects to begin graduate study. Notifications of awards are generally made March 15, and students awarded financial assistance are expected to return letters of acceptance by April 15.

**Mathematics Minor**

**Minor Requirements**

The department offers minors mathematics, and statistics. All courses presented for any of these minors must be completed with a grade of C- or better.

The requirements for the minor are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1800</td>
<td>Analytic Geometry and Calculus I</td>
<td>5</td>
</tr>
<tr>
<td>MATH 1900</td>
<td>Analytic Geometry and Calculus II</td>
<td>5</td>
</tr>
<tr>
<td>MATH 2000</td>
<td>Analytic Geometry and Calculus III</td>
<td>5</td>
</tr>
<tr>
<td>MATH 3520</td>
<td>Regression Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

Select at least two additional three-hour mathematics courses numbered above 2000. 1

**Total Hours**

21

1 MATH 2510, MATH 3000 and MATH 3520 may not count toward the minor.

A minimum of two mathematics courses numbered 2000 or above must be taken in residence in the Department of Mathematics and Statistics at UMSL.

**Learning Outcomes**

A successful undergraduate should, upon completion, be able to:

- Reformulate problems or questions in relevant mathematical terms.
- Solve problems which involve algebra or calculus (of one or several variables).
Mechanical Engineering BSME

Admission

Students are admitted to the upper-division program after they have completed an acceptable pre-engineering program. The pre-engineering program can be taken at University of Missouri-St. Louis or at community colleges in the area. Normally, admission is granted to persons who have completed the pre-engineering program with a minimum grade point average of 2.75 over all their mathematics, chemistry, physics, and introductory (statics and dynamics) engineering courses. Students with less than a 2.75 grade point average, but at least a C, in all their science, engineering and mathematics courses may be admitted on a conditional basis.

For more information, please contact the program advisor at (314) 516-7018.

Degree Requirements

A program of 132 semester hours is required for the Bachelor of Science in Mechanical Engineering.

- Majors must complete the University General Education (p. 48) and Graduation (p. 15) requirements, the Pre-Engineering Requirements, the Core Engineering Requirements, and Major Requirements.
- Majors must first complete J E MATH 3170, Engineering Mathematics, with a minimum grade of C-.
- Majors must also complete J E ENGR 2300, Introduction to Electrical Networks, with a minimum grade of C-.
- A minimum grade of C- is necessary to meet the prerequisite requirement for any course.

General Education and Graduation Requirements

The following courses fulfill general education and graduation requirements and are required of Mechanical Engineering majors:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL 2259</td>
<td>Engineering Ethics</td>
<td>3</td>
</tr>

<td>3</td>
</tr>
<tr>
<td>Three additional Social Science courses ¹</td>
<td></td>
<td>9</td>
</tr>
</tbody>
</table>

Total Hours 18

¹ One Social Science course must meet the Cultural Diversity requirement. Humanities and social sciences electives must meet both the University of Missouri-St. Louis General Education Requirements and the Humanities and Social Sciences Requirements of the Joint Undergraduate Engineering Program. Check with your advisor for details.

Pre-Engineering Requirements

Students seeking to major in engineering are first designated as 'Undeclared with an interest in Engineering majors' until they have completed Math 1800 Analytical Geometry & Calculus I. Upon successful completion of Math 1800 with a grade of C or better, students will be allowed to declare pre-engineering as their major. Math 1800 must be completed successfully within two attempts.

### Mechanical Engineering Minor

Admission to the Joint Engineering program is required. A minimum of 19 credit hours in Joint Mechanical Engineering and Engineering courses are required.

#### Required Courses

| ENGR 2310 | Statics | 3 |
| ENGR 2320 | Dynamics | 3 |
| J M ENGR 2410 | Mechanics of Deformable Bodies | 3 |

Choose at least one of the following four options for an additional 10 credit hours:

**Option 1**

- J M ENGR 3250 | Material Science for J M ENGR
- Any other two J M ENGR courses for 6 credit hours

**Option 2**

- J M ENGR 3200 | Thermodynamics
- J M ENGR 3700 | Fluid Mechanics
- J M ENGR 3710 | Principles of Heat Transfer
- J M ENGR 3721 | Fluid Mechanics Laboratory
- or J M ENGR 3722 | Heat Transfer Laboratory

**Option 3**

- J M ENGR 3200 | Thermodynamics
- J M ENGR 3700 | Fluid Mechanics
- J M ENGR 3710 | Principles of Heat Transfer
- J M ENGR 3721 | Fluid Mechanics Laboratory
- or J M ENGR 3722 | Heat Transfer Laboratory

**Option 4**

- J M ENGR 4170 | Dynamic Response of Physical Systems
- J M ENGR 4180 | Dynamic Response Laboratory
- Any other J M ENGR course for 7 credit hours

### Graduation Requirements

In addition to the requirements of the University of Missouri-St. Louis that apply to all candidates for undergraduate degrees, the student must earn a minimum campus grade point average of 2.0 and a minimum grade point average of 2.0 for all engineering courses attempted at the University of Missouri-St. Louis.

**Total Hours: 9**

**Total Hours: 61**

1. Course does not count toward 132 credit hours for the degree.
2. Course should also satisfy the Cultural Diversity Requirement.
3. Course is an example J M ENGR elective. Four are required for a total of 12 hours.

**PLEASE NOTE:** This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.
Media Production Undergraduate Certificate

The Certificate in Media Production provides a sequence of courses designed to develop multi-channel and multi-media skill sets that can be used by students to record, edit, and produce media for artistic, personal, or commercial applications. Students will develop a portfolio of work that will reflect both independent and client-centered content. Students who complete the Certificate in Media Production will develop the knowledge and skills needed in a rapidly changing media environment.

The Certificate in Media Production is composed of 18 hours of coursework. Students must complete at least 12 hours at UMSL and earn at least a B in any course applied to the certificate.

Required Coursework

</table>

Total Hours 18

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Demonstrate an understanding of available media technology and its applications.
- Develop a substantial foundation in all aspects of media production.
- Establish and nurture a working application in evolving production techniques.
- Learn to utilize external information design in order to extend experiences in production techniques and standards.
- Become prepared to perform as a production specialist in all areas of media.
- Develop a skill set in Media Production that will certify competence in all levels of pre-production, production, and post-production.

Media Studies BS

Effective Fall 2019, the Bachelor of Science in Media Studies will no longer be accepting applications.

Bachelor of Science in Media Studies

General Education Requirements

All Media Studies majors must satisfy the University and the College of Arts and Sciences’ 42-hour General Education core requirements, which include ENGL 1100 and the Math proficiency requirement.

A Junior-level writing class is required.

The Cultural Diversity requirements may be satisfied by General Education courses or other lower- or-upper level courses in various departments.

State Government/History graduation requirements may be satisfied by General Education courses or by other lower-or-upper level courses in various departments.

There is no foreign language requirement, but foreign language proficiency is recommended.

Degree Requirements

Media Studies majors must complete 36 hours as part of the degree. At least 24 hours must be taken at UMSL. A core of 21 hours is required.

Required Core Courses for all media studies majors:

<table>

Total Hours 21

Students must also complete 15 credit hours of electives. Of these, at least six credit hours must be 2000 or higher and another six must be 3000 and higher. Practicum and Internship courses may be repeated for credit and a combined total of six credit hours in Practicum/Internship can be applied to the major. A limit of 20 hours of Practicum/Internship courses will be accepted towards the 120 hour degree. Students may apply up to three of the approved communication courses listed below toward the major as media studies electives.

Media Studies Minor

A minor in Media Studies consists of 18 credit hours.

**Required Courses:**

- COMM 1050 Introduction to Mass Communication 3
- MEDIA ST 2235 Media Theory 3
- Select one of the following: 3
  - MEDIA ST 1100 Introduction to Advertising
  - MEDIA ST 1110 Introduction to Broadcasting and Digital Media
- Select one of the following: 3
  - MEDIA ST 2180
  - MEDIA ST 2080 Advertising Copywriting
  - MEDIA ST 2212 Course MEDIA ST 2212 Not Found

**Elective courses** 6

**Total Hours** 18

The elective courses may consist of any media studies course or any communication course that counts towards the media studies major as either an elective or a requirement. At least 3 credit hours must be at the 3000 level or above. At least 9 of the 18 hours required for the minor must be taken at UMSL.

Students must earn at least a C for all media studies courses applied to the minor. A minimum GPA of 2.50 is required in the minor.

Mobile Apps and Computing Graduate Certificate

The graduate certificate in Mobile Apps and Computing is a four-course (12 credit hour) program. It provides training in technologies and frameworks for mobile apps and computing. All students must take three required courses and one additional elective.

A minimum of three courses must be taken from UMSL. Courses may be substituted with the permission of the certificate coordinator. For more information, students can contact the department chair or email info@arch.umsl.edu.

**Core**

- CMP SCI 4220 Introduction to iOS Programming and Apps 3
- CMP SCI 5020 Android Apps: Android Fundamentals 3
- CMP SCI 5792 Mobile Computing, Networking, and Security 3

**Electives**

Choose one of the following: 3

- CMP SCI 4610 Database Management Systems
- CMP SCI 5222 Advanced iOS Apps
- CMP SCI 5750 Cloud Computing

**Total Hours** 12

Mobile Apps and Computing Undergraduate Certificate

The undergraduate certificate in Mobile Apps and Computing is a five-course (15 credit hour) program. It is designed to provide training in technologies and framework for mobile apps and computing. A minimum GPA of 2.5 is required for admission.

**Required Courses**

- CMP SCI 4020 Introduction to Android Apps: Android Fundamentals 3
- CMP SCI 4220 Introduction to iOS Programming and Apps 3
- CMP SCI 4222 iOS Apps 3
- CMP SCI 4792 Introduction to Mobile Computing, Networking, and Security 3

**Elective**

Choose one of the following courses: 3

- CMP SCI 4010 Web Development with Java
- CMP SCI 4610 Database Management Systems
- CMP SCI 4750 Introduction to Cloud Computing

**Total Hours** 15

A minimum of three courses must be taken from UMSL. Courses may be substituted with the permission of the certificate coordinator. For more information, students can contact the department chair or email info@arch.umsl.edu.

**Learning Outcomes**

Upon completion of the program, certificate earners will be able to:

- Identify and implement techniques for communicating complex information in the Internet, particularly for mobile and wireless platforms
- Use appropriate programming languages and tools to integrate media and user interaction
- Design and develop applications in mobile and wireless computing, using representative mobile devices and platforms
- Assess and implement security principles in mobile applications
- Evaluate the quality and performance of mobile applications

Modern European Studies Undergraduate Certificate

Four semesters of college work or the equivalent in a modern European foreign language.

**Topics**

- HIST 1032 Topics in European Civilization: 1715 to the Present (MOTR WCIV 102) 3

**Select one course each from at least four of the following areas:**

**Anthropology**

- ANTHRO 2192 Anthropological Perspectives on Western Culture 20

**Art and Art History**

- ART HS 2250 Rococo to Realism
- ART HS 2280 Modern to Contemporary Art
Modern Language BA, Dual Language Emphasis Professional

To meet the increasing demand for multilingual professionals, the Department offers students the option of the Dual Language Professional Track as part of the B.A. in Modern Languages. Students interested in pursuing intermediate studies in more than one language may combine the study of any two of the following languages: French, Japanese, or Spanish. Coursework focuses on developing language proficiency, intercultural competency, and professional skills. Students in the dual-language concentration also benefit from numerous study abroad opportunities to further refine their linguistic and cultural competencies.

General Education Requirements

Each language major must satisfy the general education requirements (p. 48) of the university and the general education requirements of the College of Arts and Sciences.

Specific Requirements or Restrictions

Students entering with no high school language units must enroll in Language 1001 or may enroll in Language 2115. Language 2115 (a, b, and c) is the intensive study of a language and will satisfy the foreign language requirement. 2115a, 2115b, and 2115c are co-requisites and must be taken concurrently. To satisfy the foreign language requirement all three sections must be completed with a grade of C- or better.

A grade of D in a Language 1001 course is a passing grade but not an entrance grade for a Language 1002 course. A grade of D in a Language 1002 course is a passing grade but not an entrance grade for a Language 2101 course or its equivalent. A grade of D in a Language 2101 course fulfills the language requirement, but is not an entrance grade for a higher-level course.

Demonstration of a high level of proficiency may affect the number of hours required for the major. Native or heritage speakers of a language should consult with the department concerning appropriate placement and advising. Students with previous language coursework should contact the department for language placement testing and advising. Students may not take for credit an elementary course if they have already completed a higher-level course.

Degree Requirements

All courses for the major must be passed with a grade of C- or better. No course required for the major may be taken on a satisfactory/unsatisfactory (s/u) basis with the exception of those taken abroad as part of a university program that has received departmental approval.

Bachelor of Arts

All students seeking a B.A. in a Modern Language must successfully complete FL 2100 Languages and World View, and must meet the departmental requirement of a minimum of 33 hours in French or 33 hours in German or 37 hours in Japanese or 35 hours in Spanish (excluding Language 1001 and 1002). The maximum number of hours that may be taken in the major is 45 (including Language 1001 and 1002). In addition, students seeking the B.A. in a Modern Language who desire a teaching certificate must also take FGN LANG 4589 (same as SEC ED 4589), Curriculum and Methods of Teaching Foreign Languages,
FGN LANG 4590 (same as SEC ED 4590), and fulfill the professional secondary education requirements of the College of Education.

Transfer Students
Transfer students majoring in one of the modern languages must complete at UMSL a minimum of 12 graded hours in language courses at the 3000 level or above with a grade point average of 2.0 or better in those courses.

Native Speakers
Native speakers must complete at least two courses at the 3000 level and four courses at the 4000 level to obtain a major in their native language.

Emphasis Area Requirements
FGN LANG 2100 Languages and World View 3
Choose two of the following language options. 30-33
At least one course (minimum 3 credit hours) must include an internship, service learning, or study abroad component.

French
FRENCH 2170 Intermediate French Language and Culture
FRENCH 2180 Readings in French
Three courses at the 3000-level or higher, at least one of which must be business/professions-focused

German
GERMAN 2170 Intermediate Practice in Speaking and Writing German
GERMAN 2180 Intermediate Readings in German
Three courses at the 3000-level or higher

Japanese
JAPAN 2102 Intermediate Japanese II
Choose two of the following courses:
JAPAN 2170 Kanji: A Radical Approach
JAPAN 3202 Intermediate Japanese IV
JAPAN 3210 Japanese Culture and Society
JAPAN 3211 Topics in Japanese Culture
JAPAN 3280 Readings in Japanese
JAPAN 3201 Intermediate Japanese III

Spanish
Two courses at the 2000-level above 2101
Three courses at the 3000-level, at least one of which must be business/professions-focused

One 4000-Level Capstone 3
Capstone course requirement may be met by 4000-level language course

Total Hours 36-39

B.S. Ed. in Secondary Education with Emphasis in a Foreign Language
The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. degree in the language; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

B.A. in a Foreign Language with Master’s Level Coursework for Secondary Teacher Certification
In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

Total Hours: 120

1

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.
PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Modern Language BA, French Emphasis

The French Program at UMSL develops learners who are both linguistically and culturally competent and ready to be global citizens. UMSL offers a broad range of coursework in French: foundational courses in language and culture, courses focused on the many facets of literature and culture, and pre-professional courses, all aimed at developing skills for the 21st century. Our dedicated faculty engage learners in and out of the classroom. You can expect a challenging, collaborative, and interactive environment in every course. Our students are a part of a larger learning community connected through our conversation group, numerous activities, and study abroad experiences.

General Education Requirements

Each language major must satisfy the general education requirements (p. 48) of the university and the general education requirements of the College of Arts and Sciences.

Specific Requirements or Restrictions

Students entering with no high school language units must enroll in Language 1001 or may enroll in Language 2115. Language 2115 (a, b, and c) is the intensive study of a language and will satisfy the foreign language requirement. 2115a, 2115b, and 2115c are co-requisites and must be taken concurrently. To satisfy the foreign language requirement all three sections must be completed with a grade of C- or better.

A grade of D in a Language 1001 course is a passing grade but not an entrance grade for a Language 1002 course. A grade of D in a Language 1002 course is a passing grade but not an entrance grade for a Language 2101 course or its equivalent. A grade of D in a Language 2101 course fulfills the language requirement, but is not an entrance grade for a higher-level course.

Demonstration of a high level of proficiency may affect the number of hours required for the major. Native or heritage speakers of a language should consult with the department concerning appropriate placement and advising. Students with previous language coursework should contact the department for language placement testing and advising. Students may not take for credit an elementary course if they have already completed a higher-level course for which the elementary course, or its equivalent, is a prerequisite.

Degree Requirements

All courses for the major must be passed with a grade of C- or better. No course required for the major may be taken on a satisfactory/unsatisfactory (s/u) basis with the exception of those taken abroad as part of a university program that has received departmental approval.

Bachelor of Arts

All students seeking a B.A. in a Modern Language must successfully complete FL 2100 Languages and World View, and must meet the departmental requirement of a minimum of 33 hours in French or 33 hours in German or 37 hours in Japanese or 35 hours in Spanish (excluding Language 1001 and 1002). The maximum number of hours that may be taken in the major is 45 (including Language 1001 and 1002). In addition, students seeking the B.A. in a Modern Language who desire a teaching certificate must also take FGN LANG 4589 (same as SEC ED 4589), Curriculum and Methods of Teaching Foreign Languages, FGN LANG 4590 (same as SEC ED 4590), and fulfill the professional secondary education requirements of the College of Education.

Transfer Students

Transfer students majoring in one of the modern languages must complete at UMSL a minimum of 12 graded hours in language courses at the 3000 level or above with a grade point average of 2.0 or better in those courses.

Native Speakers

Native speakers must complete at least two courses at the 3000 level and four courses at the 4000 level to obtain a major in their native language.

Specific Requirements for Concentration in French

Each major with a French concentration must complete the following courses:

Career Outlook

Career options for graduates with a major or minor in modern languages include the following fields: teaching, social work, nursing, engineering, business, communications, government, journalism, travel industry, translation, and research. Our graduates have been especially successful when they combine advanced study in a modern language with another major. They are then able to add proficiency in a foreign language and culture to their knowledge and skills in another specialty. Experience with world cultures makes our graduates more adaptable and better prepared to meet the challenges of a global and increasingly diverse job market.

B.S. Ed. in Secondary Education with Emphasis in a Foreign Language

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. degree in the language; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.
B.A. in a Foreign Language with Master’s Level Coursework for Secondary Teacher Certification

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

Learning Outcomes

Graduates of the BA in Modern Languages from the University of Missouri-St. Louis possess the necessary linguistic and cultural competencies to interact with native speakers in culturally appropriate ways. They are able to use the target language in a variety of academic, social, and professional situations and have a rich understanding of the target culture(s) fostered through engaging topic-based courses and opportunities such as study abroad, service learning, and internships. Recognizing the interconnection between languages and world views, they can critically explore their own assumptions, value alternative perspectives, and act with cultural sensitivity. They are empowered with the tools to meet the challenges of a globalized world and continue developing their skills as lifelong learners.

Skills and Knowledge Areas

Upon completion of the major, students should be able to:

Linguistic and Critical Thinking Goals:

- In listening and speaking,
  - demonstrate comprehension of the main ideas and supporting details of narrative and descriptive texts on familiar and concrete topics, such as those on radio, television, and podcasts;
  - discuss topics related to work, school, home, leisure activities, culture, and a variety of media;
  - use the target language in real-world situations in culturally-appropriate ways;
  - produce narrations and descriptions on familiar topics in present, past, and future time frames and;
  - summarize research in oral presentations.

- In reading and writing,
  - demonstrate comprehension of the main idea, supporting details, argumentative structure, and perspective in authentic texts of various genres;
  - produce narrations and descriptions in present, past, and future time frames employing connected discourse;
  - summarize, analyze, and synthesize content, and begin to express supported opinions;
  - assess language reference resources and use them effectively and;
INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Modern Language BA, German Emphasis

Beginning Fall 2019, the program is no longer accepting applications.

General Education Requirements

Each language major must satisfy the general education requirements (p. 48) of the university and the general education requirements of the College of Arts and Sciences.

Specific Requirements or Restrictions

Students entering with no high school language units must enroll in Language 1001 or may enroll in Language 2115. Language 2115 (a, b, and c) is the intensive study of a language and will satisfy the foreign language requirement. 2115a, 2115b, and 2115c are co-requisites and must be taken concurrently. To satisfy the foreign language requirement all three sections must be completed with a grade of C- or better.

A grade of D in a Language 1001 course is a passing grade but not an entrance grade for a Language 1002 course. A grade of D in a Language 1002 course is a passing grade but not an entrance grade for a Language 2101 course or its equivalent. A grade of D in a Language 2101 course fulfills the language requirement, but is not an entrance grade for a higher-level course.

Demonstration of a high level of proficiency may affect the number of hours required for the major. Native or heritage speakers of a language should consult with the department concerning appropriate placement and advising. Students with previous language coursework should contact the department for language placement testing and advising. Students may not take for credit an elementary course if they have already completed a higher-level course for which the elementary course, or its equivalent, is a prerequisite.

Degree Requirements

All courses for the major must be passed with a grade of C- or better. No course required for the major may be taken on a satisfactory/unsatisfactory (s/u) basis with the exception of those taken abroad as part of a university program that has received departmental approval.

Bachelor of Arts

All students seeking a B.A. in a Modern Language must successfully complete FL 2100 Languages and World View, and must meet the departmental requirement of a minimum of 33 hours in French or 33 hours in German or 37 hours in Japanese or 35 hours in Spanish (excluding Language 1001 and 1002). The maximum number of hours that may be taken in the major is 45 (including Language 1001 and 1002). In addition, students seeking the B.A. in a Modern Language who desire a teaching certificate must also take FGN LANG 4589 (same as SEC ED 4589), Curriculum and Methods of Teaching Foreign Languages, FGN LANG 4590 (same as SEC ED 4590), and fulfill the professional secondary education requirements of the College of Education.

Transfer Students

Transfer students majoring in one of the modern languages must complete at UMSL a minimum of 12 graded hours in language courses at the 3000 level or above with a grade point average of 2.0 or better in those courses.

Native Speakers

Native speakers must complete at least two courses at the 3000 level and four courses at the 4000 level to obtain a major in their native language.

Specific Requirements for the Concentration in German

Each major with a concentration in German must complete the following courses:

<table>
<thead>
<tr>

Learning Outcomes

Graduates of the BA in Modern Languages from the University of Missouri-St. Louis possess the necessary linguistic and cultural competencies to interact with native speakers in culturally appropriate ways. They are able to use the target language in a variety of academic, social, and professional situations and have a rich understanding of the target culture(s) fostered through engaging topic-based courses and opportunities such as study abroad, service learning, and internships. Recognizing the interconnection between languages and world views, they can critically explore their own assumptions, value alternative perspectives, and act with cultural sensitivity. They are empowered with the tools to meet the challenges of a globalized world and continue developing their skills as lifelong learners.

Skills and Knowledge Areas

Upon completion of the major, students should be able to:

Modern Language BA, Japanese Emphasis

Knowledge of Japanese will empower you to dive deep into Japan’s rich cultural heritage, which spans from "The Tale of Genji" to "Attack on Titan" and beyond. Students who choose to study Japanese at UMSL benefit from faculty who are dedicated to creating a challenging but supportive learning environment. You will engage with the language and culture in the classroom, out of the classroom through on-campus events and Japan-America Student Association involvement, and in a variety of study abroad opportunities.

General Education Requirements

Each language major must satisfy the general education requirements (p. 48) of the university and the general education requirements of the College of Arts and Sciences.

Specific Requirements or Restrictions

Students entering with no high school language units must enroll in Language 1001 or may enroll in Language 2115. Language 2115 (a, b, and c) is the intensive study of a language and will satisfy the foreign language requirement. 2115a, 2115b, and 2115c are co-requisites and must be taken concurrently. Career Outlook

Career options for graduates with a major or minor in modern languages include the following fields: teaching, social work, nursing, engineering, business, communications, government, journalism, travel industry, translation, and research. Our graduates have been especially successful when they combine advanced study in a modern language with another major. They are then able to add proficiency in a foreign language and culture to their knowledge and skills in another specialty. Experience with world cultures makes our graduates more adaptable and better prepared to meet the challenges of a global and increasingly diverse job market.

B.S. Ed. in Secondary Education with Emphasis in a Foreign Language

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. degree in the language; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

B.A. in a Foreign Language with Master’s Level Coursework for Secondary Teacher Certification

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for postgraduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

Learning Outcomes

Graduates with a BA in Modern Languages (Japanese) from the University of Missouri-St. Louis possess the necessary linguistic and cultural competencies to interact with native speakers in culturally appropriate ways. They are able to use the target language in a variety of academic, social, and professional situations and have a rich understanding of the culture that has been fostered through engaging courses and opportunities such as study abroad, service learning, and internships. Recognizing the interconnection between languages and world views, they can critically explore their own assumptions, value alternative perspectives, and act with cultural sensitivity. They are empowered with the tools to meet the challenges of a globalized world and continue developing their skills as lifelong learners.

Skills and Knowledge Areas

Upon completion of the Japanese major, students should be able to:

Linguistic and Critical Thinking Goals

• In listening/speaking:
  • demonstrate comprehension of the main ideas and supporting details of everyday conversations on familiar and concrete topics, both formal and informal;
  • discuss topics related to work, school, home, leisure activities, culture, and media;
  • narrate short anecdotes using Japanese conversational conventions;
  • summarize research in oral presentations; and,
  • function in real-world situations in culturally-appropriate ways.

• In reading/writing:
  • identify the main idea, supporting details, argumentative structure, and perspective in authentic texts of various genres;
  • apply reading strategies to glean key information from more challenging texts;
  • summarize and analyze content, and begin to express supported opinions;
• assess language reference resources and use them effectively; and,
• conduct independent research and present findings.

Cultural and Global Awareness Goals
• recognize and describe some of the key historical, social, economic, and political forces that shape Japanese society;
• analyze and critique products of Japanese culture (film, media, literature, art, etc.) in their socio-historical contexts;
• compare and contrast their own cultural beliefs, behaviors, and norms with those of other cultures;
• describe how language and culture impact one’s world view; and,
• explain the skills acquired through language study and their benefits to a potential employer.

The linguistic program goals are based on the National Standards For Foreign Language Learning and the ACTFL Proficiency Guidelines. Graduates are expected to reach the Intermediate-High level proficiency at a minimum. For detailed descriptions of sublevels, see the ACTFL Proficiency Guidelines.

Total Hours: 120

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Modern Language BA, Spanish Emphasis

The BA in Modern Languages with emphasis in Spanish develops learners who are both linguistically and culturally competent and ready to become global citizens. We offer a broad range of coursework in Spanish, from foundational courses in language and culture to courses focused on literature, linguistics, creative writing, and professions, all aimed at developing competencies for the 21st century. Our introductory-level courses are taught in different delivery modes: in person, hybrid, and online. We encourage study abroad through our short-term faculty-led programs in Costa Rica and Barcelona, as well as through year-long programs in partner institutions.

General Education Requirements
Each language major must satisfy the general education requirements (p. 48) of the university and the general education requirements of the College of Arts and Sciences.

Specific Requirements or Restrictions
Students entering with no high school language units must enroll in Language 1001 or may enroll in Language 2115. Language 2115 (a, b, and c) is the intensive study of a language and will satisfy the foreign language requirement. 2115a, 2115b, and 2115c are co-requisites and must be taken concurrently. To satisfy the foreign language requirement all three sections must be completed with a grade of C- or better.

A grade of D in a Language 1001 course is a passing grade but not an entrance grade for a Language 1002 course. A grade of D in a Language 1002 course is a passing grade but not an entrance grade for a Language 2101 course or its equivalent. A grade of D in a Language 2101 course fulfills the language requirement, but is not an entrance grade for a higher-level course.

Demonstration of a high level of proficiency may affect the number of hours required for the major. Native or heritage speakers of a language should consult with the department concerning appropriate placement and advising. Students with previous language coursework should contact the department for language placement testing and advising. Students may not take for credit an elementary course if they have already completed a higher-level course for which the elementary course, or its equivalent, is a prerequisite.

Degree Requirements
All courses for the major must be passed with a grade of C- or better. No course required for the major may be taken on a satisfactory/unsatisfactory (s/u) basis with the exception of those taken abroad as part of a university program that has received departmental approval.
Bachelor of Arts

All students seeking a B.A. in a Modern Language must successfully complete FL 2100 Languages and World View, and must meet the departmental requirement of a minimum of 33 hours in French or 33 hours in German or 37 hours in Japanese or 35 hours in Spanish (excluding Language 1001 and 1002). The maximum number of hours that may be taken in the major is 45 (including Language 1001 and 1002). In addition, students seeking the B.A. in a Modern Language who desire a teaching certificate must also take FGN LANG 4589 (same as SEC ED 4589), Curriculum and Methods of Teaching Foreign Languages, FGN LANG 4590 (same as SEC ED 4590), and fulfill the professional secondary education requirements of the College of Education.

Transfer Students

Transfer students majoring in one of the modern languages must complete at UMSL a minimum of 12 graded hours in language courses at the 3000 level or above with a grade point average of 2.0 or better in those courses.

Native Speakers

Native speakers must complete at least two courses at the 3000 level and four courses at the 4000 level to obtain a major in their native language.

Specific Requirements for Concentration in Spanish

Each major with a Spanish concentration must complete the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPANISH 2101</td>
<td>Spanish Language and Culture III</td>

Total Hours 35

Career Outlook

Career options for graduates with a major or minor in modern languages include the following fields: teaching, social work, nursing, engineering, business, communications, government, journalism, travel industry, translation, and research. Our graduates have been especially successful when they combine advanced study in a modern language with another major. They are then able to add proficiency in a foreign language and culture to their knowledge and skills in another specialty. Experience with world cultures makes our graduates more adaptable and better prepared to meet the challenges of a global and increasingly diverse job market.

Learning Outcomes

Graduates of the BA in Modern Languages from the University of Missouri-St. Louis possess the necessary linguistic and cultural competencies to interact with native speakers in culturally appropriate ways. They are able to use the target language in a variety of academic, social, and professional situations and have a rich understanding of the target culture(s) fostered through engaging topic-based courses and opportunities such as study abroad, service learning, and internships. Recognizing the interconnection between languages and world views, they can critically explore their own assumptions, value alternative perspectives, and act with cultural sensitivity. They are empowered with the tools to meet the challenges of a globalized world and continue developing their skills as lifelong learners.

Skills and Knowledge Areas

Upon completion of the major, students should be able to:

Linguistic and Critical Thinking Goals:

- In listening and speaking,
  - demonstrate comprehension of the main ideas and supporting details of narrative and descriptive texts on familiar and concrete topics, such as those on radio, television, and podcasts;
  - discuss topics related to work, school, home, leisure activities, culture, and a variety of media;
  - use the target language in real-world situations in culturally-appropriate ways;
  - produce narrations and descriptions on familiar topics in present, past, and future time frames and;
  - summarize research in oral presentations.

- In reading and writing,
  - demonstrate comprehension of the main idea, supporting details, argumentative structure, and perspective in authentic texts of various genres;
  - produce narrations and descriptions in present, past, and future time frames employing connected discourse;
  - summarize, analyze, and synthesize content, and begin to express supported opinions;
  - assess language reference resources and use them effectively and;
  - conduct independent research and present findings.

Cultural and Global Awareness Goals:

- demonstrate an awareness of the linguistic, ethnic, racial, religious, cultural, and social diversity of the target cultures;
- recognize and describe some of the key historical, social, economic, and political forces in the target cultures;
- analyze and critique film, media, literature, art, etc.in their socio-historical contexts;
- compare and contrast their own cultural beliefs, behaviors, and norms with those of other cultures;
- describe how language and culture impact one’s world view;
explain the skills acquired through language study and their benefits to a potential employer.

The linguistic goals are based on the National Standards For Foreign Language Learning and the American Council on the Teaching of Foreign Languages (ACTFL) Proficiency Guidelines. In speaking and listening, graduates are expected to reach the Advanced-Low level proficiency, in writing the Advanced-Mid level proficiency, and in reading the Advanced-High level proficiency. For detailed descriptions of sublevels, see the ACTFL Proficiency Guidelines.

Total Hours: 120

## Modern Languages Minor

A minor in Modern Languages requires the completion of 4 courses beyond the introductory sequence (1001, 1002 and 2101), two in each of two different languages. For students who are seeking a B.A. in a Modern Language, the two languages must be different from the language in which they are majoring.

## Multicultural and Social Justice Counseling Graduate Certificate

The Graduate Certificate in Multicultural and Social Justice Counseling (MSJC) certificate may be pursued as a stand-alone credential or in conjunction with another mental health program (such as: Master's Degree in Education in counseling, the Master's in Social Work degree, the Ed.D. or the Ph.D. in Education, or the PhD in Clinical Psychology). With advance planning, all 12 credits may be applied to the Master's of Education in Clinical Mental Health Counseling degree. Completion of the MSJC certificate, however, does not guarantee acceptance into any other degree program (separate application required for admission).

### Admission Requirements

Requirements for admission to the MSJC certificate program are: current “good standing” (non-probation) in an UMSL graduate mental health practitioner training program (counseling, social work, or psychology) OR all of the following criteria must be met:

1. Undergraduate degree with a GPA of 3.0 or better;
2. Enrollment in a graduate mental health practitioner training program OR earned master’s degree in mental health field;
3. Two letters of recommendation with at least one from a current or former college-level instructor (or someone with a graduate degree who can attest to the applicant's capacity to complete graduate-level work);
4. Two-page personal statement explaining the applicant's personal and professional goals.

#### Electives

Choose three of the following:
Museums, Heritage, and Public History Graduate Certificate

The Graduate Certificate in Museums, Heritage, and Public History provides interdisciplinary professional and academic training for museum professionals and others who seek to develop their practical skills and knowledge to work in the heritage sector.

Admission Requirements

All those who wish to be considered for the Graduate Certificate in Museums, Heritage, and Public History should designate this certificate program on their application to the graduate school, submit three letters of recommendation and a writing sample, and complete the Museums, Heritage, and Public History supplemental application with their application for graduate work. Applicants who wish to pursue the certificate normally must have a master's degree and a GPA of 3.2 or higher. Prospective students who wish to pursue the certificate in conjunction with another graduate program should follow the normal application procedures for that program in addition to those for this certificate.

Admissions decisions are based on transcripts, the letters of recommendation, the sample of written work, and the supplemental application.

The program will accept applications twice per year, once for the fall semester and once for the spring.

Program Requirements (15 hours)

All candidates for Graduate Certificate in Museums, Heritage, and Public History must complete the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 6001</td>
<td>Introduction to Public History and Cultural Heritage</td>
<td>3</td>
</tr>
<tr>
<td>HIST 6131</td>
<td>Museum Origins and Evolution</td>
<td>3</td>
</tr>
<tr>
<td>HIST 6133</td>
<td>Digital Public History</td>
<td>3</td>
</tr>
<tr>
<td>or HIST 6127</td>
<td>Museums and Communities</td>
<td>3</td>
</tr>
</tbody>
</table>

Students must also complete an additional 2 elective courses (6 hours) as approved by the Director of Museums, Heritage, and Public History.

Total Hours 15

Music BA

Degree Requirements

Admission to all Music degree programs is by audition to demonstrate musical aptitude and potential, technical proficiency, and seriousness in selecting music as a four-year course of study. In addition to the applied music audition, placement examinations in music theory and music history may be required to confirm students’ prior experience in these areas. Auditions are scheduled from January to May for the fall semester; a limited number are held in December for the spring/winter semester.

Students in applied music (private lessons) must pass a junior-standing examination to confirm their level of performance skills for enrollment in AP MUS 3440 – AP MUS 3459 or AP MUS 4440 – AP MUS 4459. This examination is usually taken at the same time as the applied music jury for the fourth semester of enrollment in AP MUS 1440 - AP MUS 1459.

Evidence of sound musicianship, a close acquaintance with an appropriate portion of musical literature, and the ability to bring it to actual performance are required for graduation in all Music degree programs. Students in the B.M., Performance Emphasis fulfill this requirement with junior and senior recitals. Students in all other degree programs fulfill this requirement with a senior recital. In some cases, upon the recommendation of the student’s applied teacher, the senior recital (for non-performance majors only) may be replaced by participating in three regularly scheduled student recitals during the last two semesters of applied music study, or by performing for a special panel of faculty members.

General Education Requirements

UMSL’s General education requirements (p. 48) apply to all majors. Courses required for degree programs may not be taken on a satisfactory/unsatisfactory basis. Students must receive at least a C in each music course and maintain a cumulative GPA of 2.5 (music education 2.7) in all music courses to meet degree requirements.

Non-Music majors are encouraged to take music courses (EN PER and MHLT) at the 1000- or 2000-level toward UMSL’s Humanities and Fine Arts general education requirement. Non-Music majors wishing to perform with ensembles (EN PER 1410, University Singers; EN PER 1500, University Orchestra; EN PER 1530, University Wind Ensemble; EN PER 1550, Jazz Orchestra) should contact the ensemble’s director for information about auditions. M H L T 1150, Drumming Cultures of the World; M H L T 1160, Musical Journey through Latin America; M H L T 1170, Musical Journey through the Far East; or M H L T 1180, Musical Journey through Africa will meet the University’s Cultural Diversity study requirement.

Other Requirements

Music majors are required to enroll in an approved ensemble [University Wind Ensemble, University Singers, University Orchestra, or Jazz Orchestra (for Jazz Studies majors)] each semester and to study one applied area progressively each semester of the degree program. Music Education majors are exempt from these requirements during the student teaching semester. For all music majors, the applied lesson requirement consists of a weekly, individual lesson with your instructor, as well as a weekly enrichment activity in pedagogy and literature, which may take
the form of a studio class, master class, performances by and for our students, or other experience identified by the department. The following specific ensemble enrollments, depending upon the applied music area, are required:

- Wind and Percussion students—University Wind Ensemble;
- String students—University Orchestra;
- Voice students—University Singers;
- Keyboard and Guitar students—any approved ensemble, but those in the bachelor of music in music education program must successfully audition for and enroll in an ensemble compatible with the teaching certification they are pursuing;
- Instrumental students may be required to participate in additional ensembles to enhance their musical development;
- Jazz Studies majors (any instrument)—Jazz Orchestra.

Majors are required to appear in performance at the department’s discretion and to attend a prescribed number of departmental recitals. All music majors whose primary applied area is not piano or organ are required to pass an exam in piano proficiency before graduation. Music education majors must pass this piano proficiency exam prior to student teaching.

The music department may require students to pass a placement test to enroll in the next level course, provided this or an equivalent test is administered to all students seeking to enroll in that course.

Core Curriculum

The following core courses are required for all Music majors:

**Music Theory**

</tbody>
</table>

**Total Hours**  32-34

Please see the College of Arts and Sciences Baccalaureate Degree Requirements for additional information about the foreign language requirement.

**Learning Outcomes**

Upon completion of the program, graduates will:

- Have the technical skills requisite for artistic self-expression (Performance)
- Understand the common elements and organizational patterns of music and their interaction (Musicianship Skills and Analysis)
- Have a Rudimentary capacity to create original or derivative music (Composition/Improvisation)
- Have a basic knowledge of music history and repertories through the present time (History and Repertory)
- Have the ability to work on musical problems by combining their capabilities in performance, aural, verbal and visual analysis; composition/improvisation; history and repertory (Synthesis)

Total Hours: 120

1 INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Music BM, Elective Studies in Business Emphasis

Degree Requirements

Admission to all Music degree programs is by audition to demonstrate musical aptitude and potential, technical proficiency, and seriousness in selecting music as a four-year course of study. In addition to the applied music audition, placement examinations in music theory and music history may be required to confirm students' prior experience in these areas. Auditions are scheduled from January to May for the fall semester; a limited number are held in December for the spring/winter semester. Students in applied music (private lessons) must pass a junior-standing examination to confirm their level of performance skills for enrollment in AP MUS 3440 – AP MUS 3459 or AP MUS 4440 – AP MUS 4459. This examination is usually taken at the same time as the applied music jury for the fourth semester of enrollment in AP MUS 1440 - AP MUS 1459.

Evidence of sound musicianship, a close acquaintance with an appropriate portion of musical literature, and the ability to bring it to actual performance are required for graduation in all Music degree programs. Students in the B.M., Performance Emphasis fulfill this requirement with junior and senior recitals. Students in all other degree programs fulfill this requirement with a senior recital. In some cases, upon the recommendation of the student's applied teacher, the senior recital (for non-performance majors only) may be replaced by participating in three regularly scheduled student recitals during the last two semesters of applied music study, or by performing for a special panel of faculty members.

General Education Requirements

UMSL’s General education requirements (p. 48) apply to all majors. Courses required for degree programs may not be taken on a satisfactory/unsatisfactory basis. Students must receive at least a C in each music course and maintain a cumulative GPA of 2.5 (music education 2.7) in all music courses to meet degree requirements.

Non-Music majors are encouraged to take music courses (EN PER and MHLT) at the 1000- or 2000-level toward UMSL’s Humanities and Fine Arts general education requirement. Non-Music majors wishing to perform with ensembles (EN PER 1410, University Singers; EN PER 1500, University Orchestra; EN PER 1530, University Wind Ensemble; EN PER 1550, Jazz Orchestra) should contact the ensemble’s director for information about auditions. M H L T 1150, Drumming Cultures of the World; M H L T 1160, Musical Journey through Latin America; M H L T 1170, Musical Journey through the Far East; or M H L T 1180, Musical Journey through Africa will meet the University’s Cultural Diversity study requirement.

Other Requirements

Music majors are required to enroll in an approved ensemble [University Wind Ensemble, University Singers, University Orchestra, or Jazz Orchestra (for Jazz Studies majors)] each semester and to study one applied area progressively each semester of the degree program. Music Education majors are exempt from these requirements during the student teaching semester. For all music majors, the applied lesson requirement consists of a weekly, individual lesson with your instructor, as well as a weekly enrichment activity in pedagogy and literature, which may take
the form of a studio class, master class, performances by and for our students, or other experience identified by the department. The following specific ensemble enrollments, depending upon the applied music area, are required:

- Wind and Percussion students—University Wind Ensemble;
- String students—University Orchestra;
- Voice students—University Singers;
- Keyboard and Guitar students—any approved ensemble, but those in the bachelor of music in music education program must successfully audition for and enroll in an ensemble compatible with the teaching certification they are pursuing;
- Instrumental students may be required to participate in additional ensembles to enhance their musical development;
- Jazz Studies majors (any instrument)—Jazz Orchestra.

Majors are required to appear in performance at the department’s discretion and to attend a prescribed number of departmental recitals. All music majors whose primary applied area is not piano or organ are required to pass an exam in piano proficiency before graduation. Music education majors must pass this piano proficiency exam prior to student teaching.

The music department may require students to pass a placement test to enroll in the next level course, provided this or an equivalent test is administered to all students seeking to enroll in that course.

ENT 4001  Accelerate Capstone  3

Total Hours  51

1  

Prerequisites to the required business administration courses.

2  

If desired, students can be replace this class with any of the elective classes listed at https://bulletin.umsl.edu/programs/entrepreneurship-undergraduate-certificate/

Learning Outcomes

Upon completion of the program, graduates will:

Have technical skills requisite for artistic self-expression (Performance)
Understand the common elements and organizational patterns of music and their interaction (Musicianship Skills and Analysis)
Have a rudimentary capacity to create original or derivative music (Composition/Improvisation)
Have basic knowledge of music history and repertories through the present time (History and Repertory)
Be Able to work on musical problems by combining their capabilities in performance, aural, verbal and visual analysis; composition/improvisation; history and repertory (Synthesis)
Be Able to develop necessary professional abilities and dispositions in order function in a field-based business internship (e.g. marketing, management, public relations, etc.)

Total Hours: 120

1

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Music BM, Jazz Studies Emphasis

Degree Requirements

Admission to all Music degree programs is by audition to demonstrate musical aptitude and potential, technical proficiency, and seriousness in selecting music as a four-year course of study. In addition to the applied music audition, placement examinations in music theory and music history may be required to confirm students’ prior experience in these areas. Auditions are scheduled from January to May for the fall semester; a limited number are held in December for the spring/winter semester. Students in applied music (private lessons) must pass a junior-standing examination to confirm their level of performance skills for enrollment in AP MUS 3440 – AP MUS 3459 or AP MUS 4440 – AP MUS 4459. This examination is usually taken at the same time as the applied music jury for the fourth semester of enrollment in AP MUS 1440 - AP MUS 1459.

Evidence of sound musicianship, a close acquaintance with an appropriate portion of musical literature, and the ability to bring it to actual performance are required for graduation in all Music degree programs. Students in the B.M., Performance Emphasis fulfill this requirement with junior and senior recitals. Students in all other degree programs fulfill this requirement with a senior recital. In some cases, upon the recommendation of the student's applied teacher, the senior recital (for non-performance majors only) may be replaced by participating in three regularly scheduled student recitals during the last two semesters of applied music study, or by performing for a special panel of faculty members.

General Education Requirements

UMSL’s General education requirements (p. 48) apply to all majors. Courses required for degree programs may not be taken on a satisfactory/unsatisfactory basis. Students must receive at least a C in each music course and maintain a cumulative GPA of 2.5 (music education 2.7) in all music courses to meet degree requirements.
Non-Music majors are encouraged to take music courses (EN PER and MHLT) at the 1000- or 2000-level toward UMSL’s Humanities and Fine Arts general education requirement. Non-Music majors wishing to perform with ensembles (EN PER 1410, University Singers; EN PER 1500, University Orchestra; EN PER 1530, University Wind Ensemble; EN PER 1550, Jazz Orchestra) should contact the ensemble’s director for information about auditions. M H L T 1150, Drumming Cultures of the World; M H L T 1160, Musical Journey through Latin America; M H L T 1170, Musical Journey through the Far East; or M H L T 1180, Musical Journey through Africa will meet the University’s Cultural Diversity study requirement.

Other Requirements

Music majors are required to enroll in an approved ensemble [University Wind Ensemble, University Singers, University Orchestra, or Jazz Orchestra (for Jazz Studies majors)] each semester and to study one applied area progressively each semester of the degree program. Music Education majors are exempt from these requirements during the student teaching semester. For all music majors, the applied lesson requirement consists of a weekly, individual lesson with your instructor, as well as a weekly enrichment activity in pedagogy and literature, which may take the form of a studio class, master class, performances by and for our students, or other experience identified by the department. The following specific ensemble enrollments, depending upon the applied music area, are required:

- Wind and Percussion students—University Wind Ensemble;
- String students—University Orchestra;
- Voice students—University Singers;
- Keyboard and Guitar students—any approved ensemble, but those in the bachelor of music in music education program must successfully audition for and enroll in an ensemble compatible with the teaching certification they are pursuing;
- Instrumental students may be required to participate in additional ensembles to enhance their musical development;
- Jazz Studies majors (any instrument)—Jazz Orchestra.

Majors are required to appear in performance at the department’s discretion and to attend a prescribed number of departmental recitals. All music majors whose primary applied area is not piano or organ are required to pass an exam in piano proficiency before graduation. Music education majors must pass this piano proficiency exam prior to student teaching.

The music department may require students to pass a placement test to enroll in the next level course, provided this or an equivalent test is administered to all students seeking to enroll in that course.

Core Curriculum

The following core courses are required for all Music majors:

**Music Theory**

<table>

Upon completion of the program, graduates will:

- Have technical skills requisite for artistic self-expression (Performance)
- Understand the common elements and organizational patterns of music and their interaction (Musicianship Skills and Analysis)
- Have a rudimentary capacity to create original or derivative music (Composition/Improvisation)
- Have basic knowledge of music history and repertories through the present time (History and Repertory)
- Be able to work on musical problems by combining their capabilities in performance, aural, verbal and visual analysis; composition/improvisation; history and repertory (Synthesis)

### Learning Outcomes

Upon completion of the program, graduates will:

- Have technical skills requisite for artistic self-expression (Performance)
- Understand the common elements and organizational patterns of music and their interaction (Musicianship Skills and Analysis)
- Have a rudimentary capacity to create original or derivative music (Composition/Improvisation)
- Have basic knowledge of music history and repertories through the present time (History and Repertory)
- Be able to work on musical problems by combining their capabilities in performance, aural, verbal and visual analysis; composition/improvisation; history and repertory (Synthesis)

### Degree Requirements

Admission to all Music degree programs is by audition to demonstrate musical aptitude and potential, technical proficiency, and seriousness in selecting music as a four-year course of study. In addition to the applied music audition, placement examinations in music theory and music history may be required to confirm students' prior experience in these areas. Auditions are scheduled from January to May for the fall semester; a limited number are held in December for the spring/winter semester.

Students in applied music (private lessons) must pass a junior-standing examination to confirm their level of performance skills for enrollment in AP MUS 3440 – AP MUS 3459 or AP MUS 4440 – AP MUS 4459. This examination is usually taken at the same time as the applied music jury for the fourth semester of enrollment in AP MUS 1440 - AP MUS 1459.

Evidence of sound musicianship, a close acquaintance with an appropriate portion of musical literature, and the ability to bring it to actual performance are required for graduation in all Music degree programs. Students in the B.M., Performance Emphasis fulfill this requirement with junior and senior recitals. Students in all other degree programs fulfill this requirement with a senior recital. In some cases, upon the recommendation of the student's applied teacher, the senior recital (for non-performance majors only) may be replaced by participating in three regularly scheduled student recitals during the last two semesters of applied music study, or by performing for a special panel of faculty members.

### General Education Requirements

UMSL's General education requirements (p. 48) apply to all majors. Courses required for degree programs may not be taken on a satisfactory/unsatisfactory basis. Students must receive at least a C in each music course.
The following core courses are required for all Music majors:

<tr>
<th>Requirement</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>All B.M. in Music Education majors must meet the university and college general education requirements.</td>
<td></td>
</tr>
</tbody>
</table>

**GPA Requirement**

Students enrolled in B.M. in music education must maintain minimum GPAs (2.75 cumulative; 3.0 music; and 3.0 professional education).
Proficiency Exam

Students working toward certification in choral/vocal or instrumental music K-12 are required to pass a keyboard proficiency examination before admission to student teaching in music, usually before or during the sixth semester of their program.

1 All of the courses in the General Education Requirement Area must be a minimum of two semester hours.

Instrumental Track

AP MUS 1410 - 3459
One hour every semester in progress toward degree with a minimum of 7 credit hours

EN PER 1500 University Orchestra (MOTR PERF 102O) 1
or EN PER 1520 University Symphonic Band (MOTR PERF 102B)
or EN PER 1530 University Wind Ensemble
MUS ED 3570 Curriculum and Methods of Teaching Elementary and Secondary General Music 2
MUS ED 3680 Curriculum and Methods of Teaching Instrumental Music 2
PDGOGY 1250 Brass Techniques 2
PDGOGY 1260 Woodwind Techniques 2
PDGOGY 1270 String Techniques 2
PDGOGY 1280 Percussion Instrumental Techniques 2
PRACTM 2610 Instrumental Literature Laboratory 1
PRACTM 3521 Conducting II - Instrumental 2

Total Hours 28

1 One hour every semester in progress toward degree with a minimum of 4 credit hours in EN PER 1500, EN PER 1520, or EN PER 1530.
2 Must be taken in residence before enrolling in SEC ED 4993 and SEC ED 4994.

Vocal Track 1

AP MUS 1410 - 3459
One hour every semester in progress toward degree with a minimum of 7 credit hours

EN PER 1410 The University Singers (MOTR PERF 102C) 2
MUS ED 3570 Curriculum and Methods of Teaching Elementary and Secondary General Music 3
MUS ED 3710 Curriculum and Methods of Teaching Choral Music 3
PRACTM 1250 Singer’s Diction: English, Italian And German 1
PRACTM 1260 Singer’s Diction: Latin, French, And Spanish 1
PRACTM 3522 Conducting II - Choral 2
PRACTM 2611 Choral Literature Laboratory 1
THRY COM 3420 Choral Arranging 2

Total Hours 24

1 Vocal certification students whose applied area is not voice must consult an advisor for additional courses.
2 One hour every semester in progress toward degree with a minimum of 4 credit hours.
3 Must be taken in residence before enrolling in SEC ED 4993 and SEC ED 4994.

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.
Music BM, Music Theory Emphasis

Degree Requirements

Admission to all Music degree programs is by audition to demonstrate musical aptitude and potential, technical proficiency, and seriousness in selecting music as a four-year course of study. In addition to the applied music audition, placement examinations in music theory and music history may be required to confirm students’ prior experience in these areas. Auditions are scheduled from January to May for the fall semester; a limited number are held in December for the spring/winter semester. Students in applied music (private lessons) must pass a junior-standing examination to confirm their level of performance skills for enrollment in AP MUS 3440 – AP MUS 3459 or AP MUS 4440 – AP MUS 4459. This examination is usually taken at the same time as the applied music jury for the fourth semester of enrollment in AP MUS 1440 - AP MUS 1459.

Evidence of sound musicianship, a close acquaintance with an appropriate portion of musical literature, and the ability to bring it to actual performance are required for graduation in all Music degree programs. Students in the B.M., Performance Emphasis fulfill this requirement with junior and senior recitals. Students in all other degree programs fulfill this requirement with a senior recital. In some cases, upon the recommendation of the student's applied teacher, the senior recital (for non-performance majors only) may be replaced by participating in three regularly scheduled student recitals during the last two semesters of applied music study, or by performing for a special panel of faculty members.

General Education Requirements

UMSL’s General education requirements (p. 48) apply to all majors. Courses required for degree programs may not be taken on a satisfactory/unsatisfactory basis. Students must receive at least a C in each music course and maintain a cumulative GPA of 2.5 (music education 2.7) in all music courses to meet degree requirements.

Non-Music majors are encouraged to take music courses (EN PER and MHLT) at the 1000- or 2000-level toward UMSL’s Humanities and Fine Arts general education requirement. Non-Music majors wishing to perform with ensembles (EN PER 1410, University Singers; EN PER 1500, University Orchestra; EN PER 1530, University Wind Ensemble; EN PER 1550, Jazz Orchestra) should contact the ensemble’s director for information about auditions. M H L T 1150, Druming Cultures of the World; M H L T 1160, Musical Journey through Latin America; M H L T 1170, Musical Journey through the Far East; or M H L T 1180, Musical Journey through Africa will meet the University’s Cultural Diversity study requirement.

Other Requirements

Music majors are required to enroll in an approved ensemble [University Wind Ensemble, University Singers, University Orchestra, Jazz Orchestra (for Jazz Studies majors)] each semester and to study one applied area progressively each semester of the degree program. Music Education majors are exempt from these requirements during the student teaching semester. For all music majors, the applied lesson requirement consists of a weekly, individual lesson with your instructor, as well as a weekly enrichment activity in pedagogy and literature, which may take the form of a studio class, master class, performances by and for our students, or other experience identified by the department. The following specific ensemble enrollments, depending upon the applied music area, are required:

- Wind and Percussion students—University Wind Ensemble;
- String students—University Orchestra;
- Voice students—University Singers;
- Keyboard and Guitar students—any approved ensemble, but those in the bachelor of music in music education program must successfully audition for and enroll in an ensemble compatible with the teaching certification they are pursuing;
- Instrumental students may be required to participate in additional ensembles to enhance their musical development;
- Jazz Studies majors (any instrument)—Jazz Orchestra.

Majors are required to appear in performance at the department's discretion and to attend a prescribed number of departmental recitals. All music majors whose primary applied area is not piano or organ are required to pass an exam in piano proficiency before graduation. Music education majors must pass this piano proficiency exam prior to student teaching.

The music department may require students to pass a placement test to enroll in the next level course, provided this or an equivalent test is administered to all students seeking to enroll in that course.

Core Curriculum

The following core courses are required for all Music majors:

**Music Theory**

- THRY COM 1300 Introduction to Music Theory 1
- THRY COM 1301 Theory of Music I 3
- THRY COM 1302 Aural Training I 2
- THRY COM 1311 Theory of Music II 3
- THRY COM 1312 Aural Training II 2
- THRY COM 2301 Theory of Music III 3
- THRY COM 2302 Aural Training III 2
- THRY COM 2311 Theory of Music IV 1 3
- THRY COM 2312 Aural Training IV 1 2

**Piano Proficiency**

- PRACTM 1140 Piano Proficiency I 1
- PRACTM 1150 Piano Proficiency II 1
- PRACTM 2160 Piano Proficiency III 1
- PRACTM 2180 Piano Proficiency IV 1

**Conducting**

- PRACTM 2510 Conducting I 2

**Music History and Literature**

- M H L T 2010 History of Western Music I (MOTR MUSC 103) 3
- M H L T 2020 History of Western Music II (MOTR MUSC 104) 3

Choose one of the following courses: 3

- M H L T 1150 Druming Cultures of the World (MOTR MUSC 102)
- M H L T 1160 Musical Journey through Latin America
- M H L T 1170 Musical Journey through the Far East
M H L T 1180  Musical Journey Through Africa  
Recital  
AP MUS 3510  Senior Recital 0  
Total Hours  36  

1  Students in the BM Jazz Studies program will take THRY COM 2313 instead.  
2  Students in the BM Jazz Studies program will take THRY COM 2314 instead.  
3  Students in the BM Jazz Studies program will take PRACTM 2170 instead.  
4  Students in the BM Jazz Studies program will take PRACTM 2171 instead.  

**Theory and Composition**  
THRY COM 3110  Analysis of Music from 1900 to Present 2  
THRY COM 3120  Tonal Counterpoint 2  
THRY COM 3130  Advanced Analytical Techniques 2  
THRY COM 3140  Readings in Music Theory 2  
THRY COM 3410  Orchestration 3  
THRY COM 3420  Choral Arranging 2  

**Music History and Literature**  
M H L T 2030  Special Topics in Musicology (taken twice) 6  

**Practicum**  
PRACTM 3521  Conducting II - Instrumental 2  
or PRACTM 3522  Conducting II - Choral  
PRACTM 3280  Score Reading at the Keyboard 1  
PRACTM 4100  Senior Project in Theory/Composition 2-4  

**Applied Music (AP MUS)**  
1 hour every semester in progress toward degree with a minimum of 8 credit hours.  

**Ensemble (EN PER)**  
Must be enrolled every semester in progress toward degree with a minimum of 4 credit hours.  

Total Hours: 36-38  

**Learning Outcomes**  
Upon completion of the program, graduates will:  
- Have technical skills requisite for artistic self-expression (Performance)  
- Understand the common elements and organizational patterns of music and their interaction (Musicianship Skills and Analysis)  
- Have a rudimentary capacity to create original or derivative music (Composition/Improvisation)  
- Have basic knowledge of music history and repertories through the present time (History and Repertory)  
- Be able to work on musical problems by combining their capabilities in performance, aural, verbal and visual analysis; composition/improvisation; history and repertory (Synthesis)  
- Develop requisite knowledge, skills, and disposition needed to engage in scholarly dialogue through research and analysis

Total Hours: 120  

1  INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.  

*PLEASE NOTE:* This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as
the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Music BM, Performance Emphasis

Degree Requirements

Admission to all Music degree programs is by audition to demonstrate musical aptitude and potential, technical proficiency, and seriousness in selecting music as a four-year course of study. In addition to the applied music audition, placement examinations in music theory and music history may be required to confirm students’ prior experience in these areas. Auditions are scheduled from January to May for the fall semester; a limited number are held in December for the spring/winter semester. Students in applied music (private lessons) must pass a junior-standing examination to confirm their level of performance skills for enrollment in AP MUS 3440 – AP MUS 3459 or AP MUS 4440 – AP MUS 4459. This examination is usually taken at the same time as the applied music jury for the fourth semester of enrollment in AP MUS 1440 - AP MUS 1459.

Evidence of sound musicianship, a close acquaintance with an appropriate portion of musical literature, and the ability to bring it to actual performance are required for graduation in all Music degree programs. Students in the B.M., Performance Emphasis fulfill this requirement with junior and senior recitals. Students in all other degree programs fulfill this requirement with a senior recital. In some cases, upon the recommendation of the student's applied teacher, the senior recital (for non-performance majors only) may be replaced by participating in three regularly scheduled student recitals during the last two semesters of applied music study, or by performing for a special panel of faculty members.

General Education Requirements

UMSL’s General education requirements (p. 48) apply to all majors. Courses required for degree programs may not be taken on a satisfactory/unsatisfactory basis. Students must receive at least a C in each music course and maintain a cumulative GPA of 2.5 (music education 2.7) in all music courses to meet degree requirements.

Non-Music majors are encouraged to take music courses (EN PER and MHLT) at the 1000- or 2000-level toward UMSL’s Humanities and Fine Arts general education requirement. Non-Music majors wishing to perform with ensembles (EN PER 1410, University Singers; EN PER 1500, University Orchestra; EN PER 1530, University Wind Ensemble; EN PER 1550, Jazz Orchestra) should contact the ensemble’s director for information about auditions. M H L T 1150, Drumming Cultures of the World; M H L T 1160, Musical Journey through Latin America; M H L T 1170, Musical Journey through the Far East; or M H L T 1180, Musical Journey through Africa will meet the University’s Cultural Diversity study requirement.

Other Requirements

Music majors are required to enroll in an approved ensemble [University Wind Ensemble, University Singers, University Orchestra, or Jazz Orchestra (for Jazz Studies majors)] each semester and to study one applied area progressively each semester of the degree program. Music Education majors are exempt from these requirements during the student teaching semester. For all music majors, the applied lesson requirement consists of a weekly, individual lesson with your instructor, as well as a weekly enrichment activity in pedagogy and literature, which may take the form of a studio class, master class, performances by and for our students, or other experience identified by the department. The following specific ensemble enrollments, depending upon the applied music area, are required:

- Wind and Percussion students—University Wind Ensemble;
- String students—University Orchestra;
- Voice students—University Singers;
- Keyboard and Guitar students—any approved ensemble, but those in the bachelor of music in music education program must successfully audition for and enroll in an ensemble compatible with the teaching certification they are pursuing;
- Instrumental students may be required to participate in additional ensembles to enhance their musical development;
- Jazz Studies majors (any instrument)—Jazz Orchestra.

Majors are required to appear in performance at the department's discretion and to attend a prescribed number of departmental recitals. All music majors whose primary applied area is not piano or organ are required to pass an exam in piano proficiency before graduation. Music education majors must pass this piano proficiency exam prior to student teaching.

The music department may require students to pass a placement test to enroll in the next level course, provided this or an equivalent test is administered to all students seeking to enroll in that course.

Core Curriculum

The following core courses are required for all Music majors:

**Music Theory**

**Total Hours** 38-40

1. Students in Applied Music must pass a junior-standing exam to confirm their level of performance skills for enrollment in AP MUS 4440 - AP MUS 4459.

**Foreign Language Requirement**

Candidates pursuing the performance emphasis area with an applied area in voice must complete two semesters of one foreign language selected from French, German, or Italian.

**Learning Outcomes**

Upon completion of the program, graduates will:

- Have technical skills requisite for artistic self-expression (Performance)
- Understand the common elements and organizational patterns of music and their interaction (Musicianship Skills and Analysis)
- Have a rudimentary capacity to create original or derivative music (Composition/Improvisation)
- Have basic knowledge of music history and repertories through the present time (History and Repertory)
- Be able to work on musical problems by combining their capabilities in performance, aural, verbal and visual analysis; composition/improvisation; history and repertory (Synthesis)

**TOTAL HOURS: 120**

1. INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

2. Courses that meet this requirement are THRY COM 3110 (odd spring), THRY COM 3120 (even spring), THRY COM 3130 (odd fall), and THRY COM 3140 (even fall)

**PLEASE NOTE:** This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Total Hours: 124

1 INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

2 Choose two of the following: THRY COM 3110 (odd spring), THRY COM 3120 (even spring), THRY COM 3130 (odd fall), and THRY COM 3140 (even fall)

PLEASE NOTE: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Music Education MME

Effective Fall of 2018, the Department will no longer accept applicants for the Master of Music Education.

Master of Music Education

The master of music education degree is designed to enable music specialists in grades K-12 to pursue continued professional growth in an emphasis area of their choice.

Admission Requirements

Admission to the program requires a bachelor of music in music education (or equivalent) degree, admission to the Graduate School, and two letters of recommendation. Student should also submit a resume, a statement of purpose, and a 20 - 30 minute video of their teaching directly to the Director of the MME program.

The program requires completion of 30 hours of graduate credit, 20 of which must be earned in residence.

Required Courses and Options:

The minimum 30-hour program includes the following requirements.

Music Education Core (12 credit hours)

- MUS ED 5810 Foundations of Music Education 3
- MUS ED 5830 Contemporary Music Education 3
- MUS ED 5910 Music Education Research 3
- MUS ED 5990 Master's Project in Music Education 3

Music Education Electives (6 credits from following)

- MUS ED 5060 Graduate Workshop in Music Education 1-5
- MUS ED 5510 Course MUS ED 5510 Not Found
- MUS ED 5610 Graduate Choral Methods 3
- MUS ED 5620 Guitar in the Classroom 3
- MUS ED 5710 Course MUS ED 5710 Not Found
- MUS ED 5840 Teaching Music in an Urban Setting 3
- MUS ED 5920 Course MUS ED 5920 Not Found
- PDGOGY 5110 Course PDGOGY 5110 Not Found
- PRACTM 5020 Course PRACTM 5020 Not Found
- PRACTM 5035 Course PRACTM 5035 Not Found
- PRACTM 5210 Graduate Conducting 3
- THRY COM 5110 Scoring and Arranging 3

Education Electives (6 credits from the following) 1

<td>Theory of Music IV</td>
<td>1</td>
</tr>
<tr>
<td>THRY COM 2312</td>
<td>Aural Training IV</td>
<td>1</td>
</tr>
</tbody>
</table>

#### Total Hours

30

Music education methods courses and instrumental techniques courses may not be taken to complete this minor.

Non-keyboard players are required to pass an exam of piano proficiency or equivalent.

A GPA of 2.5 for all music hours is required to complete this minor.

### Neuroscience Undergraduate Certificate

#### Certificate in Neuroscience

The undergraduate Certificate Program in Neuroscience is an interdisciplinary program requiring 20 credits of training in Neuroscience. The Program provides a group of related courses capped by a research experience. The Program is likely to be of particular interest to students who want to pursue graduate or professional training, but it is intended to appeal to any student interested in Neuroscience.

Courses taken for the certificate in the lower division (1000 and 2000 level) may satisfy general education requirements (that is, breadth requirements), if they are approved general education courses. Courses in the upper division (3000 level and above) may satisfy requirements for the student’s major, consistently with the major’s requirements. All required courses must be completed with a “B-”average or higher. Pass/Fail grades to not count.

Most courses required by the Certificate Program in Neuroscience have prerequisites. Some students may satisfy prerequisites by virtue of their prior curriculum. When this is not the case, students are responsible for satisfying the prerequisites.
Requirements

The two entry level courses:

Total Hours 20

1 BIOL 1831 is strongly recommended, especially for those considering taking BIOL 4822 Introduction to Neurosciences towards their Neuroscience Certificate (BIOL 1831 is a prerequisite for BIOL 4822).

2 At least one elective must be taken outside the student’s major.

3 This requires completion of a Directed Research Assistantship with a Neuroscience faculty member within any of the participating departments. The research project must be approved in advance by the undergraduate advisor with the assistance of a committee of Neuroscience faculty. It is expected that this research will lead to a presentation of the research (e.g., at the UM-St. Louis Neuroscience seminar or the Undergraduate Research Symposium).

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Describe the molecular, cellular, and tissue-level organization of the central and peripheral nervous system.
- Understand the properties of cells that make up the nervous system including the propagation of electrical signals used for cellular communication.
- Relate the properties of individual cells to their function in organized neural circuits and systems.
- Explain how the interaction of cells and neural circuits leads to higher level activities such as cognition and behavior.
- Engage in research, generate testable scientific hypotheses, design experiments, and collect, analyze, and interpret data through collaborative research projects, lab work, internships, and coursework.
- Demonstrate critical thinking skills by analyzing and evaluating neuroscience primary literature.
- Effectively communicate scientific information in written and oral formats; prepare and formally present a scientific paper or poster about neuroscience research, including communication of quantitative data in statistics, graphs and tables.
- Create a career development plan that matches an accurate self-assessment of abilities, achievement, motivation and work habits with specific job opportunities in the neurosciences.

Nonprofit Administration Minor

Requirements for Political Science Minors

A general minor in political science can be arranged, as well as specialized minors in eight different subfields of the discipline. Interested students should see a faculty adviser to plan a coherent program of study as a minor field.

Students must achieve a cumulative 2.0 GPA in the political science courses chosen to qualify for the minor. Students may count no more than 3 hours in political science taken on a satisfactory/unsatisfactory basis toward the minor. Students taking an internship POL SCI 3940 may count no more than three hours of the internship toward the minor.

Specific Requirements for the Minor

Nonprofit Organization Management and Leadership Graduate Certificate

Through the Public Policy Administration Program, UMSL offers the Graduate Certificate in Nonprofit Organization Management and Leadership for students who are current professional staff, board members, and other leaders of nonprofit and voluntary organizations, as well as those who plan to work in the field. The NPML certificate is the only nonprofit program in the St. Louis region that has full membership in the Nonprofit Academic Centers Council (NACC). The certificate can be taken by itself or in conjunction with the Master of Public Policy Administration degree or a graduate degree in another field. Course credits earned in the certificate program can be applied to the MPPA, but a separate application to the master’s program is required.

Requirements

The Graduate Certificate in Nonprofit Organization Management and Leadership requires the completion of 18 credit hours. Nine of these include the following core courses:

- **P P ADM/SOC WK 6300** Leadership and Management in Nonprofit Organizations (3)
- **P P ADM/SOC WK 6310** American Philanthropy and Nonprofit Resources Development (3)
- **P P ADM/SOC WK 6311** Staff Management Issues in Nonprofit Organizations (1)
- **P P ADM/SOC WK 6312** Legal Issues in Managing Nonprofit Organizations (1)
- **P P ADM/SOC WK 6313** Financial Issues in Managing Nonprofit Organizations (1)

**Total Hours**: 9

Six hours of electives are to be taken from approved courses in accounting, business administration, economics, management, marketing, political science, psychology, public policy administration, and sociology. A student may choose among these courses or other courses approved by the program director.

Three hours of internship are also required. Students who have significant relevant field experience in the nonprofit sector may request that the internship requirement be waived. To request a waiver, students must submit a written request outlining the student’s professional or managerial field experience with appropriate documentation. Any request for a waiver from the internship requirement must be approved by the program director. Students who receive a waiver must take an additional three hours of electives in lieu of the internship.

Learning Outcomes

- Demonstrate an understanding of theories, concepts and practices relevant to nonprofit administration.
- Assess issues in the nonprofit sector, formulate evidence-based solutions, and communicate them with clarity and coherence.

Nursing BSN

Freshman Guaranteed Clinical Criteria

Applicants to the nursing freshmen guaranteed clinical program will be holistically reviewed using criteria such as high school GPA, ACT test scores, a personal statement, an essay, extra-curricular activities, honors, award recognitions, leadership roles, work/volunteer experiences.

First-time freshmen and applicants with fewer than 24 transferable college credit hours from a regionally accredited college or university and who meet the following minimum criteria may earn a guaranteed clinical space in the Traditional Full-Time Option:

- Admission to the University by completing the UMSL Undergraduate Application
- Minimum ACT score of 24
- Minimum high school GPA of 3.0 (as calculated by UMSL’s Office of Admissions)
- Complete the Traditional BSN Nursing Supplemental Application

Pre-Clinical Transfer Student Admission Criteria

Transfer students who meet the following minimum criteria are eligible to declare Nursing as their major. Such students must still apply competitively for a clinical space during their last semester of general education coursework (see Clinical Admission Criteria below).

- Admission to the University by completing the UMSL Undergraduate Application
- Minimum cumulative GPA of 2.75 (including all transferable courses)

Clinical Admission Criteria

- Admission to the University by completing the UMSL Undergraduate Application
- Complete the Traditional BSN Nursing Supplemental Application.
- Minimum cumulative GPA of 2.75 (including all transferable courses)
- Satisfactory completion of all general education course requirements
- Grade of B- or higher within 5 years of enrollment in the clinical major for the following courses: Chemistry, Anatomy & Physiology I, Anatomy & Physiology II, Microbiology
- Grade of C- or higher in all prerequisite courses except in the case of the above-listed science courses

Clinical spaces are awarded on a competitive and space-available basis for each admission period. Admission to the UMSL and the College of Nursing (as a pre-clinical student) does not guarantee admission into the clinical track of any of the Pre-Licensure BSN Options.
Nursing majors must complete all general education requirements (p. 48) of the university as outlined in this Bulletin.

As part of meeting the university’s general education requirements, the prerequisite courses listed under 1) Natural science course work, 2) Behavioral and social science course work, 3) Information literacy, and 4) Humanities, must be completed prior to beginning the clinical track. See a curriculum planning guide for specific courses and proper sequencing.

1) Natural Science Courses
- BIOL 1131 Human Physiology and Anatomy I 4
- BIOL 1141 Human Physiology and Anatomy II 4
- BIOL 1162 General Microbiology 3
- CHEM 1052 Chemistry for the Health Professions (MOTR CHEM 100) (or equivalent) 4

2) Behavioral and Social Science Courses
- ECON 1000 Economics in Everyday Life (MOTR ECON 100) (or equivalent) 3
- PSYCH 1003 General Psychology (MOTR PSYC 100) 3
- PSYCH 2268 Lifespan Developmental Psychology (MOTR PSYC 200) 3

3) Information literacy
- MATH 1105 Basic Probability and Statistics (or equivalent) 3

4) Humanities
- PHIL 2256 Bioethics 3

Nursing Pre-Major Courses
- NURSE 1000 Cultural Diversity in Healthcare 3
- NURSE 1050 Communication for the Healthcare Professional 3
- NURSE 2050 Pathophysiology 3
- NURSE 2000 Nutrition in Health 3

Total Hours 12

Nursing Major Courses
- NURSE 3000 Health Promotion and Disease Prevention Concepts Across the Lifespan 3
- NURSE 3010 Foundations of Professional Practice 3
- NURSE 3020 Fundamental Concepts of Nursing Care 3
- NURSE 3030 Health Assessment Concepts 3
- NURSE 3040 Concepts of Evidence-Based Practice 3
- NURSE 3050 Concepts of Pharmacology 3
- NURSE 3060 Behavioral Health Concepts 5
- NURSE 3070 Concepts of Caring for Adults I 5
- NURSE 4010 Concepts of Caring for Adults II 5

NURSE 4025 Care of Women and Children Clinical 2
NURSE 4030 Concepts of Caring for Children and Families 3
NURSE 4050 Concepts of Community Focused Care 5
NURSE 4060 Synthesis of Concepts in Professional Nursing 4
NURSE 4065 Synthesis of Professional Practice Immersion Clinical 4
NURSE elective 3

Total Hours 57

All undergraduate nursing students must have access to transportation to their clinical practice experiences. Students must provide their own transportation to and from clinical agencies, which may be scheduled throughout the St. Louis metropolitan area, including Jefferson County and Illinois. Students who must use public transportation must inform their Program Director.

Satisfactory/Unsatisfactory (Pass/Fail) Grading
Undergraduate nursing majors may not take required prerequisite general education or nursing courses on a satisfactory/unsatisfactory basis.

Credit by Transfer Examination
Credit may be granted for selected general studies. Please contact an advisor for information.

Latin Honor Requirements
In accordance with the University’s Latin Honors policy (p. 22), candidates graduating from the College of Nursing in the 2022-2023 Academic Year must meet the following GPA qualifications:

<table>
<thead>
<tr>
<th>Honor Level</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summa Cum Laude</td>
<td>3.969</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>3.899</td>
</tr>
<tr>
<td>Cum Laude</td>
<td>3.759</td>
</tr>
</tbody>
</table>

Learning Outcomes
- Integrate into practice theories and evidence-based concepts from nursing, the arts, sciences, and humanities to provide comprehensive nursing care in a variety of settings.
- Integrate principles of quality care, patient safety, health education, and management of care when organizing, coordinating, and engaging in professional nursing practice across the healthcare continuum.
- Use evidence-based practice to promote health and wellness, manage illness, and prevent injury among individuals, families, communities, and populations.
- Utilize health care technology and information management systems to promote quality care and patient safety.
- Apply knowledge of health care policies in a regulatory environment and their influence on health care access and quality.
- Utilize communication to enhance relationships with patients, families, and communities and collaboration among members of the healthcare team.
- Provide culturally competent, compassionate, holistic care to promote optimal health for diverse individuals, families, communities, and populations.
populations throughout the lifespan in an effort to improve health equity
• Accept responsibility and accountability for decisions and actions based on professional intrapersonal values, ethical and legal obligations, standards of practice, social justice, and economics
• Demonstrate motivation and self-direction in activities that contribute to lifelong personal, professional, and intellectual development
• Synthesize clinical reasoning and problem solving in professional practice

Sample Four Year Plan

Students who were admitted prior to Fall 2018 should follow the plan from the year they were admitted. Four Year plans for each catalog year prior to Fall 2018 can be found in the Archives Section (p. 723).

**Total Hours: 120**

**PLEASE NOTE:** This plan is an example of what an academic plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor. All requirements are subject to change.

### Nursing BSN, Accelerated Curriculum

The UMSL College of Nursing is committed to admitting a diverse group of students who will become nurse leaders responsive to the specific needs of the communities and populations we serve. We value diversity, intellectual discourse and rigor, caring, professionalism, mutual respect and support, innovation, collaboration, and transparency. Applicants will be selected using inclusive and balanced admission criteria that measure their potential in nursing practice, education, research, and scholarship. We measure our success by graduates who become lifelong learners and leaders in their communities and in the profession of nursing.

Applicants to the accelerated nursing clinical program will be holistically reviewed using criteria such as GPA, academic performance in required pre-nursing courses, a personal statement, an essay, extra-curricular activities, honors, award recognitions, leadership roles, and work/volunteer experiences.

### Clinical Admission Criteria: Accelerated BSN

Clinical track spaces are limited and are awarded to qualified students on a competitive basis. Only students who submit the required clinical application by the appropriate deadline will be considered. Applicants must meet the following minimum criteria to be considered for clinical admission. Please note that meeting the following minimum criteria does not guarantee that a student will earn a clinical space in the Accelerated option.

- Admission to the University by completing the UMSL Undergraduate Application
- Submit transcripts from all previous institutions
- An accredited bachelor’s or graduate degree recognized by the University of Missouri-St. Louis
- Minimum cumulative GPA of 3.0 (including all transferable courses)
- Grade of B- or higher within 5 years of clinical enrollment in the following courses: Chemistry, Anatomy & Physiology I, Anatomy & Physiology II, Microbiology
- Grade of C- or higher in Statistics and Human Growth and Development courses
- Complete the Accelerated BSN Program Supplemental Application, which will require:
  - Personal statement indicating reasons for pursuing a nursing degree (no more than two pages)
  - Required essay (directions found in the supplemental application)
  - Resume outlining previous education, work/volunteer experience, extra-curricular activities, leadership roles, honors, and awards
  - Two recommendation forms:
    - Recommenders will need to complete the Recommendation Form and return it to UMSL College of Nursing by emailing it to nursing@umsl.edu or by mailing it to the address listed on the Recommendation Form (email preferred).

Note: Admission criteria are subject to change.

### General Education Course Requirements

**General Education Course Requirements for Students with a Bachelor’s Degree**
Students must have a Bachelor’s Degree or a graduate degree to be admitted to the Accelerated BSN program. Students must also have completed the following courses with a grade of B- or higher within 5 years of clinical enrollment.

<table>

**Total Hours: 53**

All undergraduate nursing students must have access to transportation to their clinical practice experiences. Students must provide their own transportation to and from clinical agencies, which may be scheduled throughout the St. Louis metropolitan area, including Jefferson County and Illinois. Students who must use public transportation must inform their Program Director.

**Satisfactory/Unsatisfactory (Pass/Fail) Grading**

Undergraduate nursing majors may not take required prerequisite general education or nursing courses on a satisfactory/unsatisfactory basis.

**Credit by Transfer Examination**

Credit may be granted for selected general studies. Please contact an advisor for information.

**Latin Honors Requirements**

In accordance with the University’s Latin Honors policy (p. 22), candidates graduating from the College of Nursing in the 2022-2023 Academic Year must meet the following GPA qualifications:

- Summa Cum Laude 3.969
- Magna Cum Laude 3.899
- Cum Laude 3.759

**Learning Outcomes**

- Integrate theories and evidence-based concepts from nursing, the arts, sciences, and humanities to provide comprehensive nursing care in a variety of settings.
- Integrate principles of quality care, patient safety, health education, and management of care when organizing, coordinating, and engaging in professional nursing practice across the healthcare continuum.
- Use evidence-based practice to promote health and wellness, manage illness, and prevent injury among individuals, families, communities, and populations.
- Utilize health care technology and information management systems to promote quality care and patient safety.
- Apply knowledge of health care policies in a regulatory environment and their influence on health care access and quality.
- Utilize communication to enhance relationships with patients, families, and communities and collaboration among members of the healthcare team.
- Provide culturally competent, compassionate, holistic care to promote optimal health for diverse individuals, families, communities, and populations throughout the lifespan in an effort to improve health equity.
- Accept responsibility and accountability for decisions and actions based on professional intrapersonal values, ethical and legal obligations, standards of practice, social justice, and economics.
- Demonstrate motivation and self-direction in activities that contribute to lifelong personal, professional, and intellectual development.
- Synthesize clinical reasoning and problem solving in professional practice.

Nursing BSN, RN to BSN Curriculum

The UMSL College of Nursing is committed to admitting a diverse group of students who will become nurse leaders responsive to the specific needs of the communities and populations we serve. We value diversity, intellectual discourse and rigor, caring, professionalism, mutual respect and support, innovation, collaboration, and transparency. Applicants will be selected using inclusive and balanced admission criteria that demonstrate their potential in nursing practice, education, research, and scholarship. We measure our success by graduates who become lifelong learners and leaders in their communities and in the profession of nursing.

Due to higher education regulation changes, the University of Missouri–St. Louis cannot admit students from all states for online programs. Please see the Center for Teaching and Learning for additional information: http://www.umsl.edu/services/ctl/onlinelearning/state_authorization.html

Admissions Criteria

- Admission to the University by completing the UMSL Undergraduate Application
- Graduate or enrolled for dual enrollment in either an accredited diploma or associate degree program in nursing.
- Evidence of current RN licensure or eligibility for RN licensure if in an associate degree program for dual enrollment.
- Cumulative GPA of 2.5 (4.0 scale) on a minimum of 30 transferable credit hours (excluding nursing course work)

General Education Course Requirements

Nursing majors must complete all general education requirements (p. 48) of the university as outlined in this Bulletin.

As part of meeting the university’s general education requirements, the prerequisite courses listed under 1) Natural Science course work and 2) Behavioral and Social Science course work must be completed prior to beginning the clinical major. See a curriculum planning guide for specific courses and proper sequencing.

Students must be in residence for at least 24 of the last 30 hours or graded credit (exclusive of courses graded on a satisfactory/unsatisfactory basis), except under unusual circumstances, to be decided by the dean.

1) Natural Science course work
9 hours of coursework from the Math/Natural Sciences Explore Area

2) Behavioral and Social Science course work
PSYCH 1003 General Psychology (MOTR PSYC 100) 3

Psychology Elective 3

Learning Outcomes

- Integrate into practice theories and evidence-based concepts from nursing, the arts, sciences, and humanities to provide comprehensive nursing care in a variety of settings.
- Integrate clinical reasoning and problem solving in professional practice.
- Administer culturally competent, compassionate, holistic care to promote healthy outcomes for diverse individuals, families, communities, and populations during all life phases.
- Use evidence-based practices to promote health, manage illness, and prevent injury among individuals, families, communities, and populations.
- Utilize communication skills to enhance relationships with patients and families and collaboration among members of the health care team.
- Assume responsibility and accountability for decisions and actions based on professional intrapersonal values, ethical and legal obligations, standards of practice, social justice, and economics.
• Integrate principles of health education, management, leadership, quality care, and patient safety when organizing, coordinating, and engaging in professional practice.
• Demonstrate knowledge of health care policies and finance in a regulatory environment and their influence on health care access and quality.
• Exhibit motivation and self-direction in activities that contribute to lifelong personal, professional, and intellectual development.
• Utilize health care technology and information management systems to promote quality care and patient safety.

Nursing DNP, Acute Care Pediatric Nurse Practitioner Emphasis

The UMSL College of Nursing is committed to admitting a diverse group of students who will become nurse leaders responsive to the specific needs of the communities and populations we serve. We value diversity, intellectual discourse and rigor, caring, professionalism, mutual respect and support, innovation, collaboration, and transparency. Applicants will be selected using inclusive and balanced admission criteria that measure their potential in nursing practice, education, research, and scholarship. We measure our success by graduates who become lifelong learners and leaders in their communities and in the profession of nursing.

Applicants to the DNP program will be holistically reviewed using criteria such as GPA, a personal statement, an essay, work/volunteer experiences, professional activities, leadership roles, honors, award recognitions, etc.

Due to higher education regulation changes, the University of Missouri–St. Louis cannot admit students from all states for online programs. Please see the Center for Teaching and Learning for additional information: http://www.umsl.edu/services/ctl/onlinelearning/state_authorization.html

Admission Criteria

BSN to DNP

The post-baccalaureate entry point is designed for registered nurses who have completed a Bachelor’s of Science in Nursing degree and desire to obtain a doctoral degree in nursing practice. The student will develop the knowledge, skills, and expertise to become clinical scholars, clinical experts, and transformational leaders who will function at the highest level of nursing practice.

General Admission Criteria:

• Admission to the University by completing the UMSL Graduate School application
• Completion of College of Nursing supplemental application
• BSN from a nationally accredited nursing program
• BSN 3.0 GPA (calculated on last 60 hours of BSN coursework)
• Current professional licensure
• Completion of an undergraduate general statistics course

Direct Admit BSN to DNP Option

Direct admission to the BSN to DNP program is selective and open to students who have earned a BSN from UMSL or completed the UMSL CON Externship in Nursing Summer program and earned a BSN degree from a nationally accredited nursing program.

Admission Criteria:

Admission to the University by completing the UMSL Graduate School application

• Completion of College of Nursing supplemental application
• BSN from UMSL or completed the UMSL CON Externship in Nursing Summer Program and earned a BSN degree from a nationally accredited nursing program
• 3.75 GPA in last 60 hours of BSN coursework

Once admitted, students must maintain a 3.0 GPA.

Spaces in the BSN to DNP program are limited and are first awarded to guaranteed applicants. Based on space availability, applications will be accepted until the class is full.

Degree Requirements

Core Content for BSN to DNP program

Completion of the BSN to DNP program has seven program emphasis areas: six Nurse Practitioner emphasis areas and a Leadership in Healthcare Systems emphasis area. All programs include coursework in Foundational Concepts, Clinical Expertise, and Integration of Practice.

Foundational Concepts

| NURSE 6111 | Healthcare Systems | 3 |
| NURSE 6130 | Research, Interventions and Evidence-Based Practice | 3 |
| NURSE 6424 | Social Determinants of Health for Underserved Populations | 3 |
| NURSE 7211 | Biostatistics I | 3 |
| NURSE 7215 | Evidence-Based Practice For the DNP | 3 |
| NURSE 7220 | Leadership in Practice | 3 |
NURSE 7230  Epidemiology  3
NURSE 7240  Health Informatics  3
NURSE 7260  Program Evaluation and Quality Management in Healthcare  3
NURSE 7443  Healthcare Policy and Economics  3
Nursing elective  3
Total Hours  33

Clinical Expertise

NURSE 6518  Pathophysiology for Advanced Nursing Practice  3
NURSE 6520  Pharmacology For Advanced Nursing Practice  3
NURSE 6524  Health Assessment For Advanced Nursing Practice  3
NURSE 6530  Clinical Diagnostics for Advanced Nursing Practice  3
Total Hours  12

Integration of Practice

NURSE 6954  Advanced Practice Nursing: Residency I  2
or NURSE 6934  Leadership in Population Health and Healthcare Systems Residency I
NURSE 6955  Advanced Practice Nursing: Residency II  2
or NURSE 6935  Leadership in Population Health and Healthcare Systems Residency II
NURSE 7954  Advanced Practice Nursing: Residency III  2
or NURSE 7934  Leadership in Population Health and Healthcare Systems Residency III
NURSE 7291  DNP Capstone I  2
NURSE 7292  DNP Capstone II  2
NURSE 7293  DNP Capstone III  2
Total Hours  14

1 All students must complete a minimum of 8 hours of residency. One credit hour is equivalent to 75 residency hours.

Prior to completion of the DNP program, students will complete a clinical scholarship project that satisfies the graduate school requirement.

Specific Requirements for the Emphasis Area

For all Nurse Practitioner emphasis areas, a student must complete both focus content above and specialty courses based on area of specialty as listed below.

Diagnosis and Management Foundations

NURSE 6723  Foundations of Pediatric Health  3

Diagnosis and Management I

NURSE 6743  Pediatric Health I: Acute and Chronic Care  4

Diagnosis and Management II

NURSE 6745  Pediatric Health II: Complex Acute Care  4
Total Hours  11

Total credit hours in degree program: 70

Learning Outcomes

- Integrate informatics, research, and ethical/legal principles to provide excellence in advanced clinical nursing practice.
- Translate research to improve healthcare delivery and health outcomes.
- Generate strategies for multidisciplinary leadership through analysis of critical indicators and/or healthcare delivery systems to optimize patient care and safety.
- Demonstrate an understanding of strategies to influence health policy-making to improve health outcomes, shape healthcare delivery, and remove barriers to healthcare.
- Evaluate approaches to practice utilizing both nursing theories and other health system theories.

Nursing DNP, Adult-Gerontology Nurse Practitioner Emphasis

The UMSL College of Nursing is committed to admitting a diverse group of students who will become nurse leaders responsive to the specific needs of the communities and populations we serve. We value diversity, intellectual discourse and rigor, caring, professionalism, mutual respect and support, innovation, collaboration, and transparency. Applicants will be selected using inclusive and balanced admission criteria that measure their potential in nursing practice, education, research, and scholarship. We measure our success by graduates who become lifelong learners and leaders in their communities and in the profession of nursing.

Applicants to the DNP program will be holistically reviewed using criteria such as GPA, a personal statement, an essay, work/volunteer experiences, professional activities, leadership roles, honors, award recognitions, etc.

Due to higher education regulation changes, the University of Missouri–St. Louis cannot admit students from all states for online programs. Please see the Center for Teaching and Learning for additional information: http://www.umsl.edu/services/ctl/onlinelearning/state_authorization.html

**Direct Admit BSN to DNP Option**

Direct admission to the BSN to DNP program is selective and open to students who have earned a BSN from UMSL or completed the UMSL CON Externship in Nursing Summer program and earned a BSN degree from a nationally accredited nursing program.

**Admission Criteria:**

Admission to the University by completing the UMSL Graduate School application

• Completion of College of Nursing supplemental application
• BSN from UMSL OR completed the UMSL CON Externship in Nursing Summer Program and earned a BSN degree from a nationally accredited nursing program
• 3.75 GPA in last 60 hours of BSN coursework

Once admitted, students must maintain a 3.0 GPA.

Spaces in the BSN to DNP program are limited and are first awarded to guaranteed applicants. Based on space availability, applications will be accepted until the class is full.

**Degree Requirements**

**Core Content for BSN to DNP program**

Completion of the BSN to DNP program has seven program emphasis areas: six Nurse Practitioner emphasis areas and a Leadership in Healthcare Systems emphasis area. All programs include coursework in Foundational Concepts, Clinical Expertise, and Integration of Practice.

**Foundational Concepts**

**Learning Outcomes**

• Integrate informatics, research, and ethical/legal principles to provide excellence in advanced clinical nursing practice.
• Translate research to improve healthcare delivery and health outcomes.
• Generate strategies for multidisciplinary leadership through analysis of critical indicators and/or healthcare delivery systems to optimize patient care and safety.
• Demonstrate an understanding of strategies to influence health policy-making to improve health outcomes, shape healthcare delivery, and remove barriers to healthcare.
• Evaluate approaches to practice utilizing both nursing theories and other health system theories.

**Nursing DNP, Family Nurse Practitioner Emphasis**

The UMSL College of Nursing is committed to admitting a diverse group of students who will become nurse leaders responsive to the specific needs of the communities and populations we serve. We value diversity, intellectual discourse and rigor, caring, professionalism, mutual respect and support, innovation, collaboration, and transparency. Applicants will be selected using inclusive and balanced admission criteria that measure their potential in nursing practice, education, research, and scholarship. We measure our success by graduates who become lifelong learners and leaders in their communities and in the profession of nursing.

Applicants to the DNP program will be holistically reviewed using criteria such as GPA, a personal statement, an essay, work/volunteer experiences, professional activities, leadership roles, honors, award recognitions, etc.

Due to higher education regulation changes, the University of Missouri–St. Louis cannot admit students from all states for online programs. Please see the Center for Teaching and Learning for additional information: [http://www.umsl.edu/services/ctl/onlinelearning/state_authorization.html](http://www.umsl.edu/services/ctl/onlinelearning/state_authorization.html)

**Admission Criteria**

**BSN to DNP**

The post-baccalaureate entry point is designed for registered nurses who have completed a Bachelor’s of Science in Nursing degree and desire to obtain a doctoral degree in nursing practice. The student will develop the knowledge, skills, and expertise to become clinical scholars, clinical experts, and transformational leaders who will function at the highest level of nursing practice.

**General Admission Criteria:**

• Admission to the University by completing the UMSL Graduate School application
• Completion of College of Nursing supplemental application
• BSN from a nationally accredited nursing program
• BSN 3.0 GPA (calculated on last 60 hours of BSN coursework)
• Current professional licensure
• Completion of an undergraduate general statistics course

**Direct Admit BSN to DNP Option**

Direct admission to the BSN to DNP program is selective and open to students who have earned a BSN from UMSL or completed the UMSL CON Externship in Nursing Summer program and earned a BSN degree from a nationally accredited nursing program.

**Admission Criteria:**

1 All students must complete a minimum of 8 credit hours of residency.

### Learning Outcomes

- Integrate informatics, research, and ethical/legal principles to provide excellence in advanced clinical nursing practice.
- Translate research to improve healthcare delivery and health outcomes.
• Generate strategies for multidisciplinary leadership through analysis of critical indicators and/or healthcare delivery systems to optimize patient care and safety.
• Demonstrate an understanding of strategies to influence health policy-making to improve health outcomes, shape healthcare delivery, and remove barriers to healthcare.
• Evaluate approaches to practice utilizing both nursing theories and other health system theories.

Nursing DNP, MSN to DNP Curriculum

The post master’s entry point is designed for graduate-prepared nurses who want to develop the knowledge, skills, and expertise to become clinical scholars, transformational leaders, and function at the highest level of nursing practice while obtaining a terminal degree in nursing practice.

Admission Criteria

• Admission to the University by completing the UMSL Graduate School application
• Completion of College of Nursing supplemental application
• MSN from a nationally accredited nursing program
• MSN 3.0 GPA
• Current professional licensure
• Completion of an undergraduate general statistics course or graduate level general statistics course

See the UMSL College of Nursing’s website for the application process and specific program deadlines.

Prior to completion of the DNP program, students will complete a clinical scholarship project that satisfies the graduate school requirement.

Learning Outcomes

• Integrate informatics, research, and ethical/legal principles to provide excellence in advanced clinical nursing practice.

Nursing DNP, Primary Pediatric Nurse Practitioner Emphasis

The UMSL College of Nursing is committed to admitting a diverse group of students who will become nurse leaders responsive to the specific needs of the communities and populations we serve. We value diversity, intellectual discourse and rigor, caring, professionalism, mutual respect and support, innovation, collaboration, and transparency. Applicants will be selected using inclusive and balanced admission criteria that measure their potential in nursing practice, education, research, and scholarship. We measure our success by graduates who become lifelong learners and leaders in their communities and in the profession of nursing.

Applicants to the DNP program will be holistically reviewed using criteria such as GPA, a personal statement, an essay, work/volunteer experiences, professional activities, leadership roles, honors, award recognitions, etc.

Due to higher education regulation changes, the University of Missouri–St. Louis cannot admit students from all states for online programs. Please see the Center for Teaching and Learning for additional information: [http://www.umsl.edu/services/ctl/onlinelearning/state_authorization.html](http://www.umsl.edu/services/ctl/onlinelearning/state_authorization.html)

Admission Criteria

BSN to DNP

The post-baccalaureate entry point is designed for registered nurses who have completed a Bachelor’s of Science in Nursing degree and desire to obtain a doctoral degree in nursing practice. The student will develop the knowledge, skills, and expertise to become clinical scholars, clinical experts, and transformational leaders who will function at the highest level of nursing practice.

General Admission Criteria:

• Admission to the University by completing the UMSL Graduate School application
• Completion of College of Nursing supplemental application
• BSN from a nationally accredited nursing program
• BSN 3.0 GPA (calculated on last 60 hours of BSN coursework)
• Current professional licensure
• Completion of an undergraduate general statistics course

Direct Admit BSN to DNP Option

Direct admission to the BSN to DNP program is selective and open to students who have earned a BSN from UMSL or completed the UMSL CON Externship in Nursing Summer program and earned a BSN degree from a nationally accredited nursing program.
Admission Criteria:

Admission to the University by completing the UMSL Graduate School application
- Completion of College of Nursing supplemental application
- BSN from UMSL or completed the UMSL CON Externship in Nursing Summer Program and earned a BSN degree from a nationally accredited nursing program
- 3.75 GPA in last 60 hours of BSN coursework

Once admitted, students must maintain a 3.0 GPA.

Spaces in the BSN to DNP program are limited and are first awarded to guaranteed applicants. Based on space availability, applications will be accepted until the class is full.

Degree Requirements

Core Content for BSN to DNP program

Completion of the BSN to DNP program has seven program emphasis areas: six Nurse Practitioner emphasis areas and a Leadership in Healthcare Systems emphasis area. All programs include coursework in Foundational Concepts, Clinical Expertise, and Integration of Practice.

Learning Outcomes

- Integrate informatics, research, and ethical/legal principles to provide excellence in advanced clinical nursing practice.
- Translate research to improve healthcare delivery and health outcomes.
- Generate strategies for multidisciplinary leadership through analysis of critical indicators and/or healthcare delivery systems to optimize patient care and safety.
- Demonstrate an understanding of strategies to influence health policy-making to improve health outcomes, shape healthcare delivery, and remove barriers to healthcare.
- Evaluate approaches to practice utilizing both nursing theories and other health system theories.

Nursing DNP, Psychiatric Mental Health Nurse Practitioner Emphasis

The UMSL College of Nursing is committed to admitting a diverse group of students who will become nurse leaders responsive to the specific
needs of the communities and populations we serve. We value diversity, intellectual discourse and rigor, caring, professionalism, mutual respect and support, innovation, collaboration, and transparency. Applicants will be selected using inclusive and balanced admission criteria that measure their potential in nursing practice, education, research, and scholarship. We measure our success by graduates who become lifelong learners and leaders in their communities and in the profession of nursing.

Applicants to the DNP program will be holistically reviewed using criteria such as GPA, a personal statement, an essay, work/volunteer experiences, professional activities, leadership roles, honors, award recognitions, etc.

Due to higher education regulation changes, the University of Missouri–St. Louis cannot admit students from all states for online programs. Please see the Center for Teaching and Learning for additional information: http://www.umsl.edu/services/ctl/onlinelearning/state_authorization.html

**Admission Criteria**

**BSN to DNP**

The post-baccalaureate entry point is designed for registered nurses who have completed a Bachelor’s of Science in Nursing degree and desire to obtain a doctoral degree in nursing practice. The student will develop the knowledge, skills, and expertise to become clinical scholars, clinical experts, and transformational leaders who will function at the highest level of nursing practice.

**General Admission Criteria:**

- Admission to the University by completing the UMSL Graduate School application
- Completion of College of Nursing supplemental application
- BSN from a nationally accredited nursing program
- BSN 3.0 GPA (calculated on last 60 hours of BSN coursework)
- Current professional licensure
- Completion of an undergraduate general statistics course

**Direct Admit BSN to DNP Option**

Direct admission to the BSN to DNP program is selective and open to students who have earned a BSN from UMSL or completed the UMSL CON Externship in Nursing Summer program and earned a BSN degree from a nationally accredited nursing program.

**Admission Criteria:**

Admission to the University by completing the UMSL Graduate School application

- Completion of College of Nursing supplemental application
- BSN from UMSL OR completed the UMSL CON Externship in Nursing Summer Program and earned a BSN degree from a nationally accredited nursing program
- 3.75 GPA in last 60 hours of BSN coursework

Once admitted, students must maintain a 3.0 GPA.

Spaces in the BSN to DNP program are limited and are first awarded to guaranteed applicants. Based on space availability, applications will be accepted until the class is full.

**Degree Requirements**

**Core Content for BSN to DNP program**

Completion of the BSN to DNP program has seven program emphasis areas: six Nurse Practitioner emphasis areas and a Leadership in Healthcare Systems emphasis area. All programs include coursework in Foundational Concepts, Clinical Expertise, and Integration of Practice.

**Foundational Concepts**

Diagnosis and Management I
NURSE 6739  Adult Health I  4

Diagnosis and Management II
NURSE 6740  Adult Health II  4
Total Hours  11

Total number of hours in degree program: 70

Learning Outcomes

- Integrate informatics, research, and ethical/legal principles to provide excellence in advanced clinical nursing practice.
- Translate research to improve healthcare delivery and health outcomes.
- Generate strategies for multidisciplinary leadership through analysis of critical indicators and/or healthcare delivery systems to optimize patient care and safety.
- Demonstrate an understanding of strategies to influence health policy-making to improve health outcomes, shape healthcare delivery, and remove barriers to healthcare.
- Evaluate approaches to practice utilizing both nursing theories and other health system theories.

Nursing PhD
Applicants to the Ph.D. program will be holistically reviewed using criteria such as GPA, a personal statement, an essay, work/volunteer experiences, professional activities, leadership roles, honors, award recognitions, etc.

For those not residing in Missouri or non-Missouri residents: Prospective students are responsible for reviewing the NC-SARA state authorizations page now and throughout their program to see if the UMSL PhD program is authorized in the state in which they reside. https://online.missouri.edu/about/state-authorization.

Admission Criteria

- Admission to the University by completing the UMSL Graduate School Application
- Completion of the College of Nursing supplemental application
- Graduation from a nationally accredited baccalaureate or master's nursing program with 3.25 minimum GPA (4.0 scale)
- Completion of a basic undergraduate statistics course

International applicants must meet minimum requirements on tests of written and spoken English (TOEFL, Minimum iBT score of 79 or better is desired). International students must also apply through the International Student Services Office.

See the UMSL College of Nursing's website for the application process and specific program deadlines.

Degree Requirements
While each program of study is individualized, BSN to Ph.D. students complete a minimum of 60 credit hours of graduate-level course work and an additional 12 credit hours of dissertation, which equal the 72 total credit hours required for the Ph.D. program. MSN to Ph.D. students complete a minimum of 45 post-MSN credit hours and an additional 12 credit hours of dissertation. These 57 credit hours, in addition to 15 credit hours earned from Master’s level work, equal the 72 credit hours required for a Ph.D.

Nursing Science, Theory, and Discipline of Nursing:

NURSE 6424  Social Determinants of Health for Underserved Populations  3
NURSE 7200  State of the Science in Nursing Research and Practice  3
NURSE 7403  Development of the Nurse Scientist  3
NURSE 7443  Healthcare Policy and Economics  3
NURSE 7481  Development of Nursing Science and Theory  3
NURSE 7491  Advanced Nursing Theory Development and Validation  3

Total Hours  18

Nursing Research Methods:
NURSE 7211  Biostatistics I  3
NURSE 7488  Introduction to Qualitative Research Methodologies and Methods  3
NURSE 7212  Biostatistics II  3
NURSE 7490  Advanced Nursing Research Designs and Methods  3
NURSE 7495  Mixed Methods Research in Health Care  3

Select one of the following:
NURSE 7497  Design, Implementation and Evaluation of Health Interventions  3
NURSE 7213  Biostatistics III - Structural Equation Modeling  3
NURSE 7496  Seminar in Advanced Qualitative Research Methods  3

Total Hours  18

Cognates:
All Ph.D. students (BSN to Ph.D. and MSN to Ph.D.) are required to take a minimum of 9 credit hours of cognates in the related area of research ¹. The advisor must approve the cognate to ensure it meets the College of Nursing guidelines.

¹ BSN to Ph.D. students must also take 6 credit hours of electives.

Dissertation:
NURSE 7499  Dissertation Research  12

Additional Required Courses for BSN to Ph.D. Students:
NURSE 6111  Healthcare Systems  3
NURSE 6130  Research, Interventions and Evidence-Based Practice  3
NURSE 7220  Leadership in Practice  3

Total Hours  9

PhD Program Learning Outcomes
• Develop expertise and knowledge to establish a program of research & scholarship.
• Translate nursing research into practice & policy to improve health & healthcare systems.
• Provide leadership to effect change in healthcare practice, policy, & education issues by collaboration & partnerships.
• Collaborate effectively with interdisciplinary teams.

### Organizational Leadership BA, Community Studies Emphasis

The Organizational Leadership major is designed to provide adult students with the knowledge, skills, and credentials necessary to advance in a rapidly changing workplace. This program will help students understand theoretical and practical aspects of leadership across disciplines, while allowing them to focus on a specific emphasis area that interests them.

This program is most appropriate for students who have completed at least 40 transferable credit hours at the undergraduate level or have been awarded an A.A. or A.S. degree (or A.A.S. degree with a general education emphasis). Students who do not have previous working experience and substantial transferred credits should consult with an advisor to determine if this program is the correct fit.

### General Education Requirements

Majors must satisfy the university and college general education requirements (p. 48). The foreign language requirement for a B.A. must also be satisfied.

H. Social Justice
Organizational Leadership BA, Health Communication Emphasis

The Organizational Leadership major is designed to provide adult students with the knowledge, skills, and credentials necessary to advance in a rapidly changing workplace. This program will help students understand theoretical and practical aspects of leadership across disciplines, while allowing them to focus on a specific emphasis area that interests them.

This program is most appropriate for students who have completed at least 40 transferable credit hours at the undergraduate level or have been awarded an A.A. or A.S. degree (or A.A.S. degree with a general education emphasis). Students who do not have previous working experience and substantial transferred credits should consult with an advisor to determine if this program is the correct fit.

General Education Requirements

Majors must satisfy the university and college general education requirements (p. 48). The foreign language requirement for a B.A. must also be satisfied.

Total Hours: 12

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Communicate personal finance content clearly.
- Use the national financial literacy standards in teaching personal finance.
- Evaluate the quality and usefulness of available personal finance teaching and learning materials.
- Apply strategies for teaching and learning personal finance.

Philosophy BA

Philosophy is about hard questions: Are we free? Is there a God? What is knowledge? What should I do with my life? In addressing these questions, philosophy develops your skills in thinking, analysis, writing, argumentation and critical reading. Studying philosophy makes you more open-minded: you’ll encounter the ideas of people that have lived lives very different from yours, and you’ll be impressed by them. Philosophy is enormously interesting and rewarding. If anyone ever asks you “why study philosophy” you’ll answer “why haven’t you started yet?”

The undergraduate major in philosophy requires 30 hours of philosophy coursework. A minimum of 18 hours in Philosophy must be taken from the UMSL Department of Philosophy. Courses above the 3000-level taken elsewhere do not count toward the major. Philosophy majors must complete all required courses (under Course Requirements) with a grade of “C-” or higher and maintain a 2.0 GPA for all their Philosophy coursework.

General Education Requirements

Majors must meet the university and college general education requirements. Candidates for the B.A. degree may take any foreign language to meet the foreign language requirement. Students who double major with a B.A. in Philosophy and a B.S. degree in Biology, Biochemistry and Biotechnology, Chemistry, Computer Science, Mathematics, or Physics may waive the foreign language requirement.

Course Requirements

**History of Philosophy**

Select one of the following:

<table>

Total Hours: 30
Departmental Honors

Majors with a 3.2 or higher grade point average in all courses may, with the department’s consent, earn departmental honors by:

1. Taking , Introduction to Formal Logic;
2. Completing at least 3 hours of PHIL 4450, Special Readings in Philosophy;
3. Submitting an acceptable thesis before the end of the senior year.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Recall a broad range of philosophers and philosophies in both western and non-western traditions and understand their interrelations and historical significance
- Demonstrate an ability to read and engage critically with historical and contemporary philosophical texts
- Demonstrate an ability to apply the distinctive methods of philosophy by reconstructing philosophical arguments and deliberating rationally over their merits
- Understand fundamental moral theories and demonstrate an ability to apply them to ethical problems and practical pursuits
- Demonstrate competence with formal reasoning tools such as syllogistic logic, propositional logic, quantificational logic, or probability theory and show an ability to apply those to tools in philosophical and everyday contexts
- Apply philosophical concepts, analytical skills, and critical thinking to disciplines and issues outside of philosophy
- Create and defend their own philosophical views, both by writing in a clear and persuasive style and in oral discussion with other students, faculty and members of the community
- Apply research skills, including an ability to work with primary and secondary literature, in writing argumentative philosophical papers in a chosen area of advanced study

Philosophy BA/MA Dual Degree Program

Requirements

The Combined B.A./M.A. Program in Philosophy provides an opportunity for students of recognized academic ability and educational maturity to fulfill integrated requirements of undergraduate and master’s degree programs in three years from the beginning of their junior year. When all the requirements of the B.A./M.A. program have been completed, students will be awarded both the B.A. and M.A. degrees. With a carefully designed program, a student can earn both degrees within as few as ten semesters.

The Combined Program requires a minimum of 138 university credit hours, of which at least 30 must be at the upper division level course numbers in the 4000-5999 range (excluding PHIL 5495). In qualifying for the B.A., students must meet all university and college requirements, including all the requirements of the regular undergraduate major in philosophy described above. Students will normally take PHIL 3360: Formal Logic and two courses in the 3301-3307: History of Philosophy sequence in their junior years, along with electives. Any courses still needed to satisfy college foreign language and expository writing requirements would also be taken during this year. The Senior Capstone Requirement and more specialized courses are taken in the senior year. In the fifth year, students take advanced electives and such required courses as are needed to fulfill remaining university, Graduate School, and departmental requirements for the M.A. This includes satisfactory completion of 30 graduate credit hours, at least 18 of which must be in courses numbered above 5000 and among which must be at least three in each of the four subject areas listed for the regular M.A. program, and one of which must be PHIL 5400: Proseminar in Philosophy. Up to 12 graduate credit hours may be applied simultaneously to both the B.A. and M.A. requirements. In addition to the above coursework, students must also write a thesis, in which case at least three hours must be taken in PHIL 5495. Students should apply to the Graduate Committee for admission to the Combined B.A./M.A. Program in Philosophy the semester they will complete sixty undergraduate credit hours or as soon thereafter as possible. It is also recommended that students complete the foreign language requirement and the junior-level writing requirement before
applying. A cumulative grade point average of 3.0 or higher and three letters of recommendation from faculty are required for consideration.

Students will be admitted to the Combined Program under provisional status until they have completed fifteen credit hours in it with a grade point average of 3.0 or higher. After the completion of the provisional period, and with the recommendation of the Graduate Committee, students can be granted full admission into the program. Students must maintain a grade point average of 3.0 or higher throughout the Combined Program. Students who officially withdraw from the Combined Program who have successfully completed all the requirements for the B.A. degrees will be awarded the B.A. degree.

Philosophy Requirements for Students in the 2+3 Program

1. To be taken in the junior year (after 60 credits completed):
   Select four courses (12 credit hours) from the following:
   a. PHIL 3360: Formal Logic
   b. Two courses in the History of Philosophy, each at the 2000 level or above.
   c. One additional Philosophy course, at the 2000 level or above.

2. To be taken in the senior year (after 90 credits completed):
   PHIL 4445 or PHIL 4440 or PHIL 3340
   Metaphysics
   Theories of Knowledge
   Knowledge and Reality

   Two History courses, each at the upper division 6
   One course from the PHIL 4470-PHIL 4487 sequence 3
   Select one of the following: 3
   PHIL 4430 Social and Political Philosophy
   PHIL 4435 Classical Ethical Theory
   PHIL 4438 Recent Ethical Theory

   Total Hours 15

3. Graduate level courses to be taken in the final year of the program (after 90+ credits completed):
   Six courses (18 credit hours)
   a. At least five of these courses must be at or above the 5000 level.
   b. Courses must be selected so that the student has taken at least one and preferably two courses from each of the four subject areas in the course of completing the 2 + 3 program:
      - Value Theory
      - History of Philosophy
      - Logic/Philosophy of Science
      - Epistemology/Metaphysics
   c. PHIL 5400: Proseminar in Philosophy

Philosophy MA

Admission Requirements

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL Bulletin. Students are considered for admission to the graduate program in Philosophy only after they have formally applied for admission through the Graduate School. Applications are completed on-line. In addition to the application students must also submit:

- Transcripts of undergraduate study.
- Writing sample, preferably around 15 pages.
- Three letters of recommendation.
- Personal statement explaining one’s interest in the program.
- GRE scores (strongly recommended although not required).

Degree Requirements

To earn a M.A. in philosophy, students must complete at least 30 hours of graduate-level course work. In addition, students must write a thesis, for which they must take three to six credit hours of Thesis Research. Entering students must demonstrate a competence in logic, either by having passed the relevant course prior to admission or by taking PHIL 5561: Graduate Formal Logic here at UMSL. Students should take PHIL 5400: Proseminar in Philosophy in the first year of residency. At least two-thirds of the course work must be completed in residence at UMSL. In addition, the courses taken are subject to two distribution requirements:

1. At least half of the courses must be at the 5000 level.
2. Two courses (6 credit hours) must be chosen from each of the following four subject areas:
   - Value Theory
   - History of Philosophy
   - Logic/Philosophy of Science
   - Epistemology/Metaphysics

Cooperative arrangement with Saint Louis University

The strengths of the UMSL Department of Philosophy are complemented by those of the Saint Louis University Philosophy Department, which has strengths in the history of philosophy as well as in philosophy of religion. To enhance students’ opportunities for instruction and expertise, the two departments have worked out a cooperative arrangement that permits graduate philosophy students on each campus to take up to four courses at the partner institution. In any given semester, UMSL graduate students must take at least half of their courses at their home institution. Students admitted to the M.A. program on a probationary basis must take all their courses at UMSL during their first semester.

Expected Learning Outcomes

- Acquire advanced knowledge of traditional philosophical issues in the western tradition.
- Develop critical thinking skills based on knowledge of the standards governing logical reasoning.
- Acquire familiarity with philosophical issues that arise in some other disciplines (e.g. biology, art, education, etc.).
- Acquire a basic understanding of ethical principles and their role in resolving ethical disputes.
- Acquire the knowledge and skills required to write a paper identifying a philosophical issue and presenting arguments supporting a thesis for resolving it.

Philosophy Minor

Requirements

The undergraduate minor in philosophy requires any five philosophy courses, at least three of which must be taken at the 3000 level or higher. Students with particular interests are encouraged to use the tracks above to organize their minor. At least 6 hours of course work for the minor at the
A GPA of 2.0 or better is required in courses presented for the minor. Prospective minors are encouraged to consult with members of the department for advice in planning an appropriate sequence of courses.

Learning Outcomes
An ideal graduate with a Minor in Philosophy will:

- Be familiar with a range of philosophers and philosophies and understand their interrelations and historical significance.
- Demonstrate an ability to read and engage critically with historical and contemporary philosophical texts.
- Demonstrate an ability to apply the distinctive methods of philosophy by reconstructing philosophical arguments and deliberating rationally over their merits.
- Apply conceptual understanding and critical thinking in writing argumentative essay in a clear and persuasive style in some chosen area of advanced study.

Philosophy of Science and Technology Minor

The Minor in Philosophy of Science and Technology (PST) is an interdisciplinary program requiring a minimum of 18 credits in PST.

All required courses must be completed with a “C” or higher. The satisfactory/unsatisfactory option may not be used. No transfer courses may be used towards the PST Minor. A minimum of 12 hours must be taken at 2000 and above with 9 of those hours being at 3000 or above. Courses in the upper division may satisfy requirements for the student’s major, consistently with the major’s requirements.

Physical Education BSEd PK-12 Emphasis

Through this degree teacher candidates are prepared to effectively teach health and physical education in K-12 settings. The requirements are listed below.

Degree Requirements
B.S.Ed. degree candidates must complete the following General Education courses required by the College of Education and the Missouri Department of Elementary and Secondary Education.

General Education and University Requirements:

CORE AREAS:

First Year Writing
ENGL 1100 | First-Year Writing (MOTR ENGL 200)

Math Proficiency (requirement varies by program)
MATH 1030 | College Algebra (MOTR MATH 130)

or MATH 1020 | Contemporary Mathematics (MOTR MATH 120)

or MATH 1021 | Choice and Chance

or MATH 1025 | Geometry in the Real World

or MATH 1045 | PreCalculus (MOTR MATH 150)

Communication Proficiency
EDUC 2222 | Interpretation: Connecting Audiences and Meaning
or COMM 1040  Introduction to Public Speaking (MOTR COMM 110)

Information Literacy
ED TECH 2230  Information Literacy

American History or Government
HIST 1001  American Civilization to 1865 (MOTR HIST 101)
or HIST 1002  American Civilization 1865 to Present (MOTR HIST 102)

EXPLORE AREAS:

Humanities and Fine Arts
Three courses from two of the following fields: art, foreign language, music (excluding applied music), philosophy, theater, dance, and literature.

Social Science
ED PSY 2212  Child and Adolescent Development
POL SCI 1100  Introduction to American Politics (MOTR POSC 101)

One additional 1000-2000 level course in Social Science Explore Area

Math and Life/Natural Sciences
BIOL 1012  General Biology: The Science of Life (MOTR BIOL 100)
PHYSICS 1001  How Things Work (MOTR PHYS 100)

One additional 1000-2000 level course in Math and Life/Natural Sciences Explore Area

ADDITIONAL UNIVERSITY REQUIREMENT
ENGL 3100  Junior-Level Writing

Program Requirements

Beginning with those students graduating in May, 2017 and receiving teacher certification, the Missouri Department of Elementary and Secondary Education requires a 3.0 GPA in professional education courses, a 3.0 GPA in the teaching content field, and a 2.75 overall GPA.

Professional Education courses must be completed with a grade of C or better (a grade of C- or below is unacceptable).

Students must pass the required DESE certification assessments to receive the B.S.Ed. degree.

B.S.Ed. and B.A. degrees with certification candidates must complete the following:

Introduction to Education
TCH ED 1000  Building Community, Culture, and Learning in Education 1
TCH ED 1001  Early Clinical Experience: Community Agency 1

Level I: Exploring Education as a Profession
TCH ED 2000  Becoming a Professional Educator 1
TCH ED 2001  Early Clinical Experience: Schools 1
TCH ED 2209  Foundations of Teaching in American Schools 2
HLTH PE 3277  Foundations of Health and Physical Education Programs 3

Level II: Analyzing the Nature and Process of Education
ED PSY 3312  Psychology of Learning, Instruction, and Assessment 3
ED TECH 3135  Technology for Educators 1
SPEC ED 3318  Inclusive Classrooms 3
TCH ED 3001  Mid-Level Clinical Experience: Diverse Learners 1
TCH ED 3310  Introduction to Methods of Teaching 3
TCH ED 4391  Literacy for Adolescent Learners in Content Areas 3
HLTH PE 3275  Psychological Aspects of Physical Education 3
HLTH PE 3284  Physiology of Human Exercise 3
HLTH PE 3285  Safety and Emergency Care for Health and Physical Education 3
HLTH PE 3380  Introduction to Nutrition for Health and Performance 3
PHY ED 2134  Personal Physical Fitness 3
PHY ED 3267  Performance Analysis in Physical Education 3
PHY ED 3282  Physical Growth and Motor Development 3
PHY ED 3283  Kinesiology 3

9 hours can be taken concurrently with Level III courses:
HLTH PE 3434  Teaching of Health and Wellness 4
PHY ED 3261  Physical Activity for Diverse Learners 3
PHY ED 3468  Curriculum and Methods of Teaching Physical Education 3

Level III: Synthesizing Theory and Practice in Education
The following Health and Physical Education courses are required:
PHY ED 3422  Teaching of Skills: Grades Pk-4 4
PHY ED 3423  Teaching of Skills: Grades 5-9 3
PHY ED 3424  Teaching of Skills: Grades 9-12 3
PHY ED 3425  Teaching Skills: Movement, Dance, and Rhythms 3
HLTH PE 4989  Practicum I: Site-Based Experience in Physical Education 3
HLTH PE 4990  Practicum II: 12-Week Site-Based Experience in Health and Physical Education 9
HLTH PE 4992  Practicum II: 4-Week Site-Based Experience in Health and Physical Education 3

Total Hours 89
Minimum 124 hours

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Design learning experiences appropriate for curriculum goals and relevant to learners based on principles of effective instruction.
• Demonstrate professional dispositions and culturally and linguistically responsive strategies to engage all learners, recognizing inequalities in educational opportunity.
• Construct a curriculum that demonstrates the knowledge and disposition to differentiate instruction and adapt instruction for diverse student needs including accommodations and/or modifications for student exceptionalities and specialized needs.
• Design instruction that integrates technology, and varied formative and summative assessment tools to inform practice.
• Critically examine professional practice through systematic, reflective inquiry that can improve learning opportunities for all students.
• Utilize character and citizenship education principles in decision-making and classroom management.
• Practice ethics of the profession of teaching to increase resilience through engaged dialogue with colleagues.

Physics BA

Physicists investigate fundamental nature of the forces and particles, and the resultant states of matter, that make up the physical world. The Department of Physics and Astronomy at UMSL provides undergraduates with a broad-based education in the fundamental concepts of physics and the experimental and theoretical skills essential to practicing scientists. The BA degree offers students an opportunity to combine the rigorous study of physics with additional studies of languages and the liberal arts. This degree is an ideal preparation for a career that combines science with other fields, such as science journalism, science policy, or patent law.

General Education Requirements

Majors must complete the university and college general education requirements (p. 48). Any of the following courses may be used to satisfy the physical science requirement:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

</tbody>
</table>

Degree Requirements

All physics majors in all programs must complete the physics core curriculum with the exception that majors pursuing the Physics Education option are not required to take PHYSICS 1099 and CMP SCI 1250. In addition to the core courses, each individual program has its own specific requirements. Required Physics, Mathematics, Chemistry, Biology, and Computer Science courses for a major or minor in physics may not be taken on a satisfactory/unsatisfactory grading basis.

Core Curriculum

The following physics courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYSICS 1099</td>
<td>Windows on Physics</td>

<td></td>
</tr>
<tr>
<td>CMP SCI 1250</td>
<td>Introduction to Computing</td>
<td></td>
</tr>
</tbody>
</table>

Total Hours 49

Note: Students are urged to begin the calculus sequence [MATH 1800, Analytic Geometry and Calculus I] as soon as possible to avoid delays in graduation.

Students with experience in digital computer programming may be excused from CMP SCI 1250.

Bachelor of Arts in Physics

The B.A. program is tailored to students wishing to preserve the option for specialization in graduate school without sacrificing the advantages of a liberal arts education. In addition to the core curriculum, including the foreign language requirement, at least three electives at the 3000 or 4000 levels must be completed. It is recommended that at least one of these three electives include ASTRON 4322, PHYSICS 4311, or PHYSICS 4347 for the required capstone course. The Department of Physics and Astronomy will accept the three-course sequence in American Sign Language as a substitution for the foreign language requirement for the degree. At least 31 hours of physics courses, but no more than 45 hours, are required.

B.S. Ed. in Secondary Education with Emphasis in Physics

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. or B.S. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact...
the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

B.A. or B.S. in Physics with Master’s Level Coursework for Secondary Teacher Certification

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

Program Purpose

The purpose of the B.A. in Physics program at the University of Missouri at St. Louis is to prepare students for a professional career and/or graduate or professional studies in a field that combines the physical sciences with aspects of the humanities or other professions, such as science advocacy, science policy, patent law, or science journalism.

Learning Outcomes

- Students will be able to demonstrate an understanding of basic physics concepts including classical mechanics, electricity and magnetism, and modern physics
- Students will demonstrate proficiency in a foreign language
- Students will be able to demonstrate an understanding of several advanced undergraduate areas of physics/astronomy, such as observational astrophysics, biophysics, quantum mechanics, or experimental design
- Students will be skilled in problem-solving, critical thinking and analytical reasoning as applied to scientific problems
- Students will be proficient in both written and oral communication of the results of scientific work
- Students will have the skills necessary for conducting original scientific research as part of an interdisciplinary problem-solving team
- Students will have the skills necessary to identify possible errors in scientific data, and to assess the significance of observed results

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Physics BS, Astrophysics Emphasis

The study of astrophysics aims to understand the universe and everything within it in terms of the fundamental nature of forces and particles. The Department of Physics and Astronomy at UMSL is devoted to providing undergraduates with a broad-based education in astrophysics with the experimental, observational, and theoretical skills essential to practicing astronomers and astrophysicists. Undergraduate education in astrophysics prepares students for both graduate study and professional careers in astronomy, atmospheric science, image processing, cosmology, and instrumentation.

General Education Requirements

 Majors must complete the university and college general education requirements (p. 48). Any of the following courses may be used to satisfy the physical science requirement:

- ASTRON 1001 Cosmic Evolution
- ASTRON 1011 Planets and Life in the Universe

Astronomy (MOTR ASTR 100)

### Degree Requirements

All physics majors in all programs must complete the physics core curriculum with the exception that majors pursuing the Physics Education option are not required to take PHYSICS 1099 and CMP SCI 1250. In addition to the core courses, each individual program has its own specific requirements. Required Physics, Mathematics, Chemistry, Biology, and Computer Science courses for a major or minor in physics may not be taken on a satisfactory/unsatisfactory grading basis.

#### Core Curriculum

The following physics courses are required:

- PHYSICS 1099: Windows on Physics
- PHYSICS 2111: Mechanics and Heat Laboratory
- PHYSICS 2112: Physics: Electricity, Magnetism, and Optics Laboratory
- PHYSICS 2112L: Electricity, Magnetism, and Optics Laboratory
- PHYSICS 3200: Mathematical Methods of Theoretical Physics
- PHYSICS 3221: Mechanics
- PHYSICS 3223: Electricity and Magnetism
- PHYSICS 3231: Introduction to Modern Physics

Also required are:

- MATH 1800: Analytic Geometry and Calculus I
- MATH 1900: Analytic Geometry and Calculus II
- MATH 2000: Analytic Geometry and Calculus III
- MATH 2020: Introduction to Differential Equations
- CHEM 1111: Introductory Chemistry I (MOTR CHEM 150L)
- CMP SCI 1250: Introduction to Computing

**Total Hours:** 49

Note: Students are urged to begin the calculus sequence [MATH 1800, Analytic Geometry and Calculus I] as soon as possible to avoid delays in graduation.

Students with experience in digital computer programming may be excused from CMP SCI 1250.

### Astrophysics Option

Students who have interests in the aerospace sciences or anticipate graduate studies in astrophysics may elect this option. At least 48 hours must be taken. In addition to the core curriculum, the following physics courses are required:

#### Physics

- PHYSICS 4323: Modern Optics
- PHYSICS 4331: Intro to Quantum Mechanics
- PHYSICS 4341: Thermal and Statistical Physics
- PHYSICS 4350: Computational Physics

#### Astronomy

- ASTRON 1050: Introduction to Astronomy I (MOTR ASTR 100)
- ASTRON 1051: Introduction to Astronomy II
- ASTRON 4301: Astrophysics
- ASTRON 4322: Observational Astronomy

Select one physics elective at or above the 4000 level. $^1$

**Total Hours:** 31

$^1$ With consent of the astronomy adviser, there may be substitution of ASTRON 1001, ASTRON 1011 or ASTRON 1012 for ASTRON 1050 or ASTRON 1051.

### Program Purpose

The purpose of the B.S. in Physics (Astrophysics Option) program at the University of Missouri at St. Louis is to prepare students for a professional career in astrophysics or a related field, or for graduate studies in astrophysics.

### Learning Outcomes

- Students will be able to demonstrate an understanding of basic physics concepts including classical mechanics, electricity and magnetism, thermal and statistical physics, modern optics, and quantum mechanics
- Students will be able to demonstrate an understanding of basic principles and concepts of modern astrophysics and observational astronomy
- Students will be able to perform astronomical observations, reduce and critically interpret their data
- Students will be skilled in problem-solving, critical thinking and analytical reasoning as applied to scientific problems
- Students will be proficient in both written and oral communication of the results of scientific work
- Students will have the skills necessary for conducting original scientific research as part of a problem-solving team
- Students will have the skills necessary to identify possible errors in scientific data, and to assess the significance of observed results

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Physics BS, Biophysics Emphasis

The study of astrophysics aims to understand the universe and everything within it in terms of the fundamental nature of forces and particles. The Department of Physics and Astronomy at UMSL is devoted to providing undergraduates with a broad-based education in astrophysics with the experimental, observational, and theoretical skills essential to practicing astronomers and astrophysicists. Undergraduate education in astrophysics prepares students for both graduate study and professional careers in astronomy, atmospheric science, image processing, cosmology, and instrumentation.

General Education Requirements

Majors must complete the university and college general education requirements (p. 48). Any of the following courses may be used to satisfy the physical science requirement:

The purpose of the B.S. in Physics (Biophysics Emphasis) program at the University of Missouri at St. Louis is to prepare students for a professional career in biophysics, biological physics, or a related interdisciplinary field, for graduate studies in biophysics, biological physics, or a related interdisciplinary career in biophysics, biological physics, or a related interdisciplinary field, for training as a medical physicist, or for professional training such as medical school.

**Learning Outcomes**

- Students will be able to demonstrate a solid understanding of basic physics concepts including classical mechanics, electricity and magnetism, thermal and statistical physics, modern electronics, and quantum mechanics
- Students will have an understanding of basic biological concepts, from organ systems to biochemistry
- Students will have an understanding of the basic concepts of biophysics, and the various areas of interdisciplinary science where biophysics concepts and techniques are applicable
- Students will be skilled in problem-solving, critical thinking and analytical reasoning as applied to scientific problems
- Students will be proficient in both written and oral communication of the results of scientific work
- Students will have the skills necessary for conducting original scientific research as part of an interdisciplinary problem-solving team
- Students will have the skills necessary to identify possible errors in scientific data, and to assess the significance of observed results

It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.
Physics BS, Engineering Physics Emphasis

Physicists strive to understand the fundamental nature of the forces and particles, and the resultant states of matter, that make up the physical world. Our Engineering Physics degree provides a grounding in this approach with an added emphasis on practical applications. The Department of Physics and Astronomy at UMSL provides a broad-based education in the fundamental concepts of engineering physics, with the experimental and theoretical skills essential to practicing scientists. Undergraduate education in physics prepares students for both graduate study and a wide variety of professional careers in fields such applied physics and engineering.

General Education Requirements

Majors must complete the university and college general education requirements (p. 46). Any of the following courses may be used to satisfy the physical science requirement:

Total Hours 33

Program Purpose

The purpose of the B.S. in Physics (Engineering Physics Emphasis) program at the University of Missouri at St. Louis is to prepare students for a professional career in engineering, physics, or applied physics, or for graduate studies in engineering physics or a related field.
Learning Outcomes

- Students will be able to demonstrate an understanding of basic physics concepts including classical mechanics, electricity and magnetism, thermal and statistical physics, quantum mechanics, and modern electronics.
- Students will be able to design and perform basic physics experiments, assess the significance of their results, and interpret the observed outcome.
- Students will be able to demonstrate an understanding of statics, dynamics, and electrical networks.
- Students will be skilled in problem-solving, critical thinking and analytical reasoning as applied to scientific problems.
- Students will be proficient in both written and oral communication of the results of scientific work.
- Students will have the skills necessary for conducting original scientific research as part of a problem-solving team.
- Students will have the skills necessary to identify possible errors in scientific data, and to assess the significance of observed results.

Total Hours: 49

Note: Students are urged to begin the calculus sequence [MATH 1800, Analytic Geometry and Calculus I] as soon as possible to avoid delays in graduation.

Students with experience in digital computer programming may be excused from CMP SCI 1250.

General Physics Option

This option may be elected by students desiring a greater concentration in physics and mathematics and is recommended for students wishing to enter graduate study in physics. At least 50 hours are required. In addition to the core curriculum, the following physics courses are required:

Physics

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYSICS 4310</td>
<td>Modern Electronics</td>
<td>3</td>

B.S. Ed. in Secondary Education with Emphasis in Physics

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. or B.S. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

B.A. or B.S. in Physics with Master’s Level Coursework for Secondary Teacher Certification

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

Program Purpose

The purpose of the B.S. in Physics (General Physics Option) program at the University of Missouri at St. Louis is to prepare students for a professional career in physics or a related field, or for graduate studies in physics.

Learning Outcomes

- Students will be able to demonstrate an understanding of basic physics concepts including classical mechanics, electricity and magnetism, thermal and statistical physics, quantum mechanics, and modern electronics
- Students will be able to design and perform basic physics experiments, assess the significance of their results, and interpret the observed outcomes
- Students will be able to demonstrate an understanding of some areas of the most recent physics research, such as advances in materials physics or nanoscience
- Students will be skilled in problem-solving, critical thinking and analytical reasoning as applied to scientific problems
- Students will be proficient in both written and oral communication of the results of scientific work
• Students will have the skills necessary for conducting original scientific research as part of a problem-solving team
• Students will have the skills necessary to identify possible errors in scientific data, and to assess the significance of observed results

Sample Four Year Plan

First Year
Fall | Hours | Spring | Hours

PHYSICS/ASTRON 4XXX Physics or Astronomy Course | 3 | EXPLORE - Humanities and Fine Arts | 3
ENGL 3160 | 3 | EXPLORE - Social Sciences | 3

Total Hours: 123

1 INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.
2 This General Education course must also fulfill the Cultural Diversity Requirement.

Physics Minor

Students may complete a minor in physics with the flexibility of emphasis on classical physics, modern physics, or a combination of the two areas. The following physics courses are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYSICS 1099</td>
<td>Windows on Physics</td>
</tr>
<tr>
<td>PHYSICS 2111</td>
<td>Physics: Mechanics and Heat</td>
</tr>
<tr>
<td>PHYSICS 2112</td>
<td>Physics: Electricity, Magnetism, and Optics</td>
</tr>
<tr>
<td>PHYSICS 3200</td>
<td>Mathematical Methods of Theoretical Physics</td>
</tr>
<tr>
<td>PHYSICS 3221</td>
<td>Mechanics</td>
</tr>
<tr>
<td>PHYSICS 3223</td>
<td>Electricity and Magnetism</td>
</tr>
<tr>
<td>PHYSICS 3231</td>
<td>Introduction to Modern Physics I</td>
</tr>
<tr>
<td>PHYSICS 4310</td>
<td>Modern Electronics</td>
</tr>
</tbody>
</table>

Total Hours: 18

A GPA of at least 2.0 is required in courses presented for a minor. It is required that a student completes a minimum of 6 hours of graded work in 2000 level or above courses on the UMSL campus.

Program Purpose

The purpose of the Minor in Physics at the University of Missouri at St. Louis is to provide students with a core knowledge of physics concepts to complement their major degree program.

Learning Outcomes

- Students will be able to demonstrate an understanding of basic physics concepts such as classical mechanics, electricity and magnetism, modern physics, and modern electronics
- Students will be skilled in problem-solving, critical thinking and analytical reasoning as applied to scientific problems
- Students will be proficient in both written and oral communication of the results of scientific work
- Students will have the skills necessary to identify possible errors in scientific data, and to assess the significance of observed results

Physics MS

Beginning Fall 2021, the program is no longer accepting applications.

Admission Requirements

The Department requires applicants to have adequate backgrounds in such areas as mechanics, thermodynamics, electromagnetism, optics, electronics, and modern physics. Students admitted to the program with deficiencies in these areas are required to take appropriate undergraduate courses. If necessary, a remedial program is determined in consultation with the department graduate studies director at the time of application for admission.

Degree Requirements

A student must complete 30 credit hours in graduate physics courses with at least 15 of these at the 5000 or 6000 level. Writing a thesis is optional. A maximum of six (3) credit hours of Research, PHYSICS 6490, may be
counted toward the minimum 15 hours with (or without) the thesis option. Students must pass a comprehensive examination, which includes a defense of the thesis for students who have chosen to write one. A grade point average of 3.0 must be maintained during each academic year. Students must complete their degree program within 130 percent of the semester hour requirements for the degree. The requirements must be fulfilled within six years from the time of admission. Two-thirds of required graduate credit must be taken in residence. There is no foreign language requirement.

**Typical Program**

**First Semester**
PHYSICS: 6000 level and 4000, 5000 level course  
6

**Second Semester**
PHYSICS: 6000 level and 4000, 5000 level course  
6

**Third Semester**
PHYSICS: 6000 level and 4000, 5000 level course  
6
PHYSICS 6490  
Research  
3

**Fourth Semester**
PHYSICS: 6000 level and 4000 level course  
6
PHYSICS 6490  
Research  
3

**Total Hours**  
30

**Physics PhD**

**Beginning Fall 2021, the program is no longer accepting applications.**

**Admission Requirements**
The Department requires applicants to have adequate backgrounds in such areas as mechanics, thermodynamics, electromagnetism, optics, electronics, and modern physics. Students admitted to the program with deficiencies in these areas are required to take appropriate undergraduate courses. If necessary, a remedial program is determined in consultation with the department graduate studies director at the time of application for admission.

**Degree Requirements**
Students must complete a minimum of 42 hours past the master’s degree with satisfactory performance. The university has a residency requirement of three years/six semesters (for those with master’s degree, two years/four semesters) at UMSL and/or Missouri S&T. The Ph.D. qualifying exam, dissertation, and dissertation exam are administered in cooperation with Missouri S&T. All graduate work requires B grades or better. The dissertation may be written in absentia, and there is no foreign language requirement.

**Policy and Program Evaluation Graduate Certificate**
The Graduate Certificate in Policy and Program Evaluation (PPE) provides students the opportunity to gain expertise in policy and program evaluation methods, including completion of an applied evaluation project. In addition to the public and nonprofit sectors, the certificate is appropriate for individuals in disciplines such as criminology, education, economics, gerontology, social work, and sociology who need to conduct assessments of the programs for which they are responsible.

**Requirements**

This program consists of a six-course sequence (18 credits): 5 required courses (15 credits) and 1 elective (3 credits). The Certificate may be taken by non-degree students or in conjunction with 1) the Master’s in Public Policy Administration degree program; 2) the Master’s in Social Work/Master’s in Gerontology degree programs; or 3) the Master’s in Economics.

Students with sufficient job experience in program/policy evaluation may submit a written request to waive the Applied Evaluation Project requirement. If granted, this requirement will be replaced with a three-credit elective.

Students pursuing a graduate degree along with the certificate should check with their graduate advisor regarding which courses will also count towards their degree.

A maximum of two courses at the 4000 level can count towards the Certificate.

At least 12 of the 18 credits must be taken in residence at UMSL.

**Required Courses:**

<table>
<thead>
<tr>

1 SOC WK 6800 or SOC WK 6850 must include an evaluation project.
Political Science BA

A degree in Political Science is the perfect choice for students who want to change the world. Our students gain knowledge about politics and policy, and develop sought-after skills—such as information-gathering and processing, analysis, research, decision making, and oral and written communication—that are transferable to many career paths after graduation. Areas of concentration include American politics, international and comparative politics, urban politics, public law, public policy and administration, and gender and politics. In addition to formal coursework, internships are available in which the student can apply classroom learning and gain practical field experience.

Career Outlook

Our graduates work in a variety of settings, as lawyers in the legal system, staff for government agencies, legislatures, and political campaigns, managers of public, private and nonprofit organizations, and advocates for a wide variety of social, environmental, and economic organizations. The variety of skills students develop, coupled with internship experience, make our graduates strong candidates on the job market. Early and mid-career Political Science graduates enjoy higher average salaries than those in Business Management and other fields. Political Science is also a path to graduate school and the top major of law school applicants.

General Education Requirements

Majors must satisfy the university and college general education requirements (p. 48). Political science courses may be used to satisfy the social sciences requirement. The foreign language requirement for the B.A. degree may be satisfied in any language.

Degree Requirements

All majors must complete at least 36, but no more than 51, hours of political science. All students are required to take the following core curriculum:

<table>
<thead>
<tr>
<th>Political Science</th>
<th></th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL SCI 1100</td>
<td>Introduction to American Politics (MOTR POSC 101)</td>
<td>3</td>
</tr>
<tr>
<td>POL SCI 1500</td>
<td>Introduction to Comparative Politics (MOTR POSC 202)</td>
<td>3</td>
</tr>
<tr>
<td>POL SCI 1800</td>
<td>Introduction to International Politics (MOTR POSC 201)</td>
<td>3</td>
</tr>
<tr>
<td>POL SCI 3000</td>
<td>Political Analysis</td>
<td>3</td>
</tr>
<tr>
<td>POL SCI 4950</td>
<td>Senior Seminar in Political Science</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Hours</strong></td>
<td></td>
<td><strong>15</strong></td>
</tr>
</tbody>
</table>

Majors are urged to take POL SCI 1100, POL SCI 1500, and POL SCI 1800 as early as possible since these courses are designed to provide a substantive foundation as well as conceptual and analytical tools for subsequent course work. Because the seminar topics in POL SCI 4950 change from semester to semester, the course can be repeated as an elective. All majors must take at least one Seminar in Political Science.

Students also must complete at least one course in four of the following political science areas:

- American Politics (chosen from among courses listed in bulletin at the 1000, 2000, or 3000 or 4000 level).
- Public Policy and Administration (chosen from among courses listed in bulletin at the 1000, 2000, or 3000 or 4000 level).
- Comparative Politics (chosen from among courses listed in bulletin at the 1000, 2000, or 3000 or 4000 level).
- International Relations (chosen from among courses listed in bulletin at the 1000, 2000, or 3000 or 4000 level).

At least 15 hours of political science course work must be at the 3000 or 4000 level, including POL SCI 4950 Senior Seminar. B.A. degree students may take a maximum of 3 hours of political science on a satisfactory/unsatisfactory basis; this can include any course except the required courses in the core curriculum.

Note: As early as possible, students should determine their educational objectives and consult with an adviser regarding a plan of study. Those students who are uncertain of their future plans are urged to include in their 36-45 hours of political science a broad set of courses in American politics, public policy and administration, public law, comparative politics, international politics, political theory, and methodology. In addition to this general course of study in political science, the department offers B.A. degree students several specialized programs of study in political science geared to various student academic and career interests.

Departmental Honors

The department awards honors to students having a grade point average (GPA) of 3.2 in the major, an overall GPA of 3.2 (except in extraordinary circumstances), and successfully completed an honors thesis, project, or report.

B.S. Ed. in Secondary Education with Emphasis in Social Studies

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

B.A. in Political Science with Master's Level Coursework for Secondary Teacher Certification

In addition to the B.S. Ed., students may opt to complete a B.A. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.
Learning Outcomes

Graduates of this program will be able to:

- Explain the history, characteristics, and impact of legal, economic, and political institutions and systems, including international, national, state, and local governance.
- Apply various methods, tools, and sources applicable to the discipline of political science to answer important policy and political questions.
- Compare and contrast different ideologies, theories, and interpretations of politics.
- Assess political issues, formulate evidence-based recommendations, and communicate them with clarity and coherence.
- Plan, execute, and defend a major research project.

Total Hours: 120

NTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

### Political Science BA/MA Dual Degree Program

The 2+3 Combined BA/MA program in Political Science provides an opportunity for students of recognized academic ability and educational maturity to complete the requirements for both degrees in 5 years of full-time study.

The combined program requires a minimum of 140 credit hours of which at least 33 must be at the graduate level in political science. In qualifying for the BA, students must meet all University and College requirements. Students in the combined 2+3 who successfully complete the requirements for the MA degree will be awarded a BA degree simultaneously upon completion of at least 107 hours of undergraduate credit.

Student should apply to the Department for admission to the 2+3 combined degree program in Political Science during the semester they will complete 60 undergraduate credit hours. A cumulative grade point average of 3.0 or higher and two letters of recommendation from faculty are required. Students will be admitted to the 2+3 program under provisional status until they have completed 30 hours in that program with a grade point of 3.0 or higher. After completion of the provisional period, with the recommendation of the Graduate Director, students can be granted full admission into the 2+3 program.

Students must maintain a grade point average of 3.0 or higher throughout the combined program. Students who officially withdraw from the 2+3 combined degree program, who have successfully completed all the regular requirements for the BA degree (120 hours) will be awarded their BA degree.

### Undergraduate Requirements for Student in the 2+3 Program

Select five additional graduate Political Science classes.  

Total Hours: 33

Students should select an emphasis in American Politics, Public Policy, Comparative Politics, Political Theory, or International Relations.

**Summary of Credits in Political Science:**

- BA: 27 hours  
  (12 completed in lower division courses before admission to the 2+3 program)
- MA: 33 hours at the graduate level
- TOTAL: 60 hours in Political Science classes

---

**Political Science MA**

Admission Requirements: For admission, a student should have a baccalaureate degree with a minimum grade point average of 2.75 and an undergraduate background in the social sciences. The GRE is required, and scores should be submitted at the time of application. Two letters of recommendation are also requested for each student applying to the program. Students who do not meet these requirements may be admitted upon approval of the department and the dean of the Graduate School. Application materials may be obtained from and should be returned to the office of the director of admissions.

Deadlines are July 1 for the fall semester; December 1 for the winter semester; and May 1 for the summer term.

**Degree Requirements**

Beyond the general requirements of the Graduate School, the department requires a minimum of 27 semester hours of course work, of which 18 hours must be at the 6400 level and 12 hours must be in core courses in political science, including:

<table>

</tbody>
</table>

Total Hours: 12

Students can plan their degree program to reflect the following six emphasis areas:

- American Politics
- Comparative Politics
- International Politics
- Political Process and Behavior
- Public Administration and Public Policy
- Urban and Regional Politics

Students must also select one of the following exit projects: a six-hour thesis, a six-hour internship, or six hours of additional course work and an approved paper. Students will have a mid-program review at the end of 12-15 hours of course work, at which time they will discuss their academic performance and program with a faculty committee and determine the most appropriate exit project. Each candidate is given a final oral review conducted by a faculty committee and focused on the course work completed and the student's chosen exit project.

**Political Science Minor**

**Requirements for Political Science Minors**

A general minor in political science can be arranged, as well as specialized minors in eight different subfields of the discipline. Interested
students should see a faculty adviser to plan a coherent program of study as a minor field.

Students must achieve a cumulative 2.0 GPA in the political science courses chosen to qualify for the minor. Students may count no more than 3 hours in political science taken on a satisfactory/unsatisfactory basis toward the minor. Students taking an internship POL SCI 3940 may count no more than three hours of the internship toward the minor.

**Specific Requirements for the Minor**

Fifteen hours, chosen from among all political science courses.

**Learning Outcomes**

- Explain the characteristics and impact of political institutions and systems.
- Analyze the actions of political actors and their motives.
- Assess political issues, formulate evidence-based recommendations, and communicate them with clarity and coherence.

**Political Science PhD**

**Beginning in Fall 2021, this program will not be accepting new applications until further notice.**

The doctoral program emphasizes theoretical, analytic, and substantive approaches to public policy analysis and administration. Students are provided an opportunity to link core skills in policy analysis and political science with substantive emphasis in specific policy areas. The program is designed to prepare pre-career and mid-career students for advanced positions in policy research and administration, as well as for academic research and teaching.

**Admission Requirements**

Admission and financial aid decisions are made on the basis of past academic record, intellectual ability, and career commitment and performance. Applications are accepted from students who have either baccalaureate or master’s degrees. Past graduate work will be credited toward degree requirements as appropriate. Applicants must submit:

1. complete academic transcripts,
2. three letters of recommendation,
3. aptitude tests of the GRE and
4. a statement of objectives for the course of study.

Application materials may be obtained from and should be returned to the office of the director of admissions. Applications for fall semester should be submitted by February 15 and for winter semester by October 15.

Graduate Assistantships Stipends for teaching and research assistantships (nine month/20 hours per week) are awarded on a competitive basis. Out-of-state educational fees are waived for graduate assistants.

**Degree Requirements**

The department requires 60 credit hours beyond the baccalaureate degree for completion of the Ph.D. To ensure sufficient background for doctoral-level policy courses, students must demonstrate appropriate competence in computing and data analysis during their course of study. Course requirements are as follows:

**Core courses**

(18 credit hours)

- 18 credit hours will be required in the areas of research methods, and policy process and institutions. Contact the department for specific courses.
- Additional Requirements (12 credit hours)
- In addition, students will select a minimum of 12 credit hours in public policy, theory, or process as they apply to major subfields in political science.

**Policy Concentration**

(24 credit hours)

Students, in consultation with the program director, will develop expertise in a substantive policy area. Policy concentrations (many interdisciplinary) include but are not limited to:

- American National Policy
- Urban Politics and Planning
- Comparative/International Policy
- Policy Analysis and Research Social Welfare

**Internship**

(6 credit hours) optional

The Ph.D. intern program offers an opportunity to gain first-hand experience in select research and administrative positions.

**General Examination and Dissertation**

Upon completion of course work, students are advanced to candidacy by successfully completing three general examinations,

1. public policy institutions, processes, and analysis,
2. methodology, and
3. the student’s chosen subfield and area of policy concentration.

The degree is awarded upon completion and defense of the Ph.D. dissertation.

**Primary Care Pediatric Post-Graduate Certificate**

Post-graduate certificate (PGC) requirements are tailored to the individual student, depending on past academic work, experience, the student’s goals, and specialty requirements. Upon completion of the PGC requirements, a certificate is awarded by the College of Nursing (CON) and Graduate School. Graduates are eligible to apply to take board certification exams in the advanced practice role and population for which they have been prepared.

Due to higher education regulation changes, the University of Missouri–St. Louis cannot admit students from all states for online programs. Please see the Center for Teaching and Learning for additional information: http://www.umsl.edu/services/ctl/onlinelearning/state_authorization.html.
Certificate Requirements

Students must complete a minimum of 12 credit hours of coursework from the University of Missouri - St. Louis College of Nursing. Courses must be from the list below.

- NURSE 6518: Pathophysiology for Advanced Nursing Practice (3 credits)
- NURSE 6520: Pharmacology For Advanced Nursing Practice (3 credits)
- NURSE 6524: Health Assessment For Advanced Nursing Practice (3 credits)
- NURSE 6530: Clinical Diagnostics for Advanced Nursing Practice (3 credits)
- NURSE 6743: Pediatric Health I: Acute and Chronic Care (4 credits)
- NURSE 6744: Pediatric Health II: Comprehensive Primary Care (4 credits)
- NURSE 6954: Advanced Practice Nursing: Residency I (2-4 credits)
- NURSE 6955: Advanced Practice Nursing: Residency II (2-4 credits)
- NURSE 7954: Advanced Practice Nursing: Residency III (2-4 credits)

All students must complete 8 credit hours of Residency. One credit hour is equivalent to 75 residency hours.

Professional Writing Undergraduate Certificate

Requirements

Students may earn the Certificate in Professional Writing by completing 18 hours in selected writing courses with a grade point average of 3.0 or better. Interested students should contact the program coordinator for an application and assistance in selecting courses. Upon completion of four or five writing courses, please consult the coordinator to make arrangements for ENGL 4890, ENGL 2400 or ENGL 2410 and ENGL 4890 are required. Four additional courses are to be chosen from the following list:

Professional Writing Genre Courses

- ENGL/MEDIA ST 2080: Advertising Copywriting (3 credits)
- ENGL 2125: Introduction to Technical Communication (MOTR ENGL 110) (3 credits)
- ENGL 2180: Introduction to News Writing (3 credits)
- ENGL 3120: Business Writing (3 credits)
- ENGL 3130: Technical Writing (3 credits)
- ENGL/MEDIA ST 3150: Feature Writing (3 credits)
- COMM 2180: Public Relations Writing (3 credits)
- ENGL 4162: Writers at Work (3 credits)
- ENGL 4860: Editing and the Production Process (3 credits)
- ENGL 4870: Advanced Business and Technical Writing (3 credits)
- ENGL 4871: Publishing: Writers, Editors, and Readers (3 credits)
- ENGL 4880: Writing for Teachers (3 credits)

Academic Writing Courses

- ENGL 2120: Topics in Writing (3 credits)
- ENGL 2400: Rhetorical Ways with Words (3 credits)
- ENGL 2410: Literate Lives (3 credits)
- ENGL 2810: Traditional Grammar (3 credits)
- ENGL 3090: Turning the Kaleidoscope: How We Look at Texts (3 credits)
- ENGL 3100: Junior-Level Writing (3 credits)
- ENGL 3110: Junior-Level Writing for International Students (3 credits)
- ENGL 3160: Writing in the Sciences (3 credits)
- ENGL 3200: Composing Disability (3 credits)
- ENGL 4160: Special Topics in Writing (3 credits)
- ENGL 4790: Rhetoric and Social Justice (3 credits)
- ENGL 4810: Descriptive English Grammar (3 credits)

Creative Writing Courses

Students may take up to 2 creative writing courses

- ENGL 2020: Introduction to Creative Writing (3 credits)
- ENGL 2030: Poetry Writing Jumpstart (3 credits)
- ENGL 2040: Fiction Writing Jumpstart (3 credits)
- ENGL 3030: Improving on the Blank Page: Writing Poetry (3 credits)
- ENGL 3040: Lying to Tell a Truth: Writing Fiction (3 credits)
- ENGL 4130: A Machine Made of Words: Writing Your Best Poems (3 credits)
- ENGL 4140: Polishing Your Stories: Producing a Publishable Short Story (3 credits)
- ENGL 4150: Creative Non-Fiction (3 credits)
- ENGL 4180: Novel Beginnings (3 credits)
- ENGL 4895: Editing "Litmag" (can be taken as a capstone) (3 credits)

Honors Courses

- HONORS 2020: Inquiries in the Fine and Performing Arts (3 credits)
- HONORS 3100: Honors Advanced Composition: Writing The City (3 credits)
- HONORS 3020: Advanced Honors Seminar in the Fine and Performing Arts (3 credits)

Capstone Course

- ENGL 4890: Writing Internship (Required. Usually taken as the last course in the program. Must include an extensive final project.) (3 credits)
- ENGL 4892: Independent Writing Project (3 credits)

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Write clearly, correctly, and concisely
- Develop knowledge of how writing impacts work and behavior in professional settings
- Employ a repertoire of writing strategies and practices in the workplace
- Effectively adapt content to a variety of professional audiences
• Discern the appropriate tone, style, and format needed for a given writing purpose, audience, and context
• Demonstrate advanced knowledge of rhetorical strategies to achieve specific results
• Practice solid revision and editing skills
• Integrate expectations about professional standards and persuasive, content-based thinking into their written communication
• Recognize and adjust to expectations in the global workplace setting.
• Develop a portfolio of professional writing that would serve in a job search
• Work independently and collaboratively on complex professional documents
• Adapt to new writing challenges quickly

Program Evaluation in Education Graduate Certificate

The Graduate Certificate in Program Evaluation in Education provides specialized study in the theory and practice of program evaluation. The program will build on the content area knowledge base of the individual’s bachelors and masters degree. The focus of the Program Evaluation in Education certificate will be on the skills delineated in the standards and guidelines of the American Evaluation Association and the Joint Committee on Standards in Educational Evaluation.

The certificate will consist of 18 hours of core courses and internship experiences. Graduate credits earned in equivalent courses in Education or related Social Science disciplines may meet some of these requirements.

All students must complete 8 credit hours of Residency. One credit hour is equal to 75 residency hours.

Psychological Sciences BA

The Bachelor of Arts degree in Psychology is a large, diverse program ideal for students interested in understanding and solving problems in many different areas of behavior. Students earning a Bachelor of Arts degree in psychological sciences learn to write and speak about complex behavioral explanations that rely on scientific reasoning and evidence rather than anecdotes or common myths/misconceptions. Advanced coursework in the major can focus on a range of subdisciplines, including child/lifespan development, mental health, and business / workplace psychology.

General Education Requirements

 Majors must satisfy the university and college General Education curricular requirements (p. 48). Selected courses in Psychology may be used to meet General Education Social and Behavioral Sciences requirements.

PSYCH 4999 Integrated Psychology 2
PSYCH 2268 Lifespan Developmental Psychology 3
  or PSYCH 2270 Developmental Psychology: Infancy, Childhood and Adolescence
Select four Psychology courses numbered 3000 to 4998 2 12

Total Hours 34

1 PSYCH 1000 requirement must be satisfied before the student completes 24 hours of course work.
2 No more than 3 hours can be PSYCH 3295 or PSYCH 3390.

Additional Notes
Psychology majors must not take courses in excess of 50 hours in Psychology. Credits completed in Psychology in excess of 50 will not count toward graduation. For example, students earning 53 hours in Psychology will consequently be required to earn a minimum of 123 hours to graduate.

The three course sequence of Math, Psychological Statistics (PSYCH 2201), and Research Methods (PSYCH 2219) require a minimum of three semesters to complete. Students must satisfy the current University mathematical skills requirement before taking PSYCH 2201, Psychological Statistics. PSYCH 2201 is a prerequisite for PSYCH 2219, and hence, PSYCH 2201 must be completed with a grade of C- or higher PRIOR to enrollment in PSYCH 2219.

PSYCH 2201 and PSYCH 2219 cannot be taken concurrently. Students are advised to plan accordingly and to seek assistance from Psychology Academic Advising whenever needed.

Candidates for the B.A. must complete at least 34, but no more than 50, hours of courses taught by or cross-listed with the Department of Psychological Sciences.

Candidates must have a cumulative grade point average of 2.0 or higher in the major overall, and must earn a C- or above in each of the courses comprising the 34 credits applied to the B.A. degree in Psychology. Failure to earn a C- or above in the required courses will necessitate re-taking them for a satisfactory completion of the C- requirement. No Psychology courses taken on a satisfactory/unsatisfactory basis may be applied to the major.

In addition, candidates for the B.A. are required to satisfactorily complete 13 credit hours in one foreign language.

Graduate School Preparation
In addition to the required courses listed above, students interested in applying to graduate school in Psychology are strongly encouraged to become involved in a research project with a Psychology faculty member by securing enrollment in PSYCH 3390, Directed Studies. These positions are available on a limited and competitive basis. No enrollments in PSYCH 3390 are possible without special Instructor permission. Those invited to participate must obtain a special consent form from the instructor in order to enroll. Contact the Psychology Academic Advising office for more information on such positions (psy_advising@umsl.edu).

Learning Outcomes
Upon completion of the degree, graduates of the BA in Psychology program at UM-St. Louis will be able to:

- Demonstrate an integrative understanding of psychological concepts, theories, research, and historical trends in psychology and the prediction of behavior across the scientific subdisciplines (e.g., behavioral neuroscience, clinical, developmental, industrial/organizational, social, etc.). (Psychological Science Knowledge Base)
- Summarize and explain use of the scientific approach to solve behavioral problems and articulate how behavioral explanations rely on critical thinking, scientific reasoning, weighing evidence and tolerating ambiguity. (Critical Thinking)
- Identify and evaluate appropriate research methods in psychology, including research design, data analysis (i.e., selecting, conducting, and interpreting basic statistical tests) and data interpretation. (Scientific Inquiry)
- Communicate using a variety of formats in a clear, concise way. (Communication)
- Demonstrate respect for members of diverse groups with sensitivity to issues of power, privilege and discrimination, while adopting social and ethical values that build community at local, national and global levels. (Ethical and Social Responsibility)
- Display professionalism and ownership of professional growth and learning through an evolving career development plan tailored to one’s accurate self-assessment of abilities, achievements, motivations and work habits. (Professional Development)

Psychological Sciences BS

The Psychological Sciences involve the study of mental processes, the brain, and behavior in human and other animals. Students earning a Bachelor of Science degree in psychological sciences learn to analyze data, communicate complex information, understand human behavior and think and write scientifically. The BS degree involves the application of foundational knowledge and skills from math and the natural sciences to the study of behavior. Students can concentrate their advanced coursework in a specific disciplinary subfield, including behavioral neuroscience, child psychology, clinical psychology, health psychology/pre-health, business & work psychology.

General Education Course Requirements

Majors must satisfy the university and college General Education curricular requirements. Selected courses in Psychology may be used to meet General Education Social and Behavioral Sciences requirements.

Total Hours 55-56

Candidates for the B.S. in Psychology must complete at least 40, but no more than 50, hours of courses taught by or cross-listed with the Department of Psychological Sciences. In addition to the above courses, students must complete the following:

Students who test into MATH 1045 may meet the math core requirement in lieu of taking MATH 1030 and MATH 1035.

No more than 3 hours can be PSYCH 3295 or PSYCH 3390.

¹ Students who test into MATH 1045 may meet the math core requirement in lieu of taking MATH 1030 and MATH 1035.

² No more than 3 hours can be PSYCH 3295 or PSYCH 3390.

Please Note: This plan is an example of what a four year plan could look like for a typical student pursuing the B.A. degree. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.
PSYCH 1000 requirement must be satisfied before the student completes 24 hours of course work.

Candidates must have a cumulative grade point average of 2.0 or higher in the major overall, and must earn a C- or above in each of the courses comprising the 40 credits applied to the B.S. degree in Psychology. Failure to earn a C- or above in the these required courses will necessitate re-taking them for a satisfactory completion of the C- requirement in all 40 hours. No Psychology courses taken on a satisfactory/unsatisfactory basis may be applied to the major.

Graduate School Preparation

In addition to the required courses listed above, students interested in applying to graduate school in Psychology are strongly encouraged to become involved in a research project with a Psychology faculty member by securing enrollment in PSYCH 3390, Directed Studies. These positions are available on a limited and competitive basis. No enrollments in PSYCH 3390 are possible without special Instructor permission. Those invited to participate must obtain a special consent form from the instructor in order to enroll. Contact the Psychology Academic Advising office for more information on such positions (psy_advising@umsl.edu).

Learning Outcomes

Upon completion of the degree, graduates of the BS in Psychology program at UM-St. Louis will be able to:

- Demonstrate an integrative understanding of psychological concepts, theories, research, and historical trends in psychology and the prediction of behavior across the scientific subdisciplines (e.g., behavioral neuroscience, clinical, developmental, industrial/organizational, social, etc.). (Psychological Science Knowledge Base)
- Summarize and explain use of the scientific approach to solve behavioral problems and articulate how behavioral explanations rely on critical thinking, scientific reasoning, weighing evidence and tolerating ambiguity. (Critical Thinking)
- Evaluate and identify appropriate research methods in psychology and at least one other STEM discipline, including research design, data analysis (i.e., selecting, conducting, and interpreting basic statistical tests) and data interpretation. (Scientific Inquiry)
- Communicate using a variety of formats in a clear, concise way. (Communication)
- Demonstrate respect for members of diverse groups with sensitivity to issues of power, privilege and discrimination, while adopting social and ethical values that build community at local, national and global levels. (Ethical and Social Responsibility)
- Display professionalism and ownership of professional growth and learning through an evolving career development plan tailored to one’s accurate self-assessment of abilities, achievements, motivations and work habits. (Professional Development)

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Psychology Clinical-Respecialization Graduate Certificate

Effective Fall 2021, this program is no longer accepting applications.

This program is designed for graduates of accredited doctoral programs in psychology who wish to receive training in the specialty field of clinical psychology. Respecialization students are trained within the context of the UMSL Clinical Psychology Doctoral Program, which is accredited by the American Psychological Association. The program provides an integrated sequence of training experiences, including didactic course work and practicum placements. Core graduate-level psychology educational
requirements not completed elsewhere are included in the respecialization student's course of study.

**Psychology MA, Behavioral Neuroscience Emphasis**

The University of Missouri-St. Louis offers a program of studies leading to a Master of Arts Degree in Psychology with a specialization in Behavioral Neuroscience. Masters students take classes with Doctoral level students. Students will choose between a thesis and a non-thesis option.

Thesis students conduct research in a core area of study including neurophysiological correlates of posttraumatic stress disorder, self-reflection and default mode network, the neurocognition of emotion and romantic love, prejudice and discrimination, and health disparities. We soon will have training on the neuroscience of substance abuse and addiction. Students are enrolled into a research group headed by a faculty member with research interests in one of the areas identified above. That professor serves as the student's primary mentor throughout their graduate training, though communication and collaboration with other laboratories are encouraged.

Research Facilities: The Department is equipped with several EEG systems, physiological research suites including eye-tracking, cardiovascular measures, and skin conductance. Many faculty have connections to facilities with magnetic resonance imaging equipment.

**Degree Requirements**

A total of 32 credit hours is required for the MA degree with an emphasis in the behavioral-neuroscience field of experimental psychology. Students will choose between a thesis and a non-thesis option.

**Thesis Option**

Students are required to complete a master's thesis for this program. Theses should follow the procedures in the Behavioral-Neuroscience Handbook and on the Graduate School website.

**Required Coursework**

Total Hours: 32

1 Related coursework may count toward the electives with approval of the graduate program director.

**Psychology Minor**

**Requirements for the Minor**

Candidates must complete a minimum of 15 hours of courses taught by or cross-listed with the Psychology Department, including at least 6 hours at the 3000 or 4000 level (no more than 3 of these can be PSYCH 3390). Candidates must have a cumulative grade point average of 2.0 or higher in the minor. Psychology courses taken on a satisfactory/unsatisfactory basis may not be applied to the minor.

**Learning Outcomes**

Graduates of the Minor in Psychology at UM-St. Louis will be able to:

**Psychological Sciences Knowledge Base:**

- Apply basic psychological terminology, concepts and theories to explain behavior and mental processes.
- Discuss practical applications of psychological principles and science within their major area of study and to everyday life.

**Scientific Inquiry and Critical Thinking:**

- Identify and describe the potential for flaws in behavioral explanations based on simplistic, personal theories and demonstrate an appreciation for psychology as a science.
- Summarize criteria and strategies for identifying objective sources of psychological information.

**Communication:**

- Express in writing basic concepts and findings from the psychological sciences.
- Interpret quantitative data displayed in graphs and tables.
Ethical and Social Responsibility:
• Consider ethical issues that reflect principles in the APA Ethics Code.

Professional Development:
• Describe how knowledge and skills from the psychological sciences apply to business, health care, educational, and other workplace settings.

Psychology PhD, Behavioral Neuroscience Emphasis

The Behavioral Neuroscience program provides opportunities for study, research, and training in various areas including psychophysiology, psychopharmacology, neuroendocrinology, cognitive neuroscience, and neuropsychology. This program prepares students for research careers in academia or industries, such as pharmaceutical firms and medical schools. Full-time enrollment is required.

Admission Requirements
In addition to meeting the general admission requirements of the Graduate School, applicants should have completed undergraduate courses at minimum in general psychology, psychological statistics, and research methods. Each doctoral program has additional admission requirements specific to that program.

The Application Deadline for the Behavioral Neuroscience Program is January 15.

Teaching and Research Assistantships
Stipends for teaching and research assistantships are available for the doctoral programs only.

Learning Outcomes for the Ph.D. in Behavioral Neuroscience

The graduate program in Behavioral Neuroscience has the following goals. Outcome measures for each goal allow the faculty to assess the students.

Goal 1. Students will gain a broad-based foundation of terminology and basic and conceptual knowledge necessary for teaching and research in the Behavioral Neuroscience field. Outcome measures include grades in coursework, performance on both the written and oral segments of the qualifying exam, as well as active participation in our journal reading groups.

Goal 2. Beginning early in their studies, students will learn the basic skills to conduct research in a variety of different paradigms. Outcome measures include successful accomplishments in the laboratories of mentor professors.

Goal 3. Beginning early in their studies, students will come to recognize the key to success in the Behavioral Neuroscience field is publishing and seeking grant support. Outcome measures include an easily observable mindset that assesses all scholarly activities in regard to possible publication and/ or a suitable idea for submission to a grant agency. Also, regular attendance is expected at all relevant colloquia on campus and at the grant writing seminars offered by the Behavioral Neuroscience faculty.

Goal 4. Students will come to recognize the importance of writing and will be constantly developing their writing skills as applied to manuscript preparations and grant applications. Outcome measures are the numbers of manuscripts written and submitted to journals or grant agencies each year.

Goal 5. As they progress through the program, students will show increasing self-reliance to initiate a research project and carry it to its completion. Outcome measures are numbers and quality of self-initiated research projects.

Goal 6. At the end of their graduate studies, the students will have grown into full colleagues of the faculty and be ready for careers in research and teaching. Outcome measures are a quality dissertation that is successfully defended before peers and being hired for a suitable position (post-doc, assistant professor, junior-level researcher) in the field.

Psychology PhD, Clinical Community Psychology Emphasis

The Clinical Psychology program has been fully accredited by the American Psychological Association since 1977 and is patterned upon the scientist-practitioner model of clinical training. Students are not considered for admission on a part-time basis. Through the medium of courses, practicums, and research experiences, this emphasis area prepares Clinical Psychologists for careers in research, teaching, and clinical practice.

Admission Requirements
In addition to meeting the general admission requirements of the Graduate School, applicants should have completed undergraduate courses at minimum in general psychology, psychological statistics, and research methods. Each doctoral program has additional admission requirements specific to that program.

The Application Deadline for the Clinical Psychology Program is January 15.

Teaching and Research Assistantships
Stipends for teaching and research assistantships are available for the doctoral programs only.

Degree Requirements
Students in the Clinical Psychology program participate for three years in the Psychology Department's Community Psychological Services clinic. This facility provides psychological services to the public and consultation to outside agencies. Students also receive clinical experience in clerkships and during a full-time, year-long internship. Research requirements include an initial independent research project, a major critical review of research in a specialty area, and a dissertation.

The Clinical Psychology graduate program is accredited by the American Psychological Association and the course offerings fulfill specific training domains associated with APA accreditation.

I. Broad-based foundation of knowledge and conceptual skills necessary for psychological research and practice.

# Psychology PhD, Industrial and Organizational Psychology Emphasis

**Effective Fall 2018, the Industrial Organizational Psychology program will no longer be accepting applications.**

## Industrial/Organizational Psychology

The Industrial/Organizational Psychology program is offered in cooperation with selected faculty from the College of Business to prepare students for careers in industry or academia. This program embraces the scientist-practitioner model and provides a balanced training in I/O. This emphasis provides "industrial" training in areas such as personnel selection, training, and test development/validation, as well as "organizational" training in areas such as work motivation, leadership, and group processes. Research and other training experiences in various settings are also incorporated.

## Learning Outcomes for the Ph.D. in Industrial/Organizational Psychology:

The Ph.D. in Industrial/Organizational (IO) Psychology has the following goals:

1. **Goal 1.** Students will gain a broad-based foundation of knowledge and conceptual skills necessary for applied psychological research and practice.

2. **Goal 2.** Students will develop the ability to evaluate and conduct methodologically sound research of potential benefit to the theory and practice of psychology.

3. **Goal 3.** Students will develop the ability to apply psychological principles that are theory-based and research-supported to individuals and groups in organizational settings.

4. **Goal 4.** Students will develop a firm basis for ethical decision-making in research and practice.

5. **Goal 5.** Students will display adaptability in their applications of research, assessment and practical psychological approaches to individuals and groups in organizational settings.

## Public and Nonprofit Administration Minor

**Requirements for Political Science Minors**

A general minor in political science can be arranged, as well as specialized minors in eight different subfields of the discipline. Interested students should see a faculty adviser to plan a coherent program of study as a minor field.

Students must achieve a cumulative 2.0 GPA in the political science courses chosen to qualify for the minor. Students may count no more than 3 hours in political science taken on a satisfactory/unsatisfactory basis toward the minor. Students taking an internship POL SCI 3940 may count no more than three hours of the internship toward the minor.

Select five of the following:

<table>

</tr>
</tbody>
</table>

Total Hours: 15

¹ May be taken with approval of the faculty advisor.

## Learning Outcomes

Upon completion of the program, graduates will be able to:

- Explain key topics concerning public law.
  - Describe the evolution of legal principles to used to determine the liberties and rights of individuals and groups.
  - Locate, apply, and clearly communicate information relative to aspects of judicial system, including statutes, court decisions, and constitutional provisions.

# Public Policy Administration

## BSPPA

The BSPPA degree has two emphasis areas and a track. The first is a public administration emphasis, which emphasizes management in both the public and nonprofit sectors; it may produce a terminal degree or be a precursor to graduate training. The second is a public policy emphasis in which a student may focus on a particular policy area and also acquire specialized analytic training and research skills, in preparation for relevant entry-level jobs in the public or the voluntary sector as well as in certain parts of the private sector. The track area focuses explicitly on the administrative and leadership concerns of organizations in the nonprofit sector, which constitutes a growing field of research and employment opportunities.

## General Education Requirements

Majors must satisfy the university and college general education requirements (p. 48). Political science courses may be used to satisfy the social sciences requirement.

## Degree Requirements

All BSPPA majors must complete at least 33 but no more then 51, hours in political science. The following core curriculum is required of all BSPPA majors:

### Political Science

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL SCI 1100</td>
<td>Introduction to American Politics (MOTR POSC 101)</td>
<td>3</td>
</tr>
<tr>
<td>POL SCI 1500</td>
<td>Introduction to Comparative Politics (MOTR POSC 202)</td>
<td>3</td>
</tr>
<tr>
<td>POL SCI 3000</td>
<td>Political Analysis</td>
<td>3</td>
</tr>
<tr>
<td>POL SCI 2400</td>
<td>Public Administration</td>
<td>3</td>
</tr>
<tr>
<td>POL SCI 2420</td>
<td>Introduction to Public Policy</td>

</tr>
<tr>
<td>ECON 1002</td>
<td>Principles of Macroeconomics (MOTR ECON 101)</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Hours: 25-30

In addition, students must provide a demonstration of computer proficiency through one of the following:

- INFSYS 1800 Computers and Information Systems, extension courses, or other study approved by the BSPPA coordinator.
• BSPPA students may take a maximum of 3 hours of political science on a satisfactory/unsatisfactory basis, except for the following (which may not be taken on a satisfactory/unsatisfactory basis):

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL SCI 1100</td>
<td>3</td>
</tr>
<tr>
<td>Introduction to American Politics (MOTR POSC 101)</td>
<td>3</td>
</tr>
<tr>
<td>POL SCI 1500</td>
<td>3</td>
</tr>
<tr>
<td>Introduction to Comparative Politics (MOTR POSC 202)</td>
<td>3</td>
</tr>
<tr>
<td>POL SCI 3000</td>
<td>3</td>
</tr>
<tr>
<td>Political Analysis</td>
<td>3</td>
</tr>
<tr>
<td>POL SCI 2400</td>
<td>3</td>

<tr>
<td>Public Affairs Internship</td>
<td></td>
</tr>
<tr>
<td>POL SCI 4950</td>
<td>3</td>
</tr>
<tr>
<td>Senior Seminar in Political Science</td>
<td></td>
</tr>
</tbody>
</table>

### Nonprofit Track

In addition to the core curriculum requirements for all BSPPA majors, students in the nonprofit academic track are required to complete the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL SCI 3420</td>
<td>3</td>
</tr>
<tr>
<td>Public and Nonprofit Personnel Management</td>
<td></td>
</tr>
<tr>
<td>POL SCI 3440</td>
<td>3</td>
</tr>
<tr>
<td>Public and Nonprofit Budgeting</td>
<td>3</td>
</tr>
<tr>
<td>POL SCI 3700</td>
<td>3</td>
</tr>
<tr>
<td>Nonprofit Organizations and Public Policy</td>
<td></td>
</tr>
<tr>
<td>POL SCI 3710</td>
<td>3</td>
</tr>
<tr>
<td>Nonprofits, Civil Society and Volunteerism</td>
<td></td>
</tr>
</tbody>
</table>

Total Hours: 12

In addition, the Public Affairs Internship (POL SCI 3940) required for the BSPPA must be conducted through a nonprofit organization.

Note: Students considering the B.S. in public policy and administration should see a political science adviser as early as possible to plan their program.

### Learning Outcomes

Upon completion of the program, graduates will be able to:

- Explain the characteristics and impact of policy-making institutions and systems, including national, state, and local governments.
- Demonstrate an understanding of administrative systems and processes.
- Apply various methods, tools, and sources to answer important management and policy questions.
- Analyze policies, programs, and relevant issues, formulate evidence-based recommendations, and communicate them with clarity and coherence.
- Apply public policy administration knowledge and engage in real-world problem solving through an internship.
- Plan, execute, and defend a major research project.

Total Hours: 15

Total Hours: 121

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

2. Public Policy Concentration courses taken outside of Political Science do not count toward the minimum of 33 credit hours in Political Science.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

### Public Policy Administration BSPPA, Nonprofit Emphasis

The BSPPA degree has two emphasis areas and a track. The first is a public administration emphasis, which emphasizes management in both the public and nonprofit sectors; it may produce a terminal degree or be a precursor to graduate training. The second is a public policy emphasis in which a student may focus on a particular policy area and also acquire specialized analytic training and research skills, in preparation for relevant entry-level jobs in the public or the voluntary sector as well as in certain parts of the private sector. The track area focuses explicitly on the administrative and leadership concerns of organizations in the nonprofit sector, which constitutes a growing field of research and employment opportunities.
General Education Requirements

Majors must satisfy the university and college general education requirements (p. 48). Political science courses may be used to satisfy the social sciences requirement.

### Total Hours: 120

1

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

**Please Note:** This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.
Public Policy Administration BSPPA, Public Administration Emphasis

The BSPPA degree is designed for students who are interested in working in government or nonprofit organizations, and who have a passion for making a positive impact on society. In this program, students gain understanding of public and nonprofit administration and policymaking in the United States. Students will develop skills for leading in public and nonprofit organizations, and will have the chance to utilize those skills through an internship. The public administration emphasis area focuses explicitly on the administrative and leadership concerns of government organizations and prepares students to work and manage in the public sector.

The BSPPA degree has two emphasis areas and a track. The first is a public administration emphasis, which emphasizes management in both the public and nonprofit sectors; it may produce a terminal degree or be a precursor to graduate training. The second is a public policy emphasis in which a student may focus on a particular policy area and also acquire specialized analytic training and research skills, in preparation for relevant entry-level jobs in the public or the voluntary sector as well as in certain parts of the private sector. The track area focuses explicitly on the administrative and leadership concerns of organizations in the nonprofit sector, which constitutes a growing field of research and employment opportunities.

General Education Requirements

Majors must satisfy the university and college general education requirements (p. 48). Political science courses may be used to satisfy the social sciences requirement.

Degree Requirements

All BSPPA majors must complete at least 33 but no more then 51, hours in political science. The following core curriculum is required of all BSPPA majors:

Political Science

<table>
<thead>

<td>Urban Administration</td>
<td>3</td>
</tr>
</tbody>
</table>

Select at least one additional Political Science Course 3

Total Hours 15

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Explain the characteristics and impact of policy-making institutions and systems, including national, state, and local governments.
- Demonstrate an understanding of administrative systems and processes.
- Apply various methods, tools, and sources to answer important management and policy questions.
- Analyze policies, programs, and relevant issues, formulate evidence-based recommendations, and communicate them with clarity and coherence.
- Apply public policy administration knowledge and engage in real-world problem solving through an internship.
- Plan, execute, and defend a major research project.
- Demonstrate an understanding of theories, concepts and practices relevant to public administration.
- Apply critical skills for working in public administration such as interpreting budget documents and making budget choices, creating communications plans, and developing recruitment and hiring policies.

- POL SCI 2420 Introduction to Public Policy 3
- POL SCI 3940 Public Affairs Internship 1-6
- POL SCI 4950 Senior Seminar in Political Science 3

Public Policy Administration

Public Policy Emphasis

The BSPPA degree is designed for students who are interested in understanding and influencing public policy and administration, and who have a passion for making a positive impact on society. Students will gain understanding of developing, implementing, and evaluating public policy, and leading in public and nonprofit organizations. Students will have the chance to utilize those skills through an internship. In the public policy track, students work with a faculty advisor to develop a focus on a particular policy area in preparation for relevant jobs in the public, nonprofit or private sector.

The BSPPA degree has two emphasis areas and a track. The first is a public administration emphasis, which emphasizes management in both the public and nonprofit sectors; it may produce a terminal degree or be a precursor to graduate training. The second is a public policy emphasis in which a student may focus on a particular policy area and also acquire specialized analytic training and research skills, in preparation for relevant entry-level jobs in the public or the voluntary sector as well as in certain parts of the private sector. The track area focuses explicitly on the administrative and leadership concerns of organizations in the nonprofit sector, which constitutes a growing field of research and employment opportunities.

Public Policy Emphasis Area

Students will adopt a policy concentration of at least 15 credit hours with approval from the BSPPA coordinator. Possible areas of specialization include, but are not limited to, environmental policy, government and business, society and the legal system, urban policy, labor studies, health care, human services, and nonprofit service provision. In fulfilling the concentration requirement, students, in consultation with the BSPPA
coordinator, will select courses from related disciplines including at least
two political science courses related to the policy area.

**Learning Outcomes**

Upon completion of the program, graduates will be able to:

- Explain the characteristics and impact of policy-making institutions and
  systems, including national, state, and local governments.
- Demonstrate an understanding of administrative systems and
  processes.
- Apply various methods, tools, and sources to answer important
  management and policy questions.
- Analyze policies, programs, and relevant issues, formulate evidence-
  based recommendations, and communicate them with clarity and
  coherence.
- Apply public policy administration knowledge and engage in real-world
  problem solving through an internship.
- Plan, execute, and defend a major research project.
- Demonstrate an understanding of theories, concepts and practices
  relevant to the student’s chosen policy area.
- Compare and contrast different approaches and frameworks relevant to
  the student’s chosen policy area.

</tr>
</tbody>
</table>

Total Hours: 25

A thesis is not required to complete the program. However, writing is an
important component of the degree, and students will complete written
analyses as part of their coursework and/or internships.
Electives

Twelve credit hours are taken as electives based on a student's interest. The electives are organized into emphasis areas, listed above in the MPPA program.

For each student in this program, the MPPA Director and the BSPPA advisor in the Department of Political Science at UMSL, will jointly identify and approve four MPPA courses (totaling 12 credits) that cover, at a more advanced level, undergraduate courses that would otherwise be taken for the BSPPA degree. These courses will substitute for (and should not duplicate) BSPPA courses, and will count toward completion of both BSPPA and MPPA requirements.

Degree requirements remain the same for the two degrees, but students admitted into this accelerated program will be able to earn 12 graduate credits prior to completing their undergraduate degrees. Upon completion of the required coursework for the MPPA, the BSPPA and MPPA degrees will be awarded.

Admission Requirements

BSPPA majors must have completed between 60 and 108 credit hours before applying for admission into this dual degree program. It is recommended that applicants apply after completing 90 credit hours. Applicants must have a minimum 3.0 overall GPA as well as a minimum 3.0 GPA in the major. Applications will be submitted to the Master of Public Policy Administration program and decisions will be made by the director in consultation with the BSPPA advisor in the Department of Political Science. Applicants must demonstrate proficiency in college algebra or equivalent. The application must be accompanied by three letters of recommendation, including at least one from a current, full-time faculty member, and a two- to three-page statement explaining how the BSPPA/MPPA program fits in with the applicant's educational and professional goals.

Public Policy Administration

MPPA

Admissions Requirements

Applicants must meet the following program admission requirements in addition to the general requirements of the Graduate School.

The MPPA admissions committee carefully evaluates each applicant record using the five following criteria:

- **Bachelor’s Degree** by the time of enrollment, prospective students must have obtained a baccalaureate degree or the equivalent from an accredited college or university. Applicants must submit official transcripts documenting the baccalaureate degree and all other prior college and graduate-level coursework completed.

- **Grade Point Average**: A minimum GPA of 3.0 on a 4.0 scale is required to be considered for regular admission. This GPA is higher than the minimum for the Graduate School. An undergraduate GPA below 3.0 will be considered on an individual basis for restricted admission.

- **Demonstrated proficiency in college algebra or the equivalent**. Applicants must demonstrate proficiency in college algebra or the equivalent. Graduate coursework also will be taken into consideration. Applicants who do not meet these criteria may be admitted on a restricted basis and asked to satisfactorily complete a math proficiency test.

- **Letters of Recommendation**. Applicants must obtain three letters of recommendation. The letters should be from those who are familiar with your professional and/or academic skills. At least one of the letters must be from a current or former college-level instructor.

- **Personal Statement**. Applicants are required to submit a 2-3 page personal statement to demonstrate competence in writing. The statement should explain how the MPPA program fits in with the applicant's educational and professional goals. This personal statement may be sent directly to the MPPA program; a short statement of purpose in the web-based admission application is not sufficient.

Degree Requirements

The MPPA degree consists of 40 credit hours, 25 of which are taken as part of the core curriculum and 15 that are electives. Students who complete the degree must demonstrate the following:

- Design, research, write, and defend analyses of substantive public policy problems and/or potential solutions
- Use data and sophisticated analytic tools (qualitative and quantitative) to conduct research in public policy and administration
- Understand the policy and internal/external environments of public and nonprofit organizations
- Develop expertise in a substantive area of public policy administration

Curriculum

All candidates for the MPPA degree must complete 25 hours in the core curriculum sequence composed of the following public policy administration courses:

**Policy Analysis and Economics**

<table>

</tr>
</tbody>
</table>

**Total Hours**

25

A thesis is not required to complete the program. However, writing is an important component of the degree, and students will complete written analyses as part of their coursework and/or internship.

P P ADM 6000 should be taken at the beginning of the program. It is strongly recommended that P P ADM 6010 and ECON 5550 be taken early in a student's course plan. P P ADM 6900 is a capstone course and must be taken toward the end of the program.
Students may select one of three emphasis areas in which to concentrate their advanced studies:

- Policy Research and Analysis,
- Local Government Management,
- Nonprofit Organization Management.

Students may also select an individualized emphasis area in consultation with their advisor and with approval of the Director.

Prior to the completion of 15 hours in the MPPA program, students should identify an emphasis area. In each of the emphasis areas students may be able to substitute another course for a specified elective, with the MPPA Director’s approval. Specific requirements for each emphasis area are as follows:

**Internships**

An internship is required for students without substantial experience in the public or nonprofit sectors. Interns may be placed in planning agencies, city managers’ offices, administrative departments, or nonprofit agencies. Credit is granted after successful completion of the internship and a written paper at the end of the semester.

MPPA students currently employed in public agencies or nonprofit organizations can receive 3 hours of credit for internships with their employer. To do so, students must develop, in consultation with the internship coordinator, special research projects outside the scope of their regular employment duties.

Students who have significant relevant experience in the public or nonprofit sector may request the internship requirement be waived. To request a waiver, students must submit a written request outlining the student’s professional or managerial field experience with appropriate documentation. Any request for a waiver from the internship requirement must be approved by the program director. Students who receive a waiver must take an additional 3 hours of electives in lieu of the internship.

Prior to the completion of 15 hours in the MPPA program, the student must present a proposal for 15 hours of specific coursework for approval by the student’s advisor and the MPPA program director. The 15 hours must include P P ADM 6950, Internship (in an assignment relevant to the emphasis area). Students with significant public or nonprofit sector experience may request permission to waive the internship and replace it with an additional three-credit hour elective.

**Public Policy Administration MPPA, Individualized Emphasis**

**Admissions Requirements**

Applicants must meet the following program admission requirements in addition to the general requirements of the Graduate School.

The MPPA admissions committee carefully evaluates each applicant record using the five following criteria:

- **Bachelor’s Degree** by the time of enrollment, prospective students must have obtained a baccalaureate degree or the equivalent from an accredited college or university. Applicants must submit official transcripts documenting the baccalaureate degree and all other prior college and graduate-level coursework completed.
- **Grade Point Average**: A minimum GPA of 3.0 on a 4.0 scale is required to be considered for regular admission. This GPA is higher than the minimum for the Graduate School. An undergraduate GPA below 3.0 will be considered on an individual basis for restricted admission.
- **Demonstrated proficiency in college algebra or the equivalent**. Applicants must demonstrate proficiency in college algebra or the equivalent. Graduate coursework also will be taken into consideration. Applicants who do not meet these criteria may be admitted on a restricted basis and asked to satisfactorily complete a math proficiency test.
- **Letters of Recommendation**. Applicants must obtain three letters of recommendation. The letters should be from those who are familiar with your professional and/or academic skills. At least one of the letters must be from a current or former college-level instructor.
- **Personal Statement**. Applicants are required to submit a 2-3 page personal statement to demonstrate competence in writing. The statement should explain how the MPPA program fits in with the applicant’s educational and professional goals. This personal statement may be sent directly to the MPPA program; a short statement of purpose in the web-based admission application is not sufficient.

**Degree Requirements**

The MPPA degree consists of 40 credit hours, 25 of which are taken as part of the core curriculum and 15 that are electives. Students who complete the degree must demonstrate the following:

- Design, research, write, and defend analyses of substantive public policy problems and/or potential solutions
- Use data and sophisticated analytic tools (qualitative and quantitative) to conduct research in public policy and administration
- Understand the policy and internal/external environments of public and nonprofit organizations
- Develop expertise in a substantive area of public policy administration

Students may also select an individualized emphasis area in consultation with their advisor and with approval of the Director.

Prior to the completion of 15 hours in the MPPA program, students should identify an emphasis area. In each of the emphasis areas students may be able to substitute another course for a specified elective, with the MPPA Director’s approval. Specific requirements for each emphasis area are as follows:

### Internships

An internship is required for students without substantial experience in the public or nonprofit sectors. Interns may be placed in planning agencies, city managers’ offices, administrative departments, or nonprofit agencies. Credit is granted after successful completion of the internship and a written paper at the end of the semester.

MPPA students currently employed in public agencies or nonprofit organizations can receive 3 hours of credit for internships with their employer. To do so, students must develop, in consultation with the internship coordinator, special research projects outside the scope of their regular employment duties.

Students who have significant relevant experience in the public or nonprofit sector may request the internship requirement be waived. To request a waiver, students must submit a written request outlining the student’s professional or managerial field experience with appropriate documentation. Any request for a waiver from the internship requirement must be approved by the program director. Students who receive a waiver must take an additional 3 hours of electives in lieu of the internship.

### Emphasis Area Requirements

Prior to the completion of 15 hours in the MPPA program, the student must present a proposal for 15 hours of specific coursework for approval by the student’s advisor and the MPPA program director. The 15 hours must include P P ADM 6950, Internship (in an assignment relevant to the emphasis area). Students with significant public or nonprofit sector experience may request permission to waive the internship and replace it with an additional three-credit hour elective.

### Public Policy Administration MPPA, Local Government Management Emphasis

#### Admissions Requirements

Applicants must meet the following program admission requirements in addition to the general requirements of the Graduate School.

The MPPA admissions committee carefully evaluates each applicant record using the five following criteria:

- **Bachelor’s Degree** by the time of enrollment, prospective students must have obtained a baccalaureate degree or the equivalent from an accredited college or university. Applicants must submit official transcripts documenting the baccalaureate degree and all other prior college and graduate-level coursework completed.
- **Grade Point Average**: A minimum GPA of 3.0 on a 4.0 scale is required to be considered for regular admission. This GPA is higher than the minimum for the Graduate School. An undergraduate GPA below 3.0 will be considered on an individual basis for restricted admission.
- **Demonstrated proficiency in college algebra or the equivalent.** Applicants must demonstrate proficiency in college algebra or the equivalent. Graduate coursework also will be taken into consideration. Applicants who do not meet these criteria may be admitted on a restricted basis and asked to satisfactorily complete a math proficiency test.
- **Letters of Recommendation.** Applicants must obtain three letters of recommendation. The letters should be from those who are familiar with your professional and/or academic skills. At least one of the letters must be from a current or former college-level instructor.
- **Personal Statement.** Applicants are required to submit a 2-3 page personal statement to demonstrate competence in writing. The statement should explain how the MPPA program fits in with the applicant’s educational and professional goals. This personal statement may be sent directly to the MPPA program; a short statement of purpose in the web-based admission application is not sufficient.

#### Degree Requirements

The MPPA degree consists of 40 credit hours, 25 of which are taken as part of the core curriculum and 15 that are electives. Students who complete the degree must demonstrate the following:

- Design, research, write, and defend analyses of substantive public policy problems and/or potential solutions
- Use data and sophisticated analytic tools (qualitative and quantitative) to conduct research in public policy and administration
- Understand the policy and internal/external environments of public and nonprofit organizations
- Develop expertise in a substantive area of public policy administration

#### Curriculum

All candidates for the MPPA degree must complete 25 hours in the core curriculum sequence composed of the following public policy administration courses:
A thesis is not required to complete the program. However, writing is an important component of the degree, and students will complete written analyses as part of their coursework and/or internship.

P P ADM 6000 should be taken at the beginning of the program. It is strongly recommended that P P ADM 6010 and ECON 5550 be taken early in a student's course plan. P P ADM 6900 is a capstone course and must be taken toward the end of the program.

Students may select one of three emphasis areas in which to concentrate their advanced studies:

- Policy Research and Analysis,
- Local Government Management,
- Nonprofit Organization Management.

Students may also select an individualized emphasis area in consultation with their advisor and with approval of the Director.

Prior to the completion of 15 hours in the MPPA program, students should identify an emphasis area. In each of the emphasis areas students may be able to substitute another course for a specified elective, with the MPPA Director’s approval. Specific requirements for each emphasis area are as follows:

### Internships

An internship is required for students without substantial experience in the public or nonprofit sectors. Interns may be placed in planning agencies, city managers' offices, administrative departments, or nonprofit agencies. Credit is granted after successful completion of the internship and a written paper at the end of the semester.

MPPA students currently employed in public agencies or nonprofit organizations can receive 3 hours of credit for internships with their employer. To do so, students must develop, in consultation with the internship coordinator, special research projects outside the scope of their regular employment duties.

Students who have significant relevant experience in the public or nonprofit sector may request the internship requirement be waived. To request a waiver, students must submit a written request outlining the student's professional or managerial field experience with appropriate documentation. Any request for a waiver from the internship requirement must be approved by the program director. Students who receive a waiver must take an additional 3 hours of electives in lieu of the internship.

**Public Relations Undergraduate Certificate**

The Certificate in Public Relations offers a sequence of courses that will prepare students for a successful career in public relations. This writing-intensive certificate program includes a selection of required and elective courses that integrate practical knowledge of the public relations industry with communication planning and research tactics needed in today's ever-changing world. The sequence of courses is based upon the latest report from the Commission on Public Relations Education and the certification requirements of the Public Relations Society of America. To earn the certificate, student must complete a minimum of 21 credits in the designated courses with a grade of "C" or better.

School Counseling (Post-Master's) Graduate Certificate

This graduate certificate is designed for students who want to become professional school counselors and have already earned a Master's degree in another counseling specialty. The goals of the Post-Graduate Certificate in School Counseling are: (a) to provide an academic program to help counselors increase their competency to design, implement, and assess comprehensive school counseling programs in K-12 settings and (b) to provide an academic pathway for counselors to pursue state school counseling certification.

The school counseling degree coordinator will act as the program director for this graduate certificate.

Admission Requirements

Requirements for admission to the Post-Graduate School Counseling Certificate program include:

1. Cumulative GPA (undergraduate and graduate) of 2.75 or better on 4.0 scale and graduate GPA of 3.0 or better;
2. Successful completion of a master's degree in Counseling (e.g., Clinical Mental Health Counseling; Community Counseling; Marriage, Couple, and Family Counseling; Career Counseling) from an accredited university with a minimum of 48 semester credit hours completed;
3. Two letters of recommendation with at least one from a current or former college-level instructor or counseling supervisor who has observed their clinical work;
4. Supplemental application with coursework review;
5. Two-page personal statement explaining the applicant's personal and professional goals.
6. Video role play of counseling skills with mock-client.

Certificate Requirements

Certificate students should have completed the following courses or their equivalencies from their previous counseling graduate program:

- Theories of Counseling
- Helping Relationship Skills
- Ethical and Professional Issues in Counseling
- Foundations for Multicultural Counseling
- Group Procedures in Counseling
- Career Information and Development
- Assessment and Testing
- Psychopathology or Diagnosis
- Lifespan Development
- Education Research Methods

If any of these courses were not completed, the required course will need to be completed as part of the post-graduate certificate plan of study. The prerequisite courses do not have to be completed at UMSL.

Fifteen semester credit hours of graduate course work are required for the graduate certificate. Twelve of these semester credit hours must consist of the core courses. A minimum of three additional hours are to be chosen from the list of electives. All 15 credits must be completed at UMSL.

Total Hours

15

A 300 hour internship must be accomplished in K-12 school sites. Course-embedded Department of Elementary and Secondary Education performance assessment occurs in CNS ED 6280. Students pursuing school counseling certification in Missouri will complete field experience placements at two different school levels, with 250 hours at a major placement level and 50 hours at a minor placement level. At least 50 hours must occur in K-5 settings.

Beyond completion of graduate course requirements, students will need to pass the Missouri Content Assessment (MoCA) in School Counseling.
and apply to the state department of education before they can be recommended by the university for school counseling certification.

School Psychology EdS

The Educational Specialist in School Psychology (Ed.S.) degree program at the University of Missouri-St. Louis is a National Association of School Psychologists-approved program whose primary goal is to prepare future school psychologists to assume a wide array of professional roles in schools. Built upon a foundation of data-based decision making and problem solving methodology, the program highlights the critical importance of providing timely prevention, early intervention, and intensive research-based interventions to address academic and mental/behavioral health difficulties within a framework of multiliteracy systems of support.

Degree Requirements

The Ed.S. in School Psychology degree program consists of 60 graduate semester hours that includes coursework in psychological and educational foundations, psychoeducational assessment, and direct and indirect service delivery. Prevention and early intervention of academic, behavioral, and social-emotional problems through consultation, interdisciplinary collaboration, and systems-level interventions are highlighted throughout the program. The Ed.S. degree is a small-cohort program consisting of 10-12 candidates per cohort that maximizes close relationships with faculty and field-based practitioners to develop professional skills and competencies.

Admission requirements include a 3.0 undergraduate GPA, three letters of recommendation, a personal statement describing personal goals (not to exceed five double-spaced typed pages) and a curriculum vitae detailing relevant experience with children, adolescents, and families. Prerequisite coursework in the areas of Developmental Psychology, and Psychological Statistics is required for admission. Following initial screening, finalists will be invited for an on-campus interview with the School Psychology Program faculty and current Ed.S. candidates. All required application materials will be considered equally when making admission decisions. Applications are reviewed annually with a January 15 deadline. The program may review additional applications until all spaces in the cohort are filled.

Transfer credit may be granted for graduate coursework completed prior to entering the program, but strict limitations apply. The Ed.S. in School Psychology degree program involves a minimum of three years of intensive study. Though it is possible to complete the first year of the curriculum on a part-time basis, please note that practicum during the second year involves two days per week working in a school with a school psychologist, and internship is a yearlong full-time supervised experience. Consequently, full-time study is recommended and preferred. Graduates of the program are immediately eligible for School Psychologist Certification from the Missouri Department of Elementary and Secondary Education and the Nationally Certified School Psychologist credential from the National Association of School Psychologists. As such, graduates from the program will meet or exceed certification requirements in the majority if not all states in the country.

Learning Outcomes

The UMSL School Psychology Program promotes development of advanced student- and systems-level knowledge and skills to support all students via the following learning outcomes:

A. Improved Academic and Mental/Behavioral Health Outcomes

Candidates will develop advanced skills in the areas of multifaceted assessment and data collection techniques, treatment planning and implementation, and evaluation of student responses to academic and mental/behavioral health prevention and intervention efforts.

B. Culturally-Responsive Practice and Social Justice

Candidates will understand identity development and develop the skills necessary to work with and advocate for culturally- and linguistically-diverse students and families in a competent and socially-just manner.

C. Program Development and Evaluation

Candidates will learn qualitative, quantitative, and mixed methods data collection and research methodologies that will enable them to develop,
implement, and evaluate a wide array of school-based interventions and programs for students, educators, and parents.

D. Facilitation of Organizational/Systems Change

Candidates will acquire a systems-level perspective of the educational, social, and political influences on development and will use this knowledge to promote systemic and policy changes that will improve educational and psychological outcomes for all students.

Secondary Education BSEd English Emphasis

The Bachelor's of Science in Secondary Education degree prepares students to teach in secondary school settings, grades 9-12. This program requires the selection and completion of required coursework in a specific content area.

University General Education and Graduation Requirements

B.S.Ed. degree candidates must complete the following General Education (p. 48) requirements (p. 48) and Graduation requirements (p. 15) of the University as outlined in this Bulletin.

The courses listed below fulfill General Education requirements and best prepare students for advanced education coursework and licensure exams.

Program Requirements

All students in the B.S.Ed. in Secondary Education program are required to take the following Teacher Education courses. Each student must also select a content area and complete the required courses and certification assessments for that area as specified by the Missouri Department of Elementary and Secondary Education.

Grade Requirement

Professional Education courses must be completed with a grade of C or better (courses completed with a grade of C- or below must be retaken).

GPA Requirement

Beginning with those students graduating in May 2017 who will also receive teaching certification, the Missouri Department of Elementary and Secondary Education requires a 3.0 GPA in professional education courses, a 3.0 GPA in the teaching content field, and a 2.75 overall GPA.

Assessment Requirement

Students must pass the required DESE certification assessments to receive the B.S.Ed. degree.

Preparing for the Teacher Education Program

Total Hours 16

¹ SEC ED 4880 is not required for foreign language emphasis areas.

In addition to the above courses, students must complete 30-50 hours of required coursework in one specific content area (English, French K-12, French K-12, German K-12, or Spanish K-12).
Spanish K-12, mathematics, biology, chemistry, physics, or social studies, as well as the appropriate methods course:

SEC ED 4011  The Curriculum And Methods Of Teaching History And Social Studies  3
SEC ED 4240  Curriculum and Methods of Teaching Physical Sciences  3
SEC ED 4589  Curriculum and Methods of Teaching Foreign Languages  3
SEC ED 4646  The Curriculum And Methods Of Teaching Math  3
SEC ED 4885  The Curriculum And Methods Of Teaching English  3
SEC ED 4985  Curriculum and Methods of Teaching Life Sciences  3

The program will culminate in the following practicum courses:

SEC ED 4989  Practicum I: Site-Based Experience  3
SEC ED 4990  Practicum II: Site-Based Experience  12

Total Credit Hours: 120 Minimum

B.S. Ed. in Secondary Education with Emphasis in English

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. or B.S. degree in the discipline; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

B.A. in English with Master’s Level Coursework for Secondary Teacher Certification

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Continually reflect on professional growth to improve student learning outcomes/enhance student learning.
- Integrate technology to create meaningful student learning within the context of a global digital society.
- Apply content and pedagogical knowledge to create authentic and deep learning experiences.
- Use learning science principles to design, implement, and evaluate curriculum based on learning standards.
- Foster effective working relationships with students, school colleagues, families, and community members to enhance student learning and well-being.
- Design and establish a safe, inclusive, and respectful learning environment that nurtures the intellectual, social, and personal development of all students.
- Use equitable frameworks and inclusive practices to create a variety of instructional and assessment opportunities adapted to diverse learners to encourage all students’ critical thinking, problem solving, and performance skills.

Secondary Education BSEd Mathematics Emphasis

The Bachelor’s of Science in Secondary Education degree prepares students to teach in secondary school settings, grades 9-12. This program requires the selection and completion of required coursework in a specific content area.

University General Education and Graduation Requirements

B.S.Ed. degree candidates must complete the following General Education (p. 48) requirements (p. 48) and Graduation requirements (p. 15) of the University as outlined in this Bulletin.

The courses listed below fulfill General Education requirements and best prepare students for advanced education coursework and licensure exams.

Core Areas:

The B.S. Ed. is a professional education degree designed for students who wish to pursue a teaching career in secondary schools. Much of the discipline-specific coursework parallels the B.A. degree in the language; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification. Therefore, students interested in the B.S. Ed. should contact the advising office (OASIS) 314-516-5937 in the College of Education for discipline-specific requirements. Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.
B.A. in a Foreign Language with Master’s Level Coursework for Secondary Teacher Certification

In addition to the B.S. Ed., students may opt to complete a B.A. or B.S. degree in their discipline as an undergraduate, followed by admission to the Graduate School for Master’s level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a Master’s Degree in Secondary Education, with additional coursework. Students interested in Master’s Level teacher certification should contact the advising office (OASIS) 314-516-5937 in the College of Education.

Note: To obtain teaching certification, DESE requires a 3.0 GPA in the discipline and professional education coursework, as well as a 2.75 GPA overall.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Continually reflect on professional growth to improve student learning outcomes/enhance student learning.
- Integrate technology to create meaningful student learning within the context of a global digital society.
- Apply content and pedagogical knowledge to create authentic and deep learning experiences.
- Use learning science principles to design, implement, and evaluate curriculum based on learning standards.
- Foster effective working relationships with students, school colleagues, families, and community members to enhance student learning and well-being.
- Design and establish a safe, inclusive, and respectful learning environment that nurtures the intellectual, social, and personal development of all students.
- Use equitable frameworks and inclusive practices to create a variety of instructional and assessment opportunities adapted to diverse learners to encourage all students’ critical thinking, problem solving, and performance skills.

Secondary Education BSEd Science-Biology Emphasis

The Bachelor’s of Science in Secondary Education degree prepares students to teach in secondary school settings, grades 9-12. This program requires the selection and completion of required coursework in a specific content area.

University General Education and Graduation Requirements

B.S.Ed. degree candidates must complete the following General Education (p. 48) requirements (p. 48) and Graduation requirements (p. 15) of the University as outlined in this Bulletin.

The courses listed below fulfill General Education requirements and best prepare students for advanced education coursework and licensure exams.

Program Requirements

All students in the B.S.Ed. in Secondary Education program are required to take the following Teacher Education courses. Each student must also select a content area and complete the required courses and certification assessments for that area as specified by the Missouri Department of Elementary and Secondary Education.

Grade Requirement

Professional Education courses must be completed with a grade of C or better (courses completed with a grade of C- or below must be retaken).

GPA Requirement

Beginning with those students graduating in May 2017 who will also receive teaching certification, the Missouri Department of Elementary and Secondary Education requires a 3.0 GPA in professional education courses, a 3.0 GPA in the teaching content field, and a 2.75 overall GPA.

Assessment Requirement

Students must pass the required DESE certification assessments to receive the B.S.Ed. degree.

Upon completion of the program, graduates will be able to:

- Continually reflect on professional growth to improve student learning outcomes/enhance student learning.
- Integrate technology to create meaningful student learning within the context of a global digital society.
- Apply content and pedagogical knowledge to create authentic and deep learning experiences.
- Use learning science principles to design, implement, and evaluate curriculum based on learning standards.
- Foster effective working relationships with students, school colleagues, families, and community members to enhance student learning and well-being.
- Design and establish a safe, inclusive, and respectful learning environment that nurtures the intellectual, social, and personal development of all students.
- Use equitable frameworks and inclusive practices to create a variety of instructional and assessment opportunities adapted to diverse learners to encourage all students’ critical thinking, problem solving, and performance skills.

Secondary School Teaching Graduate Certificate

The Graduate Certificate in Secondary School Teaching prepares those with at least a bachelor's degree for teaching in high school. Normally this Certificate is taken by students who are not simultaneously pursuing the M.Ed. and teacher certification.

This program of study is for individuals with a bachelor's degree who would like to prepare for teacher certification in Secondary School Teaching. This graduate certificate program option leads to Missouri Initial Professional Teacher Certification in the specified discipline.

Admission Requirements for the Graduate Certificate in Secondary School Teaching:

1. A passing score on the designated Missouri Content Examination or an approved program of study
2. A 2.75 or higher overall GPA
3. Approved results of the Family Care Safety Registry
4. A clear TB test or chest X-ray, if appropriate

Total Hours: 37

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Continually reflect on professional growth to improve student learning outcomes/enhance student learning.
- Integrate technology to create meaningful student learning within the context of a global digital society.
- Apply content and pedagogical knowledge to create authentic and deep learning experiences.
- Use learning science principles to design, implement, and evaluate curriculum based on learning standards.
- Foster effective working relationships with students, school colleagues, families, and community members to enhance student learning and well-being.
- Design and establish a safe, inclusive, and respectful learning environment that nurtures the intellectual, social, and personal development of all students.
- Use equitable frameworks and inclusive practices to create a variety of instructional and assessment opportunities adapted to diverse learners to encourage all students’ critical thinking, problem solving, and performance skills.

Social Justice in Education Graduate Certificate

The Graduate Certificate in Social Justice in Education supports the understanding, knowledge, and skills needed to create a just and equitable society. The curriculum focuses on institutional and personal processes, values, attitudes, and behaviors that sustain injustice while encouraging the development of positive educational, familial, community-centric, and social group advocacy and action.

The Graduate Certificate in Social Justice is a 12 credit hour program. The following courses are required:

Social Work BSW

General Education Requirements

 Majors must satisfy the university and college general education requirements (p. 48), although proficiency in a foreign language is recommended but not required.

Courses required for the BSW degree may not be taken on a satisfactory/unsatisfactory basis except SOC WK 4800 and SOC WK 4850.

Admission Requirements

Students entering UMSL as freshman and as transfer students should indicate a pre-social work major. Students must apply to the program concurrently with SOC WK 3100. Admission to the program is conditional upon the successful completion of all necessary requirements.

Requirements for Admission to the Social Work program:

• Junior standing
• GPA of 2.75 or higher in social work related areas and an overall GPA of 2.5 or higher.
• Submission of:
  • Application for admission to the social work program.
  • Two letters of reference: one from a college or university professor and one other from a work or volunteer experience supervisor.
• Completion of SOC WK 2000, SOC WK 2001, and SOC WK 2200 or their equivalents or completion of an A.A. in Human Services,
• Completion of PSYCH 1003 and SOC 1010 with a C- or better.
• Attendance at Professional Development Workshop held in the School of Social Work.

Applicants may be asked to meet with the Social Work Admissions Committee.

Degree Requirements

Students must have a minimum GPA of 2.5 in social work and related-area requirement courses to enter field practicum. Candidates for this degree program must complete the core requirements including the following social work courses:

SOC WK 2000 Social Work and Social Issues 3
SOC WK 2001 Social Work and Social Issues Lab 1
SOC WK 2200 Social Welfare as a Social Institution 3
SOC WK 3100 Social Work Practice with Individuals 3
SOC WK 3210 Social Issues and Social Policy Development 3
SOC WK 3410 Research Design in Social Work 3

SOC WK 3510 Human Behavior in the Social Environment 3
SOC WK 3700 Diversity and Social Justice 3
SOC WK 4110 Social Work Practice with Families and Groups 3
SOC WK 4300 Social Work Practice with Communities 3
SOC WK 4350 Human Service Organizations 3
SOC WK 4800 & SOC WK 4850 Supervised Field Experience in Social Work I and Supervised Field Experience in Social Work II 8
SOC WK 4801 & SOC WK 4851 Integrative Field Experience Seminar I and Integrative Field Seminar II 4

Total Hours 43

A minimum of 43 hours or a maximum of 50 hours must be taken in social work. A minimum of 30 hours is required in related area departments.

Evaluation of social work transfer credits will be done by a social work adviser on an individual basis.

Related Area Requirements

The following courses, or their alternatives, are required:

ECON 1000 Economics in Everyday Life (MOTR ECON 100) 3
or ECON 1005 Family Economics and Household Development
POL SCI 1100 Introduction to American Politics (MOTR POSC 101) 3
PSYCH 1003 General Psychology (MOTR PSYC 100) 3

Biology

Select one of the following: 3-4

BIOL 1012 General Biology: The Science of Life (MOTR BIOL 100)
BIOL 1102 Human Biology (MOTR LIFS 150)
BIOL 1131 Human Physiology and Anatomy I
BIOL 1141 Human Physiology and Anatomy II

Sociology

SOC 1010 Introduction to Sociology (MOTR SOCIO 101) 3
SOC 2160 Sociological Social Psychology 3

Select one of the following: 3-4

SOC 3220 Quantitative Data Analysis in Social Science Research
PSYCH 2201 Psychological Statistics
CRIMIN 2220 Statistical Analysis in Criminology and Criminal Justice

At least 9 additional hours must be taken in social work, sociology, political science, psychology, gender studies, anthropology, criminology and criminal justice, economics, gerontology, or child advocacy studies at the 2000 level or above.

Total Hours 30-32
Hours taken in social work will apply toward the maximum of 50 hours that may be taken in social work courses. The Social Work program may require students to pass a placement test to enroll in the next level course, provided this test or its equivalent is administered to all students seeking to enroll in that course.

Social work majors must have a grade of C- or better and maintain a cumulative grade point average of 2.5 or better in all course work specifically required for the major, with satisfactory grades in practicum.

Note: Anthropology, biological sciences, economics, and Spanish courses are strongly recommended by graduate schools of social work.

Latin Honors Requirements
In accordance with the University’s Latin Honors policy (p. 22), candidates graduating from the School of Social Work in the 2022-2023 Academic Year must meet the following GPA qualifications:

<table>
<thead>
<tr>
<th>Summa Cum Laude</th>
<th>3.969</th>
</tr>
</thead>
<tbody>
<tr>
<td>Magna Cum Laude</td>
<td>3.889</td>
</tr>
<tr>
<td>Cum Laude</td>
<td>3.671</td>
</tr>
</tbody>
</table>

Objectives of the BSW Program
The BSW program has the following educational outcomes. Students who graduate with a BSW will be generalist practitioners who:

- Identify as professional social workers and conduct themselves accordingly.
- Understand the values and ethics of the social work profession and the relationship between personal beliefs and values, professional values and ethics, and professional social work practice.
- Utilize critical thinking, capacity building, and analytical and communication skills to synthesize and analyze information to inform social work practice.
- Understand the importance of diversity, difference, power, and privilege in shaping life experiences for diversity-competent practice.
- Possess the knowledge and skills to fight effectively against human oppression, discrimination, and social inequity and to formulate and foster social change initiatives to advance social and economic justice.
- Engage in research-informed practice and practice-informed research to evaluate professional practice and/or the professional practice of others.
- Apply knowledge of human behavior and the social environment to guide assessment and intervention.
- Understand major social and welfare policies and analyze and formulate policies to advocate for social and economic justice.
- Use leadership skills to respond to the changing context of social work practice.
- Utilize skills of engagement, assessment, intervention and evaluation, including theory and practice skills, across all levels of practice.

<td>SOC WK 3700</td>
<td>Diversity and Social Justice</td>
<td>3</td>
</tr>
</tbody>
</table>

Select one additional social work course at the 3000 level or above.

Total Hours: 15
Social Work MSW

Admission Requirements

Admission to the MSW Program requires admission to the University of Missouri-St. Louis Graduate School and acceptance by the School of Social Work. Applicants to the program must meet the following requirements to be considered for admission:

- Completion of a bachelor’s degree from a college or university accredited by a recognized regional accrediting organization.
- Completion of a liberal arts education including courses in the humanities, the social and behavioral sciences, and the physical sciences. These courses must include a college level statistics course with a grade of C or better. Students may be admitted provisionally without statistics, but they cannot proceed in the MSW program past the first semester until this requirement is met.
- Attainment of a cumulative grade point average of at least 2.75 on a 4.0 scale (3.0 preferred) for all undergraduate course work. Students may be admitted provisionally if their undergraduate GPA is between 2.5 and 2.75. Students with a cumulative undergraduate GPA below 2.5 will not be admitted.
- Submission of the following documents by the admission deadline:
  - A completed application to the UMSL Graduate School and a completed MSW supplemental application.
  - Two written essays.
  - Three letters of reference. – One from a professor in your major field of study if you have graduated within the past five years, and two others from work or volunteer supervisors or other professional references. Letters from employees/supervisees, friends, and family may not be used.
  - Official transcripts from all colleges and university attended.
  - Applicable fees.

Application Deadline

The deadline for application to the MSW program is March 1 for admission in the following fall semester and October 15 for admission in the following Spring semester. See School of Social Work’s website for more details.

Admissions to the Program with Advanced Standing

Applicants with a BSW, BASW, or BSSW, from an accredited social work program may be given up to 24 credit hours of advanced standing for foundation social work courses. Admission to the advanced standing program is available to applicants who meet the general admission requirements and who:

1. Have earned a bachelor’s degree in social work from a program accredited by the Council on Social Work Education within five years of applying to the MSW Program, and
2. Have earned a grade point average of at least 3.0 on a 4.0 scale in the social work foundation curriculum, and no less than a B in all courses that are applicable.

See School of Social Work’s website for more details.

Course Waivers

A student who does not have a bachelor’s degree in social work but who can document successful completion (with at least a B) of foundation courses from an accredited BSW program within the last five years will be given course waivers and be allowed to replace these courses with electives.

Students from non-accredited BSW programs or students who have taken comparable course work in other undergraduate programs, may take test-out examinations for select foundation courses; waivers will be given if students successfully pass test-out examinations. The waiver does not provide graduate credit; it is a mechanism for allowing elective courses to be substituted for required foundation courses.

Academic credit cannot be given for life experience and/or previous work experience, in whole or in part, in lieu of field practicum or other courses.

Degree Requirements

The MSW is a two-year program comprising a foundation year and a concentration year. All students are required to take the foundation year courses or to have advanced standing credit for them. These provide a common base of knowledge across all practice settings and populations. Beyond the general requirements of the Graduate School, the department requires a minimum of 60 semester hours of course work, of which 48 must be at the 5000 or 6000 level and 48 must be in social work or cross-listed with social work, including the following foundation courses:

<table>

</tr>
</tbody>
</table>

Total Hours 30

Upon completion of the 30 credits of foundation year requirements, students move into a year of advanced study, called the concentration. The concentration year requires 30 hours of course work that includes up to 12 hours of elective graduate-level courses approved by the adviser. Students plan their degree program to reflect their career interests in the following concentration areas:

- Family Practice
- Leadership and Social Change

Additionally, if students choose, they may elect to participate in one of the following areas of emphasis:

- Health & Behavioral Health
- School Social Work
- Social Work with the Military

To remain in good standing, students must maintain a cumulative GPA of 3.0 or better.
The field practicum is an integral part of the concentration year. Students will complete 300 hours (approximately 20 hours per week) of MSW supervised practice in an agency during the second semester of the foundation year, and they will complete 600 hours total hours (approximately 20 hours per week) in the concentration year. A student must receive a grade of B or better in the foundation field practicum seminar course and receive a satisfactory grade in the foundation practicum to be eligible to enter the concentration field practicum. S/U grades are given for both the foundation practicum and the concentration practicum.

**Part Time Status**

Students who enter the program as part-time students complete the foundation year in two years and the concentration course work in an additional two years.

All students must complete the MSW in four years.

**Goals of the Master of Social Work**

The goals of the MSW program of the University of Missouri-St. Louis are consistent with the land-grant public service mission of the University, the MSW feasibility study, and the educational policy statement of CSWE and are to:

- Prepare students with the professional knowledge, skills, values and ethics for effective social work practice.
- Prepare students to utilize critical thinking and capacity building skills at all levels of social work practice.
- Prepare students to analyze and address dynamic issues and challenges facing diverse populations and to promote social justice and positive social change.
- Prepare students to conduct and utilize research to respond effectively to dynamic social contexts, issues and problems found in social work practice.
- Assist and support faculty in the advancement of social work knowledge, teaching, and service.
- Develop and participate in collaborative activities with social agencies, communities, organizations, and governments that will enhance student learning, enrich faculty research and teaching, and promote human and societal well-being.

**Sociology BA**

Sociology will enable you to see the world in a new light; it is the scientific study of human social relationships, interactions, and institutions. Whether they be friendships, families, church groups, socioeconomic classes, complex organizations, or nations, much of our lives are socially constructed. And in a society where individualism is celebrated, it is easy to forget that the way we behave and feel is socially produced. This is the basic premise of sociology. After your core courses, a BA in Sociology will focus on qualitative tools like interviews, stories, and community engagement to answer that critical question “What is this all about?”

**General Education Requirements**

Majors must satisfy the university and college general education requirements (p. 48). Any foreign language may be used to meet the language requirement for the B.A. degree.

All required courses for the major must be completed with a grade of C- or better. Courses counting toward the major requirements may not be taken on a satisfactory/unsatisfactory basis.

The minimum number of Sociology hours required for the B.A. degree is 33.

Core Courses: 18 hours

**Elective Courses: 15 hours**

Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) in Sociology

Upon Completion of the Bachelor of Arts, or Bachelor of Science in Sociology, a student will be able to:

Identify and apply sociological theories to understand social phenomena by:

- Recognizing the differences between “folk” explanations of social phenomena and sociological theories of those phenomena
- Distinguishing modes of sociological inquiry from other disciplinary modes of inquiry
- Applying key concepts and key themes in sociological theory to analyze social phenomena
- Discerning the role of social structures in creating and reproducing social inequality and examining how social structures change
- Distinguishing among micro, meso, and macro levels of observation, inquiry, and analysis

Apply scientific principles to understand the social world by:

- Effectively utilizing evidence-based knowledge and sociological theories and concepts to generate research questions and/or hypotheses
- Identifying the strengths and weaknesses of scientific methodology and methods for analyzing social phenomena in different contexts
- Explaining disciplinary standards for the qualitative and quantitative analysis of data

Critically evaluate explanations of human behavior and social phenomena by:

- Identifying and appraising major theoretical perspectives, including their assumptions, key concepts, and main arguments in terms of historical context and interpretive and explanatory capacities
- Employing the sociological imagination to analyze social problems in context and evaluate solutions to social problems

Use sociological knowledge to inform social change by:

- Engaging with the world around them, including everyday life, work, policy debates, stakeholders, and the public
- Constructing and proposing real world solutions to social issues;
- Expressing sociological ideas in a clear and coherent manner in written and oral communication

- Demonstrating informal, technological, qualitative, and quantitative literacy

Total Hours: 120

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Sociology BS

Sociology will enable you to see the world in a new light; it is the scientific study of human social relationships, interactions, and institutions. Whether they be friendships, families, church groups, socioeconomic classes, complex organizations, or nations, much of our lives are socially constructed. And in a society where individualism is celebrated, it is easy to forget that the way we behave and feel is socially produced. This is the basic premise of sociology. After your core courses, a BS in Sociology
will focus on quantitative research tools like surveys, statistics, and data analysis to answer that critical question “What is this all about?”

**General Education Requirements**

Majors must satisfy the university and college general education requirements (p. 48). Foreign language proficiency is not required, although students are encouraged to take foreign language courses.

All required courses for the major must be completed with a grade of C- or better. Courses counting toward the major requirements may not be taken on a satisfactory/unsatisfactory basis.

The minimum number of Sociology hours required for the B.S. degree is 33.

Core Courses: 18 hours
Elective Courses: 15 hours

**Learning Outcomes**

Upon completion of the program, graduates will be able to:

**Identify and apply sociological theories to understand social phenomena by:**

- Recognizing the differences between “folk” explanations of social phenomena and sociological theories of those phenomena
- Distinguishing modes of sociological inquiry from other disciplinary modes of inquiry
- Applying key concepts and key themes in sociological theory to analyze social phenomena
- Discerning the role of social structures in creating and reproducing social inequality and examining how social structures change
- Distinguishing among micro, meso, and macro levels of observation, inquiry, and analysis

**Apply scientific principles to understand the social world by:**

- Effectively utilizing evidence-based knowledge and sociological theories and concepts to generate research questions and/or hypotheses
- Identifying the strengths and weaknesses of scientific methodology and methods for analyzing social phenomena in different contexts
- Explaining disciplinary standards for the qualitative and quantitative analysis of data

**Critically evaluate explanations of human behavior and social phenomena by:**

- Identifying and appraising major theoretical perspectives, including their assumptions, key concepts, and main arguments in terms of historical context and interpretive and explanatory capacities
- Employing the sociological imagination to analyze social problems in context and evaluate solutions to social problems

**Use sociological knowledge to inform social change by:**

- Engaging with the world around them, including everyday life, work, policy debates, stakeholders, and the public
• Constructing and proposing real world solutions to social issues;
• Expressing sociological ideas in a clear and coherent manner in written and oral communication
• Demonstrating informal, technological, qualitative, and quantitative literacy

1

INTDSC 1003 is required only for first-time freshmen and transfer students with less than 24 college credits.

Please Note: This plan is an example of what a four year plan could look like for a typical student. Placement exam scores in math as well as the completion of coursework may change the plan. It should not be used in the place of regular academic advising appointments. All students are encouraged to meet with their advisor each semester. All requirements are subject to change.

Sociology Minor

Requirements for the Minor

A minor in sociology requires 15 hours of course work: 9 hours of required courses and 6 hours of electives.

Candidates must have a cumulative grade point average of 2.0 or better in the minor. Courses taken on a satisfactory/unsatisfactory basis may not be applied to the minor.

Required Courses

- SOC 1010 Introduction to Sociology (MOTR SOCI 101) 3
- SOC 2160 Sociological Social Psychology 3
- SOC 3210 Sociological Theory 3

Elective Course(s):

Select six additional sociology hours with three of those hours at the 3000 level or above. Special topics courses or courses relevant to sociology that are offered by other departments may be included as electives when approved in advance by the faculty advisor.

Students in the Bachelor of Liberal Studies program must take one additional 4000 level course in Sociology not used in the minor, excluding SOC 4350 (Special Study) or SOC 4385 (Internship) for the capstone course requirement.

Learning Outcomes

Upon completion of the Minor in Sociology, a student will be able to:

Identify and apply sociological theories to understand social phenomena by:

- Recognizing the differences between “folk” explanations of social phenomena and sociological theories of those phenomena
- Distinguishing modes of sociological inquiry from other disciplinary modes of inquiry
- Applying key concepts and key themes in sociological theory to analyze social phenomena
- Discerning the role of social structures in creating and reproducing social inequality and examining how social structures change
- Distinguishing among micro, meso, and macro levels of observation, inquiry, and analysis

Apply scientific principles to understand the social world by:

- Effectively utilizing evidence-based knowledge and sociological theories and concepts to generate research questions and/or hypotheses
- Identifying the strengths and weaknesses of scientific methodology and methods for analyzing social phenomena in different contexts
- Explaining disciplinary standards for the qualitative and quantitative analysis of data

Critically evaluate explanations of human behavior and social phenomena by:
Linguistic Goals:

- Identifying and appraising major theoretical perspectives, including their assumptions, key concepts, and main arguments in terms of historical context and interpretive and explanatory capacities.
- Employing the sociological imagination to analyze social problems in context and evaluate solutions to social problems.

Spanish Minor

A minor in French, German, Japanese or Spanish requires the completion of four courses in the language beyond the basic foundation sequence (Language 1001, Language 1002, and Language 2101). Transfer students must complete at least two courses for the minor at UMSL. All courses must be passed with a grade of C- or better.

Specific Requirements for the Spanish Minor

Select two of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPANISH 2172</td>
<td>Spanish Composition</td>
</tr>
<tr>
<td>SPANISH 2180</td>
<td>Readings in Spanish</td>
</tr>
<tr>
<td>SPANISH 2199</td>
<td>Special Topics: Language Immersion: Spanish</td>
</tr>
</tbody>
</table>

Plus two Spanish courses on the 3000-level or above  6

Total Hours  13-14

Minimum total hours required for the minor in Spanish is 12 beyond SPANISH 2101.

Learning Outcomes

Graduates with a minor in French, German, Spanish, or Modern Languages from the University of Missouri-St. Louis can use the language to interact with native speakers on familiar topics related to their daily lives. They have an emerging understanding of the target cultures fostered through engaging courses and opportunities such as study abroad. They can apply their linguistic and cultural competencies in real-life situations such as travel and work.

Skills and Knowledge Areas

Upon completion of the minor, students should be able to:

Linguistic Goals:

- In listening/speaking:
  - identify the main ideas and supporting details of texts about familiar and concrete topics, such as those on radio, television, and podcasts;
  - take part in basic conversations on topics related to work, school, home, leisure activities, and culture and,
  - produce uncomplicated descriptions and narrations on familiar topics.
- In reading/writing:
  - identify the main idea and supporting details in a variety of non-complex authentic texts of various genres;
  - apply reading strategies to glean key information from more challenging texts;
  - compose simple practical texts, such as messages and letters, requests for information, and notes on topics of personal and professional interest and;
  - assess language reference resources and use them effectively.

Cultural Goals:

- recognize some of the key historical, social, economic, and political forces in the target cultures;
- demonstrate awareness of some of the linguistic, ethnic, racial, religious, cultural, and social diversity of the target cultures and;
- discuss film, media, literature, art, etc. in their socio-historical contexts.

The specific language minor goals are based on the National Standards for Foreign Language Learning and the American Council on the Teaching of Foreign Languages (ACTFL) Proficiency Guidelines. Minors are expected to reach the Intermediate-Mid level proficiency in speaking, listening, reading and writing, according to the ACTFL Proficiency Guidelines.

Special Education MEd, Autism and Developmental Disabilities Emphasis

The M. Ed. Program in Special Education explores important core knowledge in Special Education. The program's primary goal is to empower professionals as thoughtful educators who use best practices when assisting and empowering students with disabilities. Research and data-based decision-making are emphasized throughout the program. Graduate students will apply learned and evaluated research into practice in their courses, and learn to analyze multiple types of assessment data. The M.Ed. Program in Special Education consists of an initial required core of courses, a concentration area corresponding to the chosen emphasis area, and a capstone or exit course block.

When graduate students are accepted into the program, their transcripts may be reviewed, as necessary, to identify compliance with state education certification guidelines. Students who wish to be certified in the education of children with cross-categorical disabilities will be required to fulfill general certification requirements, as well as graduate coursework. Upon completion of this advanced degree, professionals will have developed an in-depth knowledge-base related to

- various learning contexts within and outside of the school setting
- the multiple influences on educational practices in schools
- the characteristics and instructional needs of learners with disabilities
- assessment strategies for monitoring instruction
- instructional best practices
- using research to inform practice in the classroom
- diversity awareness
- contexts that affect student learning
- the powerful interactions between setting events and specific learner outcomes
- a life-perspective of students with exceptional learning needs, both young children who transition into kindergarten and those transitioning into adulthood.

Required Foundation Courses

Students are required to complete the following courses within the first 15 hours of study.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

- **Total Hours**  
30
Upon completion of the program, graduates will be able to:

**Learning Outcomes**

- Identify a variety of formal and informal assessments, data sources, and practices to implement and guide educational decisions for individuals with disabilities.
- Select, adapt, and implement a repertoire of evidence-based practices to advance learning and quality of life of individuals with disabilities.
- Collaborate with families as well as partners in the school system, service system, and community to improve student and post-school outcomes.
- Develop essential skills and dispositions (e.g., attitudes, perceptions, values, and beliefs) to guide professional practice, engage in lifelong learning, and advance positive change as leaders in classrooms and communities.
- Utilize inclusive frameworks, strategies, and practices, including alignment of individualized education program goals, in grade level curriculum/standards and assessments within an inclusive educational environment;
- Analyze policies and research to guide the use of inclusive education evidence-based practices as well as to support advocacy skills as a leader in the field;
- Develop collaborative partnerships with families, educators, related service providers, and paraprofessionals to support academic and social inclusion for individuals with disabilities.

**Special Education MEd, Early Childhood Special Education Emphasis**

The M. Ed. Program in Special Education explores important core knowledge in Special Education. The program's primary goal is to empower professionals as thoughtful educators who use best practices when assisting and empowering students with disabilities. TCH ED 6910 Teacher Action Research Capstone 3

Total Hours 30

Sport Management BS

UMSL’s Bachelor of Science in Sport Management is an interdisciplinary, professional degree program that prepares students for a wide array of sport-related careers. The curriculum is balanced between educational-community athletics and the business aspects of sport. The coursework provides the knowledge, skills, and practical experiences needed to coordinate school, community, and non-profit sport programs as well as to work with collegiate and professional minor and major league sports teams in a variety of capacities. This foundation provides a springboard to further specialization within the student’s area of interest via a variety of electives, minors, field experiences and internships.

General Education Requirements

Students must satisfy the university general education requirements (p. 48).

As part of meeting the university’s general education requirements, the following courses prerequisite courses must be completed:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>

SPMGT 4990  Sport Management Field Experience

Total Hours  39

Students may take up to six hours from any area as pre-approved by advisor.

Students may take up to nine hours of SPMGT 4990.

Learning Outcomes

This program is planning for accreditation by the Commission on Sport Management Accreditation (COSMA). Upon completion of the program, graduates will be able to:

- Apply an interdisciplinary foundation of management, sports, and marketing theories to a variety of sports management settings.
- Develop a marketing toolbox that integrates theories with the fundamental aspects of sports, sports products, consumer and market research, sponsorship, promotion and media.
- Examine and explore the legal environments of amateur, collegiate, and professional sports programs with respect to state and federal legislation, liability, risk management, contracts, and collective bargaining.
- Demonstrate the ability to manage sports facilities to apply key concepts of planning, design, and evaluation of a sports program or sports-related event.
- Develop and refine leadership and communication skills necessary within a sports organization and team-oriented sports institutions.
- Recognize and evaluate ethical decision-making, balancing economic priorities and social responsibilities of sports organizations.
- Demonstrate socio-cultural commitment and responsibility in any given sports management environment.

Total Hours: 120

Sport Management Minor

The Sport Management Minor is designed to give students majoring in other disciplines an opportunity to learn about the sport industry. Students will be exposed to such areas as athletic compliance, legal and ethical issues, media and technology, and marketing as they relate to the sport industry.

Required Courses

- SPMGT 1113  Introduction to Sport Management and Administration  3
- SPMGT 2200  Legal and Ethical Issues in Sports  3
- SPMGT 4113  Educational and Community Athletics  3

Electives  6

Choose two of the following:

- PHY ED 2136  Facilities Management
- PSYCH 2400  Sports Psychology
- MKTG 3765  Sports Marketing
- SPMGT 3731  Sports Media and Technology
- SPMGT 4213  Athletic Compliance
- SPMGT 4990  Sport Management Field Experience

Total Hours  15
Statistics Minor

Minor Requirements

The department offers minors in computer science, mathematics, and statistics. All courses presented for any of these minors must be completed with a grade of C- or better.

The requirements for the minor are:

- MATH 4200: Mathematical Statistics I 3
- MATH 4210: Mathematical Statistics II 3
- Choose two of the following courses: 6
  - MATH 3320: Applied Statistics
  - MATH 4005: Exploratory Data Analysis with R
  - MATH 4090: Introduction to High-dimensional Data Analysis
  - MATH 4220: Bayesian Statistical Methods
  - MATH 4225: Introduction to Statistical Computing
  - MATH 4250: Introduction to Statistical Methods in Learning and Modeling
  - MATH 4260: Introduction to Stochastic Processes
  - MATH 4390: Topics in Probability and Statistics

Total Hours 12

A minimum of two courses numbered above 3000 must be taken in residence in the Department of Mathematics and Statistics at UMSL.

Learning Outcomes

A successful undergraduate should, upon completion, be able to:

- Reformulate problems or questions in relevant statistical terms.
- Solve problems which involve probability or statistical concepts and procedures.

Student Affairs Administration and Leadership Graduate Certificate

The Graduate Certificate in Student Affairs Administration & Leadership (SAAL) would prepare participants to develop the knowledge, skills and abilities necessary to pursue entry-level staff and administrative positions with a concentrated emphasis in student affairs administration and leadership.

Students would develop the requisite knowledge and skills upon completion of a 12-hour curriculum which is outlined below:

- HIGHERED 5402: Student Affairs Administration (Introductory course) 3
- HIGHERED 6409: Critical Issues in Student Affairs 3
- HIGHERED 6410: Ethics in Higher Education Administration 3
- HIGHERED 6476: Organization and Administration of Higher Education (Exit course) 3

Total Hours 12

Studio Art BFA, Art Education Emphasis

This degree prepares students for a career in Art Education; students who successfully complete the program will be eligible for K-12 Art teacher certification in Missouri. Art Education students complete a foundation art program plus additional courses that provide experience with a broad range of studio processes.

Candidates for the B.F.A. degree must complete a Foundation and Core Art Program (which is largely satisfied by the A.F.A. degree) and an emphasis area in one of the following: art education, graphic design, or general fine arts studio practice. Studio Art majors are required to take 69 hours in studio art (this includes 27 hours in the foundation and core art program) and 12 hours in Art History. The final 30 hours must be completed in residence at UMSL. Graduating students must also pass a faculty portfolio review.

Advanced Placement in Studio Art Classes: Studio Art Majors who have professional Graphic Design or other professional studio experience may wish to submit a portfolio to a committee of Studio Art faculty. Depending on the nature and the quality of the student’s portfolio, they may be able to obtain exemptions from selected lower level Studio Art courses. Students applying for these exemptions must submit their portfolios prior to the first day of class of their first semester in the BFA Program. Students will be notified in writing if an exemption is granted. Students informed of these waivers will be advised of their requirements in the studio art major. All decisions of the portfolio reviews are final.

General Education

Majors in Studio Art must meet the college and university general education requirements (p. 48). A foreign language is not required. Studio Art courses required for the degree may not be taken on a satisfactory/unsatisfactory (S/U) basis. A minimum of 120 hours is required for graduation. Certain Studio Art courses fulfill the humanities and fine arts general education requirement.

An art education emphasis leading toward K-12 Art teacher certification is available. Students choosing this option must complete degree requirements for the B.F.A. Students must complete ENGL 3100 (Advanced Expository Writing) and the general education requirements of the College of Education. A foreign language is not required.

Students will take a specialized program of Foundation Art (30 hours) that includes courses required for certification to teach art. They will also take studio art electives, including a minimum of three courses in one of the studio emphasis areas: drawing, graphic design, painting, photography, or printmaking. A minimum of 50 credit hours must be completed in studio art. In addition, students must complete 15 hours of art history. The final 30 hours of coursework must be completed in residence at UMSL. Major area courses, including studio art, art history, art education, teacher education, and secondary education, must be completed with a minimum grade point average of 2.5; no grade lower than a C is acceptable in major area coursework.

Beginning with those students graduating in May 2017 and receiving teacher certification, the Missouri Department of Elementary and Secondary Education requires a 3.0 GPA in professional education courses, a 3.0 GPA in the teaching content field, and a 2.75 overall GPA.

### Learning Outcomes

Upon completion of the program, graduates will be able to:

- To develop visual and verbal responses to visual phenomena, and organize perceptions and conceptualizations both rationally and intuitively
- To explain the major achievements in the history of art and design, including the works and intentions of leading artists and designers in the past and present
- To develop the capacity to identify and/or solve visual problems within a variety of physical, technological, social, and cultural contexts
- To explain and evaluate contemporary thinking about art or design
- To develop competence in a number of art or design techniques
- To make valid assessments of quality and effectiveness in design projects and works of art, especially their own

**Studio Art BFA, Graphic Design Emphasis**

The Art & Design department at UMSL welcomes students to explore essential cultural and professional systems through creative visual practice. Students encounter both traditional and new technologies as means to study and create the visual world in which we live. Students in the Graphic Design program enjoy the benefits of close relationships with the St. Louis graphic design professional community. Our professors maintain a rigorous program that prepares students for immediate employment as creative design professionals.

**Career Outlook**

Students with degrees in studio art (Graphic Design emphasis) find careers as graphic designers, art directors, creative directors, marketing professionals, user experience designers, web designers and other creative professionals.

Candidates for the B.F.A. degree must complete a Foundation and Core Art Program (which is largely satisfied by the A.F.A. degree) and an emphasis area in one of the following: art education, graphic design, or general fine arts studio practice. Studio Art majors are required to take 69 hours in studio art (this includes 27 hours in the foundation and core art program) and 12 hours in Art History. The final 30 hours must be completed in residence at UMSL. Graduating students must also pass a faculty portfolio review.

**Advanced Placement in Studio Art Classes:** Studio Art Majors who have professional Graphic Design or other professional studio experience may wish to submit a portfolio to a committee of Studio Art faculty. Depending on the nature and the quality of the student’s portfolio, they may be able to obtain exemptions from selected lower level Studio Art courses. Students applying for these exemptions must submit their portfolios prior to the first day of class of their first semester in the BFA Program. Students will be notified in writing if an exemption is granted. Students informed of these waivers will be advised of their requirements in the studio art major. All decisions of the portfolio reviews are final.

**General Education**

Majors in Studio Art must meet the college and university general education requirements (p. 48). A foreign language is not required. Studio Art courses required for the degree may not be taken on a satisfactory/unsatisfactory (S/U) basis. A minimum of 120 hours is required for graduation. Certain Studio Art courses fulfill the humanities and fine arts general education requirement.

**Total Hours: 120**

**INTDSC 1003** is required only for first-time freshmen and transfer students with less than 24 college credits.

### Learning Outcomes

Upon completion of the program, graduates will be able to:

- Develop visual and verbal responses to visual phenomena, and organize perceptions and conceptualizations both rationally and intuitively
- Explain the major achievements in the history of art and design, including the works and intentions of leading artists and designers in the past and present
- Develop the capacity to identify and/or solve visual problems within a variety of physical, technological, social, and cultural contexts
- Explain and evaluate contemporary thinking about art or design
- Develop competence in a number of art or design techniques
- Make valid assessments of quality and effectiveness in design projects and works of art, especially their own

### Studio Art BFA, Studio Practice Emphasis

The Art & Design department at UMSL welcomes students to explore essential cultural and professional systems through creative visual practice. Students encounter both traditional and new technologies as means to study and create the visual world in which we live. Students in the Studio Practice program enjoy the benefits of close relationships with the St. Louis visual arts professional community. Our professors maintain a rigorous program that prepares students for immediate employment as creative professionals and enriches lives through creative practice.

Candidates for the B.F.A. degree must complete a Foundation and Core Art Program (which is largely satisfied by the A.F.A. degree) and an emphasis area in one of the following: art education, graphic design, or general arts studio practice. Studio Art majors are required to take 69 hours in studio art (this includes 27 hours in the foundation and core art program) and 12 hours in Art History. The final 30 hours must be completed in residence at UMSL. Graduating students must also pass a faculty portfolio review.

### Advanced Placement in Studio Art Classes: Studio Art Majors who have professional Graphic Design or other professional studio experience may wish to submit a portfolio to a committee of Studio Art faculty. Depending on the nature and the quality of the student's portfolio, they may be able to obtain exemptions from selected lower level Studio Art courses. Students applying for these exemptions must submit their portfolios prior to the first day of class of their first semester in the BFA Program. Students will be notified in writing if an exemption is granted. Students informed of these waivers will be advised of their requirements in the studio art major. All decisions of the portfolio reviews are final.

### General Education

Majors in Studio Art must meet the college and university general education requirements (p. 48). A foreign language is not required. Studio Art courses required for the degree may not be taken on a satisfactory/unsatisfactory (S/U) basis. A minimum of 120 hours is required for graduation. Certain Studio Art courses fulfill the humanities and fine arts general education requirement.

Supply Chain Analytics MS

The Master of Science in Supply Chain Analytics is a STEM-designated program that meets the fast growing demands for supply chain and data analytics professionals. It equips students with both the domain knowledge of supply chain management and the skills and toolboxes in business analytics.

Admission Requirements

Applicants must meet the general graduate admission requirements of the Graduate School, described in the UMSL catalog. Students are considered for admission to the graduate program in Supply Chain Analytics only after they have formally applied for admission through the Graduate School.

Degree Requirements

<td></td>
<td><strong>15</strong></td>
</tr>
</tbody>
</table>

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Understand and explain a comprehensive scope of supply chain functions, concepts, their connections and roles in business
- Grasp all Three-Pillar of Business Analytics: Descriptive, Predictive and Prescriptive methodologies
- Identify and define supply chain decision questions and problems with business acumen
- Build analytical models and apply analytical methods for real world supply chain decision-support and applications
- Interpret and present analysis results and business insights to management
- Obtain hands-on experience of using state-of-the-art decision-support software for real life supply chain applications

Supply Chain Management Minor

General Requirements

- All minors are 15 credit hours or 5 courses, including business core courses.
- Students must attain a 2.0 grade point average for all courses in the minor.
- Students must attain a minimum grade of C- in each course included in the minor.
- All courses in the minor must be on a graded basis.
- A minimum of 9 credit hours of coursework included in the minor must be taken in residence at UMSL.
- One must complete a baccalaureate degree at UMSL in order for a minor to be conferred.
- A minor may be added for up to two years following completion of the baccalaureate degree

Specific Requirements for the Minor

Available to all students except those pursuing the Bachelor of Science in Business Administration degree. Students must complete:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SCMA 3301</td>
<td>Introduction to Supply Chain Management</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Hours</strong></td>
<td></td>
<td><strong>12</strong></td>
</tr>
</tbody>
</table>

Select any four additional 3000 level and higher Supply Chain Management and Analytics courses.
Learning Outcomes
Upon completion of the program, graduates will be able to:

• Interpret basic concepts in supply chain management such as purchasing, production, operations, logistics, integration and reverse supply chains.
• Describe analytical methods for decision-making in supply chains, such as demand planning, supply chain network design, production planning, inventory control and transportation.
• Describe the role of global supply chains, and principles of effective supply chain management, in the economy to match supply and demand.
• Describe the role of data, analytics and technology in modern supply chains.

Talent Management Graduate Certificate
The Graduate Certificate in Talent Management is designed for both Human Resource professionals at all levels and non-Human Resource professionals who plan on taking on Human Resource positions with an interest in enhancing their Human Resource competencies to meet current workplace challenges and advancing their careers. The certificate will help you to develop a deep understanding of the Human Resource field so that you can effectively lead and manage talent in business, nonprofit, union and government organizations by evaluating HR systems and aligning HR systems with overall business strategies.

Admission Requirements
Applicants must meet general University of Missouri-St. Louis Graduate School admissions requirements.

Certificate Requirements
All course prerequisites and all course waivers are applicable. Substitute courses may be approved by the appropriate department chairperson and the Director of Graduate Business Programs. All 12 credit hours taken as part of this certificate transfer to the MBA degree program.

Total Hours 12

Teaching English to Speakers of Other Languages Graduate Certificate
The Graduate Certificate in Secondary School Teaching prepares those with at least a bachelor’s degree for teaching in high school. Normally this Graduate Certificate is taken by students who are not simultaneously pursuing the M.Ed. and teacher certification.

Admission
Applicants who wish to earn a Graduate Certificate in TESOL must apply for admission to the certificate program and to the Graduate School at the University of Missouri –St. Louis as a non-degree student or as a Master's or doctoral student. Applicants must have a 2.75 GPA in undergraduate coursework to be admitted. A background in K-12 or adult education is desirable.

Requirements
Students must maintain a minimum GPA of 3.0 to remain in the certificate program. The certificate is awarded after completion of the courses listed below. A program of study, or M-1, should be filed in the first one-third of the program. Students should file an Intent to Complete a Graduate Certificate at the beginning of their last semester. The Graduate Certificate in TESOL requires 18 credit hours of course work, including an entry course (TCH ED 6210):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>TCH ED 6210</td>
<td>Foundations Of Teaching English To Speakers Of Other Languages</td>
<td>3</td>
</tr>
<tr>
<td>TCH ED 6220</td>
<td>Principles of Second/Foreign Language Acquisition</td>
<td>3</td>
</tr>
<tr>
<td>TCH ED 6230</td>
<td>Cross-Cultural Communication in the Classroom</td>
<td>3</td>
</tr>
<tr>
<td>TCH ED 6240</td>
<td>Assessment for Teaching English to Speakers of Other Languages</td>
<td>3</td>
</tr>
<tr>
<td>TCH ED 6250</td>
<td>Methods and Materials for Teaching English to Speakers of Other Languages</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Hours 12
State Certification

For TESOL state certification, the students need to add TCH ED 6224, and ELE ED 6338 for those who have the middle and the secondary school teaching certificates. Those who have the elementary teaching certificates need to add TCH ED 6224 if they are UMSL teacher education graduates. Otherwise, please consult the faculty advisor and/or academic advisor.

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Continually reflect on professional growth to improve student learning outcomes/enhance student learning.
- Integrate technology to create meaningful student learning within the context of a global digital society.
- Apply content and pedagogical knowledge to create authentic and deep learning experiences.
- Use learning science principles to design, implement, and evaluate curriculum based on learning standards.
- Foster effective working relationships with students, school colleagues, families, and community members to enhance student learning and well-being.
- Design and establish a safe, inclusive, and respectful learning environment that nurtures the intellectual, social, and personal development of all students.
- Use equitable frameworks and inclusive practices to create a variety of instructional and assessment opportunities adapted to diverse learners to encourage all students’ critical thinking, problem solving, and performance skills.

Teaching of Writing Graduate Certificate

The Certificate is an 18-hour program through the Gateway Writing Project (GWP); it may also be coordinated with other graduate programs. Certificate courses may be applicable to the M.A. in English with emphasis in composition or to various M.Ed. programs. The GWP Certificate is especially appropriate for post-master’s candidates who wish to pursue a specialization in teaching writing. The Graduate Certificate in the Teaching of Writing requires a 9 semester-hour core of courses developed by the Gateway Writing Project: the GWP invitational institute (6 hrs) and an exit course (3 hrs.). The remaining 9 hours are electives (at the 5000 or 6000 level) in English or in Education as approved by the advisor.

Admission

Applicants must be admitted to Graduate School and be selected by the faculty admissions committee for the Graduate Certificate in the Teaching of Writing.

Appropriate electives will be determined by the advisor in consultation with the student.

Total Hours 18

For complete information, see The Gateway Writing Project’s Graduate Certificate in Teaching Writing

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Write, revise, and prepare writing for publication and identify as a writer.
- Summarize current theory/research, especially research by teachers of writing.
- Design curriculum and assessment that uses writing to promote learning in all subject areas.
- Demonstrate leadership for promoting better writing in school settings.
- Reflect on own teaching and own writing in service of improving student writing.

Technical Writing Undergraduate Certificate

Requirements

Students earn the Online Certificate in Technical Writing by completing 18 hours in selected online writing courses with a grade point average of 3.0 or better, including a capstone course. Twelve of the 18 hours must be taken at the University of Missouri-St. Louis. Courses may not be taken on a satisfactory/unsatisfactory basis.

Students may use ENGL 4890, ENGL 4892, ENGL 4870, ENGL 4871, and ENGL 4872 as their capstone course.

When the student has completed requirements for the certificate, the coordinator will notify the university registrar and the college from which the student will graduate. Upon the student's graduation, completion of the Online Technical Writing Certificate will be noted on the official transcript and a certificate will be mailed to the student's residence. Students who have graduated before completing the Online Technical Writing Certificate will receive the certificate in the mail and will have the certificate entered on their official transcripts.

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Revise and edit texts efficiently
- Adjust style, tone, and format to best suit a professional context
- Develop rhetorical flexibility as it pertains to shifting professional writing expectations
- Identify various readers and stakeholders, and the situations in which they both operate
- Accurately compose language that meets the needs of readers and stakeholders
- Identify and solve real world problems via writing/composition
- Design and create texts in various modes (e.g. digital, videos, alphabetic, auditory, and multiple/combined modes)
- Demonstrate an ability to apply contextually appropriate rhetorical strategies and technologies to solve communication problems successfully and safely

Transportation Studies Minor

General Requirements

- All minors are 15 credit hours or 5 courses, including business core courses.
- Students must attain a 2.0 grade point average for all courses in the minor.
- Students must attain a minimum grade of C- in each course included in the minor.
- All courses in the minor must be on a graded basis.
- A minimum of 9 credit hours of coursework included in the minor must be taken in residence at UMSL.
- One must complete a baccalaureate degree at UMSL in order for a minor to be conferred.
- A minor may be added for up to two years following completion of the baccalaureate degree

Specific Requirements for the Minor

Available to all students.

</tbody>
</table>

Total Hours: 9

1 With approval of the Department chair of Supply Chain & Analytics.
2 With approval of the Department chair of Marketing.
3 No more than one approved independent study course may count towards the minor.

Learning Outcomes

Upon completion of the program, graduates will be able to:

- Explain the history and importance of global and domestic transportation on society from policy, regulatory, economic, legal, sustainability, and demographic perspectives.
- Describe the role of transportation in supply chain management, the key elements of transportation, basic processes in managing strategic and tactical transportation management operations, and digital transformation of transportation operations.
- Define and explain basic concepts of supply chain and transportation risk management, and their impacts on shareholder value and corporate performance.
- Explain the role of data, analytics and technology in transportation.

Trauma Studies Graduate Certificate

The graduate certificate is awarded upon the completion of 18 credit hours of graduate coursework on the topic of trauma studies. No more than nine hours of graduate level independent research or fieldwork may be used for the certificate. The coursework for the certificate must be taken in at least two departments and may include no more than three hours at the undergraduate 3000 or 4000 level.

Trauma Studies Undergraduate Certificate

The undergraduate Certificate Program in Trauma Studies is an interdisciplinary program requiring 18 credits of training across a minimum of 3 disciplines. This certificate is appropriate for students who want to specialize in working in a variety of professional settings with individuals who have been exposed to potentially traumatic events (e.g., physical
and sexual assault, intimate partner violence, child abuse and neglect, community and gun violence, war, natural disasters). Students develop knowledge and competencies related to trauma exposure, posttraumatic growth, trauma-related difficulties including PTSD, and implications for working across a variety of professional settings.

Many but not all of the courses required by the Certificate Program in Trauma Studies have prerequisites. Some students may satisfy prerequisites by virtue of their prior curriculum and their major program of study. When this is not the case, students are responsible for satisfying the prerequisites.

All students must take at least one course offered by 3 different departments (including their home department).

Up to 9 credit hours of coursework can apply to the major program of study. Certificate Coordinator’s approval is required for trauma certificate courses to be double-counted towards another undergraduate certificate program at UM-St. Louis.

Total Hours: 18

1 Please seek approval of the Coordinator of the Trauma Studies Certificate in advance.

Special Topics courses relevant to trauma studies may be included in the certificate when approved in advance by the coordinator of the trauma studies certificate.

**Urban Politics Minor**

**Requirements for Political Science Minors**

A general minor in political science can be arranged, as well as specialized minors in eight different subfields of the discipline. Interested students should see a faculty adviser to plan a coherent program of study as a minor field.

Students must achieve a cumulative 2.0 GPA in the political science courses chosen to qualify for the minor. Students may count no more than 3 hours in political science taken on a satisfactory/unsatisfactory basis toward the minor. Students taking an internship POL SCI 3940 may count no more than three hours of the internship toward the minor.

</tr>
</tbody>
</table>

Total Hours: 15

1 May be taken with approval of the faculty advisor.

**Learning Outcomes**

- Explain key topics in urban politics.
- Demonstrate an understanding of events and factors that have influenced the development of urban politics in the US.
- Analyze the actions of political actors impacting urban politics and their motives.
- Assess issues facing urban communities, formulate evidence-based recommendations, and communicate them with clarity and coherence.

**Urban Studies Minor**

**Requirements**

A minor in urban studies requires 15 hours of course work. Candidates must have a cumulative grade point average of 2.0 or better in the minor. Courses taken on a satisfactory/unsatisfactory basis may not be applied to the minor. Special topics courses or other courses relevant to urban
studies may be included as electives when approved in advance by the urban studies coordinator.

Students must take:

**Core Courses:**

---

**Veterans Studies Minor**

The Minor in Veterans Studies is a multi-disciplinary program whose course work enhances students’ majors to prepare them to work for or with veterans. It is also designed to encourage and enable veteran students to reflect more deeply on their service experiences. This minor includes a foundation course, a series of elective courses, and a capstone. Electives may be chosen from four areas, or from any MVS course above the 2000 level.

- **Cultural**: exploring perspectives and experiences of veterans through various media
- **Relational**: understanding how veterans relate among various aspects of our society
- **Institutional**: understanding the context and structure of military service and veteran institutions now and in the past
- **Clinical**: establishing effective skills to better serve for, with, and in veteran populations

Alternative elective courses could be included with the consent of the department chair. While it is encouraged, students are not required to limit their electives to a single area.

**Electives**

**Women’s Health Nurse Practitioner Post-Graduate Certificate**

Post-graduate certificate (PGC) requirements are tailored to the individual student, depending on past academic work, experience, the student’s goals, and specialty requirements. Upon completion of the PGC requirements, a certificate is awarded by the College of Nursing (CON) and Graduate School. Graduates are eligible to apply to take board certification exams in the advanced practice role and population for which they have been prepared.

Due to higher education regulation changes, the University of Missouri–St. Louis cannot admit students from all states for online programs. Please see the Center for Teaching and Learning for additional information: http://www.umsl.edu/services/ctl/onlinelearning/state_authorization.html.

**Certificate Requirements**

Students must complete a minimum of 12 credit hours of coursework from the University of Missouri - St. Louis College of Nursing. Courses must be from the list below.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>NURSE 6518</td>

</tr>
<tr>
<td>NURSE 6524</td>
<td>Health Assessment For Advanced Nursing Practice</td>
</tr>
</tbody>
</table>

**Total Hours**: 15
NURSE 6530  Clinical Diagnostics for Advanced Nursing Practice  3
NURSE 6746  Women's Health I  4
NURSE 6747  Women's Health II  4
NURSE 6954  Advanced Practice Nursing: Residency I  2-4
NURSE 6955  Advanced Practice Nursing: Residency II  2-4
NURSE 7954  Advanced Practice Nursing: Residency III  2-4

All students must complete 8 credit hours of Residency. One credit hour is equivalent to 75 residency hours.

Workplace and Organizational Science Undergraduate Certificate

Effective Fall 2021, this program will no longer accept applications

This certificate can prepare individuals for graduate studies in industrial-organizational psychology, management, or other areas with a focus on behavior in organizations. It also provides training relevant to managing individuals in organizations that can be applied broadly to business, military, non-profit, health care, law enforcement, and other settings.

Note: No more than 6 credit hours may be applied from the student's major.

Required Courses

Goal 1: Breadth of Study 9

Choose three courses from the following:

- AERO 2001  Team Leadership Fundamentals I
- COMM 2231  Communication in the Organization
- MIL SCI 1101  Introduction to Leadership I
- MIL SCI 2201  Innovative Team Leadership
- MVS 2100
- MGMT 3611  Advanced Management and Organizational Behavior
- MGMT 3621  Human Resource Management
- MGMT 3622  Industrial and Labor Relations
- MGMT 3624  Employee Training and Development
- MGMT 3625  Leadership in Organizations
- PSYCH 4365  Psychological Testing and Assessment
- POL SCI 4060  Theory of Decisions and Games
- SOC 4354  Sociology of Business and Work Settings

Goal 2: Cultural Competency 3

Choose one course from the following:

- COMM 2332  Intercultural Communication
- COMM 3337  Communication and Gender
- MGMT/INTL BUS 3680  International Management

Total Hours 18

Learning Outcomes

Upon completion of the program, certificate earners will be able to:

- Describe the application of theories and methods from workplace and organizational sciences to job analysis, recruitment/selection, training, retention and performance appraisal processes.
- Identify factors that influence motivation and work performance of employees.
- Identify teamwork processes, challenges and strategies.
- Summarize models of leadership and fit for specific organizational needs.
- Compare and contrast at least two disciplinary specific (e.g., communications, industrial/organizational psychology, management, sociology) approaches to understanding workplace and organizational needs and challenges.
- Write and speak clearly and concisely about theories and research in workplace and organizational sciences.
- Evaluate appropriateness of quantitative and qualitative research methods for specific questions in workplace and organizational sciences.
- Relate concepts and empirical findings from workplace and organizational sciences to personal work experiences and career goals.
Archives

Bulletins for the past thirteen years are posted at the links below. Older versions are available in campus advising offices, Academic Affairs or in the Institutional Repository Library. Program requirements are also available to students through Degree Audit Reports (DARS), which are available online or from an academic adviser, who will assist in the interpretation of the audit.
