INDEPENDENT AUDITORS' REPORT

Honorable Mayor and
City Council
City of Festus, Missouri

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Festus, Missouri, (the City) as of and for the year ended September 30, 2006, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Festus' management. Our responsibility is to express opinions on these financial statements based on our audit.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

The financial statements of Festus Public Library Foundation, Inc. (the Foundation) have not been audited, and we were not engaged to audit the Foundation financial statements as part of our audit of the City's basic financial statements. The Foundation's financial activities are included in the City's basic financial statements as a discretely presented component unit and represent 0.72 percent, 0.67 percent, and 0.26 percent of the assets, net assets, and revenues, respectively, of the City's aggregate discretely presented component units.

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had the Foundation's financial statements been audited, the financial statements referred to above present fairly, in all material respects, the financial position of the aggregate discretely presented component units for the City of Festus, Missouri, as of September 30, 2006, and the changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type

activities, each major fund, and the aggregate remaining fund information of the City of Festus, Missouri, as of September 30, 2006, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 25, 2007 on our consideration of the City of Festus' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and Required Supplemental Information, as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Festus' basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. This supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

CITY OF FESTUS, MISSOURI
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDING SEPTEMBER 30, 2006

As management of the City of Festus, Missouri, we offer readers of the City of Festus's Financial Statements this narrative overview and analysis of the financial activities of the City of Festus, Missouri for the Fiscal Year ended September 30, 2006. We encourage readers to consider the information presented here along with the City's financial statements, including the footnotes and supplementary information that follow this Management's Discussion and Analysis.

FINANCIAL HIGHLIGHTS

- The assets of the City, as reported by the Statement of Net Assets, exceeded its liabilities at the close of the most recent fiscal year by \$19,313,696 (net assets). Of this amount, \$7,184,524 (unrestricted net assets) may be used to meet the City's ongoing obligations to its citizens and creditors in accordance with the City's fund designation and fiscal policies.
- As of the close of the 2006 fiscal year, the City of Festus's Governmental Fund Statements reported combined ending fund balances of \$5,547,891, an increase of \$306,028 in comparison with the prior year. Approximately 97% of this total amount or \$5,371,161 is available for spending at the government's discretion (unreserved fund balance). Of this amount the City tries to maintain a balance of \$1,000,000 for emergency purposes. The remaining amount is held as a reserve fund balance.
- As of the close of the 2006 fiscal year, the City of Festus's Proprietary Funds reported combined ending net assets of \$7,560,080, an increase of \$1,147,754 in comparison with the prior year.
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$1,645,126 or 34% of total general fund expenditures.
- The City's total debt increased by \$604,489 during the current fiscal year to a total of \$16,673,410.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Festus, Missouri's basic financial statements. The City of Festus, Missouri's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Festus, Missouri's finances, in a manner similar to a private-sector business. Note the government-wide financial statements exclude fiduciary fund activities.

The two government-wide statements are the *statement of net assets* and the *statement of activities*. These statements report the City's net assets and how they have changed.

The *statement of net assets* presents information on all the City of Festus's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Festus, Missouri is improving or deteriorating.

The *statement of activities* presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing and related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and accrued vacation leave).

CITY OF FESTUS, MISSOURI
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDING SEPTEMBER 30, 2006

GOVERNMENT-WIDE FINANCIAL STATEMENTS (continued)

The government-wide financial statements distinguish functions of the City of Festus, Missouri that are principally supported by taxes and intergovernmental revenues (*governmental activities*), from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). Not only do the government-wide financial statements include the City itself (known as the primary government), but also two legally separate agencies. Financial information for the component units are shown separately from the financial information presented for the primary government. The *governmental activities* of the City of Festus, Missouri include general government, judicial, building and planning, public safety, parks and recreation, public works and a public library. The City of Festus, Missouri operates three *business-type activities* that include a municipal airport, water and sewer department and a vehicle maintenance department.

FUND FINANCIAL STATEMENTS

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Festus, Missouri like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Festus, Missouri can be divided into two categories: governmental funds and proprietary funds.

GOVERNMENTAL FUNDS

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statement focus on *near-term inflows and outflows of expendable resources*, as well as on *balances of expendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financial decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in the fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and the government-wide *financial statements*.

The City of Festus, Missouri maintains sixteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, which is considered to be a major fund. Data from the other governmental funds are combined into a single, aggregated presentation called "other governmental funds". Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* in the other supplementary information section in this report.

The City of Festus, Missouri adopts an annual appropriated budget for all of its major governmental funds and all other governmental funds. Budgetary comparison statements have been provided for all budgeted funds to demonstrate legal compliance with the respective adopted budget.

CITY OF FESTUS, MISSOURI
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDING SEPTEMBER 30, 2006

PROPRIETARY FUNDS

Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. The City has two enterprise funds, which are the municipal airport fund and the water and sewer fund. The proprietary fund financial statements provide separate information for the Airport and the Water and Sewer funds since both are considered to be major funds of the City.

During the first part of the year, the City of Festus, Missouri operated an internal service fund used to account for financing of services provided by one department to other departments of the City on a cost-plus basis. The City's internal service fund is the Vehicle Maintenance Fund. The services provided by this fund have been allocated to the various funds utilizing the services and this fund will be closed.

NOTES TO THE BASIC FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

OTHER INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City of Festus's progress in funding its obligations to provide pension benefits to its employees.

OTHER SUPPLEMENTARY INFORMATION

The combining and individual fund statements, referred to earlier in connection with non-major governmental funds, are presented immediately following the required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS-FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

This is the third year that the City has presented its financial statements under the new reporting model required by the Governmental Accounting Standards Board Statement No. 34 (GASB 34), *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*. Therefore, a comparative analysis of government-wide data is provided.

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Festus, Missouri, assets exceeded liabilities by \$19,313,696 at the close of the most recent fiscal year.

The largest portion of the City's net assets reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net assets (1%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets of \$7,184,524 may be used to meet the City's ongoing obligations to citizens and creditors.

As of September 30, 2006, the City of Festus, Missouri is able to report positive balances in all three categories of net assets, for the government as a whole. The restricted net assets for the governmental activities reflected a negative balance for the current year-end.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDING SEPTEMBER 30, 2006

SIGNIFICANT CHANGES IN NET ASSETS

Governmental Activities:

Some of the highlights of these changes are:

- Taxes decreased 8% for the year for the Government Activities Funds. The property tax benefited an increase of \$73,431 or 13% compared to last year. The sales tax collections net of reimbursements decreased by nearly \$500,000. The utility gross receipts tax had an increase of almost \$27,000 or 5% compared to last year receipts. The state gas tax decreased by less than 2% and vehicle gas tax decreased almost 18% compared to last year. The City's business licenses increased by almost 19% and building permits decreased from last year by 31%. The General Fund received donations in the amount of \$50,184, which included \$50,000 donated by Home Depot to purchase and install two public warning sirens.
- The police department received a COPS Grant in the amount of \$22,856 that was used for a methamphetamine program administered by Festus with participants from other local police departments.
- The City began the collection of a 2 percent tourism tax in fiscal year 2003 to promote tourism in the City and to be used towards improvements to City parks. The City has collected \$70,800 for the fiscal year ending 2006 and \$69,159 for the fiscal year ending 2005. The City was able to use the part of the funds during 2006 to construct two disc golf courses and purchase some park benches.
- The City has set up a special allocation fund to deposit 50% of sales tax revenues generated from the Lowe's and Home Depot stores, which will get reimbursed back to them for certain infrastructure costs (see notes to the financial statements for more detail).

FINANCIAL ANALYSIS OF THE CITY OF FESTUS, MISSOURI'S FUNDS

As noted earlier, City of Festus, Missouri uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

GOVERNMENTAL FUNDS

The focus of the City of Festus, Missouri's governmental funds is to provide information on inflows and balances of available expendable resources. Such information is useful in assessing the City's financial requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of year 2006, the unreserved fund balance of the general fund was \$1,645,126, while the total fund balance was \$1,795,544. As a measure of the general funds liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures and transfers out. Unreserved fund balance represents 31.6% of total general fund expenditures and transfers out of \$5,200,591, while total fund balance represents 34.5% of total general fund expenditures and transfers out.

The fund balance of the City's general fund decreased by \$228,959 or 11.3%, from the prior-year fund balance. The change of the current year's fund balances is mainly due to:

- Sales tax revenue decreased due to a stagnant year for the economy and due to a major retailer paying their September 2006 sales taxes on the October sales tax report. Additionally the employees received a 3% cost of living raise and the wages and benefits of the employee performing the duties in the Vehicle Maintenance fund was transferred to Non-Departmental fund for ten months in 2006.

CITY OF FESTUS
JEFFERSON COUNTY, MISSOURI
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDING SEPTEMBER 30, 2006

GOVERNMENTAL FUNDS (continued)

- Real Estate and Personal Property Tax increased due to the increase in assessed valuation. Building permits decreased from the second year, reflecting a slow down in new construction in the City.

Changes in fund balances for other major governmental funds can be described as follows:

- The City Transportation Fund increased by \$163,300 or 11% from the prior-year. The expenditures increased by \$345,046, with a nearly \$135,000 increase in wages and benefits and over \$152,000 increase in capital outlay. At the end of September 30, 2006 the unreserved fund balance of \$1,647,870 is available for spending at the City's discretion.
- The County Transportation Fund increased by \$8,673 or 4.1% from the prior year. At the end of September 30, 2006 the unreserved fund balance of \$218,678 is essentially a reserve needed in order to pay for expenditures up front until the City can request reimbursement through the County. There was deferred revenue in the amount of \$1,898,025 available at September 30, 2006.

PROPRIETARY FUNDS

Business-type activities increased the City's net assets by \$1,147,754, which is an increase of 17.9% over the prior fiscal year. Key elements of this change are as follows:

- The City's Municipal Airport had a decrease in net assets of \$29,713 or (8.4%) from the prior year. The City's Municipal Airport is currently being operated under a management agreement with the Citizens for Airport Economic Expansion, Inc. who is a not-for-profit corporation formed for the express purpose of providing airport management services.
- The Water and Sewer Fund had an increase in net assets in the amount of \$1,177,467 or 19.4% from the prior year. The City water sales increased in the amount of \$121,348 or 5.1% from the prior year. This is a result from an increase in water rates needed in order to purchase water from the Jefferson County Water Authority and to meet debt service requirements. The City sewer sales increased in the amount of \$3,482 or .4%. Water taps had an increase of \$2,220 or 2.3% from the prior year. Sewer taps had a decrease of \$15,400 or (6.7%) from the prior year.

LONG-TERM DEBT

Governmental Activities:

At the end of September 30, 2006, the City had outstanding long-term debt obligations for governmental activities in the amount of \$4,071,781 compared to \$4,088,843 in 2005. The City's obligations include a Neighborhood Improvement District Bonds in the amount of \$584,731 that will be assessed to property owners benefiting from improvements within the Bailey Station, Tanglewood, and Alexander Heights Subdivisions over the next 17 years. Capital lease obligations outstanding totaled \$63,540, which include a capital lease for a sewer cleaner and a capital lease for police vehicles. The Certificate of Participation was issued to purchase the fire-training center. The Notes Payable is the balance due to Lowe's and Home Depot for reimbursement of infrastructure costs, which is to be repaid with a specified portion of the sales tax collected by those companies. (See the Note IV - Long Term Debt for further clarification of the agreements).

Business-type Activities:

At the end of September 30, 2006, the City had outstanding long-term debt obligations for business-type activities in the amount of \$12,601,629 compared to \$11,980,078 in 2005. The net increase in long-term debt for business-type activities of \$621,551 included the issuance of a Certificate of Participation for the installation of the 18" parallel sewer line, net of discount \$1,057,127. It also included a decrease in the notes payable for the Pounds Sewer Project in the amount of \$32,069, a decrease in the 2001C State Revolving Fund Loan in the amount of \$2,393 and a decrease in the 2002B State Revolving Fund Loan in the amount of \$24,153. Other decreases included principal payments on the revenue bonds Series 2003 for \$260,000, Series 2002B for \$70,000 and Series 2001C for \$30,000.

SIGNIFICANT VARIANCES BETWEEN BUDGETS AND ACTUAL EXPENDITURES

In the general fund, the following significant variances occurred between budget, amended budget and actual expenditures:

- General revenues showed an increase of \$94,433 over what was actually budgeted. Conservatism was used in designating a budget amount for Utility Gross Receipts and Investment Income and both had revenues higher than budget. The variance in service charges was due to the actual number of trash customers being larger than the number used for the budget. Intergovernmental actual was over budget mainly due to Federal and State reimbursements received for the storm damage, which were not included in the budget. Sales tax revenues were less than budgeted, a 3% increase over the previous year's sales tax revenues was budgeted, however, the revenues were approximately the same as the previous year.
- Under administration, the City budgeted \$26,000 in legal and engineering fees whereas, the expenditures only amounted to \$12,273. The telephone costs were less than budget by \$4,708, due to plan changes and adjustments.
- Under court, personal services were less than budgeted by 10% due to legal fees actual expenditures coming in almost \$7,100 less than amount budgeted. Office expenses were down by 32% of what was budgeted and special expenses were 9% less than budget.
- The police department was under budget by \$56,199, which included under-spending of benefits by 3% or \$12,817, office expenses were 23% less than budgeted, and special expenses coming in 10% under budget.
- The fire department engineering fees were 40% under budget and the office expenses were only 73% of the amount budgeted.
- The non-departmental budget was under budget by \$170,759. This difference is primarily a book difference due to the reflection of capital purchases and debt payments being reflected in the Long-Term Debt Fund, however, the funds originally budgeted for those items are still reflected in the General Fund Budget.

Other significant variances occurred between budget, amended budget and actual expenditures for other major governmental funds can be described below:

- The City's Transportation Tax Fund showed sales tax revenues coming in \$44,459 less than what was budgeted and the investment income coming in \$60,919 over budget.

SIGNIFICANT VARIANCES BETWEEN BUDGETS AND ACTUAL EXPENDITURES (continued)

- Expenditures for the City's Transportation Tax Fund were \$298,679 under the amount budgeted. The three primary categories for this were material and supply, which was \$106,698 under budget, personal services, which was \$30,973 under budget, and special expenses, which was \$36,898 under budget.
- The County Transportation Tax Fund showed intergovernmental revenue under budget by \$348,179, which was a result of grant revenue received for the Festus Bikeway System that was delayed in construction. Public Works expenditures in this fund were under budget by \$1,347,382, which was a result of the bridge project that did not get started and the bikeway that did not get completed.

 RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
 TO THE STATEMENT OF NET ASSETS
 FOR THE YEAR ENDED SEPTEMBER 30, 2006

Total Fund Balances - Governmental Funds	5,547,891
Amounts reported for governmental activities in the statement of net assets are different because:	
Certain current assets are not available to pay for current period expenditures and therefore, are deferred in the funds.	40,552
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. The cost of assets is \$13,031,281 and the accumulated depreciation is \$5,902,122.	7,129,159
Other long-term assets are not available to pay for current period expenditures and therefore, are deferred in the funds.	4,291
The Internal Service Fund is used by the City to charge for services provided by the vehicle maintenance department to individual funds. The assets and liabilities of the Internal Service Fund are included in governmental activities in the statement of net assets.	184
Certain long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. Long-term liabilities at year-end consist of:	
Accrued payables	(267)
Accrued compensated absences	(89,914)
Bonds and notes payable outstanding	(878,280)
Net Assets Of Governmental Activities	11,753,616

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND
BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2006

Net Change in Fund Balances - Governmental Funds		306,028
Amounts reported for governmental activities in the statement of activities are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets are allocated over estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays over the capitalization threshold (\$1,129,393) exceeded the depreciation (\$617,041) in the current period.		
Depreciation Expense	(617,041)	
Capital Outlays	1,129,393	512,352
Gain/(Loss) on capital assets sold		(18,175)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds.		943,606
Transfers In from other funds		62,702
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance cost, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and in the treatment of long-term debt and related items.		
Debt issued for 2005 COP Bonds	(230,000)	(230,000)
2005 COP Underwritten Discount	2,875	
2005 COP Cost of Issuance	2,174	5,049
Amortization of 2005 COP Underwriter Discount	(431)	
Amortization of 2005 COP Cost of Issuance	(326)	(757)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:		
Compensated Absences		14,041
Repayment of long-term debt		70,255
Accounts Payable		(267)
Accrued interest receivable		158
Internal Service Fund is used by management to charge the cost of certain activities to individual funds. The net revenue (expense) of the Internal Service Fund is reported with governmental activities in the statement of activities.		24,246

CITY OF FESTUS
JEFFERSON COUNTY, MISSOURI
NOTES TO ACCOMPANYING FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2006

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting and financial reporting policies applied by the **City of Festus, Missouri** (the City) conform to U.S. generally accepted accounting principles as applicable to governmental entities. The following is a summary of the more significant policies:

A. The Financial Reporting Entity

The City defines its financial reporting entity in accordance with provisions established by the Governmental Accounting Standards Board (GASB). Such standards require inclusion of component units based upon whether the City's governing body has any significant amount of financial accountability for potential component units (PCU). The City is financially accountable if it appoints a voting majority of a PCU's governing body and is able to impose its will on the PCU or there is a potential for the PCU to provide specific financial benefits to, or impose specific financial burdens on, the City. The City's financial reporting entity consists of the City (the primary government) and its component units. The component units discussed below are included in the City's reporting entity because of the significance of their operational or financial relationships with the City.

Discretely Presented Component Units

The discretely presented component unit columns in the basic financial statements include the financial data of the City's other component units. They are reported in separate columns in the government-wide financial statements to emphasize that they are legally separate from the City. The following entities are discretely presented in the basic financial statements as governmental fund types:

Jefferson County Water Authority – Three of the seven members of the component unit's governing body are members of the City of Festus administration or City Council. The component unit currently makes the debt service payments for one of the city's bond issues. This arrangement causes the City of Festus to have an economic interest in the component unit's financial well-being since failure to make the debt service payments by the component unit would impose a financial burden on the city. Separate financial statements are prepared for the Jefferson County Water Authority and may be obtained by contacting the City of Festus.

Festus Public Library Foundation, Inc. – The component unit's governing body is appointed by the City Council. The purpose of the component unit is to establish future expansion and repair of the library building, and to update and add to the collection of books, materials, and equipment in the library. Separate financial statements are not prepared for the Festus Public Library Foundation, Inc.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of

B. Government-wide and Fund Financial Statements (Continued)

interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual Enterprise Funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments and compensated absences, are recorded only when payment is due (i.e. matured).

Property taxes, sales taxes, franchise taxes, fines, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable

due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The government reports the following major governmental fund:

General Fund – The General Fund is the primary operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

The City reports the following major proprietary fund:

Water and Sewer Fund – The Water and Sewer Fund is used to account for operations that are financed and operated in a manner similar to private business enterprises; – where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Additionally, the City reports the following fund type:

Internal Service Fund – Internal Service Fund is used to account for services provided to other departments of the City by the Vehicle Maintenance Fund. Charges for services are allocated to various City departments on a cost recovery basis.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the GASB. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Airport and Water and Sewer

Enterprise Funds and of the City's Internal Service Funds are charges for sales and services. Operating expenses for Enterprise Funds and Internal Service Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrances accounting – under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation – is utilized in the governmental funds. Encumbrances outstanding at year-end are reported as reservations of fund balance and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

E. Cash, Cash Equivalents, and Investments

State statutes authorize the City to invest in obligations of the U.S. Treasury, federal agencies, commercial paper, corporate bonds, and repurchase agreements. The City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. GASB State No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, requires that all investments be reported in the financial statements at fair value. Fair value is established as readily determinable current market value for equity and debt securities.

F. Allowance for Uncollectable Accounts

Allowance for uncollectible accounts is as follows:

JEFFERSON COUNTY, MISSOURI
NOTES TO ACCOMPANYING FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2006

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Due To/From Other Funds

Noncurrent portions of long-term interfund loans receivable (reported in "advances to" asset accounts) are equally offset by fund balance reserve account which indicates that they do not constitute "available spendable resources" since they are not a component of net current assets. Current portions of long-term interfund loans receivable (reported in "due from" asset accounts) are considered "available spendable resources" and are subject to elimination upon consolidation. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide statements as "internal balances".

H. Inventory and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

I. Restricted Assets

Certain proceeds of the Water and Sewer Enterprise Fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

J. Capital Assets

Capital assets which include property, equipment, and infrastructure (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

In accordance with GASB Statement No. 34, infrastructure assets constructed, purchased, or donated effective October 1, 2003 are reported in the government-wide financial statements.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

JEFFERSON COUNTY, MISSOURI
NOTES TO ACCOMPANYING FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2006

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Depreciation is being computed on the straight-line method, using asset lives as follows:

Asset	Years
Buildings and other improvements	15-30
Office equipment	3-10
Automotive equipment	4-6
Machinery and equipment	5-7
Infrastructure	20-50

K. Compensated Absences

Vacation

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Vested or accumulated vacation leave of proprietary funds is recorded as an expense and liability of those funds as the benefits accrue to employees. The entire accumulated vacation leave is accrued when incurred in the government-wide financial statements. For governmental funds, the expenditure for vacation leave is recorded in the fund when the employees who have accumulated vacation leave are paid. Therefore, current portion of the liability is not reported in the governmental funds. A schedule of the accrual for vacation leave follows:

	Total	Amounts Due Within One Year
Governmental Activities	\$ 89,914	\$ 89,914
Business Type Activities	14,506	14,506
	\$ 104,420	\$ 104,420

Sick Leave

Sick leave is accumulated by eligible employees at a rate of 1 day for every full month of service and is available for use after six months of being a regular full-time employee. Unused accumulated sick leave is not eligible to be paid to the employee when separation of employment occurs and consequently is accounted for in the period the sick leave is taken and no liability is recorded.

L. Deferred Revenue

Deferred revenue is composed of delinquent property tax receivables, protested utility taxes, and insurance proceeds not used which are measurable but not available and, therefore, not recognized as revenue in the accompanying governmental fund financial statements.

M. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance cost, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

N. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for subsequent year appropriations or legally restricted by outside parties for use of specific purpose.

O. Property Taxes

The City's property tax calendar is as follows:

- Property is assessed by the County on January 1 each year.
- The tax levy ordinance is adopted and filed with the county clerk on or before September 1.
- Property taxes are due to be collected on or before December 31.
- Property taxes attach as an enforceable lien on property as of January 1.

P. Grant Revenue

Resources received by the City from other governments are accounted for within applicable funds based on the purpose and requirements of each grant. Revenues are recognized on an accounting basis consistent with the Fund's measurement objective.

Revenues related to expenditure-driven grants are recognized to the extent expenditures are incurred. Any excess or deficiency of grant revenues received compared to expenditures incurred is recorded as deferred revenue or amounts receivable from the grantor.

Q. Interfund Transactions

In the fund financial statements, the City has the following types of transactions among funds:

Transfers – Legally authorized transfers are reported when incurred as transfers in by the recipient fund and as transfers out by the disbursing fund.

Elimination of interfund activity has been made for governmental activities in the government-wide financial statements.

R. Use of Estimates

The preparation of basic financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and the accompanying notes. Actual results could differ from those estimates.

II. CASH AND INVESTMENTS

Investments are recorded at cost, which approximates market.

Interest Rate Risk – The City’s investment policy minimizes the risk that the market value of securities mature to meet cash requirements for ongoing operations and investing operating funds primarily in short-term securities. Investments in banker’s acceptance and commercial paper shall mature and become payable not more than 180 days from the date of purchase. All other investments shall mature and become payable not more than five years from the date of purchase. The City’s established investment policy has limited the City’s investment portfolio to a weighted-average maturity that does not exceed three years.

Credit Risk – State law permits Cities to invest in obligations of the State of Missouri or U.S. Government and obligations of government agencies that mature or become payable in one year or less from the date of issue

Custodial Credit Risk – For an investment, custodial credit risk is the risk that, in the event of failure of the counter party, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law requires depository financial institutions to pledge as collateral for public funds on deposit by governmental unit securities which, when combined with Federal Deposit Insurance Corporation (“FDIC”) insurance, are at least equal to the amount on deposit at all times. At September 30, 2006, the City’s deposits bank balance was insured or collateralized as follows:

At September 30, 2006, 100% of the City’s investments were guaranteed by the U.S. Government.

Concentration of Credit Risks – The City places no limit on the amount the City may invest in any one issuer. More than 5% of the City’s total unrestricted investments are with U.S. federal

IV. LONG-TERM DEBT (Continued)

In conjunction with SRF – 2001C and 2002B notes, a reserve account has been established with a no-interest loan funded with federal capitalization grants and matching funds from the State of Missouri.

When fully funded, this loan (reserve account) will be funded in an amount equal to 33.33% for the Series 2001C and 70% for the Series 2002B of the outstanding principal amount of such bonds. The reserve account is held in trust. As the principal amount of such bonds is repaid, the amount held in the reserve account will be reduced such that the reserve account will equal 33.33% and 70%, respectively, of the remaining principal balance of such bonds.

The \$4,450,000 Series 2003 Revenue Bonds are in the name of the City. The Jefferson County Water Authority (the Authority) is using \$490,000 debt proceeds for construction costs and intends to pay the future debt service payments. Therefore, \$490,000 of the debt has been recorded on the books of the Authority.

V. EMPLOYEE RETIREMENT PLAN

1. Plan Description

The City participates in LAGERS, an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section RSMo 70.600 – 70.555. As such, it is LAGER'S responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and it is a tax exempt. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P. O. Box 1665, Jefferson City, MO 65102 or by calling 1-800-447-4334.

2. Funding Policy

The City's full-time employees do not contribute to the pension plan. The City is required by state statute to contribute at an actuarially determined rate; the current rate is 8.1% (general) and 6.2% (police) and 15.0% (fire) of annual covered payroll. The contribution requirements of plan members are determined by the governing body of the City. The contribution provisions of the City are established by state statute.

3. Annual Pension Cost

For 2006, the City's annual pension cost of \$257,162 was equal to the required and actual contributions. The required contribution was determined as part of the February 29, 2004 and/or February 28, 2005 annual actuarial valuation using the entry age actuarial cost method. The actuarial assumption included, a) a rate of return on the investment of present and future assets of 7.5% per year, compounded annually, b) projected salary

increases of 4% per year, compounded annually, attributable to inflation, c) additional projected salary increases ranging from 0.0% to 6.0% per year, depending on age and division, attributable to seniority/merit, d) pre-retirement mortality based on the RP-2000 combined Healthy Table set back 0 years for men and 0 years for women and e) post-retirement mortality based on the 1971 Group Annuity Mortality table projected to 2000 set back one year for men and seven years for women. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The amortization period at February 28, 2006 was 15 years.

Three-year trend information follows:

For The Years Ended June 30	Annual Pension Cost (APC)	Percentage Of APC Contributed
2006	\$ 257,162	100%
2005	149,544	100%
2004	82,523	100%

Schedule of funding progress follows:

Note: The above assets and actuarial accrued liability do not include the assets and present value of benefits associated with the Benefit Reserve Fund and the Casualty Reserve Fund. The actuarial assumptions were changed in conjunction with the February 28, 2006 annual actuarial valuations.

VI. DUE FROM AND DUE TO OTHER FUNDS

There were no due from/due to other funds balances at September 30, 2006.

VII. INTERFUND TRANSFERS

Individual fund transfers are as follows:

<u>Transfer From</u>	<u>Transfer To</u>	<u>September 30, 2006</u>
General Fund	Internal Service Fund	\$ 28,625
General Fund	Nonmajor funds – Library	8,149
General Fund	Nonmajor funds – Capital Service	246,000
General Fund	Nonmajor funds – Long-Term Debt	62,702
Nonmajor funds – City Transportation	Nonmajor funds – NID Assessment	4,081
Nonmajor funds – Levee Tax	Nonmajor funds - Park	295,728
		<u>\$ 645,285</u>

Interfund transfers were used to 1) move revenues from the fund that ordinance or budget requires to collect them to the fund that ordinance or budget requires to expend them, 2) use restricted revenues collected in the General Fund to finance capital improvements and other funds in accordance with budgetary authorization, or 3) move revenues in excess of current year expenditures to other funds.

VIII. INSURANCE

The City is a member of the Missouri Intergovernmental Risk Management Association (MIRMA), a state-wide governmental self-insurance pool which provides property, liability, and worker's compensation coverages to its participating members in a single comprehensive multiline package. The various lines of coverage are not available individually and the membership is limited to municipalities and municipally owned utilities. The City's policy covers all real and personal property owned by the City except sewer lines. The policy is for replacement cost and has a June 30 anniversary date.

MIRMA is funded by annual member assessments calculated at a rate per \$100 of annual payroll which applies to all lines of coverage on a composite basis. These funds are used to pay losses within specific risk retention limits shared equally by all members; purchase excess insurance which provides a transfer of catastrophic risk to private insurance carriers; purchase services such as claims administration, loss

FOR THE YEAR ENDED SEPTEMBER 30, 2006

prevention, and data processing; and pay administrative expenses. Should actual insurance losses exceed MIRMA's estimates, the City could be required to contribute additional funds. Management believes the risk of additional loss is minimal and any additional contributions that may be required would not materially impact the overall operations of the City. Settled claims resulting from these risks have not exceeded coverage in any of the past three years.

IX. LITIGATION

The City generally follows the practice of recording liabilities resulting from claims and legal actions only when they become fixed and determinable in amount. The City is a defendant in a lawsuit regarding a claim for zoning enforcement damages which seeks damages in excess of \$3,000,000. As of September 30, 2006, the City has not recorded a provision for this matter as management intends to vigorously defend these allegations and believes the payment of the damages is not probable. However, if the City is found liable in the lawsuit insurance will not cover any of the damages and the financial condition of the City in future periods could be adversely affected.

X. FESTUS-CRYSTAL CITY SEWAGE TREATMENT COMMISSION

The City of Festus and the City of Crystal City, Missouri participate in the Festus-Crystal City Sewage Treatment Commission (the Commission) which was formed for the purpose of operating and maintaining a sewage treatment facility for the two cities. Both City Councils appoint two members to the Commission. The City of Festus is committed to pay monthly to the Commission an amount equal to 58 - 60% of the previous month's costs of operation and maintenance of the shared facility and repairs and replacements of equipment. City of Crystal City is committed to pay the remaining 40 - 42% of described costs. Complete financial statements of the Commission can be obtained directly from its administrative offices. The City accounts for its participation in this joint venture under the equity method of accounting to reflect its 58 - 60% ownership of the Commission. The City's interest in the joint venture at September 30, 2006 is \$4,164,034 and its share of the Commission's net loss before adding back depreciation assets financed by grants from other governments is \$136,604.

Depreciation on assets financed by grants from other governments, \$126,271, is reflected in the statement of revenues, expenses, and changes in retained earnings and is due to depreciation expense for fixed assets maintained by the Commission which were purchased with Commission assets. Depreciation expense is charged against contributed capital. For the year ended September 30, 2006, the City's cost for sewage treatment services provided by the Commission was \$216,161, which includes the City's share of operating expenses, capital, and reserve.

The following paragraph is unaudited:

The Commission maintains its accounts on the cash basis. Total assets and equity of the Commission at September 30, 2006 were both \$825,270. Commission management stated that no long-term liabilities were outstanding at September 30, 2006. For the year ended September 30, 2006, total receipts, disbursements, and depreciation were \$337,845; \$377,845; and \$136,604, respectively, resulting in a net decrease in the Commission's equity of \$136,604.

XI. CONCENTRATION

The City entered into a water rate agreement to purchase water from the Jefferson County Water Authority.

XII. RESTATEMENT OF BEGINNING FUND BALANCES

The City reports government-wide financial statements using the economic resources measurement focus and the accrual basis of accounting as prescribed under GASB Statement No. 34. When GASB No. 34 was applied, there was an error in the presentation of the government-wide net assets or fund balances. This error did not affect the individual governmental fund balances, only the government-wide balances. The restatement causes an increase of \$2,503,571 to the beginning balance for net assets on the statement of activities from \$7,560,807 as previously reported to \$10,064,378.

NOTES TO SCHEDULES OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES – BUDGET TO ACTUAL
FOR THE YEAR ENDED SEPTEMBER 30, 2006

Explanation of Budgetary Process

Budgets are adopted on an accrual basis. An annual appropriated budget is adopted for the governmental funds except proceeds from notes payable and related expenses. All annual appropriations lapse at fiscal year-end.

In August, all departments submit requests for appropriation to the City's budget committee so that a budget may be prepared. The budget is prepared by fund, function, and activity, and includes information on the past year, current year estimates, and requested appropriations for the next fiscal year. During September, the budget is presented to the City Council for review. Prior to October 1, the budget is enacted by City Council through passage of an ordinance. Expenditures may not legally exceed budgeted appropriations at the activity level. Budgeted amounts in the accompanying financial statements include transfers and revisions to the original budget ordinance. The City Administrator is authorized to transfer appropriations between budget line items within departments. The City Council must approve transfers between funds and departments.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the City Council
City of Festus, Missouri

We have audited the financial statements of the City of Festus, as of and for the year ended September 30, 2006, which collectively comprise the City's basic financial statements and have issued our basic report thereon dated January 25, 2006. We did not express an opinion on supplementary information required by the Governmental Accounting Standards Board. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered City of Festus' internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Festus' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. We noted no matters involving these tests that we consider to be material weaknesses.

This report is intended solely for the information and use of the Board, management, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
