INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners of the Botanical Garden Subdistrict of the Metropolitan Zoological Park and Museum District of the City of St. Louis and St. Louis County:

We have audited the accompanying financial statements of the governmental activities and governmental fund of the Botanical Garden Subdistrict of the Metropolitan Zoological Park and Museum District of the City of St. Louis and St. Louis County (the Subdistrict) as of and for the year ended December 31, 2006, which collectively comprise the Subdistrict's basic financial statements. These financial statements are the responsibility of the Subdistrict's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and governmental fund of the Subdistrict, as of December 31, 2006, and the respective changes in financial position for the year then ended in conformity with U.S. generally accepted accounting principles.

As disclosed in note 6 to the financial statements, the fund balance of the general fund of the Subdistrict as of December 31, 2005 has been restated.

The management's discussion and analysis and budgetary comparison information on pages 2 through 7 and pages 15 and 16, are not a required part of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS DECEMBER 31, 2006

The management's discussion and analysis (MD&A) of the Botanical Garden Subdistrict of the Metropolitan Zoological Park and Museum District of the City of St. Louis and St. Louis County (the Subdistrict) is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of major financial activities of the Subdistrict, (3) identify changes in the Subdistrict's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

Since the MD&A is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the Subdistrict's financial statements.

Financial Highlights

- The Subdistrict's share of tax revenue less assessments increased from \$9.4 million in 2005 to \$9.7 million in 2006. This represents an increase of approximately 3.2%. The increases are primarily due to the a greater property tax receivable at year end offset by a small decrease in Subdistrict tax rates, from 3.76 cents per \$100 of assessed valuation in 2005 to 3.73 cents per \$100 of assessed valuation in 2006. Other increases may be attributable to results from the continued growth in the assessed valuations of properties and new construction within the Metropolitan Zoological Park and Museum District, and a tax levy that approaches the maximum allowed by voters.
- The year-end balance of funds held for the Subdistrict by the Metropolitan Zoological Park and Museum District increased from \$3.5 million in 2005 to \$3.6 million in 2006. The increase is due to a greater number of taxpayers from the City of St. Louis and St. Louis County paying their property tax bill prior to the last day of the year, when these taxes are due, resulting in a larger balance of funds held within the Subdistrict's account.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Subdistrict's basic financial statements. The Subdistrict's basic financial statements include four components: 1) *Government-wide financial statements;* 2) *Fund financial statements;* 3) *Notes to the financial statements;* and 4) *Required supplementary information.*

Government-wide financial statements

The government-wide financial statements (that is, the **statement of net assets** and the **statement of activities**) report information on all of the activities of the Subdistrict. All of the Subdistrict's activities are classified as governmental activities, which normally are supported by tax revenues, as opposed to business-type activities, which rely to a significant extent on charges for services.

The **statement of net assets** presents information on all of the Subdistrict's assets and liabilities, with the difference between the two reported as net assets. Increases and decreases in net assets may serve as a useful indicator of whether or not the financial position of the Subdistrict is improving or deteriorating. The statement of net assets also provides information on unrestricted and restricted net assets and net assets invested in capital assets.

The **statement of activities** presents information showing how the Subdistrict's net assets changed during the most recent fiscal year. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of the timing of related cash flows. The statement of activities presents the various functions of the Subdistrict and the degree to which they are supported by charges for services, operating or capital grants and contributions, tax revenues, and investment income.

The government-wide financial statements include only the Subdistrict itself (the *primary government*). The government-wide financial statements do not include any blended component units. The Missouri Botanical Garden (the Garden) is not considered a component unit of the Subdistrict due to lack of control and financial accountability of the Garden to the Subdistrict.

Fund financial statements

The second set of statements is the fund financial statements (that is, the **balance sheet** and the **statement of revenues, expenditures, and changes in fund balance**) which provide information about groupings of related accounts which are used to maintain control over resources for specific activities or objectives. The Subdistrict uses fund accounting to demonstrate compliance with finance-related legal requirements. Traditional users of governmental financial statements will find the fund financial statements more familiar.

The Subdistrict uses only one governmental fund type, a general fund, to account for all activities of the Subdistrict. Fund financial statements for governmental funds are prepared using a modified accrual basis of accounting which differs from the full accrual basis of accounting used to prepare the government-wide financial statements. Therefore, the total fund balance for the governmental fund is reconciled to total net assets for governmental activities as shown on the statement of net assets. The net change in fund balance for the governmental fund is reconciled to the total change in net assets as shown on the statement of activities in the government-wide statements.

Notes to the financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

3

Required supplementary information

In addition to the basic financial statements and notes to the financial statements, this report presents required supplementary information concerning the Subdistrict's budgetary comparisons for the general fund.

Financial analysis of the Subdistrict as a whole

Net assets

On a government-wide basis, the Subdistrict's net assets were approximately \$8.5 million at fiscal year end and are shown in the table below.

Botanical Garden Subdistrict of the Metropolitan Zoological Park and Museum District of the City of St. Louis and St. Louis County Statement of Net Assets December 31, 2006

	Governmental Activities				
Assets:					
Current and other assets	\$ 8,449,236				
Total assets	\$ 8,449,236				
Liabilities:					
Other liabilities	-				
Total liabilities	-				
Net assets:					
Unrestricted	\$ 8,449,236				
Total net assets and liabilities	\$ 8,449,236				

As noted earlier, net assets may serve as a useful indicator of a government's financial position. For the Subdistrict, assets exceeded liabilities by over \$8.5 million at the close of the current fiscal year.

Governmental Activities

The following schedule shows the revenues and expenses for the Subdistrict's activities for the year ended December 31, 2006.

Botanical Garden Subdistrict of the Metropolitan Zoological Park and Museum District of the City of St. Louis and St. Louis County Statement of Activities Year Ended December 31, 2006

	 overnmental Activities			
General revenues:				
Property taxes	\$ 9,506,009			
Interest earnings Excess of ZMD operating fund	127,746			
receipts over disbursements	92,094			
Unrestricted investment earnings	156			
Total revenues	9,726,005			
Expenses: General government Payments to Missouri Botanical Garden:	26,435			
Botanical services	 9,300,000			
Total expenses	 9,326,435			
Change in net assets Net assets, beginning of year	 399,570 8,049,666			
Net assets, end of year	\$ \$ 8,449,236			

The Subdistrict's total revenue on a government-wide basis was \$9.7 million. Property taxes net of assessments retained by the Metropolitan Zoological Park and Museum District accounted for all but \$156 of the Subdistrict's revenue.

The total cost of all programs and services was \$9.3 million. Amounts passed through to the Missouri Botanical Garden as reimbursement for botanical garden services comprised 99.7% of

the Subdistrict's total expenses, while the Subdistrict's general government expenses comprised only .3% of the total.

Governmental activities increased the Subdistrict's net assets in 2006 by \$400,000 over net assets of \$8.0 million reported at December 31, 2005.

Financial Analysis of the Subdistrict's Governmental Fund

As previously mentioned, the purpose and focus of the Subdistrict's governmental fund is different than that of the government-wide financial statements. The focus of the Subdistrict's governmental fund is to provide information on the inflows, outflows, and balances of resources that are available for spending, as well as to demonstrate compliance with statutory and other legal requirements. As a result, the fund financial statements reflect a *current financial resources* focus rather than a *total economic resources* focus, which is used in the government-wide financial statements.

The Subdistrict restated its December 31, 2005 general fund balance as a result of a correction discussed in note 6 to the financial statements, which resulted in an increase to the December 31, 2005 general fund balance of \$3,043,829.

Given the focus of the fund financial statements, an unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At the end of the current fiscal year, the unreserved fund balance of the general fund was \$7.6 million. As a measure of the general fund's liquidity, it may be useful to compare this amount to total fund expenditures and transfers out which calculates to 82%.

The total fund balance in the Subdistrict's general fund increased by \$1.12 million or by 17% from December 31, 2005 to December 31, 2006. The change in the current fiscal year's fund balance is primarily due to the same factors identified for the increase in net assets on the statement of activities: more timely payment of property taxes by citizens of the City of St. Louis and St. Louis County, growing property values and new construction in the City of St. Louis and St. Louis County, offset by a decrease in the Subdistrict's tax rate from 3.76 cents of \$100 assessed valuation in 2005 to 3.73 cents per \$100 of assessed valuation in 2006.

General Fund Budgetary Highlights

The final budget for the Subdistrict's general fund represents the original budget, plus any supplemental appropriations approved during the year. No supplemental appropriations were made by the Subdistrict during 2006; therefore, the original budget and the final budget are identical. Revenues exceeded budgetary estimates by 2.2% and expenditures totaled 100.02% of budget. The budgeted amounts, however, are prepared on the cash basis of accounting; whereas the actual amounts are reported on a modified accrual basis.

Long-term Debt

During 2006, the Subdistrict paid off all long-term debt.

Requests for Information

This financial report is designed to provide a general overview of the finances of the Subdistrict of the Metropolitan Zoological Park and Museum District of the City of St. Louis and St. Louis County. Questions concerning any of the information provided in this report or requests for additional financial information should be directed to:

NOTES TO BASIC FINANCIAL STATEMENTS

(1) Summary of significant accounting policies

The financial statements of the Botanical Garden Subdistrict of the Metropolitan Zoological Park and Museum District of the City of St. Louis and St. Louis County (the Subdistrict) have been prepared in conformity with U.S. generally accepted accounting principles ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Governments are also required to follow the pronouncements and interpretations of the Financial Accounting Standards Board ("FASB") issued through November 30, 1989 (when applicable), that do not conflict with or contradict GASB pronouncements.

The following is a summary of the more significant accounting policies of the Subdistrict:

(a) Reporting Entity

The Subdistrict's financial reporting entity has been determined in accordance with governmental standards for defining the reporting entity and identifying entities to be included in its basic financial statements. In applying the criteria for determining financial accountability, the Subdistrict has determined that no other entities should be included within its basic financial statements.

(b) Government-wide and Fund Financial Statements

The government-wide financial statements (that is, the statement of net assets and the statement of activities) report information on all of the activities of the Subdistrict. All of the Subdistrict's activities are classified as governmental activities, which normally are supported by tax revenues, as opposed to business-type activities, which rely to a significant extent on fees and charges for services.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the Subdistrict and for each governmental program. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues. The comparison of program revenues to direct expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the Subdistrict.

Following the government-wide financial statements are separate financial statements for the Subdistrict's governmental fund. The Subdistrict uses only one governmental fund type, a general fund, to account for all activities of the Subdistrict. The total liabilities for the governmental fund is reconciled to total liabilities for governmental activities as shown on the statement of net assets.

NOTES TO BASIC FINANCIAL STATEMENTS

(1) Summary of significant accounting policies (continued)

(c) Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the basic financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. The accounts of the Subdistrict are maintained on the modified accrual basis of accounting.

Under the modified accrual basis of accounting, revenues are recorded when both measurable and available. The term "available" is defined as collectible within the current period or soon enough thereafter to be used to pay the liabilities of the current period. For the Subdistrict, available is defined as expected to be received within 60 days of fiscal year-end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

(d) Federal Income Taxes

The Subdistrict is exempt from federal income taxes under Section 115(1) of the Internal Revenue Code. Accordingly, there is no provision for income taxes in these basic financial statements.

(e) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

(2) Cash and cash equivalents

At December 31, 2006, the carrying amount of the Subdistrict's cash deposits was \$3,578, and the bank balance was \$14,056. These amounts were entirely covered by federal depository insurance.

NOTES TO BASIC FINANCIAL STATEMENTS

(3) Property taxes

The District levies property taxes on the assessed value listed as of each January 1 for all real and personal property located in the City of St. Louis and St. Louis County. The levy is based on an annual submission from the Subdistrict, which cannot exceed 4.0 cents per \$100 of assessed valuation. The tax levy was 3.73 cents per \$100 of assessed valuation for 2006. Taxes are levied each October and are due on December 31 for the previous January 1 assessment. Taxes collected by the District on behalf of the Subdistrict are recognized as revenue when credited to the Subdistrict's account with the District. The property taxes receivable is recorded net of an allowance for uncollectible accounts of \$384,673.

(4) Contract with the Missouri Botanical Garden

The Subdistrict and the Garden entered into an annually renewable contract for botanical services in 1983 which renews automatically for one year each December. This agreement provides for the installation, maintenance and improvement of facilities and performance of services which would benefit the general public in exchange for compensation not to exceed the amount of tax revenues received by the Subdistrict from the District, less any Subdistrict expenses. The annual compensation is determined each year based upon an annual budget submitted by the Garden to the Subdistrict.

(5) Budgetary control

The Subdistrict adopts an annual budget based on the operating budget submitted to the Subdistrict by the Garden and estimated Subdistrict administrative expenses. The annual budget is prepared on the cash basis of accounting, approved by the Subdistrict's Board of Commissioners, and submitted to the District for use in establishing the annual tax levy. Expenditures in total may not legally exceed appropriations.

(6) Restatement

During 2006, the Subdistrict's management determined that support from the District should be recorded on the modified accrual basis of accounting in the government fund principal statements. As such, revenues are recorded within the period of availability (60 days for the Subdistrict) when both measurable and available. As a result, an adjustment to the Subdistrict's December 31, 2005 general fund balance was made for an increase of \$3,043,829 due to these funds being collected within 60 days after December 31, 2005.

Notes to Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund- Budgetary Basis Required Supplementary Information – UNAUDITED

(1) Explanation of Budgetary Process

The Subdistrict adopts an annual budget based on the operating budget submitted to the Subdistrict by the Missouri Botanical Garden and estimated Subdistrict administrative expenses. The annual budget is prepared on the cash basis of accounting, approved by the Subdistrict's Board of Commissioners, and submitted to the District for use in establishing the annual tax levy. Expenditures in total may not legally exceed appropriations. For the year ended December 31, 2006, appropriations exceeded expenditures by \$1,791 in the General fund.

(2) Explanation of the Differences between the Excess of Revenues over Expenditures – Budget Basis and Net Change in Fund Balance – GAAP Basis

The Sudistrict's budgetary process is based upon accounting for certain transactions on a basis other than U.S. generally accepted accounting principles for governmental entities (GAAP). To provide meaningful comparison of actual results with the budget, the actual results of operations are presented in the Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund in accordance with a budget basis of accounting.

The major differences between the budget and GAAP basis of accounting are:

 Revenues are recorded when received in cash (budget), as opposed to when they are measurable and available (GAAP).

Adjustments necessary to reconcile the excess of revenues over expenditures from the GAAP basis to the budget basis of accounting are as follows:

Budget basis	\$ 204,022
Increase due to:	
Revenue accruals (interest and taxes)	 917,814
GAAP basis	\$ 1,121,836

See accompanying independent auditors' report.
