The Board of Curators, meeting April 10 in Rolla, defeated a motion by Board President William Billings to freeze enrollment on all four University of Missouri campuses.

In addition to limiting enrollment at present levels on all campuses, Billings' motion would have halted any new programs, including the proposed medical school at the Kansas City campus.

Others have indicated that freezing enrollment now is premature, suggesting that such decisions be postponed until the Missouri Legislature meets in special session this month and settles University appropriations.

President John C. Weaver said Governor Warren E. Hearnes had advised him that the university's recommended appropriation would be $80.7 million. The university requested $103 million for the fiscal year 1970-71.

If the $80.7 million recommendation is approved by the legislature, the university will receive the same appropriation next year as it received this year.

Hearnes told Weaver that, if the Missouri voters last week rejected the university's $103 million request, it would have to continue to find new sources of funds and that the state would not be able to balance the university's budget.

The two points were then added to the list of matters to be discussed at the May 3 Board of Curators meeting.

Continuing its policy of rewriting an ad hoc committee's recommendations on a Reserve Officers Training Course program here, the Faculty Senate last week added a provision that no credit be granted for further ROTC classes.

The university's $103 million request included a $14.5 million increase in fees as a means of easing the university's financial burden. Weaver did say, however, that all new programs for the next fiscal year may have to be eliminated.

Weaver agreed with Billings, noting that "there would have to be a $14.5 million increase (from $80.7 million) for a stand-still program." The faculty expressed concern that the university would be forced to go back to its $80.7 million request, which it would not have been able to balance.

The University of Missouri System has a $103 million request for the fiscal year 1970-71, which would include $14.5 million in fees. If the request is rejected, the university would have to cut programs and services.

The university has requested $103 million for the fiscal year 1970-71, which would include $14.5 million in fees. If the request is rejected, the university would have to cut programs and services.

Tax Defeat Leaves Future Uncertain

The outlook for UMSL next year can best be described as a continuation of the status quo in light of the tax revision failure in the April 7 referendum. Business officer John Perry said this week that the defeat would have no new capital improvements or existing programs will be wiped out. Perry emphasized that any new programs will be wiped out.

Debaters Place In National Tournament

UMSL debaters H. D. Felber and Mike Beatty compiled a six-three record to finish in the top ten at the Chicago Novice Nationals Tournament last weekend. Fifty-five novices from MIT, University of Wisconsin, Wayne State University, Stetson University of Tampa, Northern Illinois University, and Augustana College participated. Felber and Beatty defeated novice debaters from MIT, University of Wisconsin, Wayne State University, Stetson University of Tampa, Northern Illinois University, and Augustana College.

YAF Speaker Bothered

Philip Luce, college director for the Young Americans for Freedom, was bothered by a varying stream of grunting and heckling at a speech last Thursday in Benton Hall.

Luce, trying not to acknowledge the hecklers, continued his speech. However, the interruptions continued. At one point, a student jumped onto the stage and challenged Luce to keep on talking, screaming and yelling.

One or two students also used bullhorns to annoy Luce. It could not be determined by school officials whether the instruments had been obtained from the Student Activities Office or the Audiovisual Department.

The University's original budget request was for $103 million before the defeat of the tax revision measure. However, it is doubtful that any new programs will be wiped out. Perry also pointed out that the results of the student-faculty referendum on ROTC last month had indicated that the program was desired here.

Soon afterwards, the group left. While the speakers continued a collection for the Legal Defense Fund was taken. About $60 was gathered.

The Washington University students appeared untroubled by the heckling and said that they felt the rally had been successful in alerting UMSL students to their campaign methods and problems. They urged that discussion sessions concerning the nature of ROTC and means to keep it off the UMSL campus be organized.

Pressing for time? Stop at McDonald's.

The University of Missouri's original budget request was for $103 million before the defeat of the tax revision measure. However, it is doubtful that any new programs will be wiped out. Perry also pointed out that the results of the student-faculty referendum on ROTC last month had indicated that the program was desired here.

They urged that discussion sessions concerning the nature of ROTC and means to keep it off the UMSL campus be organized.

The Chicago showing earned Felber and Beatty their 30th award of this year. Their record is now 50-19.
Letter Campaign for American POWs in Vietnam

The UMSL Young Republicans are sponsoring a drive during the week preceding finals. It is being taught by Dr. Rosellen Cohnberg, Student Health Service, and members of the health center's staff.

The course will attempt to go beyond the scope of teaching first aid skills. It will include sessions on problems such as drug abuse, teaching in the inner city, common home accidents and other similar areas for which people need both basic medical knowledge and first aid skills. The project is being funded by the Central Council.

Completed applications should be turned in to Susan Baker in Room 117 or dropped in the Central Council mailbox.

Ross Perot, a self-made Dallas billionaire, who has been studying the prisoner of war problem, Perot hopes to collect letters from the public that express concern for each individual prisoner, his treatment, his health, and his family.

The Young Republicans have a booth located in Benton Hall for both day and night students to accept and mail letters. The letters should be addressed to Mr. H. Ross Perot, Box 100,000, Dallas, Texas.

First Annual Report of ANOTHER PLACE

Our first year found ANOTHER PLACE engaged in a learning process, as was anticipated. Through customer surveys we discovered the foods most desired by UMSL students, staff, & faculty. By experience we were able to make quality improvements and price reductions.

CUSTOMERS - Our customer breakdown is about 50% UMSL students, 26% staff & faculty and 25% business.

FOLKSINGING - The Friday & Saturday Coffee House arrangement, with table service, folk singing and imaginative ice cream creations & large sandwiches has exceeded expectations. Capacity crowds are the rule.

UNIVERSITY RELATIONS - The following is a partial listing of activities in which we became involved:

- $100.00 Scholarship each semester to overall UMSL student help.
- Provided a seminar meeting place for the Steamers Pep Club.
- Provided bug spray for last Spring's singout around Bug Lake.
- Campaign dinner rallies for student body presidential candidate.
- Selected as official Steamers post-game headquarters.
- Provided free Riverview season schedule.
- Distributed beer glass sets to season ticket holders.
- Offered a week of free lunches to each Riverview of the week.
- Offered below cost lunches to all freshmen during Orientation Week.
- Provided a folk singer for riverfront Pep Rally.
- Solicited local merchants to support a student-faculty discount book. Published and sold same.

ANOTHER PLACE - A second ANOTHER Place will open this summer at the University of Mo.

Involvement in Ecology--A Matter of Survival

Editorial

Ecology, all of a sudden, is the focus point for those individuals who seek to reform American society. Pointing to the pollution of our air and water, to the destruction of our national resources, and to the growing, burgeoning population, these ecology-buffs argue that we are destroying our environment, and, thereby, destroying ourselves. It is a powerful argument, supported by alarming facts, and promising a terrifying future—or, perhaps, no future at all for man.

These ecology-buffs, however, are uniting in a concerted effort to bring the problems of environment to the attention of the public. This effort is supposed to climax April 22, National Environmental Teach-in day, UMSL is taking part in this teach-in by sponsoring ecology lecturers, presenting environment programs, and by organizing an ECO-fair. These activities have involved a great deal of work by many UMSLans, notably biology students, and we believe that they are rewarded with the attention of the UMSL community.

It is necessary, though, to realize that these problems cannot be cured simply by exposing them to the public view. While this may be the first step, it is not by itself adequate. We must remember that the ecological holocaust we are now seeing is much about grown out of a complex of systems and social trends, especially industrialism, urbanization, and technology. Our society is based on production and consumption; we produce what we need for consumptive purposes; but since we can produce much more than we need, we consume more than we require, simply for the sake of production. This consumption-production cycle is a trap we entered unwittingly. Now that we face its manifold consequences—among them the knowledge that we cannot reproduce the resources we consume—we must realize that publicity and teach-ins are not the only prere­quisite for ecological survival. We must realize, instead, that we require a reappraisal of the value systems which led to the ecological catastrophe we now face. This is no light and transient undertaking; it is, instead, demanding and painful. But if we are to face and answer the complex of our problems, we must expect to find change in individuals and not simply non-painful.

Right on! ecologists; but right on! beyond April 22

The Vocal Minority

Apparantly a small group of UMSL students have decided that the guarantee of free speech under the First Amendment includes the privilege of heckling speakers and refusing to listen to their ideas while refusing to see peers. Two incidents, involving a Young Americans For Freedom speaker and an anti-ROTC drive were "atrocities" Thursday and Friday deserve special notice because of the extreme intolerance attitude of certain individuals.

Philip Luce of the YAF was verbally harassed until forced to leave Thursday. Although conser­vative speakers are in the distinct and negligible minority for many college students, they have the right to speak without fear of abuse.

The incident on the hill last Friday at a rally for the Legal Defense Fund to help Washington U. students in anti-ROTC drive was "abominable." What bothered us even more in the confrontation between the anti-ROTC group and the Greeks, ROTC students, and Viet­namese veterans, was the fact that it was led by some Central Council members who obviously took great relish in making asses of them­selves.

If this is the attitude that these Council members take with all problems that face them, then perhaps UMSL should have second thoughts about the outcome of the recent elections. There is no room in the Council for blind bigots who refuse to recognize differing opin­ions. There are enough problems in the Council without adding "bigoted hotheads" who operate without thought.

Perhaps the tone here is a little strong. But it should be because very few often lead the majority.

Thanks, Claudia

Elections, no matter how trivial, are seldom pleasant affairs. Few of the participants are ever satis­fied with the conduct of the campaign or the procedures for voting. In most instances, the people who are the targets of most of the criticisms are those individuals responsible for carrying out the election. The Central Council election last week was one of those instances: the target of the criticism was the election committee chair­claudia green.

Before, during, and after the election, Claudia Green was subjected to almost constant bicker­ing, second-guessing, and vituperation. Anyone with any complaint about the election vented his frustra­tion on Claudia, and in the midst of all the controversy one fact has been obscured: Claudia and her committee did the job. They cooperated in printing the special election issue of the CURRENT. They organized the campaign, canvassed the campus, scheduled campaign speeches on the hill, and they obtained the voting machines for the election. The use of these machines was a par­ticularly creative and significant improvement in voting at UMSL; the ballot was secret, students were prevented from voting more than once, and the tabulation of the ballots was both timely—and labor-saving; all this cost UMSL only transportation charges.

There were difficulties and upsets in the election, true; but these were overshadowed by these innovations and the orderly con­duct of the voting. The Current thanks Claudia Green and the elec­tion committee for the hardwork and ingenuity they devoted to the election.

The UMSL CURRENT is the official student publication of the University of Missouri-St. Louis. It is printed weekly and funded through the Student Activity Fee. The UMSL CURRENT office is located in the Administration building, room 210, 8001 Natural Bridge road, Advertising and subscription rates given on request.

The favorite American pollutant -- the tin can.

photo by Steve Fairchild
Environmental Rape - Who Can We Blame?

"According to an analysis of economic and political power in our society, who can we say is responsible for environmental mismanagement? In our view, the underlying force is profit as pursued by the "triple bottom line," whether they are the private owners of industry as in the U.S., or the managerial/technocratic elite class in the U.S.S.R. Thus, pollution is merely the consequence of their using the lakes, rivers, air, etc. as free and therefore profitable waste disposal areas. Product design, land use, and resource development are other objects of economic and political decisions which primarily serve private property interests and only incidentally relate to the people's needs. Hence, the current concentration on cars for urban transportation instead of comprehensive high quality public transportation systems represents the incredible extreme to which private profit-seekers have taken us.

In some respects the ruling class has gone too far in destroying the environment--from its own point of view. Somewhat belatedly, they are discovering that their profits, in some cases, are being threatened by various eco-system failures. For this reason, we are now seeing action in apparent support of a better environment from the ruling class, mass media, universities, and political parties. But what results can we possibly expect?

Certain isolated changes will be made to protect critically endangered eco-systems--e.g., concerning pesticides and detergents. Some broad programs for general air and water clean-up might even be carried out by incorporating waste treatment into the production cost of goods and by moderate government spending. But, of course, all such programs will be designed to be paid for by the people, and very little change will be made in other basic areas, crucial not only to the needs of people but to the profits of private interests. It is therefore easy to predict that such programs advanced by the ruling class will most likely be a smokescreen for the continuing rape of the environment.

The preceding thoughts were voiced on the second day of a weekend Ecology Conference in Cambridge, Massachusetts. The Students for Environmental Action was organized last summer in the center of campus; and, the following month, he and General William J. Scott. The article was reprinted to point out the dilemma that they have reached long before the public. It is an one-chance opportunity to witness these leaders in action. They will begin at 11:45. Debbie Dey of S.E.A. said of these films, "This is a one-chance opportunity to witness these leaders in action. One can not help but gain greater insight into the common problem of overpopulation."
YES FOLKS! NOW YOU CAN BE THE FIRST ON YOUR BLOCK TO EXPERIENCE THE ECOLOGICAL DISASTER.
WHY WAIT TILL 1980?
DON'T LET THE FUTURE TAKE YOU BY SURPRISE.
PREPARE NOW FOR THE END OF CIVILIZATION.
REHEARSE FOR THE APOCALYPSE.
HERE ARE A FEW SUGGESTIONS:

Better start preparing your pallette and stomach for the fare of the 80's:
* Mix detergent with everything you eat and drink. There's already quite a bit but there will be a lot more in the future.
* Learn how to digest grass and other common plants.
* Start fattening your dog, cat, parakeet and guppies for the main course of the future.

* Develop a taste for ancestors weren't too proud to
cestors weren't too proud to
* Practice starving.
* Every night beforeustrial and organic waste (you prefer).
dustrial and organic waste (you prefer).

Appreciating that most disappear over the next ten this little dry run:
* Turn off your gas
* Turn off your water
* Turn off your telephone
* Turn off your heat
* Turn off your electricity
* Sit naked on the floor

PROGRESS IS OUR MOST PROGRESS IS OUR...

oor and repeat this chant:

IMPORTANT PRODUCT,

approaches there's no better
time to start hoarding. Start buying things you'll need
after the Fall on credit - after the collapse no one will
bother with collecting debts.

* While on the subject: start thinking about crea-
tive new uses for money since its present function will
soon end. Remember, paper - particularly tissue - will be
in short supply.

* Think about creative new uses for other poten-
tially obsolete things like electric can openers, televisions,
brassieres, toilets, alarm clocks, automobiles, etc.

* Accustom yourself to human body odor.

* Now is the time to start hoarding. Start
buying things you'll need
after the collapse no one will
bother with collecting debts.

* Accustom yourself to human body odor.

* For those of you who are investment minded,
buy land, but you'd better leave enough bread to also
buy a small arsenal to defend your property with

* Remember Victory Gardens? Plant your Sur-
vival Garden now!

* Better quit smoking - or rip off a tobacco ware-
house.

* Stockpile useful items like matches, safety pins,
thread and needles, condoms, etc.

* Learn how to shoot a bow and arrow.

* Start preparing for the fashions of the future.
You girls might take a hint from the heroines of monster
films and start tearing your clothing in tasteful but stra-
tegically located tatters in order to create the Fay Wray
look of tomorrow. Those less frivolous minded among
you should start cultivating your body hair. (Remem-
ber a naked ape is a cold ape)

* You housewives had better learn how to maim
and kill with a vegematic.

* Finally everyone should buy a boy scout man-
ual - or in lieu of that, buy a boy scout.

SO IN FACING THE WORLD OF TOMORROW
REMEMBER: BUILD FOR THE FUTURE AND CON-
TEMPLATE SUICIDE.
ECO-FAIRRE TO BE HELD IN FOREST PARK

St. Louis University and The Pollution for the Environment will present an Eco-Faire, Sunday, April 26 on Government Hill in Forest Park. Beginning at noon a continuous program of speakers, movies, and exhibits will conclude at 5:00 p.m. with a massive litter clean-up of the area. Short folk concerts will separate the speakers on a specially constructed stage supplied by the city park commission.

The public is encouraged to attend this unique event. At the time of this article the group was planning to place all exhibits under a plastic bubble constructed by Washington University School of Architecture. The UMSL Students for Environmental Action will assist Planned Parenthood Association in an exhibit entitled "Overpopulation." It will be placed under the plastic Eco-Sphere.

One of the 35 community groups participating is Black Survival, a group of St. Louis blacks determined to improve the decay of their brother's environment. They will present an original satire of their plight. The birth of the unique group coincided with the destruction of their clothing on the Monday wash lines. Neighbors industries were accused of belching out large quantities of sulphur dioxide, a gas which on contact with the air is known to transform itself into corrosive sulphuric acid.

Other organizations attending the fair include the Audubon Society, the Legal Aid Society, the Missouri Conservation Commission, the Committee for Environmental Information, Teamster Local 688, and the Missouri Botanical Society.

Such name speakers as Barry Commoner will keynote the program. Movies will be held of the 1964 World's Fair Pavilion. All programs are free of charge. Area News media will publish the schedule of events. Watch your paper for time and listing.

Boy, you had me worried for a moment there—I thought you said THREE TO FIVE YEARS!
New Radio Show on Campus Life

With an enrollment of almost 9,600 students, UMSL ranks as the third largest public college in the state of Missouri. It is located in the key population center in the state. Seventy two per cent of the faculty of 300 hold Doctorate degrees. More than eighty per cent of its graduates remain in St. Louis to live and work. Yet despite these qualifications, many of the people in St. Louis remain oblivious to UMSL's existence.

As a partial response to this problem FM radio station KGRV has given UMSL two hours a week to express the views and publicize the news of the students on campus. This represents the beginning of a series of weekly broadcasts, incorporating the four major college campuses in the St. Louis area: UMSL, St. Louis U., Washington U., and SIU-E. Each school will be given three months air time, and at the end of a year the cycle will begin again.

Why is KGRV inaugurating this type of series? Sue Anderson, vice-president, Apollo Radio Corporation and general manager of KGRV, said that "the Federal Communications Commission requires us to present programming by, or in behalf of, educational organizations. Other stations fulfill this by adding up small sections of time during the broadcast week, but we believe that our way would be of greater value to the participating universities, and also probably give us a larger university audience.

"We chose UMSL first because I am more acquainted with the Missouri system. Besides the other schools have also had exposure, and you hadn't. KGRV, or "K-GROOVE," as it is publicized, features music for "groovy adults," that is, from fifteen to eighty-five. Ramsey Lewis, Claudine Longet, The Vogues, Jack Jones, Fifth Dimension, and Simon and Garfunkel are examples of the kind of performers who hold forth from 6 a.m. to midnight on 108 FM. The "Campus Show," featuring UMSL senior Jack Connors, is aired live from 6 to 7:45 a.m. every Saturday.

KGRV, or "K-GROOVE," is conducted in the key population center in the state, and during this period the show provides the information and kinds of music that UMSL students want. "We want to build a FM station with the kind of music you want and that you are not afraid to turn on. We hope to do ourselves some good and also help out your growing university."

Does it hurt to chill beer twice?

Not that you'd want to. Sometimes it just happens...like after a picnic, or when you bring home a couple of cold 6-paks and forget to put 'em in the refrigerator. Does rechilling goof up the taste or flatten the flavor?

Relax. You don't have to worry. A really good beer like Budweiser is just as good when you chill it twice. We're mighty glad about that. We'd hate to think of all our effort going down the drain just because the temperature has its ups and downs.

You can understand why when you consider all the extra trouble and extra expense that go into brewing Bud. For instance, Budweiser is the only beer in America that's Beechwood Aged.

So...it's absolutely okay to chill beer twice. Enough said. (Of course, we have a lot more to say about Budweiser. But we'll keep it on ice for now.)

Budweiser is the King of Beers.

(But you know that.)

Information on future issues of this calendar should be phoned to Joe Figler (663-8713). Items must be received before Sunday noon for the calendar beginning on the next Friday.

**Organizational Meetings and Activities**

The Computer Club, a new campus organization established by the UMSL Computer Center, has received temporary recognition by Dean of Student Affairs David Ganz.

The purpose of this organization is to promote interest in the use of the computing facilities. Particularly this group will appeal to those persons who are unable to make a significant investment in time or money, but want to become familiar with computers actively.

Membership is open to all students, faculty, and staff at UMSL. The club will schedule lectures, movies, and other kinds of technical presentations relating to the computer field.

Workshops will be offered throughout the year. This instruction will be provided by the Computer Center staff until the time this responsibility can be assumed by the membership. The director of the Computer Center will furnish computer time from his allotment in order to add substance to these classes.

All interested students, faculty, and staff members are invited to the first meeting on April 22, in Room 302, Benton Hall.

The University Placement Office announces that Dick Kallmeyer will be at the Placement Office April 22 to interview all students who are interested in the McDonnell Co-op program.

Six major functions within the McDonnell organization are participating in this program of cooperative education: accounting, automation, contracts, personnel, procurement, and systems and procedures. First and second year college students are eligible to apply.

Interview signups will be held in the U.P.O., Room 211, Administration Building.

Washington University took first place in the St. Louis Intercollegiate Chess Tourney at UMSL April 12. The UMSL team finished third in the five-school meet.

**Free Spring Concert Sunday**

The 52-member UMSL Concert Band presents its annual free spring concert at 3:00 p.m. April 19 in room 105, Benton Hall. A glimpse into the avant garde vein of contemporary music will be provided by the band's performance. Also included will be Gustav Holst's "First Suite in E" and "Acca­lation" by Missouri composer Claude Smith.

Light selections, including Latin composers, Broadway show music, and marches, will complete the program.

**World Campus Afloat**

is a college that does more than broaden horizons.

It sails to them and beyond.

Again in the 1970-71 academic year, the accredited World Campus Afloat program of Chapman College Veterans Center is associated Colleges and Universities will take qualified students, faculty and staff into the world laboratory.

Chapman College currently is accepting applications for both the fall and spring semesters. Preliminary applications also may be made for all future semesters.

Fall semester departure New York aboard the s.s. Ryndam for port stops in the Mediterranean and Latin America, ending in Los Angeles. Spring semester circles the world from Los Angeles, stopping in Asia and Africa and ending at New York.

On Monday the golf Rivermen topped off a hectic, yet successful week with a 12 1/2-9 1/2 victory over the Southeast Missouri Infantry in a match played at Cape Girardeau. Ron Brewer capped medalist honors, turning in an excellent round of 76. This week's Riverman of the Week, Tom O'Hare, carded a 77, while SEMO's Charles Stamp led the Cape Golfers with an 83.

Friday, April 10, saw UMSL take on Western Illinois at St. Louis University and SIU-Edwardsville in a match held at Normandie Country Club. UMSL finished the day with a 9 1/2-8 1/2 victory over Western Illinois, an 11 1/2-6 1/2 win over St. Louis U., and a 10-8 loss at the hands of SIU-E. Tom O'Hare led the way for UMSL with a three over par 74, top score of the day. The Cougars' Tom Kamann led the visiting teams with a 75 while Ernie Parsons led SIU with an 81 and John Moller paced his Western Illinois teammates with an 82. The loss to SIU-E was the second loss in two meetings with SIU-E before the season ends.

UMSL opened the week with a double win over Illinois College and Calver-Stockton in a match held April 8 at Normandie. Tom O'Hare led the way with a round of 78, good for the first of his two medalist honors in as many matches, as the Rivermen topped Illinois College, 14 1/2-1/2, and Calver-Stockton, 14-1. Ron Brewer and Doug Sollday both shot 80's as UMSL humiliated both visitors, winning all of their matches against the two teams.

**Baseball Seven**

In the second game, Denny Spitzer scattered four hits as he pitched UMSL to a 4-1 triumph. Both teams scored three runs in their fourth inning, but a Rivermen tally in the first made the difference.

Tuesday's scheduled baseball game with Concordia Seminary, at the Concordia field, was postponed due to wet grounds. Concordia Athletic Director Pete Pederson and UMSL coach Arnold Copeland have rescheduled the game for April 22 at 4 p.m.

This afternoon the Rivermen travel cross town to meet the Bears of Washington U. in a 3:30 game at W.U.'s Um Field.
Tennis Coach Builds For Future

by Marty Hendin, Associate Sports Editor

Despite the poor showing of UMSL's first three tennis teams this season, Coach Gene Williams foresees a bright future for the red and gold septet.

Williams has added more matches to the schedule, more road trips and new uniforms in an attempt to attract more experienced tennis players to UMSL. In addition, Williams says, "We have the possibility of some junior college lettermen and high school players that we have taught. I hope that if they decide to stay in St. Louis they will come to UMSL."

Another promising factor in the Riverman future is the fact that four of the seven team members are freshmen and sophomores. Williams has already seen marked improvement in these previously inexperienced players, and he feels that if they play through the summer and in tournaments they will improve 100% each year.

Baseball Seven Backfires Twice

The Rivermen baseballers, who scored 7 runs in their 7th win on April 7, stayed with seven in their April 9 game but with disastrous results. Against Harris Teachers College, the red and gold committed seven errors for seven unearned runs, as they lost their first game of the season 11-6. The Rivermen led 5-2 after four innings but gave up four runs and the game in the fifth. Bill Binsbacher was the starting and losing pitcher for UMSL. Rick Hibbeler led Rivermen batters with a homer and a double.

Friday, April 10, the Rivermen played a doubleheader at Central Methodist as they made up a rain-out. In the first game, Kirkwood High graduate Tim Carter hit a three-run seventh inning home run to give Central a 10-7 win. Most of the scoring was done in the sixth and seventh innings. After Gary Skinner's home run gave UMSL a 3-2 lead, Central scored 4 runs in the sixth.

The Rivermen came right back to tie with four in their seventh but then Carter hit his game winner. UMSL had only three hits in the game. Skinner's four-bagger and singles by Brad Beckwith and Bill Naucke, but took advantage of walks and errors for their runs. At one point, the Central pitcher walked five Rivermen in a row. The losing pitcher was Dale Westerhold.

Tennis Coach Builds For Future

Members of this year's team are seniors Rich Fortney and captain Don Brindley, the only returning lettermen. New to the squad are junior Al Ho, sophomores Les Cornelius, Ray Ruby and Ron Williams and freshman Scott Neiman.

Thus far in this 1970 season, the tennis Rivermen have dropped the three matches they have played. They opened the season losing to a fine Washington University team, 7-1. The UMSL point was scored by the doubles team of Don Brindley and Ron Williams. The two also accounted for both Riverman points in a 7-2 loss to Concordia.

as they teamed for a double win following Brindley's victory in his singles match.

In their first home match last Saturday, the tennis Rivermen dropped a 5-4 decision to Westminster College as Brindley, Ray Ruby and Al Ho won their singles matches, with Brindley and Ruby teaming for another doubles win.

Coach Williams named Brindley and Ruby as his most consistent players thus far, but he praised the entire team, citing their interest and enthusiasm. The coach feels that the Rivermen can win one or two matches this season, but "we'll have to get a couple of breaks along the way."
