Campus Expo Makes A Big Splash

By Steven L. Bramley editor

After spending the summer organizing her "Partnerships for Progress" initiative, Chancellor Margaret Barlett announced last fall that she was planning a two-pronged program for fall semester. The first program, partnerships for Progress in a five-year program, consists of five workshops designed to improve the quality of public services and to respond to the technological challenge of the information age's impact on the economy. The chancellor's office is the primary sponsor of the events.

Margarette Kirk Barnett

The report also mentions plans to sponsor special interest programs. A workshop is scheduled only if a certain number of registrants are needed. Current registrants are notified if the program is not canceled.

The report concludes that the program will include workshops on the state's three campuses.

"Pipeline was such a program, Reichen said, that was a program that played new-ware and peak music. It had a lot of local talent following. The program didn't play with the context of the state's music, so we had to cancel it."

Some people wished pipeline were with local bands when it was canceled, he added. The station, however, is not going to put it out on the air for fall after adding additional funding.

KWMU Makes Changes In Programming

The University of Missouri will be making its programming on its programming staff unusual. It was in the same management plan to hire a single management system, the report said.

Thomas Eschen, Special assistant of Special Projects, said, "We don't have the luxury of knowing that."

In fact, in Columbia, it is a radio station that airs all day, all night, all week.

He said that students in Columbia can change the channel at will, on the campus where they are, or more stations are heard.

"Don't mistake this for the St. Louis with a staff. Our second reason is in the station, Eschen said.

According to Eschen, the station allows students to audition at any time even on weekends, from 11 p.m. to 6 a.m. on Saturdays and Sundays.

"the station listens to the students for hours a week," Eschen said.

"We don't have money in the budget," he said.

"It need not necessarily mean the students, but non-student, if that's necessary, I feel that certain positions can be filled by someone who is so interested."

Dominowski made specific recommendations in order to increase listenership.

"Dominowski's report stressed that no specific group was cause-.

"An agreement has been reached with the airlines in the St. Louis Local Public Schools to develop a high school radio program for junior and senior high school students in the summer, "the report said.

"The agreement will position the St. Louis Public Schools to listen and learn in new and more effective ways," Reichen said.

"The part is part of the Project Compete section of the Partnership for Progress program.

Campus Police Begin Using Radar Patrol

By Phyllis Allen associate news editor

The University of Missouri Police Department has begun experimenting with a radar patrol that has built to respond to the technological challenge of the information age's impact on the economy.

The program is sponsored by the University of Missouri, Frisco, and the city of St. Louis.

"This agreement represents an ongoing series of activities already in place in a number of smaller radio markets in St. Louis County," Tuohy said.

"The city high schools of St. Louis County will use the model program," he said.

"This program is designed to be used by all schools and is designed to be used by all schools and to be used by all schools," Tuohy said.

Students from the University and the St. Louis school district will work in designated schools.

"They will develop and implement activities in instructional enrichment, comprehensive counseling, student development, motivation and resource sharing," Tuohy said.

"A joint coordination committee will oversee the bridge program with members appointed by Barnett and Jones," Tuohy said.

The one-year model program will be designed during the 1988-89 academic year. A new program will begin in fall 1989 or 1990, depending on funding from the state of Missouri and the Partnership's budget.

Barnett announced her Partnership Plan shortly after taking office on June 1 of this year.

The plan has three major areas of emphasis. Project Compete, for which part of the city schools was involved, is designed to improve the chances for success in college, to enhance school systems and to provide management programs available for area citizens, and to improve the relationship between area business and school systems by offering training, retaining and research needs.

The CMU budget for the current fiscal year is $12,000,000. The University of Missouri has included $5,000,000 for policing needs for 1987-88 from the state legislature.

"It's an exciting project that will begin," he said.

"This will be the third time that Magrath will have to institute a search in the second semester of the UM campus.

During the last year, new chancellors were appointed at both the St. Louis and Beltsville campuses.

Chancellor Barnett Begins Partnership Program

Visitors to the UM's Expo Wednesday and Thursday found a wide variety of activities for the first time in a new kind of event, he said.

"We have a lot of activities available to students, and to collaborate for area citizens, and to collaborate for area citizens, and to collaborate for area citizens," Reichen said.

"The event was a success," he said.

"But only the Expo's student volunteers had a chance to attend the vast array of health aid set up by student organizations," Reichen said.

"This was a success, and I think everyone will be very interested in the Expo's programs for the future," he said.

"It's an exciting event, he said.

"I think that's the bill that's going to hit the road next year," he said.

"I think that's the bill that's going to hit the road next year," he said.

"I think that's the bill that's going to hit the road next year," he said.

"I think that's the bill that's going to hit the road next year," he said.

"I think that's the bill that's going to hit the road next year," he said.
**LETTERS TO THE EDITOR**

**Praises Pikes**

Dear Current:

The university Pi Kappa Alpha is to be commended on their decision to conduct an alcohol-free rush this fall semester. In conjunction with UM's Campaign for Education and Collections, I helped develop a campus-wide alcohol awareness campaign during the 1985-86 school year. In response to a questionnaire we distributed at the displays, 10% of the respondents (students, faculty and staff) acknowledged having driven while legally intoxicated during the preceding 12 months. This figure is disturbingly high and corresponds closely to data collected on other college campuses.

My congratulations to the Pi K's for taking a courageous and responsible position on the problem of alcohol abuse.

**Here Goes One More Anti-Smoking Tirade**

**BY CRAIG A. MARTIN**

Managing Editor

If I live the rest of my life and never hear another anti-smoking tirade it will be just fine with me. After all, novices are adults (physically and emotionally) and can make up their own minds. But before the world stars up and leaves the poor smoker alone, let me get something off my chest.

As I said before you can destroy more lives because you are not physically harmed. I should have to suffer for it. Then there are all those scenarios - a smoker in a public restroom, breathing in the same air, until he finishes his cigarette. What does he do with it? To that end can we ever really learn to conduct a meaningful study? Next time you are at a stoplight, look down and see all the pretty little teeth missing from. It's just not right. If I was in a public building, opened a stick of gum, and dropped the wrapper on the floor, people would look at me as though I were the anti-Christ and something. And rightly so.

But which is easier to clean up, a gum wrapper or cigarette butt and burned into the floor? Isn't that easy? It was once 100.

How about this one? Now you're driving in your car, and the guy in front of you finishes his cigarette. It's left on the floor, and then he gets into your car and you lose your oxygen. What does he do with it? Put it in the ashtray of his car (which by the way, stinks rotten) and 24 hours later it goes back to the store where it will become a one-Ib. cigarette?

I'm not asking for discrimination against smokers, but I am asking for reasonable common sense and responsibility.

Nothing profound, nothing earth-shattering. Just something to think about before you discard that cigarette.

After all, the life you save might be mine.
September 13 is the deadline for several Rotary Foundation Scholarships. Application forms are available in both 441 and 256. For more information, contact George Robinson, Assistant Manager, Business Center, Washington University, Campus Box 135, St. Louis, MO 63139.

UWL Chancellor Margarita Risa Barstow will address the campus community on Wednesday, Sept. 24, at 4:30 p.m. in the J.C. Penney Auditorium. Following the State of the University address, a reception will be held in the Student Union Ballroom. A reception will also be held on Tuesday, Sept. 16 in Room 331 Luna Hall between 3:30 and 7:30 p.m. for Dressing College students to meet the chancellor.

The UM Board of Curators will meet in Columbus Sept. 13 and 14. The Board will review final construction plans for the new library building on campus. When completed in 1990, the building, along with Benton and Badger Halls will provide lab and teaching facilities for more than 2,400 physics, chemistry, biology and psychology undergraduates. Site preparations began last summer for the complex.

Judith M. Whittet has been named the coordinator of the Student Work Assignment Program. Her responsibilities include coordinating part-time and summer work for students. Whittet comes to UWL from the Georgia State University in Atlanta.

Julie A. Moran, a senior studying art history, has been awarded the first Diane Skomars Magrath Scholarship to the Lafayett area Branch of the American Association of University Women. The annual scholarship is given in honor of the wife of C. Peter Magrath, president of the University of Missouri.

H. Louis Meyer and UWL graduate, Vincent C. Schrenkert Jr., has confirmed he'll be taking courses at Washington University this spring to obtain a master's degree in business.

The UWL Elcairee Center, located at 627 S. Peckin Road is normally currently hosting a civic reception. They are also seeking volunteers to work with older adults. There are 300 adult clients in the center and volunteers, and persons may work as many or as few hours as desired. Special talents or skills may be put to use at the Center. For more information, call the Center at 725-0615.

"Women's Voices," a tribute to the voices of women's poetry, will be performed on Monday, September 22 in Room 100 of the Missouri Research Institute at UWL. Dr. Lewis, a mezzo-soprano and associate professor of voice at Valparaiso University in Indiana, will perform works by various women poets.

Elizabeth Clayton, professor of economics, was featured on the Public Broadcasting Service's series Cosmos on Tuesday, September 16 in Room 108 of the Missouri Research Institute. Clayton was given the award in recognition of her outstanding contributions to the science and international studies.

A "Retirement and Tax Deferred Annuity Program" will be offered on Monday, September 22 from 3:00 to 4:00 p.m. in Room 213, J.C. Penney. The program is free to all UWL employees and will review the University's long-range retirement benefit programs, describe other programs and explain the University's cash-deferred annuity.

The Speech Communication department in cooperation with Continuing Education Extension and the UWL Forensics and Debate Teams, sponsored the Speech Communication Association Regional Forensics Tournament.

The Missouri Research Institute at UWL recently received an award in recognition of excellence in journalistic achievement for having written the best editorial column during 1986 by the Missouri Newspaper Association.

The University Center Advisory Board of UWL, sponsored Terrorism: Lowering a Veil of Innocence over Bloody Hands, "As published an article, "Tax Free Housing," by 230 Bellflower Road in Normandy is recently completed and will receive an award in recognition of excellence in journalistic achievement for having written the best editorial column during 1986 by the Missouri Newspaper Association.

The second annual Gateway Regional Forensic Institute at UWL recently.

The Student Association Vice President of the University Center.

Dr. Davidov of epidemiology received an award in recognition of excellence in journalistic achievement for having written the best editorial column during 1986 by the Missouri Newspaper Association.

At this time I am reluctant to give up more classical music, books, joke, as I am uncertain about the perception that we are doing less and less music."

This goal of the station is to double its audience by 1988.

St. Vincent's Park September 12, 1986 at 2:00 p.m.
Meet in J.C. Penney Lobby at 1:45 p.m. for transportation to park.
For information contact Bridgette Jenkins, at 553-5111 or Marilyn Ditto, at 553-5211.

RHODES SCHOLARSHIP
Undegraduate and Graduate Men and Women Eligible
Interested students should consult the pamphlet of information on reserve in the Library and, if they are interested, should then pick up the application from the Office of Academic Affairs, 401 Woods Hall, as soon as possible. Students may also apply directly to the Secretary of the Missouri Rhodes Committee, Dr. Doug Hunt, The Learning Center, 305 Watson Place, University of Missouri, Columbia, Mo. 65211. Those students who plan to go through the Campus Committee should return their completed application form to Academic Affairs by noon on Friday, September 25, 1986.
Deadline Friday, September 26, 1986
Continuing Education Extension will be offering a refresher course for engineers studying to take the Professional Engineer Extension Test starting on September 13. The course will meet on Tuesdays and Thursdays, September 13 - October 18, 6:45-9:45 p.m. Classes will be held in the J.C. Penney Building. More information contact Joe Williams at 553-5981.

The Observatory will hold an open house at 6 p.m. The observatory is located adjacent to the student parking lot on the UMSL South Campus, 7004 Natural Bridge. Admission is free for the latest information about the open houses and Skywatch, call 553-5536.

The Women's Center will hold a gehoben-qualified indoor picnic lunch at 12 noon.

### This Weekend

**Saturday**

- Women's Soccer will play Northern Colorado at noon in the Mark Twain Building.
- Men's Soccer will play Missouri State at 4 p.m. in the Mark Twain Building.

**Sunday**

- Women's Cross Country will run and the Men's Cross Country will hold an intensive, one day workshop on Leadership and Counsel. For Women, call 553-5160. For more information, call 553-5711.

**Monday**

- "A Marriage of Music" and "Competitive Debate Bar Couses at the University of Missouri-St. Louis" will be the topic of this week's segment of Creative Aging airing from 7-8 p.m. on WBUY (90.7 FM).
- Student Literary Magazine will hold organizational meetings for its new staff. Meetings will be held at 4 and 9 p.m. in 493 Lucas Hall and 2 p.m. in 493 Lucas Hall. For more information contact the Office of Continuing Education at 553-5981.
- Gallery 210 will be featuring paintings by Margaret Bean Dorgan through Sept. 28. The Gallery is located in Lucas. Hours are Monday-Thursday, 9 a.m.-5 p.m. and Friday, 9 a.m.-1 p.m.

**Tuesday**

- Learning to Relax will be held at the Thursday's Counseling Services. For details call 553-5880. For more information, call 553-5711.
- The Women's Center will hold a gehoben-qualified indoor picnic lunch at 12 noon.

**Wednesday**

- Women's Concert for October 15, 8 p.m. The concert is being held at the Mark Twain Building.
- Student Literary Magazine will hold an intensive, one day workshop on Leadership and Counsel. For Women, call 553-5160. For more information, call 553-5711.

**Thursday**

- Women's Soccer will play Missouri State at noon in the Mark Twain Building.
- Men's Soccer will play Missouri State at 4 p.m. in the Mark Twain Building.
- Women's Cross Country will run and the Men's Cross Country will hold an intensive, one day workshop on Leadership and Counsel. For Women, call 553-5160. For more information, call 553-5711.

By Linda Wendling

It's not every day you get a call from the gallery director asking you to be a part of the opening of an exhibit. This is exactly what happened to me last week, when the director of the New Dimensions of Self Liberation (DMSL) Gallery in Columbus told me that she had read my story about the women's art exhibit and wanted me to be a part of the opening. I was thrilled and couldn't wait to see the exhibit myself.

The exhibit, which was called "Controversial Art: Depicts Inner Strength," was a collection of works by women from all over the country. The gallery director had invited me to attend the opening and to write about my experience. I was overwhelmed by the opportunity to see such a wide range of art and to write about it.

When I arrived at the gallery, I was immediately struck by the energy of the space. The walls were adorned with works of art, each one more impressive than the last. I was especially drawn to a piece by a woman who had painted a self-portrait of herself sitting on the floor, surrounded by books and papers. It was a powerful image that spoke to me on a deep level.

As I walked through the gallery, I was struck by the variety of styles and techniques on display. Some of the works were more abstract, while others were more figurative. But all of the art had one thing in common: it was dealing with issues of strength and empowerment.

One piece that stood out to me was a photograph of a woman standing in front of a wall of books. The title of the piece was "I Will Not Go Gently into That Good Night," and it was a powerful reminder of the importance of fighting for what we believe in.

Another piece that I found particularly moving was a painting of a woman holding a baby. The title of the piece was "Motherhood," and it was a beautiful representation of the strength of women in their role as mothers.

I was grateful for the opportunity to see such powerful art and to write about it. I hope that my readers will be inspired by the strength and courage of these women and their art.

Volleyball Team Opens With Win

by Steve Brown
Sports editor

Congratulations are in order for the Riverwomen volleyball team as they won their opening match against tough Washington University last weekend.

The Riverwomen were handed a loss in their opening match against tough Washington University last weekend.

The team was the first-place finish. They were not too bad, mostly for them.

They just made up their minds that they wanted to win. They went for the win and it was really a team effort.

Denise Silvester

The team knew they faced an uphill battle Saturday, but they were able to pull out a win against the nationally ranked Billikens.

Despite Dallas’s efforts in the opening match against a tough opponent, the Riverwomen were able to secure a victory.

The team knew they faced an uphill battle Saturday, but they were able to pull out a win against the nation’s top-ranked Billikens.
