RE: Maryland Heights Fire Protection District of St. Louis County

Fiscal Period: One Year Ended December 31, 2005 ✓

Dear Mr. McCoy:

In accordance with Sections 105.145 and 321.690 RSMo, we acknowledge receipt of the audit report of your fire protection district for the above-described fiscal period. We will review this report for compliance with 15 CSR 40-4 and report to you whether or not it complies with these administrative rules.

Thank you for your cooperation in sending this information.

Sincerely,

CLAIRE C. McCASKILL

Dear Alice,

At the request of my clients, I am enclosing one copy of the audited financial statement and related management letter for the year ended December 31, 2005 for the following fire protection districts:

- ✓ Eureka Fire Protection District
- ✓ West Overland EMS & Fire Protection District
- ✓ Normandy Fire Protection District
- ✓ Metro-North Fire Protection District
- ✓ Maryland Heights Fire Protection District

As always, feel free to call with any questions you may have.

Very truly yours,

McCOY & ASSOCIATES, P.C.

To the Board of Directors
Maryland Heights Fire Protection District
St. Louis County, Missouri

In planning and performing our audit of the general purpose financial statements of Maryland Heights Fire Protection District (the District) for the year ended December 31, 2005, we considered the District's internal control in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements. Although our audit was not designed to provide assurance on the internal control, we noted certain matters involving the internal control and its operation, and are submitting for your consideration related recommendations designed to help the District make improvements and achieve operational efficiencies. Our comments reflect our desire to be of continuing assistance to the District.

Certain of these matters may be considered reportable conditions, as defined by the American Institute of Certified Public Accountants, which involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control that could adversely affect the organization's ability to record, process, summarize and report financial data consistent with the assertions in the financial statements.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control elements does not reduce, to a relatively low level, the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited, may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Our consideration of the internal control would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above. However, none of the reportable conditions referred to above are believed to be material weaknesses.

We appreciate the opportunity to be of service to Maryland Heights Fire Protection District. Should questions arise about our recommendations, we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

This report is intended solely for the information and the use of the Board of Directors, management and the Missouri State Auditor and is not intended to be and should not be used by anyone other than these specified parties.

August 16, 2006

COMMENTS AND RECOMMENDATIONS, continued

Ambulance Fund Deficit

Missouri Statutes (RSMo 67.010) prohibit political subdivisions from budgeting expenditures in excess of budgeted revenues plus any unencumbered balance from the beginning of the budget year (i.e. fund balance). Even though budgeted revenues exceed budgeted expenditures, the budget does not contain provisions to eliminate the deficit fund balance in the ambulance fund at the beginning of the year.

We recommend that the District review the requirements of RSMo 67.010 to ensure that the ambulance fund budget is properly prepared.

District Response

The District's residents have approved a tax rate increase for the ambulance fund which should alleviate the deficit fund balance within 2-3 years.

COMMENTS AND RECOMMENDATIONS, continued

Postemployment Benefit Plans

We noted that the District is considering offering postemployment healthcare benefits to retirees. The Governmental Accounting Standards Board recently issued Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. Statement No. 43 is effective for periods beginning after December 15, 2007 and requires reporting similar to that required for the District's pension fund. In addition, disclosure requirements are such that an actuarial valuation would be required.

We also noted that the District has not engaged an actuary to determine the potential liability the District would incur in connection with adopting a postemployment healthcare plan.

We recommend that the district engage a qualified pension actuary to determine the cost associated with adopting a postemployment healthcare plan and to calculate the amounts that are required to be disclosed in the District's financial statements.

District Response

The District will consider the need to engage an actuary in connection with the contemplated implementation of a postemployment healthcare plan.

COMMENTS AND RECOMMENDATIONS, continued

Ambulance Billings

Historically, the District has recognized revenue from ambulance billings when the related cash has been collected. However, GASB Statement No. 33 requires that for transactions where the government gives up and receives essentially equal values, i.e. exchange transactions, that the revenue should be recognized when the transaction takes place. With respect to ambulance billings, this would be during the accounting period that the ambulance run took place.

With respect to ambulance billings, we also noted that billing and collection procedures are not well documented in an accounting manual. In addition, we noted that internal controls could be improved relative to:

- ✓ Ensuring that all billable runs are actually billed in accordance with the rates and terms approved by the District;
- ✓ That all billed runs are either collected or otherwise made subject to collection procedures;
- ✓ That uncollectible runs are adjusted or written off in accordance with District policy; and
- ✓ That the billing and collection of ambulance runs is accurately and timely reflected in the District's accounting records.

We recommend that the District review the accounting practices and related policies and procedures relative to ambulance runs to ensure compliance with the applicable accounting standards and the District's objectives.

District Response

The District will review the accounting practices and related policies and procedures relative to ambulance runs to ensure compliance with the applicable accounting standards and the District's objectives.

COMMENTS AND RECOMMENDATIONS, continued

Accounting Errors

In connection with our audit, we discovered various accounting errors in amounts material to the financial statements. The errors included understatement of tax revenues and taxes receivable, erroneous postings to fund balance accounts, erroneous postings to certificates of deposit accounts, and omitted investment reconciliations. The effects of these errors were to misstate the District's financial position and results of operations during the year and to delay the audit process.

We recommend that procedures be implemented to address the above circumstances.

District Response

The District is taking actions to address the accounting errors described above.

COMMENTS AND RECOMMENDATIONS, continued

Management's Discussion and Analysis

Missouri Statutes require that St. Louis County fire protection districts submit their audit reports by June 30 of the year following the year under audit. The District's audit report has not been submitted by the deadline as the Management's Discussion and Analysis was not prepared by that time.

We recommend that management prepare the Management's Discussion and Analysis section of the audit report as soon after year-end as possible so as not to delay the submission of the District's audit report.

District Reply

The District will attempt to prepare Management's Discussion and Analysis sooner so as not to delay the audit report submission.

COMMENTS AND RECOMMENDATIONS, continued

Interest Earnings

We noted that at December 31, 2005, significant sums were held in cash and certificate of deposit accounts. We also noted that some amounts were invested in tax-free accounts, which have a lower yield due to their tax-free status. Investment earnings could be increased if the District had invested such sums in investment accounts such as those issued by the federal government.

We recommend that the District modify its investment policies so as to maximize earnings by investing idle funds in government securities.

District Reply

The District will consider the need to modify the investment policy.

COMMENTS AND RECOMMENDATIONS, continued

Follow-Up to Prior Year's Recommendations

1. We recommended that the District prepare its budget to ensure compliance with RSMo 67.010.

The fund deficit has been eliminated.

2. We recommended that the District consider the need to engage an actuary in connection with the implementation of a postemployment healthcare plan.

See current year comment #2.

3. We recommended that the District review accounting policies and procedures relative to ambulance billings.

See current year comment #3.

4. We recommended that the District take steps to minimize accounting misstatements in internally prepared financial statements.

See current year comment #4.

INDEPENDENT AUDITORS REPORT

To the Board of Directors
Maryland Heights Fire Protection District
St. Louis County, Missouri

We have audited the accompanying financial statements of the governmental activities, each fund and the aggregate remaining fund information of the Maryland Heights Fire Protection District (the District), as of and for the year ended December 31, 2005, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each fund and the aggregate remaining fund information as of December 31, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated August 16, 2006 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with laws, regulations and contracts. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages 3 through 10 and 28 through 30, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information on pages 33 through 33 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

August 16, 2006

M. Long & Associates, P.C.

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Maryland Heights Fire Protection District's (the District) annual financial report presents an easily readable analysis of the District's financial activities. This is the first year the current accounting model has been used; therefore comparisons with the previous year are limited. For a comprehensive understanding of the financial statements, please review the financial statements, including the footnotes that follow the Management's Discussion and Analysis.

Financial Highlights

- The assets of the District exceeded its liabilities at the close of 2005 by \$13,371,138. Of this amount \$8,518,287 is unrestricted and may be used to meet the District's ongoing obligations to citizens and creditors. For management purposes the District considers it prudent to consider taxes due on the last day of the year available for the *succeeding* year's operations. Unrestricted fund balance, less one year's tax revenues, is management's basis for gauging the sufficiency of net assets.
- The District has implemented GASB 34 *Governmental Accounting Standards Board Statement - Basic Financial Statements - and Management's Discussion and Analysis- for State and Local Governments*.

Overview of the Financial Statements

- This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) Government-wide financial statements, 2) Fund financial statements, and 3) Notes to the financial statements. This report also contains required and additional supplementary information in addition to the basic financial statements themselves. A comparative analysis of government-wide data will be included in this report.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with broad information about the District's finances, similar to those used by private-sector companies. The two government-wide statements, Statements of Net Assets and Statements of Activities, report the District's net assets and how they have changed.

The **Statement of Net Assets** presents information on all of the District's assets and liabilities with the difference between the two reported as net assets. Increases and decreases in net assets may serve as a useful indicator of whether or not the financial position of the District is improving or deteriorating. The statement of net assets also provides information on unrestricted and restricted net assets invested in capital assets.

The **Statement of Activities** presents information on how the District's net assets changed during the most recent year. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of the timing of related cash flows.

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

The Statement of Activities presents the various functions of the District and the degree to which they are supported by charges for services, tax revenues and investment income.

The governmental activities of the District include general fire and ambulance services.

Fund Financial Statements

The fund financial statements provide information about groupings of related accounts which are used to maintain control over resources for specific activities or objectives. The District uses fund accounting to demonstrate compliance with finance related legal requirements. The fund financial statements provide more detailed information about the District's most significant funds. The funds of the District are divided into two categories: governmental funds and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the year. This information is useful in evaluating the Districts near term financial condition.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. This comparison will allow readers to understand the long-term impact of the government's operations within its revenue parameters as established by current tax rates and assessment. Both the governmental fund balance and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for each fund. Each fund is considered a major fund.

The District adopts an annual appropriated budget for each governmental fund. A budgetary comparison statement has been provided for the general and ambulance funds to demonstrate compliance with the budget.

Fiduciary fund

A fiduciary fund is used to account for the resources held for the benefit of employees outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs. The District's pension fund is

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

reported as its Fiduciary fund. Taxes collected for the pension fund are only available for the benefit of District employee pension benefits.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that includes budgetary presentations. Budgetary comparison schedules have been provided for these funds to demonstrate compliance with their respective budgets. Other required disclosures have been presented as required for St. Louis County Fire Protection Districts under Missouri statutes.

Government-Wide Financial Analysis

The statement of Net Assets presents the District as a whole. Table 1 provides a summary of the District's net assets.

Table 1 Net Assets

	<u>2005</u> Amount	<u>2005</u> Percentage of total	<u>2004</u> Amount	<u>2004</u> Percent of total
Current Assets (net of inter-fund receivables)	\$ 11,121,945	77%	\$ 9,367,720	75%
Capital assets, net of depreciation	<u>3,375,788</u>	<u>23%</u>	<u>3,192,966</u>	<u>25%</u>
Total Assets	<u>\$ 14,497,733</u>	<u>100%</u>	<u>\$ 12,560,686</u>	<u>100%</u>
Current Liabilities (net of inter-fund payables)	\$ 748,422	5%	\$ 369,826	1%
Non-current Liabilities	<u>378,173</u>	<u>3%</u>	<u>378,133</u>	<u>3%</u>
Total Liabilities	<u>\$ 1,126,595</u>	<u>8%</u>	<u>\$ 747,999</u>	<u>4%</u>
Net Assets				
Invested in capital assets, net of related debt	\$ 3,375,788	23%	\$ 3,192,966	25%
Unrestricted	8,518,287	59%	9,229,811	74%
Restricted	<u>1,477,063</u>	<u>10%</u>	<u>(610,090)</u>	<u>5%</u>
Total Net Assets	<u>\$13,371,138</u>	<u>92%</u>	<u>\$11,812,687</u>	<u>94%</u>
Total Liabilities and Net Assets	<u>\$14,497,733</u>	<u>100%</u>	<u>\$12,560,686</u>	<u>100%</u>

A portion of the District's net assets represent internal board designated restrictions reflecting reservations of the fund balance for asset replacement. Other board designated fund

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

restrictions reflect restrictions for the employee retiree medical benefits, which are not required to be represented as a liability of the District under current accounting guidelines and a reserve for emergency response. The board feels that with tax revenues not due until the last day of the year, its fund balance is adequate for operations and for the specified designations.

Changes in Net Assets

Table 2 shows the changes in net assets for the year ended December 31, 2005. Since this is the second year the District has prepared financial statements under GASB 34, revenue and expense comparisons to 2002 are not available. In future years, when prior year information is available, a comparative analysis of government-wide data will be presented.

Table 2

Change in Net Assets

	2005	2004
Revenue		
Tax revenue	\$ 7,793,609	\$ 5,850,028

Decrease in Net Assets	\$ 1,558,451	(\$ 458,557)
Net Assets, Beginning of the Year	\$ 11,812,687	\$ 12,271,244
Net Assets, End of Year	\$ 13,371,138	\$ 11,812,687

The District relies almost entirely on personal property and real estate tax revenues. This

**MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS**

source accounts for 96% of District revenues in 2005 and 96% in 2005.

Analysis of Revenue for Governmental Funds

Charges for services and commodities make up 12% of District expenses. Salaries and benefits are by far the largest component (81%) of District expenses. Dispatching costs provided by Central County Emergency 911 comprise 2% of expenses.

Analysis of Expenditures for Governmental Funds

The tax rates certified by the State Auditor in accordance with Revised Missouri Statutes (RSMo) Section 137.073.6 is based on that rate per each \$100 of assessed valuation. The tax rates for the different types of real property - residential, agricultural and commercial - as well as for personal property are set forth in the following table.

Certified Tax Levy for 2005

**MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS**

<u>2005</u>	Residential	Agricultural	Commercial	Personal Property
General fund	.734	.693	.776	.800
Ambulance fund	.367	.402	.368	.372
Pension fund	.120	.101	.126	.130
Dispatching fund	.046	.043	.048	.050
Total Tax Rate	1.267	1.239	1.318	1.352

<u>2004</u>	Residential	Agricultural	Commercial	Personal Property
General fund	.799	.800	.799	.800
Ambulance fund	.113	.150	.112	.118
Pension fund	.130	.122	.130	.130
Dispatching fund	.048	.050	.047	.050
Total Tax Rate	1.090	1.122	1.088	1.098

Financial Analysis of the District's Funds

The focus of the District's governmental funds is to provide information on inflows and balances of available expendable resources. In particular unreserved fund balance is a useful measure of the District's net resources available for spending.

At the end of 2005 the unreserved general fund balance was approximately \$8.7 million dollars. This fund balance includes cash requirements for the District to operate throughout the year 2006. Tax revenues for 2005 are due December 31, 2005, the last day of the District's year.

The ambulance fund does not have sufficient tax revenue to cover expenditures, and requires a transfer from the general fund to meet expenditures. The ambulance had a fund balance of \$1,059,218 at December 31, 2005.

The general fund unreserved fund balance also represents assets available to meet expected operating expenses anticipated to exceed annual tax revenues. The District expects future tax revenues to remain approximately level with current tax revenues, while personnel and other operating expenses are expected to increase.

The District's involvement in regional homeland defense plans indicate increases in spending will be required to plan for potential terrorist threats and a reserve for potential response to terrorist actions.

**MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS**

The Dispatch fund has a small fund balance, which is expected to be expended in the near future for communications equipment. The dispatch fund is required under its contract with a central dispatching entity to remit all its tax revenues to that entity.

The District adopts an annual budget for each of its governmental funds according to Missouri State Statutes specific to St. Louis County fire protection districts.

Each year the District amends its budgets to cover board authorized changes in spending requirements.

Original combined general and ambulance fund budgeted revenues and expenses for 2005 were \$5,357,745 and \$6,091,225 respectively. Final budget amounts were \$5,357,745 and \$6,491,425, respectively, for revenues and expenditures.

Capital Assets

Table 3 shows the capital investment of the District. The District has adopted under GASB 34 to include in capital assets; its real estate for facilities to house firefighters and ambulance personnel and emergency vehicles, the District's administrative building, and emergency and administrative vehicles owned by the District. The District has adopted a capitalization policy, which excludes emergency equipment and facilities furniture. Such items are considered expendable supplies due to the short lives expected.

**Table 3
Capital Assets**

Capital Asset	2005	2004
Land	\$ 647,860	\$ 647,860
Buildings and improvements	3,248,255	3,248,255
Ambulances and fire apparatus	1,779,370	1,913,161
Equipment and furnishings	<u>920,145</u>	<u>920,145</u>
Total	\$ 6,595,630	\$ 6,729,421
Less accumulated depreciation	<u>3,219,842</u>	<u>3,536,455</u>
Net capital assets	<u>\$ 3,375,788</u>	<u>\$ 3,192,966</u>

Debt

The District does not have any bonded indebtedness.

Economic Factors and Next Year's Budgets

- Voters approved a tax increase of 25 cents per 100 dollars assessed valuation for our ambulance fund which will be assessed.

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

- Net tax revenues are expected to have a modest increase
- Personnel and non-personnel costs are expected to increase approximately 5%, except for certain categories like health insurance, which is expected to increase substantially.

Contacting the District's Financial Management

This report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances and to demonstrate the District's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Administrative Assistant, Maryland Heights Fire Protection District, Administrative Center, 2600 Schuetz Road, Maryland Heights, Missouri 63043.

Maryland Heights Fire Protection District

The accompanying notes are an integral part of these financial statements.

Maryland Heights Fire Protection District
 Reconciliation of the Governmental Funds Statement of
 Revenue, Expenditures, and Changes in Fund Balances
 to the Statement of Activities

Total net change in fund balances - governmental funds \$ 942,056

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$434,983) exceeded depreciation expense (\$252,161) and the basis of assets disposed of (\$0) for the period. 182,822

Because some property taxes will not be collected for several months after the district's fiscal year ends, they are not considered "available" revenue and are deferred in the governmental funds. Deferred tax revenue increased (decreased) by this amount this year. 433,573

In the statement of activities, certain operating expenses - compensated absences (sick pay) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used, (essentially the amounts actually paid). This year, sick leave earned exceeded the amount of sick leave used by \$0. -

Change in net assets of governmental activities \$ 1,558,451

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
NOTES TO FINANCIAL STATEMENT

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Maryland Heights Fire Protection District (the District) provides fire protection, fire prevention, and emergency ambulance service to its residents. The financial statements include all accounts of the District that are controlled by the Board of Directors. The accounting principles of the District conform to generally accepted accounting principles applicable to governmental entities. The following is a summary of the more significant accounting policies:

Reporting Entity

The District's financial statements include all funds controlled by the District. A component unit is an organization that is included in the District's financial statements for which the District is financially accountable, or for which the District is not accountable, but for which the nature and significance or their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The District has no component units.

Jointly Governed Organization

The District, in conjunction with the Creve Coeur Fire Protection District, West County EMS and Fire Protection District, Metro West Fire Protection District and The City of Town and Country has created the Central County Emergency 911 Dispatching Center (Central County 911). The Board of the Dispatching Center is composed of one member from each of the boards of the participating entities. The District is required to remit taxes collected from the dispatching service tax levy to Central County 911.

Complete financial statements for Central County 911 can be obtained from the Central County 911 administrative offices at 22 Weis Avenue, Ellisville, MO 63011-2141.

Basis of Presentation

Government-wide Statements: The statement of net assets and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities.

The statement of activities presents a comparison between direct expenses and program revenue for the different functions of the District's activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenue include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenue that is not classified as program revenue, including all taxes, is presented as general revenue.

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
NOTES TO FINANCIAL STATEMENT

Fund Financial Statements: The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category - governmental and fiduciary - are presented.

The District reports the following governmental funds:

General Fund

The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue-Ambulance Fund

This fund is a special revenue fund that is used to account for the proceeds of a special tax levy which is restricted for the provision of emergency medical services.

Special Revenue-Dispatching Fund

This fund receives tax revenue and disburses funds in order to participate with other fire protection districts in a centralized dispatching service for the dispatching of fire and ambulance calls.

The District reports the following fund types:

Pension Trust Fund

This fund is used to account for assets held by the District in a trustee capacity. The fund accumulates contributions from the District generated from a pension tax levy as well as earnings from the fund's investments. Disbursements are made from the fund for retirement and administrative expenses.

Measurement Focus, Basis of Accounting

Government-wide and Fiduciary Fund Financial Statements: The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide financial statements are reported using the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without receiving (or giving) equal value in exchange, include property taxes. On an accrual basis, property taxes are recognized in the fiscal year for which the taxes are levied.

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
NOTES TO FINANCIAL STATEMENT

Government Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenue is recognized when measurable and available. The District considers all revenue reported in the governmental funds to be available if the revenue is collected within sixty days after year-end. Property taxes are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

All governmental funds of the District follow FASB Statements and interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

Cash and Cash Equivalents

The District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Investments

Investments are generally stated at market value.

Statutes authorize the District to invest in time deposits, U.S. Treasury and federal agency securities, commercial paper, bankers' acceptances and repurchase agreements. Statutes authorize the Pension Trust Fund to invest in corporate stocks and bonds.

Budgets and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Formal budgetary integration is employed as a management control device during the year for all governmental funds. The budgets are adopted on a modified cash basis of accounting.
2. The Board of Directors approves the tax rate by ordinance. Once this rate has been established, the Board approves the total budget appropriation and amendments.
3. Unused appropriations lapse at the end of the year.

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
NOTES TO FINANCIAL STATEMENT

Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and payable by December 31. Property taxes not collected by January 1 of the subsequent year are delinquent. The St. Louis County Collector collects the property tax and remits it to the District. The county's fee for this service is 1.5% of the taxes collected.

Property taxes levied for 2005 are recorded as receivable, net of estimated uncollectibles, as are prior year levies which are reevaluated annually. Taxes receivable represent estimated amounts to be collected by the County Collector of Revenue for 2005 and prior tax years, to be remitted to the District subsequent to December 31. The portion of taxes considered collectible but not collected and remitted to the District within 60 days of year-end is recorded as deferred tax revenue.

Capital Assets

Capital assets are recorded at historical cost or at estimated historical cost if actual historical cost is not available. Contributed fixed assets are valued at their estimated fair market value on the date contributed. The District defines capital assets as assets with an initial, individual cost exceeding capitalization limit amounts as delineated below, and an estimated useful life in excess of one year. Capital assets used in operations are depreciated using the straight-line method over the estimated useful life of the assets.

The estimated useful lives and capitalization limits are as follows:

	<u>Estimated Lives</u>	<u>Capitalization Limit</u>
Buildings & Improvements	40 Years	\$ 5,000
Fire Apparatus	10 Years	\$ 5,000
Ambulances	5 Years	\$ 5,000
Staff Vehicles	5 Years	\$ 5,000
Office Equipment	5 Years	\$ 1,000
Equipment	7 Years	\$ 1,000
Exercise Equipment	10 Years	\$ 1,000

Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities or extend useful lives are capitalized. Upon sale or retirement of fixed assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

Compensated Absences

Compensated absences are absences for which employees will be paid, such as vacation and sick leave. A liability for compensated absences that are attributable to services

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
NOTES TO FINANCIAL STATEMENT

already rendered and that are not contingent on a specific event that is outside the control of the District and its employees are accrued as employees earn the rights to the benefits. Compensated absences that relate to future services or that are contingent on a specific event that is outside the control of the District and its employees are accounted for in the period in which such services are rendered or such events take place.

Interfund Transactions

Interfund transactions are reflected as either loans, services provided, reimbursements or transfers. Loans are reported as receivables and payables as appropriate, are subject to elimination and are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the concurrent portion of interfund loans).

Services provided, deemed to be at market or near market rates, are treated as revenue and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

Estimates

The preparation of basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE B – DEPOSIT AND INVESTMENT BALANCES

Deposits

Following is a reconciliation of the District’s deposit and investment balances as of December 31, 2005:

	Government- wide Statement of Net Assets	Fiduciary Funds Statement of Net Assets	Total
Cash	\$ 5,401,708	\$ 34,441	\$ 5,436,149
Investments	2,105,499	13,121,037	15,226,536
Total	\$ 7,507,207	\$ 13,155,478	\$ 20,662,685

At year-end, the carrying amount of the District’s cash deposits was \$ 5,436,149 and the bank balance was \$ 5,617,319. The difference between the bank balance and the carrying

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
NOTES TO FINANCIAL STATEMENT

amount represents outstanding checks and deposits in transit. Of the bank balance, \$100,000 was covered by federal depository insurance and the balance was collateralized by securities pledged by the financial institutions and held by Commerce Bank. Such collateral was held by the pledging financial institutions agent in the District's name.

State statutes require that cash deposits must be insured or collateral must be pledged by the custodian bank in an amount sufficient to cover the amounts on deposit. The collateral is required to be held in safekeeping by the trust department of a financial institution other than the pledging bank. At December 31, 2005, the District's cash deposits were fully collateralized.

Investments

The District's investments are categorized below to give an indication of the level of custodial credit risk assumed by the District as of December 31, 2005. Category (1) includes investments that are insured or registered, or held by the District or its agent in the District's name. Category (2) includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or the District's agent in the District's name. Category (3) includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent, but not in the District's name.

At December 31, 2005, investments included the following:

	<u>Category 1</u>	<u>Category 2</u>	<u>Category 3</u>	<u>Fair Value</u>
Categorized investments:				
Money market funds	\$1,620,349	\$ -	\$ -	\$ 1,620,349

NOTE D – INTERFUND TRANSACTIONS

The composition of interfund balances as of December 31, 2005 are as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Dispatch Fund	<u>\$ 40,737</u>
Pension Trust Fund	General Fund	<u>\$ 356,549</u>
Pension Trust Fund	General Fund	<u>\$ 41,327</u>

NOTE E – RETIREMENT PLANS

Defined Contribution Plan

The defined contribution plan provides for individual participant accounts, is administered by the District and covers all employees. District contributions to the plan are allocated to participants in the proportion that the participant's compensation bears to the total compensation of all participants. Participants can not contribute to the plan.

During 2005, the District contributed a total of \$ 779,968 to the defined contribution plan. Under the provisions of the defined contribution plan, District contributions are discretionary; however, Missouri Revised Statutes require that the proceeds from the pension tax levy be invested in pension funds for the purpose of providing pension benefits.

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
NOTES TO FINANCIAL STATEMENT

Deferred Compensation Plan

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code 457. The plan, available to all government employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency

NOTE F - LEGAL DEBT MARGIN

Assessed valuation - January 1, 2005	\$ <u>624,908,710</u>

Amount of debt applicable to debt limit:	
Total bonded debt outstanding	-
Less amount available in debt service fund	<u>-</u>
	<u>-</u>
Legal Debt Margin	\$ <u>31,245,436</u>

NOTE G - CONTRACTUAL AGREEMENTS

The District has a contractual agreement with Central County Emergency 911 for dispatching services. For 2005, the agreement required the District to pay fees equal to the amount that would be collected from a tax levy of five cents per one hundred dollars of assessed valuation of all taxable, tangible property within the District's boundaries.

NOTE H - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District has joined together with other districts to form a group of self-insurers for workers' compensation, a public entity risk pool currently operating as a common risk management and insurance program for workers' compensation claims. The District pays an annual premium to the pool for its insurance coverage. The agreement for formation of the Missouri Fire and Ambulance Districts' Insurance Trust (MoFAD) provides that the pool will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$1,000,000 for each insured event. The pooling agreement allows for the pool to use 5% of assessments to make the pool self-sustaining for supplemental aggregate reinsurance coverage. This coverage will be funded until the cumulative balance reaches \$1,000,000. The Missouri Fire and Ambulance Districts' Insurance Trust has published its own financial report for the year ended December 31, 2005 that can be obtained from MoFAD.

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
NOTES TO FINANCIAL STATEMENT

NOTE I – NET ASSETS/FUND BALANCES

The government-wide financial statements utilize a net assets presentation. Net assets are categorized as invested in capital assets (net of related debt), restricted and unrestricted.

- *Invested in Capital Assets, Net of Related Debt* – This category groups all capital assets into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.
- *Restricted Net Assets*-This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by laws through constitutional provisions or enabling legislation.
- *Unrestricted Net Assets* – This category represents net assets of the District, not restricted for any project or other purpose.

In the fund financial statements, reserves and designations segregate portions of fund balance that are either not available or have been earmarked for specific purposes. The various reserves and designations are established by actions of the Board and management and can be increased, reduced or eliminated by similar actions.

As of December 31, 2005, reservations of fund balance are described below:

- *Dispatching Services* – to reflect the funds held for dispatching services. These funds are not available for general operations.

NOTE J – TRANSFERS

Transfers for the year ended December 31, 2005 consisted of the following:

Transfers to Ambulance Fund from:	
General fund	<u>\$ 908,417</u>
Total	<u>\$ 908,417</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and (2) use unrestricted revenues collected in the general fund to finance various programs accounted fro in other funds in accordance with budgetary authorization.

MARYLAND HEIGHTS FIRE PROTECTION DISTRICT
NOTES TO FINANCIAL STATEMENT

NOTE K – CHANGES IN LONG-TERM OBLIGATIONS

 SCHEDULE OF PRINCIPAL OFFICE HOLDERS
 December 31, 2005

<u>OFFICE HOLDER</u>		<u>ANNUAL COMPENSATION</u>
Steven Hartley	President	\$
Robert Lynch	Secretary	\$
Stephen Hutchins	Treasurer	\$
Robert Lynch	**	\$

The Board of Directors is elected and the Board annually determines which of its members will serve as president, treasurer, and secretary. The Board appoints the chief.

Each member of the Board may receive a fee not to exceed \$100 for attending each regularly called board meeting, or special meeting, but shall not be paid for attending more than four in any calendar month. The Chairman may receive an additional \$50 for up to two meetings per month. Each member is to be reimbursed for actual expenditures in the performance of his or her duties on behalf of the District. The Secretary and Treasurer may each receive additional compensation for the performance of their duties, not to exceed \$1,000 per year.

** Robert Nichols was elected to replace Robert Lynch in April 2005.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL
OVER FINANCIAL REPORTING BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors
Maryland Heights Fire Protection District
St. Louis County, Missouri

We have audited the financial statements of Maryland Heights Fire Protection District (the District), as of and for the year ended December 31, 2005, and have issued our report thereon dated August 16, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Maryland Heights Fire Protection District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance that we have reported to management of Maryland Heights Fire Protection District in a separate letter dated August 16, 2006.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Maryland Heights Fire Protection District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal

control components does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting that we have reported to management of Maryland Heights Fire Protection District in a separate letter dated August 16, 2006.
