UMSL . . . is crowds

If you are a student at UMSL, chances have it you have been subjected to the first week rush. The most overwhelming obstacle you are faced with is the overwhelming crowds—people everywhere. People in line for course changes, parking spaces, advising, last minute registration, payment of fees, “Dean’s approval” on petitioning day and — most memorable of all — the bookstore lines.

UMSL . . . is celebration 15th Anniversary

During the school year 1978-1979, UMSL celebrates its 15th anniversary. Chartered in 1963, UMSL expanded from one building to two campuses and a network of extension centers. Currently, plans are in progress for an optometry school and the expansion of the University Center.

The face of UMSL never ceases to change. The acquisition of the Marillac Campus, the construction of the UMSL Commons, the Center for Academic Development, the Weldon Springs property and the UMSL Downtown Extension Center are a few of the recent expansions in the last five years.

UMSL is still a young university but is growing up rapidly. What was once a farm of Charles Lucas and later the grounds of the Bellerive Country Club, is now the second largest university in the state with a population of 12,000 students.

UMSL . . . is student governance

Central Council and the Senate have been successful in their accomplishments this year. Under the chairmanship of Pat Connaughton, Central Council has undergone a revision of its constitution. Student Body President Cortez Lofton has been working for a referendum to bring another form of student government to UMSL called Associated Students of the University of Missouri (ASUM). Chairman Robert Rea of the Senate helps direct many of the university's policies. The Senate is composed of 25 students and 75 faculty. Central Council is composed entirely of students. One representative per 500 students is elected and representatives from organizations also serve Council.

The World Around Us

1978

The drought was over, but the storms that followed were, in many parts of the country, blizzards and floods. President Carter's popularity was on the downswing because of his foreign policy and the releasing of the Panama Canal. The court rules for Bakke, but condones affirmative action. The nation watched as Californians staged the "Great Tax Revolt," better known as Proposition 13. Champions of world peace were weary with the loss of two Popes, the Russian spy trials, the People's Temple mass suicide and murders in Guyana, and continued tension in the Middle East. Issues still pending were the ERA, the Neutron Bomb, the "Self Rule" plan in Rhodesia, parquat poisonings, Cuban tension and the threat of Cold War. Muhammad Ali was upset and all of America caught "Saturday Night Fever."
